TITLE 7—AGRICULTURE

Chapter III—Agricultural Research Service, Department of Agriculture

PART 301—DOMESTIC QUARANTINES

SUBPART—PINK BOLLWORM

MISCELLANEOUS AMENDMENTS

On December 24, 1953, and March 5, 1954, there were published in the FEDERAL REGISTER (18 F. R. 8701, 19 F. R. 1254) notices of public hearing and of proposed rule making concerning amendments of the pink bollworm quarantine and the regulations thereunder (7 CFR 301.52, 301.52–1 et seq., as amended, 18 F. R. 6348, 7339) to quarantine the State of Arkansas because of the pink bollworm, to designate as lightly infested regulated areas certain counties and parishes in Arkansas, Louisiana, and Oklahoma, and to redesignate as a heavily infested regulated area the county of Bexar, in Texas, which is currently designated as a lightly infested regulated area.

After public hearing and due consideration of all relevant matters presented pursuant to the notices, and under the authority of sections 8 and 9 of the Plant Quarantine Act of 1912, as amended (7 U. S. C. 161, 162), it has been determined that it is necessary to quarantine the State of Arkansas to prevent the spread of the pink bollworm, a dangerous insect infestation, not heretofore widely prevalent or distributed within and throughout the United States, and the provisions of the pink bollworm quarantine and regulations contained, respectively, in 7 CFR 301.52 and 301.52–2, as amended, are hereby further amended in the following respects:

1. In § 301.52 the first sentence is amended to read: "Under the authority conferred by section 8 of the Plant Quarantine Act of August 20, 1912, as amended (7 U. S. C. 161) and after public hearings as required thereunder, the States of Arizona, Arkansas, Louisiana, New Mexico, Oklahoma, and Texas are hereby quarantined to prevent the spread of the pink bollworm, and under the authority contained in said Plant Quarantine Act (7 U. S. C. 151 et seq.) and in the Insect Pest Act of March 3, 1905 (7 U. S. C. 141 et seq.), the regulations hereinafter set forth shall govern the movement of pink bollworms and carriers thereof."

2. Section 301.52–2 (a) is amended by inserting the word "Bexar" after the word "Bee", in the list of counties in Texas designated as heavily infested areas.

3. Section 301.52–2 (b) is amended by inserting the following new paragraph between the paragraph beginning with the word *"Arizona"* and the paragraph beginning with the word *"Louisiana"*:

Arkansas. Counties of Columbia, Hempstead, Howard, Lafayette, Little River, Miller, Nevada, and Sevier.

4. Section 301.52–2 (b) is further amended by deleting the paragraph beginning with the word *"Louisiana"* and substituting therefor the following:

Louisiana. Parishes of Acadia, Allen, Beauregard, Bienville, Bossier, Caddo, Calcasieu, Cameron, Claiborne, De Soto, Evangeline, Iberia, Jefferson Davis, Lafayette, Lincoln, Natchitoches, Red River, Sabine, St. Landry, St. Martin, Union, Vermilion, Vernon, and Webster.

5. Section 301.52–2 (b) is further amended by deleting the paragraph beginning with the word *"Oklahoma"* and substituting therefor the following:

Oklahoma. The entire State.

The purposes of these amendments are to include the State of Arkansas under the pink bollworm quarantine, to regulate Bexar County, Texas, as a heavily

FEDERAL REGISTER

Published daily, except Sundays, Mondays, and days following official Federal holidays, by the Federal Register Division, National Archives and Records Service, General Services Administration, pursuant to the authority contained in the Federal Register Act, approved July 26, 1935 (49 Stat. 500, as amended; 44 U. S. C., ch. 8B), under regulations prescribed by the Administrative Committee of the Federal Register, approved by the President. Distribution is made only by the Superintendent of Documents, Government Printing Office, Washington 25, D. C.

The regulatory material appearing herein is keyed to the Code of Federal Regulations, which is published, under 50 titles, pursuant to section 11 of the Federal Register Act, as amended August 5, 1953.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $1.50 per month or $15.00 per year, payable in advance. The charge for individual copies (minimum 15¢) varies in proportion to the size of the issue. Remit check or money order, made payable to the Superintendent of Documents, directly to the Government Printing Office, Washington 25, D. C.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER.

infested, instead of a lightly infested, area, and to regulate as lightly infested areas Bienville and Webster parishes in Louisiana, the Arkansas counties indicated above, and all presently nonregulated counties in Oklahoma, in addition to the other counties and parishes in the quarantined States presently designated as lightly infested areas.

The amendment with respect to Arkansas parallels quarantine action already taken by that State.

Bienville and Webster Parishes, Louisiana, although not known to be infested, are located between infested parishes and because of interchange of cotton products are being included in the regulated areas.

All presently nonregulated counties in Oklahoma are included in the regulated areas for several reasons. Pink bollworm infestations have been found in the counties of Blaine, Kingfisher, Logan, and Roger Mills, north of the presently regulated areas. There are also now three isolated regulated areas in the southeastern quarter of the State. Both Oklahoma and Arkansas plant quarantine officials agree that addition of all presently nonregulated counties in Oklahoma to the regulated areas would be advisable to protect Arkansas against spread of the pink bollworm. Cotton production in the presently nonregulated areas of Northern Oklahoma is very limited, with only a few scattered gins. Consequently, from the standpoint of effective quarantine enforcement and to reduce the volume of intrastate permit work, Federal and State officials concur in the action to include the entire State of Oklahoma in the regulated areas.

Redesignation of Bexar County, Texas as heavily infested instead of lightly infested area is essential because pink bollworm infestation there is sufficiently heavy at the time of the State's stalk-destruction date to cause pink bollworms, when deprived of their primary host, to infest pods of commercial plantings of okra. Such a redesignation of Bexar County imposes stricter requirements on shipments of okra, the pods of which often become heavily infested with pink bollworm.

These amendments should be made effective as soon as possible in order to be of maximum benefit in preventing the interstate spread of pink bollworms. Good cause is found, therefore, for issuing this document effective less than 30 days after its publication in the FEDERAL REGISTER, as provided in section 4 of the Administrative Procedure Act (5 U. S. C. 1003).

These amendments shall be effective on and after April 1, 1954.

(Secs. 1, 3, 33 Stat. 1269, 1270, sec. 9, 37 Stat. 318; 7 U. S. C. 141, 143, 162. Interprets or applies sec. 8, 37 Stat. 318, as amended; 7 U. S. C. 161)

Done at Washington, D. C., this 29th day of March 1954.

[SEAL] B. T. SHAW,
Administrator,
Agricultural Research Service.

Chapter IX—Agricultural Marketing Service (Marketing Agreements and Orders), Department of Agriculture

[Docket No. AO-231-A4]

PART 943—MILK IN THE NORTH TEXAS MARKETING AREA

ORDER AMENDING ORDER, AS AMENDED

§ 943.0 *Findings and determinations.* The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order and of each of the previously issued amendments thereto; and all of said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth in this section.

(a) *Findings upon the basis of the hearing record.* Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, as amended, governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held upon certain proposed amendments to the tentative marketing agreement and to the order, as amended, regulating the handling of milk in the North Texas, marketing area. Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order, as amended, and as hereby further amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the act;

(2) The parity prices of milk as determined pursuant to section 2 of the act are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply and demand for milk in the marketing area, and the minimum prices specified in the order, as amended, and as hereby further amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(3) The said order, as amended, and as hereby further amended, regulates the handling of milk in the same manner as, and is applicable only to persons in the rspective classes of industrial and commercial activity, specified in a marketing agreement upon which a hearing has been held.

(b) *Additional findings.* It is hereby found and determined that good cause exists for making this order amending the order, as amended, effective not later than April 1, 1954. Such action is necessary in the public interest in order to reflect current marketing conditions and to insure the orderly marketing of available milk supplies. Accordingly, any further delay in the effective date of this order amending the order, as amended, will seriously impair the orderly marketing of milk produced for the North Texas marketing area. The regulatory provisions of this order amending the order, as amended, are such that little or no preparation prior to its effective date will be required of handlers regulated thereunder. Under these circumstances the handlers will be afforded reasonable time for any such preparations as may be necessary. Therefore, it is impracticable, unnecessary, and contrary to the public interest to delay the effective date of this order amending the order, as amended, until at least 30 days after its publication in the FEDERAL REGISTER, and good cause exists, pursuant to section 4 (c) of the Administrative Procedure Act (5 U. S. C. 1001 et seq.) for making this order amending the order, as amended, effective April 1, 1954.

(c) *Determinations.* It is hereby determined that handlers (excluding cooperative associations of producers who are not engaged in processing, distributing, or shipping milk covered by this order, as amended, and as hereby further amended, which is marketed within the North Texas marketing area) of more than 50 percent of the milk which is marketed within the said marketing area, refused or failed to sign the proposed marketing agreement regulating the handling of milk in the said marketing area, and it is hereby further determined that:

(1) The refusal or failure of such handlers to sign said proposed marketing agreement tends to prevent the effectuation of the declared policy of the act;

(2) The issuance of this order amending the order, as amended, is the only practical means pursuant to the declared policy of the act, of advancing the interests of producers of milk which is produced for sale in the said marketing area; and

(3) The issuance of this order amending the order, as amended, is approved or favored by at least two-thirds of the producers who, during the determined representative period (January 1954), were engaged in the production of milk for sale in the said marketing area.

Order relative to handling. It is therefore ordered, that on and after the effective date hereof the handling of milk in the North Texas marketing area shall be in conformity to and in compliance with the terms and conditions of the aforesaid order, as amended, and as hereby further amended, and the aforesaid order, as amended, is hereby further amended as follows:

1. Delete paragraph (b) of § 943.51 and substitute therefor the following:

(b) *Class II milk.* For each of the months of April, May and June, the price computed pursuant to § 943.50 (c), rounded to the nearest one-tenth cent; for each of the months of July 1954 through March 1955, the price computed pursuant to § 943.50 (b) less 16 cents or the price computed pursuant to § 943.50 (c), whichever is higher, rounded to the nearest one-tenth cent; and for each of the other months of the year, the price computed pursuant to § 943.50 (b) or the price computed pursuant to § 943.50 (c), whichever is higher, rounded to the nearest one-tenth cent: *Provided*, That for each of the months of April, May, June, and July 1954, the minimum price per hundredweight for Class II milk disposed of for use in Cheddar cheese shall be computed by multiplying the simple average of the daily prices paid per pound, using the midpoint of any price range as one price, for Wisconsin State Brand Cheddars in cars or truckloads, f. o. b. Wisconsin assembly points, as reported by the Department for the trading days during such month, by 8.0.

2. Amend § 943.52 (b) to read as follows:

(b) *Class II milk.* For each of the months of April 1954 through June 1955, multiply such price for the current month by 1.08 and for each month after June 1955, multiply such price for the current month by 1.15.

3. Delete paragraph (b) (3) of § 943.41 and substitute therefor the following:

(3) Disposed of (i) as bulk milk or skim milk during the months of March through August, (ii) as bulk cream during any month, and (iii) as ungraded bulk milk or skim milk during any month, to commercial bakeries or food product manufacturing plants (other than dairy plants) which do not dispose of milk for fluid consumption: *Provided*, That the amount of skim milk or butterfat so classified pursuant to subdivision (iii) of this subparagraph shall not exceed the butterfat and skim milk contained in ungraded milk received by such handler from dairy farmers during the month.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. and Sup. 608c)

Issued at Washington, D. C., this 29th day of March 1954 to be effective on and after April 1, 1954.

[SEAL] JOHN H. DAVIS,
Assistant Secretary of Agriculture.

[F. R. Doc. 54-2369; Filed, Mar. 31, 1954; 8:56 a. m.]

PART 949—MILK IN THE SAN ANTONIO, TEX., MARKETING AREA

ORDER AMENDING ORDER, AS AMENDED, REGULATING HANDLING

§ 949.0 *Findings and determinations.* The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order; and all of said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth in this section.

(a) *Findings upon the basis of the hearing record.* Pursuant to the provisions of the Agriculture Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, as amended, governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held upon proposed amendments to the tentative marketing agreement and to the order, as amended, regulating the handling of milk in the San Antonio, Texas, marketing area. Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order as amended and as hereby further amended, and all of the terms and conditions of said order as amended and as hereby further amended, will tend to effectuate the declared policy of the act;

(2) The parity prices of milk produced for sale in the said marketing area as determined pursuant to section 2 of the act are not reasonable in view of the price of feeds, available supplies of feeds and other economic conditions which affect market supply of and demand for such milk, and the minimum prices specified in the order, as amended, and as hereby further amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk and be in the public interest; and

(3) The said order, as amended, and as hereby further amended, regulates the handling of milk in the same manner as and is applicable only to persons in the respective classes of industrial and commercial activity specified in a marketing agreement upon which a hearing has been held.

(b) *Additional findings.* It is hereby found and determined that good cause exists for making this order, amending the order, as amended, effective not later than April 1, 1954. Such action is necessary in the public interest in order to reflect current marketing conditions and to insure the orderly marketing of available milk supplies. Accordingly, any further delay in the effective date of this order amending the order, as amended, will seriously impair the orderly marketing of milk produced for the San Antonio, Texas, marketing area. The regulatory provisions of this order amending the order, as amended, are such that little or no preparation prior to its effective date will be required of handlers regulated thereunder. Under these circumstances the handlers will be afforded reasonable time for any such preparations as may be necessary. Therefore, it is impracticable, unnecessary, and contrary to the public interest to delay the affective date of this order amending the order, as amended, until at least 30 days after its publication in the FEDERAL REGISTER, and good cause exists pursuant to section 4 (c) of the Administrative Procedure Act (5 U. S. C. 1000) for making this order amending the order, as amended, effective April 1, 1954.

(c) *Determinations.* It is hereby determined that handlers (excluding cooperative associations of producers who are not engaged in processing, distributing or shipping milk covered by this order, amending the order, as amended, which is marketed within the San Antonio, Texas, marketing area) of more than 50 percent of the milk which is marketed within the said marketing area, refused or failed to sign the proposed marketing agreement regulating the handling of milk in the said marketing area, and it is hereby further determined that:

(1) The refusal or failure of such handlers to sign said proposed marketing agreement tends to prevent the effectuation of the declared policy of the act;

(2) The issuance of the order amending the order, as amended, is the only practical means, pursuant to the declared policy of the act, of advancing the interests of producers of milk which is produced for sale in the said marketing area; and

(3) The issuance of this order amending the order, as amended, is approved or favored by at least two-thirds of the producers who, during the determined representative period (January 1954), were engaged in the production of milk for sale in the said marketing area.

Order relative to handling. It is therefore ordered that on and after the effective date hereof the handling of milk in the San Antonio, Texas, marketing area shall be in conformity to and in compliance with the terms and conditions of this order, as amended, and as hereby further amended, and the aforesaid order, as amended, is hereby further amended, as set forth below:

1. Delete § 949.53 and substitute therefor the following:

§ 949.53 *Class II milk.* The prices, rounded to the nearest full cent, for Class II milk shall be determined pursuant to paragraph (a) of this section for the months of April, May, and June and the higher of the prices determined pursuant to paragraphs (a) and (b) of this section for all other months: *Provided*, That from the effective date of this proviso through July 1954 the price for Class II milk disposed of for use in cheese other than cottage cheese shall be the simple average of the prices paid dairy farmers for milk containing 4 percent of butterfat delivered during the month for which prices are being computed to cheese plants located at Alice and Round Rock, Texas, and operated by the Fort Worth Poultry and Egg Company.

(a) The average of the basic or field prices per hundredweight reported to have been or to be paid for milk of 4.0 percent butterfat content received from farmers during the month at the following plants or places for which prices have been reported to the market administrator or to the United States Department of Agriculture:

Carnation Co., Sulphur Springs, Tex.
The Borden Co., Mount Pleasant, Tex.
Lamar Creamery, Paris, Tex.

(b) The sum of the amounts computed pursuant to subparagraphs (1) and (2) of this paragraph:

(1) Multiply by 4.4 the simple average as computed by the market administrator of the daily wholesale selling prices (using the midpoint of any price range as one price) of Grade A (92-score) bulk creamery butter per pound at Chicago as reported by the United States Department of Agriculture during the month;

(2) From the average of the carlot prices per pound of nonfat dry milk solids for human consumption, spray process, f. o. b. manufacturing plants in the Chicago area as reported by the United States Department of Agriculture for the period from the 26th day of the preceding month through the 25th day of the current month, subtract 5 cents, multiply by 8.16.

2. In § 949.54 (b) delete "0.120" and substitute therefor "0.108".

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. and Sup. 608c)

Issued at Washington, D. C., this 29th day of March 1954, to be effective on and after April 1, 1954.

[SEAL] JOHN H. DAVIS,
Assistant Secretary of Agriculture.

[F. R. Doc. 54-2366; Filed, Mar. 31, 1954; 8:56 a. m.]

Chapter XI—Agricultural Conservation Program Service, Department of Agriculture

[ACP-1954, Supp. 7]

PART 1101—NATIONAL AGRICULTURAL CONSERVATION

SUBPART—1954

[REVISIONS]

Pursuant to the authority vested in the Secretary of Agriculture under sections 7-17 of the Soil Conservation and Domestic Allotment Act, as amended, and the Department of Agriculture Appropriation Act, 1954, the 1954 National Agricultural Conservation Program, issued August 3, 1953 (18 F. R. 4643), as amended August 3, 1953 (18 F. R. 4761), November 4, 1953 (18 F. R. 7024), January 6, 1954 (19 F. R. 160), February 15, 1954 (19 F. R. 972), March 3, 1954 (19 F. R. 1267), and March 22, 1954 (19 F. R. 1639), is further amended as follows:

Section 1101.596 (h) is amended by adding the following as the second sentence:

§ 1101.596 *Definitions.* • • •
(h) • • • Notwithstanding any limitation in this paragraph concerning the type or use of land, a farm may include or may consist entirely of woodland which is being operated for the production and sale of forest products. • • •

(Sec. 4, 49 Stat. 164; 16 U. S. C. 590d. Interpret or apply secs. 7-17, 49 Stat. 1148, as amended, Pub. Law 156, 83d Cong.; 16 U. S. C. 590g-590q)

Done at Washington, D. C., this 26th day of March 1954.

[SEAL] TRUE D. MORSE,
Acting Secretary of Agriculture.

TITLE 14—CIVIL AVIATION

Chapter I—Civil Aeronautics Board

Subchapter A—Civil Air Regulations

[Supp. 3]

PART 8—AIRCRAFT AIRWORTHINESS; RESTRICTED CATEGORY

MISCELLANEOUS INTERPRETATIONS AND POLICIES

Interpretations and policies of the Administrator of Civil Aeronautics pertaining to §§ 8.0, 8.10, 8.20, and 8.21 were published on December 23, 1950, in 15 F. R. 9223-9231, and amended on December 25, 1952, in 17 F. R. 11737. They included references to sections in other parts and to various forms. The purpose of this supplement is to bring the references to the sections and forms up to date.

1. Section 8.0-2 (b) (1), as published in 15 F. R. 9224, is amended by deleting "issue a revised Operation Limitations Form ACA-309" and substituting "prescribe revised aircraft operating limitations".

2. Section 8.0-3 (b), as published in 15 F. R. 9224, is amended by deleting "issue both a revised Certificate of Airworthiness and revised Operation Limitations" and substituting "issue a revised Certificate of Airworthiness and prescribe appropriate operating limitations".

3. Section 8.10-3 (d) (1), as published in 15 F. R. 9226, is amended by deleting "item 7" and substituting "item 8".

4. Section 8.10-3 (d) (3), as published in 15 F. R. 9226, is amended by deleting "paragraph (d)" and substituting "paragraph (e)".

5. Section 8.10-3 (f) (2) (ii), last sentence, as published in 15 F. R. 9226, is amended by deleting "§ 8.3-1 (a) (2) (i)" and substituting "§ 8.30-1 (b) (2) (i)".

6. The last sentence of the second paragraph of § 8.10-4 (a) is amended to read as follows: "Sections 18.30-1 through 18.30-17, manufacturer's bulletins, military manuals, industry specifications, and previous satisfactory modifications may also be used as guides in modifying aircraft."

7. Section 8.10-4 (c) (1), last sentence, as published in 15 F. R. 9227, is amended by deleting "§ 18.20-15" and substituting "§ 18.30-16".

8. Section 8.20-1 (a), second and third paragraphs, as published in 15 F. R. 9227, are deleted.

9. Section 8.20-1 (b) (3), as published in 15 F. R. 9227, is amended by deleting "§ 43.10 of this subchapter as amended effective October 11, 1950" and substituting "§§ 1.101 through 1.108 of this subchapter".

10. Section 8.20-3, first paragraph, as published in 15 F. R. 9227 and amended in 17 F. R. 11737, is amended by deleting the last sentence (which is in parentheses).

11. Section 8.20-3 (b) (2) (ii), as published in 15 F. R. 9228 and amended in 17 F. R. 11737, is amended by deleting "item 7" wherever it appears and substituting "item 8".

12. Section 8.21-1 (a) (3), last sentence, as published in 15 F. R. 9229, is amended by deleting "§ 18.71-1" and substituting "§ 18.1-4".

13. Section 8.21-1 (c) (1) (i), last sentence, as published in 15 F. R. 9229, is amended by deleting "§ 18.16" and substituting "Civil Aeronautics Manual 18, Appendix A".[1]

14. Section 8.21-1 (d) (2), as published in 15 F. R. 9229, is amended by deleting "§ 43.10 (c) (6), as amended effective October 11, 1950" and substituting "§§ 1.101 through 1.108 of this subchapter".

15. Section 8.21-1 (d) (3), as published in 15 F. R. 9229, is amended by deleting "and Operation Limitations, Form ACA-309" and substituting "prescribing the appropriate aircraft operating limitations,".

16. Section 8.21-1 (e) (2), as published in 15 F. R. 9229, is amended by deleting "Operation Limitations, Form ACA-309, described in § 8.34-1, specifically states" and substituting "aircraft operating limitations described in § 8.34-1 specifically state".

(Sec. 205, 52 Stat. 984, as amended; 49 U. S. C. 425. Interpret or apply sec. 603, 52 Stat. 1009, as amended; 49 U. S. C. 553)

This supplement shall become effective on April 30, 1954.

[SEAL] F. B. LEE,
Administrator of Civil Aeronautics.

[F. R. Doc. 54-2305; Filed, Mar. 31, 1954; 8:45 a. m.]

[1] Not filed for publication in the FEDERAL REGISTER.

Chapter II—Civil Aeronautics Administration, Department of Commerce

[Amdt. 61]

PART 610—MINIMUM EN ROUTE IFR ALTITUDES

MISCELLANEOUS AMENDMENTS

The minimum en route IFR altitudes appearing hereinafter have been coordinated with interested members of the industry in the regions concerned insofar as practicable. The altitudes are adopted without delay in order to provide for safety in air commerce. Compliance with the notice, procedures, and effective date provisions of section 4 of the Administrative Procedure Act would be impracticable and contrary to the public interest, and therefore is not required.

Part 610 is amended as follows:

1. Section 610.13 *Green civil airway No. 3* is amended to read in part:

From—	To—	Minimum altitude
Moline, Ill. (LFR).....	Harmon (INT), Ill...	2,300

2. Section 610.105 *Amber civil airway No. 5* is amended to read in part:

From—	To—	Minimum altitude
Greenwood, Miss. (LFR)	Memphis, Tenn. (LFR).	1,800
Nesbitt, Tenn. (FM).	Memphis, Tenn. (LFR) (northbound only).	1,500

3. Section 610.285 *Red civil airway No. 85* is amended to eliminate:

From—	To—	Minimum altitude
Dayton, Ohio (LFR)...	Mansfield, Ohio (LF/RBN).	2,500

4. Section 610.610 *Blue civil airway No. 10* is amended to read in part:

From—	To—	Minimum altitude
Fresno, Calif (LFR)..	Los Banos (INT), Calif.	3,000

5. Section 610.638 *Blue civil airway No. 38* is amended to read in part:

From—	To—	Minimum altitude
Sitka Island, Alaska LF/RBG).	Gustavus, Alaska (LFR).	4,500

6. Section 610.1001 *Direct routes—United States* is amended by adding:

From—	To—	Minimum altitude
Ponca City, Okla (LF/RBN).	Viola, Kans. (LF/RBN)	2,500
Oxford, Kans (LF/RBN)	Viola, Kans. (LF/RBN)	2,500
Hutchinson, Kans. (LFR).	Viola, Kans. (LF/RBN)	2,800
North Fork, Kans. (LF/RBN)	Wichita, Kans. (ILS/LOM)	2,800
Hutchinson, Kans. (VOR).	Wichita, Kans. (ILS/LOM)	2,800

7. Section 610.6012 *VOR civil airway No. 12* is amended to read in part:

From—	To—	Minimum altitude
Anthony, Kans (VOR), via S alter	Wellington (INT), Kans., via S alter.	2,500
Wellington (INT), Kans., via S alter	Wichita, Kans. (VOR), via S alter	3,000
Anthony, Kans (VOR), dir. or N alter.	Wichita, Kans. (VOR), dir. or N alter.	3,000

8. Section 610.6016 *VOR civil airway No. 16* is amended by adding:

From—	To—	Minimum altitude
Dover, Del. (VOR)...	Atlantic City, N. J. (VAR).	1,500

9. Section 610.6063 *VOR civil airway No. 63* is amended to read in part:

From—	To—	Minimum altitude
Burlington, Iowa (VOR)	Moline, Ill. (VOR)...	2,300

10. Section 610.6077 *VOR civil airway No. 77* is amended to read in part:

From—	To—	Minimum altitude
Ponca City, Okla. (VOR), via Walter.	Wellington (INT), Kans., via Walter.	2,500
Wellington (INT), Kans. via Walter	Wichita, Kans. (VOR), via Walter	3,000
Ponca City, Okla. (VOR).	Wichita, Kans. (VOR).	3,000

11. Section 610.6131 *VOR civil airway No. 131* is amended to read:

From—	To—	Minimum altitude
Ponca City, Okla. (VOR)	Emporia, Kans. (VOR)	[1] 3,500
Cambridge (INT), Kans.[2]	Ponca City, Okla. (VOR) (southwest-bound only).	2,300

[1] 2,900'—Minimum terrain clearance altitude.
[2] 5,000'—Minimum reception altitude.

(Sec. 205, 52 Stat. 984, as amended; 49 U. S. C. 425. Interpret or apply sec. 601, 52 Stat. 1007, as amended; 49 U. S. C. 551)

These rules shall become effective April 6, 1954.

[SEAL] F. B. LEE,
Administrator of Civil Aeronautics.

[F. R. Doc. 54-2303; Filed, Mar. 31, 1954; 8:45 a. m.]

TITLE 16—COMMERCIAL PRACTICES

Chapter I—Federal Trade Commission

[Docket 5943]

PART 3—DIGEST OF CEASE AND DESIST ORDERS

TRACTOR TRAINING SERVICE ET AL.

Subpart—*Advertising falsely or misleadingly:* § 3.60 *Earnings;* § 3.105 *Individual's special selection or situation;* § 3.115 *Jobs and employment service;* § 3.205 *Scientific or other relevant facts.* Subpart—*Misrepresenting oneself and goods*—Business status, advantages or connections: § 3.1395 *Connections and arrangements with others;* § 3.1513 *Operations generally;* [*Misrepresenting oneself and goods*]—Goods: § 3.1735 *Sample, offer, or order conformance.* Subpart—*Offering unfair, improper and deceptive inducements to purchase or deal:* § 3.1935 *Earnings;* § 3.1985 *Individual's special selection or situation;* § 3.1995 *Job guarantee and employment;* § 3.2060 *Sample, offer or order conformance;* § 3.2063 *Scientific or other relevant facts;* § 3.2080 *Terms and conditions.* In connection with the offering for sale, sale, and distribution of a course of study and instruction in diesel training and training in heavy equipment in commerce, and on the part of respondent Tractor Training Service, respondent Tractor Training Service, Inc., and respondent Joy E. Badley, individually and as an officer of said corporations, and on the part of said respondents' agents, etc., representing directly or by implication: (1) That there is a great demand for individuals completing the respondents' course of study on diesel engines, or that their employment as diesel mechanics, service men or in similar positions is assured; or misrepresenting in any manner the opportunities for employment in the diesel engine and allied products industry; (2) that the respondents have working arrangements or other contracts with members of the diesel engine manufacturing industry whereby individuals completing the respondents' course of study are assured employment, or that respondents customarily secure employment for such individuals; (3) that individuals purchasing the respondents' courses of study are afforded "on-the-job training", or part-time employment, for which they are paid; (4) that shop training is provided by respondents to students at no cost or only nominal cost unless such training is in fact available without cost or at nominal cost as designated; (5) that individuals to whom the respondents' courses of study are sold are selected on any basis other than their ability to make the required down payment; and (6) that the earnings of individuals completing respondents' course of study are in excess of the average net earnings consistently made by individuals who have completed such course over substantial periods of time under normal conditions and circumstances; prohibited.

(Sec. 6, 38 Stat. 722; 15 U. S. C. 46. Interpret or apply sec. 5, 38 Stat. 719; 15 U. S. C. 45) [Cease and desist order, Tractor Training Service et al., Portland, Oreg., and Chicago, Ill., Docket 5943, March 3, 1954]

In the Matter of Tractor Training Service, an Oregon Corporation; Tractor Training Diesel Institute, a Corporation; and Joy E. Badley, Ray J. Watson (Erroneously Designated in the Complaint as Roy J. Watson) and McDannell Brown, Individually and as Officers of the Aforesaid Corporations; Tractor Training Service, Inc. (Erroneously Designated in the Complaint as Tractor Training Service), an Illinois Corporation, and Joy E. Badley, Fred L. Innes and McDannell Brown, Individually and as Officers of Said Corporation

Pursuant to the provisions of the Federal Trade Commission Act, the Federal Trade Commission on January 18, 1952, issued and subsequently served its complaint in this proceeding upon the respondents named in the caption hereof, charging them with the use of unfair and deceptive acts and practices in commerce in violation of the provisions of that act. After the filing of respondents' answer thereto, a hearing was held at which testimony and other evidence in support of and in opposition to the allegations of the complaint were introduced before a hearing examiner of the Commission originally designated by the Commission to act in this proceeding, and additional testimony and other evidence in support of and in opposition to the allegations of the complaint were introduced in the course of hearings subsequently held before a substitute hearing examiner designated to act in the place and stead of the original hearing examiner, and said testimony and other evidence were duly recorded and filed in the office of the Commission.

On May 1, 1953, the hearing examiner designated to act in the place and stead of the original hearing examiner filed his initial decision. Within the time permitted by the rules of practice of the Commission, respondents appealed therefrom, and this matter came on for final hearing upon the record, including briefs in support of and in opposition to the appeal, and oral argument; and the Commission, having duly considered the record and having ruled upon said appeal and being now fully advised in the premises, finds that this proceeding is in the interest of the public and makes this its findings as to the facts,[1] conclusion drawn therefrom,[1] and order, the same to be in lieu of the initial decision.

It is ordered, That the respondents Tractor Training Service, a corporation, and Tractor Training Service, Inc., a corporation, and their officers, and Joy E. Badley, individually and as an officer of said corporations, and said respondents' agents, representatives and employees, directly or through any corporate or other device in connection with the offering for sale, sale and distribution of a course of study and instruction in diesel training and training in heavy equipment in commerce, as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from representing directly or by implication:

1. That there is a great demand for individuals completing the respondents' course of study on diesel engines, or that their employment as diesel mechanics, service men or in similar positions is assured; or misrepresenting in any manner the opportunities for employment in the diesel engine and allied products industry.

2. That the respondents have working arrangements or other contracts with members of the diesel engine manufacturing industry whereby individuals completing the respondents' course of study are assured employment, or that respondents customarily secure employment for such individuals.

3. That individuals purchasing the respondents' course of study are afforded "on-the-job training," or part-time employment, for which they are paid.

4. That shop training is provided by respondents to students at no cost or only nominal cost unless such training is in fact available without cost or at nominal cost as designated.

5. That individuals to whom the respondents' courses of study are sold are selected on any basis other than their ability to make the required down payment.

6. That the earnings of individuals completing respondents' course of study are in excess of the average net earnings consistently made by individuals who have completed such course over substantial periods of time under normal conditions and circumstances.

It is further ordered, That the complaint be, and the same hereby is, dismissed as to respondent Tractor Training Diesel Institute, a corporation, and as to respondents Ray J. Watson, McDannell Brown, and Fred L. Innes, in their capacity as individuals but not in their capacity as officers of the respondent corporations.

It is further ordered, That respondents Tractor Training Service, Tractor Training Service, Inc., and Joy E. Badley, shall, within sixty (60) days after service upon them of this order, file with the Commission a report in writing setting forth in detail the manner and form in which they have complied with the order to cease and desist.

Issued: March 3, 1954.

[SEAL] ALEX. AKERMAN, Jr.,
Secretary.

[Docket 5572]

PART 3—DIGEST OF CEASE AND DESIST ORDERS

BOOK-OF-THE-MONTH CLUB, INC., ET AL.

Subpart—*Advertising falsely or misleadingly:* § 3.75 *Free goods or services.* Subpart—*Offering unfair, improper and deceptive inducements to purchase or deal:* § 3.1955 *Free goods.* In connection with the offering for sale, sale, and distribution of books in commerce: Using the word "free", or any other word or words of similar import or meaning, in advertising or in other offers to the public, to designate or describe any book, or other article of merchandise: (1) When all of the conditions, obligations, or other prerequisites to the receipt and retention of the "free" article of merchandise are not clearly and conspicuously explained or set forth at the outset so as to leave no reasonable probability that the terms of the advertisement or offer might be misunderstood; or (2) when, with respect to the article of merchandise required to be purchased in order to obtain the "free" article, the offerer either (a) increases the ordinary and usual price; or (b) reduces the quality; or (c) reduces the quantity or size of such article of merchandise; prohibited.

(Sec. 6, 38 Stat. 722; 15 U. S. C. 46. Interpret or apply sec. 5, 38 Stat. 719; 15 U. S. C. 45) [Modified cease and desist order, Book-of-the-Month Club, Inc., et al., New York, N. Y., Docket 5572, March 9, 1954]

In the Matter of Book-of-the-Month Club, Inc., a Corporation; Harry Scherman and Meredith Wood, Individually and as Officers of Book-of-the-Month Club, Inc., a Corporation

This proceeding having been heard by the Federal Trade Commission upon the complaint of the Commission, answer of the respondents, testimony and other evidence introduced before a hearing examiner of the Commission theretofore duly designated by it, recommended decision of the hearing examiner and exceptions thereto, and briefs and oral argument of counsel, and the Commission, having made its findings as to the facts and its conclusion that the respondent Book-of-the-Month Club, Inc., had violated the provisions of the Federal Trade Commission Act, on May 8, 1952, issued its order to cease and desist, which order was subsequently affirmed by the United States Court of Appeals for the Second Circuit; and

Said Court of Appeals, acting on a petition filed by the respondents, having remanded this proceeding to the Commission for the purpose of considering appropriate action in connection with the order to cease and desist in the light of the present policy of the Commission regarding the use of the word "free," in advertising, as announced in the Commission's opinion in the proceeding entitled "In the Matter of Walter J. Black, Inc., a corporation, trading as The Classics Club and Detective Book Club"; and

The respondents having thereafter filed with the Commission a motion to vacate or modify said order to cease and desist and to dismiss the complaint, and the Commission having entered its order granting said motion in part and denying it in part and being of the opinion that its order to cease and desist issued on May 8, 1952, should be modified in certain respects:

It is ordered, That the respondent, Book-of-the-Month Club, Inc., its officers, representatives, agents, and employees, directly or through any corporate or other device, in connection with the offering for sale, sale, and distribution of books in commerce, as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from:

Using the word "free," or any other word or words of similar import or meaning, in advertising or in other offers to the public, to designate or describe any book, or other article of merchandise:

(1) When all of the conditions, obligations, or other prerequisites to the receipt and retention of the "free" article of merchandise are not clearly and conspicuously explained or set forth at the outset so as to leave no reasonable probability that the terms of the advertisement or offer might be misunderstood; or

(2) When, with respect to the article of merchandise required to be purchased in order to obtain the "free" article, the offerer either (a) increases the ordinary and usual price; or (b) reduces the quality; or (c) reduces the quantity or size of such article of merchandise.

It is further ordered, That the complaint herein be, and the same hereby is, dismissed as to Harry Scherman and Meredith Wood as individuals but not in their capacity as officers of respondent Book-of-the-Month Club, Inc.

It is further ordered, That the respondent, Book-of-the-Month Club, Inc., shall, within sixty (60) days after service upon it of this order, file with the Commission a report in writing setting forth in detail the manner and form in which it has complied with this order.

Issued: March 9, 1954.

By the Commission.[1]

[SEAL] ALEX. AKERMAN, Jr.,
Secretary.

TITLE 29—LABOR

Chapter V—Wage and Hour Division, Department of Labor

PART 687—HOSIERY INDUSTRY IN PUERTO RICO, MINIMUM WAGE ORDER

WAGE RATE

Pursuant to the requirements of the Administrative Procedure Act (60 Stat. 237; 5 U. S. C. 1001), notice was published in the FEDERAL REGISTER on March 4, 1954 (19 F. R. 1221), of my decision to approve the recommendation of Special Industry Committee No. 14 for the Hosiery Industry in Puerto Rico. The Wage Order which I proposed to issue to carry such recommendation into effect also was published therewith.

As indicated in the notice, my findings and conclusions in this matter were set forth in a document entitled "Findings and Opinion of the Administrator in the Matter of the Recommendation of Special Industry Committee No. 14 for Puerto Rico for the Hosiery Industry in Puerto Rico."

Interested parties were given an opportunity to file exceptions to the proposed actions within fifteen days of the date of publication of the notice. One such exception has been filed by Mr. Alfred D. Williams, Vice President of Coral Textiles, Inc., Juana Diaz, Puerto Rico. This exception, in the form of an unsworn letter, states inter alia, as follows:

> Coral Textiles, Inc., ceased operations on March 10, 1954 * * *.
>
> In our annual stockholders meeting on March 8, 1954 cessation of operations was felt necessary due to the excessively large losses sustained to date. It can not, of course, be attributed solely to your order, however, the order was discussed and did have a bearing on the final decision. It will definitely have a large bearing on whether or not we can reopen.
>
> Those of us close to our operation here feel that hosiery can be manufactured successfully here and that after a nucleus of highly trained workers are available, the industry will be able to pay wages comparable to those in the States. We are, as you point out, in our infancy now and the increase will substantially curtail employment now and also discourage any further expansion of the industry on the island.

As I pointed out in my proposed findings and opinion, the Hosiery Industry is highly competitive and has been characterized by a marked degree of business turnover. The industry in Puerto Rico can not reasonably be expected to escape the usual risks of competitive enterprise, whatever the level of the minimum wage. Under such circumstances, it would normally be anticipated that one or two relatively new companies may experience management or training difficulties that can not be readily overcome. However, this probability does not constitute sufficient ground for denying the vast majority of workers in the Hosiery Industry the benefits of a higher minimum wage which is economically feasible. This is particularly true since the maintenance of the current minimum wage would not assure the continued operation of each firm in the industry.

I find that no substantive issue has been raised in the exception which has not been taken into consideration in my proposed findings and opinion. No exceptions have been received from any of the nine other hosiery firms in Puerto Rico.

Accordingly, pursuant to authority under the Fair Labor Standards Act of 1938, as amended (52 Stat. 1060, as amended, 29 U. S. C. 201 et seq.), the said decision is affirmed and made final; the recommendation of Special Industry Committee No. 14 for a minimum wage rate in the Hosiery Industry in Puerto Rico is hereby approved; and the Wage Order contained in 29 CFR, Part 687, is hereby amended, as set forth in the March 4, 1954, issue of the FEDERAL REGISTER (19 F. R. 1221), and as follows:

Delete § 687.2 *Wage rate* and substitute the following:

§ 687.2 *Wage rate.* Wages at the rate of not less than 50 cents an hour shall be paid under section 6 of the Fair Labor Standards Act of 1938, as amended, by every employer to each of his employees in the hosiery industry in Puerto Rico who is engaged in commerce or in the production of goods for commerce.

(Sec. 8, 52 Stat. 1064, as amended; 29 U. S. C. 208)

The above amendment shall become effective May 3, 1954.

Signed at Washington, D. C., this 26th day of March 1954.

WM. R. MCCOMB,
Administrator,
Wage and Hour Division.

[F. R. Doc. 54-2330; Filed, Mar. 31, 1954; 8:51 a. m.]

TITLE 32—NATIONAL DEFENSE

Chapter V—Department of the Army

Subchapter C—Military Education

PART 543—PROMOTION OF RIFLE PRACTICE

USE OF RIFLE RANGES FOR PRACTICE BY CIVILIANS

In § 543.3, paragraph (d) (1) is amended as follows:

§ 543.3 *Use of rifle ranges for rifle practice by civilians.* * * *

(d) *Issue and care of arms.* (1) Commanding officers, when necessary, will requisition Rifle, U. S., Caliber .30, M1 and appurtenances for civilian target practice on the basis of 4 rifles for each target available on the range, but not to exceed 50 rifles for any one post. Such rifles will be issued daily to members of organizations who apply for the use of the same. Civilians using these rifles will be required to complete their daily practice at such time as will permit of their properly cleaning the rifle before leaving the rifle range, and such care and preservation of the arm by the individual using the same will be considered as a necessary part of his instruction and will be required.

Subchapter E—Organized Reserves

PART 562—RESERVE OFFICERS' TRAINING CORPS

NONESTABLISHMENT OF NEW JUNIOR UNITS; REQUIREMENTS FOR CONTINUANCE IN ROTC PROGRAM

1. Section 562.16 is rescinded and the following substituted therefor:

§ 562.16 *Nonestablishment of new junior units.* (a) Until such time as instructor personnel and funds for the necessary supplies and equipment are available to implement the senior division, ROTC, at the capacity required to produce annually the graduates needed by the Department of the Army, it is not planned to increase the number of junior division units currently established, nor to increase the number of subunits in any school or school system.

(b) Authorities of educational institutions who indicate a desire to participate in the junior division, ROTC program will be advised by army commanders of the policy stated above, and as an alternative, be invited to consider establishment of a 55c unit. Applications submitted for junior ROTC units will be held by the Department of the Army for consideration at such time as an activation program is authorized.

2. In § 562.23, paragraph (a) is rescinded and the following substituted therefor:

§ 562.23 *Requirements for continuance in ROTC program.* (a) Students formally enrolled in the ROTC who fail to maintain satisfactory scholastic standing as required by the institution attended and in ROTC courses will, with the approval of the Army commander, be discharged for the convenience of the Government.

[C2, AR 145-350, Mar. 18, 1954] (R. S. 161; 5 U. S. C. 22)

TITLE 36—PARKS, FORESTS, AND MEMORIALS

Chapter I—National Park Service, Department of the Interior

PART 20—SPECIAL REGULATIONS

GRAND TETON NATIONAL PARK; FISHING

Paragraph (b) *Fishing* of § 20.22 *Grand Teton National Park* is amended to read as follows:

(b) *Fishing.* (1) (i) Jenny Lake, Phelps Lake, Leigh Lake, and String Lake; Braman Ponds, McKinstry Ponds, Sawmill Ponds, J. O. Ponds, Budge Ponds, Farrel Ponds, Jenny Lake Moose Ponds, and Jackson Lake Lodge Ponds; First, Second, and Third Creeks; and the Snake River, Gros Ventre, and Buffalo Fork Rivers proper shall be open for fishing from May 1 through October 31.

(ii) Jackson Lake shall be open during the calendar year, except from September 11 through November 30.

(iii) There shall be an open season for whitefish fishing only, from January 1 through March 15, on Snake River proper for a distance of one-half mile upstream and downstream from the U. S. Highway 89 bridge at Moose, Wyoming.

(2) The following waters shall be closed to fishing at all times: Emma Matilda Lake; Two Ocean Lake and Two Ocean Creek; Snake River for a distance of 150 feet below the lower face of Moran Dam; and Cottonwood Creek, from the outlet of Jenny Lake to the Horse Concession Bridge.

(3) There shall be a creel limit of twelve fish or fourteen pounds and one fish per day, or in possession, no more than six of which may be trout of any species.

(4) The use or possession of fish eggs, fish, minnows, and other bait fish is prohibited, except that it is permissible to use and have in possession dead fish, dead minnows, and other dead bait fish on or along the shores of Jackson Lake and Snake River for a distance of 1,000 feet downstream from the Jackson Lake dam except as posted.

(5) Fishing from any bridge or boat dock in the Park is prohibited.

(6) The use of rafts or boats propelled by any type of motor is prohibited on Leigh Lake, and the use of rafts or boats of any type is prohibited within 1,000 feet of the lower face of Jackson Lake dam.

(Sec. 8, 39 Stat. 535, as amended; 16 U. S. C. 3)

Issued this 26th day of March 1954.

DOUGLAS MCKAY,
Secretary of the Interior.

TITLE 39—POSTAL SERVICE

Chapter I—Post Office Department

PART 127—INTERNATIONAL POSTAL SERVICE: POSTAGE RATES, SERVICE AVAILABLE AND INSTRUCTIONS FOR MAILING

MISCELLANEOUS AMENDMENTS

Correction

In F. R. Doc. 54-1823, appearing on page 1439 of the issue for Tuesday, March 16, 1954, make the following changes:

1. In § 127.332 *Poland*, the addition of subdivisions (vi) and (vii) to paragraph (b) (5) should read subdivisions (ii) and (iii).

2. In view of the above change paragraph (b) (5) will be redesignated as paragraph (b) (5) (i).

TITLE 50—WILDLIFE

Chapter II—Alaska Game Commission

PART 161—GUIDES

PART 165—SPECIAL PERMIT HUNTS

EMPLOYMENT OF GUIDES BY NONRESIDENTS AND ALIENS; SPECIAL PERMIT HUNTS

Basis and purpose. The deer herds in Alaska are presently increasing in abundance and can now stand additional hunting pressure. Deer are predominately hunted for meat and are seldom hunted for a trophy and it is not now considered necessary that experienced guides accompany non-resident hunters while hunting deer. Accordingly, it is considered advisable to no longer require non-residents to employ registered and licensed guides while hunting these game animals.

1. Section 161.1 is amended to read as follows:

§ 161.1 *Employment of guides by nonresidents and aliens.* (a) Nonresidents of the Territory or aliens taking big game animals, except deer, for any purpose, or going afield to photograph large brown or grizzly bears, except nonresident Federal officials engaged in wildlife investigations in Alaska exempted by special permit of the Commission, are required to employ and be accompanied by a guide registered and licensed by the Commission: *Provided,* That one such guide may conduct a party of nonresident or alien hunters if he provides a resident, licensed hunter over 21 years of age to accompany each hunter not personally accompanied in the field by the registered guide; but no such guide, or resident assistant under the supervision of a registered and licensed guide, shall accompany in the field more than one nonresident or alien, except husband and wife and minor child, all of whom are in possession of the required hunting license: *Provided further,* That the registered guide in charge of each party shall be held responsible by the Alaska Game Commission for observance of all conservation regulations by all members of his party including the provisions of section 5093 C. L. A. 1933 (Wanton Destruction of Game), which fully applies to all meat acquired on trophy hunts.

(b) No guide or resident assistant under the supervision of a registered and licensed guide may take any big game animal while guiding, except in cases of actual emergency when a bear is attacking or is about to escape after being wounded, it shall be the duty of the guide to take such action as he deems necessary.

(c) All hunting shall be conducted from a single camp with the registered guide in charge of the party at all times remaining in the field to supervise personally the activities of his hunters and assistants.

2. The following sections remain in effect as published, except § 165.1 which shall be deleted in its entirety:

§ 161.2 *Qualifications for guide licenses and issuance thereof.*
§ 162.1 *Designation and use of poison.*
§ 163.1 *Resident trapping, hunting, and fishing licenses.*
§ 164.1 *Fur management areas.*
§ 165.1 *Special permit hunts.* [Delete § 165.1]

(Sec. 10, 43 Stat. 744, as amended; 48 U. S. C. 199)

The above enumerated regulations were adopted at a meeting of the Alaska Game Commission held for that purpose, at which all of the members were present, in the City of Juneau, Alaska, on the 19th day of February, 1954.

In testimony whereof, we have set our hands and have caused the official seal of the said Commission to be affixed in the City of Juneau, Alaska, this 19th day of February 1954.

[SEAL] EARL N. OHMER,
Commissioner,
1st Judicial Division and Chairman.
HARRY O. BROWN,
Commissioner,
2d Judicial Division.
ANDREW A. SIMONS,
Commissioner,
3d Judicial Division.
FORBES L. BAKER,
Commissioner,
4th Judicial Division.
CLARENCE J. RHODE,
Executive Officer.

PROPOSED RULE MAKING

INTERSTATE COMMERCE COMMISSION

[49 CFR Parts 1–7]

ESTABLISHMENT OF FEES FOR LICENSING AND RELATED ACTIVITIES

NOTICE OF EXTENSION OF TIME FOR FILING DATA, VIEWS, OR ARGUMENTS

MARCH 29, 1954.

In the notice of proposed rule-making of February 16, 1954, in the above-entitled matter (19 F. R. 1061), interested parties were afforded an opportunity to submit to the Commission written data, views or arguments concerning the proposed rules on or before March 31, 1954.

Upon consideration of requests for extensions of time made by interested parties desiring to submit written data, views or arguments but who find it impracticable to do so by March 31, it appears desirable to extend this period. Accordingly, the time within which interested parties may submit to the Commission written data, views or arguments

concerning the proposed rules is hereby extended to May 15, 1954.

By the Commission.

[SEAL] GEORGE W. LAIRD,
Secretary.

[F. R. Doc. 54-2335; Filed, Mar. 31, 1954; 8:52 a. m.]

CIVIL AERONAUTICS BOARD

[14 CFR Part 60]

[Draft Release No. 54-7]

AIR TRAFFIC RULES

CHANGES IN TERMINOLOGY OF AIRSPACE

Pursuant to authority delegated by the Civil Aeronautics Board to the Bureau of Safety Regulation, notice is hereby given that the Bureau will propose to the Board amendments to Part 60 of the Civil Air Regulations to set forth different terminology for the definition of airspace restricted areas and danger areas.

Interested persons may participate in the making of the proposed rules by submitting such written data, views, or arguments as they may desire. Communications should be submitted in duplicate to the Civil Aeronautics Board, attention Bureau of Safety Regulation, Washington 25, D. C. In order to insure their consideration by the Board before taking further action on the proposed rules, communications must be received by May 5, 1954. Copies of such communications will be available after May 7, 1954 for examination by interested persons at the Docket Section of the Board, Room 5412, Department of Commerce Building, Washington, D. C.

Section 60.13 of Part 60 of the Civil Air Regulations, covering airspace restricted areas, currently states that the Administrator may designate as a danger area an area within which he has determined that an invisible hazard to aircraft in flight exists. It also states that no person shall operate an aircraft within an airspace reservation or danger area unless permission has been obtained from the appropriate authority. Section 60.65 defines an airspace reservation as an area established by Executive Order of the President of the United States or by any State of the United States, and defines danger area as an area designated by the Administrator within which an invisible hazard to aircraft in flight exists. These areas are shown on aeronautical charts and in publications of aids to air navigation. It would appear from these definitions and their use in § 60.13 that the flight of aircraft is prohibited in both an airspace reservation and a danger area unless prior approval has been obtained. This is not necessarily true, however, since flight in both areas may not be completely prohibited but limited only in accordance with restrictions which have been placed on the area.

The term "prohibited area" describes more completely and accurately the airspace in which flight is prohibited at all times except when appropriate permission is obtained, and the term "restricted area" more aptly describes the airspace in which flight is subject to certain stated restrictions. It is, therefore, proposed that the terms "danger area" and "airspace restricted areas" be eliminated and that the terms "prohibited area" and "restricted area" be defined so as to include an airspace reservation, or other airspace area within which the flight of aircraft is either prohibited or restricted, pursuant to the provisions of the Civil Aeronautics Act. The proposed terminology will tend to eliminate any confusion that may currently exist in having different terms apply to the same type of area on domestic and international aeronautical charts since the proposed terms are currently used on international charts. The proposed terms will also conform with the definitions of such airspace areas by the International Civil Aviation Organization.

It is also proposed to amend § 60.13 to authorize the Administrator to designate restricted areas. A new § 60.13a is proposed which will make clear the extent to which avoidance of prohibited and restricted areas is necessary and the necessity of obtaining permission for flight in such areas contrary to the restriction or prohibition applicable thereto. Restriction to flight in such areas will be prescribed in the Flight Information Manual and on the backs of aeronautical charts.

In view of the foregoing, it is proposed that Part 60 of the Civil Air Regulations be amended as follows:

1. By amending § 60.13 to read as follows:

§ 60.13 *Designation of restricted areas.* The Administrator is authorized to designate restricted areas when he finds that a hazard to aircraft in flight exists. (Areas previously designated as danger areas will hereafter be designated as restricted areas.)

2. By adding a new § 60.13a to read as follows:

§ 60.13a *Avoidance of prohibited and restricted areas*—(a) *Prohibited area.* No person shall operate an aircraft within a prohibited area unless prior permission has been obtained from the authority having jurisdiction over the area.

(b) *Restricted area.* No person shall operate an aircraft within a restricted area contrary to the restrictions imposed unless prior permission has been obtained from the authority having jurisdiction over the area.

NOTE: Prohibited and restricted areas are established in order to conduct certain essential activities either on the ground or within the airspace area. Avoidance of such areas is imperative to the safety of flight or the protection of the activity on the ground. Prior permission must be secured for flight at any time within the area contrary to the prohibitions or restrictions placed on the area. Any person desiring to secure such permission should contact an Aviation Safety Agent of the Civil Aeronautics Administration. Prohibited and restricted areas, indicating the prohibitions or restrictions to flight, are shown on aeronautical charts or in publications of aids to air navigation.

3. By amending § 60.65 to read as follows:

§ 60.65 *Airspace reservation.* An area established by Executive Order of the President of the United States or by any State of the United States pursuant to section 4 of the Air Commerce Act of 1926.

4. By adding new §§ 60.65a and 60.65b to read as follows:

§ 60.65a *Prohibited area.* An airspace reservation within which the flight of aircraft is prohibited, or any other airspace identified by an area on the surface of the earth, established pursuant to the Civil Aeronautics Act of 1938, as amended, within which the flight of aircraft is prohibited.

§ 60.65b *Restricted area.* An airspace reservation within which the flight of aircraft is restricted, or any other airspace identified by an area on the surface of the earth, established pursuant to the Civil Aeronautics Act of 1938, as amended, within which the flight of aircraft is restricted.

These amendments are proposed under the authority of Title VI of the Civil Aeronautics Act of 1938, as amended. The proposals may be changed in the light of comments received in response to this notice of proposed rule making.

(Sec. 205, 52 Stat. 984; 49 U. S. C. 425. Interpret or apply secs. 601-610, 52 Stat. 1007-1012; 49 U. S. C. 551-560; 62 Stat. 1216)

Dated: March 26, 1954, at Washington, D. C.

By the Bureau of Safety Regulation.

[SEAL] JOHN M. CHAMBERLAIN,
Director.

FEDERAL COMMUNICATIONS COMMISSION

[47 CFR Part 14]

[Docket No. 10972]

RADIO STATIONS IN ALASKA OTHER THAN AMATEUR AND BROADCAST

NOTICE OF PROPOSED RULE MAKING

In the matter of amendment of Part 14 of the Commission's rules to delete authority for operation by fixed, coast and ship stations in Alaska on the frequency 3265 kc and substituting 3261 kc in lieu thereof; Docket No. 10972.

1. Notice is hereby given of proposed rule making in the above-entitled matter.

2. The Commission proposes to amend §§ 14.15, 14.31 and 14.52 of Part 14 of its rules as of June 1, 1954, to delete authority for operation by fixed, coast and ship stations in Alaska on the frequency 3265 kc and to substitute 3261 kc in lieu thereof, in order to aid the United States in the implementation of certain portions of the new International Frequency List for Region 2 with regard to the frequency band 2000-3500 kc.

3. The proposed amendment is issued pursuant to the authority of sections 303 (c), (f) and (r) of the Communications Act of 1934, as amended, the Final Acts of the International Telecommunication and Radio Conference, Atlantic City (1947), and the agreement concluded at the Extraordinary Administrative Radio Conference (Geneva, 1951).

4. Any interested person who is of the opinion that the amendment proposed herein should not be adopted and any person desiring to support this proposal may file with the Commission on or before April 30, 1954 a written statement or brief setting forth his comments. Replies to such comments may be filed within ten days from the last day for filing the original comments. Fifteen copies of all such comments shall be furnished. The Commission will consider all comments received before taking final action in this matter.

Adopted: March 24, 1954.

Released: March 26, 1954.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
Secretary.

NOTICES

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

COLORADO

NOTICE OF PROPOSED WITHDRAWAL AND RESERVATION OF LANDS

MARCH 23, 1954.

An application, serial number Colorado 07761, for the withdrawal from prospecting, location, entry, or purchase under the mining laws, of the lands described below was filed on January 15, 1954, by the Atomic Energy Commission.

The purposes of the proposed withdrawal: For use by Atomic Energy Commission.

For a period of 30 days from the date of publication of this notice, persons having cause to object to the proposed withdrawal may present their objections in writing to the Regional Administrator, Region IV, Bureau of Land Management, Department of the Interior, at Salt Lake City, Utah, P. O. Box 659. In case any objection is filed and the nature of the opposition is such as to warrant it, a public hearing will be held at a convenient time and place, which will be announced, where opponents to the order may state their views and where proponents of the order can explain its purpose.

The determination of the Secretary on the application will be published in the FEDERAL REGISTER, either in the form of a public land order or in the form of a notice of determination if the application is rejected. In either case, a separate notice will be sent to each interested party of record.

The lands involved in the application are:

NEW MEXICO PRINCIPAL MERIDIAN

[Docket DA-387]

IDAHO

RESTORATION ORDER UNDER FEDERAL POWER ACT

MARCH 24, 1954.

Pursuant to determination DA-387, Idaho, of the Federal Power Commission and in accordance with Order No. 427, section 2.22 (a) (4) of the Director, Bureau of Land Management, approved August 16, 1950, 15 F. R. 5641, it is ordered as follows:

Subject to valid existing rights and the provisions of existing withdrawals the lands hereinafter described so far as they are withdrawn and reserved for power purposes are hereby restored to disposition under the public land laws as provided by law, subject to the provisions of section 24 of the Federal Power Act of June 10, 1920 (41 Stat. 1075; 16 U. S. C. sec. 818), as amended.

BOISE MERIDIAN

T. 10 S., R. 21 E.,
Sec. 29, Lot 5;
Sec. 30, Lots 7 and 8.

The areas described contain an aggregate of 112.15 acres.

The lands described lie along the Snake River at an elevation of 4100 feet. The topography varies from gently sloping to rough canyon walls, and the soil is silt wash and rocky.

Lot 5 of Sec. 29 described is classified as valuable for recreational, fish and game purposes and suitable for retention in public ownership for the benefit of the State of Idaho. Lots 7 and 8 of Sec. 30 containing 91.30 acres are classified as suitable for disposal under the public sale law subject to a 66 foot public access right-of-way.

While any application which is filed will be considered on its merits, it is unlikely that any part of the restored lands will be classified for any use or disposal other than that shown above. No application for the lands may be allowed under the homestead, small tract, desert land, or any other nonmineral public land law unless the lands have already been classified as valuable or suitable for such type of application, or shall be so classified upon consideration of an application.

The lands described shall be subject to application by the State of Idaho for a period of 90 days from date of publication of this order in the FEDERAL REGISTER for right-of-way for public highways or as a source of materials for construction and maintenance of such highways, subject to section 24 of the Federal Power Act, as amended. This order shall not otherwise affect the status of the lands until 10:00 a. m. on the 91st day after the date of publication of this order in the FEDERAL REGISTER. At that time, the lands shall become subject to application, petition, location and selection, subject to valid existing rights, the provisions of existing withdrawals, the requirements of applicable laws and the 90-day preference filing period of veterans and others entitled to preference under the act of September 27, 1944 (58 Stat. 747; 43 U. S. C. 279-284), as amended.

Information showing the periods during which and conditions under which veterans and others may file application for these lands may be obtained on request in the Land Office, Boise, Idaho.

CHESLEY P. SEELY,
Acting Regional Administrator.

[F. R. Doc. 54-2317; Filed, Mar. 31, 1954; 8:47 a. m.]

NORTH FORK OF JOHN DAY BIG GAME WINTER RANGE, OREGON

NOTICE OF HEARING ON WITHDRAWAL OF PUBLIC LANDS

MARCH 22, 1954.

Notice is hereby given that a public hearing will be held by the Regional Administrator, Region I, Bureau of Land Management, or such employee of the Bureau as may be designated by him, at 9:00 a. m., Thursday, April 22, 1954, at the Vert Memorial Building at Pendleton, Oregon, pertaining to public land order No. 904 issued July 6, 1953, at the instance of the Oregon State Game Commission and which withdrew the following described public lands in connection with the North Fork of the John Day River Big Game Winter Range.

WILLAMETTE MERIDIAN, OREGON

T. 7 S., R. 28 E.,
Sec. 1, NE¼SW¼;
Sec. 12, NE¼NE¼.

T. 6 S., R. 29 E.,
Sec. 31, NE¼NE¼, lots 1, 5, 6, 8, 12, 13;
Sec. 33, N½NW¼;
Sec. 34, W½NE¼, NE¼NW¼;
Sec. 35, E½NE¼, NW¼NW¼;
T. 7 S., R. 29 E.,
Sec. 1, S½NE¼, SE¼NW¼, NE¼SW¼, SW¼SW¼;
Sec. 2, SW¼, NW¼SE¼;
Sec. 3, lot 4, SW¼NW¼, SW¼;
Sec. 5, S½SE¼;
Sec. 6, S½SE¼;
Sec. 7, N½NE¼, SE¼NE¼, lots 1, 2, 11, 14, 15, 22, 23, 24, NE¼SE¼;
Sec. 8, NW¼NW¼.
T. 6 S., R. 30 E.,
Sec. 26, E½NW¼, SW¼NW¼, NW¼SW¼;
Sec. 32, SE¼SW¼;
Sec. 33, SW¼NE¼;
Sec. 34, NW¼, NE¼SW¼;
Sec. 35, NE¼NE¼, N½SW¼, SW¼SW¼, SE¼SE¼.
T. 7 S., R. 30 E.,
Sec. 3, lots 1, 2, 3, S½NW¼;
Sec. 5, NW¼NE¼.
T. 6 S., R. 31 E.,
Sec. 29, NE¼NW¼, SE¼SW¼;
Sec. 30, lot 4;
Sec. 31, NE¼NE¼.

The areas described aggregate 3,085.29 acres.

The hearing will be open to attendance of opponents to the withdrawal who may state their views and the proponents of the withdrawal who may explain its purpose, intent, and extent, and to all interested persons who desire to be heard on the subject. Those who desire to be heard in person at the hearing should give notice thereof, and those desiring to submit written statements should file them not later than April 16, 1954, with the Regional Administrator, Region I, Bureau of Land Management, Swan Island Station, Portland 18, Oregon.

Information relating to the lands affected or other matters pertaining to the withdrawal may be obtained from the Regional Administrator.

JAMES F. DOYLE,
Acting Regional Administrator.

[Docket DA-62]

OREGON

RESTORATION ORDER UNDER FEDERAL POWER

MARCH 25, 1954.

Pursuant to determination DA-62, Oregon, of the Federal Power Commission and in accordance with Order No. 427, section 2.22 (a) (4) of the Director, Bureau of Land Management, approved August 16, 1950, 15 F. R. 5641, it is ordered as follows:

Subject to valid existing rights and the provisions of existing withdrawals the lands hereinafter described so far as they are withdrawn and reserved for power purposes are hereby restored to disposition under the public land laws as provided by law, subject to the provisions of section 24 of the Federal Power Act of June 10, 1920 (41 Stat. 1075; 16 U. S. C. sec. 818), as amended.

WILLAMETTE MERIDIAN

T. 36 S., R. 2 W.,
Sec. 13, Lot 7.

The area described contains 23.39 acres.

The land described is revested Oregon and California Railroad grant land and it lies along the Rogue River at an elevation of 1,100 feet. The topography is level; the soil is alluvium, silt to gravel; and the land is classified for public recreational purposes and suitable for retention in public ownership and leasing to the State of Oregon.

While any application which is filed will be considered on its merits, it is unlikely that any part of the restored lands will be classified for any use or disposal other than that shown above. No application for the lands may be allowed under the homestead, desert land, or any other nonmineral public land law unless the lands have already been classified as valuable or suitable for such type of application, or shall be so classified upon consideration of an application.

The land described shall be subject to application by the State of Oregon for a period of 90 days from date of publication of this order in the FEDERAL REGISTER for right-of-way for public highways or as a source of materials for construction and maintenance of such highways, subject to section 24 of the Federal Power Act, as amended. This order shall not otherwise affect the status of the lands until 10:00 a. m. on the 91st day after the date of publication of this order in the FEDERAL REGISTER. At that time, the land shall become subject to application, petition, location and selection, subject to valid existing rights, the provisions of existing withdrawals, the requirements of applicable laws and the 90-day preference filing period of veterans and others entitled to preference under the act of September 27, 1944 (58 Stat. 747; 43 U. S. C. 279-284), as amended.

Information showing the periods during which and conditions under which veterans and others may file application for these lands may be obtained on request in the Land Office, Portland, Oregon.

JAMES F. DOYLE,
Acting Regional Administrator.

[F. R. Doc. 54-2316; Filed, Mar. 31, 1954; 8:47 a. m.]

[No. 25 (R-IV)]

UTAH

AIR-NAVIGATION SITE REVOKED

MARCH 19, 1954.

By virtue of the authority contained in section 4 of the act of May 24, 1928 (45 Stat. 729; 49 U. S. C. 214), and pursuant to section 2.22 (a) (2), of Delegation Order No. 427 of August 16, 1950 (15 F. R. 5641), it is ordered as follows:

Air Navigation Site Withdrawal No. 121 dated June 11, 1938, is hereby revoked as to Site 44, Los Angeles-Salt Lake Airway. This site involved the following described land:

SALT LAKE MERIDIAN

T. 29 S., R. 12 W.,
Sec. 25, NE¼NE¼.

This tract is primarily valuable for grazing, will be administered as part of Utah Grazing District No. 3, and is not open to entry or location under the nonmineral public land laws until further notice.

RALPH J. MITCHELL,
Acting Regional Administrator.

FEDERAL COMMUNICATIONS COMMISSION

[Docket Nos. 8837, 10846, 10847]

RADIO STATION WSOC, INC., ET AL.

MEMORANDUM OPINION AND ORDER ENLARGING ISSUES

In re applications of Radio Station WSOC, Incorporated, Charlotte, North Carolina, Docket No. 8837, File No. BPCT-304; Piedmont Electronics and Fixture Corporation, Charlotte, North Carolina, Docket No. 10846, File No. BPCT-1621; Carolinas' Television Corporation, Charlotte, North Carolina, Docket No. 10847, File No. BPCT-1817; for construction permits for new television stations.

1. On March 8, 1954, Carolinas' Television Corporation filed a petition with the Examiner requesting that the issues in the above-entitled proceeding be enlarged to include the following: [1]

To determine whether the funds available to Radio Station WSOC, Incorporated, will give reasonable assurance that the proposals set forth in its application will be effectuated.

The proposed issue relates solely to the application of Radio Station WSOC, Incorporated, and the petitioner's showing was made with respect to that applicant. On March 16, 1954, Piedmont Electronics and Fixture Corporation joined in the request to add the above-quoted issue. WSOC filed an opposition on March 19, 1954. Oral argument in which all counsel participated was held before the Examiner at an informal session on March 22, 1954. At this argument, counsel for the Broadcast Bureau expressed opposition to the petition.

2. As modified and explained by the petitioner during the course of oral argument the charge against WSOC relates to only two matters. These are the allocation of funds by WSOC for the construction of its proposed studios and for operational expenses prior to going on the air and for the first two months of operation. There was no dispute that if WSOC can have its studios erected for the sum which has been estimated, the amount reserved for pre-operational and early operating expenses would be sufficient. Thus, the only factual area wherein there is controversy is that which pertains to the construction of studios although there is a contingent problem as to whether this construction would not deplete funds now set aside for early operation.

3. It has been estimated by WSOC that the cost for acquiring or constructing buildings will be $93,800, of which the main portion will go toward erecting additions to the existing studio buildings. Carolinas' Television has challenged this, saying that the construction proposal of WSOC would cost in excess of $214,000 based upon normal first-class construction estimates. Furthermore, the petitioner has challenged by allegations, which need not be recited in detail, that the WSOC contractor is not competent to perform his commitment nor to make a sound estimate in support of his bid. In support of its allegation as to probable construction cost, the petitioner filed an affidavit from the president of a construction company operating in the area of Charlotte. The reply of WSOC reaffirmed its belief that the construction could be done for $93,800 and attached an affidavit from the contractor in support of this estimate.

4. In this situation there is an allegation of fact on one side with a denial in the nature of a traverse on the other. It is impossible to determine from the pleadings by themselves the true facts. Consequently it is proper to grant the requested issue to the extent that it will permit a determination of the facts relating to the probable cost of constructing the studio proposed by Radio Station WSOC. The Commission has said that its initial determination of the applicant's financial qualifications (a determination which was made as regards WSOC in the hearing order of January 13, 1954) includes a prima facie determination that available funds will be sufficient to effectuate all proposals contained in the application. In re South Central Broadcasting Corporation, 9 R. R. 1035. It is clear that this prima facie determination remains until either Carolinas' Television or Piedmont Electronics succeeds through competent evidence in proving that the WSOC proposed studios will not or cannot be constructed for the sum allocated.

5. It is to be noted that while the issues are being enlarged as requested, the areas of fact on which testimony will be permitted are confined to the cost of studio construction and the estimated expenses for the period prior to and immediately succeeding the commencement of broadcast operations.

6. *It is ordered*, This 24th day of March 1954, that the petition of Carolinas' Television Corporation filed March 8, 1954, joined in by Piedmont Electronics and Fixture Corporation, is granted with the qualifications enumerated above and the following issue is added to the proceeding: To determine whether the funds available to Radio Station WSOC, Incorporated, will give reasonable assurance that the proposals set forth in its application will be effectuated.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
Secretary.

[F. R. Doc. 54-2331; Filed, Mar. 31, 1954; 8:51 a. m.]

[1] Authority to add the issue is contained in the hearing order of January 13, 1954.

[Docket No. 10938]

PLASTOY CO., INC.

ORDER CONTINUING HEARING

In the matter of cease and desist order to be directed to Plastoy Company, Incorporated, 814 West Palisade Avenue, Englewood, New Jersey; Docket No. 10938.

The Commission having under consideration a request for continuance filed on March 19, 1954 by counsel for the Chief of the Commission's Field Engineering and Monitoring Bureau, requesting that the hearing in the above-entitled proceeding scheduled for April 5, 1954, at New York, New York, be continued to a date to be set by further order; and

It appearing, that the purpose of the requested continuance is to afford the Commission time to consider dismissal of this proceeding; and

It further appearing, that the said request for continuance has been on file for the time required by the Commission's rules, that no objection to the grant of said request has been filed, and that good cause for the granting thereof has been shown.

It is ordered, This 26th day of March 1954 that the request for continuance is granted, and that the hearing in the above-entitled proceeding now scheduled for April 5, 1954, is continued until a later date to be designated by further order of the Hearing Examiner.

Released: March 29, 1954.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
Secretary.

[F. R. Doc. 54-2332; Filed, Mar. 31, 1954; 8:51 a. m.]

SECURITIES AND EXCHANGE COMMISSION

[File No. 70-3211]

AMERICAN GAS AND ELECTRIC CO.

ORDER GRANTING APPLICATION AND PERMITTING DECLARATION TO BECOME EFFECTIVE REGARDING ISSUANCE OF COMMON STOCK BY REGISTERED HOLDING COMPANY IN EXCHANGE FOR COMMON STOCK OF NON-AFFILIATED PUBLIC-UTILITY COMPANY

MARCH 26, 1954.

American Gas and Electric Company ("American Gas"), has filed an application-declaration, and an amendment thereto, with this Commission under sections 6, 7, 9, and 10 of the Public Utility Holding Company Act of 1935 ("act") and Rule U-50 (a) (4) thereunder regarding the following proposed transactions:

American Gas proposes to issue 3⅓ shares of its authorized but unissued $5 par value common stock in exchange for each of the 1,900 outstanding shares of common stock, par value $50 per share, of Flat Top Power Company ("Flat Top"). No fractional shares of American Gas common stock will be issued but an appropriate adjustment will be made in lieu thereof. American Gas reserves the right to reject any acceptance unless the exchange is acceptable to the holders of all 1,900 shares of Flat Top stock outstanding. American Gas states that it has been advised that the 1,900 shares of common stock constitute Flat Top's only outstanding security and that all stockholders of Flat Top have agreed to make the exchange on the basis set forth above.

Flat Top, a West Virginia corporation, operates an electric power distribution system in the communities of Northfork, Kyle and Clark, near Welch, West Virginia. It owns about six miles of distribution line and serves approximately 800 customers. All of its electric power requirements are purchased from Appalachian Electric Power Company, an operating electric utility subsidiary of American Gas.

American Gas represents that negotiation of the proposed exchange was carried out at arm's-length and that no finder's fees or commissions are to be paid in connection therewith. Fees and expenses to be incurred in connection with the proposed transaction, including a legal fee of $1,250 to Simpson Thacher & Bartlett, are estimated not to exceed $1,500.

American Gas states that the territory served by Flat Top is surrounded by the territory served by the American Gas system and that Flat Top can immediately become a part of the American Gas integrated system. American Gas states that consummation of the proposed exchange will benefit investors and consumers since Flat Top can be more efficiently and economically operated as part of the American Gas system and will be able to render improved service to its present consumers and assure prospective consumers of adequate power.

American Gas states that no State or Federal regulatory agency, other than this Commission, has jurisdiction over any part of the proposed transactions.

American Gas requests that the Commission's order herein be issued pursuant to Rule U-23, waives the 30-day waiting period, and requests that said order become effective upon issuance.

Due notice having been given of the filing of the application-declaration, and a hearing not having been requested or ordered by the Commission; and the Commission finding that the applicable provisions of the act and the rules promulgated thereunder are satisfied and that no adverse findings are necessary, and deeming it appropriate in the public interest and the interest of investors and consumers that said application-declaration, as amended, be granted and permitted to become effective:

It is hereby ordered, Pursuant to Rule U-23 and the applicable provisions of the act, that said application-declaration, as amended, be, and the same hereby is, granted and permitted to become effective forthwith, subject to the terms and conditions prescribed in Rule U-24.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
Secretary.

[F. R. Doc. 54-2309; Filed, Mar. 31, 1954; 8:46 a. m.]

[File No. 70-3223]

ARKANSAS POWER & LIGHT CO.

NOTICE OF FILING REGARDING ISSUE AND SALE OF SHARES OF PREFERRED STOCK AT COMPETITIVE BIDDING

MARCH 26, 1954.

Notice is hereby given that Arkansas Power & Light Company ("Arkansas"), a public-utility subsidiary of Middle South Utilities, Inc., a registered holding company, has filed an application, and an amendment thereto, regarding its proposal to issue and sell at competitive bidding 70,000 shares of a new series of preferred stock. Applicant has designated section 6 (b) of the Public Utility Holding Company Act of 1935 ("act") and Rule U-50 thereunder as applicable to such proposed transaction.

All interested persons are referred to said application, which is on file in the offices of the Commission, for a statement of the proposed transaction and the facts contained therein, which are summarized as follows:

Arkansas proposes to issue and sell 70,000 shares of a new series of preferred stock, par value $100 per share, to provide a portion of $25,000,000 it contemplates expending in 1954 for the construction of new facilities and the extension and improvement of its present facilities to provide service to its customers. Such series of preferred stock is to be created out of a new class of 250,000 shares of preferred stock proposed to be authorized by an amendment of the Certificate of Consolidation of Arkansas which was approved by an Order of the Commission dated February 19, 1954 (Holding Company Act Release No. 12370).

The dividend rate of such preferred stock, to be a multiple of ⅛ of 1 percent, and the price to be paid to the company, to be not less than $100 nor more than $102.75 per share plus accrued dividends, will be fixed by proposals to be invited by the company pursuant to the requirements of Rule U-50. The company will reserve the right to reject any or all proposals at or after the opening thereof.

The filing states that no State commission, other than the Arkansas Public Service Commission, and no Federal regulatory agency, other than this Commission, has jurisdiction over the proposed transaction. The Arkansas commission has expressly authorized the proposed sale of preferred stock.

Arkansas states that it estimates the fees and expenses to be incurred in connection with the issuance of its new series of preferred stock, other than the fee of independent counsel for underwriters, will amount to approximately $50,000, including the fees of company counsel in the amount of $12,750, printing and engraving of $17,700 and Federal stamp taxes of $7,700.

Arkansas requests that the Commission's order become effective pursuant to Rule U-23 under the act, and requests that there be no waiting period between the date of the Commission's order and its effective date.

Notice is further given that any interested person may, not later than April 12, 1954, at 5:30 p. m., request that the Commission hold a hearing on this matter, stating the nature of his interest, the reason for such request, and the issue or issues of fact or law raised by such application which he proposes to controvert, or he may request that he be notified if the Commission shall order a hearing hereon. Any such request shall bear the caption of this notice and be addressed: Secretary, Securities and Exchange Commission, 425 Second Street NW., Washington 25, D. C. At any time after said date, such application, as amended, or as further amended, may be granted, or such proposed transaction may be exempted as provided by Rules U-20 (a) and U-100.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

GENERAL SERVICES ADMINISTRATION

THE ATTORNEY GENERAL

DELEGATION OF AUTHORITY TO NEGOTIATE CERTAIN CONTRACTS FOR TECHNICAL EQUIPMENT

1. Pursuant to the authority vested in me by the Federal Property and Administrative Services Act of 1949, 63 Stat. 377, as amended, herein called the act, authority is hereby delegated to the Attorney General of the United States to negotiate, without advertising, under section 302 (c) (12) of the act, contracts for the purchase of portable two-way radio sets.

2. This authority shall be exercised in accordance with applicable limitations and requirements in the act, particularly sections 304 and 307, and in accordance with policies, procedures and controls prescribed by the General Services Administration.

3. The authority herein delegated may not be redelegated but may be exercised as provided in section 309 (a) of the act.

4. This delegation shall be effective as of the date hereof.

Dated: March 29, 1954.

INTERSTATE COMMERCE COMMISSION

[4th Sec. Application 29057]

HIDES, PELTS AND SKINS FROM SOUTHERN TERRITORY TO READING, PA.

APPLICATION FOR RELIEF

MARCH 29, 1954.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: R. E. Boyle, Jr., Agent, for carriers parties to schedules listed below.

Commodities involved: Hides, pelts, and skins, carloads.

From: Specified points in southern territory.

To: Reading, Pa.

Grounds for relief: Rail competition, circuity, to apply rates constructed on the basis of the short line distance formula, and additional destination.

Schedules filed containing proposed rates: C. A. Spaninger, Agent, I. C. C. No. 1324, supp. 66; W. P. Emerson, Jr., Agent, I. C. C. No. 422, supp. 24.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission.

[4th Sec. Application 29058]

COAL FROM MINES IN SOUTHERN ILLINOIS AND WESTERN KENTUCKY TO MITCHELL AND PUTNEY, GA.

APPLICATION FOR RELIEF

MARCH 29, 1954.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: R. E. Boyle, Jr., Agent, for carriers parties to schedules listed below.

Commodities involved: Bituminous coal and coal briquettes, carloads.

From: Mines in southern Illinois and western Kentucky.

To: Mitchell and Putney, Ga.

Grounds for relief: Competition with rail carriers, circuitous routes and to maintain grouping.

Schedules filed containing proposed rates: C. A. Spaninger, Agent, I. C. C. No. 1414, supp. 4; Illinois Central Railroad Company, I. C. C. No. E-1860, supp. 34.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission.

[SEAL] GEORGE W. LAIRD, *Secretary.*

[4th Sec. Application 29059]

DI-SODIUM PHOSPHATE FROM CHICAGO HEIGHTS AND JOLIET, ILL., TO OMAHA, NEBR.

APPLICATION FOR RELIEF

MARCH 29, 1954.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: W. J. Prueter, Agent, for carriers parties to schedule listed below.

Commodities involved: Phosphate; disodium and tri-sodium, and sodium phosphate, carloads.

From: Chicago Heights and Joliet, Ill.

To: Omaha, Nebr.

Grounds for relief: Competition with rail carriers, circuitous routes, and competition with motor carriers.

Schedules filed containing proposed rates: W. J. Prueter, Agent, I. C. C. No. A-3733, supp. 103.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission.

[4th Sec. Application 29060]

BAKERY GOODS FROM CHICAGO, ILL. GROUP AND ZION, ILL., TO COUNCIL BLUFFS, IOWA, KANSAS CITY, MO.-KANS., AND OMAHA, NEBR.

APPLICATION FOR RELIEF

MARCH 29, 1954.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: W. J. Prueter, Agent, for carriers parties to schedule listed below.

Commodities involved: Bakery goods, carloads.

From Chicago, Ill., and points grouped therewith to Council Bluffs, Iowa, Kansas City, Mo.-Kans., and Omaha, Nebr., and from Zion, Ill., to Kansas City, Mo.-Kans.

Grounds for relief: Rail competition, circuity, and competition with motor carriers.

Schedules filed containing proposed rates: W. J. Prueter, Agent, I. C. C. No. A-3733, supp. 103.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission.

[No. MC-C-1629]

IRON AND STEEL ARTICLES; EASTERN CONTRACT CARRIERS

INVESTIGATION OF RATES AND CHARGES

At a general session of the Interstate Commerce Commission, held at its office in Washington, D. C., on the 25th day of March A. D. 1954.

The matter of minimum rates and charges maintained by motor contract carriers on iron and steel articles between points in various States and the District of Columbia being under consideration; and good cause appearing therefor:

It is ordered, That an investigation be, and it is hereby, instituted into and concerning the reasonableness, and the lawfulness otherwise, of the rates and charges, rules, regulations, and practices affecting such charges and the value of the service thereunder applicable to the transportation by motor contract carriers in interstate or foreign commerce of the iron and steel articles listed in the appendix below and made a part hereof between points in Connecticut, Delaware, District of Columbia, Kentucky, Illinois, Indiana, Maine, Maryland, Massachusetts, Michigan, Ohio, New Hampshire, New Jersey, New York, Pennsylvania, Rhode Island, Vermont, Virginia, and West Virginia, with a view to determining whether the rates or charges, or the rules, regulations, or practices affecting such rates or charges and the value of the service thereunder, of the respondent motor contract carriers, or any of them applicable to such transportation are in any respect in violation of the law, and of making such findings and entering such order or orders in the premises, and of taking such other action, as the facts and circumstances shall appear to warrant.

It is further ordered, That all contract carriers by motor vehicle engaged in the transportation described in the next preceding paragraph be, and they are hereby, made respondents in this proceeding.

It is further ordered, That notice of this proceeding be given to the respondents and to the general public by posting a copy of this order in the office of the Secretary of the Commission at Washington, D. C., and by filing a copy with the Director, Division of the Federal Register.

It is further ordered, That questions of operating authorities shall not be considered in issue in this proceeding.

And it is further ordered, That this proceeding be assigned for hearing at such time and place as may hereafter be fixed.

By the Commission.

IRON AND STEEL ARTICLES; EASTERN TERRITORY

INVESTIGATION OF RATES AND CHARGES

At a session of the Interstate Commerce Commission, Division 2, held at its office in Washington, D. C., on the 22d day of March A. D. 1954.

There being under consideration the matter of rates and charges, and regulations affecting such rates and charges, for the transportation in interstate or foreign commerce of manufactured iron or steel articles from, to and between points in eastern territory, including Illinois territory, as set forth in the following schedules:

C. W. Boin, Agent: Tariffs I. C. C. Nos. A-686 and A-1011;

H. R. Hinsch, Alternate Agent: Tariffs I. C. C. Nos. 3388, 3422 and 4954;

Frank Van Ummersen, Alternate Agent: Tariffs I. C. C. Nos. 272 and 670;

R. B. LeGrande, Agent: Tariffs I. C. C. Nos. 202 and 230;

R. G. Raasch, Agent: Tariff I. C. C. No. 749;

The Baltimore and Ohio Railroad Company: Tariffs I. C. C. Nos. 23250 and 23583;

Bessemer and Lake Erie Railroad Company: Tariff I. C. C. No. 1257;

Boston and Maine Railroad: Tariffs I. C. C. Nos. A-3001 and A-3002;

The Central Railroad Company of New Jersey: Tariff I. C. C. No. G-5760;

Central Vermont Railway, Inc.: Tariffs I. C. C. Nos. A-6942 and A-7020;

The Delaware, Lackawanna and Western Railroad Company: Tariffs I. C. C. Nos. 24041 and 24106;

The Delaware and Hudson Railroad Corporation: Tariff I. C. C. No. 3;

Erie Railroad Company (Lines Buffalo, Salamanca, N. Y., and East): Tariff I. C. C. No. 19973;

Grand Trunk Railway System (Lines in the United States, East of the West Bank of the Detroit and St. Clair Rivers), comprising the following carriers: Canadian National Railway Company; The Champlain and St. Lawrence Railroad Company (Canadian National Railway Company, Lessee); The United States and Canada Rail Road Company (Canadian National Railway Company, Lessee): Tariffs I. C. C. Nos. 243 and 277;

Lehigh and New England Railroad Company: Tariff I. C. C. No. A-6600;

Lehigh Valley Railroad Company: Tariff I. C. C. No. C-9075;

The New York Central Railroad Company: Tariffs I. C. C. Nos. NYC 17050, 1072, 9455 and 9458;

The New York, Chicago and St. Louis Railroad Company: Tariff I. C. C. No. 6140;

The New York, New Haven and Hartford Railroad Company: Tariffs I. C. C. Nos. F 3695, F 4105 and F 4170;

New York, Ontario and Western Railway Company (Ferdinand J. Sieghardt, Trustee): Tariffs I. C. C. Nos. 9931 and 10083;

The Pennsylvania Railroad Company: Tariffs I. C. C. Nos. 2510, 3054, 3126, 3153, 3161, 3176, 3181, 3189, 3194, 3213, 3234 and 3327;

The Pittsburgh and Lake Erie Railroad Company: Tariffs I. C. C. Nos. 3364 and 3371;

The Pittsburgh & West Virginia Railway Company: Tariff I. C. C. Nos. 443 and 505;

Reading Company: Tariff I. C. C. No. 2115;

Western Maryland Railway Company: Tariff I. C. C. No. 8529;

And supplements thereto or reissues thereof; and all other tariffs, supplements and schedules not designated in this order insofar as they contain the same provisions, or provisions of the same import, as those set forth in the aforenamed schedules; or as the same may be amended or reissued; and good cause appearing therefor:

It is ordered, That an investigation be, and it is hereby, instituted by said Division 2, upon its own motion, into and concerning the lawfulness of the rates, charges and regulations contained in said schedules, with a view to the making by the Commission of such findings and orders as the circumstances shall appear to warrant.

It is further ordered, That all carriers parties to the said schedules be, and they are hereby, made respondents to this proceeding; that a copy of this order be forthwith served upon each of them; that they be duly notified of the time and place of the hearing herein; and that notice of this proceeding be given to the public by posting a copy of this order in the office of the Secretary of the Commission.

By the Commission, Division 2.

[SEAL] GEORGE W. LAIRD, *Secretary.*

IRON AND STEEL ARTICLES; EASTERN COMMON CARRIERS

INVESTIGATION OF RATES AND CHARGES

At a general session of the Interstate Commerce Commission, held at its office in Washington, D. C., on the 25th day of March A. D. 1954.

Iron and steel articles—Eastern common carriers (former title: Iron or Steel Articles; Middle Atlantic Territory); fourth supplemental order.

The matter of rates and charges maintained by motor common carriers on iron and steel articles between points in various States and the District of Columbia being under consideration; and good cause appearing therefor:

It is ordered, That this investigation be, and it is hereby, broadened to include investigation into and concerning the reasonableness, and the lawfulness otherwise, of the rates, charges, rules, and regulations maintained by motor common carriers for the transportation in interstate or foreign commerce of the iron or steel articles listed in the appendix below and made a part hereof between points in Connecticut, Delaware, District of Columbia, Kentucky, Illinois, Indiana, Maine, Maryland, Massachusetts, Michigan, Ohio, New Hampshire, New Jersey, New York, Pennsylvania, Rhode Island, Vermont, Virginia, and West Virginia, with a view to making

such findings and entering such order or orders or taking such other action, as the facts and circumstances shall appear to warrant.

It is further ordered, That all common carriers by motor vehicle engaged in the transportation described in the next preceding paragraph be, and they are hereby, made respondents in this proceeding.

It is further ordered, That notice of this proceeding be given to the respondents and to the general public by posting a copy of this order in the office of the Secretary of the Commission at Washington, D. C., and by filing a copy with the Director, Division of the Federal Register.

It is further ordered, That questions of operating authorities shall not be considered in issue in this proceeding.

And it is further ordered, That this proceeding be assigned for hearing at such time and place as may hereafter be fixed.

By the Commission.

[Nos. MC-C-1510, MC-C-1629, 31487]

TRANSPORTATION OF IRON AND STEEL ARTICLES IN EASTERN TERRITORY BY COMMON AND CONTRACT CARRIERS; INVESTIGATION OF RATES AND CHARGES

NOTICE OF PRE-HEARING CONFERENCE

MARCH 26, 1954.

Iron and steel articles—eastern common carriers (formerly: Iron or Steel Articles; Middle Atlantic Territory); No. MC-C-1510; Iron and steel articles—Eastern contract carriers; No. MC-C-1629; Iron and steel articles—Eastern territory; No. 31487.

In accordance with Rule 68 of the Commission's general rules of practice, notice is hereby given to all parties interested that a pre-hearing conference [1] in the above-entitled proceedings will be held at 10:00 o'clock a. m., United States Standard Time, on April 8, 1954, at the Interstate Commerce Commission, Washington, D. C., with Division 2 presiding along with Examiner Michael T. Corcoran.

At the pre-hearing conference it is contemplated that the following matters will be discussed:

(1) The issues in the proceedings;

(2) The evidence to be offered by the parties;

(3) The possibility of stipulations by the parties of material and relevant facts which are not in the dispute and of the use by all parties and the Commission of matters of public record, such as annual and other reports filed with the Commission by respondents:

(4) The number of witnesses to be presented and the time required for such presentation by: (1) The railroads, (2) the motor common carriers, (3) the motor contract carriers, and (4) shippers and other interested parties:

(5) The extent to which the evidence, particularly direct testimony, can be submitted in written form;

(6) The prior mutual exchange among the parties of prepared testimony and exhibits;

(7) The need or desirability of special rules of procedure;

(8) The date and place of hearing;

(9) Whether these proceedings shall be heard on a consolidated record; and

(10) Such other matters as may facilitate an early decision in the proceedings.

The Commission wants the discerning aid of all interested persons in the making of a record which will contain the reliable, probative, and substantial evidence upon which the issues in these proceedings should be determined and which will be free of irrelevant, immaterial, and unduly repetitious evidence. It is expected that the pre-hearing conference will result in agreement of the parties for the provision of this aid in a sincere and orderly manner.

Lucid statements by respondents and by all other interested persons who intend to participite in the hearing of their positions and of the evidence which they intend to offer should be carefully prepared in writing in advance of the pre-hearing conference. To the fullest extent possible the evidence which will be offered should be described in such statements so that any questions with respect to it which might be raised at the conference can be frankly discussed and, if possible, settled by agreement of the parties. This includes, among other things, evidence showing (a) the present rates and charges of respondents, their history, and the earnings thereunder, (b) the volume of traffic of iron and steel articles and its relative importance to respondents, (c) the financial condition of respondents, (d) the economy and efficiency of management and operations of the respective respondents, (e) the quality of the service of the respective respondents, (f) the competition among the respective respondents, (g) the value of the service of the respective respondents, (h) the costs incurred by respondents in transporting iron and steel articles, and (i) the bases upon which rates and charges which will be just and reasonable and which will conform with the National Transportation Policy should be determined. Cooperation among interested persons in the making of cost studies and in the preparation of documentary evidence will contribute to the prevention of repetitious evidence and will result in advantage to everyone

[1] Further pre-hearing conference in No. MC-C-1510.

without in any way lessening the preservation of the rights of anyone.

Adequate preparation by interested parties prior to the pre-hearing conference is essential to the accomplishment of the purposes of the conference and, in turn, to the timely determination of the issues presented in these proceedings. It is expected that the parties will be ready to proceed promptly with the hearings.

Any person desiring to be notified of the time and place of hearing or of any change in the time or place of any conference or of any hearing (at his own expense if telegraphic notice becomes necessary) shall inform the Interstate Commerce Commission, Washington, D. C., to that effect by notice which must reach the Commission not later than April 5, 1954.

By the Commission, Division 2.

[SEAL] GEORGE W. LAIRD, *Secretary.*

Washington, Friday, April 2, 1954

TITLE 3—THE PRESIDENT

PROCLAMATION 3047

NATIONAL FARM SAFETY WEEK, 1954

BY THE PRESIDENT OF THE UNITED STATES OF AMERICA

A PROCLAMATION

WHEREAS more accidental deaths occur in farming than in any other major industry in this country; and

WHEREAS a disabling injury strikes some farm person in America every twenty-six seconds, on an average, as the result of an avoidable accident; and

WHEREAS this appalling loss can be greatly reduced by the exercise of care and caution on the part of farm people:

NOW, THEREFORE, I, DWIGHT D. EISENHOWER, President of the United States of America, do hereby call upon the Nation to observe the week beginning July 25, 1954, as National Farm Safety Week; and I urgently request all farm residents to make every effort to develop safe work habits and skills, so that they may "Farm To Live and Live To Farm". I also request all persons and organizations interested in farm life and welfare to join in a campaign to free as many farm homes as possible from the tragedies and losses caused by needless accidents.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the Seal of the United States of America to be affixed.

DONE at the City of Washington this thirtieth day of March in the year of our Lord nineteen hundred and [SEAL] fifty-four, and of the Independence of the United States of America the one hundred and seventy-eighth.

DWIGHT D. EISENHOWER

By the President:

JOHN FOSTER DULLES, *Secretary of State.*

PROCLAMATION 3048

IMPOSING A QUOTA ON IMPORTS OF RYE, RYE FLOUR, AND RYE MEAL

BY THE PRESIDENT OF THE UNITED STATES OF AMERICA

A PROCLAMATION

WHEREAS, pursuant to section 22 of the Agricultural Adjustment Act, as added by section 31 of the act of August 24, 1935, 49 Stat. 773, reenacted by section 1 of the act of June 3, 1937, 50 Stat. 246, and as amended by section 3 of the act of July 3, 1948, 62 Stat. 1248, section 3 of the act of June 28, 1950, 64 Stat. 261, and section 8 (b) of the act of June 16, 1951, 65 Stat. 72 (7 U. S. C. 624), the Secretary of Agriculture advised me there was reason to believe that rye, rye flour, and rye meal are being or are practically certain to be imported into the United States under such conditions and in such quantities as to render or tend to render ineffective, or materially interfere with, the price-support program undertaken by the Department of Agriculture with respect to rye pursuant to sections 301 and 401 of the Agricultural Act of 1949, as amended, or to reduce substantially the amount of products processed in the United States from domestic rye with respect to which such program of the Department of Agriculture is being undertaken;

WHEREAS, on December 9, 1953, I caused the United States Tariff Commission to make an investigation under the said section 22 with respect to this matter;

WHEREAS the said Tariff Commission has made such investigation and has reported to me its findings and recommendations made in connection therewith;

WHEREAS, on the basis of the said investigation and report of the Tariff Commission, I find that rye, rye flour, and rye meal, in the aggregate, are being and are practically certain to continue to be imported into the United States

under such conditions and in such quantities as to interfere materially with and to tend to render ineffective the said price-support program with respect to rye, and to reduce substantially the amount of products processed in the United States from domestic rye with respect to which said price-support program is being undertaken; and

WHEREAS I find and declare that the imposition of the quantitative limitations hereinafter proclaimed is shown by such investigation of the Tariff Commission to be necessary in order that the entry, or withdrawal from warehouse, for consumption of rye, rye flour, and rye meal will not render ineffective, or materially interfere with, the said price-support program:

NOW, THEREFORE, I, DWIGHT D. EISENHOWER, President of the United States of America, acting under and by virtue of the authority vested in me by the said section 22 of the Agricultural Adjustment Act, as amended, do hereby proclaim that

(1) the total aggregate quantity of rye, rye flour, and rye meal which may be entered, or withdrawn from warehouse, for consumption in the period beginning on the date of this proclamation and ending at the close of June 30, 1954, shall not exceed 31,000,000 pounds, of which not more than 2,500 pounds may be in the form of rye flour or rye meal; and

(2) the total aggregate quantity of rye, rye flour, and rye meal which may be entered, or withdrawn from warehouse, for consumption in the 12-month period beginning July 1, 1954, shall not exceed 186,000,000 pounds, of which not more than 15,000 pounds may be in the form of rye flour or rye meal,

which permissible total quantities I find and declare to be proportionately not less than 50 per centum of the total quantity of such rye, rye flour, and rye meal entered, or withdrawn from warehouse, for consumption during the representative period July 1, 1950 to June 30, 1953, inclusive.

The provisions of this proclamation shall not apply to certified or registered seed rye for use for seeding and crop-improvement purposes, in bags tagged and sealed by an officially recognized seed-certifying agency of the country of production, if

(a) the individual shipment amounts to 100 bushels (of 56 pounds each) or less, or

(b) the individual shipment amounts to more than 100 bushels (of 56 pounds each) and the written approval of the Secretary of Agriculture or his designated representative is presented at the time of entry, or bond is furnished in a form prescribed by the Commissioner of Customs in an amount equal to the value of the merchandise as set forth in the entry, plus the estimated duty as determined at the time of entry, conditioned upon the production of such written approval within six months from the date of entry.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the seal of the United States of America to be affixed.

DONE at the City of Washington this 31st day of March in the year of our Lord nineteen hundred and fifty-four, and of the Independence of the United States of America the one hundred and seventy-eighth.

[SEAL]

DWIGHT D. EISENHOWER

By the President:

JOHN FOSTER DULLES,
Secretary of State.

EXECUTIVE ORDER 10524

DELEGATING CERTAIN FUNCTIONS OF THE PRESIDENT RESPECTING SCHOOL-CONSTRUCTION ASSISTANCE

By virtue of the authority vested in me by section 301 of title 3 of the United States Code, and as President of the United States, it is hereby ordered as follows:

SECTION 1. The Secretary of Health, Education, and Welfare is hereby authorized and empowered, without the approval, ratification, or other action of the President, to make the findings authorized to be made by the President under section 305 (a) (3) of the act of September 23, 1950, entitled "An Act relating to the construction of school facilities in areas affected by Federal activities, and for other purposes", as added by section 1 of the act of August 8, 1953, Public Law 246, 83rd Congress (67 Stat. 523; 20 U. S. C. 295 (a) (3)).

SEC. 2. In making the findings described in clause (A) of the said section 305 (a) (3), the Secretary of Health, Education, and Welfare shall follow and be bound by the recommendations of the Director of the Office of Defense Mobilization with respect thereto, and in making the findings described in clause (B) of the said section, the Secretary of Health, Education, and Welfare shall follow and be bound by the recommen-

dations of the Secretary of Labor with respect thereto. The recommendations of the Director of the Office of Defense Mobilization and of the Secretary of Labor shall be furnished promptly to the Secretary of Health, Education, and Welfare upon the latter's request therefor from time to time.

SEC. 3. Except as may be incompatible with the requirements of national security as determined by the Secretary of Defense, the said Secretary shall furnish the Secretary of Labor, upon request made from time to time by the Secretary of Labor, information respecting the immigration of military personnel as referred to in clause (B) of the said section 305 (a) (3).

TITLE 6—AGRICULTURAL CREDIT

Chapter IV—Commodity Stabilization Service and Commodity Credit Corporation, Department of Agriculture

Subchapter B—Loans, Purchases, and Other Operations

[1954 C. C. C. Grain Price Support Bulletin 1, Supp. 1, Rye]

PART 421—GRAINS AND RELATED COMMODITIES

SUBPART—1954-CROP RYE LOAN AND PURCHASE AGREEMENT PROGRAM

A price support program has been announced for 1954-crop rye. The 1954 C. C. C. Grain Price Support Bulletin 1 (19 F. R. 967), issued by the Commodity Credit Corporation and containing regulations of a general nature with respect to price support operations for certain grains and related commodities produced in 1954 is supplemented as follows:

Sec.
421.601 Purpose.
421.602 Availability of price support
421.603 Eligible rye.
421.604 Warehouse receipts.
421.605 Determination of quantity.
421.606 Determination of quality.
421.607 Maturity of loans.
421.608 Support rates.
421.609 Warehouse charges.
421.610 Settlement.

AUTHORITY: §§ 421.601 to 421.610 issued under sec. 4, 62 Stat. 1070, as amended; 15 U. S. C. Sup. 714b. Interpret or apply sec. 5, 62 Stat. 1072, secs. 301, 401, 63 Stat 1053, 1054, 15 U. S. C. Sup. 714c, 7 U. S. C. Sup. 1447, 1421.

§ 421.601 *Purpose.* This subpart states additional specific regulations which, together with the general regulations contained in the 1954 C. C. C. Grain Price Support Bulletin 1 (§§ 421.401 to 421.421), apply to loans and purchase agreements under the 1954-Crop Rye Price Support Program.

§ 421.602 *Availability of price support*—(a) *Method of support.* Price support will be made available through farm-storage and warehouse-storage loans and through purchase agreements.

(b) *Area.* Farm-storage and warehouse-storage loans and purchase agreements will be available wherever rye is grown in the continental United States, except that farm-storage loans will not be available in areas where the ASC State committee determines that rye cannot be safely stored on the farm

(c) *Where to apply.* Application for price support should be made at the office of the ASC county committee which keeps the farm-program records for the farm

(d) *When to apply.* Loans and purchase agreements will be available from the time of harvest through January 31, 1955, and the applicable documents must be signed by the producer and delivered to the county committee not later than such date.

(e) *Eligible producer.* An eligible producer shall be an individual, partnership, association, corporation, or other legal entity producing rye in 1954 as landowner, landlord, tenant, or sharecropper.

§ 421.603 *Eligible rye.* At the time the rye is placed under loan or delivered under a purchase agreement, it must meet the following requirements:

(a) The rye must have been produced in the continental United States in 1954 by an eligible producer.

(b) The beneficial interest in the rye must be in the eligible producer tendering the rye for loan or for delivery under a purchase agreement, and must always have been in him, or must have been in him and a former producer whom he succeeded before the rye was harvested.

(c) Such rye must be rye grading No. 2 or better, or rye grading No. 3 on the factor of "test weight" only, but otherwise grading No. 2 or better.

(d) The rye must not grade Tough, Light Smutty, Smutty, Light Garlicky, Garlicky, Weevily or contain in excess of 1 percent ergot, except that rye represented by warehouse receipts grading tough will be eligible if the warehouseman certifies on the supplemental certificate or on a statement attached to the warehouse receipt "Rye grading Tough has been processed at the request of the eligible producer, and delivery will be made of the same country-run quality, quantity, and grade not Tough and no lien for processing will be claimed by the warehouseman from Commodity Credit Corporation or any subsequent holder of said warehouse receipt."

(e) If offered as security for a farm-storage loan, the rye must have been stored in the granary at least 30 days prior to its inspection for measurement, sampling, and sealing, unless otherwise approved by the ASC State committee.

§ 421.604 *Warehouse receipts.* Warehouse receipts, representing rye in approved warehouse storage to be placed under loan or delivered under a purchase agreement, must meet the following requirements of this section:

(a) Warehouse receipts must be issued in the name of the producer, must be properly endorsed in blank so as to vest title in the holder and must be receipts issued on a warehouse approved by CCC under the Uniform Grain Storage Agreement which indicate that the rye is insured, or must be receipts issued on warehouses operated by Eastern common carriers under tariffs approved by the Interstate Commerce Commission for which custodian agreements are in effect.

(b) (1) Each warehouse receipt, or the warehouseman's supplemental certificate (in duplicate), properly identified with the warehouse receipt, must show: (i) Gross weight or bushels, (ii) grade (including special grades), (iii) percentage of ergot for rye containing in excess of $\frac{1}{10}$ of 1 percent of ergot, (iv) test weight, (v) dockage, and (vi) any other grading factor(s) when such factor(s) and not test weight determine the grade. The warehouse receipt or supplemental certificate must show whether the rye arrived by rail, truck or barge. In the case of warehouse receipts issued for rye delivered by rail or barge, the grading factors on the warehouse receipt must agree with the inbound inspection certificate for the car or barge when such certificate is issued.

(2) If the warehouseman has processed the rye as provided in § 421.603 (d), the supplemental certificate must show the numerical grade and the grading factors changed because of the rye being processed. Where the grade and grading factors shown on the supplemental certificate do not agree with the warehouse receipt, the factors shown on the supplemental certificate shall take precedence.

(c) A separate warehouse receipt must be submitted for each grade of rye.

(d) The warehouse receipt may be subject to liens for warehouse charges only to the extent indicated in § 421.609.

(e) Warehouse receipts representing rye which has been shipped by rail or water from a country shipping point to a designated terminal point or shipped by rail or water from a country shipping point to a storage point and stored in transit to a designated terminal point, must be accompanied by registered freight bills, or by a certificate containing similar information in a form prescribed by the CSS commodity office which shall be signed by the warehouseman and which may be part of the supplemental certificate.

§ 421.605 *Determination of quantity.* (a) The quantity of rye placed under farm-storage loan may be determined either by weight or by measurement. The quantity of rye placed under a warehouse-storage loan or delivered under a farm-storage loan or under a purchase agreement shall be determined by weight.

(b) When the quantity is determined by weight, a bushel shall be 56 pounds of rye free of dockage. In determining the quantity of sacked rye by weight, a deduction of ¾ of a pound for each sack shall be made.

(c) When the quantity of rye is determined by measurement, a bushel shall be 1.25 cubic feet of rye testing 56 pounds per bushel. The quantity determined shall be the following percentages of the quantity determined for 56-pound rye:

For rye testing:	Percent
56 pounds or over	100
55 pounds or over, but less than 56 pounds	98
54 pounds or over, but less than 55 pounds	96
53 pounds or over, but less than 54 pounds	95
52 pounds or over, but less than 53 pounds	92

(d) The percentage of dockage shall be determined and the weight of such dockage shall be deducted from the gross weight of the rye in determining the net quantity available for loan or purchase.

§ 421.606 *Determination of quality.* (a) The grade, grading factors and all other quality factors shall be determined in accordance with the methods set forth in the Official Grain Standards of the United States for Rye, whether or not such determinations are made on the basis of an official inspection.

(b) The quantity of ergot shall be stated in terms of tenths of one percent and where applicable, the word "Ergoty" shall be added to, and made a part of, the grade designation.

§ 421.607 *Maturity of loans.* Loans mature on demand but not later than April 30, 1955.

§ 421.608 *Support rates.* Basic support rates for rye will be set forth in 1954 C. C. C. Grain Price Support Bulletin 1, Supplement 2, Rye. These support rates will be established for rye stored in approved warehouse storage at designated terminal markets, and for rye stored in approved country warehouses and in approved farm storage. The support rate for the quality of rye placed under a loan or delivered under a purchase agreement shall be the applicable basic suport rate adjusted in accordance with the provisions of this section.

(a) *Support rates at designated terminal markets.* (1) (i) Rye eligible for loan or purchase at the support rates established at designated terminal markets must have been shipped on a domestic interstate freight rate basis. On any rye shipped at other than the domestic interstate freight rate, the support rate at the designated terminal market shall be reduced by the difference between the rate of freight paid (plus tax) and the domestic interstate freight rate (plus tax).

(ii) The support rates established for designated terminal markets will apply to rye which has been shipped by rail or water from a country shipping point to one of the designated terminal markets, as evidenced by paid freight bills duly registered for transit privileges: *Provided*, That in the event the amount of paid-in freight is insufficient to guarantee the minimum proportional domestic interstate freight rate from the terminal market, there shall be deducted from the applicable terminal support rate the difference between the amount of freight actually paid in and the amount required to be paid in to guarantee outbound movement at the minimum proportional domestic interstate freight rate.

(2) (i) When shipped by rail or water and stored at any designated terminal market, rye for which neither registered freight bills nor registered freight certificates are presented to guarantee outbound movement at the minimum proportional domestic interstate freight rate, shall have a support rate equal to the applicable terminal rate minus 8 cents per bushel.

(ii) For rye received by truck and stored at any designated terminal market, the support rate shall be determined by making a deduction from the applicable terminal rate as follows:

Terminal located in	Amount of deduction (cents per bushel)
Area I: Arizona, California, Idaho, Nevada, Oregon, Utah, Washington	12½
Area II: Minnesota, Montana, North Dakota, South Dakota, also Superior, Wisconsin	12½
Area III: Colorado, Illinois, Iowa, Kansas, Missouri, Nebraska, Wyoming, Wisconsin, except Superior	13
Area IV: All States not listed in Areas I, II, and III above	14

(b) *Support rates for rye in approved warehouse-storage at other than designated terminal markets.* (1) The support rate for rye stored in approved warehouses (other than those situated in the designated terminal markets) which is shipped by rail or water, shall be determined by deducting from the appropriate designated terminal market rate an amount equal to the transit balance, if any (plus tax) of the through-freight rate from point of origin

for such rye to such terminal market: *Provided*, That on any rye shipped at other than the domestic interstate freight rate the support rate shall be further reduced by the difference between the rate of freight paid (plus tax) and the domestic interstate freight rate (plus tax) from the point of origin of such rye to the point of storage: *And provided further*, That in the case of rye stored at any railroad transit point, taking a penalty by reason of out-of-line movement or for any other reason, to the appropriate designated market, there shall be added to such transit balance an amount equal to any out-of-line costs or other costs incurred in storing rye in such position.

(2) The warehouse receipts must be accompanied by the original paid freight bills or certificates of the warehouseman and other required documents as set forth in § 421.604.

(c) *Discounts.* The basic support rates shall be adjusted by all applicable discounts listed in 1954 C. C. C. Grain Price Support Bulletin 1, Supplement 2, Rye.

§ 421.609 *Warehouse charges.* (a) Warehouse receipts and the rye represented thereby stored in approved warehouses operating under the Uniform Grain Storage Agreement may be subject to liens for warehouse handling and storage charges not to exceed the Uniform Grain Storage Agreement rates from the date the rye is deposited in the warehouse for storage. Where the date of deposit (the date of the warehouse receipt if the date of deposit is not shown) on warehouse receipts representing rye stored in warehouses operating under the Uniform Grain Storage Agreement is on or before April 30, 1955, there shall be deducted in computing the amount of the loan or purchase price the storage charges as determined in accordance with the table of deductions for warehouse charges to be issued on a later date, unless written evidence is submitted with the warehouse receipt that all warehouse charges, except receiving and loading out charges have been prepaid through April 30, 1955.

(b) Warehouse receipts and the rye represented thereby stored in approved warehouses operated by Eastern common carriers may be subject to liens for warehouse elevation (receiving and delivering) and storage charges from the date of deposit at rates approved by the Interstate Commerce Commission. There shall be deducted in computing the loan or purchase price the amount of the approved tariff rate for storage (not including elevation), which will accumulate from the date of deposit through April 30, 1955, unless written evidence is submitted with the warehouse receipt that the storage charges have been prepaid. The county committee shall request the CSS commodity office to determine the amount of such charges.

§ 421.610 *Settlement*—(a) *Settlement value.* (1) In the case of eligible rye delivered to CCC from farm-storage under the loan program, settlement shall be made at the applicable support rate determined in accordance with § 421.418 (e). The support rate shall be for the grade and quality of the total quantity of rye eligible for delivery. If, upon delivery, the rye under farm-storage loan is of a grade and/or quality for which no support rate has been established, the settlement value shall be computed at the support rate established for the grade and/or quality of the rye placed under loan, less the difference, if any, at the time of delivery, between the market price for the grade and/or quality placed under loan and the market price of the rye delivered, as determined by CCC: *Provided, however*, That if such rye is sold by CCC in order to determine its market price the settlement value shall not be less than such sales price.

(2) In the case of eligible rye delivered to CCC under purchase agreement, settlement shall be made at the applicable support rate determined in accordance with § 421.603 and § 421.418 (e).

(b) *Storage deduction for early delivery.* Whenever farm-stored rye under loan or purchase agreement is delivered to CCC prior to April 30, 1955, a deduction for storage shall be made in accordance with the schedule of deductions for warehouse charges (§ 421.609), except that no such deduction shall be made if such early delivery is made because the loan is called solely for the convenience of CCC, or if it is determined by CCC at the time of delivery that the rye will be sold rather than stored, or if CCC requires early delivery on an area basis.

(c) *Refund of prepaid handling charges.* In case a warehouseman charges the producer for the receiving or the receiving and loading out charges on rye under loan or purchase agreement (or charges for elevation in the case of warehouses operated by Eastern common carriers), the producer shall, upon delivery of the rye to CCC, be reimbursed or given credit by the county office for such prepaid charges in an amount not to exceed the charges authorized under the Uniform Grain Storage Agreement (or approved tariff in the case of warehouses operated by Eastern common carriers) provided, the producer furnishes to the county committee written evidence signed by the warehouseman that such charges have been paid.

(d) *Track-loading payment.* A track-loading payment of 3 cents per bushel shall be made to the producer on rye delivered to CCC on track at a country point.

Issued this 29th day of March 1954.

[SEAL] J. A. McCONNELL,
Executive Vice President,
Commodity Credit Corporation.

AUTHORITY: §§ 524.345 to 524.359 issued under sec. 32, 49 Stat. 774, as amended; 7 U. S. C. 612c.

§ 524.345 *General statement.* (a) In order to encourage the domestic consumption of honey produced in the continental United States by diverting it from normal channels of trade and commerce, the Secretary of Agriculture, pursuant to the authority conferred by section 32 of Pub. Law 320, 74th Congress, as amended, offers to make payments to eligible persons complying with the terms and conditions hereinafter set forth.

(b) Information pertaining to this program and forms prescribed for use may be obtained from the following:

Erwin M. Graham, Fruit and Vegetable Division, Agricultural Marketing Service, United States Department of Agriculture, Fourteenth Street and Independence Avenue, SW., Washington 25, D. C.

Minard F. Miller, Fruit and Vegetable Division, Agricultural Marketing Service, United States Department of Agriculture, P. O. Box 19, Lakeland, Fla.

John W. Gannaway, Fruit and Vegetable Division, Agricultural Marketing Service, United States Department of Agriculture, Room 549, New Custom House, Denver 2, Colo.

Michael T. Coogan, Fruit and Vegetable Division, Agricultural Marketing Service, United States Department of Agriculture, 1031 South Broadway, Room 1005, Los Angeles 15, Calif.

Werner Allmandinger, Fruit and Vegetable Division, Agricultural Marketing Service, United States Department of Agriculture, 1000 Geary Street, San Francisco 9, Calif.

Robert H. Eaton, Fruit and Vegetable Division, Agricultural Marketing Service, United States Department of Agriculture, Eastern Building, 515 Southwest Tenth Avenue, Portland 5, Oreg.

§ 524.346 *Rate of payment.* The rate of payment applicable to honey of U. S. Grade C or better diverted in accordance with the terms and conditions of this subpart shall be 3.75 cents per pound.

§ 524.347 *Eligibility for payment.* Payments will be made to any individual, partnership, association, corporation or other legal entity located in and maintaining a business organization within the continental United States (a) who executes and files with the Director, Fruit and Vegetable Division, Agricultural Marketing Service, United States Department of Agriculture, Washington 25, D. C. in triplicate an application on Form FV-457 [1] (Revised March 15, 1954), "Application for Honey Diversion Program VMD 66a (1954 Marketing Season) and for Approval of Diversion Product," (b) whose application is approved by the Administrator, (c) who diverts honey produced in the continental United States or sells such honey for diversion into a product for which his application has been approved, and (d) who files claim as provided in § 524.352 and otherwise complies with all the terms and conditions of this subpart.

§ 524.348 *Applications and approvals.* Applications may be based (a) on intent of the applicant to divert, (b) on sales contracts, or (c) on sales negotiations. Applications will be considered for approval in the order submitted and in accordance with the availability of funds. Approval of applications based on sales negotiations shall be subject to the filing with the Administrator of a notification of completion of negotiations. If such notification is not filed within 30 days from date of approval of the application, the Administrator may cancel the approval. Such notification shall list the quantity and floral source of the honey to be diverted and any differences between the details in the approved application and those set forth in the sales contract. The Administrator reserves the right to cancel the approval of any application based on sales negotiations, but notice of such cancellation must be mailed prior to the filing of notice of completion of the sales negotiations. An application based on a sales contract must be filed with the Administrator within seven days of the execution of the sales contract. Applications must be approved before diversion of the honey. If a sales contract with respect to which the Administrator has approved an application is modified in any respect, the applicant shall notify the Administrator promptly of such modification. The Administrator will give notice to the applicant of the approval or nonapproval of such modification.

[1] Filed as part of the original document.

§ 524.349 *Minimum grade and inspection.* Honey diverted under this subpart shall be equal to, or better than, U. S. Grade C of the "United States Standards for Grades of Extracted Honey," effective April 16, 1951. It shall have been inspected prior to diversion at either the applicant's or at the diverter's plant or warehouse. Such inspection shall be performed by an inspector of the Processed Products Standardization and Inspection Branch, Fruit and Vegetable Division, Agricultural Marketing Service, United States Department of Agriculture. The cost of the inspection and issuance of certificates shall be borne by the applicant.

§ 524.350 *Period of diversion.* No payment under this subpart will be made in connection with any honey diverted by the applicant or sold into an approved diversion outlet unless the diversion was accomplished by the applicant or the sales contract was entered into after the effective date hereof and prior to 12 o'clock midnight, e. s. t., March 31, 1955. Where diversion is by someone other than the applicant, the time for diversion shall extend to 12 o'clock midnight, e. s. t., April 30, 1955.

§ 524.351 *Net price to diverter.* The net price per unit of weight charged the diverter shall be established by deducting the rate of payment under this offer from the gross sales price of such unit of weight.

§ 524.352 *Claims for payment supported by evidence of compliance.* (a) Applicants shall file claims for payment not later than May 31, 1955, with the Director, Cincinnati CSS Commodity Office, United States Department of Agriculture, 1010 Broadway, Cincinnati 2, Ohio. Each claim for payment shall be filed in an original and two copies on Form FDA-564 (Public Voucher—Diversion Programs) and shall show the number assigned by the United States Department of Agriculture on the related approved application, and shall be supported by:

(1) The original or a signed copy of the inspection certificate required in § 524.349;

(2) A certified statement by the applicant that the honey has been diverted in the manner specified in his application and within the applicable period specified in § 524.350, or that the honey has been sold and delivered for diversion in accordance with the terms and conditions of this subpart, and that such honey was produced in the continental United States;

(3) Where diverter is other than applicant, a signed or certified true copy of the sales contract;

(4) Where diverter is other than applicant, a certification from the diverter of such honey that diversion has been accomplished and the manner and date of such diversion; and,

(5) Such other documents as may be required by the Administrator as evidence of the diversion of the honey.

(b) Each sales contract shall show the date of sale, the price per unit of weight charged to the diverter, the quantity (net weight) of honey sold, and the floral source of such honey. If the price per unit of weight charged the diverter, shown in the sales contract, is on a basis other than delivered to diverter's plant or warehouse, the applicant shall certify on the copy of the sales contract that the delivered price is the equivalent of the price actually charged to the diverter.

§ 524.353 *Records and accounts.* Each applicant shall maintain accurate records with respect to the honey he diverts and sells for diversion. With respect to sales, such records shall show the quantities, sales prices, dates of delivery, and the dates of completion of diversion. Such records and accounts and other documents relating to any transaction in connection with this program shall be preserved until at least March 31, 1957, and shall be available as long as preserved, during regular business hours, for inspection and audit by authorized employees of the United States Department of Agriculture. Applicants who sell honey for diversion shall also obtain and furnish to the Administrator a statement signed by the person who diverts the honey (a) that he will keep records showing, in respect to each lot of honey received, the quantity, weight, date of receipt, price paid, date when diversion was completed, and manner of diversion; (b) that the records pertaining to such diversion shall be preserved until at least March 31, 1957; (c) that such records shall be available during regular business hours for inspection by authorized employees of the United States Department of Agriculture until at least March 31, 1957; and (d) that the diversion plant shall be available for inspection by such authorized employees.

§ 524.354 *Amendment and termination.* This subpart may be amended or terminated by the Administrator at any time by public announcement of such amendment or termination. No amendment or termination shall be applicable to any honey covered by an approved application.

§ 524.355 *Persons not eligible for payment.* No member of, or delegate to, Congress, or Resident Commissioner, shall be admitted to any share or part of any contract resulting from this subpart or to any benefits that may arise therefrom, but this provision shall not be construed to extend to such a contract if made with a corporation for its general benefit, or to any such person acting in his capacity as a beekeeper.

§ 524.356 *Set-off.* The Administrator may set off, against any amount owed to any applicant under this subpart, any amount owed by such applicant to the United States Department of Agriculture, Commodity Credit Corporation, or any other agency of the United States.

§ 524.357 *Joint payee or assignment.* The applicant may name a joint payee on vouchers or invoices for payment or may assign the proceeds of the approved application to a recognized financing institution as provided in this subpart. No assignment by the applicant shall be made of an approved application, or any

rights thereunder, except that the applicant may assign, in accordance with the provisions of the Assignment of Claims Act of 1940, as amended (31 U. S. C. 203, 41 U. S. C. 15), the proceeds of the approved application, to a bank, trust company, Federal lending agency, or other recognized financing institution: *Provided*, That such assignment shall be recognized only if and when the assignee thereof files written notice of the assignment, in accordance with the instructions on Form CSS–66, "Notice of Assignment," which form must be used in giving notice of assignment to the Administrator. The "Instrument of Assignment" may be executed on Form CSS–347 or the assignee may use his own form of assignment. The CSS forms may be obtained from the Administrator or the Cincinnati CSS Commodity Office.

§ 524.358 *Good faith.* If the Secretary determines that any applicant or diverter has not acted in good faith in connection with any transaction under this subpart or has failed to discharge fully any obligation assumed by him under this subpart, the applicant may be denied the right to continue participating in this program or the right to receive payment under this subpart in connection with any sale or diversion previously made under this subpart, or both.

§ 524.359 *Definitions.* As used in §§ 524.345 through 524.359, the following terms have the following meanings:

(a) "Administrator" means the Administrator, Agricultural Marketing Service, United States Department of Agriculture, Washington, D. C., or any person to whom the Administrator has subdelegated authority to perform, as Representative of the Secretary of Agriculture, the functions vested in the Administrator in this subpart.

(b) "Diversion" means the utilization of honey produced in the continental United States in the manufacture of a product approved by the Administrator, by blending with one or more other commodities, by coating of a food, feed, or tobacco product, or by any other method approved by the Administrator, so as to preclude re-use or consumption of the honey as honey. Approval of diversion products shall be restricted to those (1) in which no honey has been utilized by any manufacturer since January 1, 1948, except pursuant to an approved diversion application under prior section 32 programs, or (2) in which the use of honey has been negligible as to either the number of manufacturers or the percentage of the total sweetening agents employed in the product, or both.

(c) "Sales contract" means a contract for the sale of honey under which the applicant is clearly obligated to sell, and the diverter is clearly obligated to buy, a definite quantity of honey at a definite price. The contract shall consist of a written instrument signed by the applicant and the diverter, or a written offer and acceptance evidenced by an exchange of telegrams or letters. However, such a sales contract may be subject to the condition that a diversion payment under this subpart will be made in connection with such sale.

(d) "Applicant" is the individual, partnership, association, corporation or other legal entity which files a diversion application and receives approval of the Administrator pursuant to § 524.348. Only applicants are eligible to receive diversion payments.

(e) "Diverter" is the individual, partnership, association, corporation or other legal entity which performs diversion as defined in paragraph (b) of this section. Diverter and applicant may be one and the same.

(f) "Date of sale" means the date on which both applicant and diverter signed a sales contract, or the date of written acceptance of either a written offer or counter offer to buy or sell by which a sales contract is effectuated.

(g) "Filed." Applications, claims, and related documents are deemed to be filed when received by the appropriate USDA office.

(h) "Certified" or "certification" means a written, signed declaration, contained in or attached to any document, stating that the document is a true and correct copy of the original of such document.

(i) "Public announcement" means the issuance of a USDA press release or the publication of a notice in the FEDERAL REGISTER.

Effective date. This subpart shall become effective at 12:01 a. m., e. s. t., April 1, 1954.

NOTE: The record-keeping and reporting requirements contained in this program have been approved by, and subsequent reporting requirements will be subject to, the approval of the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

Dated this 30th day of March 1954.

[SEAL] S. R. SMITH,
Representative of the Secretary of Agriculture.

[F. R. Doc. 54–2365; Filed, Apr. 1, 1954; 8:50 a. m.]

TITLE 7—AGRICULTURE

Chapter VII—Commodity Stabilization Service (Farm Marketing Quotas), Department of Agriculture

[Amdt. 1]

PART 726—FIRE-CURED, DARK AIR-CURED, AND VIRGINIA SUN-CURED TOBACCO

INCREASE IN NATIONAL MARKETING QUOTAS AND FARM ACREAGE ALLOTMENTS

Basis and purpose. The amendments set forth herein are for the purpose of increasing the national marketing quotas for fire-cured tobacco and for dark air-cured tobacco for the 1954-55 marketing year proclaimed on November 27, 1953 (18 F. R. 7653), and increasing, by the same ratio, each farm acreage allotment for the production of such kinds of tobacco. The increases are made pursuant to subsections (b) and (c) of section 371 of the Agricultural Adjustment Act of 1938, as amended.

The findings and determinations by the Secretary contained in §§ 726.502 and 726.503 have been made after investigation and upon the basis of the latest available statistics of the Federal Government.

Since fire-cured and dark air-cured tobacco growers have already seeded plant beds and are now purchasing fertilizer and other supplies and equipment and are preparing land for transplanting, it is imperative that they be notified as soon as possible of the increase in acreage allotments established for their farms. Accordingly, it is hereby determined and found that compliance with the notice, public procedure, and effective date requirements of section 4 of the Administrative Procedure Act (5 U. S. C. 1003) is impracticable and contrary to the public interest, and the amendments contained herein shall be effective upon filing of this document with the Director, Division of Federal Register.

1. Upon the basis of an investigation it has been determined that in order to meet a material increase in export demand, the amount of the national marketing quotas for fire-cured tobacco and dark air-cured tobacco for the marketing year beginning October 1, 1954, as proclaimed in §§ 726.502 and 726.503, shall be increased. Therefore, §§ 726.502 and 726.503 are amended by adding new paragraphs (f) as follows:

§ 726.502 *Findings and determinations with respect to the national marketing quota for fire-cured tobacco for the marketing year beginning October 1, 1954.* • • •

(f) It hereby being found that because of a material increase in export demand it is necessary to increase the national marketing quota for fire-cured tobacco, the national marketing quota for such tobacco established in paragraph (d) of this section in the amount of 59,400,000 pounds is increased by eleven per centum to 65,934,000 pounds.

§ 726.503 *Findings and determinations with respect to the national marketing quota for dark air-cured tobacco for the marketing year beginning October 1, 1954.* • • •

(f) It hereby being found that because of a material increase in export demand it is necessary to increase the national marketing quota for dark air-cured tobacco, the national marketing quota for such tobacco established in paragraph (d) of this section in the amount of 24,200,000 pounds is increased by ten per centum to 26,620,000 pounds.

2. To give effect to the increases in national marketing quotas for fire-cured tobacco and dark air-cured tobacco heretofore proclaimed, and in accordance with paragraph (c) of section 371 of the Agricultural Adjustment Act of 1938, as amended, the Marketing Quota Regulations, 1954–55 Marketing Year, governing the establishment of 1954 farm acreage allotments for fire-cured and dark air-cured tobacco (18 F. R. 3825) are hereby amended by adding a new § 726.529, as follows:

§ 726.529 *Increase in farm acreage allotments for the production of fire-cured and dark air-cured tobacco.* Notwithstanding the provisions of §§ 726.515 to 726.528 the farm acreage allotments established thereunder for fire-cured tobacco and dark air-cured tobacco are increased by eleven per centum and ten per centum, respectively: *Provided*, That the acreage allotment for any old farm as increased pursuant to this section in the case of fire-cured tobacco shall not be less than the 1954 preliminary acreage allotment for such farm under § 726.516, and in the case of dark air-cured tobacco shall not be less than the 1954 preliminary acreage allotment for such farm under § 726.516 or 0.6 acre, whichever is smaller. An official notice of the increased farm acreage allotment shall be mailed to each farm operator.

(Sec. 375, 52 Stat. 66, as amended; 7 U. S. C. 1375. Interpret or apply sec. 371, 52 Stat. 64; 7 U. S. C. 1371)

Done at Washington, D. C., this 30th day of March 1954. Witness my hand and the seal of the Department of Agriculture.

[SEAL] TRUE D. MORSE,
Acting Secretary of Agriculture.

[F. R. Doc. 54–2405; Filed, Apr. 1, 1954; 8:56 a. m.]

Chapter IX—Agricultural Marketing Service (Marketing Agreements and Orders), Department of Agriculture

[Docket No. AO–212–A7]

PART 907—MILK IN THE MILWAUKEE, WISCONSIN, MARKETING AREA

ORDER AMENDING ORDER, AS AMENDED, REGULATING HANDLING

§ 907.0 *Findings and determinations.* The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order and each of the previously issued amendments thereto; and all previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) *Findings upon the basis of the hearing record.* Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure governing the formulation of marketing agreements and orders (7 CFR Part 900), a public hearing was held at Milwaukee, Wisconsin, on March 16, 1954 upon proposed amendments to the tentative marketing agreement and to the order, as amended, regulating the handling of milk in the Milwaukee, Wisconsin, marketing area. Upon the basis of the evidence introduced at such hearing and the record thereof, it is hereby found that:

(1) The said order, as amended, and as hereby further amended, and all the terms and conditions of said order, as amended, and as hereby further amended, will tend to effectuate the declared policy of the act;

(2) The parity prices of milk produced for sale in the said marketing area as determined pursuant to section 2 of the act are not reasonable in view of the price of feeds, available supplies of feeds and other economic conditions which affect market supply and demand for such milk and the minimum prices specified in the order, as amended, and as hereby further amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(3) The said order, as amended, and as hereby further amended, regulates the handling of milk in the same manner as and is applicable only to persons in the respective classes of industrial and commercial activity specified in a marketing agreement upon which a hearing has been held.

(b) *Additional findings.* It is hereby found and determined that good cause exists for making effective not later than April 1, 1954, this order amending the order, as amended. This action is necessary in the public interest to reflect the current marketing conditions. Accordingly, any delay in the effective date of this order beyond the aforesaid date, will seriously impair orderly marketing of milk in the Milwaukee, Wisconsin, marketing area. The provisions of the said amendatory order are well known to handlers, the public hearing having been held on March 16, 1954, and a decision having been issued on March 26, 1954. Reasonable time under the circumstances has been afforded persons affected to prepare for its effective date. Therefore, it would be impracticable, unnecessary, and contrary to the public interest to delay the effective date of this amendatory order 30 days after its publication in the FEDERAL REGISTER (see section 4 (c) Administrative Procedure Act, 5 U. S. C. 1001 et seq.).

(c) *Determinations.* It is hereby determined that handlers (excluding cooperative associations of producers who are not engaged in processing, distributing or shipping the milk covered by this order amending the order, as amended, which is marketed within the Milwaukee, Wisconsin, marketing area) of more than 50 percent of the milk which is marketed within the said marketing area, refused or failed to sign the proposed marketing agreement regulating the handling of milk in the said marketing area, and it is hereby further determined that:

(1) The refusal or failure of such handlers to sign said proposed marketing agreement tends to prevent the effectuation of the declared policy of the act;

(2) The issuance of this order amending the order, as amended, is the only practical means pursuant to the declared policy of the act of advancing the interests of producers of milk which is produced for sale in the said marketing area; and

(3) The issuance of this order amending the order is approved or favored by at least two-thirds of the producers who during the determined representative period (January 1954) were engaged in the production of milk for sale in the said marketing area.

Order relative to handling. It is therefore ordered, that on and after the effective date hereof the handling of milk in the Milwaukee, Wisconsin, marketing area shall be in conformity to and in compliance with the terms and conditions of the aforesaid order, as amended, and as hereby further amended, and the aforesaid order, as amended, is hereby further amended as follows:

In § 907.51 (d) change the period at the end of the sentence to a comma and add the following: "except for the months of April, May, and June of 1954, deduct 10 cents from the price computed pursuant to § 907.50 (c)."

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Issued at Washington, D. C., this 30th day of March 1954, to be effective on and after the 1st day of April 1954.

[SEAL] JOHN H. DAVIS,
Assistant Secretary of Agriculture.

[F. R. Doc. 54–2403; Filed, Apr. 1, 1954; 8:55 a. m.]

[Docket No. AO–101–A17]

PART 941—MILK IN THE CHICAGO, ILLINOIS, MARKETING AREA

ORDER AMENDING ORDER, AS AMENDED, REGULATING HANDLING

§ 941.0 *Findings and determinations.* The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order and each of the previously issued amendments thereto; and all previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) *Findings upon the basis of the hearing record.* Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure governing the formulation of marketing agreements and orders (7 CFR Part 900), a public hearing was held at Chicago, Illinois, on March 15, 1954, upon proposed amendments to the tentative marketing agreement and to the order, as amended, regulating the handling of milk in the Chicago, Illinois, marketing area. Upon the basis of the evidence introduced at such hearing and the record thereof, it is hereby found that:

(1) The said order, as amended, and as hereby further amended, and all of the terms and conditions of said order, as amended, and as hereby further amended, will tend to effectuate the declared policy of the act;

(2) The parity prices of milk produced for sale in said marketing area as determined pursuant to section 2 of the act are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply and demand for such milk and the minimum prices specified in the order, as amended, and as hereby fur-

ther amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(3) The said order, as amended, and as hereby further amended, regulates the handling of milk in the same manner as and is applicable only to persons in the respective classes of industrial and commercial activity specified in a marketing agreement upon which a hearing has been held.

(b) *Additional findings.* It is hereby found and determined that good cause exists for making effective not later than April 1, 1954, this order amending the order, as amended. This action is necessary in the public interest to reflect current marketing conditions. Accordingly, any delay in the effective date of this order beyond the aforesaid date, will seriously impair orderly marketing of milk in the Chicago, Illinois, marketing area. The provisions of the said amendatory order are well known to handlers, the public hearing having been held on March 15, 1954, and a decision having been issued on March 26, 1954. Reasonable time under the circumstances has been afforded persons affected to prepare for its effective date. Therefore, it would be impracticable, unnecessary, and contrary to the public interest to delay the effective date of this amendatory order 30 days after its publication in the FEDERAL REGISTER (see section 4 (c) Administrative Procedure Act, 5 U. S. C. 1001 et seq.).

(c) *Determination.* It is hereby determined that handlers (excluding cooperative associations of producers who are not engaged in processing, distributing or shipping the milk covered by this order amending the order, as amended, which is marketed within the Chicago, Illinois, marketing area) of more than 50 percent of the milk which is marketed within the said marketing area, refused or failed to sign the proposed marketing agreement regulating the handling of milk in the said marketing area, and it is hereby further determined that:

(1) The refusal or failure of such handlers to sign said proposed marketing agreement tends to prevent the effectuation of the declared policy of the act;

(2) The issuance of this order amending the order, as amended, is the only practical means pursuant to the declared policy of the act of advancing the interests of producers of milk which is produced for sale in the said marketing area; and

(3) The issuance of this order amending the order is approved or favored by at least two-thirds of the producers who during the determined representative period (January 1954) were engaged in the production of milk for sale in the said marketing area.

Order relative to handling. It is therefore ordered, that on and after the effective date hereof the handling of milk in the Chicago, Illinois, marketing area shall be in conformity to and in compliance with the terms and conditions of the aforesaid order, as amended, and as hereby further amended, and the aforesaid order, as amended, is hereby further amended as follows:

1. In § 941.50 change the period at the end of the sentence to a comma and add: "except that for each of the delivery periods of May, June, and July of 1954, the basic formula price shall not be less than the price for Class IV milk as computed by the market administrator pursuant to § 941.52 (d) for the delivery period next preceding plus 10 cents."

2. In § 941.52 (d) add a subparagraph (4) as follows:

(4) For the delivery periods of April, May, and June of 1954, subtract 10 cents from the result pursuant to subparagraph (3) of this paragraph.

3. In § 941.40 (b) insert the county names "Boone, Grant, Knox," after the county of Wabash in Indiana.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Issued at Washington, D. C., this 30th day of March 1954, to be effective on and after the 1st day of April 1954.

[SEAL] JOHN H. DAVIS,
Assistant Secretary of Agriculture.

[F. R. Doc. 54-2404; Filed, Apr. 1, 1954; 8:56 a. m.]

[Docket No. AO-160-A-15-RO1]

PART 961—MILK IN THE PHILADELPHIA, PENNSYLVANIA, MARKETING AREA

ORDER AMENDING ORDER, AS AMENDED, REGULATING HANDLING

§ 961.0 *Findings and determinations.* The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order and each of the previously issued amendments thereto; and all previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) *Findings upon the basis of the hearing record.* Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure governing the formulation of marketing agreements and orders (7 CFR Part 900), a public hearing was held at Philadelphia, Pennsylvania, on January 21, 1954, upon proposed amendments to the tentative marketing agreement and to the order, as amended, regulating the handling of milk in the Philadelphia, Pennsylvania, marketing area. Upon the basis of the evidence introduced at such hearing and the record thereof, it is hereby found that:

(1) The said order, as amended, and as hereby further amended, and all the terms and conditions of said order, as amended, and as hereby further amended, will tend to effectuate the declared policy of the act;

(2) The parity prices of milk produced for sale in said marketing area as determined pursuant to section 2 of the act are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply of and demand for such milk and the minimum prices specified in the order, as amended, and as hereby further amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(3) The said order, as amended, and as hereby further amended, regulates the handling of milk in the same manner as and is applicable only to persons in the respective classes of industrial and commercial activity specified in a marketing agreement upon which a hearing has been held.

(b) *Additional findings.* It is hereby found and determined that good cause exists for making effective not later than April 1, 1954, this order amending the order, as amended. This action is necessary in the public interest to reflect current marketing conditions. Accordingly, any delay in the effective date of this order beyond the aforesaid date, will seriously impair orderly marketing of milk in the Philadelphia, Pennsylvania, marketing area. The provisions of the said amendatory order are well known to handlers, the public hearing having been held on January 21, 1954, and a decision having been issued on March 29, 1954. Reasonable time under the circumstances has been afforded persons affected to prepare for its effective date. Therefore, it would be impracticable, unnecessary, and contrary to the public interest to delay the effective date of this amendatory order 30 days after its publication in the FEDERAL REGISTER (see section 4 (c) Administrative Procedure Act, 5 U. S. C. 1001 et seq.).

(c) *Determination.* It is hereby determined that handlers (excluding cooperative associations of producers who are not engaged in processing, distributing or shipping the milk covered by this order amending the order, as amended, which is marketed within the Philadelphia, Pennsylvania, marketing area) of more than 50 percent of the milk which is marketed within the said marketing area, refused or failed to sign the proposed marketing agreement regulating the handling of milk in the said marketing area, and it is hereby further determined that:

(1) The refusal or failure of such handlers to sign said proposed marketing agreement tends to prevent the effectuation of the declared policy of the act;

(2) The issuance of this order amending the order, as amended, is the only practical means pursuant to the declared policy of the act of advancing the interests of producers of milk which is produced for sale in the said marketing area; and

(3) The issuance of this order amending the order is approved or favored by at least two-thirds of the producers who during the determined representative

period (January 1954) were engaged in the production of milk for sale in the said marketing area.

Order relative to handling. It is therefore ordered, that on and after the effective date hereof the handling of milk in the Philadelphia, Pennsylvania, marketing area shall be in conformity to and in compliance with the terms and conditions of the aforesaid order, as amended, and as hereby further amended, and the aforesaid order, as amended, is hereby further amended as follows:

1. Delete § 961.40 (b) and substitute the following:

(b) *Class II milk.* The price per hundredweight during each month shall be the sum of the values calculated by the market administrator pursuant to subparagraphs (1) and (2) of this paragraph, except as provided in subparagraph (3) of this paragraph.

(1) *Butterfat.* Add all market quotations (using the midpoint of any weekly range as one quotation) of prices per 40-quart can of fresh sweet cream of bottling quality of 40 percent butterfat content, not including prices for cream carrying special municipal approvals, reported at Philadelphia for each week ending within the month by the United States Department of Agriculture, divide by the number of quotations, subtract $2.00 and divide by 8.50: *Provided*, That such butterfat value shall not be less than 4 times 120 percent of the average of the daily wholesale selling price for Grade A (92-score) butter at New York as reported by the United States Department of Agriculture for the month for which payment is to be made, less 19 cents.

(2) *Skim milk.* From the average of all the prices per pound for nonfat dry milk solids made by the roller process, sold as "other brands" for human consumption in bags or barrels by carlots (using mid-point of any range as one quotation), published during such month in "Producer's Price Current", subtract 5 cents, multiply by .90 and multiply by 7.5.

(3) For the months of April, May, and June 1954, in the case of milk, skim milk, or butterfat, dumped, disposed of for animal feed, or manufactured by the handler or others into butter, Cheddar cheese, Baker's or any other cheese except cream or cottage cheese, evaporated milk, milk chocolate, nonfat dry milk solids, soup, candy or bakery products, less any milk, butterfat, or equivalent of concentrated milk product received from a nonproducer plant, the value shall be adjusted downward at the rate, applied to the total utilization during the month in such products, of 20 cents per hundredweight of such total quantity, or 5 cents per pound of butterfat in such total quantity, whichever results in the greater aggregate adjustment.

2. In § 961.41 delete paragraph (b) and substitute:

(b) The Class II price shall be subject to a butterfat differential for each one-tenth of one percent variation above or below 4 percent which is the butterfat value computed pursuant to § 961.40 (b) (1) divided by 40.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Issued at Washington, D. C., this 30th day of March 1954, to be effective on and after the 1st day of April 1954.

[SEAL] JOHN H. DAVIS,
Assistant Secretary of Agriculture.

[F. R. Doc. 54-2402; Filed, Apr. 1, 1954; 8:55 a. m.]

TITLE 14—CIVIL AVIATION

Chapter I—Civil Aeronautics Board

[Supp. 23]

PART 4b—AIRPLANE AIRWORTHINESS; TRANSPORT CATEGORIES

MISCELLANEOUS AMENDMENTS

An automatic propeller feathering device is a design feature not specifically covered in the Civil Air Regulations. This supplement outlines the Civil Aeronautics Administration's policies governing the approval of aircraft incorporating an automatic propeller feathering device. These policies have previously been applied in the approval of particular automatic propeller feathering devices. The supplement also contains a table of standard vapor pressures for correcting engine power for humidity, and acceptable methods for establishing downwind take-off and landing performance. The following policies are adopted to read as follows:

§ 4b.10–2 *Approval of automatic propeller feathering installations (CAA policies which apply to § 4b.10).* An automatic propeller feathering device is a design feature not specifically covered in the Civil Air Regulations. When an airplane incorporates an automatic feathering device, it will be acceptable under the provisions of § 4b.10 as providing an equivalent level of safety in showing compliance with §§ 4b.115, 4b.116, 4b.120 and 4b.133 if it complies with policies prescribed in §§ 4b.115–2, 4b.116–1, 4b.120–1, 4b.401–1, and 4b.700–1, and if there are no features or characteristics which make it unsafe for use on transport aircraft.

§ 4b.110–1 *Engine power corrections (CAA policies which apply to § 4b.110)*—(a) *Engine power corrections for vapor pressure.* The following standard vapor pressures versus altitude have been established for the purpose of correcting airplane performance data in accordance with § 4b.110:

Altitude (feet):	Vapor pressure (in. hg.)
0	0.400
2,000	.307
4,000	.237
6,000	.179
8,000	.133
10,000	.096
12,000	.069
14,000	.049
16,000	.035
18,000	.025
20,000	.016
25,000	.005

(b) *Engine power corrections for cylinder head temperatures.* Official flight tests should be discontinued whenever engine limitations are exceeded. This procedure automatically makes corrections of this type unnecessary.

(c) *Engine power corrections for fuel flow.* Official flight tests should not be conducted when the metering characteristics of the carburetor are outside the range of acceptable tolerances. This procedure automatically makes corrections for fuel-air mixture ratio in performance evaluation unnecessary.

§ 4b.113–1 *Downwind take-off (CAA policies which apply to § 4b.113).* Downwind take-off data may be approved on the following basis to provide for situations where geographic locations and terrain indicate they are desirable:

(a) *Performance.* In determining the required distances for take-off in downwind the data should be substantiated by actual flight tests. The general methods and procedures would be comparable to those for substantiating take-off distances in no wind. The flight tests should be conducted in tailwind components up to 150 percent of the maximum velocity for which approval is desired except that the performance tests may be simulated in zero wind as outlined below:

(1) The accelerate portions of the "take-off" and "accelerate-stop" should be demonstrated at speeds corresponding to the zero wind plus 150 percent of the tailwind component for which approval is desired. The calculated distances for entry in the Airplane Flight Manual should also be based on 1.5 times the tailwind component. (See subparagraph (3) of this paragraph.)

(2) The decelerate portion of the "accelerate-stop" should be demonstrated by stopping from a speed corresponding to V_1 plus 1.5 times the tailwind velocity for which certification is desired.

(3) In determining the take-off distances for the Airplane Flight Manual performance data, 150 percent of the effect of the reported tailwind component should be taken into account. (See § 4b.740–1 (a) (2) (x).) This may in some cases, permit calculating the required distances without further tests providing sufficiently high speed take-offs and decelerations were made in the original type tests. However, except in the circumstances outlined in paragraph (d) of this section, actual take-offs should be made under the conditions outlined in paragraph (b) of this section to check the flight and ground handling characteristics.

(b) *Controllability.* Take-offs should be made in steady downwind velocities equal to 1.5 times the maximum velocity for which approval is granted to check the controllability at the higher ground speeds with correspondingly reduced aerodynamic control forces, dynamic balance of landing gear, nose gear shimmy or vibration, etc.

(c) *Brakes.* At present it is believed that the existing brake capacity requirements are sufficient to cover take-offs in downwind velocities of 10 mph. measured at 50' height. However, in wind velocities above 10 mph. and in unusual cases or special types of operation additional

tests or substantiation of the adequacy of the brakes may be necessary.

(d) *Tolerances.* (1) With regard to performance tests outlined in paragraph (a) of this section, approval may be given for calculated take-off distances for reported tailwind velocities up to 10 mph. measured at 50' height without camera tests additional to those required for approval of the no wind data.

(2) With regard to controllability tests outlined in paragraph (b) of this section, approval may be given for reported downwind velocities up to 10 mph. measured at 50' height without additional flight tests.

§ 4b.115–2 *Approval of automatic propeller feathering installations for use in establishing accelerate-stop distance (CAA policies which apply to § 4b.115).* The accelerate-stop distance should be determined with the automatic propeller feathering installation feathering the propeller of the critical engine and with the other throttles closed at the instant of attainment of V_1. (See §§ 4b.10–2, 4b.401–1, 4b.700–1, and Civil Air Regulations Part 4b Interpretation No. 1)

§ 4b.116–1 *Approval of automatic propeller feathering installations for use in establishing the take-off path (CAA policies which apply to § 4b.116).* The take-off path may be modified by permitting a feathered propeller instead of windmilling after the necessary time interval has elapsed from the instant of engine failure to complete feathering of the propeller. If it can be shown that the net work produced by the feathering propeller from the instant of engine failure to completion of feathering under all types of engine failure is positive using a datum based on feathered propeller drag, then it is permissible to assume that the propeller of the failed engine is in the feathered drag condition from the instant of attainment of the take-off climb speed V_2. (See §§ 4b.10–2, 4b.401–1, and 4b.700–1.)

§ 4b.120–1 *Approval of automatic propeller feathering installations for use in establishing flaps in take-off position climb (CAA policies which apply to § 4b.120 (a) and (b)).* The propeller of the inoperative engine may be in the feathered condition during either or both of the landing gear extended or retracted conditions if:

(a) The propeller would be completely feathered at the beginning of these segments of the take-off flight path, or

(b) It can be shown that the network produced by the feathering propeller during the segment is positive using a datum based on feathered propeller drag. (See §§ 4b.10–2, 4b.401–1, and 4b.700–1.)

§ 4b.122–1 *Downwind landings (CAA policies which apply to § 4b.122).* Downwind landing data will be approved on the following basis to provide for situations where geographic locations and terrain indicate they are desirable, as well as for use with ILS:

(a) *Performance.* In determining the required distances for landing downwind, the data should be substantiated by actual flight tests. The general methods and procedures should be comparable to those for substantiating landing distances in no wind. The flight tests should be conducted in tailwind velocities up to the maximum velocity for which approval is desired except that the performance tests may be simulated in zero wind as outlined below:

(1) Landings should be demonstrated by approaching and contacting at speeds corresponding to the zero wind speed plus 150 percent of the tailwind velocity for which approval is desired.

(2) In determining the downwind landing distances for the Airplane Flight Manual data, 150 percent of the effect of the reported tailwind velocity should be taken into account. (See § 4b.740–1 (d) (2) (x).) This may, in some cases, permit calculating the required distances without further tests providing sufficiently high speed landings and decelerations were made in the original type tests. However, except in the cases outlined in paragraph (d) of this section, actual landings should be made under the conditions described in paragraph (b) of this section to check the flight and ground handling characteristics.

(b) *Controllability.* Landings should be made in steady downwind velocities equal to 1.5 times the maximum velocity for which approval is desired to check the controllability at the higher ground speed with correspondingly reduced aerodynamic control forces, dynamic balance of landing gear, nose gear shimmy or vibration, etc. Also actual approaches should be demonstrated under the above wind conditions at an approach angle corresponding to the maximum ILS beam angle (3° 18') to determine the minimum altitude on the glide path from which the airplane can be readily flared for landing.

(c) *Brakes.* At present it is believed that the existing brake capacity requirements are sufficient to cover landings in downwind velocities of 5 mph. However, in wind velocities above 5 mph. and in unusual cases or special types of operation, a revision to the braking system may be required. In determining the landing distances under paragraph (a) of this section, normal braking as outlined in § 4b.123 "Landplanes" should not be exceeded.

(d) *Tolerances.* (1) With regard to performance tests outlined in paragraph (a) of this section, approval will be given for calculated landing distances for reported tailwind velocities up to 10 mph. measured at 50 feet height without camera tests additional to those required for approval of the no wind data.

(2) With regard to controllability tests outlined in paragraph (b) of this section, approval will be given for reported downwind velocities up to 10 mph. measured at 50 feet without additional flight tests.

§ 4b.401–1 *Approval of automatic propeller feathering system (CAA policies which apply to § 4b.401 (c)).* All parts of the feathering device which are integral with the propeller or attached to it in a manner that may affect propeller airworthiness should be considered from the standpoint of the applicable provisions of Part 14 of this subchapter. The determination of the continuing eligibility of the propeller under the existing type certificate, when the device is installed or attached, will be made on the following basis:

(a) The automatic propeller feathering system should not adversely affect normal propeller operation and should function properly under all temperature, altitude, airspeed, vibration, acceleration, and other conditions to be expected in normal ground and flight operation.

(b) The automatic device should be demonstrated to be free from malfunctioning which may cause feathering under any conditions other than those under which it is intended to operate. For example, it should not cause feathering during:

(1) Momentary loss of power,

(2) Approaches with reduced throttle settings.

(c) The automatic propeller feathering system should be capable of operating in its intended manner whenever the throttle control is in the normal position to provide take-off power. No special operations at the time of engine failure should be necessary on the part of the crew in order to make the automatic feathering system operative.

(d) The automatic propeller feathering installation should be such that not more than one engine will be feathered automatically even if more than one engine fails simultaneously.

(e) The automatic propeller feathering installation should be such that normal operation may be regained after the propeller has begun to feather automatically.

(f) The automatic propeller feathering installation should incorporate a switch or equivalent means by which to make the system inoperative. (See also § 4b. 10–2.)

§ 4b.700–1 *Automatic propeller feathering operating limitations and information (CAA policies which apply to § 4b.700).* (a) All limitations on the use of automatic feathering system, including flight conditions when the system must be operative or inoperative should be determined and noted when appropriate.

(b) Any placards found necessary should be provided in the airplane.

(c) A complete statement of operating limitations and instructions for the use of the system should be included in the Airplane Flight Manual.

(d) If certification is desired both with and without the feathering system operative, two corresponding sets of performance data properly identified should be included in the Airplane Flight Manual. (See also § 4b.10–2.)

(Sec. 205, 52 Stat. 984, as amended; 49 U. S. C. 425. Interprets or applies sec. 603, 52 Stat. 1009 as amended, 49 U. S. C. 553)

[SEAL] F. B. LEE,
Administrator of Civil Aeronautics.

TITLE 17—COMMODITY AND SECURITIES EXCHANGES

Chapter II—Securities and Exchange Commission

PART 250—GENERAL RULES AND REGULATIONS, PUBLIC UTILITY HOLDING COMPANY ACT OF 1935

FILING OF REPORTS TO STOCKHOLDERS AND STATE COMMISSIONS

On February 10, 1954, the Securities and Exchange Commission published for comments and suggestions a proposed revision of Form U5S (17 CFR 259.5s) and a proposed new Rule U-29 (§ 250.29). After considering all of the comments and suggestions received, the Commission has adopted the proposed revision of the form and the proposed rule with certain modifications.

The text of Rule U-29 (§ 250.29) is as follows:

§ 250.29 *Filing of reports to stockholders and State Commissions.*[1] (a) Two copies of each report submitted by any registered holding company or any subsidiary thereof to its stockholders generally shall be filed with the Commission not later than ten days after such submission.

(b) A copy of each annual report submitted by any registered holding company or any subsidiary thereof to a State Commission covering operations not reported to the Federal Power Commission shall be filed with the Securities and Exchange Commission not later than ten days after such submission.

The foregoing action has been taken pursuant to the Public Utility Holding Company Act of 1935, particularly sections 14, 15, and 20 (a) thereof and pursuant to the Securities Exchange Act of 1934, particularly sections 13, 15 (d), and 23 (a) thereof.

Rule U-29 (§ 250.29) shall become effective on April 30, 1954, except that reports of the character referred to in the rule submitted by any registered holding company or any subsidiary thereof prior to April 30, 1954 and not previously filed pursuant to the public Utility Holding Company Act of 1935 shall be filed prior to May 10, 1954.

(Sec. 20, 49 Stat. 833; 15 U. S. C. 79t. Interprets or applies secs. 13, 15, 23, 48 Stat. 894, 895, 901, as amended, secs. 14, 15, 49 Stat. 827, 828; 15 U. S. C. 78m, 78o, 78w, 79n)

By the Commission.

[SEAL] ORVAL L. DUBOIS,
Secretary.

MARCH 25, 1954.

[F. R. Doc. 54–2360; Filed, Apr. 1, 1954; 8:49 a. m.]

PART 259—FORMS PRESCRIBED UNDER THE PUBLIC UTILITY HOLDING COMPANY ACT OF 1935

FORMS FOR REGISTRATION AND ANNUAL SUPPLEMENTS

On February 10, 1954, the Securities and Exchange Commission published for comments and suggestions a proposed revision of Form U5S (17 CFR 259.5s) and a proposed new Rule U-29 (§ 250.29 of this chapter). After considering all of the comments and suggestions received, the Commission has adopted the proposed revision of the form and the proposed rule with certain modifications.

Form U5S is the system annual reporting form for registered holding companies and could, prior to the present revision, also be used by registered holding companies to satisfy annual reporting requirements under the Securities Exchange Act of 1934. The revision is designed to modify items of the form which, in the Commission's experience, now serve little useful regulatory or disclosure purpose and impose a substantial reporting burden. In addition, the form can now be used to satisfy annual reporting requirements of the Securities Exchange Act of 1934, not only for registered holding companies but also for their subsidiaries. This should eliminate substantial duplicate reporting.

While retaining the requirement for consolidating financial statements, which appear material to an appraisal of system and intra-system operations, the revised form no longer requires the filing of Federal Power Commission and State Commission reports or stockholder reports as exhibits. Federal Power Commission reports are readily available to the public at the Federal Power Commission's offices. Stockholder reports are usually furnished to the Commission by holding companies and their subsidiaries when available and Rule U-29 (which is similiar to the Commission's Rule N-30B2–1 (§ 270.30b2–1 of this chapter) under the Investment Company Act of 1940)) formalizes the practice. Rule U-29 also requires the filing of State Commission reports covering operations not reported to the Federal Power Commission, since this information would otherwise be not readily available to the Commission. Reports covered by the rule which were distributed prior to April 30, 1954, the effective date of the rule, and have not already been filed, should be filed prior to May 10, 1954.

The revised Form U5S[2] requires aggregate remuneration information but does not require individual reporting of remuneration. Individual remuneration data for parent companies will, of course, continue to be available in proxy statements filed pursuant to Rule U-61 (§ 250.61 of this chapter) and Regulation X-14 and similar data for substantially all utility subsidiaries is available in the public Federal Power Commission reports, and in many cases, in State Commission reports.

The form has been drafted with particular reference to the reporting requirements of continuing holding company systems. It is recognized that, in the case of the few remaining complex systems still in process of reorganization under section 11 of the act, modifications of certain requirements of the form may be necessary. The Commission proposes to continue to consider requests for such modifications in appropriate cases.

A copy of the revised Form U5S may be obtained by any interested person on request.

The foregoing action has been taken pursuant to the Public Utility Holding Company Act of 1935, particularly sections 14, 15, and 20 (a) thereof and pursuant to the Securities Exchange Act of 1934, particularly sections 13, 15 (d), and 23 (a) thereof.

The revision of Form U5S shall become effective immediately upon publication, March 29, 1954, except that any registrant which so desires may file its report for the calendar year 1953 on the form as previously in effect. The Commission has extended to May 31, 1954, the time for filing an annual report on Form U5S for the year 1953 pursuant to section 14 of the Public Utility Holding Company Act of 1935 or pursuant to section 13 or 15 (d) of the Securities Exchange Act of 1934.

(Sec. 20, 49 Stat. 833; 15 U. S. C. 79t. Interprets or applies secs. 13, 15, 23, 48 Stat. 894, 895, 901, as amended; secs. 14, 15, 49 Stat. 827, 828; 15 U. S. C. 78m, 78o, 78w, 79n)

By the Commission.

[SEAL] ORVAL L. DUBOIS,
Secretary.

MARCH 25, 1954.

[6th Gen. Rev. of Export Regs., Amdt. P. L. 70]

PART 399—POSITIVE LIST OF COMMODITIES AND RELATED MATTERS

COMMODITIES NO LONGER SUBJECT TO EVIDENCE OF AVAILABILITY REQUIREMENTS

Section 399.1 *Appendix A—Positive List of Commodities* is amended by deleting the letter "D" in the column headed "Commodity Lists" with respect

[1] Sections 14 and 15.

[2] Filed as part of the original document.

to the following commodities, indicating that such commodities are no longer subject to evidence of availability requirements (see § 373.3 of this subchapter):

Dept. of Commerce Schedule B No.	Commodity
601010	Melting steel scrap (No. 1 heavy and No. 2).
601040	Baled sheet melting scrap.
601050	Borings, shovelings, and turnings (steel melting scrap).
601070	Iron scrap.
601090	Other scrap (specify type).

This amendment shall become effective as of April 1, 1954.

(Sec. 3, 63 Stat. 7; 65 Stat. 43; 67 Stat. 62; 50 U. S. C. App. Sup. 2023. E. O. 9630, Sept. 27, 1945, 10 F. R. 12245, 3 CFR, 1945 Supp.; E. O. 9919, Jan 3, 1948, 13 F. R. 59, 3 CFR, 1948 Supp.)

LORING K. MACY,
Director,
Bureau of Foreign Commerce.

[F. R. Doc. 54-2396; Filed, Apr. 1, 1954; 8:55 a. m.]

TITLE 19—CUSTOMS DUTIES

Chapter I—Bureau of Customs, Department of the Treasury

[T. D. 53461]

PART [redacted]SELS IN FOREIGN AND DOMESTIC TRADES

MISCELLANEOUS AMENDMENTS

Single applications for overtime services of customs officers have been required to specify the nature of the services desired and the exact times that they will be needed. Compliance with this requirement has resulted in unnecessary work because of the necessity in many cases of filing several applications for overtime services of customs officers in connection with only one arrival of a vessel at a United States port.

Accordingly, in order (1) to simplify customs requirements and procedures in connection with requests for overtime services of customs officers in entering and clearing vessels, supervising the unlading or lading thereof, and related activities, (2) to authorize the use of customs Form 3171, Application and Permit To Lade or Unlade Vessels of 5 Net Tons or More, as an application and permit to retain unentered goods on the wharf for more than 5 days, and (3) to bring the regulations into conformity with the amendment of section 484 (a), Tariff Act of 1930, by section 16 (b), Customs Simplification Act of 1953, the Customs Regulations are amended as follows:

1. Section 4.10 is amended by inserting the following sentence after the first sentence:

§ 4.10 *Request for overtime services.* * * * Such request for overtime services must specify the nature of the services desired and the exact times when they will be needed, unless arrangements are made locally so that the proper customs officer will be seasonably notified during official hours in advance of the rendering of the services as to the nature of services desired and the exact times that they will be needed.

(Secs. 448, 451, 624, 46 Stat. 714, 715, as amended, 759; 19 U. S. C. 1448, 1451, 1624)

2. Section 4.30 (c) is amended by inserting the following sentence after the third sentence:

§ 4.30 *Permits and special licenses for unlading and lading.* * * *

(c) * * * Such request for overtime services must specify the nature of the services desired and the exact times when they will be needed, unless arrangements are made locally so that the proper customs officer will be seasonably notified during official hours in advance of the rendering of the services as to the nature of the services desired and the exact times that they will be needed.

(R. S. 2793, as amended, secs. 446, 448, 450, 451, 452, 453, 454, 490, 624, 46 Stat. 713, 714, 715, as amended, 716, 726, 759; 19 U. S. C. 288, 1446, 1448, 1450, 1451, 1452, 1453, 1454, 1490, 1624)

3. Section 4.37 *Lay order; general order* is amended as follows:

a. Paragraph (a) is amended by substituting "fifth" for "second" in the first sentence and by adding the following sentence: "The application for an initial lay order to allow the merchandise to remain on the wharf or pier beyond the fifth working day may be included, if the collector approves, in the space provided therefor in the application made on customs Form 3171 for a permit to lade or unlade."

b. Paragraph (b) is amended by substituting "5-day period" for "2-day period".

(Secs. 448, 457, 490, 624, 46 Stat. 714, 716, 726, 759; 19 U. S. C. 1448, 1457, 1490, 1624)

When arrangements are made to notify the proper local customs officer seasonably and during official hours in advance of the rendering of the overtime services as to the nature of the services desired and the exact times that they will be needed, as provided for in the above amendments to §§ 4.10 and 4.30 (c) of the Customs Regulations, the words "as per supplemental oral request" shall be noted by the applicant in his request for overtime services. Customs Forms 3171 and 3853 will so specify when they are again reprinted.

The above amendment which adds a new sentence to § 4.37 (a) of the Customs Regulations shall be effective as soon as customs Form 3171, revised as indicated by the amendment, has been reprinted and is ready for distribution. The other amendments above shall be effective on the date of publication in the FEDERAL REGISTER.

(R. S. 161, 251, secs. 2, 3, 23 Stat. 118, as amended, 119, as amended, sec. 624, 46 Stat. 759; 5 U. S. C. 22, 19 U. S. C. 66, 1624, 46 U. S. C. 2, 3)

[SEAL] C. A. EMERICK,
Acting Commissioner of Customs.

Approved: March 25, 1954.

H. CHAPMAN ROSE,
Acting Secretary of the Treasury.

[F. R. Doc. 54-2392; Filed, Apr. 1, 1954; 8:54 a. m.]

TITLE 32A—NATIONAL DEFENSE, APPENDIX

Chapter VI—Business and Defense Services Administration, Department of Commerce

[BDSA Reg. 2 (Formerly NPA Reg. 2), Amdt. 1 of March 31, 1954]

REG. 2—BASIC RULES OF THE PRIORITIES SYSTEM

LIMITATION ON USE AND DISPOSITION OF CERTAIN MATERIALS

This amendment is found necessary and appropriate to promote the national defense and is issued pursuant to the Defense Production Act of 1950, as amended. In the formulation of this amendment, consultation with industry representatives has been rendered impracticable due to the need for immediate action.

This amendment affects BDSA Reg. 2 (formerly NPA Reg. 2) by the addition of a new paragraph (d) to section 17 and by the addition of List B to the regulation. Additional formal changes of an editorial nature are made in section 17 (a), (b), and (c) to correspond with the transition from NPA to BDSA and to reflect the addition of paragraph (d) to the section.

Section 17 of BDSA Reg. 2 (formerly NPA Reg. 2), dated March 23, 1953, is hereby amended to read as follows:

SEC. 17. *Use or disposition of material acquired under this regulation.* (a) Any person who gets material with a rating or through a specific authorization or a directive of BDSA must, if possible, use or dispose of it (or of the product into which it has been incorporated) for the purpose for which the assistance was given. However, material obtained with any DO rating may be used to fill any DX rated order. Physical segregation is not required as long as the restrictions applicable to any specific lot of material or product are observed with respect to an equivalent amount of the same material or product.

(b) The restriction in paragraph (a) of this section does not apply when a material, or a product in which it has been incorporated, can no longer be used for the purpose for which the priority assistance was given; for example, when the assistance was given to fill a particular order and the material or product does not meet the customer's specifications or the contract or order is cancelled. In such cases the rules on further use and disposition in paragraphs (c) and (d) of this section must be observed.

(c) Except as provided in paragraph (d) of this section, the holder of a material or product subject to paragraph (b) of this section may sell it as long as he complies with all requirements of other applicable sections of this regulation and of other orders and regulations of BDSA, or he may use it himself in any manner or for any purpose as long as he complies with such requirements.

(d) When a material appearing on List B of this regulation which has been acquired with a rating or through a specific authorization or directive of BDSA, or when a product into which such material has been incorporated, can no longer be used for the purpose for which the priority assistance was given, the following rules apply:

(1) To the extent that such material or product can be used to fill other orders then on hand which are accompanied by a rating or a specific authorization or directive of BDSA, and with respect to which such holder has not already received other material of the same kind by the use of priority assistance for the purpose of filling such other orders, it must be so used.

(2) To the extent that such material or product can be used for the purpose specified in subparagraph (1) of this paragraph but where material of the same kind to fill such other orders has been ordered by the use of priority assistance and has not been received, it must be so used, and the provisions of section 12 (b) apply.

(3) To the extent that such material can not be used for the purpose and in the manner specified in subparagraphs (1) and (2) of this paragraph, the holder of such material must immediately notify BDSA in writing of the description, quantity, and location and his proposed use, sale, or disposition of such material, and may not use, sell, or dispose of such material for a period of 10 days after the date of mailing such written notification except as specifically authorized or directed in writing by BDSA. If no written authorization or direction is issued by BDSA within such period, the rules stated in paragraph (c) of this section apply.

BDSA Reg. 2 (formerly NPA Reg. 2), dated March 23, 1953, is further amended by the addition thereto of List B of BDSA Reg. 2 immediately following list A of such regulation. List B of BDSA Reg. 2 is as follows:

LIST B OF BDSA REG. 2 (FORMERLY NPA REG. 2)

1. Primary Nickel in the following forms:
Electrolytic nickel.
Ingots.
Pigs.
Rondelles.
Cubes and pellets.
Rolled and cast anodes.
Shot.
Oxides.
Salts.
Chemicals.

(64 Stat. 816, Pub. Law 95, 83d Cong.; 50 U. S. C. App. Sup. 2154)

This amendment shall take effect March 31, 1954.

BUSINESS AND DEFENSE SERVICES ADMINISTRATION,
CHAS. F. HONEYWELL,
Administrator.

[F. R. Doc. 54-2421; Filed, Mar. 31, 1954; 1:54 p. m.]

TITLE 31—MONEY AND FINANCE: TREASURY

Chapter I—Monetary Offices, Department of the Treasury

[1954 Dept. Circular 1]

PART 129—VALUES OF FOREIGN MONEYS

QUARTER BEGINNING APRIL 1, 1954

APRIL 1, 1954.

§ 129.17 *Calendar year, 1954.* * * *

(b) *Quarter beginning April 1, 1954.* Pursuant to section 522, title IV, of the Tariff Act of 1930, reenacting section 25 of the act of August 27, 1894, as amended, the following estimates by the Director of the Mint of the values of foreign monetary units are hereby proclaimed to be the values of such units in terms of the money of account of the United States that are to be followed in estimating the value of all foreign merchandise exported to the United States during the quarter beginning April 1, 1954, expressed in any such foreign monetary units: *Provided, however,* That if no such value has been proclaimed, or if the value so proclaimed varies by 5 per centum or more from a value measured by the buying rate in the New York market at noon on the day of exportation, conversion shall be made at a value measured by such buying rate as determined and certified by the Federal Reserve Bank of New York and published by the Secretary of the Treasury pursuant to the provisions of section 522, title IV, of the Tariff Act of 1930.

[The value of foreign monetary units, as shown below in terms of United States money, is the ratio between the legal gold content of the foreign unit and the legal gold content of the United States dollar. It should be noted that this value, with respect to most countries, varies widely from the present exchange rates. Countries not having a legally defined gold monetary unit, or those for which current information is not available, are omitted.]

Country	Monetary unit	Value in terms of U. S. money	Remarks
Colombia	Peso	$0.5128	Monetary Law No. 90 of Dec. 16, 1948, effective Dec. 18, 1948, content of peso 0.5063 gram of gold 9/10 fine. Obligation to sell gold suspended Sept. 24, 1931.
Costa Rica	Colon	.178	Parity of 0.158,957 fine gram gold established by decree law effective Mar. 22, 1947.
Denmark	Krone	.1927	Conversion of notes into gold suspended Sept. 29, 1931.
Dominican Republic	Peso	1.0000	By monetary law No. 1528 effective Oct. 9, 1947, gold content of peso equal to 0.888671 gram fine.
Ethiopia	Dollar	.4025	New unit established by Proclamation of the Emperor on May 25, 1945, effective July 23, 1945.
Finland	Markka	.0020	Conversion of notes into gold suspended Oct. 12, 1931.
Guatemala	Quetzal	1.0000	Decree No. 203 of Dec. 10, 1945, defined the monetary unit as 15.5 21 grains gold 9/10 fine. Conversion of notes into gold suspended Mar. 6, 1933.
Haiti	Gourde	.2000	National bank notes redeemable on demand in U. S. dollars.
Peru	Sol	.4740	Conversion of notes into gold suspended May 18, 1932, exchange control established Jan. 23, 1945.
Philippines	Peso	.5000	International value according to the Central Bank Act approved June 15, 1948. Exchange control established.
Sweden	Krona	.1927	Conversion of notes into gold suspended Sept. 29, 1931.
Uruguay	Peso	.6583	Present gold content of 0.585035 grain fine established by law of Jan. 18, 1938. Conversion of notes into gold suspended Aug. 2, 1914; exchange control established Sept. 7, 1931.
Venezuela	Bolivar	.3267	Exchange control established Dec. 12, 1936.

(Sec. 522, 46 Stat. 739; 31 U. S. C. 372)

[SEAL] H. CHAPMAN ROSE,
Acting Secretary of the Treasury.

[F. R. Doc. 54-2393; Filed, Apr. 1, 1954; 8:54 a. m.]

TITLE 43—PUBLIC LANDS: INTERIOR

Chapter I—Bureau of Land Management, Department of the Interior

[Circular No. 1871]

PART 191—GENERAL REGULATIONS APPLICABLE TO MINERAL PERMITS, LEASES AND LICENSES

SUSPENSION OF OPERATIONS AND PRODUCTION

Section 191.26 is amended to read as follows:

§ 191.26 *Suspension of operations and production.* (a) Applications by lessees for relief from the producing requirements or from all operating and producing requirements of mineral leases shall be filed in triplicate in the office of the regional oil and gas supervisor for oil and gas leases, and in the office of the regional mining supervisor for all other leases.[1] As to oil and gas leases, no suspension of operations and production will be granted on any lease in the absence of a well capable of production on the leasehold, except where the Secretary directs a suspension in the interest of conservation. Complete information must be furnished showing the necessity for such relief.

(b) The term of any lease will be extended by adding thereto any period of suspension of all operations and production during such term pursuant to any direction or assent of the Secretary.

(c) A suspension shall take effect as of the time specified in the direction or assent of the Secretary. Rental and minimum royalty payments will be suspended during any period of suspension of all operations and production directed or assented to by the Secretary, beginning with the first day of the lease

[1] By Departmental Order No. 2699 and Geological Survey Order No. 218 of August 11, 1952, the regional oil and gas supervisors and the regional mining supervisors are authorized to act on applications for suspension of operations or production or both filed pursuant to this section and to terminate suspensions of this kind which have been or may be granted.

month on which the suspension of operations and production becomes effective or, if the suspension of operations and production becomes effective on any date other than the first day of a lease month, beginning with the first day of the lease month following such effective date. The suspension of rental and minimum royalty payments shall end on the first day of the lease month in which operations or production is resumed. Where rentals are creditable against royalties and have been paid in advance, proper credit will be allowed on the next rental or royalty due under the lease.

(d) No lease will be deemed to expire by reason of a suspension of production only pursuant to any direction or assent of the Secretary.

(e) If there is a well capable of producing on the leased premises and all operations and production are suspended pursuant to any direction or assent of the Secretary, the commencement of drilling operations only will be regarded as terminating the suspension as to operations but not as to production, and as terminating the period of suspension to be added to the term of the lease as provided in paragraph (b) of this section and the period of suspension of rental and minimum royalty payments as provided in paragraph (c) of this section. However, as provided in paragraph (d) of this section, the term of the lease will not be deemed to expire so long as the suspension of production remains in effect.

(f) The minimum annual production requirements of a lease issued under the act for coal, phosphate, potassium, sodium, oil shale or sulphur shall be proportionately reduced for that portion of a lease year for which suspension of operations and production is directed or granted by the Secretary of the Interior in the interest of conservation.

(Sec. 32, 41 Stat. 450; 30 U. S. C. 189)

DOUGLAS MCKAY,
Secretary of the Interior.

MARCH 29, 1954.

Appendix—Public Land Orders

[Public Land Order 948]

CALIFORNIA

PARTIAL REVOCATION OF PUBLIC LAND ORDER NO. 125 WHICH WITHDREW PUBLIC LANDS FOR USE OF THE WAR DEPARTMENT

By virtue of the authority vested in the President and pursuant to Executive Order No. 10355 of May 26, 1952, it is ordered as follows:

1. Public Land Order No. 125 of May 28, 1943, withdrawing public lands for the use of the War Department as bombing target sites which was partially revoked by Public Land Orders No. 442, 581, and 807, is hereby revoked so far as it affects the following-described lands:

SAN BERNARDINO MERIDIAN

T. 6 N., R. 1 W.,
Sec. 4.
T. 6 N., R. 3 W.,
Sec. 21, NW¼.
T. 4 N., R. 2 E.,
Sec. 1, SE¼SE¼;
Sec. 12, E½NE¼, NE¼SE¼.
T. 4 N., R. 3 E.,
Sec. 6, S½SW¼, SW¼SE¼;
Sec. 7, NW¼, W½NE¼, N½SW¼, NW¼SE¼.
T. 6 N., R. 3 E.,
Sec. 35, E½.
T. 3 N., R. 4 E.,
Sec. 6.
T. 4 N., R. 4 E.,
Sec. 5, N½.
T. 5 N., R. 4 E.,
Sec. 32, S½.
T. 6 N., R. 5 E.,
Sec. 30.
T. 3 N., R. 6 E.,
Sec. 24, SE¼;
Sec. 25, NE¼.
T. 3 N., R. 7 E.,
Sec. 19, SW¼;
Sec. 30, NW¼.

The areas described aggregate approximately 4,320 acres.

2. The following-described lands released from withdrawal by this order shall not become subject to the initiation of any rights or to any disposition under the public-land laws until it is so provided by an order of classification to be issued by an authorized officer opening the lands to application under the Small Tract Act of June 1, 1938 (52 Stat. 609; 43 U. S. C. 682a) as amended, with a 91-day preference-right period for filing such applications by veterans of World War II and other qualified persons entitled to preference under the act of September 27, 1944 (58 Stat. 747; 43 U. S. C. 279–284) as amended:

SAN BERNARDINO MERIDIAN

T. 6 N., R. 3 W.,
Sec. 21, NW¼.

The area described contains 160 acres.

3. The remaining lands released from withdrawal by this order are located in a somewhat remote arid desert area where irrigation is necessary for crop production, and where irrigation water is in short supply. Creosote bush is the dominant vegetative cover. The lands will not be subject to occupancy or disposition until they have been classified. Any application that is filed will be considered on its merits.

4. This order shall not otherwise become effective to change the status of the lands referred to in paragraph 3 until 10:00 a. m. on the 35th day after the date of this order. At that time the said lands shall become subject to application, petition, location and selection under the applicable public land laws, subject to valid existing rights, the provisions of existing withdrawals, the requirements of applicable laws, and the 91-day preference-right filing period for veterans of World War II and others entitled to preference under the act of September 27, 1944 (58 Stat. 747; 43 U. S. C. 279–284) as amended.

Inquiries regarding the lands shall be addressed to the Manager, Land Office, Bureau of Land Management, Los Angeles, California.

ORME LEWIS,
Assistant Secretary of the Interior.

MARCH 29, 1954.

[Public Land Order 949]

WASHINGTON

ORDER REVOKING EXECUTIVE ORDER NO. 8622 OF DECEMBER 27, 1940

By virtue of the authority vested in the President by section 1 of the act of June 25, 1910 c. 421 (36 Stat. 847; 43 U. S. C. 141) and pursuant to Executive Order No. 10355 of May 26, 1952, it is ordered as follows:

Executive Order No. 8622 of December 27, 1940, reserving the following-described lands under the jurisdiction of the Department of the Interior for use by the Game Commission of the State of Washington in connection with the Squaw Creek Antelope Range and Wildlife Refuge is hereby revoked:

WILLAMETTE MERIDIAN

T. 15 N., R. 20 E.,
Sec. 30.

The area described contains 646.78 acres.

The lands are located about fifteen miles north of Yakima and are accessible by a state highway and a private road. They lie at an elevation between 2000 and 2500 feet. Annual precipitation is about seven inches. The topography is rough and mountainous with steep westerly breaks. The soils are a rocky, shallow, brown, silty clay loam. The vegetation consists of bluebunch wheat grass, cheat, sage, and sandberg bluegrass. The lands are best adaptable to grazing. Any application that is filed will be considered on its merits. The lands will not be subject to occupancy or disposition until they have been classified.

This order shall not otherwise become effective to change the status of the described lands until 10:00 a. m. on the 35th day after the date of this order. At that time the said lands shall become subject to application, petition, location and selection under the applicable public-land laws, subject to valid existing rights, the provisions of existing withdrawals, the requirements of applicable laws, and the 91-day preference-right filing period for veterans of World War II and others entitled to preference under the act of September 27, 1944 (58 Stat. 747; 43 U. S. C. 279–284), as amended.

Inquiries regarding the lands shall be addressed to the Manager, Land and Survey Office, Bureau of Land Management, Spokane, Washington.

ORME LEWIS,
Assistant Secretary of the Interior.

PROPOSED RULE MAKING

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

[7 CFR Part 919]

HANDLING OF MILK IN SOUTHWEST KANSAS MARKETING AREA

DECISION WITH RESPECT TO PROPOSED MARKETING AGREEMENT AND PROPOSED ORDER

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, as amended, governing proceedings to formulate marketing agreements and marketing orders (7 CFR Part 900), a public hearing was conducted at Dodge City, Kansas, on August 18–21, inclusive, 1953, pursuant to notice thereof which was issued on July 29, 1953 (18 F. R. 4519).

Upon the basis of the evidence introduced at the hearing and the record thereof the Deputy Administrator, Agricultural Marketing Service, on February 12, 1954, filed with the Hearing Clerk, United States Department of Agriculture, his recommended decision in this proceeding. The notice of filing such recommended decision and opportunity to file written exceptions thereto was published in the FEDERAL REGISTER on February 17, 1954 (19 F. R. 898).

The material issues of record related to:

1. The character of commerce in the handling of milk;
2. The need for regulation;
3. The extent of the marketing area;
4. The scope of regulation;
5. The classification of milk;
6. Class prices;
7. Payments to producers;
8. The administrative assessment;
9. Administrative provisions.

Findings and conclusions. Upon the evidence adduced at the hearing and the record thereof it is hereby found and concluded that:

1. *Character of commerce.* The handling of milk in the Southwest Kansas marketing area is in the current of interstate commerce or directly burdens, obstructs or affects interstate commerce in milk or its products.

Milk produced for the Southwest Kansas marketing area is regularly distributed on routes extending into the States of Colorado, Oklahoma and Texas. The principal distribution in these states is by a handler whose plant is located in Dodge City, Kansas, although there is lesser distribution in the State of Oklahoma by a handler whose plant is in Liberal, Kansas. The Dodge City handler competes in procurement and sales with all other handlers of the Southwest Kansas area.

Milk produced in Colorado and Oklahoma is distributed in Kansas in competition with milk produced for the Southwest Kansas marketing area. Some of this distribution is by handlers whose plants are located in Colorado and Oklahoma. Other distribution is by handlers from the Wichita, Kansas, market which receives supplies from producers whose farms are located in Oklahoma.

During periods when milk production is in excess of the needs for fluid sales, producer milk is manufactured into products such as ice cream, butter and cheese which are disposed of over a wide area including states other than Kansas. In periods when milk production is short of the needs for fluid sales, milk is imported from other areas. Some of such imports are from states other than Kansas.

2. *The need for regulation.* The issuance of an order to regulate the handling of milk in the Southwest Kansas marketing area will tend to effectuate the declared policy of the Agricultural Marketing Agreement Act.

Under short supply conditions that prevailed in the Southwest Kansas area through 1952 a cooperative association of producers had succeeded in establishing a nominal class use basis for pricing milk of its members and other producers disposed of to a number of the principal handlers of the area. The arrangements in effect followed generally the classification and pricing pattern in effect in the Wichita market, including the premium in excess of minimum order prices that were negotiated in the Wichita market. Returns to producers were based upon the average utilization by classes of the milk received by each handler.

Milk production in the Southwest Kansas area increased substantially early in 1953 in common with the experience in many other areas. The marketing system that appeared to work with reasonable satisfaction under conditions of short supply has not been adequate for the changed conditions. The handling and pricing of surplus milk has not been uniform. All handlers do not have adequate facilities for handling milk in excess of their fluid needs. While reasonable uniformity has prevailed in the prices at which handlers have accounted to producers for the milk used for their fluid sales there have been considerable differences in the prices at which they have accounted for the milk used in other ways. A considerable disparity in the blend prices of individual handlers has occurred through some handlers providing a market for only that milk needed for their fluid sales while other handlers have attempted to provide a market for the increased production through their manufacturing facilities.

After failure to reach an agreement with one handler concerning the price for milk in excess of fluid needs early this spring, the association retailed the milk of some 17 of its member producers for some weeks in competition with this handler and others, and for this time pooled the proceeds of the sales of all of its members. When retail sales were discontinued and the milk of these producers was placed with another handler who needed it only for manufacturing purposes, the association pool was also discontinued because nonmember producers were receiving higher blend prices from certain handlers.

It is evident that the area requires a marketing system whereby all producers share equitably the fluid sales of the area and also share equally the burden of seasonal and cyclic surpluses of milk. The distribution of facilities for handling milk in excess of fluid requirements do not permit these results through even distribution of milk supplies to handlers.

Producers and handlers have failed to agree upon any uniform plan designed to bring about a more uniform seasonal pattern of production to meet the needs of the market. One attempt to establish a base plan was abandoned after a short period of operation apparently because its provisions were not well understood by all elements of the market. Attempts to reach agreement on other increases have failed.

No testimony was offered at the hearing in opposition to the issuance of an order. It is concluded that the issuance of a marketing order will provide stability to the market and tend to effectuate the declared policy of the act.

3. *The extent of the marketing area.* The marketing area should be defined to include 26 cities, all in the Southwestern portion of Kansas, and 14 townships located in 7 counties which include or are adjacent to 9 of these cities.

Producers proposed that the marketing area be defined to include the corporate limits of the Cities of Dodge City, Garden City, Pratt, Great Bend, Larned, Kinsley and Scott City, all in Kansas, and supported the addition of the City of Liberal, Kansas, to this list of cities. Handlers proposed that the marketing area be defined as 29 counties plus two small municipalities in a 30th county.

Southwest Kansas is predominantly a rural area with no large centers of population. The cities which producers support as the marketing area are the largest cities in this portion of the state, and vary from approximately 3,000 to 15,000 in population. They are also the places at which are located the principal milk processing plants at which milk is received from producers for distribution in the area. There are, however, numerous smaller towns in which milk received at plants in these larger towns is distributed. In only three of these—Hoisington, Ellinwod, and Elkhart are there any milk plants which receive milk from dairy farmers and distribute fluid milk. Hoisington and Ellinwood are in the immediate vicinity of Great Bend.

Throughout a considerable portion of the surrounding area distribution of Grade A milk for fluid consumption is exclusively from (1) plants located within the area proposed, (2) plants regulated by the order for the Wichita, Kansas, market, and (3) producers retailing their own milk. There is little if any distribution of non-Grade A milk other than by farmer retailers. The regulation proposed is restricted to pric-

ing Grade A milk eligible for fluid consumption that is received by handlers from producers. While it is not feasible to define a marketing area to include all territory within which regulated handlers may extend their sales it is considered advisable that the area defined include that territory within which they are the principal or sole suppliers of the kind of milk to be regulated and in which their sales are a significant portion of their business.

One Dodge City handler who distributes milk throughout the entire 29 county area proposed has about 13 percent of his sales in Dodge City and less than half of his sales in the 8 cities which producers proposed. A Garden City handler with distribution in 15 counties has slightly more than half of his sales in three of these cities. While the record does not show the percentage distribution of their sales, it shows that another Dodge City handler and a handler whose plant is located at Pratt each distribute milk in eight counties.

It is concluded that the marketing area should be defined to include the cities of Ashland, Cimarron, Coldwater, Dodge City, Ellinwood, Garden City, Great Bend, Greensburg, Hoisington, Hugoton, Johnson, Jetmore, Kinsley, La Crosse, Lakin, Larned, Liberal, Meade, Medicine Lodge, Ness City, Pratt St. John, Scott City, Stafford, Syracuse, and Ulysses and certain townships which are adjacent to or include the Cities of Dodge City, Ellinwood, Garden City, Great Bend, Hoisington, Kinsley, Larned and Pratt. The marketing area so defined will include the principal points at which handlers of the larger cities are the suppliers of Grade A milk. It will accomplish the intent of handlers in requesting regulation by county boundaries and at the same time will present less administrative problems.

Population is not dense in the rural areas of Southwest Kansas. The geographical location and population of smaller towns is such as to make it impractical for there to be any substantial milk distribution in the area without sales in the defined marketing area. The inclusion of townships surrounding or adjacent to the principal cities will prevent the establishment of retail sales of unregulated milk adjacent to the boundaries of these cities.

Sales in Greeley, Wichita, Morton, Lane, and Kingman counties are not a significant part of the milk sales of the major handlers who will be regulated by the area herein proposed. For this reason the defined marketing area does not include cities in these counties. The recommended decision included the City of Elkhart in Morton County in the area to be defined and did not include Scott City in Scott County. A review of the record in the light of exceptions received indicates that with respect to milk supplies and sales, Scott City is more closely related to the other portions of the area than is Elkhart. It is therefore concluded that Scott City should be included in the defined marketing area and that Elkhart need not be included.

Within the defined area, milk labeled Grade "A" must be produced and handled under local or state supervision in accordance with the standards of the United States Public Health Service Standard Milk Ordinance. These standards have been adopted by the Kansas State Board of Agriculture and are contained in the ordinances of the principal cities. While not all of the cities of the defined marketing area require milk of Grade "A" quality, distribution of non-Grade "A" milk appears to be limited to that of producer-retailers. As indicated by the area of distribution of major handlers, milk of Grade "A" quality moves freely within the defined area. While only one handler distributes throughout the entire area, several handlers distribute their milk throughout a considerable portion of the area. A single cooperative association represents a majority of the producers supplying the principal handlers who would be regulated.

4. *The scope of regulation.* The minimum class prices of the orders should apply to milk of Grade A quality received directly from the farm on which it is produced, at a milk plant from which fluid milk is distributed on routes in the marketing area, or at a receiving plant closely associated with and regularly supplying such a plant.

Health authorities of most cities of the marketing area in which bottling plants are located inspect the farms of and issue permits or ratings to those producers whose milk is eligible for distribution as Grade A Milk. In at least one instance, Liberal, the record indicates that currently farm inspections are made and ratings issued by the State of Kansas. However the City of Liberal is proposing to adopt an ordinance under which these functions will be performed by municipal authorities.

In order to distinguish clearly what milk is to be subject to the order, which processors and distributors are to be subject to regulation, and which dairy farmers will have their milk priced and pooled, it is necessary to include in the order definitions of "approved plant", "handler", "producer" and "other source milk".

"Approved plant" should be defined to include those milk plants approved by the appropriate health authorities having jurisdiction in the marketing area from which Class I milk (fluid milk items specifically named elsewhere in the order) is disposed of under Grade A label on routes in the marketing area. The definition should also include the plants which regularly receive milk from producers under inspection of the health authority of a municipality of the marketing area and move it to a plant under common ownership from which Grade A milk is disposed of on routes in the marketing area. The definition will thus be restricted to those plants regularly supplying the fluid milk needs of the area and will not include outside plants which from time to time furnish supplementary supplies to plants regularly supplying the area. There are presently no plants operating as receiving stations. One handler however, has a second plant which until recently was operated as a receiving and bottling plant and where milk from producers is presently collected and moved in farmer's cans to the handler's principal plant. Provision is made for this plant to be considered an approved plant should the handler choose to receive and commingle milk there for more economical handling.

It was contended that the benefits of market-wide pooling shall not be extended to dairy farms or fluid milk plants having only casual association with the market. Accordingly a proposal was made that a plant which disposed of less than 15 percent of its receipts of Grade A milk on routes in the marketing area be excluded from pooling. The need for such a provision at this time appears largely speculative and accordingly no action is herein considered on the basis of this record.

"Handler" should be defined as any person in his capacity as the operator of an approved plant and any cooperative association with respect to milk of producers which it may divert for its own account to an unapproved plant. The handler is the person who receives milk from producers and who is responsible for reporting receipts and utilization of milk and for paying producers minimum prices. A cooperative association in its role of marketing milk of its producer members may need for short periods to divert producers milk from approved plants to unapproved plants for its own account. If the association is defined as a handler for such milk, even though it has no plant, the producers whose milk is so diverted will continue to receive the uniform price established under the order and their milk will be available for fluid use when needed.

"Producer" should be defined as any person, other than a producer-handler who produces milk received at an approved plant, or diverted from an approved plant to an unapproved plant for the account of a handler, which milk is produced under a Grade A dairy farm permit or rating issued by the appropriate health authority of a municipality of the marketing area or by the State of Kansas. Provision should be made to exclude any person whose milk is priced under another Federal order as a producer under this order, since this would result in such persons' milk being priced and pooled under two separate regulations.

The order does not propose to price the milk or pool the Class I sales of a producer-handler, who is a person operating an approved plant and produces milk but receives no milk from producers. The producer-handler is his own marketing agent and is thus in a position to regulate his production to his sales and completely control its disposition. Producer-handlers are thus in an entirely different position from producers whose milk is marketed through a handler, and a producer-handler's milk should not be subject to the pricing and pooling provisions of the order. Any milk that producer-handlers sell to handlers is normally surplus to their own operations; to pool such milk without also pooling the Class I sales producer-handlers make directly would result in a preferential market to producer-handlers as compared with producers regularly supplying handlers. Producer-handlers should therefore be excluded from the definition of producers and any milk they deliver to buying handlers be treated as other source milk.

"Other source milk" should be defined to include all skim milk and butterfat other than that contained in producer milk. When received at an approved plant, such milk would be from dairy farmers not approved for producing Grade A milk or from a plant which does not qualify as an approved plant. Other source milk would not be priced under the order, but would be allocated to the lowest use in the handler's plant to prevent its displacing producer milk, which constitutes the regular supply of the market, from Class I.

5. *Classification of milk.* Milk should be classified in two classes. Class I milk should include all skim milk and butterfat disposed of as milk, skim milk, buttermilk, flavored milk drinks, and cream or cream mixtures. These are the products which are required by health regulations to be Grade A milk. Class II milk should include all skim milk and butterfat used to produce products not required to be from Grade A milk, disposed of for livestock feed, and allowable shrinkage.

Unaccounted for milk in excess of a reasonable allowance for plant loss should be Class I milk in order to require full accounting by handlers for their receipts. Two percent is considered a reasonable maximum allowance for this purpose under most conditions. For the flush production months of April, May and June the maximum allowance with respect to skim milk is established at 5 percent of receipts in order that handlers with skim milk in excess of their needs in volumes too small to justify transportation to manufacturing plants or other disposition as Class II milk may not suffer undue hardships. No limit need be put on shrinkage of other source milk since such milk is deducted from the lowest use class under the allocation provisions. Since it is not feasible to segregate shrinkage of producer milk from that of other source milk in the same plant, total shrinkage is prorated on the basis of the volume of receipts.

To prevent other source milk, which is unpriced, from displacing from Class I producer milk which is the regular supply for the market, other source milk should be allocated to the lowest class uses in a handler's plant. In establishing the classification of milk, responsibility should be placed upon the handler who first receives milk from producers to account for all milk and milk products received, and to prove to the market administrator his claim that such receipts should be classified as other than Class I. The handler who first receives milk from producers is the person who is in position to satisfy this primary requirement of a class price plan. Such a handler must be held responsible for reporting properly the utilization of such milk and making full payment for it. He must, therefore, maintain records to establish unquestionable proof of the utilization of all milk he receives.

Provision should be made to cover the classification of milk, skim milk and cream transferred to other milk plants since such disposition may be for either fluid (Class I) or manufacturing (Class II) use. Transfers to the approved plants of other handlers may be at classification agreed upon between the handlers, provided the transferee plant has use in the agreed class and the prior claim of producer milk in Class I utilization is maintained. This is the most practical method of dealing with inter-handler transfers since it is convenient to handlers and under the market-wide pool neither the total cost of milk to handlers nor returns to producers are changed. Transfers to a producer-handler should be Class I since producer-handlers normally purchase from handlers only for fluid use. Transfers from approved plants to fluid milk plants within 300 miles of Dodge City should be classified as Class I milk up to the total disposition of Class I milk from such plant in excess of its receipts from the dairy farmers constituting its regular source of supply. Transfers to manufacturing plants (those with no route distribution of fluid milk) within 300 miles should be Class II milk. Transfers of milk or skim milk to plants located more than 300 miles from Dodge City should be Class I. Milk and skim milk normally cannot economically be transported greater distances for manufacturing use. The 300 mile limit establishes an area within which there are manufacturing facilities adequate to dispose of any prospective excess of producer milk.

Cream may economically be transported considerable distances for manufacturing use. The use of Grade A certification is a reasonably accurate criterion as to whether cream moves for fluid use or manufacturing use. It is provided that transfers of cream to unapproved plants without regard to distance shall be Class I if under Grade A certification, and Class II if without such certification and identified by label and invoice as for manufacturing use.

6. *Class prices.* The minimum price for Class I milk in the Southwest Kansas marketing area should be based upon the value of milk for manufacturing purposes, as reflected by the prices paid for milk by mid-west condenseries and market prices for butter and nonfat dry milk solids. The production of manufacturing quality milk is neither an important agricultural enterprise in the Southwest Kansas area nor a significant factor in the total potential supply for the market. Nevertheless changes in the value of milk for manufacturing purposes have for considerable time been reflected in the prices for fluid use. Such changes have resulted from the relationship of the Wichita market to the Southwest Kansas market. There is considerable competition for milk sales between Wichita handlers and Southwest Kansas handlers. There is also some competition for milk supplies between the two markets. As a result the milk prices in the Southwest Kansas area have followed the pattern in the Wichita market. The minimum prices of the Wichita order are based upon manufacturing milk values. The relationship between the two markets is sufficiently close to make it important that changes in minimum order prices be influenced by the same factors. The basic formula price to be used in establishing the current month price for milk of 3.8 percent butterfat content should be the higher of the prices paid farmers at 15 milk manufacturing plants in Wisconsin and Michigan or a formula price based on market values of butter and nonfat dry milk solids. Such a basic formula parallels closely that in the Wichita order, prices milk at the basic test to which the market is accustomed, and permits handlers to know their costs at the time of purchase.

The Class I price should be the basic formula price plus $1.65 in all months of the year. This is the Class I differential of the Wichita market. Producers proposed that this differential be $1.90 in order to compensate for differences in the classification and method of accounting for milk herein proposed from those applicable under the Wichita order and currently in use in the Southwest Kansas market. They contended that a Class I differential of $1.90 would be required, when applied to the separate classification and accounting for skim milk and butterfat proposed, to produce a blend or uniform price equal to that which would result from a $1.65 Class I differential applied to the milk equivalent classification and accounting system in use heretofore. Computation of the results under the two systems indicates that a differential somewhat less than $1.90 would accomplish this result.

Milk supplies in the Southwest Kansas area have increased substantially throughout 1952 and 1953. For January 1953 receipts were 26 percent greater than for January 1952. For May 1953 the increase over the same month a year earlier was more than 50 percent. Much of this increased supply was needed, as the market was in short supply during much of 1952 and for several years previously. Furthermore the prices paid producers much of this time were substantially in excess of the minimum prices of the Wichita order. The record however indicates that underlying economic conditions in the area have changed in a way which will increase the attractiveness of milk production. The principal agricultural enterprises of the area are wheat and beef cattle. Reductions in wheat acreages under marketing quotas and reduced profits from beef operations will, in the opinion of producer witnesses, increase milk production. These changes may also be reflected in sales volumes in this area in which much of the economy is closely related to agricultural enterprises. Under these circumstances it is considered advisable that the Class I differential be established at $1.65 at this time.

Producers proposed that the Class II price be the butter-powder formula price but that 30 cents for all months other than April, May and June, and 45 cents in these months, less than this price should apply to milk used in certain ways, principally that used for the manufacture of butter and cheese. Handlers proposed that the Class II price be determined by a butter-powder formula price incorporating lower yield factors and larger manufacturing al-

lowances than those included in the attached order. For July the handler proposal was 47 cents less than the butter-powder formula price adopted as an alternative basic formula.

There is little production of milk for manufacturing use in the Southwest Kansas area and consequently limited facilities for processing milk into manufactured dairy products. Major milk handlers have facilities for making ice cream and cottage cheese and until recently all Grade A milk in excess of fluid needs was used in these products. Some handlers have limited facilities for making butter and cheese, and there is one cheese plant of limited capacity in the area. Increased supplies of milk in the flush season of 1953 were sufficient to require use of these facilities in disposition of surplus Grade A milk. The limited volume and facilities for manufacturing milk in the area provide no basis for pricing Class II milk on the basis of local paying prices.

National market values appear to be appropriate for pricing Class II uses with the possible exception of butter and hard-type cheese during spring months of flush production. The butter-powder formula has over the past seven years averaged within four cents per hundredweight of the United States average price paid for manufacturing milk shown in the record. For 1953 however, the U. S. average price paid was 19 cents less than the butter-powder formula price, indicating that under current dairy marketing conditions in the country there has been a widening of the gross margin between market values of dairy products and the prices plants generally pay for manufacturing milk.

The proposals received at the hearing apparently presuppose an indefinite continuation of these wider gross margins. While such margins have widened under somewhat similar conditions in the past they have reduced as marketing conditions change. In order that the current marketing situation may be reflected in the Class II price without freezing the price at an arbitrarily low level, it is concluded that the national average price for manufacturing milk should determine the Class II price. For July 1953 this price was 21.8 cents less than the butter-powder formula price. A preliminary estimate of this price is published by the Department by the end of the month to which it applies. The price per hundredweight and the average test of milk are given. While this preliminary estimate is subject to later revision, comparisons of preliminary and final figures show that these seldom show a revised price that is not related to a corresponding change in the butterfat test reported. It appears that when converted to a 3.8 percent basis by direct ratio the price reported currently is appropriate for use in determining the Class II price of the Southwest Kansas order.

In the recommended decision provision was made for a credit of four cents per pound applicable to butterfat in producer milk classified as Class II and used in the manufacture of butter and cheese during the months of March through June 1954. It is not now expected that an order will be issued which will be effective for pricing purposes before the expiration of this period, hence the provision is not included in the order.

The minimum class prices thus determined apply to milk of 3.8 percent butterfat content. Such prices to handlers should be adjusted for the actual butterfat test of the milk classified in each class. Butterfat differentials to handlers accomplish this result. For Class I milk the handler butterfat differential should be .125 times the Chicago butter price of the preceding month for each one-tenth percent variation from 3.8 percent. For Class II milk the differential should be .115 times the butter price of the current month. Such differentials reflect an appropriate difference in the value of butterfat in Class I milk and in Class II milk in this market.

7. *Payments to producers.* The proposed order provides for a market-wide pool under which all producers supplying the market would receive the same price for their milk regardless of its utilization by the handler who received the milk. Under present arrangements in the market the returns of producers supplying each handler are based on that handler's utilization of milk, and consequently prices vary among handlers. These variations were minor when the market was in short supply and practically all milk received was used as Class I milk. With more ample supplies considerably wider variations have occurred. Some handlers do not have facilities for handling any volume of milk in excess of their fluid needs and consequently have restricted their receipts to approximately their fluid needs. Other handlers with manufacturing facilities handle the reserve supply and seasonal surpluses of the area. For a period the cooperative association attempted to pool the returns of their members as a means of equalizing returns. During this period non-member producers in high utilization plants received returns in excess of member-producers. As a result of the past experiences in the market the cooperative association recommends that market-wide pooling of all producers be provided in the order.

The record indicates that steps should be taken to level out production on the market. At the present time there is a wide variation between the high and low months of production. Alignment of Class I prices with those of the Wichita market does not provide for seasonal differences in Class I prices beyond those that are in the basic formula price. Producers have proposed a fall incentive plan whereby 50 cents per hundredweight would be deducted in computing the uniform price during each of the months of April, May and June, and one-third of the total amount deducted would be disbursed to producers on the basis of their deliveries during each of the following months of August, September and October. This plan has the effect of applying a seasonal element in the pricing of milk to producers. It is concluded it should be adopted as a means of encouraging a more uniform pattern of production.

The practice of paying producers twice monthly now prevails in the market and should be continued under the order. Uniform prices, however, should be computed only once each month. Provision should be made for an advance payment with respect to milk delivered during the first half of the month at not less than the previous months' Class II price with final settlement for all deliveries at the uniform price of the order.

The butterfat differential to be used in making payments to producers should be the Chicago butter price times .12. This is the differential used in the Wichita order and in the Southwest Kansas market at this time. Handler's costs are not affected by this differential as it is merely a means of prorating returns to producers delivering milk of varying butterfat tests.

Provision is made for payments to a cooperative association of the amounts due its member producers if the cooperative association has such authority, as determined by the market administrator, and requests that payments be so made. This practice was used for a time by a cooperative association in the market.

8. *The administrative assessment.* It appears that an administrative assessment of 5 cents per hundredweight on all producer milk and on other source milk used in Class I will be required to defray the cost of administering the order, at least during its initial stages.

The market administrator is required to verify the use of all milk received at approved plants and must have sufficient funds to enable him to administer properly the terms of the order. In view of the anticipated volume of milk to be regulated and the costs incident to regulation over a widespread area, a maximum rate of 5 cents per hundredweight should be adopted to guarantee a sufficient income for proper administration. Expenses are normally relatively high at the beginning of a program. Should experience show that a lesser rate will suffice, provision is made that the Secretary may reduce the assessment to whatever amount is necessary to meet expenses without amending the order.

9. *Administrative provisions.* The remaining provisions of the order are of a general administrative nature, are incidental to the other provisions of the order, and are necessary for the proper and efficient administration of the order. They provide for the selection of a market administrator, define his powers and duties, prescribe the information to be reported by handlers and set forth the rules to be followed in making the computations required by the order. They also prescribe the length of time that records must be retained and provide a plan for the liquidation of the order in the event of its suspension or termination. They are similar to like provisions of other orders and except as set forth below require no comment.

Producer-handlers should be exempt from the regulatory provisions of the order except that requiring the filing of reports as requested by the market administrator. Reports are required from the producer-handler in order to verify his continued status as a producer-handler and to suplement market information.

A handler who operates an approved plant which is subject to the regulatory provisions of another milk marketing agreement or order issued pursuant to the act should be exempt from the provisions of this order other than for reporting his volume of Class I sales in the marketing area. It would be impractical to attempt to regulate a handler under two separate orders with respect to the same milk. It appears reasonable that the effective regulation should be that of the area in which such a handler makes the greater portion of his sales. Such a provision will conform to the parallel provisions of the Wichita order. A proposal that such a handler be required to pay any amount by which the value of Class I milk disposed of in the Southwest Kansas marketing area (at the minimum prices of this order) exceeds that charged under the other order need not be adopted. Handlers subject to the Wichita order are the only ones likely to be affected by such a provision. The pricing provisions herein recommended are so aligned with those of the Wichita order as to make the provision unnecessary.

The order should provide limitations on the period of time handlers shall retain books and records which are required to be made available to the market administrator, and on the period of time in which obligations under the order shall terminate. The provision made in this regard is identical in principle with the general amendment made to all in operation on July 30, 1947, effective February 22, 1949, and the Secretary's decision of January 26, 1949 (14 F. R. 444), covering the retention of records and limitation of claims is equally applicable in this situation and is adopted as a part of this decision.

Provision should be made for the dissemination of market information to producers, for the verification of weights and for the sampling and testing of milk received from producers for whom such services are not being rendered by a qualified cooperative association. The order should provide that 6 cents per hundredweight, or such lesser amount as the Secretary may determine be deducted from payments to such producers and be turned over to the market administrator to finance the cost of such services. The percent costs of rendering such services are increased in the Southwest Kansas area by the distances between handler plants and the relatively small number of producers. For producers for whom a cooperative association is rendering such services, the handler should pay to the cooperative association such deductions as the producer has authorized the cooperative to collect, such payments to be in lieu of those to the market administrator.

General findings. (a) The proposed marketing agreement and the order and all of the terms and conditions thereof will tend to effectuate the declared policy of the act;

(b) The parity prices of milk produced for sale in the said marketing area as determined pursuant to section 2 of the act are not reasonable in view of the price of feeds, available supplies of feeds and other economic conditions which affect market supply and demand for such milk, and the minimum prices specified in the proposed marketing agreement and in the order, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk and be in the public interest; and

(c) The proposed marketing agreement and the order will regulate the handling of milk in the same manner as, and are applicable only to persons in the respective classes of industrial and commercial activity specified in, the said marketing agreement upon which a hearing has been held.

Ruling on exceptions. Within the period reserved therefor, exceptions were filed to certain of the findings, conclusions and actions recommended by the Deputy Administrator. In arriving at the findings, conclusions and regulatory provisions of this decision, such exceptions were carefully and fully considered in conjunction with the record evidence pertaining thereto. To the extent that the findings, conclusions and actions decided upon herein are at variance with any of the exceptions, such exceptions are overruled.

Determination of representative period. The month of January 1954 is hereby determined to be the representative period for the purpose of ascertaining whether the issuance of an order to regulate the handling of milk in the Southwest Kansas marketing area in the manner set forth in the attached order is approved or favored by producers who, during such period, were engaged in the production of milk for sale in the marketing area specified in such marketing order.

Marketing agreement and order. Annexed hereto and made a part hereof are two documents entitled respectively "Marketing Agreement Regulating the Handling of Milk in the Southwest Kansas Marketing Area," and "Order Regulating the Handling of Milk in the Southwest Kansas Marketing Area," which have been decided upon as the detailed and appropriate means of effectuating the foregoing conclusions. These documents shall not become effective unless and until the requirements of § 900.14 of the rules of practice and procedure, as amended, governing proceedings to formulate marketing agreements and orders have been met.

It is hereby ordered, That all of this decision, except the attached marketing agreement, be published in the FEDERAL REGISTER. The regulatory provisions of said marketing agreement are identical with those contained in the attached order which will be published with this decision.

This decision filed at Washington, D. C., this 29th day of March 1954.

[SEAL] JOHN H. DAVIS,
Assistant Secretary of Agriculture.

Order[1] Regulating the Handling of Milk in the Southwest Kansas Marketing Area

Sec.
919.0 Findings and determinations.

DEFINITIONS

919.1 Act.
919.2 Secretary.
919.3 Department.
919.4 Person.
919.5 Cooperative association.
919.6 Southwest Kansas marketing area.
919.7 Approved plant.
919.8 Unapproved plant.
919.9 Handler.
919.10 Producer.
919.11 Producer milk
919.12 Other source milk.
919.13 Producer-Handler.
919.14 Route.

MARKET ADMINISTRATOR

919.20 Designation.
919.21 Powers.
919.22 Duties.

REPORTS, RECORDS AND FACILITIES

919.30 Reports of receipts and utilization.
919.31 Payroll reports.
919.32 Other reports.
919.33 Records and facilities.
919.34 Retention of records.

CLASSIFICATION

919.40 Skim milk and butterfat to be classified.
919.41 Class of utilization.
919.42 Shrinkage.
919.43 Responsibility of handlers and reclassification of milk.
919.44 Transfers.
919.45 Computation of the skim milk and butterfat in each class.
919.46 Allocation of skim milk and butterfat classified.

MINIMUM PRICES

919.50 Basic formula price to be used in determining Class I prices.
919.51 Class prices.
919.52 Butterfat differentials to handlers.

APPLICATION OF PROVISIONS

919.60 Producer-handlers.
919.61 Handlers subject to other orders.

DETERMINATION OF UNIFORM PRICES

919.70 Computation of value of milk.
919.71 Computation of uniform price.

PAYMENTS

919.80 Time and method of payments.
919.81 Producer-butterfat differential.
919.82 Producer-settlement fund.
919.83 Payments to the producer-settlement fund.
919.84 Payment out of the producer-settlement fund.
919.85 Fall incentive payment.
919.86 Adjustments of accounts.
919.87 Marketing services.
919.88 Expenses of administration.
919.89 Termination of obligation.

EFFECTIVE TIME, SUSPENSION, OR TERMINATION

919.90 Effective time.
919.91 Suspension or termination.
919.92 Continuing obligations.
919.93 Liquidation.

[1] This order shall not become effective unless and until the requirements of § 900.14 of the rules of practice and procedure, as amended, governing proceedings to formulate marketing agreements and orders have been met.

MISCELLANEOUS PROVISIONS

Sec.
919.100 Agents.
919.101 Separability of provisions.

AUTHORITY: §§ 919.0 to 919.101 issued under sec. 5, 49 Stat. 753, as amended; 7 U. S. C. and Sup. 608c.

§ 919.0 *Findings and determinations*—(a) *Findings upon the basis of the hearing record.* Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, as amended, governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held upon a proposed marketing agreement and a proposed order regulating the handling of milk in the Southwest Kansas marketing area. Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order and all of the terms and conditions thereof will tend to effectuate the declared policy of the act;

(2) The parity prices of milk as determined pursuant to section 2 of the act are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply and demand for milk in the marketing area, and the minimum prices specified in the said order are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest;

(3) The said order regulates the handling of milk in the same manner as, and is applicable only to persons in the respective classes of industrial and commercial activity, specified in a marketing agreement upon which a hearing has been held;

(4) All milk and milk products handled by handlers, as defined in this order, are in the current of interstate commerce or directly burden, obstruct or affect interstate commerce in milk or its products; and

(5) It is hereby found that the necessary expense of the market administrator for the maintenance and functioning of such agency will require the payment by each handler as his pro rata share of such expense, 5 cents per hundredweight, or such lesser amount as the Secretary may prescribe, with respect to all receipts within the month of (i) other source milk which is classified as Class I milk, and (ii) milk from producers including such handler's own production.

Order relative to handling. It is therefore ordered that on and after the effective date hereof the handling of milk in the Southwest Kansas marketing area shall be in conformity to and in compliance with the following terms and conditions:

DEFINITIONS

§ 919.1 *Act.* "Act" means Public Act No. 10, 73d Congress, as amended and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C., 601 et seq.).

§ 919.2 *Secretary.* "Secretary" means the Secretary of Agriculture of the United States, or any other officer or employee of the United States, authorized to exercise the powers or to perform the duties of the Secretary of Agriculture.

§ 919.3 *Department.* "Department" means the United States Department of Agriculture or such other Federal agency authorized to perform the price reporting functions of the United States Department of Agriculture.

§ 919.4 *Person.* "Person" means any individual, partnership, corporation, association, or any other business unit.

§ 919.5 *Cooperative association.* "Cooperative association" means any cooperative marketing association of producers which the Secretary determines, after application by the association:

(a) To be qualified under the provisions of the act of Congress of February 18, 1922, as amended, known as the "Capper-Volstead Act"; and

(b) To have full authority in the sale of milk of its members and to be engaged in making collective sales or marketing milk or its products for its members.

§ 919.6 *Southwest Kansas marketing area.* "Southwest Kansas marketing area", hereinafter called "the marketing area", means all territory within the cities of:

Ashland.	La Crosse.
Cimarron.	Lakin.
Coldwater.	Larned.
Dodge City.	Liberal.
Ellinwood.	Meade.
Garden City.	Medicine Lodge.
Great Bend.	Ness City.
Greensburg.	Pratt.
Hoisington.	St. John.
Hugoton.	Scott City
Johnson.	Stafford.
Jetmore.	Syracuse.
Kinsley.	Ulysses.

And within the townships of Great Bend, South Bend, North Homestead, South Homestead, and Lakin in Barton County, Kinsley in Edwards County, Garden City in Finney County, Dodge and Richland in Ford County, Larned and Pleasant Grove in Pawnee County, Canter and Saratoga in Pratt County, and Liberal in Seward County, all in the State of Kansas.

§ 919.7 *Approved plant.* "Approved plant" means any milk plant approved by the appropriate health authority having jurisdiction in the marketing area:

(a) From which milk is disposed of under a Grade A label on wholesale or retail routes (including plant stores) as Class I milk in the marketing area, or

(b) Where milk of producers for whom permits or ratings are issued by a municipality of the marketing area is regularly received, tested, weighed, and commingled for shipment to a plant described in paragraph (a) of this section under the same ownership.

§ 919.8 *Unapproved plant.* "Unapproved Plant" means any milk plant which is not an approved plant.

§ 919.9 *Handler.* "Handler" means:

(a) Any person in his capacity as the operator of an approved plant; or

(b) Any cooperative association with respect to the milk of any producer which it causes to be diverted to an unapproved plant for the account of such cooperative association.

§ 919.10 *Producer.* (a) "Producer" means any person, other than a producer-handler, who produces milk which (1) is received at an approved plant directly from the farm at which produced, and (2) is produced under a dairy farm permit or rating for the production of milk to be disposed of as Grade A milk issued by the appropriate health authority of a municipality of the marketing area or by the State of Kansas.

(b) "Producer" shall include any such person whose milk is regularly received at an approved plant but which is caused to be diverted by a handler to an unapproved plant, and milk so diverted shall be deemed to have been received at an approved plant by the handler who causes it to be diverted. "Producer" shall not include a person with respect to milk produced by him which is received at a plant operated by a handler who is subject to another Federal marketing order and who is partially exempt from the provisions of this order pursuant to § 919.61.

§ 919.11 *Producer milk.* "Producer milk" means all skim milk and butterfat in milk produced by a producer which is received by a handler either directly from producers or from other handlers.

§ 919.12 *Other source milk.* "Other source milk" means all skim milk and butterfat other than that contained in producer milk.

§ 919.13 *Producer-handler.* "Producer-handler" means any person who produces milk and operates an approved plant, but who receives no milk from producers.

§ 919.14 *Route.* "Route" means any delivery (including a delivery by a vendor or at a plant store) of milk, skim milk, buttermilk, or flavored milk drink other than in bulk to a milk processing plant.

MARKET ADMINISTRATOR

§ 919.20 *Designation.* The agency for the administration of this subpart shall be a market administrator, selected by the Secretary who shall be entitled to such compensation as may be determined by, and shall be subject to removal at the discretion of the Secretary.

§ 919.21 *Powers.* The market administrator shall have the following powers with respect to this subpart:

(a) To administer its terms and provisions;

(b) To receive, investigate, and report to the Secretary complaints of violation;

(c) To make rules and regulations to effectuate its terms and provisions; and

(d) To recommend amendments to the Secretary.

§ 919.22 *Duties.* The market administrator shall perform all duties necessary to administer the terms and provisions of this subpart, including, but not limited to the following:

(a) Within 30 days following the date on which he enters upon his duties, or such lesser period as may be prescribed by the Secretary, execute and deliver to the Secretary a bond, effective as of the date on which he enters upon his duties and conditioned upon the faithful performance of such duties, in an amount and with surety thereon satisfactory to the Secretary;

(b) Employ and fix the compensation of such persons as may be necessary to enable him to administer the terms and provisions of this subpart;

(c) Obtain a bond in a reasonable amount and with reasonable surety thereon covering each employee who handles funds entrusted to the market administrator;

(d) Pay, out of the funds provided by § 919.88:

(1) The cost of his bond and of the bonds of his employees,

(2) His own compensation, and

(3) All other expenses, except those incurred under § 919.87, necessarily incurred by him in the maintenance and functioning of his office and in the performance of his duties;

(e) Keep such books and records as will clearly reflect the transactions provided in this subpart, and, upon request by the Secretary, surrender, the same to such other person as the Secretary may designate;

(f) Publicly announce, at his discretion, unless otherwise directed by the Secretary, the name of any person who, 5 days after the day upon which he is required to perform such acts, has not made (1) reports pursuant to §§ 919.30 and 919.31, or (2) payments pursuant to §§ 919.80 to 919.88, inclusive;

(g) Submit his books and records to examination by the Secretary and furnish such information and reports as may be requested by the Secretary;

(h) Verify all reports and payments by each handler by audit, if necessary, of such handler's records and of the records of any other handler or person upon whose utilization the classification of skim milk or butterfat for such handler depends;

(i) Publicly announce the prices determined for each month as follows:

(1) On or before the 5th day of each month, the minimum prices for Class I milk pursuant to § 919.51 (a) and the Class I butterfat differential pursuant to § 919.52 (a), both for the current month, and the minimum price for Class II milk pursuant to § 919.51 (b) and the Class II butterfat differential pursuant to § 919.52 (b), both for the preceding month; and

(2) On or before the 12th day of each month the uniform price, computed pursuant to § 919.71 and the butterfat differential computed pursuant to § 919.81, both for the preceding month;

(j) On or before the 12th day after the end of each month, report to each cooperative association which so requests the amount and class utilization of milk received by each handler from producers who are members of such cooperative association. For the purpose of this report the milk so received shall be prorated to each class in the proportion that the total receipts of milk from producers by such handler were used in each class;

(k) Prepare and disseminate to the public such statistics and information as he deems advisable and as do not reveal confidential information.

REPORTS, RECORDS AND FACILITIES

§ 919.30 *Reports of receipts and utilization.* On or before the 7th day after the end of each month, each handler, except a producer-handler, shall report to the market administrator in the detail and on forms prescribed by the market administrator as follows:

(a) The quantities of skim milk and butterfat contained in milk received from producers;

(b) The quantities of skim milk and butterfat contained in receipts from other handlers;

(c) The quantities of skim milk and butterfat contained in receipts of other source milk (except Class II products disposed of in the form in which received without further processing or packaging by the handler);

(d) The quantity of skim milk and butterfat contained in all milk, skim milk, cream and products specified as Class I milk pursuant to § 919.41 (a) on hand at the beginning and end of each month;

(e) The utilization of all skim milk and butterfat required to be reported pursuant to this section; and

(f) Such other information with respect to receipts and utilization as the market administrator may prescribe.

§ 919.31 *Payroll reports.* On or before the 20th day of each month, each handler shall submit to the market administrator his producer payroll for deliveries of the preceding month, which shall show:

(a) The total pounds and the average butterfat test of milk received from each producer and cooperative association, the number of days, if less than the entire month, for which milk was received from such producer;

(b) The amount of payment to each producer and cooperative association; and

(c) The nature and amount of any deductions or charges involved in such payments.

§ 919.32 *Other reports.* (a) Each producer-handler shall make reports to the market administrator at such time and in such manner as the market administrator may prescribe.

(b) Each handler who causes milk to be diverted for his account directly from producers' farms to an unapproved plant shall, prior to such diversion, report to the market administrator and to the cooperative association of which such producer is a member his intention to divert such milk, the proposed date or dates of such diversion, and the plant to which such milk is to be diverted.

§ 919.33 *Records and facilities.* Each handler shall maintain and make available to the market administrator or to his representative during the usual hours of business such accounts and records of his operations and such facilities as are necessary for the market administrator to verify or establish the correct data with respect to:

(a) The receipts of producer milk and other source milk and the utilization of such receipts;

(b) The weights and tests for butterfat and other content of all milk, skim milk, cream and milk products handled;

(c) Payments to producers and cooperative associations; and,

(d) The pounds of skim milk and butterfat contained in or represented by all milk, skim milk, cream and milk products on hand at the beginning and end of each month.

§ 919.34 *Retention of records.* All books and records required under this subpart to be made available to the market administrator shall be retained by the handler for a period of three years to begin at the end of the month to which such books and records pertain: *Provided*, That if, within such three-year period, the market administrator notifies the handler in writing that the retention of such books and records, or of specified books and records, is necessary in connection with a proceeding under section 8c (15) (A) of the act or a court action specified in such notice, the handler shall retain such books and records, or specified books and records, until further written notification from the market administrator. In either case, the market administrator shall give further written notification to the handler promptly, upon the termination of the litigation or when the records are no longer necessary in connection therewith.

CLASSIFICATION

§ 919.40 *Skim milk and butterfat to be classified.* All skim milk and butterfat received within the month by a handler and which is required to be reported pursuant to § 919.30 shall be classified by the market administrator pursuant to the provisions of §§ 919.41 to 919.46, inclusive.

§ 919.41 *Class of utilization.* Subject to the conditions set forth in §§ 919.42 through 919.46, the classes of utilization shall be as follows:

(a) Class I milk shall be all skim milk (including reconstituted skim milk) and butterfat (1) disposed of in the form of milk, skim milk, buttermilk, flavored milk drinks, cream, cultured sour cream, any mixture (except eggnog, aerated cream, and bulk ice cream mix) of cream and milk or skim milk, and (2) all others skim milk and butterfat not specifically accounted for as Class II milk;

(b) Class II milk shall be all skim milk and butterfat;

(1) Used to produce any product other than those specified in paragraph (a) of this section;

(2) Disposed of for livestock feed;

(3) In cream frozen and stored;

(4) In shrinkage of producer milk that is not in excess of 2 percent (5 percent with respect to skim milk during the months of April, May and June) of receipts from producers;

(5) In shrinkage of other source milk; and

(6) In inventory at the end of the month as milk, skim milk, cream, or any product specified in paragraph (a) of this section.

§ 919.42 *Shrinkage.* The market administrator shall allocate shrinkage over a handler's receipts as follows:

(a) Compute the total shrinkage of skim milk and butterfat for each handler; and

(b) Prorate the resulting amounts between the receipts of skim milk and butterfat in receipts from producers and of other source milk.

§ 919.43 *Responsibility of handlers and reclassification of milk.* (a) All skim milk and butterfat shall be Class I milk unless the handler who first receives such skim milk or butterfat can prove to the market administrator that such skim milk or butterfat should be classified as Class II.

(b) Any skim milk or butterfat classified as Class II milk shall be reclassified if such skim milk or butterfat is later disposed of by such handler or another handler (whether in original or other form) as Class I milk. Any skim milk or butterfat which was classified as Class II milk in the previous month pursuant to § 919.41 (b) (6) shall be reclassified as Class I milk if it is subtracted in the current month from Class I pursuant to § 919.46 (a) (4).

§ 919.44 *Transfers.* Skim milk or butterfat disposed of by a handler either by transfer or diversion from an approved plant shall be classified:

(a) At the class mutually indicated in writing to the market administrator on or before the 7th day after the end of the month within which such transaction occurred, otherwise as Class I milk, if transferred or diverted in the form of milk, skim milk, or cream to the approved plant of another handler (except a producer-handler), subject in either event to the following conditions:

(1) The receiving handler has use in such class of an equivalent amount of skim milk and butterfat, respectively;

(2) Such skim milk or butterfat shall be classified so as to allocate to producer milk the greatest total Class I utilization in the two plants.

(b) As Class I milk, if transferred or diverted to a producer-handler in the form of milk, skim milk, or cream.

(c) As Class I milk, if transferred or diverted in the form of milk or skim milk to an unapproved plant more than 300 miles from the courthouse at Dodge City, Kansas, by the shortest highway distance as determined by the market administrator.

(d) As Class I milk, if transferred to an unapproved plant in the form of cream under Grade A certification, or unless the handler claims Class II classification and establishes the fact that such cream was transferred without Grade A certification and with each container labeled or tagged to indicate that the contents are for manufacturing use only and that the shipment was so invoiced.

(e) As Class I milk if transferred or diverted in the form of milk or skim milk to an unapproved plant located not more than 300 miles from the courthouse at Dodge City, Kansas, by shortest highway distance, as determined by the market administrator, and from which fluid milk is disposed of on wholesale or retail routes, unless the market administrator is permitted to audit the records of receipts and utilization at such unapproved plant, in which case the classification of all skim milk and butterfat received at such unapproved plant shall be determined and the skim milk and butterfat transferred from the approved plant shall be allocated to the highest use remaining after subtracting in series beginning with Class I milk, receipts of skim milk and butterfat at such unapproved plant direct from dairy farmers who the market administrator determines constitute the regular source of supply of such plant for fluid usage.

(f) As Class II milk, if transferred or diverted in the form of milk or skim milk to an unapproved plant located not more than 300 miles from the courthouse at Dodge City, Kansas, by shortest highway distance as determined by the market administrator, and from which fluid milk is not disposed of on wholesale or retail routes.

§ 919.45 *Computation of the skim milk and butterfat in each class.* For each delivery period the market administrator shall correct for mathematical and for other obvious errors the report of receipts and utilization submitted by each handler and shall compute the total pounds of skim milk and butterfat, respectively, in Class I milk and Class II milk of such handler.

§ 919.46 *Allocation of skim milk and butterfat classified.* After making the computation pursuant to § 919.45, the market administrator shall determine the classification of producer milk as follows:

(a) Skim milk shall be allocated in the following manner:

(1) Subtract from the total pounds of skim milk in Class II the pounds of skim milk determined pursuant to § 919.41 (b) (5);

(2) Subtract from the remaining pounds of skim milk in each class the pounds of skim milk received from other handlers in a form other than milk, skim milk or cream according to its classification pursuant to § 919.41;

(3) Subtract from the remaining pounds of skim milk in series beginning with Class II, the pounds of skim milk in other source milk;

(4) Subtract from the remaining pounds of skim milk in series beginning with Class II, the pounds of skim milk in inventory at the beginning of the month in the form of milk, skim milk, cream (except frozen cream), or any other product specified in § 919.41 (a);

(5) Subtract from the remaining pounds of skim milk in each class the skim milk received from other handlers in the form of milk, skim milk or cream according to its classification as determined pursuant to § 919.44 (a);

(6) Add to the remaining pounds of skim milk in Class II the pounds of skim milk subtracted pursuant to subparagraph (1) of this paragraph;

(7) If the remaining pounds of skim milk remaining in both classes exceed the pounds of skim milk received from producers, subtract such excess from the pounds of skim milk remaining in each class in series beginning with Class II Any amount so subtracted shall be called "overage."

(b) Butterfat shall be allocated in accordance with the same procedure outlined for skim milk in paragraph (a) of this section.

(c) Add the pounds of skim milk and the pounds of butterfat allocated to producer milk in each class, respectively, as computed pursuant to paragraphs (a) and (b) of this section and determine the percent of butterfat content in such milk in each class.

MINIMUM PRICES

§ 919.50 *Basic formula price to be used in determining Class I prices.* The basic formula price to be used in determining the price per hundredweight of Class I milk shall be the higher of the prices computed pursuant to paragraphs (a) and (b) of this section for the preceding month.

(a) The average of the basic or field prices per hundredweight reported to have been paid, or to be paid, for milk of 3.5 percent butterfat content received from farmers during the month at the following plants or places for which prices have been reported to the market administrator or to the Department, divided by 3.5 and multiplied by 3.8:

Present Operator and Location

Borden Co., Mount Pleasant, Mich.
Carnation Co., Sparta, Mich.
Pet Milk Co., Hudson, Mich.
Pet Milk Co., Wayland, Mich.
Pet Milk Co., Coopersville, Mich.
Borden Co., Orfordville, Wis.
Borden Co., New London, Wis.
Carnation Co., Chilton, Wis.
Carnation Co., Berlin, Wis.
Carnation Co., Richland Center, Wis
Carnation Co., Oconomowoc, Wis.
Pet Milk Co., New Glarus, Wis.
Pet Milk Co., Belleville, Wis.
White House Milk Co., West Bend, Wis.
White House Milk Co., Manitowoc, Wis.

(b) The price per hundredweight computed by adding together the plus values pursuant to subparagraphs (1) and (2) of this paragraph:

(1) From the simple average as computed by the market administrator of the daily wholesale selling prices (using the midpoint of any price range as one price) per pound of Grade A (92-score) bulk creamery butter per pound at Chicago, as reported by the Department during the month, subtract 3 cents, add 20 percent thereof, and multiply by 3.8.

(2) From the simple average as computed by the market administrator of the weighted averages of carlot prices per pound for nonfat dry milk solids, spray and roller process, respectively, for human consumption, f. o. b. manufacturing plants in the Chicago area, as published for the period from the 26th day of the preceding month through the 25th day of the current month by the Department deduct 5.5 cents, multiply by 8.5, and then multiply by 0.962.

§ 919.51 *Class prices.* Subject to the provisions of § 919.52, the minimum prices per hundredweight to be paid by each handler for milk received at his plant from producers during the month shall be as follows:

(a) *Class I milk.* The price per hundredweight shall be the basic formula price plus $1.65 during all months of the year.

(b) *Class II milk.* The price per hundredweight shall be the average price reported by the Department for the current month for milk for manufacturing purposes, f. o. b. plant, United States, adjusted to a 3.8 percent butterfat basis by direct ratio.

§ 919.52 *Butterfat differential to handlers.* If the average butterfat content of the milk of any handler allocated to any class pursuant to § 919.46 is more or less than 3.8 percent, there shall be added to the respective class price, computed pursuant to § 919.51 (a) and (b) for each one-tenth of one percent that the average butterfat content of such milk is above 3.8 percent, or subtracted for each one-tenth of one percent that such average butterfat content is below 3.8 percent, an amount equal to the butterfat differential computed by multiplying the simple average, as computed by the market administrator, of the daily wholesale selling price per pound (using the mid-point of any price range as one price) of Grade A (92-score) bulk creamery butter at Chicago, as reported by the Department during the appropriate month, by the applicable factor listed below and dividing the result by 10:

(a) Class I milk: Multiply such price for the preceding month by 1.25; and

(b) Class II milk: Multiply such price for the current month by 1.15.

APPLICATION OF PROVISIONS

§ 919.60 *Producer-handlers.* Sections 919.40 through 919.46, 919.50 through 919.52, 919.70 through 919.71, 919.80 through 919.89 shall not apply to a producer-handler.

§ 919.61 *Handlers subject to other orders.* In the case of any handler who the Secretary determines disposes of a greater portion of his milk as Class I milk in another marketing area regulated by another milk marketing agreement or order issued pursuant to the act, the provisions of this order shall not apply except that the handler shall with respect to his total receipts of skim milk and butterfat, make reports to the market administrator at such time and in such manner as the market administrator may require and shall allow verification of such reports by the market administrator pursuant to § 919.33.

DETERMINATION OF UNIFORM PRICE

§ 919.70 *Computation of value of milk.* The value of milk received during each month by each handler from producers shall be a sum of money computed by the market administrator as follows:

(a) Multiply the pounds of such milk in each class by the applicable respective class prices (adjusted pursuant to § 919.52) and add together the resulting amounts;

(b) Add an amount computed by multiplying the pounds of any overage deducted from each class pursuant to § 919.46 (a) (7) by the applicable class price(s);

(c) Add any charges computed as follows:

(1) For any skim milk or butterfat in inventory reclassified pursuant to § 919.43 (b) which is not in excess of the quantity in producer milk classified as Class II milk (other than as shrinkage) in the handler's plant for the preceding month, a charge shall be computed at the difference between its value at the Class I price for the current month and its value at the Class II price of the preceding month;

(2) For any other skim milk or butterfat reclassified pursuant to § 919.43 (b) a charge shall be computed at the difference between its value at the Class I price and its value at the Class II price both, for the month in which previously classified as Class II milk.

§ 919.71 *Computation of uniform price.* For each month the market administrator shall compute the uniform price per hundredweight for all milk of 3.8 percent butterfat content received from producers as follows:

(a) Combine into one total the values computed pursuant to § 919.70 for all handlers who made the reports prescribed in § 919.30 and who made the payments pursuant to §§ 919.80 and 919.83 for the preceding month;

(b) For each of the months of April through June subtract an amount equal to 50 cents per hundredweight on the total amount of producer milk included in these computations to be retained in the producer-settlement fund for the purpose specified in § 919.85;

(c) Add not less than one-half of the unobligated cash balance on hand in the producer-settlement fund;

(d) Subtract if the average butterfat content of the milk included in these computations is greater than 3.8 percent or add if such average butterfat content is less than 3.8 percent an amount computed by multiplying the amount by which the average butterfat content of such milk varies from 3.8 percent by the butterfat differential computed pursuant to § 919.81 and multiplying the resulting figure by the total hundredweight of such milk;

(e) Divide the resulting amount by the total hundredweight of milk included in these computations; and

(f) Subtract not less than 4 cents nor more than 5 cents from the amount computed pursuant to paragraph (e) of this section. The resulting figure shall be the uniform price for milk of 3.8 percent butterfat content received from producers.

PAYMENTS

§ 919.80 *Time and method of payment.* Each handler shall make payment as follows:

(a) On or before the 15th day after the end of the month during which the milk was received, to each producer for whom payment is not made pursuant to paragraph (c) of this section, at not less than the uniform price for such month computed pursuant to § 919.71 adjusted by the butterfat differential computed pursuant to § 919.81, and less the amount of the payment made pursuant to paragraph (b) of this section: *Provided,* That if by such date such handler has not received full payment for such month pursuant to § 919.84, he may reduce his total payments to all producers uniformly by not more than the amount of reduction in payments from the market administrator; he shall, however, complete such payments pursuant to this paragraph not later than the date for making such payments next following receipt of the balance from the market administrator.

(b) On or before the last day of each month, to each producer for whom payment is not made pursuant to paragraph (c) of this section for milk received during the first 15 days of such month, at not less than the Class II price of the preceding month.

(c) On or before the 13th and 27th days of each month, in lieu of payments pursuant to paragraphs (a) and (b) of this section respectively, to a cooperative association which so requests, with respect to producers for whose milk the market administrator determines such cooperative association is authorized to collect payment, an amount equal to the sum of the individual payments otherwise payable to such producers. Such payments shall be accompanied by a statement showing for each producer the items required to be reported pursuant to § 919.31.

§ 919.81 *Producer-butterfat differential.* In making payments pursuant to § 919.80, there shall be added to or subtracted from the uniform price for each one-tenth of 1 percent that the average butterfat content of the milk received from the producer is above or below 3.8 percent, an amount computed by multiplying by 1.2 the simple average as computed by the market administrator of the daily wholesale selling prices per pound (using the mid-point of any price range as one price) of Grade A (92-score) bulk creamery butter at Chicago as reported by the Department during the month, dividing the resulting sum by 10, and rounding to the nearest one-tenth of a cent.

§ 919.82 *Producer-settlement fund.* The market administrator shall establish and maintain a separate fund known as the "producer-settlement fund," into which he shall deposit all payments made by handlers pursuant to §§ 919.83 and 919.86, and out of which he shall make all payments pursuant to §§ 919.84, 919.85, and 919.86.

§ 919.83 *Payments to the producer-settlement fund.* On or before the 13th day after the end of the month during which the milk was received, each handler, including a cooperative association which is a handler, shall pay to the market administrator the amount, if any by which the value of the milk received by such handler from producers as determined pursuant to § 919.70 is greater than the amount required to be paid producers by such handler pursuant to § 919.80.

§ 919.84 *Payments out of the producer-settlement fund.* On or before the 14th day after the end of the month during which the milk was received, the market administrator shall pay to each handler, including a cooperative association which is a handler, the amount,

if any, by which the value of the milk received by such handler from producers during the month as determined pursuant to § 919.70 is less than the amount required to be paid producers by such handler pursuant to § 919.80: *Provided*, That if the balance in the producer-settlement fund is insufficient to make all payments pursuant to this paragraph, the market administrator shall reduce uniformly such payments and shall complete such payments as soon as the necessary funds are available.

§ 919.85 *Fall incentive payment.* On or before the 15th day after the end of each of the months of August, September and October, the market administrator shall pay out of the producer-settlement fund to each producer from whom milk was received by handlers during the month, an amount computed as follows:

(a) Divide one-third of the total amount held pursuant to § 919.71 (b) by the total hundredweight of producer milk received by all handlers during the month and multiply the resulting amount (computed to the nearest cent per hundredweight) by the hundredweight of milk received from each such producer during the month: *Provided*, That payment under this paragraph due any producer who has given authority to a cooperative association to receive payments for his milk shall be distributed to such cooperative association if the cooperative association requests receipt of such payment.

§ 919.86 *Adjustment of accounts.* Whenever audit by the market administrator of any handler's reports, books, records, or accounts discloses errors resulting in money due:

(a) The market administrator from such handler;

(b) Such handler from the market administrator; or,

(c) Any producer or cooperative association from such handler, the market administrator shall promptly notify such handler of any amount so due and payment thereof shall be made on or before the next date for making payments set forth in the provisions under which error occurred.

§ 919.87 *Marketing services.* (a) Except as set forth in paragraph (b) of this section, each handler, in making payments to producers (other than himself) pursuant to § 919.80, shall deduct 6 cents per hundredweight or such lesser amount as may be prescribed by the Secretary, and shall pay such deductions to the market administrator on or before the 15th day after the end of each month. Such moneys shall be used by the market administrator to sample, test, and check the weights of milk received from producers and to provide producers with market information.

(b) In the case of producers for whom a cooperative association is actually performing the services set forth in paragraph (a) of this section, each handler shall make, in lieu of the deduction specified in paragraph (a) of this section such deductions from the payments to be made to such producers as may be authorized by the membership agreement or marketing contract between such cooperative association and such producers on or before the 15th day after the end of each month pay such deduction to the cooperative association rendering such services identified by a statement showing for each such producer the information required to be reported to the market administrator pursuant to § 919.31 in lieu of such statement a handler may authorize the market administrator to furnish such cooperative association the information with respect to such producers reported pursuant to § 919.31.

§ 919.88 *Expenses of administration.* As his pro rata share of the expense of administration of this subpart, each handler shall pay to the market administrator on or before the 15th day after the end of the month, 5 cents per hundredweight or such lesser amount as the Secretary may prescribe with respect to all receipts within the month of (a) other source milk which is classified as Class I, and (b) milk from producers including such handler's own production.

§ 919.89 *Termination of obligation.* The provisions of this section shall apply to any obligation under this subpart for the payment of money.

(a) The obligation of any handler to pay money required to be paid under the terms of this subpart shall, except as provided in paragraphs (b) and (c) of this section, terminate two years after the last day of the calendar month during which the market administrator receives the handler's utilization report on the milk involved in such obligation, unless within such two-year period the market administrator notifies the handler in writing that such money is due and payable. Service of such notice shall be complete upon mailing to the handler's last known address, and it shall contain but need not be limited to, the following information:

(1) The amount of the obligation;

(2) The month(s) during which the milk, with respect to which the obligation exists, was received or handled; and,

(3) If the obligation is payable to one or more producers or to an association of producers, the name of such producer(s) or association of producers, or if the obligation is payable to the market administrator, the account for which it is to be paid.

(b) If a handler fails or refuses, with respect to any obligation under this subpart, to make available to the market administrator or his representatives all books and records required by this subpart to be made available, the market administrator may, within the two-year period provided for in paragraph (a) of this section, notify the handler in writing of such failure or refusal. If the market administrator so notifies a handler, the said two-year period with respect to such obligation shall not begin to run until the first day of the calendar month following the month during which all such books and records pertaining to such obligation are made available to the market administrator or his representatives.

(c) Notwithstanding the provisions of paragraphs (a) and (b) of this section, a handler's obligation under this subpart to pay money shall not be terminated with respect to any transaction involving fraud or willful concealment of a fact material to the obligation, on the part of the handler against whom the obligation is sought to be imposed.

(d) Any obligation on the part of the market administrator to pay a handler any money which such handler claims to be due him under the terms of this subpart shall terminate two years after the end of the month during which the milk involved in the claim was received if an underpayment is claimed, or two years after the end of the month during which the payment (including deduction or setoff by the market administrator) was made by the handler if a refund on such payment is claimed, unless such handler, within the applicable period of time, files, pursuant to section 8c (15) (A) of the act, a petition claiming such money.

EFFECTIVE TIME, SUSPENSION OR TERMINATION

§ 919.90 *Effective time.* The provisions of this subpart, or of any amendment to this subpart, shall become effective at such time as the Secretary may declare and shall continue in force until suspended or terminated, pursuant to § 919.91.

§ 919.91 *Suspension or termination.* The Secretary may suspend or terminate this subpart or any provision of this subpart whenever he finds this subpart or any provision of this subpart obstructs or does not tend to effectuate the declared policy of the act. This subpart shall terminate in any event whenever the provisions of the act authorizing it ceases to be in effect.

§ 919.92 *Continuing obligations.* If, upon the suspension or termination of any or all provisions of this subpart, there are any obligations under this subpart the final accrual or ascertainment of which requires further acts by any person (including the market administrator), such further acts shall be performed notwithstanding such suspension or termination.

§ 919.93 *Liquidation.* Upon the suspension or termination of the provisions of this subpart except this section, the market administrator, or such other liquidating agent as the Secretary may designate, shall, if so directed by the Secretary, liquidate the business of the market administrator's office, dispose of all property in his possession or control, including accounts receivable, and execute and deliver all assignments or other instruments necessary or appropriate to effectuate any such disposition. If a liquidating agent is so designated, all assets, books, and records of the market administrator shall be transferred promptly to such liquidating agent. If, upon such liquidation, the funds on hand exceed the amounts required to pay outstanding obligations of the office of the market administrator and to pay necessary expenses of liquidation and distribution, such excess shall be distributed to contributing handlers and producers in an equitable manner.

MISCELLANEOUS PROVISIONS

§ 919.100 *Agents.* The Secretary may, by designation in writing, name any officer or employee of the United States to act as his agent or representative in connection with any of the provisions of this subpart.

§ 919.101 *Separability of provisions.* If any provision of this subpart or its application to any person or circumstances, is held invalid, the application of such provision and the remaining provisions of this subpart, to other persons or circumstances, shall not be affected thereby.

Order of the Secretary Directing That a Referendum Be Conducted Among the Producers Supplying Milk to the Southwest Kansas Marketing Area, and Designation of an Agent To Conduct Such Referendum

Pursuant to section 8c (19) of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 608c (19)), it is hereby directed that a referendum be conducted among the producers (as defined in the proposed order regulating the handling of milk in the Southwest Kansas marketing area) who, during the month of January 1954 were engaged in the production of milk for sale in the marketing area specified in the aforesaid order to determine whether such producers favor the issuance of the order which is a part of the decision of the Secretary of Agriculture filed simultaneously herewith.

The month of January 1954 is hereby determined to be the representative period for the conduct of such referendum.

Hobart E. Crone is hereby designated agent of the Secretary to conduct such referendum in accordance with the procedure for the conduct of referenda to determine producer approval of milk marketing orders as published in the FEDERAL REGISTER on August 10, 1950 (15 F. R. 5177), such referendum to be completed on or before the 35th day from the date this referendum order is issued.

Done at Washington, D. C., this 29th day of March 1954.

[Docket No. AO-231-A-4]

HANDLING OF MILK IN THE NORTH TEXAS MARKETING AREA

DECISION WITH RESPECT TO PROPOSED AMENDMENTS TO TENTATIVE MARKETING AGREEMENT AND TO ORDER, AS AMENDED

Correction

The following should be added to F. R. Doc. 54-2264, appearing at page 1773 of the issue for Wednesday, March 31, 1954:

This decision filed at Washington, D. C., this 25th day of March 1954.

[SEAL] JOHN H. DAVIS,
Assistant Secretary of Agriculture.

[7 CFR Part 961]

[Docket No. AO-160-A-15-RO1]

HANDLING OF MILK IN PHILADELPHIA, PENNSYLVANIA, MARKETING AREA

DECISION WITH RESPECT TO PROPOSED AMENDMENTS TO TENTATIVE MARKETING AGREEMENT, AND TO ORDER AS AMENDED

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, as amended, governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), a public hearing was conducted at Philadelphia, Pennsylvania, on January 21, 1954, pursuant to notice thereof which was issued on January 11, 1954 (19 F. R. 273) upon proposed amendments to the tentative marketing agreement and to the order, as amended, regulating the handling of milk in the Philadelphia, Pennsylvania, marketing area. On the basis of the evidence introduced at the hearing and the record thereof, the Deputy Administrator, Agricultural Marketing Service, on March 16, 1954 (19 F. R. 1516) filed with the Hearing Clerk, United States Department of Agriculture, a recommended decision on issues listed as No. 2 and No. 4 herein. Issues No. 1 and No. 3 had been previously dealt with in the decision of the Secretary issued February 11, 1954 (19 F. R. 883).

The material issues on the record of the hearing were:

(1) Whether the 10-cent seasonal reduction in the Class II price should apply in February and March 1954.

(2) Whether certain Class II products should be priced in certain periods in a separate subclass at a price lower than the regular Class II price.

(3) The need for abbreviated procedure to change the Class II price formula.

(4) Revision of the Class II formula on a more permanent basis.

Findings and conclusions. The following findings and conclusions on the material issues are based upon evidence contained in the record of the hearing:

2. *Price subdivisions in Class II.* For the months of April, May, and June, 1954 Class II milk should be priced in two subdivisions: the higher price subdivision should be priced on a formula without the usual 10-cent seasonal adjustment; the lower price subdivision, which would include milk dumped, used for animal feed, or manufactured into butter, cheddar cheese, baker's or any other cheese except cream or cottage cheese, evaporated milk, milk chocolate, nonfat dry milk, soup, candy, or bakery products, should be priced 20 cents less than the higher price subdivision. The pricing formula for the butterfat value during this period should be a value based on the New York price for Grade A (92-score) butter, or that based on cream prices in the Philadelphia market (excluding cream with special municipal qualification), whichever is higher.

In the decision of February 11, 1954, and amendment effective March 1, 1954 (19 F. R. 1081), modification of the Class II price provisions was applied only for the month of March this year. The situation referred to in that decision with respect to the problems of disposal of the increased volume of milk over fluid needs is expected to continue for the other months of seasonally high production this year. Since May has usually been the month of highest production, the burden of surplus may be expected to increase over the March level. Without further price adjustments, unwillingness of handlers to accept all producer milk, and the problem of diversion of such turned-back milk, as described in the previous decision, would be considerably accentuated during coming months.

Producers and handlers urged that certain kinds of utilization in Class II be designated as a subclass, with a price lower than the regular price. Such a subdivision of Class II was presented as a step to induce handlers to accept the larger volume of milk for manufacture in their own plants or shipment to manufacturing plants. In this conjunction, certain allowances also were proposed for handling, and in case of diversion, for transportation.

It may be expected that the marketing conditions during the 1954 flush production season in this market, with respect to excess milk over fluid needs, will be similar to conditions experienced in the flush season of 1953. In the April-June period of last year the Class II price formula reduced the price, in response to the increased supply of milk, to a level, on a 3.5 percent butterfat basis, about 6 percent below the estimated average level paid for manufacturing milk nationally (converted by direct ratio to the same test). The average price during that period also was lower than if it had been based on the butter price specified in the order.

The record does not substantiate a general reduction in producer returns on Class II milk during coming flush months, except insofar as caused by changes in market values of products, and some recognition of greater usage in lower valued products, which in this market will involve greater handling and transportation costs. A subdivision of Class II utilization for pricing purposes will provide such recognition.

Products in which milk diverted to non-handler manufacturing plants would generally be used would include: butter, cheese, evaporated milk, milk chocolate, nonfat dry milk, soup, candy, and bakery products. Milk dumped or disposed or for animal feed should not return more than the lowest utilization price. Utilization in these items should be designated as a subdivision of Class II for the months of April, May and June 1954. Cottage cheese and cream cheese are regularly manufactured in handler plants for their own trade, and should not be included in the proposed subclass.

A 20-cent per hundredweight minus differential should apply to milk used in the lower priced subdivision of Class II. Such a division of Class II, with the proposed price differential, would remove the basis for the 10-cent seasonal adjustment which is now provided in the order in recognition of the higher proportion of Class II utilization in such manufactured products, as named above, during

the flush production season. The proposed pricing plan will relate the seasonal change in the Class II prices directly to that portion of the milk going into these manufactured products and most likely to incur extra handling and transportation costs.

Some possibility that the butterfat value based on the price of butter might be higher than the value based on cream prices has been mentioned. Butter is generally a marginal use for butterfat. Butter is one of the products which the Department offers to buy at a specific price under the price support program. Accordingly, it is appropriate that the butterfat value used in this special pricing for Class II milk be based upon cream or butter, whichever yields the higher value.

The proposed amendment would establish a value for utilization in the lower priced subdivision of Class II, by deducting 20 cents per hundredweight of milk or 5 cents per pound of butterfat, whichever deduction is greater. This method of adjusting to the lower price avoids giving double credit if a handler disposes of milk in nonfat dry milk and butter, and yet allows the 20 cents credit if only the butterfat or only the skim milk is disposed of in the products named in the lower priced subdivision.

Priority for producer milk in the higher priced utilization in Class II, would be maintained by subtracting a handler's receipts from non-producer sources of milk, skim milk, or butterfat, or equivalent of any concentrated product, from the quantity on which the handler's credit in this utilization would otherwise be computed.

It is further concluded that the suitability of the proposed subdivision of Class II, and special pricing thereof, cannot be decided on this record for periods beyond the current period of April, May and June of 1954.

4. *Revision of Class II formula.* Producers and handlers, in their exceptions to the recommended decision, requested that certain changes proposed in the recommended decision for a temporary period, be made permanent provisions of the order. The changes referred to were modifications of the Class II price formula made in the interest of similarity of prices under this order and orders of the Pennsylvania Milk Control Commission. From data in the record it appears such changes would not greatly affect the general level of the resulting Class II prices, and it is concluded that they should be adopted on a continuing basis.

One such change is use of the average of reported cream prices, not including cream with special municipal approval. Omission of lower Merion Township approved cream from this calculation reduces the resulting average cream price. The effect of this change on the Class II price would be offset against some changes in the other direction. Deduction of $2.00 from the average cream price and division of the result by 8.50 would give a deduction of about 23.5 cents per hundredweight of milk, as compared to 26.5 cents in the calculation of the cream value under the current Class II formula. Calculation of the skim milk value by deducting 5 cents per pound from the price of nonfat dry milk, and multiplying by 0.90 and 7.5 would, at current levels of the nonfat dry milk solids price described in the order, result in about the same value for the skim milk portion of the Class II price formula. The butterfat differential provision would be modified to simplify this calculation.

Handlers excepted to adjustments to the Class II price offsetting deductions allowed to handlers at plants 11 miles but less than 31 miles from City Hall in Philadelphia. Such adjustments are not included in the proposed amendment contained herein.

Rulings on exceptions. In arriving at the findings and conclusions included in this decision each of the exceptions received was carefully and fully considered in conjunction with the record evidence pertaining thereto. To the extent that the findings and conclusions herein are at variance with the exceptions, such exceptions are overruled.

General findings. (a) The proposed marketing agreement and the order, as amended, and as hereby proposed to be further amended, and all of the terms and conditions thereof will tend to effectuate the declared policy of the act;

(b) The parity prices of milk as determined pursuant to section 2 of the act are not reasonable in view of the price of feeds, available supplies of feeds and other economic conditions which affect market supply of and demand for milk, in the marketing area and the minimum prices specified in the proposed marketing agreement and the order, as amended, and as hereby proposed to be further amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(c) The proposed marketing agreement and the order, as amended and as hereby proposed to be further amended, will regulate the handling of milk in the same manner as, and are applicable only to persons in the respective classes of industrial and commercial activity specified in the said marketing agreement upon which a hearing has been held.

Determination of representative period. The month of January 1954 is hereby determined to be the representative period for the purpose of ascertaining whether the issuance of the order, amending the order, now in effect, regulating the handling of milk in the Philadelphia, Pennsylvania, marketing area, in the manner set forth in the attached amending order is approved or favored by producers who, during such period, were engaged in the production of milk for sale in the marketing area.

Marketing agreement and order. Annexed hereto and made a part hereof are two documents entitled "Marketing Agreement Regulating the Handling of Milk in the Philadelphia, Pennsylvania, Marketing Area" and "Order Amending the Order, as Amended, Regulating the Handling of Milk in the Philadelphia, Pennsylvania, Marketing Area" which have been decided upon as the appropriate and detailed means of effectuating the foregoing conclusions. These documents shall not become effective unless and until the requirements of § 900.14 of the rules of practice and procedure governing proceedings to formulate marketing agreements and marketing orders have been met.

It is hereby ordered, That all of this decision, except the attached marketing agreement, be published in the FEDERAL REGISTER. The regulatory provisions of said marketing agreement are identical with those contained in the attached order amending the order, as amended, which will be published with the decision.

This decision filed at Washington, D. C., this 29th day of March 1954.

[SEAL] JOHN H. DAVIS,
Assistant Secretary of Agriculture.

Order[1] Amending the Order, as Amended, Regulating the Handling of Milk in the Philadelphia, Pennsylvania, Marketing Area

§ 961.0 *Findings and determinations.* The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order and of each of the previously issued amendments thereto; and all of said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) *Findings upon the basis of the hearing record.* Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, as amended, governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held upon certain proposed amendments to the tentative marketing agreement and to the order, as amended, regulating the handling of milk in the Philadelphia, Pennsylvania, marketing area. Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order, as amended, and as hereby further amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the act;

(2) The parity prices of milk as determined pursuant to section 2 of the act are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply and demand for milk in the marketing area and the minimum prices specified in the said order, as amended, and as hereby further amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

[1] This order shall not become effective unless and until the requirements of § 900.14 of the rules of practice and procedure, as amended, governing proceedings to formulate marketing agreements and orders have been met.

(3) The said order, as amended, and as hereby further amended, regulates the handling of milk in the same manner as and is applicable only to persons in the respective classes of industrial and commercial activity specified in a marketing agreement upon which a hearing has been held.

Order relative to handling. It is therefore ordered that on and after the effective date hereof, the handling of milk in the Philadelphia, Pennsylvania marketing area shall be in conformity to and in compliance with the terms and conditions of the aforesaid order, as amended and as hereby further amended; and the aforesaid order, as amended, is hereby further amended as follows:

1. Delete § 961.40 (b) and substitute the following:

(b) *Class II milk.* The price per hundredweight during each month shall be the sum of the values calculated by the market administrator pursuant to subparagraphs (1) and (2) of this paragraph, except as provided in subparagraph (3) of this paragraph.

(1) *Butterfat.* Add all market quotations (using the mid-point of any weekly range as one quotation) of prices per 40-quart can of fresh sweet cream of bottling quality of 40 percent butterfat content, not including prices for cream carrying special municipal approvals, reported at Philadelphia for each week ending within the month by the United States Department of Agriculture, divide by the number of quotations, subtract $2.00 and divide by 8.50: *Provided,* That such butterfat value shall not be less than 4 times 120 percent of the average of the daily wholesale selling price for Grade A (92-score) butter at New York as reported by the United States Department of Agriculture for the month for which payment is to be made, less 19 cents.

(2) *Skim milk.* From the average of all the prices per pound for nonfat dry milk solids made by the roller process, sold as "other brands" for human consumption in bags or barrels by carlots (using mid-point of any range as one quotation), published during such month in "Producer's Price Current", subtract 5 cents, multiply by 0.90 and multiply by 7.5.

(3) For the months of April, May, and June 1954, in the case of milk, skim milk, or butterfat, dumped, disposed of for animal feed, or manufactured by the handler or others into butter, Cheddar cheese, Baker's or any other cheese except cream or cottage cheese, evaporated milk, milk chocolate, nonfat dry milk solids, soup, candy or bakery products, less any milk, butterfat, or equivalent of concentrated milk product received from a non-producer plant, the value shall be adjusted downward at the rate, applied to the total utilization during the month in such products, of 20 cents per hundredweight of such total quantity, or 5 cents per pound of butterfat in such total quantity, whichever results in the greater aggregate adjustment.

2. In § 961.41 delete paragraph (b) and substitute:

(b) The Class II price shall be subject to a butterfat differential for each one-tenth of one percent variation above or below 4 percent which is the butterfat value computed pursuant to § 961.40 (b) (1) divided by 40.

[F. R. Doc. 54-2368; Filed, Apr. 1, 1954; 8:50 a. m.]

INTERSTATE COMMERCE COMMISSION

[49 CFR Parts 72–74, 77, 78]

[Notice 14; Docket 3666]

EXPLOSIVES AND OTHER DANGEROUS ARTICLES

NOTICE OF PROPOSED RULE MAKING

MARCH 26, 1954.

The Commission is in receipt of applications for early amendment of the above entitled regulations insofar as they apply to shippers in the preparation of articles for transportation, and to all carriers by rail and highway, as published in orders pursuant to section 835, of the Criminal Code and Part II of the Interstate Commerce Act.

Application for these amendment ordinarily would be considered at our next hearing in this docket. It appears, however, that the proposed amendments have been the subject of exchanges and study by interested parties, in which substantial agreement has been reached, and it is proposed that the applications be disposed of by modified procedure. The reasons for the proposed amendments are shown in the appendix, hereof.

Any party desiring to be heard upon any of the proposed amendments shall advise the Commission in writing within 20 days from the date of this notice; otherwise, the Commission may proceed to investigate and determine the matters involved in the application, or may suspend action pending formal hearing in this docket.

[SEAL] GEORGE W. LAIRD,
Secretary.

PART 72—COMMODITY LIST OF EXPLOSIVES AND OTHER DANGEROUS ARTICLES CONTAINING THE SHIPPING NAME OR DESCRIPTION OF ALL ARTICLES SUBJECT TO PARTS 71–78 OF THIS CHAPTER

Amend § 72.5 commodity list (15 F. R. 8265, 8266, 8270, 8273, Dec. 2, 1950) (18 F. R. 3133, June 2, 1953) (19 F. R. 1276, Mar. 6, 1954) (49 CFR 1950 Rev., 1953 Supp., 72.5) as follows:

§ 72.5 *List of explosives and other dangerous articles.* (a) • • •

Article	Classed as—	Exemptions and packaging	Label required if not exempt	Maximum quantity in 1 outside container by rail express
(Change)				
Coal gas. See Hydrocarbon gas, non-liquefied				
Ethyldichlorarsine	Pois. A	No exemption, 73.328	Poison Gas	Not accepted.
Paranitraniline (paranitroaniline), solid	Pois. B	73.364, 73.373	Poison	200 pounds.
Trifluorochloroethylene	F. G	[illegible]	Red Gas	300 pounds.
(Add)				
Methyl methacrylate monomer	F. L	73.118, 73.119	Red	10 gallons.
(Cancel)				
Aluminum scrap [illegible] chips, clippings, shavings, sheets, or turnings	F. S	73.153, 73.229	Yellow	100 pounds.
Xylidene	Pois. B	73.345, 73.346	Poison	55 gallons.

PART 73—SHIPPERS

SUBPART A—PREPARATION OF ARTICLES FOR TRANSPORTATION BY CARRIERS BY RAIL FREIGHT, RAIL EXPRESS, HIGHWAY, OR WATER

1. Amend § 73.25 paragraph (a) (18 F. R. 6776, Oct. 27, 1953) (49 CFR 1950 Rev., 1953 Supp., 73.25) to read as follows:

§ 73.25 *Specification containers in outside containers.* (a) Outside specification shipping containers containing no acids or other corrosive liquids may be shipped when tightly packed in strong outside fiberboard boxes or drums, wooden boxes, barrels or crates, metal barrels or drums, or other enclosures. The outside shipping container must be marked with the prescribed name of contents and labeled as required. Packages required by the regulations in this part to be marked "This Side Up" or "This End Up" must be packed in the outside packing with their filling holes up, and the outside package must be marked "THIS SIDE UP" or "THIS END UP". The outside container must also be marked "INSIDE PACKAGES COMPLY WITH PRESCRIBED SPECIFICATIONS" unless the specification markings on the inside packages are visible through openings in the outside package.

• • • • •

2. Amend § 73.31 paragraph (a) table, and notes 1 and 2 to paragraph (g) (18 F. R. 3134, June 2, 1953) (18 F. R. 6776, Oct. 27, 1953) (49 CFR 1950 Rev., 1953 Supp., 73.31) to read as follows:

§ 73.31 *Qualification, maintenance, and use of tank cars.* (a) • • •

Where these regulations call for specification Nos.—	These specification containers may also be used—
103 [4] [6] and 103W [4] [6]	A. R. A. II [4] [6], III [4] [6], and IV.[4]
103A [4] and 103A-W [4]	A. R. A. II [3] [4] and III [3] [4]
103B [4] and 103B-W [4]	A. R. A. II [3] [4] and III [3] [4] rubber lined.
104 [4] and 104W [4]	A. R. A. IV.[4]
105A300 and 105A300W	A. R. A. V [3] and I. C. C. 105.[3]
106A500 and 106A500X	I. C. C. 27 cylinders mounted on or forming part of a car and classified as multi-unit tank car prior to October 1, 1930.[6]
106A800 and 106A800X	None.
107A	None.
108	Wooden tanks built and authorized prior to July 1, 1927.
109A	Wooden tanks built and authorized prior to July 1, 1927.

(No change in notes.)

• • • • • •

(g) • • •

NOTE 1: Periodic retests of metal tanks, safety valves, and heater systems of tank cars, except as provided in Note 2, except those in chlorine service, and except tanks made to specification 106A500, 106A500X, 106A800, 106A800X, or 107A, (§§ 78.275, 78.276, 78.277 of this chapter) now required to be made as prescribed in paragraph (g) of this section, may be waived because of the present emergency and until December 31, 1954, or until further order of the Commission.

NOTE 2: Periodic retests of metal tanks, safety valves, and heater systems of specification 103A, 103A-W, 103C, 103C-W and 103C-AL, (§§ 78.266, 78.281, 78.268, 78.283 of this chapter) tank cars, now required to be made as prescribed in paragraph (g) of this section, may be made at 5-year intervals up to 10 years of service, thereafter at 3-year intervals up to 22 years of service, and annually after 22 years of service until December 31, 1954, or until further order of the Commission.

• • • • •

3. Amend § 73.33 introductory text of paragraph (g), and paragraph (k) (11) (18 F. R. 6776, 6777, Oct. 27, 1953) (49 CFR 1950 Rev., 1953 Supp., 73.33) to read as follows:

§ 73.33 *Qualification, maintenance, and use of cargo tanks.* • • •

(g) Cargo tanks of the specifications shown in subparagraph (1) of this paragraph, made prior to December 31, 1953, authorized for use under regulations of the Commission effective March 1, 1935, those effective June 15, 1940, or February 1, 1942, may be continued in use as previously authorized until further order of the Commission. Tanks now under construction under specification MC 310 may be so marked.

• • • • •

(k) • • •

(11) Every cargo tank authorized for the transportation of flammable liquids and/or corrosive liquids under specifications MC 300 to MC 303 inclusive, MC 310, or MC 311 (§§ 78.321 to 78.324, 78.330, or 78.331 of this chapter) must be retested as provided in the applicable specification, except that retests not required on tanks equipped with rubber lining but retests must be made before such tanks are relined.

• • • • •

4. Amend § 73.34 paragraph (f) (3), (4), and paragraph (k) (12) (16 F. R. 9373, Sept. 15, 1951) (18 F. R. 6777, Oct. 27, 1953) (49 CFR 1950 Rev., 1953 Supp., 73.34) to read as follows:

§ 73.34 *Qualification, maintenance, and use of cylinders.* • • •

(f) *Safety devices.* • • •

(3) Cylinders containing methyl mercaptan or mono, di, or trimethylamine, anhydrous. Cylinders containing not over 10 pounds of nitrosyl chloride or cylinders containing less than 165 pounds of anhydrous ammonia.

(4) Safety devices are prohibited on cylinders containing fluorine or poisonous gas or liquid as defined in § 73.326 (a).

• • • • •

(k) • • •

(12) Cylinders made in compliance with specifications ICC–4B, ICC–4BA (§§ 78.50, 78.51 of this chapter), ICC–26–240,[1] or ICC–26–300,[1] used exclusively for liquefied petroleum gas which is commercially free from corroding components, may, in lieu of the periodic hydrostatic retest, be given a complete external visual inspection at the time such periodic retest becomes due. When this inspection is used in lieu of hydrostatic retesting, subsequent inspections are required 5 years after the first such inspection and periodically at 5-year intervals thereafter. Inspections shall be made only by competent persons and the results shall be recorded on a suitable data sheet, the completed copies of which shall be kept as a permanent record. The points to be recorded and checked on these data sheets are: Date of inspection (month and year); ICC specification number; cylinder identification (registered symbol and serial number, date of manufacture, and ownership symbol (if needed for adequate identification)); type cylinder protective coating (painted, galvanized, etc. and statement as to need of refinishing or recoating); conditions checked (leakage, corrosion, gouges, dents or digs in shell or heads, broken or damaged footring or protective ring, or fire damage); disposition of cylinders (returned to service, to cylinder manufacturer for repairs, or scrapped); a cylinder which passes the inspection prescribed shall have the date recorded in the manner presently prescribed for the recording of the retest date, except that an "E" is to follow the date (month and year) indicating requalification by the external inspection method.

• • • • •

SUBPART B—EXPLOSIVES; DEFINITIONS AND PREPARATION

1. Amend § 73.65 paragraph (h) (17 F. R. 1559, Feb. 20, 1952) (49 CFR 1950 Rev., 1953 Supp., 73.65) to read as follows:

§ 73.65 *High explosives with no liquid explosive ingredient nor any chlorate.* • • •

(h) Shaped charges, commercial, having exposed lined conical cavities must have such cavities effectively filled; those having conical cavities that are covered shall be paired together with the cavities facing each other and with one or more pairs in a fiber tube, or so arranged that the conical cavities of the shaped charges at the ends of the column face toward the center of the tube. The shaped charges in the fiber tubes must fit snugly with no excess space and the fiber tubes containing the shaped charges must be packed snugly with no excess space in the outside containers. Shaped charges, commercial, must be packed in specification containers as follows:

(1) Spec. 14, 15A, or 16A (§§ 78.165, 78.168, or 78.185 of this chapter). Wooden boxes. Gross weight not to exceed 140 pounds.

(2) Spec. 23F or 23H (§§ 78.214 or 78.219 of this chapter). Fiberboard boxes. Gross weight not to exceed 65 pounds.

(3) Spec. 12B (§ 78.205 of this chapter). Fiberboard boxes which must be manufactured of at least 275-pound strength (Mullen or Cady test) double-wall corrugated fiberboard and shall be provided with double-faced corrugated lining board (see § 78.205–15 of this chapter) having minimum strength (Mullen or Cady test) of 200 pounds. Individual charges of explosives shall be packed in inside securely closed, waterproof plastic containers, or in securely closed waterproof fiberboard containers having metal ends. Gross weight not to exceed 65 pounds. Inside individual containers shall be separated by means of double-faced corrugated fiberboard partitions of material not less than 175-pound Mullen or Cady test.

• • • • •

2. Amend § 73.66 paragraphs (d) (1) and (e) (1); cancel Note 1 to paragraphs (d) (1) and (e) (1) (15 F. R. 8290, Dec. 2, 1950) (49 CFR 73.66, 1950 Rev.) to read as follows:

§ 73.66 *Blasting caps and electric blasting caps.* • • •

(d) • • •

(1) Spec. 14, 15A, or 16A (§§ 78.165, 78.168, or 78.185 of this chapter). Wooden boxes (see § 73.67 (a) (1) Note 1) or spec. 23F or 23H (§§ 78.214 or 78.219 of this chapter) fiberboard boxes, with inside containers which must be cartons or wrappings with inside containers as prescribed in paragraph (c) of this section, which must be separated from the outside box by at least one inch of tightly packed sawdust, excelsior, or equivalent cushioning material. Gross weight not to exceed 150 pounds.

Note 1: [Canceled.]

(e) • • •

(1) Spec. 14, 15A, or 16A (§§ 78.165, 78.168, or 78.185 of this chapter). Wooden boxes (see § 73.67 (a) (1) Note 1) or spec. 23F or 23H (§§ 78.214 or 78.219 of this chapter) fiberboard boxes, with inside containers which must be cartons or wrappings with inner containers as prescribed in paragraph (c) of this section, packed in an inside box made of sound lumber or a hermetically sealed metal box of metal not less than 30 gauge United States standard. The inside wooden or metal box must be separated at all points from the outside box by at least one inch of tightly packed sawdust, excelsior, or equivalent cushioning material. Gross weight not to exceed 150 pounds.

Note 1: [Canceled.]

• • • • •

3. Amend § 73.67 paragraph (a) (1); cancel Note 2 to paragraph (a) (1) (15 F. R. 8290, Dec. 2, 1950) (17 F. R. 1560, Feb. 20, 1952) (49 CFR 1950 Rev., 1953 Supp., 73.67) to read as follows:

§ 73.67 *Blasting caps with safety fuse.* (a) • • •

(1) Spec. 14, 15A, or 16A (§§ 78.165, 78.168, or 78.185 of this chapter). Wooden boxes (see Note 1 of this paragraph) or spec. 23F or 23H (§ 78.214 or 78.219 of this chapter) fiberboard boxes, with inside containers which must be cartons or wrappings with inner containers as prescribed in § 73.66 (c), placed in the center of a coil of fuse and secured and cushioned therein to prevent movement therefrom. Gross weight not to exceed 150 pounds.

(No change in Note 1)

Note 2: [Canceled.]

• • • • •

4. Amend § 73.100 paragraph (q) (15 F. R. 8236, Dec. 2, 1950) (49 CFR 73.100, 1950 Rev.) to read as follows:

§ 73.100 *Definitions of class C explosives.* • • •

(q) Explosive rivets, each containing not more than 375 milligrams of explosive composition, are exempt from specification packaging and labeling requirements when packed in pasteboard or other inside boxes in securely closed strong wooden boxes, fiberboard boxes or metal containers. Each outside container must be marked "EXPLOSIVE RIVETS". No other restrictions apply in this part.

• • • • •

5. Add paragraph (a) (2) to § 73.143 (18 F. R. 5272, Sept. 1, 1953) (49 CFR 1950 Rev., 1953 Supp., 73.143) to read as follows:

§ 73.143 *Methylchloromethyl ether, anhydrous.* (a) • • •

(2) Spec. 15A, 15B, 15C, 16A, or 19A (§§ 78.168, 78.169, 78.170, 78.185, or 78.190 of this chapter). Wooden boxes with inside containers which must be glass or earthenware, not over 1 gallon capacity each, except that inside containers up to 3 gallons each are authorized when only one inside container is packed in each outside container.

• • • • •

SUBPART D—FLAMMABLE SOLIDS AND OXIDIZING MATERIALS; DEFINITION AND PREPARATION

1. Amend § 73.153 paragraph (b) (19 F. R. 1277, Mar. 6, 1954) (49 CFR 73.153, 1950 Rev.) to read as follows:

§ 73.153 *Exemptions for flammable solids and oxidizing materials.* • • •

(b) Liquid or solid organic peroxides, (see § 73.244 (a)), except acetyl benzoyl peroxide, solid, and benzoyl peroxide in strong outside containers having not over 1 pint or 1 pound net weight of the material in any one such package, having inside containers securely packed and cushioned with incombustible cushioning, are exempt from specification packaging, marking, and labeling requirements, unless otherwise provided, for transportation by rail freight, rail express, or highway. When for transportation by carrier by water they are exempt from specification packaging, marking other than name of contents, and labeling requirements.

• • • • •

2. Amend § 73.182 introductory text of paragraph (a) and introductory text of paragraph (b) (19 F. R. 1277, Mar. 6, 1954) (49 CFR 73.182, 1950 Rev.) to read as follows:

§ 73.182 *Nitrates.* (a) Aluminum nitrate, ammonium nitrate, ammonium nitrate fertilizer, ammonium nitrate, limestone, barium nitrate, calcium ammonium nitrate, calcium nitrate, guanidine nitrate, lead nitrate, magnesium nitrate, nitrates, n. o. s., nitrate fertilizer mixture,[1] nitrate of soda and potash, nitro carbo nitrate, potassium nitrate, silver nitrate, and sodium nitrate, when offered for transportation by rail freight, rail express, highway, or carriers by water shall be packed in containers as follows:

• • • • • •

(b) Aluminum nitrate, ammonium nitrate, ammonium nitrate fertilizer, ammonium nitrate limestone, barium nitrate, calcium ammonium nitrate, calcium nitrate, guanidine nitrate, nitrate fertilizer mixture,[1] nitrate of soda and potash, potassium nitrate, and sodium nitrate, when offered for transportation by rail freight, rail express, highway, or carriers by water, in addition to containers prescribed in paragraph (a) of this section, may be packed as follows:

• • • • •

3. Amend entire § 73.220 (17 F. R. 7281, Aug. 9, 1952) (49 CFR 1950 Rev., 1953 Supp., 73.220) to read as follows:

§ 73.220 *Magnesium scrap (borings, chunks, clippings, shavings, sheets, or turnings).* (a) Magnesium scrap consisting of borings, shavings, or turnings, when shipped in carloads or truckloads, must be packed in closed metal barrels, wooden barrels, metal pails, or four-ply paper bags. In less-than-carload or less-than-truckload quantities it must be packed in closed metal drums, metal pails, or wooden barrels.

(b) Magnesium scrap consisting of chunks, clippings, or sheets may be shipped in bulk in carload or truckload quantities. Cars must be tight box cars or tightly closed steel covered gondola cars and trucks or trailers must have closed or completely covered bodies.

(c) Magnesium scrap consisting of chunks, clippings, or sheets in closed metal drums, wooden barrels, or wooden boxes is exempt from specification packaging, marking, or labeling requirements.

SUBPART E—ACIDS AND OTHER CORROSIVE LIQUIDS; DEFINITION AND PREPARATION

1. Amend § 73.247 paragraph (a) (6) and add paragraph (a) (14) (16 F. R. 9375, Sept. 15, 1951) (15 F. R. 8314, Dec. 2, 1950) (49 CFR 1950 Rev., 1953 Supp., 73.247) to read as follows:

§ 73.247 *Acetyl chloride, antimony pentachloride, benzoyl chloride, benzyl chloride, pyro sulfuryl chloride, silicon chloride, sulfur chloride (mono and di), sulfuryl chloride, thionyl chloride, tin tetrachloride (anhydrous), and titanium tetrachloride.* (a) • • •

(6) Spec. 103A, 103A–W, 105A300, or 105A300W (§§ 78.266, 78.281, 78.271, or 78.286 of this chapter). Tank cars, except that for tin tetrachloride (anhydrous) spec. 105A300 or 105A300W tank cars must be used. Benzyl chloride must be stabilized when loaded in unlined tanks.

• • • • •

(14) Spec. 1F or 1G (§§ 78.10 or 78.11 of this chapter). Polyethylene carboys in plywood boxes or drums, or wooden boxes. Authorized for benzoyl chloride and benzyl chloride only.

2. Amend § 73.257 entire paragraph (b) (18 F. R. 803, Feb. 7, 1953) (49 CFR 1950 Rev., 1953 Supp., 73.257) to read as follows:

§ 73.257 *Electrolyte (acid) or corrosive battery fluid.* • • •

(b) Shipments of electrolyte (acid) or corrosive battery fluid with vehicles offered for transportation by, for, or to the Departments of the Army, Navy, or Air Force of the United States Government are exempt from Parts 71–78 of this chapter when packed as follows:

(1) In one inside glass bottle of not over 1 gallon capacity, tightly and securely closed, packed in a strong outside container and cushioned therein on all sides with incombustible absorbent material in sufficient quantity to completely absorb liquid contents in event of breakage. Outside container must be so blocked, braced or stayed within the vehicle that it cannot change position during transit.

3. Amend § 73.260 paragraph (a) (3), (4), and entire paragraph (b) (15 F. R. 8315, 8316, Dec. 2, 1950) (49 CFR 73.260, 1950 Rev.) to read as follows:

§ 73 260 *Electric storage batteries.* (a) • • •

(3) Electric storage batteries with case of asphaltum composition, impregnated rubber, steel case type, synthetic resin (plastic), or wooden battery box type, protected against short circuits and firmly secured to skids or pallets capable of withstanding the shocks normally incident to transportation, are exempt from specification packing requirements for transportation by rail freight, highway, or water. Not more than one layer of batteries may be loaded on a skid or pallet. The height of the completed unit must not exceed $1\frac{1}{2}$ times the width of the skid or pallet. The unit must weigh not less than 300 pounds gross and must not fail under a superimposed weight equal to two times the weight of the unit or a superimposed weight of 4,000 pounds if the weight of the unit exceeds 2,000 pounds. Battery terminals must not be relied upon to support any part of the superimposed weight.

(4) Electric storage batteries weighing 500 pounds or more, with case of asphaltum composition, impregnated rubber, steel case type, synthetic resin (plastic), or wooden battery box type, consisting of carriers' equipment may be shipped by rail freight when mounted on suitable skids and protected against

short circuits. Such shipments must not be offered in interchange.

(b) Electric storage batteries with case of asphaltum composition impregnated rubber, steel case type, synthetic resin (plastic), or wooden battery box type; packing authorized as follows:

(1) One to three batteries not over 25 pounds each in outside box, gross weight not over 75 pounds; specification container not required.

• • • • • •

4. Amend § 73.272 paragraph (h) (2) (18 F. R. 6779, Oct. 27, 1953) (49 CFR 1950 Rev., 1953 Supp., 73.272) to read as follows:

§ 73.272 *Sulfuric acid.* • • •

(h) • • •

(2) Spec. MC 310 and MC 311 (§§ 78.330 and 78.331 of this chapter). Tank motor vehicles.

• • • • • •

Kind of gas	Maximum permitted filling density, Note 1	Required type of tank car, Note 2
	Percent.	
Chlorine	125	ICC–106A500, 106A500X, Note 12
	125	ICC–105A300, 105A300W, Notes 8 and 18.

• • • • • • • • •

NOTE 11: Before an ICC–105A500, ICC–105A500–W, ICC–105A600 or ICC–105A600–W tank car may be used for the transportation of liquefied carbon dioxide, the following requirements must be met: Tank must be lagged with an approved insulation material of a thickness so that the thermal conductance is not more than 0.03 B. t. u. per square foot per degree F. differential in temperature per hour; except that the insulation thickness directly over the center sills may be reduced to give a thermal conductance not exceeding 0.04 B. t. u. per square foot, per degree F. differential in temperature per hour; this reduction is to permit an anchorage which must not exceed seven (7) inches from top of center sills to bottom of tank. Tank must be equipped with one safety valve of approved design set to open at a pressure not exceeding three-fourths of the test pressure of the tank and one frangible disc device of approved design set to function at a pressure less than the test pressure of the tank. The discharge capacity of each of these safety devices must be sufficient to prevent building up of pressure in tank in excess of three-fourths of the test pressure of the tank. Tank must be equipped with two (2) pressure-regulating valves of approved design, one set to open at three-fifths of the test pressure of the tank and one set to open at two-thirds of the test pressure of the tank. Each regulating valve and safety device must have its final discharge piped to the outside of the protective housing.

• • • • • •

NOTE 18: The maximum quantity of liquefied chlorine gas loaded into tanks mounted on one car structure must not exceed 60,000 pounds. *Provided*, That for single-unit tank car tanks having water weight capacities not less than 86,240 pounds nor over 90,640 pounds, lagged with 4 inches of corkboard, equipped with one or more safety valves set to open at a pressure of 225 pounds per square inch, the total discharge capacity of which must be sufficient to prevent building up of pressure in the tank in excess of 225 pounds per square inch, tank jackets stenciled ICC–105A300 or ICC–105A300W (§§ 78.271 or 78.286 of this chapter) and in all other respects constructed and maintained in full compliance with I. C. C. shipping container specification 105A500 or 105A500W (§§ 78.273 or 78.288 of this chapter), respectively, the quantity of gas loaded into such tanks must be not more than 110,000 pounds nor less than 107,800 pounds.

• • • • • •

(g) [Canceled.]

7. In § 73.315 add the entries "Methyl chloride" and "Methyl chloride (optional portable tank 2,000 pounds water capacity, fusible plug)" to paragraph (a) (1) table; amend the entry "Carbon dioxide" and add the entry "Methyl chloride" in paragraph (h) table and paragraph (i) (2) table; amend Note 1 to paragraph (i) (9) (18 F. R. 6779, 6780, Oct. 27, 1953) (17 F. R. 9839, Nov. 1, 1952) (15 F. R. 8331, Dec. 2, 1950) (49 CFR 1950 Rev., 1953 Supp., 73.315) to read as follows:

§ 73.315 *Compressed gases in cargo tanks and portable tank containers.*

(a) • • •

(1) • • •

Kind of gas	Maximum permitted filling density		Specification container required	
	Percent by weight (see Note 1)	Percent by volume (see par. (f) of this section)	Type (see Note 2)	Minimum design working pressure (psig)
Methyl chloride	84	88.5	ICC–51, MC–330	150.
Methyl chloride (optional portable tank 2,000 pounds water capacity, fusible plug).	84	See Note 6	ICC–51	225.

• • • • • • •

(h) • • •

Kind of gas	Permitted gauging device
Carbon dioxide, liquefied	Rotary tube; adjustable slip tube; fixed length dip tube.
Methyl chloride	Fixed length dip tube.

• • • • • •

(i) • • •

(2) • • •

Kind of gas	Minimum start-to-discharge pressure (psig)
Carbon dioxide, liquefied	See paragraph (j) (1) of this section.
Methyl chloride	150.

• • • • • •

(9) • • •

NOTE 1: The maximum operating pressure in the tank may be regulated by the use of one or more pressure controlling devices, which devices shall not be in lieu of the safety relief valve required in paragraph (i) of this section.

• • • • • •

SUBPART C—POISONOUS ARTICLES; DEFINITION AND PREPARATION

1. Amend § 73.346 paragraph (a) (13) (15 F. R. 8334, Dec. 2, 1950) (49 CFR 73.346, 1950 Rev.) to read as follows:

§ 73.346 *Poisonous liquids not specifically provided for.* (a) • • •

(13) Spec. 1A, 1D, or 1E (§§ 78.1, 78.4, or 78.7 of this chapter). Glass carboys in wooden boxes or plywood drums.

2. Amend § 73.367 paragraph (a) (2) (15 F. R. 8337, Dec. 2, 1950) (49 CFR 73.367, 1950 Rev.) to read as follows:

§ 73.367 *Arsenical compounds n. o. s., arsenate of lead, calcium arsenate, Paris green, and arsenical mixtures.* (a) • • •

(2) Spec. 36A or 36B (§§ 78.230 or 78.233 of this chapter). Triplex bags. Authorized only for arsenical insecticides and fungicides containing 10.0 percent or less of arsenic trioxide.

• • • • • •

PART 74—CARRIERS BY RAIL FREIGHT

SUBPART A—LOADING, UNLOADING, PLACARDING AND HANDLING CARS; LOADING PACKAGES INTO CARS

Add paragraph (c) to § 74.533 (18 F. R. 3138, June 2, 1953) (49 CFR 1950 Rev., 1953 Supp., 74.533) to read as follows:

§ 74.533 *Truck bodies or trailers on flat cars.* • • •

(c) A truck body or trailer on which is mounted any cargo tank containing any dangerous article shall not be accepted for transportation or transported except under conditions approved by the Bureau of Explosives.

SUBPART E—LOADING AND STORAGE CHART OF EXPLOSIVES AND OTHER DANGEROUS ARTICLES

In § 74.538 paragraph (a) Chart, amend Item 2 vertical and horizontal columns (17 F. R. 1563, Feb. 20, 1952) (49 CFR 1950 Rev., 1953 Supp., 74.538) to read as follows :

§ 74.538 *Loading and storage chart of explosives and other dangerous articles.*

(a) • • •

"2" Propellant explosives, jet thrust units (jato), class B, or igniters, jet thrust

• • • • • •

SUBPART D—UNLOADING FROM CARS

1. Amend § 74.560 paragraph (b) (2) (18 F. R. 3138, June 2, 1953) (49 CFR 1950 Rev., 1953 Supp., 74.560) to read as follows:

§ 74.560 *Tank car delivery.* • • •

(b) • • •

(2) Any tank car of other than ICC–106A or 110A type (see §§ 78.275, 78.276, or 78.293 of this chapter), containing anhydrous ammonia, liquefied hydrocarbon or liquefied petroleum gas, and having interior pipes of liquid and gas discharge valves equipped with check valves, may be delivered and unloaded on carrier tracks, if the lading is piped directly from the car to permanent storage tanks of sufficient capacity to receive the entire contents of the car. Such cars may also be stored on a private track or on a carrier track when designated by the carrier for such storage.

• • • • •

(No change in Notes 1 and 2.)

2. Amend § 74.566 paragraph (a) (15 F. R. 8353, Dec. 2, 1950) (49 CFR 74.566, 1950 Rev.) to read as follows:

§ 74.566 *Cleaning cars.* (a) Cars which have contained arsenic, arsenate of lead, sodium arsenate, calcium arsenate, Paris green, calcium cyanide, potassium cyanide, sodium cyanide, or other poisonous articles, which show any evidence of leakage from packages, must be thoroughly cleaned after unloading before cars are again placed in service.

• • • • • •

SUBPART E—HANDLING BY CARRIERS BY RAIL FREIGHT

Amend entire § 74.579 (15 F. R. 8354, Dec. 2, 1950) (49 CFR 74.579, 1950 Rev.) to read as follows:

§ 74.579 *Cars containing lading which has been fumigated or treated with flammable liquid, flammable gases, poisonous liquids or solids, or poisonous gases.* (a) Delivery to carrier or transportation of cars containing lading fumigated or treated with flammable liquid or flammable gas is prohibited until 48 hours have elapsed after such fumigation or treatment, or until car has been ventilated so as to remove danger of fire or explosion due to the presence of flammable vapors.

(b) Cars containing lading which has been fumigated or treated with poisonous liquid, solid, or gas, such as carbolic acid, liquid or solid, chlorpicrin, hydrocyanic acid, methyl bromide, etc., must be placarded on each door or near thereto with placard reading as follows (for cleaning cars, see § 74.566):

(Reduced size)

(Red lettering on white cardboard)

10 inches × 8 inches

DANGER

The lading of this car has been FUMIGATED or TREATED with

(Name of poisonous liquid, solid, or gas)

BEFORE UNLOADING, open both doors and DO NOT ENTER until car is free of gas. REMOVE ALL POISONOUS MATERIALS before release of empty car.

PART 77—SHIPMENTS MADE BY WAY OF COMMON, CONTRACT, OR PRIVATE CARRIERS BY PUBLIC HIGHWAY

SUBPART C—LOADING AND STORAGE CHART OF EXPLOSIVES AND OTHER DANGEROUS ARTICLES

1. In § 77.848 paragraph (a) Chart, amend Item 2 vertical and horizontal columns (17 F. R. 1564, Feb. 20, 1952) (49 CFR 1950 Rev., 1953 Supp., 77.848) to read as follows:

§ 77.848 *Loading and storage chart of explosives and other dangerous articles.*

(a) • • •

"2" Propellant explosives, jet thrust units (jato), class B, or igniters, jet thrust.

• • • • • •

PART 78—SHIPPING CONTAINER SPECIFICATIONS

SUBPART C—SPECIFICATIONS FOR CYLINDERS

1. Amend § 78.36–3 paragraph (a) (15 F. R. 8381, Dec. 2, 1950) (49 CFR 78.36–3, 1950 Rev.) to read as follows:

§ 78.36 *Specification 3A; seamless steel cylinders.*

• • • • • •

§ 78.36–3 *Inspection by whom and where.* (a) By competent and disinterested inspector acceptable to the Bureau of Explosives; chemical analyses and tests, as specified, to be made within limits of the United States.

2. Amend § 78.37–3 paragraph (a) (15 F. R. 8384, Dec. 2, 1950) (49 CFR 78.37–3, 1950 Rev.) to read as follows:

§ 78.37 *Specification 3AA; seamless steel cylinders, made of definitely prescribed steels.*

• • • • • •

§ 78.37–3 *Inspection by whom and where.* (a) By competent and disinterested inspector acceptable to the Bureau of Explosives; chemical analyses and tests, as specified, to be made within limits of the United States.

3. Amend § 78.41–3 paragraph (a) (15 F. R. 8393, Dec. 2, 1950) (49 CFR 78.41–3, 1950 Rev.) to read as follows:

§ 78.41 *Specification 3D; seamless steel cylinders.*

• • • • • •

§ 78.41–3 *Inspection by whom and where.* (a) By competent and disinterested inspector acceptable to the Bureau of Explosives; chemical analyses and tests, as specified, to be made within limits of the United States.

4. Amend § 78.43–3 paragraph (a) (15 F. R. 8397, Dec. 2, 1950) (49 CFR 78.43–3, 1950 Rev.) to read as follows:

§ 78.43 *Specification 3A480X; seamless steel cylinders.*

• • • • • •

§ 78.43–3 *Inspection by whom and where.* (a) By competent and disinterested inspector acceptable to the Bureau of Explosives; chemical analyses and tests, as specified, to be made within limits of the United States.

5. Amend § 78.48–3 paragraph (a) (15 F. R. 8399, Dec. 2, 1950) (49 CFR 78.48–3, 1950 Rev.) to read as follows:

§ 78.48 *Specification 4; forge welded steel cylinders.*

• • • • • •

§ 78.48–3 *Inspection by whom and where.* (a) By competent and disinterested inspector acceptable to the Bureau of Explosives; chemical analyses and tests, as specified, to be made within limits of the United States.

6. Amend § 78.49–3 paragraph (a) (15 F. R. 8401, Dec. 2, 1950) (49 CFR 78.49–3, 1950 Rev.) to read as follows:

§ 78.49 *Specification 4A; forge welded steel cylinders.*

• • • • • •

§ 78.49–3 *Inspection by whom and where.* (a) By competent and disinterested inspector acceptable to the Bureau of Explosives; chemical analyses and tests, as specified, to be made within limits of the United States.

7. Amend § 78.54–3 paragraph (a) (15 F. R. 8414, Dec. 2, 1950) (49 CFR 78.54–3, 1950 Rev.) to read as follows:

§ 78.54 *Specification 4B240–FLW; welded or welded and brazed cylinders with fusion-welded longitudinal seam.*

• • • • • •

§ 78.54–3 *Inspection by whom and where.* (a) By competent and disinterested inspector acceptable to the Bureau of Explosives; chemical analyses and tests, as specified, to be made within limits of the United States.

SUBPART D—SPECIFICATIONS FOR METAL BARRELS, DRUMS, KEGS, CASES, TRUNKS AND BOXES

1. Amend § 78.92–14 (15 F. R. 8442, Dec. 2, 1950) (49 CFR 78.92–14, 1950 Rev.) to read as follows:

§ 78.92 *Specification 5P; lagged steel drums.*

• • • • • •

§ 78.92–14 *Leakage test.* (a) Each container shall be subjected to a pressure test of at least 125 pounds per square inch sustained for at least 30 seconds. Test shall be applied to inner container before lagging material or outer shell is assembled. Failures shall be rejected or repaired and retested.

NOTE 1: If air or other gas is the pressurizing medium, the test should be conducted in a pit or equivalent means of safeguarding personnel.

(b) Subsequent to the test specified in paragraph (a) each container shall be tested with seams under water or covered with soapsuds or other suitable material by interior air pressure of at least 75 pounds per square inch. Leakage test shall be applied to finished inner container before lagging or outer shell is assembled. Leakers shall be rejected or repaired and retested.

SUBPART F—SPECIFICATIONS FOR FIBERBOARD BOXES, DRUMS, AND MAILING TUBES

1. Amend § 78.205–9 introductory text of paragraph (a) (15 F. R. 8475, Dec. 2, 1950) (49 CFR 78.205–9, 1950 Rev.) to read as follows:

§ 78.205 *Specification 12B; fiberboard boxes.*

• • • • • •

§ 78.205–9 *Types authorized.* (a) To be of solid or corrugated fiberboard of the following types, or as specifically provided for in §§ 78.205–19 to 78.205–29.

• • • • • •

2. Add paragraph (c) to § 78.214–6; amend § 78.214–15 paragraph (a); add paragraphs (d) and (e) to § 78.214–16 (15 F. R. 8479, 8480, Dec. 2, 1950) (16 F. R. 9381, Sept. 15, 1951) (49 CFR 1950 Rev., 1953 Supp., 78.214–6, 78.214–15, 78.214–16) to read as follows:

§ 78.214 *Specification 23F; fiberboard boxes.*

• • • • • •

§ 78.214–6 *Tape.* • • •

(c) Pressure sensitive tape for closure, paper backed. The basic weight of the paper shall be not less than 70 pounds per ream after sizing and coating. Longitudinal tensile strength shall be not less than 50 pounds per inch of width and the latitudinal strength shall be not less than 11 pounds per inch of width, or for application as provided by § 78.214–16 (d) tape must be pressure sensitive, filament reinforced. Tape backing shall have a minimum longitudinal tensile strength of 160 pounds per inch of width and a minimum elongation of 12 percent at break. The tape shall have sufficient transverse strength to prevent raveling or separation of the filaments. Tape shall have an adhesion of 18 ounces per inch of width minimum when tested according to acceptable methods. Tape shall adhere immediately and firmly to fiberboard surface when applied with hand pressure in the temperature range of 0° to 120° F. No solvent or heat shall be necessary to activate the adhesive.

(1) The tape authorized must be manufactured of material which will not separate or delaminate when submerged in water for 72 hours and which will not show any delamination or bleeding up to 160° F. and which will not lose its strength, delaminate, or become brittle at 0° F.

(2) Water activated tapes are authorized when approved by the Bureau of Explosives.

§ 78.214–15 *Authorized gross weight (when packed) and parts required.* (a) Box to be of solid fiberboard, special waterproofed, at least 300-pound test, and weighing at least 250 pounds per thousand square feet. Tubes to be of solid or corrugated fiberboard at least 200-pound test and of 1-piece, or as provided in subparagraph (1), with adjoining edges stitched, taped, or glued. Glued lap not less than 1¼ inches; others 1½ inches. Lap must be firmly glued throughout entire area of contact with glue or adhesive which cannot be dissolved in water after the film application has dried.

(1) Or, box shall have one tube liner of 0.120" solid fiberboard with joint or joints either stitched or glued as prescribed in paragraph (a). One end of the tube made have a handhole approximately ¾ inch deep located at the center of the top and a perforation with a minimum of ⅛ inch cuts and ⅛ inch webs extending from the handhole to the bottom.

• • • • • •

§ 78.214–16 *Closing for shipment.* • • •

(d) Or, for end opening type boxes, the container may be closed by use of pressure sensitive tape as specified in § 78.214–6 (c). When closed by this method, single strips of tape, not less than ½ inch wide, shall be applied as follows:

(1) For boxes less than 18 inches wide, 2 strips placed at right angles to the seam formed by overlapping outer flaps and not less than 3 inches from and parallel to the side score lines, each of which shall extend over the seam not less than 3 inches in each direction.

(2) For boxes more than 18 inches wide, a third strip of tape, shall be applied at the center of the seam.

(e) Tape used in closing must be at least equal in efficiency to that used on boxes passing the drum test prescribed in § 78.214–20.

SUBPART I—SPECIFICATIONS FOR TANK CARS

1. Amend § 78 265 paragraph ICC–14 (d) (15 F. R. 8489, Dec. 2, 1950) (49 CFR 78.265, 1950 Rev.) to read as follows:

§ 78.265 *Specification for tank cars having riveted steel tanks Class ICC–103.* • • •

ICC-14. *Safety valves.* • • •

ICC–14. (d) Tanks used for the transportation of corrosive liquids, flammable solids, oxidizing materials or poisonous liquids or solids, Class B, need not be equipped with safety valves, but if not so equipped must have one safety vent made of approved material at least 1¾ inches inside diameter closed with a frangible disc of suitable material, of a thickness that will hold a pressure of 30 pounds per square inch for a period of at least one hour but will rupture within eight hours. Means for holding disc in place must be such as to prevent distortion or damage to disc when applied. Safety vent closure must be chained or otherwise fastened to prevent misplacement. An additional sealed vent of approved design, to prevent use of unloading pressures in excess of 45 pounds per square inch may be applied. All tanks equipped with vents must be stenciled "Not for Flammable Liquids".

2. Amend § 78.266 paragraph ICC–14 (d) and paragraph ICC–19 (a) (15 F. R. 8491, Dec. 2, 1950) (49 CFR 78.266, 1950 Rev.) to read as follows:

§ 78.266 *Specification for tank cars having riveted steel tanks, Class ICC–103A.* • • •

ICC–14. *Safety vents.* • • •

ICC–14. (d) Each tank or compartment thereof must be equipped with one safety vent at least 1¾ inches inside diameter, closed with a frangible disc of lead or other suitable material of a thickness that will hold a pressure of 30 pounds per square inch for a period of at least one hour but will rupture within eight hours. Means for holding disc in place must be such as to prevent distortion or damage to disc when applied. Safety vent closure must be chained or otherwise fastened to prevent misplacement. An additional sealed vent of approved design, to prevent use of unloading pressures in excess of 45 pounds per square inch, may be applied

ICC–19. *Retests of tanks and interior heater systems.* (a) Tanks and interior heater systems must be retested as prescribed for original tests in paragraph ICC–17, except that a commodity for which the tank is approved may be used for filling the tank and dome when testing tanks which have been in service not more than 10 years. The first retest of tank and interior heater system must be conducted within five years after the original test, and subsequent retests at five-year intervals up to 10 years of service, thereafter at three-year intervals up to 22 years of service, and annually after 22 years of service. Tanks in service over 10 years must be internally inspected when periodic retests are made. Interior heater systems must be tested with water only and inspected for defects which would make leakage or failure probable during transit. Tanks must also be retested before being returned to service after riveting, calking or other repairs. Interior heater systems must be retested after repairs. Reports must be rendered as prescribed in paragraph ICC–21.

3. Amend § 78.267 paragraph ICC–19 (a) (15 F. R. 8492, Dec. 2, 1950) (49 CFR 78.267, 1950 Rev.) to read as follows:

§ 78.267 *Specification for tank cars having rubber lined riveted steel tanks Class ICC–103B.* • • •

ICC–19. *Retests of tanks and interior heater systems.* (a) Periodic retests of tanks are not required. Tanks must be retested before rubber lining is renewed. The first retest of interior heater systems must be conducted within five years after the original test and subsequent retests at five-year intervals up to 10 years of service, thereafter at three-year intervals up to 22 years of service, and annually after 22 years of service. Interior heater systems must be tested with water only and inspected for defects which would make leakage or failure probable during transit. Tanks must also be retested before being returned to service after any repairs requiring riveting or calking of rivets. Interior heater systems must be retested after repairs. Reports must be rendered as prescribed in paragraph ICC–21.

4. Amend § 78.268 paragraph ICC–19 (a) (15 F. R. 8493, Dec. 2, 1950) (49 CFR 78.268, 1950 Rev.) to read as follows:

§ 78.268 *Specification for tank cars having riveted alloy steel tanks Class ICC–103C.* • • •

ICC–19. *Retests of tanks and safety valves.* (a) Tanks and safety valves must be retested as prescribed for original tests in paragraphs ICC–17 and ICC–18, except that a commodity for which the tank is approved may be used for filling tank and dome when testing tanks which have been in service not more than 10 years. The first retest must be conducted within five years after the original test and subsequent retests at five-year intervals up to 10 years of service, thereafter at three-year intervals up to 22 years of service, and annually after 22 years of service. Tanks in service over 10 years must be internally inspected for defects which would make leakage or failure probable during transit. Tanks must also be retested before being returned to service after any repairs requiring welding, riveting, or calking of rivets. Interior heater systems must be retested after repairs. Reports must be rendered as prescribed in paragraph ICC–21.

5. Amend § 78.280 paragraph ICC–14 (d) (15 F. R. 8507, 8509, Dec. 2, 1950) (49 CFR 78.280, 1950 Rev.) to read as follows:

§ 78.280 *Specification for tank cars having fusion-welded steel tanks Class ICC–103–W.* • • •

ICC–14. *Safety valves.* • • •

ICC–14. (d) Tanks used for the transportation of corrosive liquids, flammable solids, oxidizing materials or poisonous liquids or solids, Class B, need not be equipped with safety valves, but if not so equipped must have one safety vent made of approved material at least 1¾ inches inside diameter closed with a frangible disc of suitable material, of a thickness that will hold a pressure of 30 pounds per square inch for a period of at least one hour but will rupture within eight hours. Means for holding disc in place must be such as to prevent distortion or damage to disc when applied. Safety vent closure must be chained or otherwise fastened to prevent misplacement. An additional sealed vent of approved design, to prevent use of unloading pressures in excess of 45 pounds per square inch may be applied. All tanks equipped with vents must be stenciled "Not for Flammable Liquids".

6. Amend § 78.281 paragraph ICC–14 (d) and paragraph ICC–19 (a) (15 F. R. 8510, Dec. 2, 1950) (49 CFR 78.281, 1950 Rev.) to read as follows:

§ 78.281 *Specification for tank cars having fusion-welded steel tanks, class ICC–103A–W.* • • •

ICC-14. *Safety vents.* • • •

ICC–14. (a) Each tank or compartment thereof must be equipped with one safety vent at least 1¾ inches inside diameter, closed with a frangible disc of lead or other suitable material of a thickness that will hold a pressure of 30 pounds per square inch for a period of at least one hour but will rupture within eight hours. Means for holding disc in place must be such as to prevent distortion or damage to disc when applied. Safety vent closure must be chained or otherwise fastened to prevent misplacement. An additional sealed vent of approved design, to prevent use of unloading pressures in excess of 45 pounds per square inch, may be applied.

ICC–19. *Retests of tanks and interior heater systems.* (a) Tanks and interior heater systems must be retested as prescribed for original tests in paragraph ICC–17, except that a commodity for which the tank is approved may be used for filling the tank and dome when testing tanks which have been in service not more than 10 years. The first retest of tank and interior heater system must be conducted within five years after the original test, and subsequent retests at five-year intervals up to 10 years of service, thereafter at three-year intervals up to 22 years of service, and annually after 22 years of service. Tanks in service over 10 years must be internally inspected when periodic retests are made. Interior heater systems must be tested with water only and inspected for defects which would make leakage or failure probable during transit. Tanks must also be retested before being returned to service after any repairs requiring welding, riveting, or calking of rivets. Interior heater systems must be retested after repairs. Reports must be rendered as prescribed in paragraph ICC–21.

7. Amend § 78.282 paragraph ICC–19 (a) (15 F. R. 8511, Dec. 2, 1950) (49 CFR 78.282, 1950 Rev.) to read as follows:

§ 78.282 *Specification for tank cars having rubber-lined fusion-welded steel tanks, class ICC–103B–W.* • • •

ICC–19. *Retests of tanks and interior heater systems.* (a) Periodic retests of tanks are not required. Tanks must be retested before rubber lining is renewed. The first retest of interior heater systems must be conducted within five years after the original test and subsequent retests at five-year intervals up to 10 years of service, thereafter at three-year intervals up to 22 years of service, and annually after 22 years of service. Interior heater systems must be tested with water only and inspected for defects which would make leakage or failure probable during transit. Tanks must also be retested before being returned to service after any repairs requiring welding, riveting or calking of rivets. Interior heater systems must be retested after repairs. Reports must be rendered as prescribed in paragraph ICC–21.

8. Amend § 78.283 paragraph ICC–19 (a) (15 F. R. 8513, Dec. 2, 1950) (49 CFR 78.283, 1950 Rev.) to read as follows:

§ 78.283 *Specification for tank cars having fusion-welded alloy steel tanks Class ICC–103C–W.* • • •

ICC–19. *Retests of tanks, safety valves and interior heater systems.* (a) Tanks, safety valves, and interior heater systems must be retested as prescribed for original tests in paragraphs ICC–17 and ICC–18, except that a commodity for which the tank is approved may be used for filling tank and dome when testing tanks which have been in service not more than 10 years. The first retest must be conducted within five years after the original test and subsequent retests at five-year intervals up to 10 years of service, thereafter at three-year intervals up to 22 years of service, and annually after 22 years of service. Tanks in service over 10 years must be internally inspected when pericdic retests are made. Interior heater systems must be tested with water only and inspected for defects which would make leakage or failure probable during transit. Tanks must also be retested before being returned to service after any repairs requiring welding, riveting or calking of rivets. Safety valves and interior heater systems must be retested after repairs. Reports must be rendered as prescribed in paragraph ICC–21.

9. In § 78.288 amend paragraph ICC–1 (b); Add paragraphs ICC–3 (b), AAR–3 (b), AAR–6 (e–2), AAR–6 (J–1) Note 2, and AAR–8 (b) (15 F. R. 8518, Dec. 2, 1950) (49 CFR 78.288, 1950 Rev.) to read as follows:

§ 78.288 *Specification for tank cars having lagged fusion-welded steel tanks Class ICC–105A500–W.* • • •

ICC–1. *Type.* • • •

ICC–1. (b) The tank shell and manhole nozzle must be lagged with an approved insulation material of a thickness so that the thermal conductance is not more than 0.075 B. t. u. per square foot, per degree Fahrenheit differential in temperature per hour. The entire insulation must be covered with a metal jacket, efficiently flashed around all openings so as to be weathertight. When heater systems are attached to exterior of tank, the lagging over each pipe may be reduced in thickness equivalent to one-half that required for shell. Tanks for use in transportation of liquefied carbon dioxide must have tank shell and manhole nozzle lagged with an approved insulation material of a thickness so that the thermal conductance is not more than 0.03 B. t. u. per square foot, per degree Fahrenheit differential in temperature, per hour, except that the insulation thickness directly over the center sills may be reduced to give a thermal conductance not exceeding 0.04 B. t. u. per square foot per degree Fahrenheit differential in temperature per hour; this reduction is to permit an anchorage which must not exceed seven (7) inches from top of center sills to bottom of tank.

The entire insulation must be covered with a metal jacket, efficiently flashed around all openings so as to be weathertight.

ICC–3. (b) All plates for tank, manway nozzle and anchorage for tanks used in the transportation of liquefied carbon dioxide must be made of steel to an approved specification suitable for service at low temperatures.

AAR–3. (b) All plates for tank, manway nozzle and anchorage of tanks used in the transportation of liquefied carbon dioxide must be made of steel complying with requirements of A. S. T. M. Specification A–300 (current issue) titled "Steel Plates for Pressure Vessels for Service at Low Temperatures", Class 1, Grade "A", flange or fire box quality. Impact test specimens made by the plate manufacturer shall be of the Charpy Keyhole notch type and must meet impact requirements (in both longitudinal and transverse directions of rolling) of this specification at a temperature of minus 50° F.

AAR–6. (e–2) For tanks used in the transportation of liquefied carbon dioxide, impact test specimens made by the tank fabricator may be in one direction of rolling only and shall be heat treated with the tank. The fabricator shall prepare at least one set of three specimens taken from plates used in the tank shell and anchorage; and at least one set of three specimens taken from plates used in the tank heads, such specimens to be representative of plates in each tank or group of tanks heat treated at the same time.

Weld test specimens shall be prepared from plates used in the tank and both electrode and welding procedure shall be the same as used in the fabrication of the tank. At least one set of three specimens shall be taken across the weld with the notch in the adjacent metal in the heat affected zone; and at least one set of three specimens shall be prepared from all weld metal, such specimens to be representative of each tank or group of tanks heat treated at the same time.

Impact test specimens shall be of the Charpy Keyhole notch type, standard 10 mm x 10 mm size, and shall be prepared in accordance with A. S. T. M. Specification E–23 (current issue). The specimens should be taken from a location as near as practicable to a point mid-way between the surface and center of thickness. The base of the notch should be perpendicular (normal) to the surface.

Impact test specimens shall be tested at a temperature of minus 50° Fahrenheit. The test specimen, as well as the handling tongs shall be cooled for the sufficient length of time to reach the test temperature. The test temperature shall be maintained within a range of plus or minus 3° Fahrenheit. The specimen shall be quickly transferred from the cooling device to the anvil of the testing machine and broken within a time lapse of not more than 6 seconds. The minimum impact value required for average of each set of three specimens shall be 15 ft.-lbs. The minimum impact value permitted on one specimen only of a set shall be 10 ft.-lbs. When the average value of the three specimens equals or exceeds the minimum

value permitted for a single specimen and the value for more than one specimen is below the required average value, or when the value for one specimen is below the minimum value permitted for a single specimen, a retest of three additional specimens shall be made. The value for each of these retest specimens shall equal or exceed 15 ft.-lbs. Records of impact test results shall be retained for not less than ten years by the tank builder or by the car owner if he so requests.

AAR-6. (j-1) • • •

NOTE 2: Tanks used for the transportation of liquefied carbon dioxide must have the anchor welds examined by radiography or by magnetic particle testing.

AAR-8. (b) Tank cars used for the transportation of liquefied carbon dioxide must have anchors so designed that the space between the top of center sills and bottom of tank does not exceed seven (7) inches.

• • • • •

10. In § 78.289 amend paragraph ICC-1 (b); add paragraphs ICC-3 (b), AAR-3 (b), AAR-6 (e-2), AAR-6 (j-1) Note 2, and AAR-8 (b) (15 F. R. 8519, Dec. 2, 1950) (49 CFR 78.289, 1950 Rev.) to read as follows:

§ 78.289 *Specification for tank cars having lagged fusion-welded steel tanks Class ICC-105A600-W.* • • •

ICC-1. *Type.* • • •

ICC-1. (b) The tank shell and manhole nozzle must be lagged with an approved insulation material of a thickness so that the thermal conductance is not more than 0.075 B. t. u. per square foot, per degree Fahrenheit differential in temperature per hour. The entire insulation must be covered with a metal jacket, efficiently flashed around all openings so as to be weather-tight. When heater systems are attached to exterior of tank, the lagging over each pipe may be reduced in thickness equivalent to one-half that required for shell. Tanks for use in transportation of liquefied carbon dioxide must have tank shell and manhole nozzle lagged with an approved insulation material of a thickness so that the thermal conductance is not more than 0.03 B. t. u. per square foot, per degree Fahrenheit differential in temperature, per hour, except that the insulation thickness directly over the center sills may be reduced to give a thermal conductance not exceeding 0.04 B. t. u. per square foot per degree Fahrenheit differential in temperature per hour; this reduction is to permit an anchorage which must not exceed seven (7) inches from top of center sills to bottom of tank.

The entire insulation must be covered with a metal jacket, efficiently flashed around all openings so as to be weathertight.

ICC-3. (b) All plates for tank, manway nozzle and anchorage for tanks used in the transportation of liquefied carbon dioxide must be made of steel to an approved specification suitable for service at low temperatures.

AAR-3. (b) All plates for tank, manway nozzle and anchorage of tanks used in the transportation of liquefied carbon dioxide must be made of steel complying with requirements of A. S. T. M. Specification A-300 (current issue) titled "Steel Plates for Pressure Vessels for Service at Low Temperatures", Class 1, Grade "A", flange or fire box quality. Impact test specimens made by the plate manufacturer shall be of the Charpy Keyhole notch type and must meet impact requirements (in both longitudinal and transverse directions of rolling) of this specification at a temperature of minus 50°F.

AAR-6. (e-2) For tanks used in the transportation of liquefied carbon dioxide, impact test specimens made by the tank fabricator may be in one direction of rolling only and shall be heat treated with the tank. The fabricator shall prepare at least one set of three specimens taken from plates used in the tank shell and anchorage; and at least one set of three specimens taken from plates used in the tank heads, such specimens to be representative of plates in each tank or group of tanks heat treated at the same time.

Weld test specimens shall be prepared from plates used in the tank and both electrode and welding procedure shall be the same as used in the fabrication of the tank. At least one set of three specimens shall be taken across the weld with the notch in the adjacent metal in the heat affected zone; and at least one set of three specimens shall be prepared from all weld metal, such specimens to be representative of each tank or group of tanks heat treated at the same time.

Impact test specimens shall be of the Charpy Keyhole notch type, standard 10 mm x 10 mm size, and shall be prepared in accordance with A. S. T. M. Specification E-23 (current issue). The specimens should be taken from a location as near as practicable to a point mid-way between the surface and center of thickness. The base of the notch should be perpendicular (normal) to the surface.

Impact test specimens shall be tested at a temperature of minus 50° Fahrenheit. The test specimen, as well as the handling tongs shall be cooled for the sufficient length of time to reach the test temperature. The test temperature shall be maintained within a range of plus or minus 3° Fahrenheit. The specimen shall be quickly transferred from the cooling device to the anvil of the testing machine and broken within a time lapse of not more than 6 seconds. The minimum impact value required for average of each set of three specimens shall be 15 ft.-lbs. The minimum impact value permitted on one specimen only of a set shall be 10 ft.-lbs. When the average value of the three specimens equals or exceeds the minimum value permitted for a single specimen and the value for more than one specimen is below the required average value, or when the value for one specimen is below the minimum value permitted for a single specimen, a retest of three additional specimens shall be made. The value for each of these retest specimens shall equal or exceed 15 ft.-lbs. Records of impact test results shall be retained for not less than ten years by the tank builder or by the car owner if he so requests.

AAR-6. (j-1) • • •

NOTE 2: Tanks used for the transportation of liquefied carbon dioxide must have the anchor welds examined by radiography or by magnetic particle testing.

AAR-8. (b) Tank cars used for the transportation of liquefied carbon dioxide must have anchors so designed that the space between the top of center sills and bottom of tank does not exceed seven (7) inches.

• • • • •

11. Amend § 78.291 paragraph ICC-14 (d) (16 F. R. 5333, June 6, 1951) (49 CFR 1950 Rev., 1953 Supp., 78.291) to read as follows:

§ 78.291 *Specification for tank cars having fusion-welded aluminum tanks Class ICC-103-AL-W.* • • •

ICC-14. *Safety valves.* • • •

ICC-14. (d) Tanks used for the transportation of corrosive liquids, flammable solids, oxidizing materials or poisonous liquids or solids, Class B, need not be equipped with safety valves, but if not so equipped must have one safety vent made of approved material at least 1¾ inches inside diameter closed with a frangible disc of suitable material, of a thickness that will hold a pressure of 45 pounds per square inch for a period of at least one hour, but will rupture within eight hours. Means for holding disc in place must be such as to prevent distortion or damage to disc when applied. Safety vent closure must be chained or otherwise fastened to prevent misplacement. An additional sealed vent of approved design, to prevent use of unloading pressures in excess of 45 pounds per square inch, may be applied. All tanks equipped with vents must be stenciled "Not for Flammable Liquids".

12. Amend § 78.292 paragraph ICC-19 (a) (16 F. R. 5335, June 6, 1951) (49 CFR 1950 Rev., 1953 Supp., 78.292) to read as follows:

§ 78.292 *Specification for tank cars having fusion-welded aluminum tanks Class ICC-103-A-AL-W.* • • •

ICC-19. *Retests of tanks, safety valves and interior heater systems.* (a) Tanks, safety valves and interior heater systems must be retested as prescribed for original tests in paragraphs ICC-17 and ICC-18, except that a commodity for which the tank is authorized may be used for filling tank and dome when testing tanks which have been in service not more than 10 years. The first retest must be conducted within five years after the original test and subsequent retests at five-year intervals up to 10 years of service, thereafter at three-year intervals up to 22 years of service, and annually after 22 years of service. Tanks in service over 10 years must be internally inspected when periodic retests are made. Interior heater systems must be tested with water only and inspected for defects which would make leakage or failure probable during transit. Tanks must also be retested before being returned to service after any repairs requiring welding, riveting or calking of rivets. Safety valves and interior heater systems must be retested after repairs. Reports must be rendered as prescribed in paragraph ICC-21.

13. Cancel the following reference to Special Order in Appendix D, Part 78 (15 F. R. 8543, Dec. 2, 1950) (49 CFR Appendix D, Part 78, 1950 Rev.):

APPENDIX D—SPECIAL ORDERS • • •

"Order approved December 18, 1941, in No. 3666, authorizing trial transportation of liquid chlorine in single-unit, 55-ton capacity tank cars, specification 105A500. Pertinent sections of regulations amended accordingly. Authority noted in § 73.314 (g) of this chapter".

SUBPART J—SPECIFICATIONS FOR CONTAINERS FOR MOTOR VEHICLE TRANSPORTATION

1. Amend § 78.330-9 paragraph (b) (15 F. R. 8555, Dec. 2, 1950) (49 CFR 78.330-9, 1950 Rev.) to read as follows:

§ 78.330 *Specification MC310; cargo tanks.*

• • • • •

§ 78.330-9 *Material.* • • •

(b) *Lining.* Except as provided in paragraph (c) of this section, cargo tanks must be lined and the material used for lining each cargo tank subject to this specification shall be homogeneous, nonporous, imperforate when applied, not less elastic than the metal of the tank proper, and substantially immune to attack by the commodities transported therein. It shall be of substantially uniform thickness, and it shall be directly bonded or attached by other equally satisfactory means. Joints and seams in the lining shall be made by fusing the material together, or by other equally satisfactory means. The interior of the tank shall be free from scale, oxidation, moisture, and all foreign matter during the lining operation.

• • • • •

APPENDIX

Section, Paragraph and Reason for Amendment

72.5 (a) commodity list, to provide shipping containers for new commodities; to properly reclassify trifluorochloroethylene; to delete xylidene from the commodity list as a class B poison.

73.25 (a), to provide for enclosures other than those named when the specification container affords protection of the contents but marking is concealed.

73.31 (a) table, to provide reference to footnote 2 for rubber-lined A. R. A. II tank cars.

73.31 (g) notes 1 and 2, to extend the expiration date of periodic retests that are presently waived for certain tank cars.

73.33 (g), to specify December 31, 1953 as expiration date for construction of cargo tanks shown in paragraph (g) (1).

73.33 (k) (11), to provide reference to MC 310 cargo tank inadvertently omitted in Order No. 12.

73.34 (f) (3), (f) (4), to prohibit safety devices on cylinders containing flourine, or poisonous gas or liquid.

73.34 (k) (12), to include ICC specification 26-240 as a cylinder that may be given external visual inspection in lieu of the periodic hydrostatic retest.

73.65 (h), to provide spec. 12B fiberboard box as an additional shipping container for shaped charges.

73.66 (d) (1), (e) (1), to provide spec. 23F or 23H fiberboard box as an additional shipping container for blasting caps and electric blasting caps.

73.67 (a) (1), to allow permanent use of spec. 23F or 23H fiberboard box for blasting caps with safety fuse.

73.100 (q), to increase the amount of explosive composition in explosive rivets that is exempted from certain requirements of the regulations.

73.143 (a) (2), to provide spec. 15A, 15B, 15C, 16A, or 19A wooden boxes as additional shipping containers for methylchloromethyl ether, anhydrous.

73.153 (b), to correct an omission in previous order.

73.182 (a) and (b), to provide for the transportation of ammonium nitrate limestone.

73.220, to eliminate necessity of shipping aluminum scrap in closed containers.

73.247 (a) (6), to provide for the use of additional type tank cars for materials listed.

73.247 (a) (14), to provide for the use of spec. 1F and 1G polyethylene carboys for benzoyl chloride and benzyl chloride.

73.257 (b), to provide additional means of shipment for electrolyte (acid) or corrosive battery fluid.

73.260 (a) (3), (a) (4), and (b), to provide for the use of additional type outside container for electric storage batteries.

73.272 (h) (2), to make consistent with correlated regulations.

73.289 (a) (1), to delete extraneous words.

73.314 (a) table, to provide reference to Note 18 containing requirements previously covered in paragraph (g).

73.314 (a) table, note 11, to provide for an improved type of anchorage on tank cars for liquefied carbon dioxide.

73.314 (a) table, note 18, to provide restrictions for certain shipments of liquefied chlorine gas.

73.314 (g), to eliminate the restriction against the maximum quantity of a compressed gas which could be shipped in a tank car.

73.315 (a) (1) table, to provide for the transportation of methyl chloride in cargo and portable tanks.

73.315 (h) table, to provide for the use of gauging device on cargo and portable tanks containing methyl chloride; to make the entry "carbon dioxide, liquefied" consistent with the regulations.

73.315 (i) (2) table, to make the entry "carbon dioxide, liquefied" consistent with the regulations; to provide start-to-discharge pressure for methyl chloride.

73.315 (i) (9), note 1, to provide optional action in the use of a pressure controlling device.

73.346 (a) (13), to provide spec. 1D or 1E for shipping poisonous liquids.

73.367 (a) (2), to correct a printing error.

74.533 (c), to restrict shipments of cargo tanks containing any dangerous articles on flat cars by rail freight unless the tank and method of handling have been approved.

74.538 (a) chart, to provide loading and storing requirements for igniters, jet thrust.

74.560 (b) (2), to provide for the storage of tank cars containing certain compressed gases on a private or carrier track.

74.566 (a), to correct a printing error.

74.579, to provide placard for cars which have been fumigated or present other hazards.

77.848 (a) chart, to provide loading and storing requirements for igniters, jet thrust.

78.36-3 (a), to require stated inspection on permanent basis.

78.37-3 (a), same as § 78.36-3 (a).

78.41-3 (a), same as § 78.36-3 (a).

78.43-3 (a), same as § 78.36-3 (a).

78.48-3 (a), same as § 78.36-3 (a).

78.49-3 (a), same as § 78.36-3 (a).

78.54-3 (a), same as § 78.36-3 (a).

78.92-14, to provide more detailed requirements for pressure test for spec. 5P lagged steel drums.

78.205-9 (a), to provide reference to a new container.

78.214-6 (c), to provide for the use of an additional pressure sensitive tape for closure for spec. 23F fiberboard box.

78.214-15 (a), to provide for fabrication of lining tube of more than one-piece construction.

78.214-15 (a) (1), to provide for type of box having a lining tube provided with a handhole.

78.214-16 (d) and (e), to provide additional method of closure for spec. 23F fiberboard box.

78.265 ICC-14 (d), to provide for the use of a smaller safety vent and consequently permit the use of a heavier pipe than is presently used on class 103 tank cars.

78.266 ICC-14 (d), same as § 78.265 ICC-14 (d), applicable to class 103A tank cars.

78.266 ICC-19 (a), to provide for extended retest periods for class 103A tank cars.

78.267 ICC-19 (a), to provide for extended retest periods for class 103B tank cars.

78.268 ICC-19 (a), to provide for extended retest periods for class 103C tank cars.

78.280 ICC-14 (d), to provide for the use of a smaller safety vent and consequently permit the use of a heavier pipe than is presently used on class 103-W tank cars.

78.281 ICC-14 (d), to provide for the use of a smaller safety vent and consequently permit the use of a heavier pipe than is presently used on class 103A-W tank cars.

78.281 ICC-19 (a), to provide for extended retest periods for class 103A-W tank cars.

78.282 ICC-19 (a), to provide for extended retest periods for class 103B W tank cars.

78.283 ICC-19 (a), to provide for extended retest periods for class 103C-W tank cars.

78.288 ICC-1 (b), ICC-3 (b), AAR-3 (b), AAR-6 (e-2), AAR-6 (j-1) note 2, and AAR-8 (b), to provide for insulation, anchorage and other constructional details of class 105A500-W tank cars.

78.289 ICC-1 (b), ICC-3 (b), AAR-3 (b), AAR-6 (e-2), AAR-6 (j-1) note 2 and AAR-8 (b), to provide for insulation, anchorage and other constructional details of class 105A500 W tank cars.

78.291 ICC-14 (d), to provide for the use of a smaller safety vent and consequently permit the use of a heavier pipe than is presently used on class 103-AL-W tank cars.

78.292 ICC-19 (a), to provide for extended retest periods for class 103A-AL-W tank cars.

Part 78 Appendix D, special orders, reference to this Order is no longer necessary.

78.330-9 (b), to permit use of present lining materials for which minimum thickness requirement is not necessary and to make consistent with spec. MC 311.

NOTICES

CIVIL AERONAUTICS BOARD

[Docket No. 6606]

BRITISH WEST INDIAN AIRWAYS, LTD.

NOTICE OF HEARING

In the matter of the application of British West Indian Airways Limited for amendment to its foreign air carrier permit by the inclusion of British Guiana, British Honduras, Grenada, St. Thomas, Cuba, Nassau, and Bermuda.

Notice is hereby given pursuant to the provisions of the Civil Aeronautics Act of 1938, as amended, that hearing in the above-entitled proceeding is assigned to be held on April 13, 1954, at 10:00 a. m., e. s. t., in the Foyer of the Auditorium, Commerce Building, Constitution Avenue, between Fourteenth and Fifteenth Streets NW., Washington, D. C., before Examiner Barron Fredricks.

Dated at Washington, D. C., March 30, 1954.

[SEAL] FRANCIS W. BROWN, *Chief Examiner.*

[F. R. Doc. 54-2400; Filed, Apr. 1, 1954; 8:55 a. m.]

[Docket No. 6328 et al.]

PAN AMERICAN WORLD AIRWAYS, INC., ET AL.; STATES-ALASKA FARE CASE

NOTICE OF PREHEARING CONFERENCE

Notice is hereby given that a prehearing conference in the above-entitled case is assigned to be held on April 12, 1954, at 10:00 a. m., in the Foyer of the Auditorium, Commerce Building, Constitution Avenue, between Fourteenth and Fifteenth Streets NW., Washington, D. C., before Examiner F. Merritt Ruhlen.

The following dockets will be considered at the conference: Pan American World Airways, Inc., Docket No. 6493; Alaska Airlines, Inc., Docket No. 6495; Alaska Coastal Airlines, Docket No. 6513; Pan American World Airways, Inc., Docket No. 6546; and Pacific Northern Airlines, Inc., Docket No. 6566.

Dated at Washington, D. C., March 30, 1954.

[SEAL] FRANCIS W. BROWN,
Chief Examiner.

FEDERAL POWER COMMISSION

[Docket Nos. G-683, G-1180, G-1532, G-1683, G-1857, G-2186]

KANSAS-NEBRASKA NATURAL GAS CO., INC.

ORDER REOPENING PROCEEDINGS, CONSOLIDATING PROCEEDINGS, GRANTING INTERVENTION, DENYING SHORTENED PROCEDURE AND FIXING DATE OF HEARING

Kansas-Nebraska Natural Gas Company, Inc. (Applicant), a Kansas corporation having principal places of business at Phillipsburg, Kansas, and Hastings, Nebraska, on June 11, 1953, filed an application in Docket No. G-2186 pursuant to sections 7, 15, and 16 of the Natural Gas Act (1) for permission and approval to abandon natural gas facilities (2) to modify an order of the Commission issued February 26, 1953, in Docket No. G-1857, affirming as modified the initial decision of the Presiding Examiner issued January 19, 1953, and (3) for a certificate of public convenience and necessity authorizing the construction and operation of facilities subject to the jurisdiction of the Commission, all as described in the application on file with the Commission and open to public inspection. Notice of the filing of the application has been given, including publication in the FEDERAL REGISTER on July 4, 1953 (18 F. R. 3918). Supplementary data was filed by Applicant on February 23 and March 2, 1954.

Applicant, on April 27, 1953, filed, pursuant to section 16 of the Natural Gas Act, a petition for modification of the Commission's order issued February 26, 1953, in Docket No. G-1857, affirming as modified the initial decision of the Presiding Examiner issued January 19, 1953, all as described in the petition on file with the Commission and open to public inspection. Notice of the filing of the petition has been given including publication in the FEDERAL REGISTER on May 14, 1953 (18 F. R. 2805). Modification is also requested with respect to orders of the Commission (a) dated March 30, 1946, Docket No. G-683, (b) issued July 29, 1949, Docket No. G-1180, and (c) issued February 28, 1951, Docket No. G-1532.

Central Electric & Gas Company (Central), a Delaware corporation with its principal place of business in Lincoln, Nebraska, on July 20, 1953, filed a petition with the Commission for leave to intervene in Docket Nos. G-1857 and G-2186.

The Commission, on September 18, 1953, issued an order in Docket No. G-1857, and the proceedings consolidated therewith, extending the date for acceptance by Applicant of the certificate of public convenience and necessity issued to the Applicant under the terms of the initial decision of the Presiding Examiner issued January 19, 1953, as modified by the Commission order affirming and modifying said decision, issued February 26, 1953. The date for acceptance was extended until 15 days after the Commission issues its decision and order upon the petition for modification filed in Docket No. G-1857, et al., April 27, 1953.

The proceedings in Docket Nos. G-683, G-1180, G-1532, G-1683, G-1857 and G-2186, and the orders of the Commission entered in connection therewith on various dates relate to the matters in issue presented by the application filed in Docket No. G-1857, et al., and in the petition for modification filed by Applicant in Docket No. G-1857 on April 27, 1953.

Applicant has requested that the application filed at Docket No. G-2186 be heard under the shortened procedure provided by § 1.32 (b) of the Commission's rules of practice and procedure (18 CFR 1.32 (b)) for a non-contested proceeding.

The Commission finds:

(1) It is appropriate for carrying out the provisions of the Natural Gas Act that the Commission reopen the proceedings in Docket Nos. G-683, G-1180, G-1532, G-1683, and G-1857, for the sole purpose of determining whether the orders therein should be modified as requested by Applicant in the application filed June 11, 1953, and the petition for modification filed April 27, 1953, in Docket No. G-1857.

(2) Good cause exists to consolidate the proceeding in Docket No. G-2186, and the reopened proceeding referred to in finding (1) above.

(3) Good cause has not been shown for granting the Applicant's request that the application filed at Docket No. G-2186 be heard under the shortened procedure, as provided by the Commission's rules of practice and procedure, and said request should be denied

(4) The participation of the Central Electric & Gas Company in the proceedings at Docket Nos. G-1857 and G-2186 may be in the public interest.

The Commission orders:

(A) The proceedings in Docket Nos. G-683, G-1180, G-1532, G-1683 and G-1857 be, and the same hereby are on the Commission's own motion, reopened for the sole purpose of determining whether the orders therein should be modified as requested by Applicant in the application filed June 11, 1953, and the petition for modification filed April 27, 1953.

(B) The proceeding in Docket Nos. G-2186 and the reopened proceeding referred to in paragraph (A) above, be, and hereby are consolidated for purpose of hearing.

(C) The request of the Applicant in Docket No. G-2186 for disposition of the proceeding in accordance with the shortened procedure provided by § 1.32 (b) of the Commission's rules of practice and procedure (18 CFR 1.32 (b)) be, and hereby is denied.

(D) Central Electric & Gas Company be and the same is hereby permitted to become an intervener in this proceeding, subject to the rules and regulations of the Commission: *Provided, however,* That the participation of such petitioner shall be limited to matters affecting asserted rights and interests specifically set forth in its petition for leave to intervene; and *Provided, further,* That the admission of such petitioner shall not be construed as recognition by the Commission that it might be aggrieved because of any order or orders of the Commission entered in this proceeding.

(E) Pursuant to the authority contained in and by virtue of the jurisdiction conferred upon the Federal Power Commission by sections 7, 15 and 16 of the Natural Gas Act, and the Commission's rules of practice and procedure, a public hearing be held commencing on April 19, 1954 at 10:00 a. m. e. s. t., in the Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved and the issues presented by the aforesaid reopened and consolidated proceedings.

(F) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) (18 CFR 1.8 and 1.37 (f)) of the Commission's rules of practice and procedure.

Adopted: March 24, 1954.

Issued: March 29, 1954.

By the Commission.

[SEAL] LEON M. FUQUAY,
Secretary.

UNITED GAS PIPE LINE CO.

ORDER AFFIRMING CERTAIN RULINGS OF PRESIDING EXAMINER AND FIXING DATE FOR RECONVENING HEARING

These matters are before the Commission pursuant to the provisions of § 1.28 of the Commission's rules of practice and procedure (18 CFR 1.28) on certification by the Presiding Examiner respecting two rulings rendered on March 24, 1954, during the course of hearings. The rulings certified were: (1) A ruling recessing the hearings herein until further order of the Commission, and (2) a ruling upon Staff Counsel's request that United be required to complete its direct case in support of all dockets at this session of the hearings, that failing to do so now United would not be permitted at a later date subsequent to cross-examination as a part of its direct case to present further evidence as to 1953 costs reflecting known changes to July 31, 1954.

Upon consideration of the arguments and contentions of the parties set forth in the portion of the transcript of the testimony certified by the Examiner, we find that the rulings should be affirmed and the hearing reconvened at the earliest practicable time.

The Commission orders:

(A) The rulings of the Presiding Examiner certified to the Commission be and they hereby are affirmed.

(B) The hearing herein shall reconvene on May 3, 1954 at 10:00 a. m., e. d. s. t., in the Commission's Hearing Room, 441 G Street NW., Washington, D. C.

Adopted: March 25, 1954.

Issued: March 26, 1954.

By the Commission.

[SEAL] LEON M. FUQUAY,
Secretary.

[F. R. Doc. 54-2351; Filed, Apr. 1, 1954; 8:47 a. m.]

[Docket Nos. G-1982, G-1983, G-1984, G-2147, G-2148]

TREASURE STATE PIPE LINE CO.

NOTICE OF APPLICATIONS

MARCH 29, 1954.

Take notice that Treasure State Pipe Line Company (Applicant), a Montana corporation, address, Great Falls, Montana, filed on March 15, 1954, three applications in the above-entitled dockets, requesting (1) an order of the Commission amending its order in Docket No. G-1982, issued on November 19, 1953, as amended by an order in Docket Nos. G-1982 and G-2147 issued on September 8, 1953, authorizing Applicant, pursuant to section 3 of the Natural Gas Act, to export natural gas from the United States to the Dominion of Canada; (2) an order of the Commission amending its order in Docket No. G-1984, issued on November 19, 1952, as amended by an order issued on September 8, 1953, issuing a certificate of public convenience and necessity authorizing Applicant to construct and operate certain natural-gas facilities used for the exportation of natural gas from the United States to the Dominion of Canada; and (3) an order of the Commission amending the Presidential Permit in Docket No. G-1983 which was signed by the President of the United States on October 30, 1952, pursuant to Executive Order No. 8202, dated July 13, 1939. The amended Permit was issued, pursuant to applications filed by Applicant in Docket Nos. G-1983 and G-2148, through signature by the President of the United States on August 15, 1953, which permit, as amended, authorized the construction, operation, maintenance and connection at the international boundary of facilities for the exportation of natural gas from the United States into the Dominion of Canada.

Applicant presently is authorized to export natural gas into Canada and to construct, operate, maintain, and connect the facilities required for such exportation pursuant to the authorizations hereinbefore described. Said authorizations, as amended, limit such exportation of natural gas to a maximum annual quantity of 80,000 Mcf for use only in Coutts and Milk River, Alberta, Canada. Applicant now proposes to increase the volumes which it is authorized to export by 40,000 Mcf annually to supply the village of Milk River, Alberta.

Applicant states that the reason it requests authority to export an additional 40,000 Mcf of natural gas annually is that the Petroleum and Natural Gas Conservation Board of the Province of Alberta has indicated that it will not permit the installation of a gas system to supply the village of Milk River unless an additional 40,000 Mcf of natural gas is authorized for export.

Applicant estimates that the total number of possible connections in the village of Milk River for the use of the natural gas which it proposes to export will be approximately 180, and that the potential market in said village will be approximately 50,000 Mcf of natural gas annually.

Applicant does not propose to construct any additional facilities and will use those facilities heretofore authorized in rendering the proposed service to Milk River.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before the 16th day of April 1954. The applications are on file with the Commission for public inspection.

[SEAL] LEON M. FUQUAY,
Secretary.

[F. R. Doc. 54-2373; Filed, Apr. 1, 1954; 8:51 a. m.]

[Docket Nos. G-1786, G-1965]

OHIO FUEL GAS CO.

ORDER OMITTING INTERMEDIATE DECISION PROCEDURE AND FIXING DATE FOR ORAL ARGUMENT

On March 11, 1954, the Ohio Fuel Gas Company (Ohio Fuel) filed a motion, pursuant to the authority contained in section 4 (a) of the Natural Gas Act and in § 1.30, paragraph (c) (2), of the Commission's general rules and regulations, for omission of the intermediate decision procedure in the above-entitled matters and for oral argument on any points of issue raised in these proceedings which cannot be resolved by negotiation between the interested parties as proposed in said motion. Answers to said motion were filed by the Dayton Power and Light Company and by the City of Lancaster, Ohio, on March 17 and March 19, respectively.

In support of its motion, Ohio Fuel alleges that it and certain affiliated companies in the Columbia Gas System propose to augment substantially their facilities during the year 1954 in order to meet the gas requirements of their markets; that as of January 31, 1954 Ohio Fuel had on its books $6,023,615 of contingent revenues collected under the rates in question in these dockets; that the contingent nature of such revenues and the effect upon the results of the financial operations of Ohio Fuel present difficulties with respect to financing the 1954 construction program; and that it is urgent that the contingent aspect of such revenues be resolved as quickly as possible. The motion further states that most if not all of the issues between Ohio Fuel, the intervenors, and the Commission's Staff might be resolved by negotiations between the parties; that, if the motion is granted, steps might be taken to work out a negotiated settlement of all or as many as possible of the issues in these proceedings; and that thereafter any remaining issues not settled by negotiation could be submitted to the Commission for decision after oral argument.

We take notice of the fact that there is pending before the Commission an application by Ohio Fuel in Docket No. G-2281 for an increase in its rates over and above its proposals in Docket Nos. G-1786 and G-1965. A hearing has been scheduled to commence on May 3, 1954, with respect to the issues presented by that application. Since some of the issues therein presented are related to those involved in Docket Nos. G-1786 and G-1965, early resolution of the issues in the latter two dockets may be of material assistance in enabling prompt determination of the issues in Docket No. G-2281. Likewise, it appears that final disposition of Docket Nos. G-1786 and G-1965 should be made at the earliest possible date if Ohio Fuel is to be enabled to enter into positive financial commitments required by its proposed 1954 construction program. Finally, it is urgent, particularly in view of the fact that monies in excess of $6,000,000 have been collected under bond by Ohio Fuel under the rates involved in Docket Nos. G-1786 and G-1965, that these proceedings be disposed of expeditiously for the benefit of all parties. Accordingly, we find, although the motion by Ohio Fuel was not timely filed, that the public convenience and necessity imperatively and unavoidably require omission of the intermediate decision procedure in these proceedings. The order herein will so provide.

The Commission orders:

(A) The intermediate decision procedure in the above-entitled matters be and the same hereby is omitted, and the record herein be certified forthwith by the Presiding Examiner to the Commission.

(B) Oral argument concerning the matters and issues involved in these consolidated proceedings be held commencing at 10 a. m., e. s. t., on April 19, 1954, in the Commission's Hearing Room, 441 G Street NW., Washington, D. C.

(C) On or before April 9, 1954, each party, including staff counsel, shall notify the Secretary of the Commission in writing (i) whether it will participate in the oral argument on April 19, and (ii) the amount of time, if any, desired for such oral argument.

(D) To the extent not herein granted, the motion by Ohio Fuel be and the same hereby is denied.

Adopted: March 24, 1954.

Issued: March 29, 1954.

By the Commission.

[SEAL] LEON M. FUQUAY,
Secretary.

[F. R. Doc. 54-2374; Filed, Apr. 1, 1954; 8:51 a. m.]

[Docket Nos. G–1966, G–2175, G–1967, G–2176]

HOME GAS CO. AND MANUFACTURERS LIGHT AND HEAT CO.

ORDER OMITTING INTERMEDIATE DECISION PROCEDURE AND FIXING DATE FOR ORAL [illegible]

In the matters of Home Gas Company, Docket Nos. G–1966 and G–2175; the Manufacturers Light and Heat Company, Docket Nos. G–1967 and G–2176.

At the conclusion of hearing in the above-entitled proceeding on December 10, 1953, Rockland Light & Power Company (Rockland) moved to omit the intermediate decision on the ground that due and timely disposition of the matter imperatively required such action by the Commission. This motion was opposed by the Respondents and by certain other intervenors to the proceeding. By order issued January 4, 1954, the Commission denied the motion for omission of the intermediate decision. Thereafter on January 14, 1954, Rockland filed a motion for reconsideration of the Commission's order denying omission of the intermediate decision. On January 20, 1954, Respondents filed an answer opposing Rockland's motion. On March 11, 1954, the Respondents filed a motion for omission of the intermediate decision procedure; and on March 23, 1954, United Gas Improvement Company joined in Respondents' motion. Respondents assert in support of their motion that large amounts of revenues are reported on their books as contingent revenues, and that the contingent nature of such revenues presents considerable difficulties with respect to financing their 1954 construction program. Although the motion by Respondents was not within the time limits of § 1.30 (c) (3), we have considered it in conjunction with Rockland's motion.

Rockland in support of its motion for reconsideration submits that rates involved in these proceedings have been collected under bond since November 1, 1952; that the rates collected in the past and presently being collected are admitted to be excessive by the Respondents; and that the requirements of section 4 of the Natural Gas Act and the rules and regulations of the Commission require the omission of the intermediate decision procedure. The hearings in these proceedings were completed on December 10, 1953, and the final brief was filed by Respondents on March 5, 1954. We take notice of the fact that the Presiding Examiner, who presided over these hearings, is retiring during the month of March and will, therefore, be unavailable to prepare the intermediate decision. In view of the length of time during which the rates here involved have been in effect, the circumstance that the rates charged are admitted to be in part excessive, and the unavailability of the Presiding Examiner who heard the proceedings to prepare the intermediate decision, we shall omit the intermediate decision procedure and set the matter for oral argument before the Commission.

The Commission finds:

(1) Due and timely execution of the Commission's functions imperatively and unavoidably requires that the intermediate decision procedure be omitted in these proceedings.

(2) It is appropriate and in the public interest to hear oral argument concerning the matters involved and issues presented in these proceedings.

The Commission orders:

(A) The intermediate decision procedure be, and it hereby is, omitted, and the record in these proceedings be certified forthwith by the Presiding Examiner to the Commission.

(B) Oral argument be had before the Commission on April 22, 1954 at 10:00 a. m., e. s. t., in the Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved and the issues presented in these proceedings.

(C) Each party, including Staff counsel, on or before April 12, 1954 shall notify the Secretary of the Commission, in writing, as to whether such party will participate in the oral argument, and the amount of time desired for presentation of argument.

Adopted: March 24, 1954.

Issued: March 29, 1954.

By the Commission.

[SEAL] LEON M. FUQUAY, *Secretary.*

[F. R. Doc. 54–2375; Filed, Apr. 1, 1954; 8:52 a. m.]

DEPARTMENT OF THE INTERIOR

Bureau of Reclamation

[Public Notice 45]

MINIDOKA IRRIGATION PROJECT, IDAHO; NORTH SIDE PUMPING DIVISION

PUBLIC NOTICE ANNOUNCING AVAILABILITY OF WATER FOR PUBLIC LANDS AND OPENING OF PUBLIC LANDS TO ENTRY

MARCH 5, 1954.

LANDS COVERED

SECTION 1. *Lands for which water will be available.* Water will be available for the irrigation season of 1955 and thereafter for certain irrigable lands on the North Side Pumping Division of the Minidoka Irrigation Project, as shown on approved farm unit plats on file in the office of the Bureau of Reclamation, 11th and E Streets, Rupert, Idaho, and in the Land and Survey Office at Boise, Idaho.

Applications may be made in accordance with this notice, beginning at 2:00 p. m., March 30, 1954, for a certificate of qualification which will entitle the holder to file an application for entry on the public lands shown on the plats. In order to permit the continued orderly development and settlement of project lands, this public notice is issued irrespective of there being pending applications for exchange pursuant to the act of August 13, 1953 (67 Stat. 566), and regulations for the administration thereof.

The lands to which this notice pertains are described as follows:

BOISE MERIDIAN, IDAHO—PUBLIC LAND

IRRIGATION BLOCK NO. 3

The Reclamation law provides that the Secretary of the Interior may designate an area of land in a project which, in his judgment, should be reclaimed and put under irrigation at substantially the same time as an irrigation block. Pursuant to section 2 (k) of the Reclamation Project Act of 1939, the farm units described above are designated as Irrigation Block No. 3.

SEC. 2. *Limit of acreage for which entry may be made or water secured.* The public lands covered by this notice have been divided into farm units. Each of the farm units represents the acreage which, in the opinion of the Secretary of the Interior, may reasonably be required for the support of a family upon such land. The areas in the different units are fixed at the amounts shown upon the farm unit plats referred to in section 1 of this notice. The maximum acreage of land in private ownership for which application for delivery of water may be made is 160 acres of irrigable land for each landowner.

SEC. 3. *Nature of preference.* Except for a prior preference given applicants for exchange of farm units under the provisions of the act of August 13, 1953 (67 Stat. 566), who are hereinafter called "exchange applicants," a preference right shall be given to applications which are made by certain veterans (and in some cases by their wives, husbands, or guardians of minor children) and which are filed within 90 days after the opening of the lands. The five classes of persons who are entitled to this veterans preference are set forth in section 4 of this notice.

Therefore, except for those received from qualified exchange applicants, which shall be given prior preference, applications for farm units on public lands covered by this notice which are made by persons coming within one of the five classes listed in section 4 of this notice will be given first consideration if submitted before 2:00 p. m., June 28, 1954.

In order to be eligible to receive farm units, all applicants, other than qualified exchange applicants, whether or not entitled to veterans preference, must possess the necessary qualifications as to industry, experience, character, capital, and physical fitness (see section 7 of this notice) and (except for duly appointed guardians) must be qualified to make entry under the homestead laws.

SEC. 4. *Persons entitled to veterans preference.* The classes of persons who are entitled to the veterans preference described in section 3 of this notice are as follows:

(a) Persons, including those under 21 years of age, who have served in the Army, Navy, Marine Corps, Air Force, or Coast Guard of the United States for a period of at least 90 days at any time between September 16, 1940, and July 3, 1952, inclusive, and who have been honorably discharged.

(b) Persons, including those under 21 years of age, who have served in the Army, Navy, Marine Corps, Air Force, or Coast Guard during the period described in subsection (a) of this section, regardless of length of service, and who have been discharged on account of wounds received or disability incurrred during such period in the line of duty, or, subsequent to a regular discharge, have been furnished hospitalization or awarded compensation by the Government on account of such wounds or disability.

(c) The spouse of any person in either of the first two classes listed in this section, if the spouse has the consent of such person to exercise his or her preference right. (See section 8 of this notice regarding provision that a married woman must be head of a family.)

(d) The surviving spouse of any person in either of the first two classes listed in this section, or in the case of the death or marriage of such spouse, the minor child or children of such person, by a guardian duly appointed and officially accredited at the Department of the Interior.

(e) The surviving spouse of any person whose death has resulted from wounds received or disability incurred in line of duty while serving in the Army, Navy, Marine Corps, Air Force, or Coast Guard during the period described in subsection (a) of this section, or in the case of the death or marriage of such spouse, the minor child or children of such person, by a guardian duly appointed and officially accredited at the Department of the Interior.

SEC. 5. *Definition of honorable discharge.* An honorable discharge means:

(a) Separation from the service by means of an honorable discharge or by the acceptance of resignation or a discharge under honorable conditions.

(b) Release from active duty under honorable conditions to an inactive status, whether or not in a reserve component, or retirement.

Any person who obtains an honorable discharge as herein defined shall be entitled to veterans preference even though such person thereafter resumes active military duty.

QUALIFICATIONS REQUIRED BY THE RECLAMATION AND HOMESTEAD LAWS

SEC. 6. *Examining board.* An examining board of 3 members, including the Superintendent of the Minidoka Project, who will act as secretary of the board, has been approved by the Commissioner of Reclamation to determine the qualifications and fitness of applicants to undertake the development and operation of a farm on the Minidoka Project. The board will make careful investigations to verify the statements made by applicants. Any false statement may constitute grounds for rejection of an application, cancellation of award, or cancellation of an entry.

SEC. 7. *Minimum qualifications.* This section sets forth the minimum qualifications which are necessary to give reasonable assurance of success of an entryman or entrywoman on a Reclamation farm unit. Applicants, unless qualified exchange applicants, must, in the judgment of the examining board, meet these qualifications in order to be considered for entry. Failure to meet them in any single respect will be sufficient cause for rejection of an application. No credit will be given for qualifications in excess of the required minimum.

The minimum qualifications are as follows:

(a) *Character and industry.* An applicant must be possessed of honesty, temperate habits, thrift, industry, seriousness of purpose, record of good moral conduct, and a bona fide intent to engage in farming as an occupation.

(b) *Farm experience.* Except as otherwise provided in this subsection, an applicant must have had a minimum of two years' (24 months) full-time farm experience which shall consist of participation in actual farming operations, after attaining the age of 15 years. Time spent in agricultural courses in an accredited agriculture college or time spent in work closely associated with farming, such as teaching vocational agriculture, agricultural extension work, or field work in the production or marketing of farm products, which, in the opinion of the board, will be of value to an applicant in operating a farm, may be substituted for full-time farm experience. Such substitution shall be on the basis of one year (academic year of at least nine months) of agricultural college courses or one year (twelve months) of work closely associated with farming for six months of full-time farm experience. Not more than one year of full-time farm experience of this type will be allowed. A farm youth who actually resided and worked on a farm after attaining the age of 15 and while attending school may credit such experience as full-time experience.

Applicants who have acquired their experience on an irrigated farm will not be given preference over those whose experience was acquired on a nonirrigated farm, but all applicants must have had farm experience of such a nature as, in the judgment of the examining board, will qualify the applicants to undertake the development and operation of an irrigated farm by modern methods.

(c) *Health.* An applicant must be in such physical condition as will enable him to engage in normal farm labor.

(d) *Capital.* An applicant must possess assets worth at least $4,500 in excess of liabilities. Assets must consist of cash, property or assets readily convertible into cash, or assets such as livestock, farm machinery and equipment, which, in the opinion of the board, will be useful in the development and operation of a new, irrigated farm. In considering the practical value of property which will be useful in the development of a farm, the board will not value household goods at more than $500 or a passenger car at more than $500. An applicant may be required to furnish a certified financial statement showing all of his assets and all of his liabilities. (See section 15 of this notice.) Assets not useful in the development of a farm will be considered if the applicant furnishes, at the board's request, evidence of the value of the property and proof of its conversion into useful form before the issuance of a certificate of qualification.

SEC. 8. *Other qualifications required.* Except for qualified exchange applicants, all applicants (except guardians) must

meet the requirements of the homestead laws. The homestead laws require that an entryman or entrywoman:

(a) Must be a citizen of the United States or have declared an intention to become a citizen of the United States.

(b) Must not have exhausted the right to make homestead entry on public land.

(c) Must not own more than 160 acres of land in the United States.

(d) Must, if a married woman, or a person under 21 years of age who is not eligible for veterans preference, be the head of a family. The head of a family is ordinarily the husband, but a wife or a minor child who is obliged to assume major responsibility for the support of a family may be the head of a family. Complete information concerning qualifications for homesteading may be obtained from the Land and Survey Office of the Bureau of Land Management at Boise, Idaho, or from the Director of that Bureau, Washington 25, D. C.

SEC. 9. *Restriction on ownership of project lands.* Applicants, other than qualified exchange applicants, for certificates of qualification must not hold or own, within any Federal Reclamation project, irrigable land for which construction charges payable to the United States have not been fully paid, except that this restriction does not apply to small tracts used exclusively for residential purposes.

Prior to the issuance of a certificate of qualification and not later than the time of the personal interview, an applicant who owns lands in a Federal Reclamation project must furnish satisfactory evidence that the total construction charges allocated against the land owned by the applicant have been paid in full.

WHERE AND HOW TO APPLY FOR A FARM UNIT

SEC. 10. *Application blanks.* Any person desiring to enter any of the public land farm units described in this notice must fill out the attached application blank. Additional application blanks may be obtained from the Bureau of Reclamation, 11th and E Streets, Rupert, Idaho; the Regional Director, Bureau of Reclamation, Boise, Idaho; or the Commissioner of Reclamation, Department of the Interior, Washington 25, D. C.

SEC. 11. *The filing of application.* An application for a certificate of qualification for a farm unit listed in this notice must be filed with the Bureau of Reclamation, Eleventh and E Streets, Rupert, Idaho, in person or by mail. No advantage will accrue to an applicant who presents an application in person.

SEC. 12. *Applications become Department records.* Each application submitted, including evidence of qualification to be submitted following the public drawing, will become a part of the records of the Department of the Interior and cannot be returned to the applicant. For this reason, original discharge or citizenship papers should not be submitted. In case an applicant is awarded a farm, the copy of his discharge papers will be attached to his certificate of qualification (see section 19 of this notice) for submission to the Bureau of Land Management.

SELECTION OF QUALIFIED APPLICANTS

SEC. 13. *Priority of applications.* All applications, including those filed by exchange applicants, must be received prior to 2:00 p. m., June 28, 1954. All applications, except those received from exchange applicants will be classified for priority purposes and considered in the following order:

(a) *First Priority Group.* All complete applications filed prior to 2:00 p. m., June 28, 1954, by applicants who claim veterans preference. All such applications will be treated as simultaneously filed.

(b) *Second Priority Group.* All complete applications filed prior to 2:00 p. m., June 28, 1954, by applicants who do not claim veterans preference. All such applications will be treated as simultaneously filed.

(c) *Third Group.* All complete applications filed after 2:00 p. m., June 28, 1954. Such applications will be considered in the order in which they are filed if any farm units are available for award to applicants within this group.

SEC. 14. *Public drawing.* After the priority classification, the board will conduct a public drawing of the names of the applicants in the First Priority Group as defined in subsection 13 (a) of this notice. Applicants need not be present at the drawing in order to participate therein. The names of a sufficient number of applicants (not less than four times the number of farm units to be awarded) shall be drawn and numbered in the order drawn for the purpose of establishing the order in which the applications drawn will be examined by the board to determine whether the applicants meet the minimum qualifications prescribed in this notice, and to establish the priority of qualified applicants for the selection of farm units. After such drawing, the board shall notify each applicant of his respective standing as a result of the drawing.

SEC. 15. *Submission of evidence of qualification.* After the drawing a sufficient number of applicants, in the order of their priority as established in the drawing, will be supplied with forms on which to submit evidence of qualification showing that they meet the qualifications set forth in sections 7 and 8 of this public notice and, in case veterans preference is claimed, establishing proof of such preference, as set forth in section 4 of this public notice. Full and accurate answers must be made to all questions. The completed form, together with any attachments required, must be mailed or delivered to the Bureau of Reclamation, Eleventh and E Streets, Rupert, Idaho, within 30 days of the date the form is mailed to the last known address furnished by the applicant. Failure of an applicant to furnish all of the information requested or to see that information is furnished by his references within the period specified will subject his application to rejection.

SEC. 16. *Final examination.* After the information requested as outlined in section 15 of this notice has been received or the time for submitting such statements has expired, the board shall examine in the order drawn a sufficient number of applications, together with the evidence of qualification submitted, to determine the applicants to whom certificates of qualification will be issued. This examination will determine the sufficiency, authenticity, and reliability of the information and evidence submitted by the applicants. If the examination indicates that an applicant is qualified, the applicant may be required to appear for a personal interview with the board for the purpose of: (a) Affording the board any additional information it may desire relative to his qualifications; (b) affording the applicant any information desired relative to conditions in the area and the problems and obligations relative to development of a farm unit; and (c) affording the applicant an opportunity to examine the farm units. If the applicant fails to appear before the board for a personal interview when requested, he shall thereby forfeit his priority as established by the drawing.

If the board finds that an applicant's qualifications fulfill the requirements prescribed in this notice, such applicant shall be notified, in person or by registered mail, that he is a qualified applicant and shall be given an opportunity to select one of the farm units then available. A certificate of qualification will not be issued to an applicant who owns more than 160 acres of land in the United States. Therefore, an applicant may be required by the examining board, prior to the issuance of a certificate of qualification, to submit evidence satisfactory to the board that he does not own more than 160 acres.

If the applicant fails to supply any of the information required or the board finds that the applicant's qualifications do not meet the requirements prescribed in this notice, the applicant shall be disqualified and shall be notified by the board, by registered mail, of such disqualification and the reasons therefor and of the right to appeal to the regional Director, Region 1, Bureau of Reclamation. All appeals must be received in the office of the Bureau of Reclamation, Eleventh and E Streets, Rupert, Idaho, within 15 days of the applicant's receipt of such notice, or in any event, within 30 days from the date the notice is mailed to the last address furnished by the applicant. The Office of the Bureau of Reclamation, Eleventh and E Streets, Rupert, Idaho, will forward the appeals promptly to the Regional Director. The Regional Director's decision on all appeals shall be final.

SELECTION OF FARM UNITS

SEC. 17. *Order of selection.* The applicants who have been notified of their qualification for the award of a farm unit will successively exercise the right to select a farm unit in accordance with the priority established by the drawing. If a farm unit becomes available through failure of a qualified applicant to exercise his right of selection or failure to complete his entry filing with the Bureau of Land Management, it will be offered to the next qualified applicant who has not made a selection at the time the unit is again available. An applicant who is considered to be disqualified as a result of the personal interview will be permitted to exercise his right to select, notwithstanding his disqualification, unless he voluntarily surrenders this right in writing. If, on appeal, the action of the board in disqualifying an applicant as a result of the personal interview is reversed by the Regional Director, the applicant's selection shall be effective, but if such action of the board is upheld by the Regional Director, the farm unit selected by this applicant will become available for selection by qualified applicants who have not exercised their right to select.

If any of the farm units listed in this notice remain unselected after all qualified applicants whose names were selected in the drawing have had an opportunity to select a farm unit, and if additional applicants remain in the First Priority Group, the board will follow the same procedure outlined in section 14 of this notice in the selection of additional applicants from this group.

If any of the farm units remain unselected after all qualified applicants in the First Priority Group have had an opportunity to select a farm unit, the board will follow the same procedure to select applicants from the Second Priority Group and they will be permitted to exercise their right to select a farm unit in the manner prescribed for the qualified applicants from the First Priority Group.

Any farm units remaining unselected after all qualified applicants in the Second Priority Group have had an opportunity to select a farm unit will be offered to applicants in the Third Group in the order in which their applications were filed, subject to the determination of the board, made in accordance with the procedure prescribed herein, that such applicants meet the minimum qualifications prescribed in this notice.

In the event, however, that a farm unit remains unentered at the expiration of two years following the date of the notice, unless the unit is withdrawn from the notice, new applications will be accepted in respect to the unit and it shall be awarded to the first applicant who files an application after the expiration of the two-year period and who meets the qualifications prescribed by the notice, without regard to veterans preference.

SEC. 18. *Failure to select.* If any applicant, except a qualified exchange applicant, refuses to select a farm unit or fails to do so within the time specified by the board, such applicant shall forfeit his position in his priority group and his name shall be placed last in that group.

SEC. 19. *Payment of charges and filing homestead applications.* After each qualified applicant has advised the board of his selection of a farm unit, he shall be notified by the board of the annual construction, water rental, or other charges and shall be furnished with copies of the contracts to be executed by him as required by subsections 20 (b) and (c) of this notice. The required payment and executed contracts must be received in the office of the Bureau of Reclamation, 11th and E Streets, Rupert, Idaho, within 15 days of the receipt by the applicant of such notice and contracts. Upon receipt of such payment and of the contracts fully executed before the expiration of said 15-day period, the board shall furnish each applicant, by registered mail or by delivery in person, a certificate of qualification stating that the applicant's qualifications to enter public lands have been examined and approved by the board. Such certificate must be attached by the applicant to the homestead application, which application must be filed in the Land and Survey Office, Bureau of Land Management, Boise, Idaho. Such homestead application must be filed within 15 days from the date of the receipt by the applicant of such certificate. Failure to pay annual construction, water rental, or other charges, to execute the required contracts, or to make application for homestead entry within the period specified herein will render the application subject to rejection.

SEC. 20. *Repayment obligations required to be undertaken under Federal Reclamation laws*—(a) *Establishment of development period.* Section 9 (d) (1) of the Reclamation Project Act of 1939 provides that, if, as in the case of the lands involved in this public notice, the lands are for the most part lands owned by the United States, the Secretary, prior to the execution of a repayment contract, may fix a development period and provide for the delivery of water during that period to the individual landowners on the basis of annual payments in advance of delivery of water.

Pursuant to that authority, the development period is hereby fixed as 10 years for the lands comprising Irrigation Block No. 3 commencing January 1, 1955, subject, however, to the right of the Secretary by a supplemental notice to shorten this period should it be determined that the full period is not justified.

(b) *Repayment organization and contract.* The Reclamation Project Act of 1939 requires that, as a condition precedent to the continued delivery of water after the close of the development period, the water users must form an organization, satisfactory in form and powers to the Secretary, to contract with the United States to repay the reimbursable construction costs incurred and to be incurred by the United States in the construction and operation and maintenance of the North Side Pumping Division. The organization proposed for the area comprising the North Side Pumping Division is an irrigation district to be created under the laws of the State of Idaho embracing all the lands proposed to be served by the works of the Division as authorized by the act of September 30, 1950. Before the end of the development period for Irrigation Block No. 1, the United States will request the landowners involved to organize such a district and to enter into an appropriate repayment contract with the United States in conformity with the requirements of the Federal Reclamation laws. To insure fulfillment of this requirement, each qualified applicant will be required, as a condition precedent to the issuance of a certificate of qualification, to agree to join in a petition for the creation of such a district and to include his lands in such a district when requested so to do by the United States.

(c) *Charges payable during development period.* (1) During the development period, a minimum amount of water will be furnished at an annual charge per irrigable acre to be paid in advance of delivery of water. The quantity of water to be delivered for the minimum charge each year will be specified by the Regional Director and water in excess of the amount to be furnished for the minimum charge will be furnished on an acre-foot basis in accordance with an ascending scale of rates. It is estimated that over the development period charges for water will average $8.30 per year for each irrigable acre. It is also the present plan to set a small minimum charge for the first year and to increase it each year during the development period with the object of having the charge for the last year of the development period approximately equal to the estimated combined construction and operation and maintenance charges for the first year that construction charges are required to be paid under the repayment contract. This combined operation and maintenance and construction charge is presently estimated at $10.60 per irrigable acre annually. Charges during the development period are expected to equal operation and maintenance costs during that period and are not intended to return any of the construction costs. Prior to the execution of the repayment contract, payments required to be made during the development period will be paid by the individual water users to the United States pursuant to announcements made by the Regional Director. After the repayment contract has been executed, payments by the water users will be made to the irrigation districts which will in turn make payment to the United States.

(2) For the 1955 irrigation season a minimum charge of $4.20 per irrigable acre shall be required to be paid for each irrigable acre for which water is requested except that each entryman in the block must pay this minimum charge for at least 50 per cent of the irrigable acreage of his farm unit.

Water users will be furnished three acre-feet of water for each irrigable acre in their farm units for which payment of the minimum charge is made. Water, in excess of three acre-feet for each irrigable acre, if available, will be furnished during the 1955 irrigation season at the following rates:

Fourth acre-foot per acre	$1.70
Fifth acre-foot per acre	2.25
Sixth acre-foot per acre	2.80

(3) The foregoing charges are subject to all provisions of the Federal Reclamation laws relating to collections and penalties for delinquencies.

(d) *Construction charges required to be paid.* After the development period has ended as to each irrigation block, the water users of the block will be required

to pay, in accordance with the terms of the repayment contract, an annual charge per irrigable acre to meet operation and maintenance costs and to repay to the United States that portion of the cost of construction of the North Side Pumping Division which is assigned for repayment by the water users. The repayment contract may provide for such payment over a 50-year period following the development period and the law requires that the construction charge obligation shall be distributed equally to like classes of land, both annual instalments to be adjusted on the basis of crop returns, as adjusted for agricultural parity. It is now estimated that a basic annual payment of $2.30 per irrigable acre for the entire North Side Pumping Division will be sufficient to return the current estimate of the costs of the Division required to be repaid by the water users, this representing an estimated total construction charge of $115 per irrigable acre. It is currently estimated that the average annual charge per irrigable acre for operation and maintenance will be $8.30. This estimate includes replacements required during the repayment period and the costs of power for irrigation pumping. The figures given both as to the construction obligation and the annual operation and maintenance costs are estimates only and subject to change in terms of costs as actually incurred. These estimates of the construction and operation and maintenance charges and the average estimated charges for water during the development period, as set out in subsection 20 (c) (1) of this notice, are based on the assumption that power will be furnished by the Bureau under a wheeling arrangement with the Idaho Power Company on terms similar to those provided by the existing contract with the Company, dated December 15, 1950.

(e) *Recordable contracts required.* Applicants for entry of public land will be required as a condition precedent to the issuance of a certificate of qualification, to execute and deliver a recordable contract which is intended to discourage the sale of land while it is in a developmental stage at prices in excess of its fair market value and to discourage speculation in such lands. Under present policies such contracts will remain in effect until the end of the fifth year after the commencement of payment of construction charges on the lands involved. As a basis for operation of such contracts, all the lands of the Division will be appraised at their fair market value without regard to increments by reason of the prospect of obtaining water, and the contracts will provide that, in the event lands are sold at prices in excess of their appraised values, as these are revised from time to time, a portion of the excess shall be applied in payment of construction charges against the land.

GENERAL PROVISIONS

SEC. 21. *Warning against unlawful settlement.* No person shall be permitted to gain or exercise any right under any settlement or occupation of any of the public lands covered by this notice except under the terms and conditions prescribed by this notice.

SEC. 22. *Reservation of rights of way for public roads.* Rights of way along section lines and other lines shown in red on the farm unit plats described in section 1 of this notice are reserved for county, state, and Federal highways and access roads to the farm units shown on said farm unit plats.

SEC. 23. *Reservation of rights-of-way for utilities.* Rights-of-way are reserved for Government-owned telephone, electric transmission, water and sewer lines, and water treating and pumping plants, as now constructed, and the Secretary of the Interior reserves the right to locate such other Government-owned facilities over and across the farm units above-described as hereafter, in his opinion, may be necessary for the proper construction, operation, and maintenance of the said project. Existing rights-of-way granted by the United States are also reserved.

SEC. 24. *Waiver of mineral rights.* All homestead entries for the above-described farm units will be subject to the laws of the United States governing mineral land, and all homestead applicants under this notice must waive the right to the mineral content of the land, if required to do so by the Bureau of Land Management; otherwise, the homestead applications will be rejected or the homestead entry or entries cancelled.

SEC. 25. *Effect of relinquishment or cancellation.* In the event that any entry of public land made hereunder shall be relinquished by the entryman or cancelled for any cause, other than by contest, the farm unit affected by such relinquishment or cancellation shall be disposed of as follows:

(a) If the entry is relinquished or cancelled within two years after the date of the notice, such unit shall be offered without delay to the qualified applicant next in order of priority as established in the drawing who will be treated as a standing applicant therefor under this notice. Such applicant shall be required to furnish such additional information as may be necessary to satisfy the board that he is still qualified under the terms of the notice. In the event that an award cannot be made to a qualified applicant, the unit shall be offered as prescribed in subsection (b) below.

(b) If an entry is relinquished or cancelled at any time after the expiration of 2 years following the date of the notice, unless the unit is withdrawn from the notice, new applications will be accepted in respect to the unit and it shall be awarded to the first applicant who files an application after the effective date of the relinquishment or cancellation and who meets the qualifications prescribed by the notice without regard to veterans preference.

FRED G. AANDAHL,
Assistant Secretary of the Interior.

MARCH 5, 1954.

[Commissioner's Order 20]

CHIEF, ADMINISTRATIVE SERVICES DIVISION

DELEGATION OF AUTHORITY WITH RESPECT TO SUPPLY AND SERVICE CONTRACTS, ADVERTISING AND PERSONAL PROPERTY

MARCH 26, 1954.

This order sets forth certain authorities of the "Chief, Administrative Services Division", which were heretofore exercised by the "Chief, Supply Field Division" or "Chief, Supply Services Division" pursuant to Circular Letter No. 3509, Commissioner's Orders Nos. 4 and 12, and Departmental Order No. 2341.

SECTION 1. *Delegation of authority.* The Chief, Administrative Services Division, Office of the Assistant Commissioner and Chief Engineer, Denver, Colorado, may exercise the following authority:

(a) *Supply and service contracts.* Approve, award, and execute contracts for supplies or services in conformity with applicable regulations and statutory requirements, and subject to the availability of funds therefor, where the amount involved does not exceed $200,000.

Approve and execute change orders and extra work orders pursuant to contracts for supplies or services where the amount involved does not exceed $200,000.

Approve and enter into modifications of contracts for supplies or services which are legally permissible and terminate such contracts if such action is legally authorized, where the amount does not exceed $200,000.

(Departmental Order No. 2509, Amt. No. 16, 17 F. R. 6793, and Amt. No. 18, 19 F. R. 433, Departmental Order No. 2585, 15 F. R. 6094)

(b) *Advertising.* Authorize the publication of advertisements, notices, or proposals.

(Departmental Order No. 2735)

(c) *Personal property.* Dispose of by sale, transfer, donation, or otherwise, personal property excess to the needs of the Bureau in accordance with the Federal Property and Administrative Services Act of 1949 as amended, and regulations issued thereunder by the Administrator of General Services.

(Departmental Order No. 2642, 16 F. R. 6318, as amended)

W. A. DEXHEIMER,
Commissioner.

FEDERAL TRADE COMMISSION

[File No. 21-451]

CHEMICAL SOIL CONDITIONER INDUSTRY

NOTICE OF HEARING AND OF OPPORTUNITY TO PRESENT VIEWS, SUGGESTIONS, OR OBJECTIONS

Opportunity is hereby extended by the Federal Trade Commission to any and all persons, firms, corporations, organizations, or other parties, including farm, labor, and consumer groups, affected by or having an interest in the proposed trade practice rules for the Chemical Soil Conditioner Industry, to present to the Commission their views concerning said rules, including such pertinent information, suggestions, or objections as they may desire to submit, and to be heard in the premises. For this purpose they may obtain copies of the proposed rules upon request to the Commission. Such views, information, suggestions, or objections may be submitted by letter, memorandum, brief, or other communication, to be filed with the Commission not later than April 23, 1954. Opportunity to be heard orally will be afforded at the hearing beginning at 10 a. m., e. s. t., April 23, 1954, in Room 3004 of the United States Court House, Foley Square, New York City, to any such persons, firms, corporations, organizations, or other parties, who desire to appear and be heard. After due consideration of all matters presented in writing or orally, the Commission will proceed to final action on the proposed rules.

The industry for which trade practice rules are sought to be established through these proceedings is composed of persons, firms, corporations, and organizations engaged in the production or marketing of commercial products having as their active ingredients materials falling within the following groups: Polyelectrolytes such as polyvinyls, and polyacrylics, and cellulose derivatives, and lignin derivatives, which are represented as having a primary function of forming soil aggregates in soil to which they have been applied and thereby improving the resistance of such soil to the slaking action of water, increasing its water and air permeability, improving the resistance of its surface to crusting, improving its ease of cultivation, and/or otherwise favorably modifying its structural or physical properties.

Issued: March 30, 1954.

By direction of the Commission.

[SEAL] ROBERT M. PARRISH,
Secretary.

HOUSING AND HOME FINANCE AGENCY

Public Housing Administration

CENTRAL OFFICE

DESCRIPTION OF AGENCY AND PROGRAMS AND FINAL DELEGATION OF AUTHORITY

Section II, delegations of final authority, is amended as follows:

1. Paragraph G 2 is amended by changing the first sentence to read as follows:

2. To accept service of process pursuant to attachment or garnishment proceedings served upon the Public Housing Administration with regard to any debtor-employee of the PHA, to execute all necessary and proper documents required in connection therewith, and to appear to testify therein for the PHA when so ordered by a court of competent jurisdiction and upon proper legal notice. • • •

2. Subparagraphs 12 and 13 are added to paragraph E as follows:

12. To execute dedications, licenses, permits and easements; to execute contracts with brokers, local authorities, or others for management or disposition; to execute contracts for the services of surveyors and appraisers; to consent to the annexation of project property by a political subdivision if necessary to facilitate disposition.

Assistant Director for Disposition, Chicago Field Office

13. To execute contracts of sale, removal or demolition, deeds, and transfer documents (other than documents relating to transfers of jurisdiction without reimbursement to other Federal agencies); to execute lease cancellations and settlements; to order and execute contracts for advertisements in connection with disposition of housing.

Assistant Director for Disposition, Chicago Field Office
Chief of the Disposition Section, Chicago Field Office.

Date approved: March 22, 1954.

CHARLES E. SLUSSER,
Commissioner.

SECURITIES AND EXCHANGE COMMISSION

[File Nos. 30-58, 54-196, 59-97, 70-2681, 70-3156]

MISSION OIL CO. ET AL.

ORDER TERMINATING SOUTHWESTERN DEVELOPMENT CO. REGISTRATION AS HOLDING COMPANY AND RESERVING JURISDICTION OVER FEES AND EXPENSES

MARCH 29, 1954.

In the matter of the Mission Oil Company, Southwestern Development Company, and Subsidiaries, and Sinclair Oil Corporation, File Nos. 54-196, 59-97; Albert R. Jones, et al., File No. 70-2681; Southwestern Development Company, Amarillo Gas Company, Amarillo Oil Company, Clayton Gas Company, Dalhart Gas Company, Red River Gas Company, West Texas Gas Company, File No. 70-3156; Southwestern Development Company, File No. 30-58.

The Commission having on December 24, 1953 granted and permitted to become effective an application-declaration filed by Southwestern Development Company ("Southwestern"), a registered holding company, and its subsidiary companies, pursuant to sections 7, 10, and 12 of the Public Utility Holding Company Act of 1935 ("act") in which it was proposed, among other things, that all of the properties of the Southwestern holding-company system should be placed in Amarillo Gas Company, whose name would be changed to Pioneer Natural Gas Company ("Pioneer"), and in Pioneer's proposed non-utility subsidiary, Amarillo Oil Company, and that Southwestern should be liquidated and dissolved after distributing to its stockholders, in exchange for their shares of Southwestern, a pro rata amount of the common stock of Pioneer; and

Southwestern having requested that upon consummation of the proposed transactions and the filing of a Certificate of Notification with respect thereto, the Commission enter an order, pursuant to section 5 (d) of the act that Southwestern has ceased to be a holding company and that its Registration Statement under the act has ceased to be in effect; and the Commission in its order of December 24, 1953, having reserved jurisdiction to enter such an order; and

Southwestern now having filed its Certificate of Notification No. 1, which represents:

1. That on December 31, 1953, the steps required to place all of the properties of the Southwestern holding-company system in Pioneer and its single nonutility subsidiary, Amarillo Oil Company, were completed leaving as the only asset of Southwestern 1,455,514 shares of Pioneer capital stock, $7.50 par value, and that Clayton Gas Company, Dalhart Gas Company, Red River Gas Company and West Texas Gas Company were dissolved.

2. That on February 15, 1954, pursuant to appropriate resolutions of its stockholders and directors, Southwestern assigned and delivered the 1,455,514 outstanding shares of Pioneer stock to Guaranty Trust Company of New York, the Transfer Agent of Pioneer, with instructions for the transfer of said shares on the books of Pioneer to the Southwestern stockholders, on the basis of two shares of Pioneer stock for one share of Southwestern stock, and that on February 18, 1954, Southwestern filed an appropriate Notice of Dissolution which, it is stated, will become effective on April 6, 1954.

It appearing to the Commission that Southwestern no longer, either directly or indirectly, owns, controls or holds with power to vote, any stock of any public-utility or holding company and that it is appropriate to enter an order pursuant to section 5 (d) of the act declaring that Southwestern has ceased to be a holding company and that, subject to the condition set forth below, the registration of such company has ceased to be in effect:

It is ordered, That Southwestern has ceased to be a holding company and that its registration has ceased to be in effect, upon the condition, however, that the jurisdiction over fees and expenses heretofore reserved in the Commission's orders of December 21, 1951, and December 24, 1953, be, and the same hereby is, continued.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
Secretary.

[F. R. Doc. 54-2354; Filed, Apr. 1, 1954; 8:48 a. m.]

[File No. 70-3207]

GEORGIA POWER CO.

ORDER AUTHORIZING PROPOSED ISSUE AND SALE OF FIRST MORTGAGE BONDS

MARCH 29, 1954.

Georgia Power Company ("Company"), a public utility subsidiary of The Southern Company, a registered holding

company, having filed with this Commission an application and amendments thereto pursuant to section 6 (b) of the Public Utility Holding Company Act of 1935 ("act") and Rule U-50 thereunder, with respect to the following proposed transaction:

The Company proposes to issue and sell, subject to the competitive bidding requirements of Rule U-50, $11,000,000 principal amount of First Mortgage Bonds, __ percent Series due 1984. The interest rate (which shall be a multiple of ⅛ of 1 percent) and the price to be paid to the Company (which shall be not less than 100 percent nor more than 102¾ percent of the principal amount, exclusive of accrued interest from April 1, 1954 to date of payment and delivery) will be determined by competitive bidding. The new Bonds will be secured by the Mortgage and Deed of Trust executed by the Company to The New York Trust Company, Trustee, dated as of March 1, 1941, as heretofore supplemented and as further supplemented by Supplemental Indenture to be dated as of April 1, 1954.

The Company proposes to use the net proceeds from the sale of the new Bonds, together with other available funds, for the construction or acquisition of permanent improvements, extensions, and additions to its property. The Company estimates that its 1954 construction program will require expenditures of approximately $33,000,000.

The issue and sale of said Bonds have been expressly authorized by the Public Service Commission of Georgia, in which State the Company is organized and doing business.

The Company requests that the order of the Commission herein be made effective upon issuance.

Fees and expenses of issuance and distribution, payable by the Company, are estimated not to exceed the following amounts:

Federal original issue tax	$12,100
Filing fee—Securities and Exchange Commission	1,133
Listing on New York Stock Exchange	1,320
Charges of trustee (including counsel)	7,800
Cost of temporary and definitive bonds	8,000
Printing and preparation of registration statement, financial statements, prospectus, competitive bidding papers, supplemental indenture, etc.	20,000
Recording supplemental indenture	4,000
Services of Southern Services, Inc. (mutual service company)	7,000
Fees and expenses of counsel (Winthrop, Stimson, Putnam & Roberts)	9,100
Fees and expenses of accountants (Arthur Andersen & Co.)	4,350
Miscellaneous, including telephone and telegraph charges and traveling expenses	3,000
Total	77,803

The above fees and expenses do not include a fee of $6,000 payable by the successful bidders to their counsel, Simpson, Thacher & Bartlett.

Due notice having been given of the filing of said application, and a hearing not having been requested of or ordered by the Commission; and the Commission finding that the applicable provisions of the act and rules promulgated thereunder are satisfied, and that no adverse findings are necessary; and deeming it appropriate in the public interest and in the interest of investors and consumers that said application as amended be granted, effective forthwith:

It is ordered, Pursuant to Rule U-23 and the applicable provisions of the act, that said application as amended be, and the same hereby is, granted, effective forthwith, subject to the terms and conditions prescribed in Rule U-24 and Rule U-50.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[F. R. Doc. 54-2355; Filed, Apr. 1, 1954; 8:48 a. m.]

[File No. 70-3208]

NATIONAL FUEL GAS CO. ET AL.

ORDER AUTHORIZING ISSUANCE AND SALE OF DEBENTURES BY HOLDING COMPANY, AND OF COMMON STOCKS AND NOTES BY SUBSIDIARY COMPANIES

MARCH 29, 1954.

In the matter of National Fuel Gas Company, Iroquois Gas Corporation, United Natural Gas Company, Pennsylvania Gas Company, Republic Light, Heat and Power Company, Inc.; File No. 70-3208.

National Fuel Gas Company ("National"), a registered holding company, and its gas utility subsidiaries, Iroquois Gas Corporation ("Iroquois"), United Natural Gas Company ("United"), Pennsylvania Gas Company ("Pennsylvania"), and Republic Light, Heat and Power Company, Inc. ("Republic"), having filed with this Commission a joint application-declaration and amendments thereto pursuant to sections 6, 7, 9 (a), 10 and 12 (f) of the Public Utility Holding Company Act of 1935 ("act") and Rules U-43 and U-50 thereunder, with respect to the following proposed transactions:

It is stated that Iroquois, United, Pennsylvania and Republic have substantial construction programs during 1954 involving additional plant facilities needed to provide adequate service to the public, the total estimated cost of which is $11,364,250; that Republic has a bank loan of $1,500,000 maturing in 1954, the payment of which is contemplated; that Republic plans also to conduct a conversion program during 1954, involving alteration of its gas distribution plant and facilities to provide gas of higher thermal content and adjustment of the gas burning appliances in over 34,000 dwelling units at an estimated cost of approximately $720,000; and that, in order to provide the funds so required by these companies, the following transactions are proposed:

Transaction No. 1. National proposes to issue and sell, subject to the competitive bidding requirements of Rule U-50, $15,000,000 principal amount of its __ Percent Sinking Fund Debentures due 1979. The interest rate on the Debentures (which shall be a multiple of ⅛ of 1 percent) and the price (exclusive of accrued interest) to be paid for the Debentures (which shall be not less than 100 percent nor more than 102¾ percent of the principal amount) will be determined by the competitive bidding. The Debentures will be issued pursuant to the provisions of an Indenture between National and The Hanover Bank, Trustee, to be dated as of April 15, 1954.

National proposes to use the net proceeds from the sale of these Debentures to purchase the capital stocks of or to make loans to its said subsidiaries, and to apply any balance of the net proceeds not so needed, estimated at approximately $2,500,000, to reduce its outstanding bank loans, which aggregated $13,000,000 in principal amount at December 31, 1953.

Transaction No. 2. Iroquois proposes to issue and sell, and National proposes to buy, 45,000 shares of Iroquois' common capital stock, of a par value of $100 per share, for $4,500,000 cash.

Iroquois proposes to use the net proceeds from the sale of this stock, together with funds from current operations, to finance its 1954 construction program, estimated at $4,695,000, and to discharge short-term bank loans aggregating $1,000,000 made in connection with the company's 1953 construction program.

Transaction No. 3. United proposes to issue and sell, and National proposes to buy, 92,000 shares of United's no par common capital stock (having a stated value of $25 per share) for $2,300,000 cash.

United proposes to use the net proceeds from the sale of this stock, together with funds from current operations, to finance its 1954 construction program, estimated at $2,889,100.

Transaction No. 4. Pennsylvania proposes to issue and offer for sale to its stockholders, pursuant to their preemptive rights, on the basis of one share for each 12½ shares held on the record date, 46,080 shares without par value (having a stated value of $12.50 per share) of its common capital stock at a subscription price of $15 per share.

It is stated that National owns 356,931 shares (61.97 percent) of the common stock of Pennsylvania now outstanding; that National proposes to exercise its preemptive right and subscribe for 28,554 shares for a total purchase price of $428,310; that the remaining stockholders of Pennsylvania will be entitled to subscribe for 17,526 shares for a total purchase price of $262,890; that in addition to their primary subscription rights, all stockholders will be accorded a conditional purchase privilege, subject to allotment pro rata according to their primary subscription rights exercised, to subscribe for additional shares of the stock allocated for public subscription; that subscription rights and conditional purchase privileges will be evidenced by negotiable warrants expiring on April 26, 1954; that no fractional shares will be issued; that Warren National Bank, of Warren, Pennsylvania, will act as subscription agent and will assist, without charge to the subscribers for such services, in buying and selling rights in order that subscriptions may be made for full shares; that, according to the "Weekly Over-the-Counter List" published by The Wall Street Journal for February 23, 1954, the market prices for Pennsylvania's common stock were $15.50 bid and $17.00 asked.

National states that it intends to subscribe for 28,554 additional shares, and to exercise its conditional purchase privilege and purchase such shares as are allotted to it under such privilege. Pennsylvania has entered into an agreement with National whereby Pennsylvania agrees to sell to National, and National agreed to purchase, at the subscription price of $15 per share, the total number of additional shares not taken by other stockholders.

Pennsylvania proposes to apply the proceeds from the sale of said stock to finance its 1954 construction program, estimated at $2,108,650, and to increase its supply of gas in underground storage.

Transaction No. 5. Pennsylvania also proposes to issue and sell, and National proposes to buy, from time to time during 1954, promissory notes aggregating in principal amount not to exceed $1,500,000. Such notes will be unsecured and each will be in the principal amount of $125,000. The notes will mature at annual intervals beginning April 1, 1967. Each note will bear interest at a rate per annum equal to the interest rate applicable to National's 1954 Debenture issue, plus ⅛ of 1 percent, payable semi-annually on April 1 and October 1 of each year until paid in full. Pennsylvania will have the option of prepaying these notes in whole or in part, after payment in full of all notes presently outstanding, which aggregated $5,400,000 at December 31, 1953 and which are held by National.

Pennsylvania will use the proceeds from the sale of said notes, together with funds to become available through the sale of its common stock as aforesaid, to finance its 1954 construction program.

Transaction No. 6. Republic proposes to issue and sell, and National proposes to buy 30,00 shares of Republic's capital stock, of a par value of $100 per share, for $3,000,000 cash.

Republic proposes to apply the net proceeds from the sale of this stock (1) to repay back loans due October 1, 1954 in the amount of $1,500,000, and (2) to finance, in part, its 1954 construction program, estimated at $1,671,500.

Transaction No. 7. Republic proposes to issue and sell, and National proposes to buy, from time to time during 1954, promissory notes aggregating in principal amount not to exceed $720,000. Such notes will mature in the aggregate amount of $90,000 on May 15 of each year beginning with the year 1955, and will bear interest at a rate per annum equal to the coupon interest rate applicable to National's 1954 Debenture issue, plus ⅛ of 1 percent, payable semiannually.

Republic proposes to use the net proceeds from the sale of these notes to pay the cost of its 1954 conversion program aforesaid.

Transactions Nos. 2, 6, and 7 aforesaid have been expressly authorized by the Public Service Commission of New York, in which State Iroquois and Republic are organized and doing business. The securities proposed to be issued under Transactions Nos. 3, 4, and 5 have been duly registered by order of the Public Utility Commission of Pennsylvania, in which State United and Pennsylvania are organized and doing business.

National has estimated that its expenses of issuance and distribution in connection with Transaction No. 1 will aggregate $90,000, including fees of the trustee (including trustee's counsel) in the amount of $7,500, fee of National's counsel in the amount of $8,000, and an engineer's fee in the amount of $15,000. No estimate has been filed with respect to the fees and expenses to be incurred in connection with Transactions Nos. 2 to 7 inclusive, nor have supporting affidavits been filed with respect to any of said fees and expenses.

Applicants-declarants request that the Commission's order to be entered herein become effective upon issuance.

Due notice having been given of the filing of said application-declaration, and a hearing not having been requested of or ordered by the Commission; and the Commission finding that the applicable provisions of the act and rules thereunder are satisfied and that no adverse findings are necessary, and deeming it appropriate in the public interest and in the interest of investors and consumers that said application-declaration as amended should be granted and permitted to become effective herewith, subject to the conditions and reservations below set out:

It is ordered, Pursuant to Rule U-23 and the applicable provisions of the act, that said application-declaration as amended be, and it hereby is, granted and permitted to become effective forthwith, subject to the terms and conditions prescribed in Rules U-24 and U-50, and subject also to reservation of jurisdiction with respect to all fees and expenses to be paid in the several transactions.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[File No. 70-3217]

COLUMBIA GAS SYSTEM, INC.

ORDER AUTHORIZING EXTENSION OF SHORT-TERM BANK NOTES

MARCH 29, 1954.

The Columbia Gas System, Inc. ("Columbia"), a registered holding company, having filed a declaration pursuant to sections 6 and 7 of the Public Utility Holding Company Act of 1935 ("act") regarding a proposed transaction which is summarized as follows:

By order dated May 21, 1953, the Commission permitted to become effective a declaration filed by Columbia regarding the borrowing of not in excess of $30,000,000 from certain designated banking institutions. (Holding Company Act Release No. 11931.) Pursuant thereto, Columbia issued short-term 3 percent notes, evidencing the bank borrowing, to be repaid in installments of $9,000,000 on February 26, 1954, $9,000,000 on March 31, 1954, and $12,000,000 on April 30, 1954.

Columbia paid the first installment of $9,000,000 on February 26, 1954, and has made arrangements with the lending banks to extend the maturity dates of the last two installments (aggregating $21,000,000) to May 31, 1954. Interest on the $9,000,000 installment due March 31, 1954, will accrue from March 31 to May 31, 1954, at the prime rate for short-term money as at March 31, 1954. Interest on the $12,000,000 installment due April 30, 1954, will accrue from April 30, 1954, to May 31, 1954, at the prime rate for short-term money as at April 30, 1954. Under the new arrangements Columbia has the option to prepay either or both of the installments presently due on March 31, 1954 and April 30, 1954 at any time after April 30, 1954.

According to Columbia, the original $30,000,000 of bank indebtedness was incurred for the purpose of obtaining funds to advance to its subsidiaries to finance their purchase of inventory gas. The proposed extension of the unpaid balance of the bank loans is considered an interim arrangement to enable Columbia to meet a portion of the cash requirements of its subsidiaries in connection with their 1954 construction program until funds are obtained by Columbia from the sale of securities which is the subject of a declaration now pending before the Commission (File No. 70-3210).

It is stated that no State commission has jurisdiction over the proposed transaction. It is requested that the Commission's orders herein be made effective upon issuance.

Due notice having been given of the filing of the declaration, and a hearing not having been requested of or ordered by the Commission; and the Commission finding that the applicable provisions of the act and the rules promulgated thereunder are satisfied and that no adverse findings are necessary, and deeming it appropriate in the public interest and in the interest of investors and consumers that said declaration be permitted to become effective forthwith:

It is ordered, Pursuant to Rule U-23 and the applicable provisions of the act, that said declaration be, and it hereby is, permitted to become effective forthwith, subject to the terms and conditions prescribed in Rule U-24.

By the Commision.

[F. R. Doc. 54-2361; Filed, Apr. 1, 1954; 8:49 a. m.]

[File No. 812-867]

EQUITY CORP. ET AL.

NOTICE OF FILING OF APPLICATION REQUESTING ORDER PERMITTING AFFILIATE TO REDEEM ITS PREFERRED STOCK

MARCH 29, 1954.

In the matter of The Equity Corporation, Electromode Corporation, Commer-

cial Controls Corporation; File No. 812-867.

Notice is hereby given that The Equity Corporation ("Equity"), a registered closed-end, non-diversified management investment company, and Electromode Corporation ("Electromode"), an affiliate of Equity, on behalf of themselves and also of Commercial Controls Corporation ("Commercial"), a majority-owned subsidiary of Equity, have filed an application under section 17 (b) of the Investment Company Act of 1940 ("act"), for an order exempting from the provisions of section 17 (a) of the act the redemption by Electromode of all (18,000 shares) of its outstanding 80-cent Cumulative Preferred Stock, 40 cents par value, of Electromode, all of which is owned by Commercial.

The sole business of Electromode consists of the manufacture and distribution of space heaters. In addition to preferred stock, Electromode has outstanding 2,000 shares of common stock, par value 10 cents per share, of which Equity holds 868.6 shares (43.43 percent) and Commercial holds 1,001 shares (50.05 percent). The common and preferred stocks of Electromode have one vote per share, and Equity and Commercial presently control 99.35 percent of the voting power; if the preferred stock is redeemed, as is proposed, Commercial and Equity will control 93.4 percent of the voting power.

Commercial manufactures and markets tape-controlled automatic typing machines, mail room machines and equipment and production control machines and systems. The capitalization of Commercial consists of 3 percent notes due serially from 1961 to 1970 in the principal amount of $2,678,000 of which Equity owns $1,325,500 (49.48 percent) and 100,000 shares of common stock, par value 10 cents per share, of which Equity owns 54,000 shares (54 percent).

Electromode proposes to redeem and retire its outstanding 18,000 shares of preferred stock at the redemption price of $20 per share, plus accrued and unpaid cumulative dividends. The aggregate redemption price of the outstanding shares will be $360,000 plus dividends which have accrued from January 1, 1954.

In support of the proposed transaction, the application states that the cash needs of the company do not require the retention of the cash which is proposed to be used to redeem the preferred stock. It is further stated that any necessary funds can be obtained from a local bank up to a maximum of $250,000 at any one time outstanding at a current rate of interest of 3¼ percent. The application states that even if the maximum borrowing is required, which is not anticipated, substantial savings will result due to the fact that the interest cost on the loan will be materially less than the dividend requirements on the preferred stock.

Section 17 (a) of the act makes it unlawful, subject to certain exceptions not relevant here, for an affiliated person of a registered investment company, or an affiliate of such a person, to sell to or purchase from such registered company, or any company controlled by such registered company, any security or other property. However, under section 17 (b) of the act, the Commission upon application shall grant an exemption from the provisions of section 17 (a) of the act if it finds that the terms of the proposed transaction, including the consideration, are reasonable and fair and do not involve overreaching on the part of anyone concerned and that the proposed transaction is consistent with the policy of each registered investment company concerned, as recited in its registration statement and reports filed under the act, and with the general purposes of the act.

For a more detailed statement of the matters of fact and law asserted, all persons are referred to the application which is on file in the offices of the Commission in Washington, D. C.

Notice is further given that any interested person may, not later than April 12, 1954, at 5:30 p. m., submit to the Commission in writing any facts bearing upon the desirability of a hearing on the matter and may request that a hearing be held, such request stating the nature of his interest, the reasons for such request and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission should order a hearing thereon. Any such communication or request should be addressed: Secretary, Securities and Exchange Commission, 425 Second Street NW., Washington 25, D. C. At any time after said date, the application may be granted as provided in Rule N-5 of the rules and regulations promulgated under the act.

By the Commission.

[File No. 812-870]

COMPOSITE BOND AND STOCK FUND, INC., ET AL.

NOTICE OF APPLICATION FOR ORDER EXEMPTING SALE OF INVESTMENT COMPANY SHARES TO EMPLOYEES, SALES REPRESENTATIVES, OFFICERS OR DIRECTORS AT LESS THAN PUBLIC OFFERING PRICE

MARCH 29, 1954.

In the matter of Composite Bond and Stock Fund, Inc., Composite Fund, Inc., Composite Research & Management Co., and Murphey Favre, Inc.; File No. 812-870.

Notice is hereby given that Composite Bond and Stock Fund, Inc. ("Bond") and Composite Fund, Inc. ("Fund"), both registered open-end diversified management investment companies, and Composite Research & Management Co. ("Research"), the investment manager of Bond and Fund, and Murphey Favre, Inc. ("Favre"), the principal underwriter-distributor of Bond and Fund, have filed an application pursuant to section 6 (c) of the Investment Company Act of 1940 ("act") for an order exempting from the provisions of section 22 (d) of the act the offering of shares of both Bond and Fund at reduced offering prices, but not less than their respective net asset values, to employees, sales representatives, officers or directors of Bond, Fund, Research and Favre.

It is proposed that the sales made to any of the above-mentioned persons will be on the same basis and any person making a purchase will be required to sign a statement agreeing not to resell such shares except by regular redemption, in the usual manner, to the company issuing the shares. It is the present intention of Favre to waive any sales load to which it would be entitled and to make all sales to such persons at net asset value.

The application states that the shares of Bond and Fund are offered and sold by Favre, primarily through its own sales organization by means of a prospectus in the form required by the Securities Act of 1933, as amended. Such prospectus states the public offering price, or prices, at which shares are to be sold and will include complete information with respect to the offering price of shares as proposed in this application, if the requested exemption is granted.

Section 22 (d) of the act, among other things, prohibits the sale of redeemable securities of a registered investment company below the current public offering price described in the prospectus, with certain exceptions. Section 6 (c) of the act authorizes the Commission by order upon application conditionally or unconditionally to exempt any transaction from any provision or provisions of the act or of any rule or regulation thereunder, if and to the extent that the Commission finds that such exemption is necessary or appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the act.

Applicants assert that the instant proposal will in no way adversely affect the shareholders of Bond or Fund, nor will it adversely affect the interests of any future purchasers of their shares since Bond and Fund will continue to receive the full net asset value for all shares sold. The proposed waiver of sales commissions will be entirely a concession by Favre, however, since Favre will incur very little expense because of this proposal and the amount of the sales load it will forego will be relatively insignificant, it is the viewpoint of all the applicant companies that the proposal is a desirable personnel move and will produce lasting benefits to the applicants through the improvement in employee goodwill, all without detriment to the interest of any shareholder of the investment companies or the management and research companies.

For a more detailed statement of the matters of fact and law asserted, all interested persons are referred to said application which is on file in the office of the Commission in Washington, D. C.

Notice is further given that any interested person may, not later than April 12, 1954, at 5:30 p. m., submit to the Commission in writing any facts bearing upon the desirability of a hearing on the matter and may request that a hearing be held, such request stating the nature of his interest, the reasons for such request and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission should order a hearing thereon. Any such communication or request should be addressed: Secretary, Securities and Exchange Commission, 425 Second Street NW., Washington 25, D. C. At any time after said date, the application may be granted as provided in Rule N-5 of the rules and regulations promulgated under the act.

By the Commission.

[File No. 812-872]

AMERICAN RESEARCH AND DEVELOPMENT CORP. AND CONTROL ENGINEERING CORP.

NOTICE OF FILING OF APPLICATION REQUESTING ORDER EXEMPTING BORROWING OF MONEY BY AFFILIATE FROM INVESTMENT COMPANY

MARCH 29, 1954.

Notice is hereby given that American Research and Development Corporation ("Research"), a Massachusetts corporation, and a registered closed-end, non-diversified management investment company and Control Engineering Corporation ("Control"), a Massachusetts corporation, and an affiliate of Research, have filed an application, as amended, for an order under section 17 (b) of the Investment Company Act of 1940 ("act") exempting from the provisions of section 17 (a) thereof the proposed purchase by Research of up to $200,000 of the Ten Year 5¾ Percent Convertible Notes proposed to be issued by Control in the principal amount of $250,000.

Control has as its principal business the design and manufacture of precision mechanical, hydraulic and electronic instruments and controls. Prior to the issuance of the proposed note, control proposes to split its common stock, Class A, and its common stock, Class B, five for one, and the par value of the Class A stock will become $4 per share and the stated value of the Class B stock will become $2 per share. In addition, Control has on March 26, 1954 offered to the holders of its Class A stock, on a pro rata basis, 700 shares of Class A stock at $50 per share (or 3,500 shares at $10 per share after the five for one split-up). Of this amount, it is expected that Research will subscribe for its pro rata share and will purchase 245 shares (or 1,227 shares after the five for one split-up).

Reflecting the split-up and the proposed sale of additional common stock mentioned above, the capitalization of Control, as forecast by the company as at March 31, 1954, will consist of $1,054,385 of notes payable to a bank; $21,825 of mortgage loans on machinery and equipment; 30,915 shares of Class A, non-voting, common stock; and 17,600 shares of Class B, voting common stock. Research will own 13,967 shares, or 45.2 percent of the outstanding Class A, non-voting, common stock and 3,105 shares, or 17.6 percent of the outstanding Class B, voting common stock. Since Research holds more than 5 per centum of the outstanding voting securities of Control, Research and Control are affiliated persons of one another, as defined in section 2 (a) (3) of the act.

Control proposes to issue and sell $250,000 of Ten Year 5¾ Percent Convertible Notes at a discount of 10 percent, by offering to each stockholder of Control the right to purchase his pro-rata share of the notes, plus a pro-rata share of any notes not purchased by any other stockholder. As noted before, Research has agreed to underwrite the proposal to the extent of agreeing to purchase up to $200,000 of the notes, which is approximately $112,000 in excess of Research's pro-rata share. The notes may be prepaid by Control after one year from the date of issue by paying a premium of 10 percent during the first six years, 7½ percent during the seventh year, 5 percent during the eighth year, and 2½ percent during the ninth year. During the tenth year, the notes may be prepaid without premium.

After one year from the date of issue, the notes may be converted into shares of Class A common stock at the rate of exchange of 61.8 shares of said Class A common stock for each $1,000 of the principal sum so converted. The Class A and Class B common stocks are pari passu except that the Class A common stock has no voting rights but has a priority in liquidation to the extent of its per value of $4 per share. It is also proposed that the notes will be fully subordinated as to principal with respect to all present and future V-loan borrowings for the financing of defense production contracts, and any indebtedness incurred in the ordinary course of business and maturing by its terms within twelve months from the date on which such indebtedness was incurred.

Control proposes to use the proceeds of the notes to consummate an agreement to purchase additional land and buildings in order to expand its plant facilities.

Section 17 (a) of the act, among other things, makes it unlawful for any affiliated person of a registered investment company to borrow money or other property from such registered company, with certain exceptions not pertinent here. However, under section 17 (b) of the act, the Commission, upon application shall grant an exemption from the provisions of section 17 (a) of the act if it finds that the terms of the proposed transaction, including the consideration to be paid or received, are reasonable and fair and do not involve overreaching on the part of any person concerned and that the proposed transaction is consistent with the policy of each registered investment company concerned, as recited in its registration statement and reports filed under the act, and with the general purposes of the act.

For a more detailed statement of the matters of fact and law asserted, all persons are referred to the application which is on file in the offices of the Commission in Washington, D. C.

Notice is further given that any interested person may, not later than April 12, 1954, at 5:30 p. m., submit to the Commission in writing any facts bearing upon the desirability of a hearing on the matter and may request that a hearing be held, such request stating the nature of his interest, the reasons for such request and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission should order a hearing thereon. Any such communication or request should be addressed: Secretary, Securities and Exchange Commission, 425 Second Street NW., Washington 25, D. C. At any time, after said date, the application may be granted as provided in Rule N-5 of the rules and regulations promulgated under the act.

By the Commission.

INTERSTATE COMMERCE COMMISSION

[4th Sec. Application 29061]

WINDOW GLASS FROM ARKANSAS, OKLAHOMA, AND LOUISIANA TO MOBILE, ALA.

APPLICATION FOR RELIEF

MARCH 30, 1954.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: F. C. Kratzmeir, Agent, for carriers parties to schedule listed below.

Commodities involved: Window glass, carloads.

From: Fort Smith, Ark., Henryetta and Okmulgee, Okla., and Shreveport, La.

To: Mobile, Ala.

Grounds for relief: Rail competition, competition with water carriers, market competition, and foreign competition.

Schedules filed containing proposed rates: F. C. Kratzmeir, Agent, I. C. C. No. 3841, supp. 48.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing,

upon a request filed within that period, may be held subsequently.

By the Commission.

[4th Sec. Application 29065]

ALCOHOL FROM TUSCOLA, ILL., TO BALTIMORE, MD., NEWARK AND CARNEY'S POINT, N. J.

APPLICATION FOR RELIEF

MARCH 30, 1954.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: H. R. Hinsch, Alternate Agent, for carriers parties to schedule listed below.

Commodities involved: Denatured alcohol, and alcohol, in bond, in tank-car loads.

From: Tuscola, Ill.

To: Carney's Point and Newark, N. J., and Baltimore, Md.

Grounds for relief: Competition with water-rail carriers.

Schedules filed containing proposed rates: H. R. Hinsch, Alternate Agent, I. C. C. No. 4542, supp. 53.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission.

[4th Sec. Application 29066]

SUGAR FROM SAVANNAH AND PORT WENTWORTH, GA., TO CINCINNATI, OHIO, AND LOUISVILLE, KY.

APPLICATION FOR RELIEF

MARCH 30, 1954.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: R. E. Boyle, Jr., Agent, for carriers parties to schedule listed below.

Commodities involved: Sugar, in carloads

From: Savannah and Port Wentworth, Ga., and points grouped therewith.

To: Cincinnati, Ohio, and Louisville, Ky., and points grouped therewith.

Grounds for relief: Competition with rail carriers, circuity, and to maintain grouping.

Schedules filed containing proposed rates: W. P. Emerson, Jr., Agent, I. C. C. No. 380, supp. 207.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

FEDERAL REGISTER

VOLUME 19 NUMBER 65

Washington, Saturday, April 3, 1954

TITLE 3—THE PRESIDENT

EXECUTIVE ORDER 10525

TRANSFERRING FROM THE SECRETARY OF THE NAVY TO THE SECRETARY OF THE INTERIOR INTEREST IN AND CONTROL OVER CERTAIN FUNDS

By virtue of the authority vested in me as President of the United States, and in the interest of the internal management of the Government, it is hereby ordered as follows:

The Secretary of the Navy's interest in, and control over, the moneys deposited by him in accordance with the provisions of Executive Order No. 10426 of January 16, 1953, entitled "Setting aside Submerged Lands of the Continental Shelf as a Naval Petroleum Reserve", in a suspense account in the Treasury of the United States, shall hereafter be vested in and exercised by the Secretary of the Interior, in the same manner as in the case of the moneys deposited in a special account in the Treasury of the United States in accordance with the provisions of the notice of the Secretary of the Interior dated December 11, 1950 (15 F. R. 8835), as amended and supplemented, such moneys to be expended or deposited as provided by the Submerged Lands Act (67 Stat. 29) and the Outer Continental Shelf Lands Act (67 Stat. 462).

DWIGHT D. EISENHOWER

THE WHITE HOUSE,
April 1, 1954.

TITLE 5—ADMINISTRATIVE PERSONNEL

Chapter III—Foreign and Territorial Compensation

Subchapter C—Civil Service Commission

PART 350—TERRITORIAL POST DIFFERENTIALS AND TERRITORIAL COST-OF-LIVING ALLOWANCES

PUERTO RICO AND VIRGIN ISLANDS

Effective upon publication in the FEDERAL REGISTER, the item in § 350.10 *Places and rates at which territorial post differentials shall be paid* which reads "Puerto Rico and Virgin Islands of the United States: 15 percent of rate of basic compensation" is revoked and an item for Puerto Rico and Virgin Islands is added to § 350.11. As amended, §§ 350.10 and 350.11 read in pertinent part as follows:

§ 350.10 *Places and rates at which territorial post differentials shall be paid.* • • •

American Samoa (including the island of Tutuila, the Manua Islands, and all other islands of the Samoan group east of longitude 171 degrees west of Greenwich, together with Swains Island): 25 percent of rate of basic compensation.

Guam: 25 percent of rate of basic compensation.

Johnston or Cornwallis Island, and Sand Island: 25 percent of rate of basic compensation.

Midway Islands: 25 percent of rate of basic compensation.

Wake Island: 25 percent of rate of basic compensation.

Swan Islands: 25 percent of rate of basic compensation.

Canton Island: 25 percent of rate of basic compensation.

The Trust Territory of the Pacific Islands (which comprises the Caroline, Marshall, and Mariana Islands, except Guam): 25 percent of rate of basic compensation.

§ 350.11 *Places and rates at which territorial cost-of-living allowances shall be paid.* • • •

Alaska (including all the Aleutian Islands east of longitude 167 degrees east of Greenwich): 25 percent of rate of basic compensation.

Hawaii (excluding Ocean or Kure Island and Palmyra Island): 20 percent of rate of basic compensation.

Puerto Rico and Virgin Islands of the United States: 25 percent of rate of basic compensation.

(Sec. 202, Part II, E. O. 10,000, Sept. 16, 1948, 13 F. R. 5453; 3 CFR, 1948 Supp.)

TITLE 6—AGRICULTURAL CREDIT

Chapter IV—Commodity Stabilization Service and Commodity Credit Corporation, Department of Agriculture

Subchapter B—Loans, Purchases, and Other Operations

[1954 Honey Bulletin 1]

PART 434—HONEY

SUBPART—1954 HONEY PRICE SUPPORT PROGRAM

This bulletin contains the regulations applicable to the 1954 Honey Price Support Program whereby the Secretary of Agriculture makes price support for extracted honey available through the Commodity Credit Corporation and the Commodity Stabilization Service (hereinafter referred to as CCC and CSS respectively).

Sec.
434.501 Administration.
434.502 Availability of price support.
434.503 Eligible honey.
434.504 Ineligible honey.
434.505 Disbursement of loans.
434.506 Approved lending agencies.
434.507 Approved storage.
434.508 Applicable forms.
434.509 Liens.
434.510 Service charges.
434.511 Determination of quantity.
434.512 Determination of grade and color.
434.513 Maturity of loans.
434.514 Set-offs.
434.515 Interest rate.
434.516 Transfer of producer's interest.
434.517 Safeguarding the honey.
434.518 Insurance.
434.519 Loss or damage to honey.
434.520 Personal liability of the producer for the honey.
434.521 Release of the honey under loan.
434.522 Liquidation of loans and delivery under purchase agreements.
434.523 Purchase of notes.
434.524 Charges not to be assumed by CCC.
434.525 Support prices.
434.526 CSS commodity offices.

AUTHORITY: §§ 434.501 to 434.526 issued under sec. 4, 62 Stat. 1070 as amended; 15 U. S. C. Sup., 714b. Interpret or apply sec. 5, 62 Stat. 1072, secs. 201, 401, 63 Stat. 1052, 1054; 15 U. S. C. Sup., 714c, 7 U. S. C. Sup., 1446, 1421.

§ 434.501 *Administration.* This subpart will be administered by the Sugar Division, CSS, under the general direction and supervision of the Executive Vice-President, CCC, and in the field will be carried out by State and County Agricultural Stabilization and Conservation Committees (hereinafter called State and county committees) and CSS commodity offices. Producers interested in participating in the program should contact their county committees, through which the price support documents will be distributed. All documents will be completed and approved by the county committees, which will retain copies thereof. A State committee may authorize a county committee to designate in writing certain employees of the county committee to approve documents on behalf of the county committee. The names of the employees delegated to approve documents on behalf of a county committee shall be submitted in writing to the State committee for approval. State and county committees and CSS commodity offices do not have authority to modify or waive any of the provisions of this subpart, or any amendments or supplements to this subpart.

§ 434.502 *Availability of price support*—(a) *Method of support.* Price support on extracted honey will be made available to producers through loans on such honey stored in approved farm storage, and through purchase agreements.

(b) *Area.* Farm-storage loans and purchase agreements will be available wherever eligible honey is produced in the continental United States.

(c) *Where to apply.* Application for price support should be made at the office of the county committee of the county in which the producer's place of operation is located or, if producer has more than one place of operation, at the office of the county committee of the county in which the honey is stored.

(d) *When to apply.* Loans and purchase agreements will be available from April 1, 1954 through December 31, 1954, in Florida, Georgia, South Carolina, Alabama, Mississippi, Louisiana, Texas, New Mexico, Arizona and California. In all other States, loans and purchase agreements will be available from July 1, 1954 through December 31, 1954. Applicable documents must be signed by the producer and delivered to the county committee not later than December 31, 1954.

(e) *Eligible producer.* (1) An eligible producer shall be any individual, partnership, association or corporation producing extracted honey in 1954. Any group of eligible producers may designate in writing, in the form or forms prescribed by CCC, an agent to act in their behalf in obtaining price support under this subpart. A copy of each designation of agent signed by one or more producers, and indicating the maximum quantity of honey on which each producer wishes either a loan or purchase agreement, must be delivered to the county committee before any purchase agreement or loan documents on behalf of the group are approved by the county committee.

(2) Cooperative marketing associations of producers shall be deemed to be eligible producers for loans and purchase agreements on eligible honey received from the producers thereof: *Provided*, That (i) the producer members are bound by contract to deliver their eligible honey to the association free from all liens and encumbrances; (ii) the proceeds of the eligible honey marketed by the association are shared proportionately among the eligible producers according to the grade and quantity of such honey each delivers to the association; (iii) the association has authority to obtain a loan on the security of the honey and to give a lien thereon as well as authority to sell such honey. Only honey received from producers under such conditions may be delivered to CCC under a loan or purchase agreement. All determinations with respect to whether or not a given organization is a cooperative marketing association of

producers pursuant to this section shall be made by or under the direction of the State committee.

§ 434.503 *Eligible honey.* Any honey other than that described in § 434.504 which meets the following requirements is eligible for price support.

(a) The honey must be of the 1954 crop, produced and extracted in continental United States by an eligible producer.

(b) The honey shall be packed in containers of a capacity of not less than 5 gallons nor greater than 70 gallons, and of a style used in normal commercial practice in the honey industry. Five-gallon containers shall be filled with 60 pounds net of honey. Larger containers shall be filled to their rated capacities.

(1) The 5-gallon containers shall be new, clean, sound, uncased and free from appreciable dents and rust. The handle of each container shall be firm and strong enough to permit carrying the filled can. The can closures shall be complete, including the cap liner prescribed for the particular style of can. The threads on both the cap and the can opening shall not be damaged in any way that will prevent a tight seal. Cans which are punctured, or which have been punctured and resealed by soldering, will not be acceptable.

(2) Steel drums shall be new drums, or used drums which have been reconditioned both inside and outside. Steel drums must be clean, and treated to prevent rusting. The drums must be fitted with gaskets which will provide a tight seal when closed.

(3) Other commercial containers, such as wooden barrels or kegs, which are new or which have been reconditioned, are acceptable if sound, clean and leakproof. Such containers must be closed with bungs or other appropriate leakproof closures.

(c) The beneficial interest in the honey must be in the producer tendering the honey for loans, or for delivery under a purchase agreement, and must always have been in him, or must have been in him and a former producer whom, before the honey was extracted, he succeeded as owner of the bees producing the honey. In the case of a cooperative marketing association these stipulations as to beneficial interest shall apply to each producer delivering to the association.

(d) The honey must be equal to or better than Grade C of the United States Standards for Grades of Extracted Honey, effective April 16, 1951: *Provided, however,* That in areas in which the State Committee determines that existing conditions make fermentation of high moisture honey probable during the period of storage, the maximum moisture content allowable may, with the approval of the Executive Vice President, CCC, be reduced from 20 percent to 18.6 percent for any or all floral sources.

(e) Honey offered for a farm-storage loan must have been stored, in containers specified in paragraph (b) of this section, for at least 15 days prior to drawing the inspection samples. The containers shall be stacked upright in a manner which will prevent damage to the containers in the stacks, and so arranged that the containers in the stacks are easily accessible for inspection.

§ 434.504 *Ineligible honey.* Athel, Avocado, Bitterweed, Broomweed, Carrot, Chinquapin, Dog Fennel, Desert Hollyhock, Eucalyptus, Gumweed, Mesca, Onion, Prickly Pear, Prune, Queen's Delight, Snowbrush (Ceanothus), Snow-On-The-Mountain, Tarweed, and similar objectionably-flavored honeys or objectionably-flavored blends of honey as determined by the Director, Sugar Division, CSS, will not be eligible for price support regardless of whether they meet other eligibility requirements.

§ 434.505 *Disbursement of loans.* Disbursement of loans will be made to producers by county offices by means of sight drafts drawn on CCC or by approved lending agencies under agreement with CCC. No disbursement shall be made later than 15 days after the final date of the availability of loans, unless recommended by the State committee and approved by the Executive Vice President, CCC. Payment in cash, credit to the producer's account, or the drawing of a check or draft, shall constitute disbursement. The producer shall not present the loan documents for disbursement of funds unless the honey is in existence, in approved storage, and in good condition. If the commodity was not in existence, in approved storage, or in good condition at the time the producer received the disbursement, the proceeds shall be promptly refunded by the producer.

§ 434.506 *Approved lending agencies.* An approved lending agency shall be any bank, corporation, partnership, individual or legal entity with which CCC has entered into a lending agency agreement (CCC Form 292 or other form prescribed by CCC).

§ 434.507 *Approved storage.* Loans will be made only on honey in approved storage. Purchase agreements may be executed without regard to whether the honey is in approved storage.

(a) *Farm storage.* Approved farm storage shall consist of storage structures located on or off the farm (excluding public warehouses) which are determined by the county committee to be so located and of such substantial and permanent construction as to afford safe storage of the honey. In carrying out its responsibility the county committee should consider the extent to which the storage structures for honey are clean, dry, weatherproof and able to be locked. Where such structure is used to house honey other than that which is covered by a single price support loan, a suitable partition should be used to preserve the identity of the honey covered by each price support loan and segregate it from any other honey in the storage structure.

(b) *Cooperative storage.* Approved storage for cooperative marketing associations shall meet the requirements stated in paragraph (a) of this section. Preservation will not be required of the identity of each producer's honey in the lot covered by the mortgage.

§ 434.508 *Applicable forms.* The approved forms consist of the loan and purchase agreement forms and such other forms and documents as are specified in this subpart which, together with the provisions of this subpart, govern the rights and responsibilities of the producer. Note and supplemental loan agreements, chattel mortgages, and purchase agreements, must be dated, signed by the producer, and delivered to the county committee on or before the final date of availability of loans or purchase agreements. Note and supplemental loan agreements, and chattel mortgages, must have State and documentary revenue stamps affixed thereto where required by law. Loan and purchase agreement documents executed by an administrator, executor or trustee will be acceptable only where legally valid.

(a) *Farm-storage loans.* Approved forms shall consist of Commodity Loan Form A, Producer's Note and Supplemental Loan Agreement, secured by Commodity Loan Form AA, Commodity Chattel Mortgage, and such other forms and documents as may be required by CCC. These forms shall also be used for honey stored by cooperative marketing associations of producers in warehouses under their control.

(b) *Purchase agreement documents.* The purchase agreement forms shall consist of the Purchase Agreement (Commodity Purchase Form 1) and Purchase Agreement Settlement (Commodity Purchase Form 4) signed by the producer and approved by the county committee, and such other forms and documents as may be required by CCC.

(c) *Designation of agent by a group of producers.* Producers who designate an agent to act in their joint behalf in obtaining price support shall execute a proper designation of agent on a form approved by CCC.

§ 434.509 *Liens.* If there are any liens or encumbrances on honey placed under loan or delivered under purchase agreement, waivers acceptable to the county committee must be obtained.

§ 434.510 *Service charges.* Producers shall pay the following service charges on the quantity of honey placed under loan or specified in the purchase agreement. An additional service charge shall be paid on any additional quantity delivered to and accepted by CCC under a loan.

(a) Rates:

Method of price support	Rate (per 100 pounds net)	Minimum
	Cents	$
Farm-storage loan	5	[illegible]
Purchase agreement	2½	[illegible]

(b) State committees are authorized to require prepayment of $3.00 of the service charge on a farm-storage loan.

(c) No refund of service charges will be made.

§ 434.511 *Determination of quantity.* (a) Determination of quantity of honey in connection with applications for farm-storage loans, shall be computed on the basis of 55 pounds for each 5 gallon can and 11 pounds for each gallon of rated capacity for containers larger than 5 gallon.

(b) Determination of quantity, at time of delivery to CCC, of honey under loan or purchase agreement shall be made by or under the direction of the State committee. The quantity determination of honey delivered in 5-gallon cans shall be based upon the number of 5-gallon cans times the average per can net weight of honey rounded to the next lowest whole pound, or 60 pounds per can net weight of honey, whichever is lower. The weight determination of honey delivered in larger containers shall be based upon the actual net weight of honey.

§ 434.512 *Determination of grade and color.* (a) Determination of grade and color in connection with applications for farm-storage loans shall be made on the basis of samples drawn by the county committee and transmitted prepaid to an office of the Processed Products Standardization and Inspection Branch, Fruit and Vegetable Division, Agricultural Marketing Service. Samples shall be provided by the producer at no cost to CCC. The cost of inspection shall be collected for the account of the Processed Products Standardization and Inspection Branch by the county committee from the producer at the time samples are drawn.

(b) Determination of grade and color, at time of delivery to CCC, of honey under loan or purchase agreement, including the drawing of the samples, shall be by representatives of the Processed Products Standardization and Inspection Branch, Fruit and Vegetable Division, AMS. Samples shall be provided by the producer at no cost to CCC. The cost of such sampling, and of grade, and color determination at time of delivery, shall be paid by CCC.

(c) Table honey should be so segregated according to color that the color for the lot as a whole is within the tolerances for color variations as outlined in the United States Standards for Grades of Extracted Honey, effective April 16, 1951. If a lot of honey is not segregated so that it can be certified in accordance with the foregoing, the loan, settlement for the loan, or purchase under purchase agreement, shall be made on the basis of the darkest color shown on the inspection certificate.

(d) Table honey should be so segregated from nontable honey that it can be certified for loan, settlement under loan, or purchase under purchase agreement, in accordance with the categories outlined in § 434.525. If a lot of honey is not segregated so that it can be given a single classification as either table or nontable honey, the loan, settlement for the loan, or purchase under purchase agreement, shall be made on the basis of nontable honey.

(e) In the case of blends of table and nontable honeys, the loan, settlement under loan, or purchase under purchase agreement, shall be made on the basis of nontable honey. If any blends of honey contain ineligible honey, the lot as a whole is ineligible.

§ 434.513 *Maturity of loans.* Loans mature on demand, but not later than March 31, 1955, in all States.

§ 434.514 *Set-offs.* If the producer is indebted to CCC on any accured obligation, or if any installment or installments on any loan made available by CCC on farm-storage facilities or mobile drying equipment are past due, or payable or prepayable under the provisions of the note evidencing such loan out of the proceeds of the price support loan or purchase, he must designate CCC or the lending agency holding such note as the payee of the proceeds of the price support purchase or loan to the extent of such indebtedness or installments, but not to exceed that portion of the proceeds remaining after deduction of loan service charges and amounts due prior lienholders. If the producer is indebted to any other agency of the United States, and such indebtedness is listed on the county debt register, he must designate such agency as the payee of the proceeds as provided in this section. Indebtedness owing to CCC or to a lending agency as provided in this section shall be given first consideration after claims of prior lienholders. Compliance with the provisions of this section shall not constitute a waiver of any right of the producer to contest the justness of the indebtedness involved either by administrative appeal or legal action.

§ 434.515 *Interest rate.* Loans shall bear interest at the rate of 3½ percent per annum from the date of disbursement of the loan, except that where there is a default in satisfaction of the loan the amount of the deficiency shall bear interest at the rate of 6 percent per annum from the date of default.

§ 434.516 *Transfer of producer's interest.*—(a) *Farm-storage loans.* The producer shall not transfer either his remaining interest in, or his right to redeem, honey mortgaged as security for a farm-storage loan. A producer who wishes to liquidate all or part of his loan by contracting for the sale of the honey, must obtain written prior approval of the county committee on Commodity Loan Form 12 to remove the honey from storage when the proceeds of the sale are needed to repay all or any part of the loan. Any such approval shall be subject to the terms and conditions set out in Commodity Loan Form 12, copies of which may be obtained by producers or prospective purchasers at the office of the county committee.

(b) *Purchase agreements.* The producer may not assign his interest in a purchase agreement.

§ 434.517 *Safeguarding the honey.* The producer obtaining a farm-storage loan is obligated to maintain the storage structure in good repair and to keep the honey in good condition, until the loan is liquidated.

§ 434.518 *Insurance.* CCC will not require the producer to insure the honey placed under loan; however, if the producer insures such honey and indemnity is paid thereon, such indemnity shall inure to the benefit of CCC to the extent of its interest, after first satisfying the producer's equity in the honey involved in the loss.

§ 434.519 *Loss or damage to honey.* If the honey is going out of condition, or is in danger of going out of condition, the producer shall notify the county committee. The producer is responsible for any loss in quantity or quality of the honey placed under farm-storage loan, except that, subject to the provisions of § 434.518, physical loss or damage occurring after disbursement of the loan funds to the producer, without fault, negligence, or conversion on the part of the producer, resulting solely from external causes other than insect infestation, vermin, rodents, or wild animals, will be assumed by CCC to the extent of the settlement value of the quantity of the honey lost, stolen, or destroyed, or to the extent of the damage as determined by CCC, provided the producer has given the county committee immediate notice, confirmed in writing, of such loss or damage, and provided there has been no fraudulent representation made by the producer in the loan documents or in obtaining the loan. No physical loss or damage occurring prior to disbursement of the loan funds to the producer shall be assumed by CCC. Where disbursement of funds is made by sight draft or check, the date of the draft or check shall constitute the date of disbursement of the funds.

§ 434.520 *Personal liability of the producer for the honey.* The making of any fraudulent representation by the producer in the loan documents, or in obtaining the loan, or the conversion or unlawful disposition of any portion of the honey by him, may render the producer subject to criminal prosecution under Federal law and will render him personally liable for the amount of the loan (including interest), and for any resulting expense incurred by any holder of the note.

§ 434.521 *Release of the honey under loan.* A producer may at any time obtain release of the honey remaining under loan by paying to the holder of the note and supplemental loan agreement, the principal amount thereof, plus charges and accrued interest. All charges in connection with the collection of the note shall be paid by the producer. Upon presentation of the paid note, the county committee shall arrange for the release of the chattel mortgage. Partial release of the honey prior to maturity may be arranged with the county committee after making payment to the holder of the note for the quantity of the honey released, plus charges and accrued interest. However, in the event the quantity of the honey contained in the storage structure and covered by the chattel mortgage is greater than the quantity with respect to which the amount was computed, application may be made to the county committee for release of all or part of such excess without payment on the loan.

§ 434.522 *Liquidation of loans and delivery under purchase agreements.*—(a) *Farm-storage loans.* The producer is required to pay off his loan on or before maturity, or to deliver the honey in accordance with instructions of the county committee. Delivery points for farm-

storage loans shall be limited to those recommended by the State committee and approved by the Director, Sugar Division, CSS. If the producer desires to deliver the honey, he should, prior to maturity, give the county committee notice in writing of his intention to do so. The producer may, however, pay off his loan and redeem his honey at any time prior to delivery to CCC or removal by CCC. In the event the farm is sold or there is a change of tenancy, the honey under a farm-storage loan may be delivered before the maturity date of the loan, upon prior approval by the county committee, or may be delivered before the maturity date of the loan for other reasons upon prior approval of the Executive Vice President of CCC. Settlement will be made at the applicable support price in effect at the approval point of delivery subject to the provisions of the producer's note and supplemental loan agreement and this subpart, on the basis of the quantity, floral source, color and grade at the time of delivery as determined in accordance with §§ 434.511 (b) and 434.512 (b), (c), (d) and (e). If farm-stored honey is delivered to CCC prior to March 31, 1955, upon request of the producer and with the approval of CCC, the loan settlement shall be reduced at the rate of 1/20 of a cent per pound per month or fraction thereof, from the date delivery is accomplished, or the final date for delivery shown in the delivery instructions issued by the county committee, whichever is earlier, to and including March 31, 1955. Settlement value for honey delivered which does not meet the eligibility requirements with respect to grade shall be determined at the support price for the honey placed under loan less the estimated cost, as determined by CCC, for conditioning such honey to conform to the grade of honey described in the loan documents. The settlement value for honey delivered which does not meet eligibility requirements because of floral source, or which cannot be conditioned to meet grade requirements, shall be the actual market value of such honey, if any, as determined by CCC. The producer shall pay CCC for any deficiency in quantity, floral source, grade or color. Any payment due the producer on settlement may be made by sight draft drawn on CCC by the county office.

(b) *Handling small amounts on settlement.* If the settlement value of the honey delivered under a farm-storage loan exceeds the amount due on the loan (excluding interest) by more than $3.00, such amount will be paid to the producer on the basis of the settlement documents. To avoid administrative costs of making small payments, if the amount found due the producer in such settlement is $3.00 or less such amount will be paid only upon his request. If the settlement value of the honey is less than the amount due on the loan (excluding interest), the amount of the deficiency, plus interest, shall be paid to CCC, or may be set off against any payment which would otherwise be due to the producer under any agricultural program administered by the Secretary of Agriculture, or any other payments which are due or may become due to the producer from CCC or any other agency of the United States. To avoid administrative costs of handling small accounts a deficiency of $3.00 or less, including interest, may be disregarded unless demand therefor is made by CCC upon the producer.

(c) *Purchase agreements.* The producer who signs a purchase agreement (Commodity Purchase Form 1) shall not be obligated to sell any quantity of the honey to CCC. However, the quantity stated in the purchase agreement will be the maximum quantity he may sell to CCC. If the producer who signs a purchase agreement wishes to sell the commodity to CCC, he shall have a 30-day period prior to the loan maturity date during which he must notify the county committee of his intention to sell. Deliveries shall not be accepted before March 31, 1955, or such earlier date as prescribed by the Executive Vice President, CCC. The producer may be required to retain the honey for a period of 60 days after the loan maturity date, without any cost to CCC. Delivery under purchase agreements shall be made in accordance with instructions issued by the county committee. Delivery points for purchase agreements shall be limited to those recommended by the State committee and approved by the Director, Sugar Division, CSS. Honey delivered under a purchase agreement must meet the requirements for eligible honey as set forth in §§ 434.503 and 434.512 (e). Payment for eligible honey delivered to CCC under purchase agreements shall be at the applicable support price in effect at the approved delivery point, on the basis of the quantity, floral source, color and grade at the time of delivery as determined in accordance with §§ 434.511 (b) and 434.512 (b), (c), (d), and (e). Such payment will be made to the producer by sight draft drawn on CCC by the county office.

§ 434.523 *Purchase of notes.* County committees will purchase notes evidencing loans from approved lending agencies in accordance with the lending agency agreement. The purchase price to be paid by CCC will be the principal sums remaining due on such notes, plus an amount computed according to the lending agency agreement to cover interest. Lending agencies are required to submit Commodity Credit Corporation Form 500, or such other form as CCC may prescribe, for all payments received on producers' notes held by them, and are required to remit to CCC a part of the interest collected, computed according to the lending agency agreement. Lending agencies shall submit notes and reports to the ASC county office where the loan documents were approved.

§ 434.524 *Charges not to be assumed by CCC.* CCC will not pay or assume any insurance, or storage charges, inspection charges to determine eligibility for a loan, or any handling or processing charges necessary to make the honey meet the eligibility requirements.

§ 434.525 *Support prices.* Loans will be made, and honey delivered under purchase agreements will be purchased, at the support prices set forth below:

For States of Montana, Wyoming, Colorado, New Mexico and States West Thereof

	Rate (cents per pound)
1. White and lighter table honey	10 4
2. Extra Light Amber table honey	9 9
3. Nontable and other table honey	8 4

For All States East of Montana, Wyoming, Colorado and New Mexico

	Rate (cents per pound)
1. White and lighter table honey	11 3
2. Extra Light Amber table honey	10 8
3. Nontable and other table honey	9 3

Loans will be made at the applicable support price established for the State in which the honey is stored.

(a) "Table honey" means honey having the predominant flavor of not more than two floral sources, and preferably one, which can be readily marketed for table use in all parts of the country. Such honey includes those with the predominant flavors of Alfalfa, Brazil Brush, Catsclaw, Clover, Cotton, Fireweed, Gallberry, Huajillo, Lima Bean, Mesquite, Orange, Raspberry, Sage, Sourwood, Star Thistle, Sweetclover, Tupelo, Vetch, Western Wild Buckwheat, and similar predominatly mild-flavored honeys, or predominantly mild-flavored blends of honey, as determined by the Director, Sugar Division, CSS.

(b) "Nontable honey" means honey having a predominant flavor of limited national acceptability for table use but considered to be suitable for table use in most areas in which it is produced. Such honeys include those with the predominant flavors of Aster, Buckwheat (except Western Wild Buckwheat), Goldenrod, Heartsease (Smartweed), Horsemint, Mangrove-Palmetto, Manzanita, Mint, Partridge Pea, Rattan Vine, Salt Cedar (Tamarix gallica), Spanish Needle, Ti-ti, Toyon (Christmas Berry), Tulip-Poplar, and similarly-flavored honeys, or blends of such honeys, as determined by the Director, Sugar Division, CSS.

§ 434.526 *CSS commodity offices:* The CSS commodity offices and the areas served by them are shown below:

Chicago 5, Illinois, 623 South Wabash Avenue: Connecticut, Delaware, District of Columbia, Illinois, Indiana, Iowa, Kentucky, Maine, Maryland, Massachusetts, Michigan, New Hampshire, New Jersey, New York, Ohio, Pennsylvania, Rhode Island, Vermont, West Virginia.

Dallas 26, Texas, 3306 Main Street: Alabama, Arkansas, Florida, Georgia, Louisiana, Mississippi, New Mexico, North Carolina, Oklahoma, South Carolina, Tennessee, Texas, Virginia.

Kansas City 6, Missouri, Federal Office Building, 911 Walnut Street: Colorado, Kansas, Missouri, Nebraska, Wyoming.

Minneapolis 8, Minnesota, 1006 West Lake Street: Minnesota, Montana, North Dakota, South Dakota, Wisconsin.

Portland 5, Oregon, Eastern Building, 515 Southwest Tenth Avenue: Arizona, California, Idaho, Nevada, Oregon, Utah, Washington.

Issued this 30th day of March 1954.

[SEAL] J. A. McCONNELL,
Executive Vice President,
Commodity Credit Corporation.

[F. R. Doc. 54-2414; Filed, Apr. 2, 1954; 8:48 a. m.]

TITLE 14—CIVIL AVIATION

Chapter II—Civil Aeronautics Administration, Department of Commerce

[Amdt. 74]

PART 609—STANDARD INSTRUMENT APPROACH PROCEDURES

PROCEDURE ALTERATIONS

The standard instrument approach procedure alterations appearing hereinafter are adopted to become effective when indicated in order to promote safety of the flying public. Compliance with the notice, procedures, and effective date provisions of section 4 of the Administrative Procedure Act would be impracticable and contrary to the public interest, and therefore is not required.

Part 609 is amended as follows:

1. The low frequency range procedures prescribed in § 609.6 are amended to read in part:

LFR STANDARD INSTRUMENT APPROACH PROCEDURES

Bearings, headings, and courses are magnetic. Distances are in statute miles unless otherwise indicated. Elevations and altitudes are in feet, MSL. Ceilings are in feet above airport elevation.

If an instrument approach is conducted at the below named airport, it shall be in accordance with the following instrument approach procedure authorized by the Administrator for Civil Aeronautics for such airport. Initial approaches shall be made over specified routes. Minimum altitude as shall correspond with those established for en route operation in the particular area or as set forth below.

City and State; airport name, elevation, facility, class and identification, procedure No., effective date	Initial approach to facility from—	Course and distance	Minimum altitude (ft.)	Procedure turn (—) side of final approach course (outbound and inbound); altitudes; limiting distances	Ceiling and visibility minimums: Condition	Ceiling and visibility minimums: Type aircraft: 75 m. p. h. or less	Ceiling and visibility minimums: Type aircraft: More than 75 m. p. h.	If visual contact not established at authorized landing minimums after passing facility, within distance specified, or if landing not accomplished

4. The ground controlled approach procedures prescribed in § 609.13 are amended to read in part:

GCA STANDARD INSTRUMENT APPROACH PROCEDURE

Bearings, headings, and courses are magnetic. Distances are in statute miles unless otherwise indicated. Elevations and altitudes are in feet, MSL. Ceilings are in feet above airport elevation.

If a GCA instrument approach is conducted at the below named airport, it shall be in accordance with the following instrument procedure, unless an approach is conducted in accordance with a different procedure authorized by the Administrator for Civil Aeronautics for such airport. Initial approaches shall be made over specified routes. Minimum altitudes shall correspond with those established for en route operation in the particular area or as set forth below. Positive identification must be established with the ground controller. Form initial contact with GCA at the final authorized landing minimums, the instructions of the GCA controller are mandatory except when (A) visual reference with ground is established on final approach at or before descent to the authorized landing minimums, or (B) at pilot's discretion if it appears desirable to discontinue the approach.

City and State; airport name, elevation; effective date	Radar terminal area: maneuvering altitudes by sectors and limiting distances	Ceiling and visibility minimums: Runway No.	Ceiling and visibility minimums: Condition	Ceiling and visibility minimums: Precision approach (PAR): 75 m. p. h. or less	Ceiling and visibility minimums: Precision approach (PAR): More than 75 m. p. h. TITLE 7—AGRICULTURE

Chapter I—Agricultural Marketing Service (Standards, Inspections, Marketing Practices), Department of Agriculture

PART 28—COTTON STANDARDS

SUBPART B—STANDARDS

STANDARDS FOR GRADES OF COTTONSEED SOLD OR OFFERED FOR SALE FOR CRUSHING PURPOSES WITHIN UNITED STATES

A notice of the proposed issuance of an amendment to the Standards for Grades of Cottonseed Sold or Offered for Sale for Crushing Purposes Within the United States (7 CFR Part 28) was published in the FEDERAL REGISTER on February 12, 1954 (19 F. R. 822). This program is effective pursuant to the Agricultural Marketing Act of 1946 (60 Stat. 1087; 7 U. S. C. 1621 et seq.).

The amendment requires the use of a linter's factor in determining the quantity index of cottonseed. The linters factor has been developed to adjust the value of cottonseed for varying amounts of linters on the seed. If the amount of linters is above average the linters factor will increase the grade, and with lower than average amounts the linters factor will reduce the grade. If the linters content of cottonseed diminishes below 10 percent the discounts for linters increase at a greater rate. This is because the per pound value of linters produced from cottonseed which has a total linters content below 10 percent is less than those produced from cottonseed with a total linters content of more than 10 percent.

By use of a basic linters factor of 1.5 for average cottonseed with 11 percent total linters, the table of premiums and discounts shown in paragraph (c) of § 28.402 listed below has been prepared on the basis of the following formulas:

Percent linters on cottonseed	Premium or discount factor
11.1 and over	Premium = (percent linters minus 11.0) ×1.5.
11.0	0
10.9–10.0	Discount = (11.0 minus percent linters) ×1.5.
9.9–5.0	Discount = (10.0 minus percent linters) ×1.5.
4.9–0	Discount = (5.0 minus percent linters) ×1.0.

The scale of premiums and discounts will be revised from season to season to reflect changes in the price relationship between linters and other products obtainable from cottonseed.

A period of 30 days was allowed for submitting written data, views, and arguments with respect to the amendment. After consideration of all relevant matters presented, including the proposal set forth in the aforesaid notice, the amendment hereinafter set forth is hereby promulgated to become effective June 1, 1954.

The amendment is as follows:

1. Section 28.401 is amended by deleting paragraph (d).

2. Section 28.402 is amended to read:

§ 28.402 *Determination of quantity index.* The quantity index of cottonseed shall be determined as follows:

(a) For cottonseed that by analysis contain 16.5 percent or more of oil, the quantity index shall equal the result of 4 times (percentage of oil), plus 6 times (percentage of ammonia), plus the applicable linters premium or discount shown in paragraph (c) of this section, plus 5.

(b) For cottonseed that by analysis contain less than 16.5 percent of oil, the quantity index shall equal the result of 6 times (percentage of oil), plus 6 times (percentage of ammonia), plus the applicable linters premium or discount shown in paragraph (c) of this section, minus 28.

(c) The premium or discount for total linters content of cottonseed to be used in paragraphs (a) and (b) of this section will be according to the following table:

Total linters content of cottonseed (percent)[1]	Premium or discount (quantity index units)	Total linters content of cottonseed (percent)[1]	Premium or discount (quantity index units)
20.0	+13.5	10.0	−1.5
19.0	+12.0	9.0	−4.0
18.0	+10.5	8.0	−6.5
17.0	+9.0	7.0	−9.0
16.0	+7.5	6.0	−11.5
15.0	+6.0	5.0	−14.0
14.0	+4.5	4.0	−17.0
13.0	+3.0	3.0	−20.0
12.0	+1.5	2.0	−23.0
11.0	0.0	1.0	−26.0

[1] Total linters content to the nearest 0.1 percent will be used in calculating premiums and discounts.

(Sec. 205, 60 Stat. 1090; 7 U. S. C. 1624)

Done at Washington, D. C., this 31st day of March 1954.

[SEAL] ROY W. LENNARTSON, *Deputy Administrator.*

Chapter IX—Agricultural Marketing Service (Marketing Agreements and Orders), Department of Agriculture

[Navel Orange Reg. 26]

PART 914—NAVEL ORANGES GROWN IN ARIZONA AND DESIGNATED PART OF CALIFORNIA

LIMITATION OF HANDLING

§ 914.326 *Navel Orange Regulation 26*—(a) *Findings.* (1) Pursuant to the marketing agreement and Order No. 14 (18 F. R. 5638), regulating the handling of navel oranges grown in Arizona and designated part of California, effective September 22, 1953, under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and upon the basis of the recommendation and information submitted by the Navel Orange Administrative Committee, established under the said marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such navel oranges, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions of this section effective as hereinafter set forth. The Navel Orange Administrative Committee held an open meeting on April 1, 1954, after giving due notice thereof, to consider supply and market conditions for navel oranges and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation during the period specified herein was promptly submitted to the Department after such meeting was held; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such navel oranges; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period herein specified; and compliance with this section will not require any special preparation on the part of persons subject thereto which cannot be completed on or before the effective date of this section.

(b) *Order.* (1) The quantity of navel oranges grown in Arizona and designated part of California which may be handled during the period beginning at 12:01 a. m., P. s. t., April 4, 1954, and ending at 12:01 a. m., P. s. t., April 11, 1954, is hereby fixed as follows:

(i) District 1: Unlimited movement;

(ii) District 2: 392,700 boxes;

(iii) District 3: Unlimited movement;

(iv) District 4: Unlimited movement.

(2) The prorate base of each handler who has made application therefor, as provided in the said marketing agreement and order, is hereby fixed in accordance with the prorate base schedule which is attached hereto and made a part hereof by this reference.

(3) Navel oranges handled pursuant to the provisions of this section shall be subject to any size restrictions applicable thereto which have heretofore been issued on the handling of such oranges and which are effective during the period specified herein.

(4) As used in this section, "handled," "handler," "boxes," "prorate base," "District 1," "District 2," "District 3," and "District 4" shall have the same meaning as when used in said marketing agreement and order.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. and Sup. 608c)

Done at Washington, D. C., this 2d day of April 1954.

[SEAL] S. R. SMITH, *Director, Fruit and Vegetable Division, Agricultural Marketing Service.*

[Lemon Reg. 531]

PART 953—LEMONS GROWN IN CALIFORNIA AND ARIZONA

LIMITATION OF SHIPMENTS

§ 953.638 *Lemon Regulation 531*—(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 53, as amended (7 CFR Part 953; 18 F. R. 6767), regulating the handling of lemons grown in the State of California or in the State of Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and upon the basis of the recommendation and information submitted by the Lemon Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of the quantity of such lemons which may be handled, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions of this section effective as hereinafter set forth. Shipments of lemons, grown in the State of California or in the State of Arizona, are currently subject to regulation pursuant to said amended marketing agreement and order; the recommendation and supporting information for regulation during the period specified in this section was promptly submitted to the Department after an open meeting of the Lemon Administrative Committee on March 31, 1954, such meeting was held, after giving due notice thereof to consider recommendations for regulation, and interested persons were afforded an opportunity to submit their views at this meeting; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such lemons; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period hereinafter specified; and compliance with this section will not require any special preparation on the part of persons subject thereto which cannot be completed by the effective time of this section.

(b) *Order.* (1) The quantity of lemons grown in the State of California or in the State of Arizona which may be handled during the period beginning at 12:01 a. m., P. s. t., April 4, 1954, and ending at 12:01 a. m., P. s. t., April 11, 1954, is hereby fixed as follows:

(i) District 1: Unlimited movement;

(ii) District 2: 275 carloads;

(iii) District 3: Unlimited movement.

(2) The prorate base of each handler who has made application therefor, as provided in the said amended marketing agreement and order, is hereby fixed in accordance with the prorate base schedule which is set forth below and made a part hereof by this reference.

(3) As used in this section, "handled," "handler," "carloads," "prorate base," "District 1," "District 2," and "District 3," shall have the same meaning as when

used in the said amended marketing agreement and order.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. and Sup. 608c)

Done at Washington, D. C., this 1st day of April 1954.

TITLE 16—COMMERCIAL PRACTICES

Chapter I—Federal Trade Commission

[Docket 6032]

PART 3—DIGEST OF CEASE AND DESIST ORDERS

AR. WINARICK, INC., ET AL.

Subpart—*Advertising falsely or misleadingly:* § 3.170 *Qualities or properties of product or service;* § 3.205 *Scientific or other relevant facts.* I. In connection with the offering for sale, sale, or distribution of the preparation "Jeris Antiseptic Hair Tonic" or any product of substantially the same composition or possessing substantially similar properties, in commerce, whether sold under the same name or any other name, disseminating, etc., by means of the United States mails, or in commerce, or by any means to induce, etc., directly or indirectly, the purchase of said preparations in commerce, any advertisements which represent, directly or by implication, that the use of said preparations will: (a) Relieve or help to prevent excessive falling hair; and (b) promote or help to promote hair growth; and, II, in connection with the offering for sale, sale, or distribution of respondents' preparations "Jeris Antiseptic Hair Tonic" and "Fore", or any other preparation of substantially the same composition or possessing substantially similar properties, in commerce, representing, directly or by implication, that barbers are qualified for or capable of diagnosing or treating diseased conditions of the hair or scalp; prohibited.

(Sec. 6, 38 Stat. 722; 15 U. S. C. 46. Interpret or apply sec. 5, 38 Stat. 719; 5 U. S. C. 45) [Cease and desist order, Ar. Winarick, Inc., et al., New York, N. Y., Docket 6032, March 10, 1954]

In the Matter of Ar. Winarick, Inc., a Corporation, and Jules Winarick, Nathan Winarick and Floyd H. Pepper, Individually and as Officers of Said Corporation

The Federal Trade Commission on August 18, 1952, issued a complaint and on November 12, 1952, issued an amended complaint charging respondent Ar. Winarick, Inc., and three of its officers, Jules Winarick, Nathan Winarick and Floyd H. Pepper, with having violated the Federal Trade Commission Act by disseminating false advertisements in connection with the sale of their products "Jeris Antiseptic Hair Tonic" and "Fore," an aftershave loton. Respondents filed an answer denying that their advertisements were in violation of law.

Pursuant to notice, hearings were held in New York City on January 5 and 6 and February 10, 1953, before J. Earl Cox, a hearing examiner, designated by the Commission to hear this proceeding. Full opportunity to be heard, to examine and cross-examine witnesses, and to introduce evidence bearing on the issues was afforded respondents and counsel supporting the complaint. All testimony and other evidence was recorded and filed in the office of the Commission

After receiving proposed findings of fact, the hearing examiner filed this initial decision on May 21, 1953, in which he concluded that respondents had violated the Federal Trade Commission Act by falsely advertising that a bottle of after shave lotion is given free where, in fact, it was given only on the purchase of a bottle of hair tonic and by advertising that barbers are capable of diagnosing and treating diseased conditions of the hair and scalp. He dismissed the other allegations of the complaint which charged respondents with falsely representing that the use of their hair tonic will cure dandruff, relieve itchy scalp, prevent excessive falling hair, promote hair growth and result in a healthy scalp.

Thereafter, counsel supporting the complaint appealed to the Commission from his initial decision. Respondents filed a brief in opposition to this appeal in which they request the Commission to dismiss all of the allegations of the complaint. By agreement of counsel, this appeal was submitted to the Commission for decision without oral argument.

Upon consideration of the entire record herein, the Commission has determined that the rulings of the hearing examiner made at the hearings are free of prejudicial error, and makes the following findings of fact,[1] conclusions of law,[2] order on the appeals,[1] the remedy,[1] and order to cease and desist:

It is ordered, That the respondent Ar. Winarick, Inc., a corporation, and its officers, and respondents Jules Winarick, Nathan Winarick and Floyd H. Pepper, individually and as officers of Ar. Winarick, Inc., and their respective officers, agents, and employees, directly or through any corporate or other device, in connection with the offering for sale, sale or distribution of the preparation "Jeris Antiseptic Hair Tonic" or any product of substantially the same composition or possessing substantially similar properties, whether sold under the same name or under any other name, do forthwith cease and desist from directly or indirectly:

1. Disseminating or causing to be disseminated, by means of the United States mails, or by any means in commerce, as "commerce" is defined in the Federal Trade Commission Act, any advertisement which represents, directly or by implication, that the use of said preparation will:

(a) Relieve or help to prevent excessive falling hair.

(b) Promote or help to promote hair growth.

2. Disseminating or causing to be disseminated, by any means, any advertisement, for the purpose of inducing, or which is likely to induce, directly or indirectly, the purchase of said preparation in commerce, as "commerce" is defined in the Federal Trade Commission Act, which advertisement contains any of the representations prohibited in paragraph 1 hereof.

[1] Filed as part of the original document.

It is further ordered, That the respondent Ar. Winarick, Inc., a corporation, and its officers, and respondents Jules Winarick, Nathan Winarick and Floyd H. Pepper, individually and as officers of Ar. Winarick, Inc., and their respective officers, agents, and employees, directly or through any corporate or other device, in connection with the offering for sale, sale or distribution of their preparations "Jeris Antiseptic Hair Tonic" and "Fore," or any other preparation of substantially the same composition or possessing substantially similar properties, in commerce, as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from: Representing, directly or by implication, that barbers are qualified for or capable of diagnosing or treating diseased conditions of the hair or scalp.

It is further ordered, That respondents shall, within sixty (60) days after service upon them of this order, file with the Commission a report in writing setting forth in detail the manner and form in which they have complied with the order to cease and desist.

Issued: March 10, 1954.

By the Commission.[1]

PART 3—DIGEST OF CEASE AND DESIST ORDERS

BURNS CUBOID CO.

Subpart—*Advertising falsely or misleadingly:* § 3.170 *Qualities or properties of product or service.* Subpart—*Using misleading name*—Goods: § 3.2325 *Qualities or properties.* I. In connection with the offering for sale, sale, or distribution of respondents' device, designated generally as "Cuboids", "Burns Cuboids", "Cuboid Foot Balancers", or "Doggies", or any device of substantially similar construction or composition, whether sold under the said names or any other names; disseminating, etc., any advertisement by means of the United States mails, or in commerce, or by any means to induce, etc., directly or indirectly, the purchase of said product in commerce, which advertisements represent directly or by implication: (a) That the wearing of respondents' device will assist in balancing the feet or body; (b) that respondents' device possesses therapeutic value for aching or painful feet; (c) that the wearing of respondents' device will enable the user to achieve better posture or poise or will improve the stance; (d) that the wearing of respondents' device will result in more normal foot action or improved foot action or foot health; (e) that the wearing of respondents' device will afford increased comfort for the feet or decrease the fatigue resulting from housework or other physical efforts except to the extent that respondents' device may in instances reduce or relieve the discomfort associated with strained or tired feet; (f) that the wearing of respondents' device will have beneficial effect upon the distribution of body weight; (g) that the wearing of respondents' device will in any way aid the cuboid bone or its position or stability with respect to other bones of the feet or will serve to readjust, realign, normalize, or improve the position of the bones of the feet; and (h) that said device possesses therapeutic value in the treatment of calloused feet; and, II, in connection with the offering for sale, sale, or distribution in commerce, of respondents' device using the expression "Foot Balancers" or any other term or words of similar import or meaning to designate, describe, or refer to their device; prohibited.

(Sec. 6, 38 Stat. 722; 15 U. S. C. 46. Interpret or apply sec. 5, 38 Stat. 719; 5 U. S. C. 45) [Cease and desist order, James H. Sewell and George Pepperdine trading as Burns Cuboid Company Santa Ana, Calif., Docket 5850, March 12, 1954]

In the Matter of James H. Sewell and George Pepperdine, Co-Partners Trading as Burns Cuboid Company

Pursuant to the provisions of the Federal Trade Commission Act, the Federal Trade Commission on February 21, 1951, issued and subsequently served its complaint in this proceeding upon James H. Sewell and George Pepperdine, co-partners trading as Burns Cuboid Company, charging said respondents with the use of unfair and deceptive acts and practices in commerce in violation of the provisions of said act. After the issuance of said complaint and the filing by respondents of their answer thereto, hearings were held at which testimony and other evidence in support of and in opposition to the allegations of the complaint were introduced before a hearing examiner of the Commission, theretofore designated by it, and such testimony and other evidence were duly recorded and filed in the office of the Commission. On December 31, 1952, the hearing examiner filed his initial decision.

Thereafter, within the time permitted by the rules of practice of the Commission, respondent James H. Sewell appealed from the initial decision of the hearing examiner and this matter came on for final hearing upon the complaint, answer, testimony and other evidence, briefs in support of and in opposition to such appeal and oral argument; and the Commission, having duly considered the record herein and having ruled upon said appeal and being now fully advised in the premises, finds that this proceeding is in the interest of the public and makes the following findings as to the facts,[1] conclusion drawn therefrom,[1] and order, the same to be in lieu of the initial decision of the hearing examiner.

It is ordered, That the respondents James H. Sewell and George Pepperdine, individually and as co-partners trading as Burns Cuboid Company, or under any other name, their agents, representatives and employees, directly or through any corporate or other device, in connection with the offering for sale, sale or distribution of respondents' device, designated generally as "Cuboids," "Burns Cuboids," "Cuboid Foot Balancers," or "Doggies," or any device of substantially similar construction or composition, whether sold under the said names or any other names, do forthwith cease and desist from:

1. Disseminating or causing to be disseminated by means of the United States mails, or by any means in commerce, as "commerce" is defined in the Federal Trade Commission Act, any advertisement which represents directly or by implication:

(a) That the wearing of respondents' device will assist in balancing the feet or body.

(b) That respondents' device possesses therapeutic value for aching or painful feet.

(c) That the wearing of respondents' device will enable the user to achieve better posture or poise or will improve the stance.

(d) That the wearing of respondents' device will result in more normal foot action or improved foot action or foot health.

(e) That the wearing of respondents' device will afford increased comfort for the feet or decrease the fatigue resulting from housework or other physical efforts except to the extent that respondents' device may in instances reduce or relieve the discomfort associated with strained or tired feet.

(f) That the wearing of respondents' device will have beneficial effect upon the distribution of body weight.

(g) That the wearing of respondents' device will in any way aid the Cuboid Bone or its position or stability with respect to other bones of the feet or will serve to readjust, realign, normalize or improve the position of the bones of the feet.

(h) That said device possesses therapeutic value in the treatment of calloused feet.

2. Disseminating or causing to be disseminated any advertisement by any means for the purpoose of inducing or which is likely to induce, directly or indirectly, the purchase of said products in commerce, as "commerce" is defined in the Federal Trade Commission Act, which advertisement contains any representation prohibited in Paragraph 1 hereof.

It is further ordered, That respondents, in connection with the offering for sale, sale or distribution in commerce, as "commerce" is defined in the Federal Trade Commission Act, of their device, as aforesaid, do forthwith cease and desist from use of the expression "Foot Balancers" or any other term or words of similar import or meaning to designate, describe or refer to their device.

It is further ordered, That the charges of the complaint referred to in subpara-

[1] Dissenting opinions by Commissioners Gwynne and Mason filed as part of the original document. Commissioner Mead concurring except for the finding regarding use of the word "free".

[1] Filed as part of the original document.

graph (a) of Paragraph Ten of the Commission's findings as to the facts be, and the same hereby are, dismissed without prejudice, and that the allegations of said complaint to which subparagraph (b) thereof relates be, and the same hereby are, dismissed.

It is further ordered, That the respondents herein shall within sixty (60) days after service upon them of this order, file with the Commission a report in writing setting forth in detail the manner and form in which they have complied with the order to cease and desist.

Issued: March 12, 1954.

By the Commission.

Subpart—*Misbranding or mislabeling:* § 1.325 *Source or origin:* Maker or seller; place: *Imported product or parts as domestic.* Subpart—*Misrepresenting oneself and goods*—Goods: § 3.1745 *Source or origin:* Maker, place: *Imported product or parts as domestic.* Subpart—*Neglecting, unfairly or deceptively, to make material disclosure:* § 3.1860 *Imported product or parts as domestic.* Subpart—*Passing off:* § 3.2105 *Passing off.* Subpart—*Simulating competitor or another or product thereof:* § 3.2245 *Trade name of competitor's or others' product.* Subpart—*Using misleading name*—Goods: § 3.2345 *Source or origin:* Maker; place: *Foreign product or parts as domestic.* In connection with the offering for sale, sale or distribution of sewing machine heads or sewing machines in commerce: (1) Offering for sale, selling, or distributing foreign-made sewing machine heads or sewing machines of which foreign-made heads are a part, without clearly and conspicuously disclosing on the heads, in such a manner that it will not be hidden or obliterated, the country of origin thereof; and (2) using the words "Hoover" or "Eureka", or any simulations thereof, as brand or trade names to designate, describe, or refer to their sewing machines or sewing machine heads; or representing through the use of any other words or in any other manner that their sewing machines or sewing machine heads are made by anyone other than the actual manufacturers; prohibited.

(Sec. 6, 38 Stat. 722; 15 U. S. C. 46. Interpret or apply sec. 5, 38 Stat. 719; 5 U. S. C. 45) [Cease and desist order, Pickow Distributing Corporation et al., New Haven, Conn., Docket 5890, March 10, 1954]

In the Matter of Pickow Distributing Corporation, a Corporation, and Louis Pickow, Harold Gessner, and Abraham Lippman, Individually and as Officers of Said Corporation

Pursuant to the provisions of the Federal Trade Commission Act, the Federal Trade Commission, on June 27, 1951, issued and subsequently served its complaint in this proceeding upon the respondents, Pickow Distributing Corporation, a corporation, and Louis Pickow, Harold Gessner, and Abraham Lippman, individually and as officers of said corporation, charging them with the use of unfair methods of competition and unfair and deceptive acts and practices in commerce in violation of the provisions of said act. After the issuance of said complaint and the filing of respondents' answer and amendment to their answer, hearings were held at which testimony and other evidence in support of and in opposition to the allegations of the complaint were introduced before a hearing examiner of the Commission theretofore duly designated by it, and said testimony and other evidence were duly recorded and filed in the office of the Commission. Thereafter, the proceeding regularly came on for final consideration by said hearing examiner upon the complaint, amended answer thereto, testimony and other evidence, and proposed findings as to the facts and conclusions presented by counsel, and said hearing examiner, on May 5, 1953, filed his initial decision herein.

Within the time permitted by the Commission's rules of practice, counsel supporting the complaint filed with the Commission an appeal from said initial decision. Request was made on behalf of The Hoover Company for leave to intervene in the proceeding and said request was granted to the extent of permitting briefs on the said appeal to be filed. Thereafter, this proceeding regularly came on for final consideration by the Commission upon the record, including briefs of counsel supporting the complaint and of special counsel for the intervenor in support of the said appeal and brief of counsel for respondents in opposition thereto (oral argument not having been requested by either counsel supporting the complaint or the respondents); and the Commission, having entered its order granting in part and denying in part the said appeal and being fully advised in the premises, finds that this proceeding is in the interest of the public and makes this its findings as to the facts [1] and conclusion [1] drawn therefrom and order, the same to be in lieu of the initial decision of the hearing examiner.

It is ordered, That the respondents, Pickow Distributing Corporation, a corporation, and its officers, and Louis Pickow, Harold Gessner, and Abraham Lippman as officers of said corporation, and said respondents' representatives, agents, and employees, directly or through any corporate or other device, in connection with the offering for sale, sale, or distribution of sewing machine heads or sewing machines in commerce, as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from:

1. Offering for sale, selling, or distributing foreign-made sewing machine heads or sewing machines of which foreign-made heads are a part, without clearly and conspicuously disclosing on the heads, in such a manner that it will not be hidden or obliterated, the country of origin thereof.

2. Using the words "Hoover" or "Eureka," or any simulations thereof, as brand or trade names to designate, describe, or refer to their sewing machines or sewing machine heads; or representing through the use of any other words or in any other manner that their sewing machines or sewing machine heads are made by anyone other than the actual manufacturers.

It is further ordered, That respondents shall, within sixty (60) days after service upon them of this order, file with the Commission a report in writing setting forth in detail the manner and form in which they have complied with the order to cease and desist.

Issued: March 10, 1954.

By the Commission.

[SEAL] ALEX. AKERMAN, Jr., *Secretary.*

[F. R. Doc. 54-2427; Filed, Apr. 2, 1954; 8:50 a. m.]

[1] Filed as part of the original document.

TITLE 21—FOOD AND DRUGS

Chapter I—Food and Drug Administration, Department of Health, Education, and Welfare

PART 146—GENERAL REGULATIONS FOR THE CERTIFICATION OF ANTIBIOTIC AND ANTIBIOTIC-CONTAINING DRUGS

EXEMPTING CERTAIN ANTIBIOTIC AND ANTIBIOTIC-CONTAINING DRUGS FROM CERTIFICATION

Under authority provided in the Federal Food, Drug, and Cosmetic Act (sec. 507 (c), 59 Stat. 463, as amended by 61 Stat. 11, 63 Stat. 409; 21 U. S. C. 357 (c); 67 Stat. 18), I find that the requirements of sections 502 (l) and 507 of the act with respect to animal feed containing antibiotic drugs and para-aminobenzoic acid or the sodium or potassium salt of para-aminobenzoic acid, when used for the prevention or treatment of certain specified diseases of poultry, are no longer necessary to insure safety and efficacy of such drugs when used in such manner, and hereby promulgate the following amendment exempting such drugs from the requirements:

Section 146.26 *Animal feed containing penicillin* * * * is amended by adding the following new paragraph (n):

(n) It is intended for use solely in the prevention or treatment of chronic respiratory disease (air-sac infection), and sinusitis in poultry; its labeling bears adequate directions and warnings for such use; and it contains not less than 0.1 percent para-aminobenzoic acid or the sodium or potassium salt of para-aminobenzoic acid.

(Sec. 701, 52 Stat. 1055; 21 U. S. C. 371)

Notice and public procedure are not necessary prerequisites to the promulgation of this order, and I so find, since it was drawn in collaboration with interested members of the affected industry, since it would be against public interest to delay providing for the aforesaid amendment, and since it conditionally relaxes existing requirements.

This order shall become effective upon publication in the FEDERAL REGISTER, since both the public and the affected industry will benefit by the earliest effective date, and I so find.

Dated: March 30, 1954.

[SEAL] OVETA CULP HOBBY, *Secretary.*

TITLE 32A—NATIONAL DEFENSE, APPENDIX

Chapter VI—Business and Defense Services Administration, Department of Commerce

[DMS Regulation No. 1 as Amended April 1, 1954]

DMS REG. 1—BASIC RULES OF THE DEFENSE MATERIALS SYSTEM

This amended regulation is found necessary and appropriate to promote the national defense and is issued pursuant to the Defense Production Act of 1950, as amended. In the formulation of this amended regulation, there has been consultation with industry representatives, including trade association representatives, and consideration has been given to their recommendations. However, consultation with representatives of all industries affected in advance of the issuance of this amended regulation has been rendered impracticable because it affects many different industries.

AUTHORITY: Sections 1 to 29 issued under sec. 704, 64 Stat. 816, Pub. Law 95, 83d Cong.; 50 U. S. C. App. Sup. 2154. Interpret or apply sec. 101, 64 Stat. 799, Pub. Law 95, 83d Cong.; 50 U. S. C. App. Sup. 2071; E. O. 10480, Aug. 14, 1953, 18 F. R. 4939.

SECTION 1. *What this regulation does.* (a) The purpose of this amended regulation is to continue the Defense Materials System with certain important changes and major simplifications. It defines rights and obligations of persons who produce certain products and materials for the defense program. Corresponding rules relating to construction for the defense program are contained in an amended DMS Regulation No. 2.

(b) Under DMS Regulation No. 1, prior to the issuance of this amended regulation, all Class B products for defense programs were produced by means of self-authorization, and all Class A products for defense programs were produced by means of authorized production schedules and allotments. This amended regulation accomplishes a basic simplification in production controls by expanding the area of self-authorization to include a significant segment of Class A product production. Three types of consumers are defined in this amended regulation: prime consumer, who receives an allotment of controlled material from an Allotting Agency; secondary consumer, who receives an allotment of controlled material from a prime consumer; and self-authorizing consumer, who receives authority to obtain controlled material by self-authorization. The latter includes all manufacturers who produce Class B products pursuant to rated orders, and certain manufacturers who produce Class A products pursuant to rated orders.

(c) This amended regulation provides, as heretofore, for authorization of production schedules and allotments by Allotting Agencies to prime consumers manufacturing Class A products. It establishes an optional procedure whereby such prime consumers may acquire limited quantities of Class A products by placing rated orders therefor, without authorizing production schedules and making allotments. It also provides that all secondary consumers and self-authorizing consumers shall acquire Class A products by placing rated orders therefor, without authorizing production schedules and making allotments. In addition, a number of other revisions have been made in the regulation in the interests of simplification. These changes in the Defense Materials System should accomplish important savings in time and money within that segment of the industrial community producing for defense programs, while at the same time retaining the framework of a control system to handle the expanded military and atomic energy needs in the event of total mobilization.

SEC. 2. *Transition provision for acquisition of controlled materials for production of Class A products by certain persons.* (a) Nothing in this amended regulation shall be construed to cancel outstanding allotments of controlled materials. However, a person who has outstanding allotments for the production of Class A products with respect to which he may also obtain controlled materials by self-authorization, shall be subject to the provisions of paragraph (b) of this section.

(b) A person who may obtain controlled materials by self-authorization pursuant to the provisions of this amended regulation to fill a rated order for Class A products and who has received allotments of controlled materials for the production of such Class A products, shall in no event use such self-authorization or allotment authority to obtain more controlled materials than needed to fill such rated order.

SEC. 3. *Definitions.* As used in this regulation and any other DMS regulation (unless otherwise indicated):

(a) "Person" means any individual, corporation, partnership, association, or any other organized group of persons, and includes any agency of the United States Government or any other government.

(b) "BDSA" means the Business and Defense Services Administration of the United States Department of Commerce.

(c) "Controlled material" means domestic and imported steel, copper, and aluminum, in the forms and shapes indicated in Schedule I of this regulation, whether new, remelted, rerolled, or redrawn.

(d) "Claimant Agency" means the Department of Defense or the Atomic Energy Commission; and "Allotting Agency" means the Department of Defense, the Atomic Energy Commission, BDSA, or any other Government agency or subdivision thereof designated as such by the Office of Defense Mobilization.

(e) "Prime consumer" means any person who receives an allotment of controlled material from an Allotting Agency.

(f) "Secondary consumer" means any person who receives an allotment of controlled material from a prime consumer.

(g) "Self-authorizing consumer" means any person who receives authority to obtain controlled material by self-authorization pursuant to the provisions of this regulation.

(h) "Allotment" means (1) an authorization by the Office of Defense Mobilization of the amount of controlled materials which may be received and or allotted by a Claimant Agency during a specified period, or (2) an authorization by a Claimant Agency of the amount of controlled materials which may be received and/or allotted by an Allotting Agency or by a prime consumer during a specified period, or (3) an authorization by an Allotting Agency of the amount of controlled materials which may be received and/or allotted by a prime consumer during a specified period, or (4) an authorization by a prime consumer of the amount of controlled materials which may be received by a secondary consumer during a specified period.

(i) "Class A product" means any product which is not a Class B product (as defined in paragraph (j) of this section), and which contains any controlled material, fabricated or assembled beyond the forms and shapes specified in Schedule I of this regulation, other than any controlled material which may be contained in Class B products incorporated in it.

(j) "Class B product" means any product designated as such in the "Official Class B Product List" issued by BDSA, as the same may be modified from time to time, and which contains any controlled material other than any controlled material which may be contained in other Class B products incorporated in it.

(k) "Program" means a statement of the amounts of an item or class of items to be provided in specified periods of time.

(l) "Authorized program" means a program specifically approved by the Office of Defense Mobilization.

(m) "Production schedule" means a statement of the amounts of an item or class of items to be produced by an individual prime or secondary consumer in specified periods of time.

(n) "Authorized production schedule" means a production schedule specifically approved by an Allotting Agency with respect to a prime consumer, or specifically approved by a prime consumer with respect to a secondary consumer.

(o) "Delivery order" means any purchase order, contract, shipping or other instruction calling for delivery of any material or product on a particular date or dates or within specified periods of time.

(p) "Authorized controlled material order" means any delivery order for any controlled material (as distinct from a product containing controlled material) which is placed pursuant to an allotment, or pursuant to self-authorization, as provided in section 20 of this regulation, or which is specifically designated to be such an order by any regulation or order of BDSA.

(q) "Rated order" means any delivery order for any product or material other than controlled material bearing an authorized rating and the certification required by this regulation, BDSA Reg. 2 (formerly NPA Reg. 2), or any other applicable regulation or order of BDSA.

(r) "Controlled materials distributor" means (1) a distributor of steel controlled materials as defined in BDSA Order M–1A, (2) a distributor of aluminum controlled materials as defined in BDSA Order M–5A, or (3) a distributor of copper controlled materials as defined in BDSA Order M–11A.

SEC. 4. *General production schedule and allotment procedure for production of Class A products by prime and secondary consumers.* (a) The provisions of this section apply only to the production of Class A products by prime consumers who receive authorized production schedules and allotments from Allotting Agencies, and to the production of Class A products by secondary consumers who receive authorized production schedules and allotments from prime consumers.

(b) Except where otherwise specifically provided by BDSA, each Allotting Agency shall authorize production schedules, pursuant to authorized programs, of prime consumers manufacturing Class A products for it. Subject to the provisions of section 13 of this regulation, each prime consumer who has an authorized production schedule for Class A products shall, pursuant thereto, authorize production schedules of secondary consumers manufacturing Class A products for it.

(c) Except where otherwise specifically provided by BDSA, each Allotting Agency shall make allotments, pursuant to allotments which it has received, to prime consumers manufacturing Class A products for it, to fulfill related authorized production schedules. Subject to the provisions of section 13 of this regulation, each prime consumer manufacturing Class A products who has received an allotment shall, pursuant thereto, make allotments to secondary consumers manufacturing Class A products for it, to fulfill related authorized production schedules.

SEC. 5. *General self-authorization procedure for production of Class A products by self-authorizing consumers.* (a) The provisions of this section apply only to the production of Class A products by self-authorizing consumers who receive rated orders.

(b) Except where otherwise specifically provided by BDSA, no person other than an Allotting Agency or a prime consumer shall authorize production schedules or make allotments for the production of Class A products. Self-authorizing consumers manufacturing Class A products who receive rated orders for such products, without authorized production schedules and allotments, shall obtain their controlled material requirements by self-authorization in accordance with the provisions of section 16 of this regulation.

SEC. 6. *General self-authorization procedure for production of Class B products.* (a) The provisions of this section apply to the production of all Class B products pursuant to rated orders.

(b) Except where otherwise specifically provided by BDSA, no person shall authorize production schedules or make allotments for the production of Class B products. Self-authorizing consumers manufacturing Class B products who receive rated orders for such products shall obtain their controlled material requirements by self-authorization in accordance with the provisions of section 17 of this regulation.

SEC. 7. *Use of allotment, self-authorization, and rating authority to fill rated orders for Class A and Class B products.* (a) Each person who has received a rated order for a Class A or a Class B product must, to fill such order or to replace in inventory products and materials used in the manufacture of the product covered by such order, use the related allotment or self-authorization, whichever is appropriate, to acquire controlled materials, and use the related DO rating to acquire products and materials other than controlled materials.

(b) Notwithstanding the provisions of paragraph (a) of this section or of any other provisions of this regulation, no person, except a prime consumer, shall be required to use an allotment, self-authorization, or DO rating to acquire materials or products where the quantities of such materials or products are insignificant in relation to the total procurement of materials or products by such person.

SEC. 8. *Statements of requirements.* (a) The basis for an allotment to a prime or secondary consumer manufacturing Class A products shall be the actual requirements for controlled materials in connection with the fulfillment of an authorized production schedule.

(b) An application for allotment includes only (1) the quantities of controlled materials required by the submitting prime or secondary consumer for his own production of Class A products to fill rated orders (including the controlled material requirements of any Class A and Class B components or subassemblies which he makes himself for incorporation in his product), and (2) the quantities of controlled materials required by all secondary and self-authorizing consumers in different degrees of remoteness supplying Class A products for incorporation in his product to be delivered on rated orders.

(c) Any manufacturer of Class A products, upon the request of an Allotting Agency or other person for whom he produces Class A products to fill rated orders, shall furnish to such Allotting Agency or other person, the information called for in Form DMS–4A. Such information shall be submitted on Form DMS–4A or in such other manner as may be prescribed.

SEC. 9. *Applications for authorized production schedules and allotments for Class A products.* Production schedules for Class A products may be authorized and related allotments made on the basis of information furnished by application on Form DMS–4A.

SEC. 10. *How production schedules for Class A products are authorized.* (a) A production schedule for each prime consumer producing a Class A product for an authorized program will be authorized by the appropriate Allotting Agency on such form as may be prescribed.

(b) Except as provided in section 13 of this regulation, a production schedule for each secondary consumer producing a Class A product shall be authorized by the prime consumer for whom such Class A product is to be produced, pursuant to an authorized production schedule, on such form as may be prescribed. A prime consumer having two or more authorized production schedules bearing the same program identification may, pursuant thereto, authorize a single production schedule for a secondary consumer.

(c) Except where otherwise specifically provided by BDSA, no Allotting Agency or prime consumer shall authorize a production schedule unless it makes an allotment as provided in section 11 of this regulation, and no Allotting Agency or prime consumer shall make an allotment unless it authorizes a related production schedule as provided in this section.

(d) When the production schedule of a prime or secondary consumer is authorized and a related allotment is made to him, a DO rating, bearing the appropriate program identification consisting of a letter and one digit, shall be assigned or applied to such schedule by the Allotting Agency or prime consumer authorizing the production schedule, for use in accordance with the provisions of this regulation and of BDSA Reg. 2 (formerly NPA Reg. 2).

SEC. 11. *How allotments are made.* (a) Each Allotting Agency or prime consumer authorizing a production schedule for a Class A product as provided in section 10 of this regulation, shall make a related allotment, pursuant to allotments which it has received, to the prime or secondary consumer whose production schedule has been authorized, on such form as may be prescribed.

(b) The allotment shall specify the quantities and the kinds of controlled materials needed for delivery in specified calendar quarters to complete the related authorized production schedule. Allotments shall be made in terms of (1) carbon steel (including wrought iron), (2) alloy steel (except stainless steel), (3) nickel-bearing stainless steel, (4) copper and copper-base alloy brass mill products, (5) copper wire mill products, (6) copper and copper-base alloy foundry products and powder, and (7) aluminum, in each case without further breakdown.

(c) The allotment shall be identified by an allotment number as provided in section 12 of this regulation.

(d) Advance allotments by Allotting Agencies to prime consumers may be made within such limits as may be specified by the Office of Defense Mobilization. Prime consumers receiving such advance allotments shall, in turn, make advance allotments to their secondary consumers in the same manner as in the case of regular allotments, but no prime consumer shall make any allotment before receiving his own allotment.

(e) An Allotting Agency or prime consumer may make allotments only in the same kinds of controlled materials in which it has received its allotment.

SEC. 12. *Designation and use of allotment numbers.* (a) Allotments shall be identified by an allotment number consisting of a program identification bearing a letter and one digit, designating the authorized program of the appropriate Allotting Agency, or such other appropriate program identification specified by this regulation or any other regulation or order of BDSA.

(b) Authorized controlled material orders shall show the related allotment number and the calendar quarter for which the allotment is valid or, in the case of self-authorization, the calendar quarter in which delivery is required. For example, a delivery order for controlled materials placed pursuant to an allotment identified by allotment number A–6 which is valid for the third quarter of 1954 shall be designated as follows: A–6–3Q54. The date or dates on which delivery is required must also be specified on such delivery order.

SEC. 13. *How prime and secondary consumers use allotments.* (a) Each prime consumer receiving an allotment shall use that portion of the allotment which he requires to obtain controlled materials, as such, for his authorized production schedule, and shall deduct from his allotment account the quantities represented by authorized controlled material orders placed by him. Subject to the provisions of paragraph (b) of this section, he shall make allotments to secondary consumers producing Class A products for him, and shall deduct from his allotment account the quantities represented by such allotments. When filing an application for allotments, he shall include the controlled materials needed for the production of Class A products by secondary consumers and also self-authorizing consumers in all degrees of remoteness, in accordance with the provisions of section 8 (b) of this regulation.

(b) At least 85 percent of each kind of controlled material (as specified in section 11 (b) of this regulation) allotted to a prime consumer for an authorized production schedule shall be charged against his appropriate allotment account for (1) authorized controlled material orders placed by him, and (2) allotments made by him to his secondary consumers. With respect to the balance of 15 percent or less of each kind of controlled material required for the production of Class A products by his other suppliers, he may place rated orders for such products without authorizing production schedules and making allotments. If he follows this procedure, he shall charge against his appropriate allotment account the reasonably estimated aggregate controlled material requirements of self-authorizing consumers in all degrees of remoteness supplying Class A products. A prime consumer must furnish each direct self-authorizing consumer supplying Class A products with a written statement advising him that he is required to obtain his material requirements to fill the rated order by self-authorization in accordance with the provisions of DMS Regulation No. 1. The form of statement provided for in section 18 (d) of this regulation may be used for such purpose.

(c) Each secondary consumer receiving an allotment shall use that portion of the allotment which he requires to obtain controlled materials, as such, for his authorized production schedule, and shall deduct from his allotment account the quantities represented by authorized controlled material orders placed by him. He shall make no allotments for the production of Class A products, but shall place rated orders therefor, and shall deduct from his allotment account the reasonably estimated aggregate controlled material requirements of self-authorizing consumers in all degrees of remoteness supplying Class A products. When filing an application for allotments, he shall include the controlled materials needed for the production of Class A products by self-authorizing consumers in all degrees of remoteness, in accordance with the provisions of section 8 (b) of this regulation.

(d) No prime or secondary consumer shall place any rated order for Class A products the controlled material requirements of which exceed the related allotment received by him, after deducting all authorized controlled material orders placed by him and all other charges against his allotment.

(e) No prime consumer shall make any allotment in excess of the amount required, to the best of his knowledge and belief, to fulfill the related authorized production schedule of the secondary consumer to whom the allotment is made.

(f) Except where otherwise specifically provided by BDSA, no person other than an Allotting Agency or a prime consumer shall make, and no person other than a prime or secondary consumer shall accept, any allotment for the production of Class A products. Except where otherwise specifically provided by BDSA, no person shall make, and no person shall accept, any allotment for the production of Class B products. Controlled materials required for the production of Class A products by self-authorizing consumers to fill rated orders shall be obtained in accordance with the self-authorization provisions of section 16 of this regulation. Controlled materials required for the production of Class B products by self-authorizing consumers to fill rated orders shall be obtained in accordance with the self-authorization provisions of section 17 of this regulation.

(g) A prime consumer may make an allotment on such form (including Form DMS–5 set forth in Schedule II of this regulation) as may be prescribed for the purpose. Allotments may be made by telegraphing or telephoning the information required by the appropriate form and confirming the same with such form, within 30 days thereafter.

SEC. 14. *How to cancel or reduce allotments.* A person who has made an al-

lotment may cancel or reduce the same by notice in writing to the person to whom it was made. A person who has received an allotment may cancel or reduce the same by making an appropriate notation thereon and notifying the person from whom he received it. In either case, if an allotment received by a person is canceled, he must cancel all allotments which he has made, and all authorized controlled material orders which he has placed, on the basis of the allotment; and, if an allotment received by a person is reduced, he must cancel or reduce allotments which he has made, or authorized controlled material orders which he has placed, to the extent that the same exceed the allotment as reduced.

SEC. 15. *Adjustments for changes in or correction of requirements.* (a) If a prime or secondary consumer's requirements for controlled materials or Class A products needed to fulfill an authorized production schedule are increased after he receives his allotment, he may apply for an additional allotment to the Allotting Agency or prime consumer which made the allotment for that schedule.

(b) If a prime consumer finds that he has been allotted substantially more than he needs, he must promptly return the excess to his Allotting Agency. To the extent that he fails to make such returns, he will be unable to benefit fully from the procedure provided in section 13 (b) of this regulation for acquiring limited quantities of Class A products without making allotments.

(c) If a secondary consumer finds that he has been allotted substantially more than he needs, he must promptly return the excess to his prime consumer.

(d) The return of an unneeded allotment must be made to the person from whom the allotment was received on such form as may be prescribed. If it is impracticable to obtain the prescribed form, the return may be made by letter setting forth the facts.

SEC. 16. *Self-authorization procedure for self-authorizing consumers producing Class A products.* (a) Except where otherwise specifically provided by BDSA, no person other than an Allotting Agency or a prime consumer shall authorize a production schedule or make an allotment for the production of a Class A product, and no person other than a prime or secondary consumer shall accept an authorized production schedule or an allotment for the production of a Class A product. Instead, persons authorized to use ratings who are not permitted to authorize production schedules or make allotments for the production of Class A products, shall obtain Class A products by placing rated orders therefor.

(b) A manufacturer of Class A products who receives a rated order for such products, without an authorized production schedule and an allotment, shall treat the Class A products covered by such order as Class B products, and shall, with respect to production to fill such order, operate under the self-authorization provisions of paragraphs (a) through (d) of section 17 of this regulation: *Provided, however,* That in lieu of extending the allotment number B-5 and rating DO-B-5, he shall extend the allotment number and rating that accompanied the DO rated order received by him from his customer. For example, if he receives an order rated DO-A-6 he shall extend the allotment number A-6 and the rating DO-A-6. If the requirement that he extend his customer's allotment number and rating works an undue hardship on him he may file a request for adjustment or exception in accordance with section 26 of this regulation.

SEC. 17. *Self-authorization procedure for obtaining materials for production of Class B products.* (a) Except where otherwise specifically provided by BDSA, no person shall authorize a production schedule or make an allotment for the production of a Class B product, and no person shall accept an authorized production schedule or an allotment for the production of a Class B product. Instead, persons authorized to use ratings shall obtain Class B products by placing rated orders therefor.

(b) A manufacturer of Class B products who receives a rated order for such products shall obtain his requirements of controlled materials, and of products and materials other than controlled materials, to fill such rated order, by using the program identification B-5 in accordance with the provisions of this section, in lieu of extending the DO rating received by him from a customer. He may, however, extend any DX rating which he receives, to the extent permitted by BDSA Reg. 2 (formerly NPA Reg. 2).

(c) A manufacturer of a Class B product who receives a rated order for such product shall, by self-authorization and without filing any application, use the allotment number B-5 in obtaining controlled materials needed to fill such rated order or to replace in inventory controlled materials used in the manufacture of the product covered by such rated order: *Provided, however,* That with respect to inventory replacement of controlled materials he may use the allotment number B-5 to place orders for controlled materials only in the calendar quarter in which taken from inventory or in the immediately succeeding calendar quarter. In placing authorized controlled material orders, he shall indicate thereon the allotment number B-5 and the calendar quarter in which delivery of the controlled materials is required. He shall obtain Class A products from persons manufacturing such products for him by placing rated orders therefor as provided in paragraph (d) of this section, without authorizing production schedules or making allotments.

(d) A manufacturer of a Class B product who receives a rated order for such product shall, by self-authorization and without filing any application, use the rating DO-B-5 in obtaining products (including Class A products) and materials other than controlled materials needed to fill such rated order or to replace in inventory products and materials other than controlled materials used in the manufacture of the product covered by such rated order. The rating DO-B-5 shall be used in accordance with the provisions of this regulation and of BDSA Reg. 2 (formerly NPA Reg. 2).

(e) A manufacturer of Class B products who has accepted rated orders for such products may, if it is impracticable for him to determine the exact requirements of controlled materials needed to fill such orders, place authorized controlled material orders calling for delivery in a particular calendar quarter by use of the allotment number B-5 in an amount equal to his best estimates of requirements of controlled materials needed in such quarter to fill such rated orders. A manufacturer of Class B products who has accepted rated orders for such products may, if it is impracticable for him to determine the exact requirements of products and materials other than controlled materials needed to fill such orders, place rated orders calling for delivery in a particular calendar quarter by use of the rating DO-B-5 in an amount equal to his best estimates of requirements of products and materials other than controlled materials needed in such quarter to fill such rated orders.

SEC. 18. *Designation and use of ratings.* (a) DO ratings shall be identified by the prefix DO followed by a program identification bearing a letter and one digit, designating the authorized program of the appropriate Allotting Agency, or such other appropriate program identification specified by this regulation or any other regulation or order of BDSA.

(b) Delivery orders for products and materials other than controlled materials shall show the DO rating authorized, for example, DO-A-6. The date or dates on which delivery is required must also be specified on such delivery orders. Such date or dates, in the case of delivery orders to fulfill an authorized production schedule for Class A products, need not be during the calendar quarter for which such production schedule is authorized and for which the related allotment is valid.

(c) To the extent consistent with this regulation, all the provisions of BDSA Reg. 2 (formerly NPA Reg. 2) shall apply to delivery orders for products and materials other than controlled materials. However, in lieu of the certification prescribed in BDSA Reg. 2 (formerly NPA Reg. 2) for rated orders, the following certification may be used:

Certified under DMS Regulation No. 1

This certification accompanying a rated order shall be deemed to be, and shall have the same force and effect as, a certification under BDSA Reg. 2 (formerly NPA Reg. 2).

(d) Any person who places a rated order for a Class B product, and any person who places a rated order for a Class A product without authorizing a production schedule and making an allotment, may furnish his supplier with a statement reading substantially as follows:

The products covered by this rated order are purchased pursuant to DMS Regulation No. 1. You are a self-authorizing consumer as defined in section 2 (g) of that regulation and are required to use its self-authorization provisions in obtaining controlled materials, as well as products and materials other than controlled materials, needed to fill this rated order.

This statement may appear on the order or on a separate piece of paper attached to the order or clearly identifying it.

SEC. 19. *Restrictions on placing authorized controlled material orders and on use of controlled materials.* (a) In no event shall a person placing an authorized controlled material order request delivery of any controlled material in a greater amount or on an earlier date than required to fill his rated orders. If the quantity of any controlled material required by a person to fill such rated orders is less than the minimum mill quantity specified in Schedule IV of this regulation, and is not procurable from a distributor, he may place an authorized controlled material order for and accept delivery of the full minimum shown in such schedule.

(b) No person shall use any controlled materials obtained pursuant to allotment or self-authorization for any purpose except: (1) To fill rated orders, or (2) to replace in inventory controlled materials used to fill any of such rated orders, or (3) for such other purpose as may be expressly authorized by an Allotting Agency. If he cannot use the controlled materials for any such purpose, he may use or dispose of them subject to restrictions of other regulations or orders of BDSA.

(c) Controlled materials which may be obtained by a person to fill a rated order, include such controlled materials which will be physically incorporated into his product. They also include the portion of such controlled materials normally consumed or converted into scrap in the course of processing, and controlled materials used for packaging or containers required to make delivery. However, they do not include controlled materials for construction, production equipment, or for maintenance, repair, or operating supplies.

SEC. 20. *How to place orders with controlled materials producers and distributors.* (a) A delivery order placed with a controlled materials producer or a controlled materials distributor for controlled material shall be deemed an authorized controlled material order only if (1) it contains an allotment number and the calendar quarter for which the allotment is valid or, in the case of self-authorization, the calendar quarter in which delivery is required, as provided in section 12 of this regulation, and complies with the provisions of this section, or (2) it is specifically designated as an authorized controlled material order by any regulation or order of BDSA.

(b) Except where otherwise specifically provided by BDSA, every authorized controlled material order must contain a certification in addition to specifying the allotment number, the calendar quarter for which the allotment is valid or, in the case of self-authorization, the calendar quarter in which delivery is required, and the delivery date or dates. Unless another form of certification is specifically prescribed by an applicable order or regulation of BDSA, such certification shall be in the following form:

Certified under DMS Regulation No. 1

and shall be signed as provided in BDSA Reg. 2 (formerly NPA Reg. 2). This certification shall constitute a representation to the supplier and to BDSA that, subject to the criminal penalties provided for in applicable United States statutes, (1) the purchaser has received an allotment of controlled material authorizing him, in accordance with the provisions of this regulation, to place such order, and that the amount ordered is within the related allotment received by him, after he has deducted from such allotment all other orders for controlled material placed by him and accepted by suppliers, and all other charges against his allotment, or (2) the amount ordered by the purchaser is within and pursuant to the self-authorization provisions of this regulation, or (3) the purchaser is expressly authorized by BDSA, or by any regulation or order of BDSA, to place such order.

(c) An authorized controlled material order must be in sufficient detail to permit entry on mill schedules and must be received by the controlled materials producer at such time in advance as is specified in Schedule III of this regulation, or at such later time as the controlled materials producer may find it practicable to accept the same.

(d) A delivery order for controlled materials pursuant to a directive issued by BDSA shall take precedence over any other delivery order (including an authorized controlled material order) previously or subsequently received, unless a contrary instruction appears in the directive. All authorized controlled material orders shall have equal preferential status, and shall take precedence over other orders for controlled materials to the extent provided in this regulation and in BDSA Order M-1A (steel), BDSA Order M-5A (aluminum), and BDSA Order M-11A (copper), and the directions thereto, or in any other applicable regulation or order of BDSA.

(e) A delivery order for controlled materials not covered by an allotment or self-authorization shall not be combined with an authorized controlled material order. However, if the total of such orders is less than the minimum mill quantity specified in Schedule IV of this regulation and is not procurable from a controlled materials distributor, then a combined order may be placed for such minimum mill quantity. Where such orders are combined, the portion covered by allotment or self-authorization must be specifically identified by the appropriate allotment number, and such delivery order must contain the certification provided in paragraph (b) of this section. Authorized controlled material orders identified by different allotment numbers may be combined if the portion covered by each allotment number is specifically identified by the appropriate allotment number, and such delivery order must contain the certification provided in paragraph (b) of this section.

SEC. 21. *Rules applicable to controlled materials producers.* (a) Each controlled materials producer shall comply with such production and other directives as may be issued from time to time by BDSA and with the provisions of all other applicable regulations and orders of BDSA regarding production and delivery of controlled materials.

(b) Each controlled materials producer shall accept all (1) authorized controlled material orders, (2) orders which he is required to accept pursuant to any regulation or order of BDSA, and (3) orders which he is required to accept pursuant to BDSA directive.

(c) A controlled materials producer shall be required to accept orders for controlled materials in conformity with the provisions of this regulation, as the same is or may be modified by the provisions of BDSA Order M-1A (steel), BDSA Order M-5A (aluminum), and BDSA Order M-11A (copper), and the directions thereto, or of any other applicable regulation or order of BDSA.

(d) A controlled materials producer may reject authorized controlled material orders in the following cases, but he shall not discriminate between customers in rejecting or accepting such orders:

(1) If the order is one for less than the minimum mill quantity specified in Schedule IV of this regulation and has not been combined with another order pursuant to section 20 (e) of this regulation.

(2) If the person seeking to place the order is unwilling or unable to meet such producer's regularly established prices and terms of sale or payment.

(e) In any case where a controlled materials producer is of the opinion that the filling of an order which he is required to accept pursuant to this section would substantially reduce his overall production owing to the large or small size of the order, unusual specifications, or otherwise, he shall promptly notify BDSA, setting forth the pertinent facts. BDSA may, at its discretion, direct that the order be placed with another supplier or take other appropriate action.

(f) A controlled materials producer shall make shipment on each authorized controlled material order as close to the requested delivery date as is practicable. If a producer, after accepting an order within the limits provided in this section, finds that, due to contingencies which he could not reasonably have foreseen, he is obliged to postpone the shipment date, he must promptly advise his customer of the approximate date when shipment can be scheduled, and keep his customer advised of any changes in that date. Shipment of any such carry-over order must be scheduled and made in preference to any order originally scheduled for such later date. When the new date for shipment on a carry-over order falls within a later quarter than that indicated on the original order, the producer must make shipment on the basis of the original order even if that order shows a quarterly identification earlier than the one in which shipment is actually made, and the customer, if the order was placed pursuant to an allotment, is not required to charge his allotment for the quarter during which

shipment on such carry-over order is actually made.

(g) An authorized controlled material order shall not constitute an allotment of controlled material to the controlled materials producer with whom it is placed. If a controlled materials producer requires delivery of controlled materials from other controlled materials producers, to be processed by him and sold against orders which he is required to accept, in another form or shape constituting a controlled material, such delivery may be made or accepted only pursuant to a specific instruction of BDSA, or pursuant to the provisions of section 23 of this regulation.

SEC. 22. *Rules applicable to controlled materials distributors.* (a) Each controlled materials distributor shall comply with such directives as may be issued from time to time by BDSA and with the provisions of all other applicable regulations and orders of BDSA regarding delivery of controlled materials.

(b) Each controlled materials distributor shall accept all (1) authorized controlled material orders, (2) orders which he is required to accept pursuant to any regulation or order of BDSA, and (3) orders which he is required to accept pursuant to BDSA directive.

(c) A controlled materials distributor shall be required to accept orders for controlled materials in conformity with the provisions of this regulation, as the same is or may be modified by the provisions of BDSA Order M–1A (steel), BDSA Order M–5A (aluminum), and BDSA Order M–11A (copper), and the directions thereto, or of any other applicable regulation or order of BDSA.

(d) An authorized controlled material order may be placed with a controlled materials distributor orally or by telephone, provided that the person placing the order makes written confirmation of such order, conforming to the requirements of this regulation, within 15 days thereafter. If such confirmation is not received within 15 days, the controlled materials distributor shall promptly notify BDSA of the circumstances.

(e) A delivery order for controlled material placed with a controlled materials distributor shall be considered as calling for immediate delivery unless such order specifically provides otherwise. A controlled materials distributor may reject any order for controlled material which is not for immediate delivery.

(f) A controlled materials distributor may reject any authorized controlled material order if he does not have the material ordered in his stock, unless he knows that such material is in transit to his stock, but shall not discriminate between customers in rejecting or accepting such orders.

(g) A controlled materials distributor may reject any authorized controlled material order if the person seeking to place the order is unwilling or unable to meet such distributor's regularly established prices and terms of sale or payment, but shall not discriminate between customers in rejecting or accepting such orders.

(h) An authorized controlled material order shall not constitute an allotment of controlled material to the controlled materials distributor with whom it is placed. However, a controlled materials distributor may obtain controlled materials in accordance with and subject to the provisions of BDSA Order M–1A (steel), BDSA Order M–5A (aluminum), and BDSA Order M–11A (copper).

SEC. 23. *Production requirements of controlled materials producers.* (a) For the purposes of this section, "production material" means, with respect to any controlled materials producer, any material (including controlled material) or product which will be physically incorporated into controlled materials which he produces, and includes the portion of such material normally consumed or converted into scrap in the course of processing. It also includes containers and packaging materials required to make delivery of the materials he produces, and also chemicals used directly in the production of the materials he produces. It does not include any items purchased by him for construction, production equipment, or for maintenance, repair, or operating supplies.

(b) A controlled materials producer may, by self-authorization and without filing any application, use the allotment number B–5 in obtaining production materials consisting of controlled materials needed to fill orders for controlled materials which he is required to accept by this regulation, or by any other regulation, order, or directive of BDSA: *Provided, however,* That (1) a steel controlled materials producer shall not use the allotment number B–5 to obtain steel controlled materials but shall obtain such materials in accordance with the provisions of BDSA Order M–1A, (2) an aluminum controlled materials producer shall not use the allotment number B–5 to obtain aluminum controlled materials but shall obtain such materials in accordance with the provisions of BDSA Order M–5A, and (3) a copper controlled materials producer shall not use the allotment number B–5 to obtain copper controlled materials but shall obtain such materials in accordance with the provisions of BDSA Order M–11A. In placing authorized controlled material orders, he shall indicate thereon the allotment number B–5 and the calendar quarter in which delivery of the controlled materials is required. He shall obtain Class A products from persons manufacturing such products for him by placing rated orders therefor as provided in paragraph (c) of this section, without authorizing production schedules or making allotments.

(c) Except where otherwise specifically provided by BDSA, a controlled materials producer may, by self-authorization and without filing any application, use the rating DO–B–5 in obtaining production materials consisting of products and materials other than controlled materials needed to fill orders for controlled materials which he is required to accept by this regulation, or by any other regulation, order, or directive of BDSA. The rating DO–B–5 shall be used in accordance with the provisions of this regulation and of BDSA Reg. 2 (formerly NPA Reg. 2).

SEC. 24. *Applicability of other regulations and orders.* Nothing in this regulation shall be construed to relieve any person from complying with all other applicable regulations and orders of BDSA. In case compliance by any person with the provisions of any such regulation or order would prevent fulfillment of an authorized production schedule or a rated order, he shall immediately report the matter to BDSA and to the appropriate Allotting Agency. BDSA will thereupon take such action as is deemed appropriate, but unless and until otherwise expressly authorized or directed by BDSA, such person shall comply with the provisions of such regulation or order.

SEC. 25. *Records and reports.* (a) Each person participating in any transaction covered by this regulation shall make, and preserve for at least 2 years thereafter, accurate and complete records of receipts and deliveries in sufficient detail to permit the determination, after audit, whether each transaction complies with the provisions of this regulation. This regulation does not specify any particular accounting method and does not require alteration of the system of records customarily used, provided such records supply an adequate basis for audit. Records may be retained in the form of microfilm or other photographic copies instead of the originals.

(b) Except as otherwise specifically provided, records of allotments received, and records of allotments made or used, shall be kept separately by allotment numbers and shall include separate entries under each allotment number for each prime consumer or Allotting Agency from whom allotments are received, and for each secondary consumer to whom such allotments are made.

(c) Persons subject to this regulation shall make such records and submit such reports to BDSA as it shall require, subject to the terms of the Federal Reports Act of 1942 (5 U. S. C. 139–139F).

SEC. 26. *Requests for adjustment or exception.* Any person subject to any provision of this regulation, may file a request for adjustment, or exception, upon the ground that such provision works an undue or exceptional hardship upon him not suffered generally by others in the same trade or industry, or that its enforcement against him would not be in the interest of the national defense or in the public interest. The filing of a request for adjustment or exception shall not relieve any person of his obligation to comply with any such provision. In examining requests for adjustment or exception claiming that the public interest is prejudiced by the application of any provision of this regulation, consideration will be given to the requirements of public health and safety, civilian defense, and dislocation of labor and resulting unemployment that would impair the defense program. Each request shall be in writing, by letter in triplicate, shall set forth all pertinent facts and the nature of the relief sought, and shall state the justification therefor.

SEC. 27. *Communications.* All communications concerning this regulation, except as otherwise specified in this regulation, shall be addressed to the Business and Defense Services Administration, Washington 25, D. C., Ref: DMS Regulation No. 1.

SEC. 28. *False statements.* The furnishing of false information or the concealment of any material fact in the course of operation under this regulation constitutes a violation of this regulation. The unauthorized placement of any order in the form of, or purporting to be, an authorized controlled material order or a rated order constitutes a false statement and a violation of this regulation.

SEC. 29. *Violations.* Violation of any provision of this regulation may subject any person committing or participating in such violation to administrative action to require compliance with this regulation and correction of such violation. In addition to such administrative action, an injunction and order may be obtained prohibiting any such violation and enforcing compliance with the provisions hereof. Any person who wilfully violates any provision of this regulation, or who wilfully furnishes false information or conceals any material fact in the course of operation under this regulation, is guilty of a crime and upon conviction may be punished by fine or imprisonment or both.

NOTE: All reporting and record-keeping requirements of this regulation have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

This regulation as amended shall take effect April 1, 1954.

BUSINESS AND DEFENSE SERVICES ADMINISTRATION,
CHAS. F. HONEYWELL,
Administrator.

SCHEDULE I TO DMS REGULATION NO. 1—CONTROLLED MATERIALS

(See sections 3 (c) and 3 (l))

CARBON STEEL (INCLUDING WROUGHT IRON) [1]

(a) Bar, bar shapes.
Includes:
Bar, hot-rolled, stock for projectile and shell bodies.[2]
Bar, hot-rolled, other (including light shapes).
Bar, reinforcing (straight lengths—as rolled).
Bar, cold-finished.
(b) Sheet, strip (uncoated and coated).
Includes:
Sheet, hot-rolled.
Sheet, cold-rolled.
Sheet, galvanized.
Sheet, all other coated.
Sheet, enameling.
Roofing, galvanized, corrugated, V-crimped channel drains.
Ridge roll, valley, and flashing.
Siding, corrugated and brick.
Strip, hot-rolled.
Strip, cold-rolled.
Strip, galvanized.
Electrical sheet and strip.
Tin mill black plate.
Tin plate, hot-dipped.
Ternes, special coated manufacturing.
Tin plate, electrolytic.

See footnotes at end of list.

(c) Plate.[3]
(d) Structural shapes,[4] piling.
(e) Pipe, tubing.[5]
Includes:
Standard pipe (including type of couplings furnished by mill).[6]
Oil country goods (casings, tubular goods, type of couplings furnished by mill).
Line pipe (including type of couplings furnished by mill).
Pressure tubing—seamless and welded.
Mechanical tubing—seamless and welded.
(f) Wire, wire products.
Includes:
Wire—drawn.
Nails—bright steel wire, steel cut, galvanized, cement-coated, and painted.
Spikes and brads—steel wire, galvanized, and cement-coated.
Staples, bright and galvanized (farm and poultry).
Wire rope and strand.
Welded wire mesh and woven wire netting.
Barbed and twisted wire.
Wire fence, woven and welded (farm and poultry).
Bale ties.
Coiled automatic baler wire.
(g) Tool steel (including die blocks and tool steel forgings).
(h) Other mill forms and products (not including forgings except for wheels).
Includes:
Ingots.
Billets, shell quality for body stock only.[7]
Billets, shell quality for component parts and rockets.
Blooms, slabs, other billets, tube rounds, sheet bars.
Skelp.
Wire rod.
Rails.
Joint Bars (track).
Tie plates (track).
Track spikes.
Wheels, rolled or forged (railroad).
Axles (railroad).
(i) Castings (not including cast iron).

ALLOY STEEL [8] (EXCEPT STAINLESS STEEL [9])

(a) Bar, bar shapes.
Includes:
Bar, hot-rolled projectile and shell quality.
Bar, hot-rolled, other (including light shapes).
Bar, cold-finished.
(b) Sheet, strip.
Includes:
Sheet, hot-rolled.
Sheet, cold-rolled.
Sheet, galvanized.
Strip, hot-rolled.
Strip, cold-rolled.
(c) Plates.[10]
Includes:
Rolled armor.
Other.
(d) Structural shapes.
(e) Pipe, tubing.[5]
Includes:
Oil-country goods.
Pressure tubing—seamless and welded.
Mechanical tubing—seamless and welded.
(f) Wire.
(g) Tool steel (including die blocks and tool steel forgings).
(h) Other mill forms and products (not including forgings except for wheels).
Includes:
Ingots.
Billets, projectile and shell quality.
Blooms, slabs, other billets, tube rounds, sheet bars.
Wire rods.
Rails.
Wheels, rolled or forged (railroad).
Axles (railroad).
(i) Castings.

NICKEL-BEARING STAINLESS STEEL [11]

(a) Seamless tubing.[5]
(b) Other mill forms and products (not including forgings).
Includes:
Bar, bar shapes (including light shapes).
Includes:
Bar, hot-rolled (including light shapes).
Bar, cold-finished.
Sheet, strip.
Includes:
Sheet, hot-rolled.
Sheet, cold-rolled.
Strip, hot-rolled.
Strip, cold-rolled.
Plate.[12]
Structural shapes.[4]
Tubing (except seamless).[5]
Wire, wire products.
Includes:
Wire, drawn.
Wire rope and strand.
Welded wire mesh and woven wire netting.
Ingots, blooms, billets, tube rounds, sheet bars, wire rods.
(c) Castings.[13]

COPPER AND COPPER-BASE ALLOY BRASS MILL PRODUCTS.[14]

Copper (unalloyed):
(a) Bar, rod, shapes, wire (except electrical wire).
(b) Sheet, strip, plate, rolls.
(c) Pipe, tubing (seamless).
Copper-base alloy: [15]
(d) Bar, rod, wire, shapes.
(e) Sheet, strip, plate, rolls, military ammunition cups and discs.
(f) Pipe, tubing (seamless).

COPPER WIRE MILL PRODUCTS

All copper wire and cable for electrical conduction, including but not limited to:
Bare and tinned.
Weatherproof.
Magnet wire.
Insulated building wire.
Paper and lead power cable.
Paper and lead telephone cable.
Asbestos cable.
Portable and flexible cord and cable.
Communication wire and cable.
Shipboard cable.
Automotive and aircraft wire and cable.
Insulated power cable.
Signal and control cable.
Coaxial cable.
Copper-clad steel wire containing over 20 percent copper by weight regardless of end use.

COPPER AND COPPER-BASE ALLOY FOUNDRY PRODUCTS AND POWDER

Includes:
Copper, brass, and bronze castings.[16]
Copper, brass, and bronze powder.

ALUMINUM [17]

Rolled bar, rod, wire (including drawn wire), structural shapes.
Aluminum cable steel reinforced (ACSR) and bare aluminum cable.
Insulated or covered wire or cable.
Extruded bar, rod, shapes, tubing (including drawn or welded tubing).
Sheet, strip, plate.
Pig or ingot, granular or shot.

[1] For the purpose of this schedule "carbon steel (including wrought iron)" means any steel customarily so classified and also includes: (1) Ingot iron; (2) all grades of electrical sheet and strip; (3) low-alloy, high-strength steels; (4) clad and coated carbon steels not included with alloy steels; e. g., galvanized, tin, terne, copper (excluding cop-

per wire mill products) or aluminum clad and /or coated carbon steels; and (5) leaded carbon steels. "Low-alloy, high-strength steels" means only the proprietary grades promoted and sold for this purpose, and Navy high-tensile steel grade HT Specification Mil-S-16113 (Ships).

[2] Includes projectile body stock, sizes under 2⅞ inches and component parts, all sizes.

[3] Carbon plates not only include the following minimum size specifications, but also floor plates of any thickness:

0.180 inch or thicker, over 48 inches wide.
0.230 inch or thicker, over 12 inches wide.
7.53 pounds per square foot or heavier, over 48 inches wide.
9.62 pounds per square foot or heavier, over 12 inches wide.

[4] "Structural shapes" means rolled flanged sections having at least one dimension of their cross section 3 inches or greater, commonly referred to as angles, channels, beams, and wide flange sections.

[5] Steel pipe or tubing exceeding 36 inches O. D. is not a controlled material, but is a Class A product.

[6] Standard pipe includes the following:

Ammonia pipe.
Bedstead tubing.
Driven well pipe.
Drive pipe.
Dry kiln pipe.
Dry pipe for locomotives.
English gas and steam pipe.
Furniture pipe.
Ice machine pipe.
Mechanical service pipe.
Nipple pipe.
Pipe for piling.
Pipe for plating and enameling.
Pump pipe.
Signal pipe.
Standard pipe coupling.
Structural pipe.
Turbine pump pipe.
Water main pipe.
Water well casing.
Water well reamed and drifted pipe.

[7] Includes only projectile body stock, sizes 2⅞ inches and larger, rounds, and round-cornered squares.

[8] For purposes of this schedule "alloy steel" means steel containing 50 percent or more of iron or steel and any one or more of the following elements in the following amounts: Manganese, maximum of range in excess of 1.65 percent; silicon, maximum of range in excess of 0.60 percent (excepting electrical sheet and strip); copper, maximum of range in excess of 0.60 percent; aluminum, boron, chromium, cobalt, columbium-molybdenum, nickel, tantalum, titanium, tungsten, vanadium, zirconium, or any other alloying elements in any amount specified or known to have been added to obtain a desired alloying effect. Clad steels which have an alloy steel base or carbon steel for which nickel and/or chromium is contained in the coating or cladding material (e. g., inconel, monel, or stainless) are alloy steels.

[9] "Stainless steel" means heat- and corrosion-resisting steel containing 50 percent or more of iron or steel and 10 percent or more of chromium whether with or without nickel, molybdenum, or other elements. However, stainless steel containing less than 1 percent nickel is not a controlled material, nor is it a Class A or a Class B product.

[10] Alloy steel plates include the following size specifications:

0.180 inch or thicker, over 48 inches wide.
0.230 inch or thicker, over 12 inches wide.
7.53 pounds per square foot or heavier, over 48 inches wide.
9.62 pounds per square foot or heavier, over 12 inches wide.

[11] "Nickel-bearing stainless steel" means a stainless steel containing 1 percent or more of nickel.

[12] Nickel-bearing stainless steel plates include the following size specifications: 3/16 inch (0.1875) or thicker, over 10 inches wide.

[13] "Nickel-bearing stainless steel castings" means any steel casting which is heat-, corrosion-, or abrasion-resistant, containing 50 percent or more of iron and 8 percent or more of chromium with 1 percent or more of nickel, with or without molybdenum or other alloying elements.

[14] Includes anodes — rolled, forged, or sheared from cathodes.

[15] "Copper-base alloy" means any alloy in the composition of which the percentage of copper metal equals or exceeds 40 percent by weight of the metallic content of the alloy. It does not include alloyed gold produced in accordance with U. S. Commercial Standard CS 67-38.

[16] Cast copper and copper-base alloy shapes or forms suitable for ultimate use without remelting, rolling, drawing, extruding, or forging. (The process of casting includes the removal of gates, risers, and sprues, and sandblasting, tumbling, and dipping, but does not include any further machining or processing. For centrifugal castings the process includes the removal of the rough cut in the inner and/or outer diameter before delivery to a customer.) Castings include anodes cast in a foundry or by an ingot maker.

[17] Aluminum foil and aluminum powder (atomized or flake, including paste) are not controlled materials or Class A or Class B products.

SCHEDULE II TO DMS REGULATION NO. 1—SHORT FORM OF ALLOTMENT

(Sec. section 13 (g))

FORM DMS-5

Controlled material	Allotment (specify short tons or pounds)			
	....Quarter 195..	....Quarter 195..	....Quarter 195..	....Quarter 195..
Carbon steel (including wrought iron)				
Alloy steel (except stainless steel)				
Nickel-bearing stainless steel				
Copper and copper-base alloy brass mill products				
Copper wire mill products				
Copper and copper-base alloy foundry products and powder				
Aluminum				

Allotment No.----------

Signature and title

Date.----------

Above allotments are made for use in filling this delivery order in compliance with DMS Regulations.

INSTRUCTIONS FOR USE OF SHORT FORM OF ALLOTMENT—FORM DMS-5

The short form of allotment must be either placed on or physically attached to the delivery order. If it is attached, the delivery order number or other identification must be indicated on the form.

The form must be signed by an authorized official of the party making the allotment, but need not be separately signed if it is placed on the delivery order in such a position that the signature of the delivery order by such an authorized official clearly applies to the allotment as well as to the order itself.

The size of the form may be varied, but all information called for by the form must be supplied and the general arrangement and wording of the form must be followed.

SCHEDULE III TO DMS REGULATION NO. 1—TIME FOR DELIVERY OF ALLOTTED CONTROLLED MATERIAL ORDERS (Certified)

Name of product[1]	Number of days in advance of first day of month in which shipment is required: Steel: Carbon	Steel: Low-alloy high-strength	Steel: Stainless	Steel: Alloy[2]	Aluminum and copper
Copper and copper-base alloy brass mill products:					
Copper (unalloyed):					
Bar, rod, shapes, wire (except electrical wire)	45				45
Sheet, strip, plate, foil	45				45
Pipe, tubing (seamless)	45				45
Copper-base alloy:					
Bar, rod, wire, shapes	45				45
Sheet, strip, plate, foil, military ammunition cups	45				45
Pipe, tubing (seamless)	45				45
Copper wire mill products:					
Copper wire and cable	45				35
Bare, uninsulated	45				35
Weatherproof	45				35
Magnet wire	45				60
Insulated building wire	45				60
Paper and lead power cable	45				60
Paper and lead telephone cable	45				60
Asbestos cable	45				60
Flexible cord and cable	45				45
Portable electric wire and cable	45				45
Ship board cable	45				60
Automotive and aircraft shielded cable	45				60
Shielded control cable	45				60
Coaxial cable	45				35
Copper rod stock for wire or cable (containing over 2½ percent copper by weight, regardless of end use)	45				14 to 30
Copper and copper-base alloy foundry products and powder	45				30
Copper, brass, and bronze ingots	45				30
Copper, brass, and bronze powder	45				30
Aluminum and aluminum-base alloy (except electrical wire):					
Aluminum cable steel reinforced (ACSR) and bare aluminum cable	45				60
Insulated or covered wire or cable	45				60
Extruded bar, rod, shapes, tubing (including drawn or welded tubing)	45				60
Sheet, strip, plate	45				60
Pig or ingot, granular or shot	45				60

[1] See definitions contained in footnotes to Schedule I of this regulation.
[2] Alloy steel products as defined in footnote 8 to Schedule II of this regulation.
[3] For unalloyed nickel treated, add an additional 15 days.
[4] For electrical sheet and strip, use this table:

Grade	Lead time	Definition
Low	45	AISI M0, M13, M36.
Medium	45	AISI M15, M22, M14.
High	60	AISI M17, M19, M14, and oriented.

[5] Rolled copper plate is subject to negotiation between mill and its customer. If no acceptable arrangements are worked out, DMS-5 may be filed.
[6] Not applicable to specified shapes including angles and channels.
[7] Applicable to wire 0.0201 inch and smaller.
[8] Drawn finished, cold-rolled steel bond 15 days.
[9] Forged copper pipe fittings for household castings after approval of patterns for production.
[10] Extruded shapes all sizes, 90 days.
[11] Small simple castings to fit 12 x 16 inch flask, 7 days.

SCHEDULE III TO DMS REGULATION NO. 1—TIME FOR DELIVERY OF ALLOTTED CONTROLLED MATERIAL ORDERS (Certified)—Continued

Name of product[1]	Number of days in advance of first day of month in which shipment is required: Steel: Carbon	Steel: Low-alloy high-strength	Steel: Stainless	Steel: Alloy[2]	Aluminum and copper
Steel:					
Bar, bar shapes (including light shapes):					
Bar, hot-rolled prospecting drill steel (quality)	45	75	90	[3] 75	
Bar, hot-rolled, other (including drill steel)	45	75		[3] 75	
Bar, reinforcing, straight lengths—as rolled	45	105		[3] 105	
Bar, cold-finished and coated	45	75	90	75	
Sheet, strip, hot-rolled:					
Sheet, hot-rolled	45	75	105	90	
Sheet, cold-rolled	45				
Sheet, galvanized	45				
Sheet, all other coated	45				
Sheet, enameling	45				
Roofing, galvanized, corrugated, V-crimped channel drains	45				
Ridge roll, valley, and flashing	45				
Siding, corrugated and brick	45				
Strip, hot-rolled	45	75	90	75	
Strip, cold-rolled	45	75	105	90	
Strip, galvanized	45				
Electrical sheet and strip	45				
Tin mill black plate	45				
Tin plate, hot-dipped	45	75	90	[3] 90	
Terne, special coated manufacturing	45				
Tin plate, electrolytic	45	75	90	[3] 75	
Plate	45				
Structural shapes, piling	45				
Pipe, tubing:					
Standard pipe (including couplings furnished by mills)	45	120	120	90	
Oil-country goods (casings, tubular goods, couplings furnished by mills)	45			60	
Line pipe (including couplings furnished by mills)	45		120	120	
Pressure tubing, seamless and welded	45		120	120	
Mechanical tubing, seamless and welded	45	75	90	75	
Wire, wire products:					
Wire, drawn	45				
Nails, brads, staples, steel wire, steel cut, galvanized, or chemically coated, and poultry netting	45		105		
Spokes and bands, steel wire, galvanized, and ornamental	45		105		
Staples, bright and galvanized (farm and poultry)	45				
Wire rope and strand	45				
Welded wire mesh and woven wire netting	45				
Barbed and twisted wire	45				
Wire fence, woven and welded (farm and poultry)	45				
Bale ties	45				
Coil and flat spring steel	45				
Tool steel (including alloy high-speed tool steel) forgings	45		75	[3] 90	75
Other steel forgings and products (not including forgings for wheels):					
Bars, prepared and shaft quality	45		75	[3] 75	75
Blooms, slabs, billets, tube rounds, sheet bars	45				
Skelp	45				
Wire rod	45		90	[3] 90	90
Rods	45				
Rail, light (trams)	45				
Rail, heavy	45				
Tie plates (trams)	45				
Track spikes (not screw)	45				
Axles, rolled or forged (railroad)	45			[3] 90	90
Castings (not including cast iron)	[4] 90		[3] 90	[3] 90	[3] 90

See footnotes at end of table.

SCHEDULE IV TO DMS REGULATION NO. 1—MINIMUM MILL QUANTITIES—Continued

Name of product [1]	Minimum quantity for each size and grade of any item for mill shipment at any one time to any one destination	Steel [2]		Aluminum and copper (pounds)
		Carbon	Alloy	
Steel—Continued				
Wire, wire products—Continued				
Nails—bright steel wire, steel cut, galvanized, cement-coated, and blued	net tons	.5	.....	.....
Spikes and bolts—steel wire, galvanized, and cement-coated	net tons	.5	.....	.....
Staples, bright and galvanized (farm and poultry)	net tons	.5	.....	.....
Woven wire netting	net tons	(3)	.....	.....
Welded wire fencing	net tons	(3)	.....	.....
Barbed and twisted wire	net tons	.5	.....	.....
Hoop, woven and welded (farm and poultry)	net tons	.5	.....	.....
Bale ties	net tons	.5	.....	.....
Colonial automatic baler wire	net tons	.5	.....	.....
Tool steel (including shock and hot-work steel) forgings	pounds	500	500	.....
Other steel forms and products				
Ingots	net tons	6.25	(4)	.....
Billets, blooms, and slabs	net tons	(3)	(4)	.....
Billets, slabs, other billets, tube rounds, sheet bars	net tons	6.25	(4)	.....
Skelp	net tons	6.25	5	.....
Wire rod	net tons	3	.....	.....
Rods and track accessories				
Wheels, rolled or forged (railroad)	net tons	(3)	(4)	.....
Axles (railroad)	net tons	(3)	(4)	.....
Crankshaft (not including engine) forgings	net tons	(3)	(4)	.....
Copper (not including copper alloy) forms mill products:				
Bar, rod, shapes, wire (except electrical wire)	pounds	.....	.....	500
Sheet, strip, plate, rolls, military ammunition cups and discs	pounds	.....	.....	500
Pipe, tubing (seamless)	pounds	.....	.....	500
Copper base alloy:				
Bar, rod, wire, shapes	pounds	.....	.....	200
Sheet, strip, plate, rolls, military ammunition cups and discs	pounds	.....	.....	200
Pipe, tubing, seamless	pounds	.....	.....	200
Copper wire mill product	pounds	.....	.....	200
Aluminum				
Rolled, bar, rod, wire (including drawn wire), structural shapes	pounds	.....	.....	.....
Aluminum cable, bare (stranded) ACSR and bare aluminum cable	pounds	.....	.....	.....
Extruded tubular rod, bar or tube (including drawn or welded tubing)	pounds	.....	.....	.....
Sheet, plate, foil	pounds	.....	.....	.....
Pig or ingot, or billet or shot	pounds	.....	.....	.....

[1] See definitions contained in footnotes to Schedule I of this regulation.
[2] All stainless steel products are by negotiation. If unacceptable arrangements are worked out, BDSA should be notified.
[3] By negotiation between mill and its customer. If no acceptable arrangements are worked out, BDSA should be notified.
[4] Published carload minimum (mixed sizes and grades).
[5] Quantity refers to any assortment of wire merchant trade products.
[6] For similar quality, product of one heat.
[7] Product of one heat.
[8] Minimum quantities as published by each mill.
[9] Smaller minimum quantities as established by each mill.

[F. R. Doc. 54-2463; Filed, Apr. 1, 1954; 12:32 p. m.]

SCHEDULE IV TO DMS REGULATION NO. 1—MINIMUM MILL QUANTITIES

(See sections 19 (a), 20 (e), and 21 (d))

Name of product [1]	Minimum quantity for each size and grade of any item for mill shipment at any one time to any one destination	Steel [2]		Aluminum and copper (pounds)
		Carbon	Alloy	
Steel:				
Bar, bar shapes (including light shapes):				
Bar, hot-rolled, merchant and special quality	(3)	(3)	.....	.....
Bar, hot-rolled, other (including light shapes):				
Rounds, squares, hexagons, half rounds, ovals, etc., of approximately equivalent cross-sectional area:				
Round and square bars over 3 inches to, but not including, 7 inches		5	5	.....
Bar-size shapes (angles, tees, channels, and rees under 3 inches		15	15	.....
Bar, reforming (straight lengths, as rolled)	net tons	5	5	.....
Bar, cold-finished	net tons	5	5	.....
Sheet, strip (uncoated and coated):				
Sheet, hot-rolled	net tons	5	(4)	.....
Sheet, cold-rolled	net tons	5	(4)	.....
Sheet, all other coated		(5)	(5)	.....
Sheet, electrical		(5)	(5)	.....
Roofing, siding, corrugated, V-crimped, U-crimped channel drums		(5)	(5)	.....
Rolled rail, rail joints, and fastenings		(5)	(5)	.....
Strip, hot-rolled	net tons	3	(4)	.....
Strip, cold-rolled	net tons	3	(4)	.....
Strip, galvanized		(5)	(5)	.....
Electrical sheet and strip		(5)	(5)	.....
Tin mill black plate	pounds	5,000	.....	.....
Tin plate, hot-dipped	pounds	5,000	.....	.....
Terne, special coated manufacturing	pounds	5,000	.....	.....
Tin plate, electrolytic	pounds	5,000	.....	.....
Plate:				
Rolled armor		(5)	(5)	.....
Continuous-strip mill production	net tons	10	(4)	.....
Sheared, universal, or bar mill production	net tons	3	(4)	.....
Structural shapes, piling		(5)	(5)	.....
Pipe, tubings:				
Standard pipe (including couplings furnished by mill)		(5)	(5)	.....
Oil-country goods (casings, tubular goods, couplings furnished by mill)		(5)	(5)	.....
Line pipe (including couplings furnished by mill)		(5)	(5)	.....
Pressure and mechanical tubing (seamless and welded):				
Seamless cold-drawn (O. D. in inches)				
Up to ¼, inclusive	feet	1,000	1,000	.....
Over ¼ to ⅝, inclusive	feet	500	500	.....
Over ⅝ to 3, inclusive	feet	400	400	.....
Over 3	feet	250	250	.....
Seamless hot-rolled		(7)	(7)	.....
Welded		(7)	(7)	.....
Wire, wire products:				
Wire, drawn			(8)	.....
Low carbon	net tons	1	.....	.....
High carbon (0.40 carbon and higher):				
Under 0.021 inch	pounds	500	.....	.....
From 0.021 inch to 0.0475 inch	pounds	1,000	.....	.....
0.0475 inch and heavier	net ton	1	.....	.....

See footnotes at end of table.

[DMS Regulation No. 1, Directions 1 and 2—Revocation]

DMS REG. 1—BASIC RULES OF THE DEFENSE MATERIALS SYSTEM

DIR. 1—LIMITATIONS ON AUTHORITY TO ACQUIRE NICKEL-BEARING STAINLESS STEEL FOR PURPOSES OTHER THAN CONSTRUCTION

DIR. 2—STATUS OF CERTAIN CARRY-OVER AUTHORIZED CONTROLLED MATERIAL ORDERS

REVOCATION

Direction 1 (18 F. R. 3710) and Direction 2 (18 F. R. 2739) to DMS Regulation No. 1 are hereby revoked.

This revocation does not relieve any person of any obligation or liability incurred under Directions 1 and 2 to DMS Regulation No. 1 as originally issued or as thereafter amended, nor deprive any person of any rights received or accrued under said directions prior to the effective date of this revocation.

(64 Stat. 816, Pub. Law 95, 83d Cong.; 50 U. S. C. App. Sup. 2154)

This revocation is effective April 1, 1954.

[DMS Regulation No. 1, Direction 3 as Amended April 1, 1954]

DMS REG. 1—BASIC RULES OF THE DEFENSE MATERIALS SYSTEM

DIR. 3—SELF-AUTHORIZATION PROCEDURE FOR DEFENSE CONTRACT LABORATORIES

This amended direction under DMS Regulation No. 1 is found necessary and appropriate to promote the national defense and is issued pursuant to the Defense Production Act of 1950, as amended. In the formulation of this amended direction, consultation with industry representatives has been rendered impracticable because the direction affects a large number of different kinds of laboratories performing different functions and engaged in a wide variety of projects.

Sec.
1 What this direction does.
2 Definitions.
3 Procurement of products and materials.
4 Applicability of other regulations and orders.

AUTHORITY: Sections 1 to 4 issued under sec. 704, 64 Stat. 816, Pub. Law 95, 83d Cong.; 50 U. S. C. App. Sup. 2154. Interpret or apply sec. 101, 64 Stat. 799, Pub. Law 95, 83d Cong.; 50 U. S. C. App. Sup. 2071; E. O. 10480, Aug. 14, 1953, 18 F. R. 4939.

SECTION 1. *What this direction does.* This direction establishes a self-authorization procedure for priorities assistance by which defense contract laboratories may obtain products and materials needed in the performance of projects covered by contracts awarded by or on behalf of the Department of Defense or the Atomic Energy Commission, bearing a DO rating which includes the program identification A, B, C, D, or E, and one digit.

SEC. 2. *Definitions.* As used in this direction:

(a) "Defense contract laboratory" means any person located in the United States, its territories or possessions, who carries on scientific or technological investigation, testing, development, or experimentation as his regular business or in the course of his business, in the performance of a definite project covered by a contract awarded by or on behalf of the Department of Defense or the Atomic Energy Commission, bearing a DO rating which includes the program identification A, B, C, D, or E, and one digit. The term "laboratory" includes, without limitation, research laboratories, production control laboratories, testing laboratories, analytical laboratories, clinical laboratories, and instructional laboratories.

(b) "Material" means any raw, in-process, or manufactured commodity, equipment, component, accessory, part, assembly, or product of any kind. The term includes, but is not limited to, supplies for laboratories, equipment and instruments designed for use in laboratories, and other materials needed to carry on scientific or technological investigation, testing, development, or experimentation. The term also includes such items as hand tools and safety equipment purchased by a laboratory for sale to its employees or for use in the laboratory activities. However, the term does not include products or materials for use in construction as defined in DMS Regulation No. 2.

SEC. 3. *Procurement of products and materials.* Any defense contract laboratory may, by self-authorization and without filing any application, use the allotment number B-5 and the rating DO-B-5 in obtaining products and materials necessary for the performance of a definite project covered by a contract awarded by or on behalf of the Department of Defense or the Atomic Energy Commission, bearing a DO rating which includes the program identification A, B, C, D, or E, and one digit. He may place authorized controlled material orders in accordance with the provisions of DMS Regulation No. 1, and shall indicate thereon the allotment number B-5 and the calendar quarter in which delivery of the controlled materials is required. He may place rated orders to obtain products and materials other than controlled materials (including Class A products for which no production schedules shall be authorized or allotments made) in accordance with the provisions of BDSA Reg. 2 (formerly NPA Reg. 2), and shall indicate thereon the rating DO-B-5. In no event shall a defense contract laboratory use the allotment number B-5 or the rating DO-B-5 to acquire products and materials in a greater amount or on an earlier date than needed for the performance of a definite project covered by a contract awarded by or on behalf of the Department of Defense or the Atomic Energy Commission, bearing a DO rating which includes the program identification A, B, C, D, or E, and one digit.

SEC. 4. *Applicability of other regulations and orders.* Nothing in this direction shall be construed to relieve any person from complying with all other applicable regulations and orders of BDSA. The provisions of DMS Regulation No. 1 regarding the placing of authorized controlled material orders, and the provisions of BDSA Reg. 2 (formerly NPA Reg. 2) regarding the use of ratings, except as otherwise provided in this direction, shall apply to operations under this direction.

This direction as amended shall take effect April 1, 1954.

BUSINESS AND DEFENSE SERVICES ADMINISTRATION,
CHAS. F. HONEYWELL,
Administrator.

[DMS Regulation No. 1, Direction 4 as Amended April 1, 1954]

DMS REG. 1—BASIC RULES OF THE DEFENSE MATERIALS SYSTEM

DIR. 4—SELF-AUTHORIZATION PROCEDURE FOR MRO NEEDED BY CERTAIN PERSONS

This amended direction under DMS Regulation No. 1 is found necessary and appropriate to promote the national defense and is issued pursuant to the Defense Production Act of 1950, as amended. In the formulation of this amended direction, consultation with industry representatives has been rendered impracticable because the direction affects many different industries.

Sec.
1 What this direction does.
2 Definitions.
3 Procurement of products and materials for MRO.
4 Applicability of other regulations and orders.

AUTHORITY: Sections 1 to 4 issued under sec. 704, 64 Stat. 816, Pub. Law 95, 83d Cong; 50 U. S. C. App. Sup. 2154. Interpret or apply sec. 101, 64 Stat. 799, Pub. Law 95, 83d Cong.; 50 U. S. C. App. Sup. 2071; E. O. 10480, Aug. 14, 1953, 18 F. R. 4939.

SECTION 1. *What this direction does.* This direction establishes a self-authorization procedure for priorities assistance by which certain persons may obtain maintenance, repair, and operating supplies and installation materials (referred to collectively as "MRO"), needed to enable them to fill rated and certain other orders. Suppliers of such MRO items obtain products and materials needed for their production under the provisions of BDSA Reg. 2 (formerly NPA Reg. 2), DMS Regulation No. 1, or other appropriate regulation or order of BDSA.

SEC. 2. *Definitions.* As used in this direction:

(a) "Maintenance" means the minimum upkeep necessary to continue any plant, facility, or equipment in sound working condition. "Repair" means, with respect to any person, the restoration of any plant, facility, or equipment to sound working condition when it has been rendered unsafe or unfit for service

by wear and tear, damage, failure of parts, or the like, where such repair is not capitalized according to his established accounting practice. Neither "maintenance" nor "repair" includes the replacement of any plant, facility, or equipment; nor does it include the improvement of any plant, facility, or equipment by replacing material which is still in sound working condition with material of a new or different kind, quality, or design.

(b) "Operating supplies" means any kind of material carried by a person as operating supplies according to his established accounting practice. It includes expendable tools, jigs, dies, and fixtures used on production equipment, regardless of the accounting practice of the person. It also includes items, such as hand tools, purchased by an employer for sale to his employees solely for use in his business if such items would have constituted operating supplies had they been issued to employees without charge.

(c) "Installation" means the setting up or relocation of machinery, fixtures, or equipment in position for service and connection thereof to existing service facilities.

(d) "MRO" means materials for maintenance, repair, and operating supplies, and for installation. Materials produced or obtained for sale to other persons or for installation upon or attachment to the property of another person, and materials required for the production of such materials are not "MRO" as to the producer or supplier.

(e) "Established accounting practice" means, in the case of a person in operation on or before December 31, 1952, the accounting practice in use by such person on that date or on the last day of his operation prior thereto. In the case of a person whose operation begins after December 31, 1952, the term means the accounting practice established by him in such operation.

SEC. 3. *Procurement of products and materials for MRO.* If inability to obtain MRO would result in failure by a person to fill a rated order, an authorized controlled material order, or any other order which he is required to accept by BDSA, or in failure to comply with a directive of BDSA, he may, by self-authorization and without filing any application, use the allotment number D-9 and the rating DO-D-9 in obtaining products and materials required for such MRO. He may place authorized controlled material orders in accordance with the provisions of DMS Regulation No. 1, and shall indicate thereon the allotment number D-9 and the calendar quarter in which delivery of the controlled materials is required. He may place rated orders to obtain products and materials other than controlled materials (including Class A products for which no production schedules shall be authorized or allotments made) in accordance with the provisions of BDSA Reg. 2 (formerly NPA Reg. 2), and shall indicate thereon the rating DO-D-9. In no event shall a person use the allotment number D-9 or the rating DO-D-9 to acquire products and materials in a greater amount or on an earlier date than required to provide the MRO necessary to enable him to fill his rated orders, authorized controlled material orders, or other orders which he is required to accept by BDSA, or to enable him to comply with directives of BDSA.

SEC. 4. *Applicability of other regulations and orders.* (a) Any person (including, but not limited to, a defense contract laboratory which may obtain MRO pursuant to Direction 3 to DMS Regulation No. 1) who is entitled to obtain MRO materials for a particular purpose under any other regulation, order, or direction of BDSA, shall not use the procedures of this direction to obtain MRO materials for such purpose.

(b) Nothing in this direction shall be construed to relieve any person from complying with all other applicable regulations and orders of BDSA. The provisions of DMS Regulation No. 1 regarding the placing of authorized controlled material orders, and the provisions of BDSA Reg. 2 (formerly NPA Reg. 2) regarding the use of ratings, except as otherwise provided in this direction, shall apply to operations under this direction.

This direction as amended shall take effect April 1, 1954.

BUSINESS AND DEFENSE SERVICES ADMINISTRATION,
CHAS. F. HONEYWELL,
Administrator.

[F. R. Doc. 54-2461; Filed, Apr. 1, 1954; 12:31 p. m.]

[DMS Regulation No. 1, Direction 5 of April 1, 1954]

DMS REG. 1—BASIC RULES OF THE DEFENSE MATERIALS SYSTEM

DIR. 5—SPECIAL PROCEDURE FOR PRODUCTION OF APRA B PRODUCTS

This direction under DMS Regulation No. 1 is found necessary and appropriate to promote the national defense and is issued pursuant to the Defense Production Act of 1950, as amended. In the formulation of this direction, consultation with industry representatives has been rendered impracticable due to the need for immediate action.

Sec.
1 What this direction does.
2 Definitions.
3 Applicability of DMS Regulation No. 1.
4 Statements of requirements.
5 Production schedule and allotment procedure.
6 How manufacturers of APRA B products use allotment and rating authority.

AUTHORITY: Sections 1 to 6 issued under sec. 704, 64 Stat. 816, Pub. Law 95, 83d Cong.; 50 U. S. C. App. Sup. 2154. Interpret or apply sec. 101, 64 Stat. 799, Pub. Law 95, 83d Cong.; 50 U. S. C. App. Sup. 2071; E. O. 10480, Aug. 14, 1953, 18 F. R. 4939.

SECTION 1. *What this direction does.* This direction establishes a special procedure for production of APRA B products, and provides that manufacturers of such products shall receive authorized production schedules and allotments from the Aircraft Production Resources Agency of the Department of Defense. It further provides that manufacturers of APRA B products shall obtain Class A products from their suppliers by placing rated orders, without authorizing production schedules and making allotments.

SEC. 2. *Definitions.* (a) "APRA" means the Aircraft Production Resources Agency of the Department of Defense.

(b) "APRA B product" means any Class B product listed in Table 1 of this direction.

SEC. 3. *Applicability of DMS Regulation No. 1.* The provisions of DMS Regulation No. 1 are superseded to the extent that they are inconsistent with the provisions of this direction. In all other respects the provisions of DMS Regulation No. 1 shall remain in full force and effect.

SEC. 4. *Statements of requirements.* (a) A manufacturer of APRA B products, when requested by APRA, shall submit a statement of requirements. Such statement is ordinarily submitted as an application for allotment on Form DMS-4 (APRA).

(b) An application for allotment includes only (1) the quantities of controlled materials required by the submitting manufacturer for his own production of APRA B products (including the controlled material requirements of any Class A and Class B components or subassemblies which he makes himself for incorporation in his product), and (2) the quantities of controlled materials required by all suppliers in different degrees of remoteness furnishing Class A products for incorporation in his product.

SEC. 5. *Production schedule and allotment procedure.* APRA will authorize production schedules and make related allotments to manufacturers of APRA B products, pursuant to authorized programs. Such manufacturers shall, in lieu of extending DO ratings received from customers, use the allotment number and rating received from APRA.

SEC. 6. *How manufacturers of APRA B products use allotment and rating authority.* (a) Each manufacturer of APRA B products receiving an allotment shall use that portion of the allotment which he requires to obtain controlled materials, as such, for his authorized production schedule, and shall deduct from his allotment account the quantities represented by authorized controlled material orders placed by him. He shall make no allotments for the production of Class A products, but shall place rated orders therefor without authorizing production schedules, and shall deduct from his allotment account the reasonably estimated aggregate controlled material requirements of his suppliers of Class A products.

(b) A manufacturer of APRA B products must furnish each direct supplier of Class A products with a written statement advising him that he is required to obtain his material requirements to fill the rated order by self-authorization in accordance with the provisions of DMS Regulation No. 1. The form of statement provided for in section 18 (d) of DMS Regulation No. 1 may be used for such purpose.

(c) Each manufacturer of APRA B products must, in manufacturing such products or in replacing in inventory products and materials used in the manufacture of such products, use the related allotment to acquire controlled materials, and use the related DO rating to acquire products and materials other than controlled materials.

NOTE: All reporting and record-keeping requirements of this direction have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

This direction shall take effect April 1, 1954.

BUSINESS AND DEFENSE SERVICES ADMINISTRATION,
CHAS. F. HONEYWELL,
Administrator.

TABLE 1 OF DIRECTION 5 TO DMS REGULATION NO. 1—LIST OF APRA B PRODUCTS

Accumulators, hydraulic, aircraft.
Actuators, linear motion, electric, aircraft.
Actuators (cylinder assemblies), linear motion, hydraulic, aircraft.
Actuators (cylinder assemblies), linear motion, pneumatic, aircraft.
Altimeters, aircraft.
Brakes, aircraft.
Brake deboosters, aircraft.
Compasses, aircraft.
Conduit, electric, braided metallic, aircraft.
Coolers, oil and air, aircraft.
Dampeners, shimmy.
Dampeners, yaw.
Dynamotors, special aircraft.
Filters, engine, air, aircraft.
Filters, engine fuel.
Flight control systems, automatic, aircraft.
Gauges, fuel, capacitor type, aircraft.
Gearmotors, special aircraft.
Generators, electric, special aircraft.
Heat exchanger, aircraft.
Heaters, aircraft.
Inverters, electric, aircraft.
Indicators, airspeed and mach, aircraft.
Indicators, rate of climb, aircraft.
Indicators, turn and bank, aircraft.
Instruments, Bourdon, aircraft.
Instruments, gyro, aircraft.
Instruments, indicating, electric, synchronous, aircraft.
Instruments, temperature indicating, electric, aircraft.
Landing gear struts and assemblies.
Motors, fractional h. p., special aircraft, except synchronous.
Motors, hydraulic, special aircraft.
Motors, rotary pneumatic, aircraft.
Parachute components.
Pilots, automatic, aircraft.
Pumps, accumulators and assemblies, hydraulic, special aircraft.
Pumps and assemblies, fuel, aircraft.
Pumps and assemblies, vacuum, aircraft.
Regulators, oxygen, respiration, aircraft.
Safety belt and harness components, aircraft.
Sextants, periscope, aircraft.
Spark plugs, aircraft.
Starters, electric, aircraft.
Tachometers, electric, aircraft.
Towing equipment, airborne, aircraft.
Valves, control, hydraulic and pneumatic, aircraft.
Wheels, aircraft.

[DMS Regulation No. 2 as Amended April 1, 1954]

DMS REG. 2—CONSTRUCTION UNDER THE DEFENSE MATERIALS SYSTEM

This amended regulation is found necessary and appropriate to promote the national defense and is issued pursuant to the Defense Production Act of 1950, as amended. In the formulation of this amended regulation, there has been consultation with industry representatives, including trade association representatives, and consideration has been given to their recommendations. However, consultation with representatives of all industries affected in advance of the issuance of this amended regulation has been rendered impracticable because it affects many different industries.

Sec.

20. Scope of this regulation.
21. Records and reports.
22. Requests for adjustment or exception.
23. Communications.
24. False statements.
25. Violations.

AUTHORITY: Sections 1 to 25 issued under sec. 704, 64 Stat. 816, Pub. Law 95, 83d Cong.; 50 U. S. C. App. Sup. 2154. Interpret or apply sec. 101, 64 Stat. 799, Pub. Law 95, 83d Cong.; 50 U. S. C. App. Sup. 2071; E. O. 10480, Aug. 14, 1953, 18 F. R. 4939.

SECTION 1. *What this regulation does.* (a) The purpose of this amended regulation is to continue the Defense Materials System for construction with certain important changes and major simplifications. It defines rights and obligations of contractors engaged in construction for the defense program. Corresponding rules relating to production of certain products and materials for the defense program are contained in an amended DMS Regulation No. 1.

(b) Under DMS Regulation No. 2, prior to the issuance of this amended regulation, all construction for defense programs was accomplished by means of authorized construction schedules and allotments. This amended regulation achieves a basic simplification in construction controls by establishing a procedure whereby a significant segment of defense construction will be accomplished by means of self-authorization. Three types of contractors are defined in this amended regulation: prime contractor, who receives an allotment of controlled material from an Allotting Agency; subcontractor, who receives an allotment of controlled material from a prime contractor; and self-authorizing contractor, who receives authority to obtain controlled material for construction by self-authorization.

(c) This amended regulation provides for authorization of construction schedules and allotments by Allotting Agencies to prime contractors for construction purposes. It establishes an optional procedure whereby such prime contractors may acquire limited amounts of construction services and Class A products by placing rated orders therefor, without authorizing construction or production schedules and making allotments. It also provides that all subcontractors and self-authorizing contractors shall acquire construction services and Class A products by placing rated orders therefor, without authorizing construction or production schedules and making allotments. In addition, a number of other revisions have been made in the regulation in the interests of simplification. These changes in the Defense Materials System for construction should accomplish important savings in time and money within that segment of the construction industry engaged in defense programs, while at the same time retaining the framework of a construction control system to handle the expanded military and atomic energy needs in the event of total mobilization.

(d) Manufacturers of Class A products who receive rated orders for such products with or without allotments and manufacturers of Class B products who receive rated orders for such products, for use in construction under this regulation, are subject to, and obtain their material requirements in accordance with the provisions of, DMS Regulation No. 1.

SEC. 2. *Transition provision for acquisition of controlled materials for construction by certain persons.* (a) Nothing in this amended regulation shall be construed to cancel outstanding allotments of controlled materials. However, a person who has outstanding allotments for construction with respect to which he may also obtain controlled materials by self-authorization, shall be subject to the provisions of paragraph (b) of this section.

(b) A person who may obtain controlled materials by self-authorization pursuant to the provisions of this amended regulation to fill a rated order for construction and who has received allotments of controlled materials for such construction, shall in no event use such self-authorization or allotment authority to obtain more controlled materials than needed to fill such rated order.

SEC. 3. *Definitions.* As used in this regulation and in any other DMS regulation (unless otherwise indicated):

(a) "Person" means any individual, corporation, partnership, association, or any other organized group of persons, and includes any agency of the United States Government or any other government.

(b) "BDSA" means the Business and Defense Services Administration of the United States Department of Commerce.

(c) "Controlled material" means domestic and imported steel, copper, and aluminum, in the forms and shapes indicated in Schedule I of DMS Regulation No. 1, whether new, remelted, rerolled, or redrawn.

(d) "Claimant Agency" means the Department of Defense or the Atomic Energy Commission; and "Allotting Agency" means the Department of Defense, the Atomic Energy Commission, BDSA, or any other Government agency or subdivision thereof designated as such by the Office of Defense Mobilization.

(e) "Allotment" means (1) an authorization by the Office of Defense Mobilization of the amount of controlled materials which may be received and/or allotted by a Claimant Agency during a specified period, or (2) an authorization by a Claimant Agency of the amount of controlled materials which may be received and/or allotted by an Allotting Agency or by a prime contractor during a specified period, or (3) an authorization by an Allotting Agency of the amount of controlled materials which may be received and/or allotted by a prime contractor during a specified period, or (4) an authorization by a prime contractor of the amount of controlled materials which may be received by a subcontractor or by a secondary consumer during a specified period.

(f) "Class A product" means any product which is not a Class B product (as defined in paragraph (g) of this section), and which contains any controlled material, fabricated or assembled beyond the forms and shapes specified in Schedule I of DMS Regulation No. 1, other than any controlled material which may be contained in Class B products incorporated in it.

(g) "Class B product" means any product designated as such in the "Official Class B Product List" issued by BDSA, as the same may be modified from time to time, and which contains any controlled material other than any controlled material which may be contained in other Class B products incorporated in it.

(h) "Construction program" means a statement of the types and amounts of construction to be provided in specified periods of time.

(i) "Authorized construction program" means a construction program specifically approved by the Office of Defense Mobilization.

(j) "Construction schedule" means a statement of the type and amount of construction project or projects to be provided by an individual prime contractor or subcontractor in specified periods of time.

(k) "Authorized construction schedule" means a construction schedule specifically approved by an Allotting Agency with respect to a prime contractor, or specifically approved by a prime contractor with respect to a subcontractor.

(l) "Production schedule" means a statement of the amounts of an item or class of items to be produced by an individual secondary consumer supplying Class A products, in specified periods of time.

(m) "Authorized production schedule" means a production schedule for Class A products specifically approved by a prime contractor with respect to a secondary consumer.

(n) "Delivery order" means any purchase order, contract, shipping or other instruction calling for delivery of any material or product, or performance of construction, on a particular date or dates or within specified periods of time.

(o) "Authorized controlled material order" means any delivery order for any controlled material (as distinct from a product containing controlled material) which is placed pursuant to an allotment, or pursuant to self-authorization, as provided in section 18 of this regulation, or which is specifically designated to be such an order by any regulation or order of BDSA.

(p) "Rated order" means any delivery order for any product or material other than controlled material bearing an authorized rating and the certification required by this regulation, BDSA Reg. 2 (formerly NPA Reg. 2), or any other applicable regulation or order of BDSA.

(q) "Construction" means the erection of any building, structure, or project, or addition or extension thereto, or alteration thereof, through the incorporation-in-place on the site of materials or products which are to be an integral and permanent part of the building, structure, or project, but it does not include maintenance and repair.

(r) "Project" means a construction plan contemplated for execution, irrespective of the time when it is to be carried into effect in full or in part, involving all or portions of a single building or structure, or involving two or more buildings or structures, or portions thereof, which are physically contiguous, or are parts of an integrated design or plan, so that each is an element of a single operation. In addition, a project also means a type of construction which is not a building or structure, but which requires a construction operation for its completion, such as a freight yard or airport runway.

(s) "Prime contractor" means any person who receives an authorized construction schedule and an allotment of controlled material from an Allotting Agency. A prime contractor may designate another person to act as the prime contractor for him.

(t) "Subcontractor" means any person who receives an authorized construction schedule and an allotment of controlled material from a prime contractor.

(u) "Self-authorizing contractor" means any person who receives authority to obtain controlled material by self-authorization for construction pursuant to the provisions of this regulation.

(v) "Secondary consumer" means any person who receives an authorized production schedule for Class A products and an allotment of controlled material from a prime contractor.

(w) "Self-authorizing consumer" means any person who receives authority to obtain controlled material by self-authorization for the production of Class A products pursuant to the provisions of this regulation.

SEC. 4. *General construction schedule and allotment procedure for construction by prime contractors and subcontractors.* (a) The provisions of this section apply only to construction by prime contractors who receive authorized construction schedules and allotments from Allotting Agencies, and to construction by subcontractors who receive authorized construction schedules and allotments from prime contractors.

(b) Except where otherwise specifically provided by BDSA, each Allotting Agency shall authorize construction schedules, pursuant to authorized construction programs, of prime contractors constructing projects coming within its jurisdiction. Subject to the provisions of section 12 of this regulation, each prime contractor who has an authorized construction schedule shall, pursuant thereto, authorize construction schedules for his subcontractors, or authorize production schedules for his secondary consumers manufacturing Class A products.

(c) Except where otherwise specifically provided by BDSA, each Allotting Agency shall make allotments, pursuant to allotments which it has received, to prime contractors to fulfill related authorized construction schedules. Subject to the provisions of section 12 of this regulation, each prime contractor who has received an allotment shall, pursuant thereto, make allotments to his subcontractors to fulfill related authorized construction schedules, or make allotments to his secondary consumers manufacturing Class A products to fulfill related authorized production schedules.

SEC. 5. *General self-authorization procedure for construction by self-authorizing contractors.* (a) The provisions of this section apply only to construction by self-authorizing contractors who receive rated orders for such construction.

(b) Except where otherwise specifically provided by BDSA, no person other than an Allotting Agency or a prime contractor shall authorize construction schedules or make allotments for construction. Self-authorizing contractors who receive rated orders for construction, without authorized construction schedules and allotments, shall obtain their controlled material requirements by self-authorization in accordance with the provisions of section 15 of this regulation.

SEC. 6. *Use of allotment, self-authorization, and rating authority.* Each person who has received an authorized construction schedule or a rated order for construction must, to fulfill such schedule or order or to replace in inventory products and materials used in the fulfillment of such schedule or order, use the related allotment or self-authorization, whichever is appropriate, to acquire controlled materials, and use the related DO rating to acquire products and materials other than controlled materials.

SEC. 7. *Statements of requirements.* (a) The basis for an allotment to a prime contractor or subcontractor shall be the actual requirements for controlled materials in connection with the fulfillment of an authorized construction schedule.

(b) An application for allotment includes only (1) the quantities of controlled materials required by the submitting prime contractor or subcontractor for the construction project (including the controlled material requirements of any Class A and Class B components or subassemblies which he makes himself for incorporation into the project), and (2) the quantities of controlled materials required by all subcontractors and self-authorizing contractors in different degrees of remoteness, and by all persons in different degrees of remoteness supplying Class A products for incorporation into the project.

(c) Any person, upon the request of an Allotting Agency or other person for whom he performs construction to fulfill authorized construction schedules or rated orders for construction, shall furnish to such Allotting Agency or other person, the information called for in Form DMS–4C. Such information shall be submitted on Form DMS–4C or in such other manner as may be prescribed.

(d) Any person, upon the request of an Allotting Agency or other person for whom he produces Class A products to fill rated orders, shall furnish to such Allotting Agency or other person, the information called for in Form DMS–4A. Such information shall be submitted on Form DMS–4A or in such other manner as may be prescribed.

SEC. 8. *Applications for authorized schedules and allotments.* (a) Construction schedules may be authorized and related allotments made on the basis of information furnished by application on Form DMS–4C.

(b) Production schedules for Class A products, required for fulfillment of authorized construction schedules, may be authorized and related allotments made on the basis of information furnished by application on Form DMS–4A.

SEC. 9. *How schedules are authorized.* (a) A construction schedule for each prime contractor, pursuant to an authorized construction program, will be authorized by the appropriate Allotting Agency on such form as may be prescribed.

(b) Except as provided in section 12 of this regulation, a construction schedule for each subcontractor shall be authorized by the prime contractor for whom the construction is to be performed, pursuant to an authorized construction schedule, on such form as may be prescribed.

(c) Except as provided in section 12 of this regulation, a production schedule for each secondary consumer producing a Class A product shall be authorized by the prime contractor for whom such Class A product is to be produced, pursuant to an authorized construction schedule, on such form as may be prescribed.

(d) Except where otherwise specifically provided by BDSA, no Allotting Agency or prime contractor shall authorize a construction or production schedule unless it makes an allotment as provided in section 10 of this regulation, and no Allotting Agency or prime contractor shall make an allotment unless it authorizes a related construction or production schedule as provided in this section.

(e) When a construction or production schedule is authorized and a related allotment is made, a DO rating, bearing the appropriate program identification consisting of a letter and one digit, shall be assigned or applied to such schedule by the Allotting Agency or prime contractor authorizing the construction or production schedule, for use in accordance with the provisions of this regulation and of BDSA Reg. 2 (formerly NPA Reg. 2).

SEC. 10. *How allotments are made.* (a) Each Allotting Agency or prime contractor authorizing a construction or production schedule as provided in section 9 of this regulation shall make a related allotment, pursuant to allotments which it has received, to the person whose construction or production schedule has been authorized, on such form as may be prescribed.

(b) The allotment shall specify the quantities and the kinds of controlled materials needed for delivery in specified calendar quarters to complete the related authorized construction or production schedule. Allotments shall be made in terms of (1) carbon steel (including wrought iron), (2) alloy steel (except stainless steel), (3) nickel-bearing stainless steel, (4) copper and copper-base alloy brass mill products, (5) copper wire mill products, (6) copper and copper-base alloy foundry products and powder, and (7) aluminum, in each case without further breakdown.

(c) The allotment shall be identified by an allotment number as provided in section 11 of this regulation.

(d) Advance allotments by Allotting Agencies to prime contractors may be made within such limits as may be specified by the Office of Defense Mobilization. Prime contractors receiving such advance allotments shall, in turn, make advance allotments to their subcontractors and secondary consumers in the same manner as in the case of regular allotments, but no prime contractor shall make any allotment before receiving his own allotment.

(e) An Allotting Agency or prime contractor may make allotments only in the same kinds of controlled materials in which it has received its allotment.

SEC. 11. *Designation and use of allotment numbers.* (a) Allotments shall be identified by an allotment number consisting of a program identification bearing a letter and one digit, designating the authorized program of the appropriate Allotting Agency, or such other appropriate program identification specified by this regulation or any other regulation or order of BDSA.

(b) Authorized controlled material orders shall show the related allotment number and the calendar quarter for which the allotment is valid or, in the case of self-authorization, the calendar quarter in which delivery is required. For example, a delivery order for controlled materials placed pursuant to an allotment identified by allotment number E–1 which is valid for the third quarter of 1954 shall be designated as follows: E–1–3Q54. The date or dates on which delivery is required must also be specified on such delivery order.

SEC. 12. *How prime contractors and subcontractors use allotments.* (a) Each prime contractor receiving an allotment shall use that portion of the allotment which he requires to obtain controlled materials, as such, for his authorized construction schedule, and shall deduct from his allotment account the quantities represented by authorized controlled material orders placed by him. Subject to the provisions of paragraph (b) of this section, he shall make allotments to subcontractors performing construction for him and to secondary consumers producing Class A products for him, and shall deduct from his allotment account the quantities represented by such allotments. When filing an application for allotments, he shall include the controlled materials needed for construction by subcontractors and also self-authorizing contractors in all degrees of remoteness, and the controlled materials needed for the production of Class A products by secondary consumers and also self-authorizing consumers in all degrees of remoteness, in accordance with the provisions of section 7 (b) of this regulation.

(b) At least 85 percent of each kind of controlled material (as specified in section 10 (b) of this regulation) allotted to a prime contractor for an authorized construction schedule shall be charged against his appropriate allotment account for (1) authorized controlled material orders placed by him, (2) allotments made by him to his subcontractors, and (3) allotments made by him to his secondary consumers. With respect to the balance of 15 percent or less of each kind of controlled material required for construction by his other contractors and for the production of Class A products by his other suppliers, he may place rated orders for such construction and rated orders for such Class A products, without authorizing construction or production schedules and making allotments. If he follows this procedure, he shall charge against his appropriate allotment account the reasonably estimated aggregate controlled material requirements of self-authorizing contractors in all degrees of remoteness performing construction and self-authorizing consumers in all degrees of remoteness supplying Class A products. A prime contractor must furnish (1) each direct self-authorizing contractor performing construction with a written statement advising him that he is required to obtain his material requirements to fill the rated order by self-authorization in accordance with the provisions of DMS Regulation No. 2, and (2) each direct self-authorizing consumer supplying Class A products with a written statement advising him that he is required to obtain his material requirements to fill the rated order by self-

authorization in accordance with the provisions of DMS Regulation No. 1.

(c) Each subcontractor receiving an allotment shall use that portion of the allotment which he requires to obtain controlled materials, as such, for his authorized construction schedule, and shall deduct from his allotment account the quantities represented by authorized controlled material orders placed by him. He shall make no allotments for construction or for the production of Class A products, but shall place rated orders therefor, and shall deduct from his allotment account the reasonably estimated aggregate controlled material requirements of self-authorizing contractors in all degrees of remoteness performing construction and self-authorizing consumers in all degrees of remoteness supplying Class A products. When filing an application for allotments, he shall include the controlled materials needed for construction by self-authorizing contractors in all degrees of remoteness, and the controlled materials needed for the production of Class A products by self-authorizing consumers in all degrees of remoteness, in accordance with the provisions of section 7 (b) of this regulation.

(d) No prime contractor or subcontractor shall place any rated order for construction or Class A products the controlled material requirements of which exceed the related allotment received by him, after deducting all authorized controlled material orders placed by him and all other charges against his allotment.

(e) No prime contractor shall make any allotment in excess of the amount required, to the best of his knowledge and belief, to fulfill the related authorized construction schedule of the subcontractor to whom the allotment is made, or to fulfill the related authorized production schedule of the secondary consumer to whom the allotment is made.

(f) Except where otherwise specifically provided by BDSA, no person other than an Allotting Agency or a prime contractor shall make, and no person other than a prime contractor or subcontractor shall accept, any allotment for construction. Controlled materials required for construction by self-authorizing contractors to fill rated orders shall be obtained in accordance with the self-authorization provisions of section 15 of this regulation.

(g) Except where otherwise specifically provided by BDSA, no contractor other than a prime contractor shall make, and no person other than a secondary consumer shall accept, any allotment for the production of Class A products. Except where otherwise specifically provided by BDSA, no person shall make, and no person shall accept, any allotment for the production of Class B products. Controlled materials required for the production of Class A products by self-authorizing consumers to fill rated orders shall be obtained in accordance with the self-authorization provisions of section 16 of DMS Regulation No. 1. Controlled materials required for the production of Class B products to fill rated orders shall be obtained in accordance with the self-authorization provisions of section 17 of DMS Regulation No. 1.

(h) A prime contractor may make an allotment on such form (including Form DMS–5 set forth in Schedule II of DMS Regulation No. 1) as may be prescribed for the purpose. Allotments may be made by telegraphing or telephoning the information required by the appropriate form and confirming the same with such form, within 30 days thereafter.

SEC. 13. *How to cancel or reduce allotments.* A person who has made an allotment may cancel or reduce the same by notice in writing to the person to whom it was made. A person who has received an allotment may cancel or reduce the same by making an appropriate notation thereon and notifying the person from whom he received it. In either case, if an allotment received by a person is cancelled, he must cancel all allotments which he has made, and all authorized controlled material orders which he has placed, on the basis of the allotment; and, if an allotment received by a person is reduced, he must cancel or reduce allotments which he has made, or authorized controlled material orders which he has placed, to the extent that the same exceed the allotment as reduced.

SEC. 14. *Adjustments for changes in or correction of requirements.* (a) If a person's requirements for controlled materials or Class A products needed to fulfill an authorized construction or production schedule are increased after he receives his allotment, he may apply for an additional allotment to the person who made the allotment for that schedule.

(b) If a prime contractor finds that he has been allotted substantially more than he needs, he must promptly return the excess to his Allotting Agency. To the extent that he fails to make such returns, he will be unable to benefit fully from the procedure provided in section 12 (b) of this regulation for acquiring limited construction services and limited quantities of Class A products without making allotments.

(c) If a subcontractor or a secondary consumer finds that he has been allotted substantially more than he needs, he must promptly return the excess to his prime contractor.

(d) The return of an unneeded allotment must be made to the person from whom the allotment was received on such form as may be prescribed. If it is impracticable to obtain the prescribed form, the return may be made by letter setting forth the facts.

SEC. 15. *Self-authorization procedure for obtaining materials for construction by self-authorizing contractors.* (a) Except where otherwise specifically provided by BDSA, no person other than an Allotting Agency or a prime contractor shall authorize a construction schedule or make an allotment for construction, and no person other than a prime contractor or a subcontractor shall accept an authorized construction schedule or an allotment for construction. Instead, persons authorized to use ratings who are not permitted to authorize construction schedules or make allotments for construction, shall place rated orders for construction with self-authorizing contractors.

(b) A self-authorizing contractor who receives a rated order for construction, without an authorized construction schedule and an allotment, shall obtain his requirements of controlled materials, and of products and materials other than controlled materials, to fill such rated order, in accordance with the provisions of this section, by extending the allotment number and rating that accompanied the DO rated order received by him from his customer. For example, if he receives an order rated DO–E–1 he shall extend the allotment number E-1 and the rating DO–E–1.

(c) A self-authorizing contractor who receives a rated order for construction shall, by self-authorization and without filing any application, use the allotment number that accompanied the rated order in obtaining controlled materials needed to fill such rated order or to replace in inventory controlled materials used in filling such rated order: *Provided, however,* That with respect to inventory replacement of controlled materials he may use the allotment number that accompanied the rated order to place orders for controlled materials only in the calendar quarter in which taken from inventory or in the immediately succeeding calendar quarter. In placing authorized controlled material orders, he shall indicate thereon the allotment number that accompanied the rated order and the calendar quarter in which delivery of the controlled materials is required. He shall obtain Class A products from persons manufacturing such products for him by placing rated orders therefor as provided in paragraph (d) of this section, without authorizing production schedules or making allotments. He shall place rated orders for construction with his self-authorizing contractors as provided in paragraph (d) of this section, without authorizing construction schedules or making allotments.

(d) A self-authorizing contractor who receives a rated order for construction shall, by self-authorization and without filing any application, use the rating that accompanied the rated order in obtaining products (including Class A products) and materials other than controlled materials needed to fill such rated order or to replace in inventory products and materials other than controlled materials used in filling such rated order. The rating shall be used in accordance with the provisions of this regulation and of BDSA Reg. 2 (formerly NPA Reg. 2).

SEC. 16. *Designation and use of ratings.* (a) DO ratings shall be identified by the prefix DO followed by a program identification bearing a letter and one digit, designating the authorized program of the appropriate Allotting Agency, or such other appropriate program identification specified by this regulation or any other regulation or order of BDSA.

(b) Delivery orders for products and materials other than controlled materials shall show the DO rating authorized, for example, DO–E–1. The date or dates on which delivery or performance is required must also be specified on such delivery orders.

(c) A contractor may use the DO rating received by him on delivery orders for the following purposes only: (1) To acquire products and materials other than controlled materials in the minimum practicable amounts required, and on a date or dates no earlier than required, to fulfill his authorized construction schedule or rated order, as the case may be; (2) to replace in his inventory products and materials other than controlled materials used to fulfill his authorized construction schedule or rated order, as the case may be; (3) to acquire production machinery and production equipment necessary for the operation of the completed construction project covered by his authorized construction schedule or rated order, as the case may be; and (4) such other purpose or purposes as may be expressly authorized by an Allotting Agency.

(d) To the extent consistent with this regulation, all the provisions of BDSA Reg. 2 (formerly NPA Reg. 2) shall apply to delivery orders for products and materials other than controlled materials. However, in lieu of the certification prescribed in BDSA Reg. 2 (formerly NPA Reg. 2) for rated orders, the following certification may be used:

Certified under DMS Regulation No. 2.

This certification accompanying a rated order shall be deemed to be, and shall have the same force and effect as, a certification under BDSA Reg. 2 (formerly NPA Reg. 2).

SEC. 17. *Restrictions on placing authorized controlled material orders and on use of controlled materials.* (a) In no event shall a person placing an authorized controlled material order request delivery of any controlled material in a greater amount or on an earlier date than required to fill his authorized construction schedule or rated order for construction, as the case may be. If the quantity of any controlled material required by any person to fill his authorized construction schedule or rated order for construction is less than the minimum mill quantity specified in Schedule IV of DMS Regulation No. 1, and is not procurable from a distributor, he may place an authorized controlled material order for and accept delivery of the full minimum shown in such schedule.

(b) No person shall use any controlled materials obtained pursuant to allotment or self-authorization for any purpose except: (1) To fill authorized construction schedules or rated orders for construction, or (2) to replace in inventory controlled materials used to fill any of such authorized construction schedules or rated orders for construction, or (3) for such other purpose as may be expressly authorized by an Allotting Agency. If he cannot use the controlled materials for any such purpose, he may use or dispose of them subject to restrictions of other regulations or orders of BDSA.

(c) Controlled materials which may be obtained by a person to fill an authorized construction schedule or rated order for construction, as the case may be, include such controlled materials which will be physically incorporated into the construction project. They also include the portion of such controlled materials normally consumed or converted into scrap in the course of processing, and controlled materials used for packaging or containers required to make delivery. However, they do not include controlled materials for maintenance, repair, or operating supplies.

SEC. 18. *How to place orders with controlled materials producers and distributors.* (a) A delivery order placed with a controlled materials producer or a controlled materials distributor for controlled materials shall be deemed an authorized controlled material order only if (1) it contains an allotment number and the calendar quarter for which the allotment is valid or, in the case of self-authorization, the calendar quarter in which delivery is required, as provided in section 11 of this regulation, and complies with the provisions of this section, or (2) it is specifically designated as an authorized controlled material order by any regulation or order of BDSA.

(b) Except where otherwise specifically provided by BDSA, every authorized controlled material order must contain a certification in addition to specifying the allotment number, the calendar quarter for which the allotment is valid or, in the case of self-authorization, the calendar quarter in which delivery is required, and the delivery date or dates. Unless another form of certification is specifically prescribed by an applicable order or regulation of BDSA, such certification shall be in the following form:

Certified under DMS Regulation No. 2

and shall be signed as provided in BDSA Reg. 2 (formerly NPA Reg. 2). This certification shall constitute a representation to the supplier and to BDSA that, subject to the criminal penalties provided for in applicable United States statutes, (1) the purchaser has received an allotment of controlled material authorizing him, in accordance with the provisions of this regulation, to place such order, and that the amount ordered is within the related allotment received by him, after he has deducted from such allotment all other orders for controlled material placed by him and accepted by suppliers, and all other charges against his allotment, or (2) the amount ordered by the purchaser is within and pursuant to the self-authorization provisions of this regulation, or (3) the purchaser is expressly authorized by BDSA, or by any regulation or order of BDSA, to place such order.

(c) An authorized controlled material order must be in sufficient detail to permit entry on mill schedules and must be received by the controlled materials producer at such time in advance as is specified in Schedule III of DMS Regulation No. 1, or at such later time as the controlled materials producer may find it practicable to accept the same.

(d) A delivery order for controlled materials pursuant to a directive issued by BDSA shall take precedence over any other delivery order (including an authorized controlled material order) previously or subsequently received, unless a contrary instruction appears in the directive. All authorized controlled material orders shall have equal preferential status, and shall take precedence over other orders for controlled materials to the extent provided in DMS Regulation No. 1, and in BDSA Order M–1A (steel), BDSA Order M–5A (aluminum), and BDSA Order M–11A (copper), and the directions thereto, or in any other applicable regulation or order of BDSA.

(e) A delivery order for controlled materials not covered by an allotment or self-authorization shall not be combined with an authorized controlled material order. However, if the total of such orders is less than the minimum mill quantity specified in Schedule IV of DMS Regulation No. 1 and is not procurable from a controlled materials distributor, then a combined order may be placed for such minimum mill quantity. Where such orders are combined, the portion covered by allotment or self-authorization must be specifically identified by the appropriate allotment number, and such delivery order must contain the certification provided in paragraph (b) of this section. Authorized controlled material orders identified by different allotment numbers may be combined if the portion covered by each allotment number is specifically identified by the appropriate allotment number, and such delivery order must contain the certification provided in paragraph (b) of this section.

SEC. 19. *Applicability of other regulations and orders.* Nothing in this regulation shall be construed to relieve any person from complying with all other applicable regulations and orders of BDSA. In case compliance by any person with the provisions of any such regulation or order would prevent fulfillment of an authorized construction schedule or a rated order for construction, he shall immediately report the matter to BDSA and to the appropriate Allotting Agency. BDSA will thereupon take such action as is deemed appropriate, but unless and until otherwise expressly authorized or directed by BDSA, such person shall comply with the provisions of such regulation or order.

SEC. 20. *Scope of this regulation.* This regulation shall apply to construction in the 48 states, the District of Columbia, and in the territories and insular possessions of the United States. However, where construction is being performed by contract with the Department of Defense outside the confines of the area just described, and it is necessary to get materials from the United States or its territories to complete the project, DO ratings and authorizations to obtain controlled materials will be issued in accordance with the provisions of this regulation.

SEC. 21. *Records and reports.* (a) Each person participating in any transaction covered by this regulation shall make, and preserve for at least 2 years thereafter, accurate and complete records of receipts and deliveries in suffi-

cient detail to permit the determination, after audit, whether each transaction complies with the provisions of this regulation. This regulation does not specify any particular accounting method and does not require alteration of the system of records customarily used, provided such records supply an adequate basis for audit. Records may be retained in the form of microfilm or other photographic copies instead of the originals.

(b) Except as otherwise specifically provided, records of allotments received, and records of allotments made or used, shall be kept separately by allotment numbers and shall include separate entries under each allotment number for each prime contractor or Allotting Agency from whom allotments are received, and for each subcontractor and secondary consumer to whom such allotments are made.

(c) Persons subject to this regulation shall make such records and submit such reports to BDSA as it shall require, subject to the terms of the Federal Reports Act of 1942 (5 U. S. C. 139–139F).

SEC. 22. *Requests for adjustment or exception.* Any person subject to any provision of this regulation, may file a request for adjustment, or exception, upon the ground that such provision works an undue or exceptional hardship upon him not suffered generally by others in the same trade or industry, or that its enforcement against him would not be in the interest of the national defense or in the public interest. The filing of a request for adjustment or exception shall not relieve any person of his obligation to comply with any such provision. In examining requests for adjustment or exception claiming that the public interest is prejudiced by the application of any provision of this regulation, consideration will be given to the requirements of public health and safety, civilian defense, and dislocation of labor and resulting unemployment that would impair the defense program. Each request shall be in writing, by letter in triplicate, shall set forth all pertinent facts and the nature of the relief sought, and shall state the justification therefor.

SEC. 23. *Communications.* All communications concerning this regulation shall be addressed as follows:

All construction by, or for the account of, the Atomic Energy Commission; industrial construction sponsored by the Atomic Energy Commission, federally owned housing on federally owned property under the control of the Atomic Energy Commission	Atomic Energy Commission. Appropriate operations offices of the Atomic Energy Commission, Ref: DMS Regulation No. 2.
Construction by, or for the account of, the Department of Defense; Navy construction, Army construction, Air Force construction, including but not limited to projects of an industrial nature financed by the military departments; housing on military reservations, and all military housing under Public Law 211, 81st Congress. Wherry Act—whether on or off military bases and reservations; military command construction; and construction for the National Advisory Committee for Aeronautics.	Department of Defense. Department of the Navy, Bureau of Yards and Docks, B-620, Washington 25, D. C., Army, Air Force, and Associated Agencies of the Department of Defense: Local representative of the military department or associated agency concerned.

SEC. 24. *False statements.* The furnishing of false information or the concealment of any material fact in the course of operation under this regulation constitutes a violation of this regulation. The unauthorized placement of any order in the form of, or purporting to be, an authorized controlled material order or a rated order constitutes a false statement and a violation of this regulation.

SEC. 25. *Violations.* Violation of any provision of this regulation may subject any person committing or participating in such violation to administrative action to require compliance with this regulation and correction of such violation. In addition to such administrative action, an injunction and order may be obtained prohibiting any such violation and enforcing compliance with the provisions hereof. Any person who wilfully violates any provision of this regulation, or who wilfully furnishes false information or conceals any material fact in the course of operation under this regulation, is guilty of a crime and upon conviction may be punished by fine or imprisonment or both.

NOTE: All reporting and record-keeping requirements of this regulation have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

This regulation as amended shall take effect April 1, 1954.

[DMS Regulation No. 2, Direction 3 as Amended April 1, 1954]

DMS REG. 2—CONSTRUCTION UNDER THE DEFENSE MATERIALS SYSTEM

DIR. 3—SELF-AUTHORIZATION PROCEDURE FOR MRO NEEDED BY CERTAIN CONTRACTORS

This amended direction under DMS Regulation No. 2 is found necessary and appropriate to promote the national defense and is issued pursuant to the Defense Production Act of 1950, as amended. In the formulation of this amended direction, consultation with industry representatives has been rendered impracticable because the direction affects many different industries.

Sec.
1 What this direction does.
2 Definitions.
3 Procurement of products and materials for MRO.
4 Applicability of other regulations and orders.

AUTHORITY: Sections 1 to 4 issued under sec. 704, 64 Stat. 816, Pub. Law 95, 83d Cong.; 50 U. S. C. App. Sup. 2154. Interpret or apply sec. 101, 64 Stat. 799, Pub. Law 95, 83d Cong.; 50 U. S. C. App. Sup. 2071; E. O. 10480, Aug. 14, 1953, 18 F. R. 4939.

SECTION 1. *What this direction does.* This direction establishes a self-authorization procedure for priorities assistance by which contractors may obtain maintenance, repair, and operating supplies, and installation materials (referred to collectively as "MRO"), needed to enable them to fill authorized construction schedules and rated orders for construction. Suppliers of such MRO items obtain products and materials needed for their production under the provisions of BDSA Reg. 2 (formerly NPA Reg. 2), DMS Regulation No. 1, or other appropriate regulation or order of BDSA.

SEC. 2. *Definitions.* As used in this direction: (a) "Maintenance" means the minimum upkeep necessary to continue any plant, facility, or equipment in sound working condition. "Repair" means, with respect to any person, the restoration of any plant, facility, or equipment to sound working condition when it has been rendered unsafe or unfit for service by wear and tear, damage, failure of parts, or the like, where such repair is not capitalized according to his established accounting practice. Neither "maintenance" nor "repair" includes the replacement of any plant, facility, or equipment; nor does it include the improvement of any plant, facility, or equipment by replacing material which is still in sound working condition with material of a new or different kind, quality, or design.

(b) "Operating supplies" means any kind of material carried by a person as operating supplies according to his established accounting practice. It includes expendable tools, jigs, dies, and fixtures used on production equipment, regardless of the accounting practice of the person. It also includes items, such as hand tools, purchased by an employer for sale to his employees solely for use in his business if such items would have constituted operating supplies had they been issued to employees without charge.

(c) "Installation" means the setting up or relocation of machinery, fixtures, or equipment in position for service and connection thereof to existing service facilities.

(d) "MRO" means materials for maintenance, repair, and operating supplies, and for installation. Materials produced or obtained for sale to other persons or for installation upon or attachment to the property of another person, and materials required for the production of such materials are not "MRO" as to the producer or supplier.

(e) "Established accounting practice" means, in the case of a person in operation on or before December 31, 1952, the accounting practice in use by such person on that date or on the last day of his operation prior thereto. In the case of a person whose operation begins after December 31, 1952, the term means the accounting practice established by him in such operation.

SEC. 3. *Procurement of products and materials for MRO.* If inability to obtain MRO would result in failure by a contractor to fill an authorized construction schedule or a rated order for construction, or in failure to comply with a directive of BDSA, he may, by self-authorization and without filing any application, use the allotment number D-9 and the rating DO-D-9 in obtaining products and materials required for such MRO. He may place authorized controlled material orders in accordance with the provisions of DMS Regulation No. 2, and shall indicate thereon the allotment number D-9 and the calendar quarter in which delivery of the controlled materials is required. He may place rated orders to obtain products and materials other than controlled materials (including Class A products for which no production schedules shall be authorized or allotments made) in accordance with the provisions of BDSA Reg. 2 (formerly NPA Reg. 2), and shall indicate thereon the rating DO-D-9. In no event shall a contractor use the allotment number D-9 or the rating DO-D-9 to acquire products and materials in a greater amount or on an earlier date than required to provide the MRO necessary to enable him to fill his authorized construction schedule or rated order for construction, or to enable him to comply with a directive of BDSA.

SEC. 4. *Applicability of other regulations and orders.* (a) Any person (including, but not limited to, a defense contract laboratory which may obtain MRO pursuant to Direction 3 to DMS Regulation No. 1) who is entitled to obtain MRO materials for a particular purpose under any other regulation, order, or direction of BDSA, shall not use the procedures of this direction to obtain MRO materials for such purpose.

(b) Nothing in this direction shall be construed to relieve any person from complying with all other applicable regulations and orders of BDSA. The provisions of DMS Regulation No. 2 regarding the placing of authorized controlled material orders, and the provisions of BDSA Reg. 2 (formerly NPA Reg. 2) regarding the use of ratings, except as otherwise provided in this direction, shall apply to operations under this direction.

This direction as amended shall take effect April 1, 1954.

BUSINESS AND DEFENSE SERVICES ADMINISTRATION,
CHAS. F. HONEYWELL,
Administrator.

TITLE 26—INTERNAL REVENUE

Chapter I—Internal Revenue Service, Department of the Treasury

Subchapter C—Miscellaneous Excise Taxes

[T. D. 6067; Regs. 3, 4, 5]

PART 182—INDUSTRIAL ALCOHOL

PART 183—PRODUCTION OF DISTILLED SPIRITS

PART 184—PRODUCTION OF BRANDY

MISCELLANEOUS AMENDMENTS

On December 15, 1953, notice of proposed rule-making, regarding amendments to Regulations 3 (26 CFR Part 182), Regulations 4 (26 CFR Part 183), and Regulations 5 (26 CFR Part 184), to conform the regulations to the provisions of section 2901, Internal Revenue Code, as amended by Public Law 448, 81st Congress, by providing procedure for the remission of tax on distillates lost while in transit in bond from registered or fruit distilleries to denaturing plants, or while on storage at denaturing plants prior to denaturation, and to provide that the proprietor of the denaturing plant to which distillates are being transferred shall be liable for the tax thereon from the time the distillates are removed from a distillery for transfer to his denaturing plant, was published in the FEDERAL REGISTER (18 F. R. 8206). No comments having been received during the thirty-day period prescribed in such notice, the amendments to Regulations 3, 4, and 5 set forth below are hereby adopted:

PARAGRAPH 1. Wherever the term "district supervisor" appears in the sections of the regulations revised by this Treasury decision, such term is hereby amended to read "Assistant Regional Commissioner, Alcohol and Tobacco Tax."

PAR. 2. Regulations 3 (26 CFR Part 182) are amended as follows:

a. Section 182.692 is amended as follows:

1. By striking from the first sentence of paragraph (b) the phrase "to cover the receipt," and inserting in lieu thereof the phrase "to assume liability for the payment of the tax on such distillates from the time they leave the registered distillery or fruit distillery from which they are removed, including the transportation, receipt,".

2. By striking the last sentence of paragraph (c), which begins, "The liability of the distiller".

3. By adding a new paragraph (e) to read as follows:

(e) *Voluntary destruction.* If the distillates, after removal from the registered distillery or fruit distillery where produced, are found to be unfit for denaturation, they may be destroyed at the denaturing plant upon filing notice of intent so to do and application for supervision of destruction. The notice and application shall be filed, in triplicate, with the storekeeper-gauger in charge, and shall contain a description of the distillates as shown on the Form 1520 received from the distillery, and shall show the reasons for destruction. The storekeeper-gauger will verify the description of the distillates, including the quantity reported, and will then supervise their destruction. Upon destruction of the distillates, the storekeeper-gauger will prepare a report on the back of the notice and application showing the method of destruction and certifying to the accuracy of the description of the distillates contained in the notice and application, and will forward the original thereof to the Assistant Regional Commissioner, return one copy to the proprietor, and retain the remaining copy for his files. The proprietor shall make proper entry on Form 1468–A covering the destruction of the distillates.

b. Paragraph (a) of § 182.700 is revoked.

c. There are inserted, immediately following § 182.700, the following new sections:

§ 182.700a *Loss by theft.* The tax shall be collected on distillates stolen while in transit to a denaturing plant or while stored therein prior to denaturation, unless the denaturer submits proof as to the cause of the loss and establishes to the satisfaction of the Assistant Regional Commissioner that it did not occur as the result of connivance, collusion, fraud, or negligence on the part of the denaturer, distiller, consignor, consignee, bailee, or carrier, or the employees of any of them. Claim for remission of tax on distillates lost by theft shall be filed as provided in §§ 182.700f to 182.700h. The tax on distillates lost by theft may be remitted or refunded only to the extent that the claimant is not indemnified or recompensed for such tax.

(53 Stat. 340 as amended, 346, 358, 364, 375; 26 U. S. C. 2901, 2916, 3105, 3124, 3176)

§ 182.700b *Unauthorized voluntary destruction.* The tax shall be collected on distillates voluntarily destroyed after removal from the registered distillery or fruit distillery where produced, except as provided in § 182.692 (e).

(53 Stat. 340 as amended, 346, 358, 364, 375; 26 U. S. C. 2901, 2916, 3105, 3124, 3176)

§ 182.700c *Losses except by theft.* The tax on distillates lost otherwise than by theft while in transit to the denaturing plant or while stored therein prior to denaturation, may be remitted. In the case of any such loss, the Assistant Regional Commissioner may require the denaturer to submit proof as to the cause of such loss and, where deemed necessary, to file a claim for remission of the tax as provided in §§ 182.700f to 182.700h.

(53 Stat. 340 as amended, 346, 358, 364, 375; 26 U. S. C. 2901, 2916, 3105, 3124, 3176)

§ 182.700d *Report of losses.* Losses of distillates in transit to a denaturing plant or while stored therein prior to denaturation must be reported to the Assistant Regional Commissioner by the denaturer immediately after the losses are discovered. Where losses of distillates in the denaturing plant occur or are discovered while a Government officer is on duty, the officer will immediately make a full report of the loss to the Assistant Regional Commissioner. The reports should set out the nature, cause, and extent of the loss in sufficient detail to bring out all the known material facts and circumstances surrounding the loss. The condition of each tank or other container from which the loss has been sustained, and the quantity lost therefrom, should be reported.

(53 Stat. 340 as amended, 346, 358, 364, 375; 26 U. S. C. 2901, 2916, 3105, 3124, 3176)

§ 182.700e *Investigation by Assistant Regional Commissioner.* The Assistant Regional Commissioner will consider the nature and extent of any loss reported by the denaturer or Government officer and will immediately make such investigation and require such evidence to be submitted as he may deem necessary.

(53 Stat. 340 as amended, 346, 358, 364, 375; 26 U. S. C. 2901, 2916, 3105, 3124, 3176)

§ 182.700f *Filing of claims.* Claims for remission of tax on distillates lost on the premises of a denaturing plant or in transit thereto, when required, will be filed promptly with the Assistant Regional Commissioner of the region in which the plant is located. Where a required claim for remission of tax on such distillates is not filed as provided in §§ 182.700a and 182.700c, the Assistant Regional Commissioner will require immediate payment of tax on the quantity lost.

(53 Stat. 340 as amended, 346, 358, 364, 375; 26 U. S. C. 2901, 2916, 3105, 3124, 3176)

§ 182.700g *Form of claims.* Claims for remission of tax for losses occurring on denaturing plant premises, or in transit thereto, shall be made on letter size paper (original only) and shall set forth, under oath, the following information:

(a) The name of the denaturer and the registry number and location of the denaturing plant;

(b) The serial numbers of the tanks or other containers from which the distillates were lost;

(c) The quantity of distillates lost from each tank or other container, and the total quantity of distillates covered by the claim;

(d) The total amount of tax for which the claim is filed;

(e) The date of the loss or, if such date is not known, the date on which the loss was discovered, and the cause and nature thereof, together with all the facts surrounding the loss;

(f) The name of the carrier, if any;

(g) If lost by theft, whether the loss occurred as a result of connivance, collusion, fraud, or negligence on the part of the denaturer, distiller, owner, consignor, consignee, bailee, or carrier, or the employees of any of them;

(h) Whether the claimant is indemnified or recompensed for the tax, and, if so, the amount and nature of such indemnity or recompense. The actual value of the distillates, less the tax, must be stated explicitly, and where required, certified copies of all policies of insurance or other documents of indemnity covering the distillates must be furnished.

(53 Stat. 340 as amended, 346, 358, 364, 375; 26 U. S. C. 2901, 2916, 3105, 3124, 3176)

§ 182.700h *Supporting statements.* Claims for remission of tax on distillates lost while on the premises of a denaturing plant or in transit thereto, must be supported by affidavits of persons having personal knowledge of the loss.

(53 Stat. 340 as amended, 346, 358, 364, 375; 26 U. S. C. 2901, 2916, 3105, 3124, 3176)

§ 182.700i *Action on claim by Assistant Regional Commissioner.* When a claim for remission of tax is received by the Assistant Regional Commissioner, he will carefully examine the same to see that all the required information has been furnished, and will cause such investigation to be made or require such additional evidence to be submitted as he may deem necessary. Upon completion of his investigation, if any, the Assistant Regional Commissioner will allow or disallow the claim in accordance with existing law and regulations.

(53 Stat. 340 as amended, 346, 358, 364, 375; 26 U. S. C. 2901, 2916, 3105, 3124, 3176)

§ 182.700j *Records.* Losses of distillates in transit to the denaturing plant or while stored therein shall be shown as a separate entry in the same columns in which losses of alcohol are shown on Form 1468–A.

(53 Stat. 346, 358, 364, 375; 26 U. S. C. 2916, 3105, 3124, 3176)

d. Section 182.779 is amended to read as follows:

§ 182.779 *Distillates.* The tax on distillates lost while in transit to a denaturing plant or while stored therein prior to denaturation may be remitted in accordance with the provisions of §§ 182.700a to 182.700i.

PAR. 3. Section 183.408 of Regulations 4 (26 CFR Part 183) is amended by striking therefrom the last sentence, which reads "The liability of the distiller to tax on such distillates removed for denaturation shall continue until they have been deposited in the denaturing plant."

PAR. 4. Section 184.441 of Regulations 5 (26 CFR Part 184) is amended by striking therefrom the last sentence, which reads "The liability of the distiller to tax on such distillates removed for denaturation shall continue until they have been deposited in the denaturing plant."

This Treasury decision will be effective on the 31st day after publication in the FEDERAL REGISTER.

(53 Stat. 358, 364, 375; 26 U. S. C. 3105, 3124, 3176)

[SEAL] T. COLEMAN ANDREWS,
Commissioner of Internal Revenue.

Approved: March 29, 1954.

M. B. FOLSOM,
Acting Secretary of the Treasury.

TITLE 29—LABOR

Subtitle A—Office of the Secretary of Labor

PART 2—GENERAL REGULATIONS

WITHDRAWAL OF ORIGINALS AND COPIES FROM DEPARTMENTAL RECORDS

By virtue of and pursuant to the authority vested in me by the act of March 4, 1913 (37 Stat. 736, 5 U. S. C. 611), R. S. 161 (5 U. S. C. 22), and Reorganization Plan No. 6 of 1950 (15 F. R. 3174, 64 Stat. 1263, 5 U. S. C. 611, note), sections 1 and 2 of Article III, entitled "Unofficial Access to Records", in Part V of Regulations of the Department of Labor, effective October 15, 1915, are redesignated as § 2.9 (a) and (b) of this part, and amended, and added to the Code of Federal Regulations, reading as follows:

§ 2.9 *Withdrawal of originals and copies from Departmental records*—(a) *Originals.* No account, letter, record, file, or other document or paper in the custody of the Department, or of any bureau, office or officer thereof, shall on any occasion be taken or withdrawn by any agent, attorney, or other person not officially connected with the Department; no exception will be made without the written consent of the Secretary or his duly authorized representative.

(b) *Copies.* Copies of accounts, letters, records, files and other documents or papers shall not be furnished to any person except with the written consent of the Secretary or his duly authorized representative. Such written consent will be granted only to such persons as may have a personal material interest in the subject matter of the papers or at their request. Applications for copies of documents, accounts, records or files should be made to the Secretary and should be accompanied by an affidavit setting forth the interest of the applicant and showing the reason why and the purpose for which the copies are desired. Except where requests are made by the Attorney General under section 188 of the Revised Statutes (5 U. S. C. 91, 1952 ed.) for evidence touching the claims of persons suing the United States in the Court of Claims, copies of accounts, letters, documents, records, or other papers desired by or on behalf of parties to causes pending in any court shall be furnished only to the court on an order or a rule of the court requesting the Secretary to furnish the same, and then only when the production of such copies will not, in the judgment of the Secretary or his duly authorized representative, be prejudicial to the Government or the public interest. No exception will be made without the written consent of the Secretary or his duly authorized representative.

(R. S. 161; 5 U. S. C. 22)

Dated: April 1, 1954, Washington, D. C.

JAMES P. MITCHELL,
Secretary of Labor.

[F. R. Doc. 54–2478; Filed, Apr. 2, 1954; 8:55 a. m.]

PART 2—GENERAL REGULATIONS

OFFICERS AUTHORIZED TO SIGN AND ISSUE CERTIFICATES OF AUTHENTICATION

By virtue of and pursuant to the authority vested in me by the act of March 4, 1913 (37 Stat. 736, 5 U. S. C. 611), R. S. 161 (5 U. S. C. 22), and Reorganization Plan No. 6 of 1950 (15 F. R. 3174, 64 Stat. 1263, 5 U. S. C. 611, note), Part 2, General Regulations, of Subtitle A, Title 29, Code of Federal Regulations, is amended by adding a new § 2.10 to read as follows:

§ 2.10 *Officers authorized to sign and issue certificates of authentication.* Authority is hereby given to any officer or officers of the Department of Labor designated as Authentication officer or officers of said Department to sign and issue certificates of authentication under the seal of the Department of Labor. The form of authentication shall be as follows:

In witness whereof, I, ... duly designated by the Secretary of Labor as Authentication Officer of the Department of Labor, have hereunto subscribed my name and caused the seal of the Department of Labor to be affixed this ..... day of ....., 19.....

.....
Authentication Officer,
Department of Labor

(R. S. 161; 5 U. S. C. 22)

Dated: April 1, 1954.

JAMES P. MITCHELL,
Secretary of Labor.

TITLE 32—NATIONAL DEFENSE

Chapter VII—Department of the Air Force

Subchapter C—Claims and Accounts

PART 836—CLAIMS AGAINST THE UNITED STATES

TORT CLAIMS

1. Paragraph (d) of § 836.39 is changed to read as follows:

§ 836.39 *Subrogation.* • • •

(d) All designees of the Secretary of the Air Force are authorized to settle any claim involving subrogation, if otherwise within their authority (see § 836.34). Although claims by an insured and/or subrogor are not subrogation claims, such claims involve subrogation and may be settled by a designee in accordance herewith.

2. Paragraph (c) of § 836.41 is changed to read as follows:

§ 836.41 *Acceptance of award.* • • •

(c) *Minors.* Where the amount claimed for personal injury of a minor does not justify the expense incident to the appointment of a statutory guardian, the entire file will be forwarded to The Judge Advocate General, USAF, for appropriate action. However, when the claim involves personal property of a minor, a release executed by him, supported by a release and indemnity agreement executed by his legal or natural guardian, would adequately protect the interests of the Government when local law requires a tender of the consideration in the event the minor subsequently repudiates the settlement.

3. Section 836.44 and the heading thereof is revised to read as follows:

§ 836.44 *Final action by designee.* Claims under the provisions of §§ 836.31 to 836.46 may be approved or disapproved in whole or in part by the appropriate designee of the Secretary of the Air Force. The action of such approving authority, in approving or disapproving a claim in whole or in part, will be final and conclusive for all administrative purposes.

4. Section 836.45 and the heading thereof is revised to read as follows:

§ 836.45 *Disapproval.* Upon disapproval of a claim in whole or in part by the approving authority, the claimant will be notified in writing of the action taken, the reason therefor, and the fact that the action of the designee is final. If a claim is disapproved in part, the claimant will be advised that payment will be forthcoming for the approved part of the claim upon receipt within 30 days of a properly executed settlement agreement, and that upon nonreceipt of the settlement agreement within the time allotted, it will be presumed that it is the claimant's intention to withdraw his claim from further administrative processing.

(AFR 112-4A, Mar. 23, 1954) (R. S. 161, sec. 202, 61 Stat. 500, as amended; 5 U. S. C. 22, 171a. Interpret or apply sec. 1, 62 Stat. 983, as amended; 28 U. S. C. 2672)

[SEAL] K. E. THIEBAUD,
Colonel, U. S. Air Force,
Air Adjutant General.

Subchapter G—Personnel

PART 878—DECORATIONS AND AWARDS

SERVICE AWARDS, MEDALS, RIBBONS, AND DEVICES

The regulations contained in §§ 878.41 to 878.70 (16 F. R. 5749; 32 CFR and 1952 Supp., 878.41–878.70) are superseded by the following new §§ 878.41 to 878.73.

Sec.
878.41 Purpose.
878.42 Policy.
878.43 Eligibility.
878.44 Application.
878.45 Good Conduct Medal.
878.46 American Defense Service Medal.
878.47 American Campaign Medal.
878.48 Asiatic-Pacific Campaign Medal.
878.49 European - African - Middle Eastern Campaign Medal.
878.50 World War II Victory Medal.
878.51 Army of Occupation Medal.
878.52 Medal for Humane Action.
878.53 Korean Service Medal.
878.54 United Nations Service Medal.
878.55 Armed Forces Reserve Medal.
878.56 Women's Army Corps Service Medal.
878.57 National Defense Service Medal.
878.58 Philippine Service Awards.
878.59 Clasps.
878.60 Service stars.
878.61 Arrowheads.
878.62 Berlin airlift device.
878.63 Service devices.
878.64 Lapel buttons.
878.65 Posthumous awards.
878.66 United States service awards.
878.67 Foreign service awards.
878.68 Method of award.
878.69 Method of wearing.
878.70 Supply and replacement.
878.71 Exhibition.
878.72 Manufacture, sale, and possession.
878.73 Miscellaneous.

AUTHORITY: §§ 878.41 to 878.73 issued under R. S. 161, sec. 202, 61 Stat. 500, as amended; 5 U. S. C. 22, 171a. Statutory provisions interpreted or applied are cited to text in parentheses.

DERIVATION: AFR 35–50.

§ 878.41 *Purpose.* Sections 878.41 to 878.73 describe service medals, ribbons, and devices awarded by the Air Force with the requirements therefor. Other service awards with which the Air Force is concerned are also included.

§ 878.42 *Policy.* Service awards normally recognize active, honorable Federal military service usually during war or periods of national emergency. Service awards will not be awarded later to any person whose discharge or release from the service for the period covered by the award is under conditions other than honorable. If a person was awarded and presented any medal, ribbon, or device for service prior to any dishonorable behavior, such award will not be revoked.

§ 878.43 *Eligibility.* In general, a person is considered eligible for award of appropriate service medals, ribbons, and devices if:

(a) Assigned or attached to and present for duty with a unit serving within the prescribed geographical area established for the award during the designated time limitations.

(b) Assigned or attached to and present for duty during the prescribed period with a unit designated in general orders as having received the award.

(c) Otherwise meeting the requirements outlined in §§ 878.41 to 878.73.

§ 878.44 *Application.* Members of the Air Force on active duty and members of the Reserve components may obtain Air Force service medals and devices from their immediate commanders. Members of the Air Force Reserve who are not on active duty and who are not assigned to any specific Reserve unit may

obtain Air Force service medals and devices from the Air Reserve Records Center, 3800 York St., Denver, Colorado, which has custody of their personnel records. A person not on active duty and not a member of a Reserve component may apply for his medals in writing to the Air Force Liaison Unit, Military Personnel Records Center, 4300 Goodfellow Boulevard, St. Louis 20, Missouri. Members of the Air Force who were awarded service medals by the Army for service prior to July 2, 1926, may apply to the Department of the Army for such medals.

§ 878.45 *Good Conduct Medal*—(a) *Description.* The Good Conduct Medal is a metal disk 1¼ inches in diameter, bearing in front an eagle standing on a book and a sword, encircled with the inscription "Efficiency-Honor-Fidelity." The ribbon is dark red silk, with three white stripes bordering each edge.

(b) *Requirements for award.* The Good Conduct Medal is awarded for exemplary behavior, efficiency, and fidelity in an enlisted status under the following conditions:

(1) All recorded "character" and "efficiency" ratings in the service record must read "excellent" or "superior," except that ratings of "unknown" are not disqualifying. Service school efficiency ratings below "excellent" awarded prior to March 3, 1946, are not disqualifying.

(2) The service record must not bear any record of a conviction by court-martial during the period considered for the award.

(3) Creditable service will be computed beginning the day following any time lost under section 6 (a) of the act of May 5, 1950 (sec. 6 (a), 64 Stat. 145; 10 U. S. C. 629, formerly AW 107), or the date following approval of a conviction by court-martial in those instances when sentence did not include confinement.

(c) *Time periods of eligibility.* Having met the requirements in paragraph (b) of this section, the different time periods of eligibility for the basic award are:

(1) A period of 3 continuous years of service completed at any time between August 26, 1940 and December 6, 1941, both dates inclusive.

(2) A period of 1 continuous year of service between December 7, 1941 and March 2, 1946.

(3) A period of 3 continuous years of service completed on or after March 3, 1946, except that:

(i) Persons will receive the award who terminate their active Federal military service without having previously received a Good Conduct Medal, and who have completed a minimum of 1 year of service, any part of which is performed after June 27, 1950.

(ii) Persons separated from active Federal military service after June 27, 1950, by reason of physical disability incurred in line of duty will be awarded the Good Conduct Medal without reference to the 1-year minimum period of service. (Those persons separated because of physical disability as described herein will receive the Good Conduct Medal for any period of service performed after June 27, 1950.)

(d) *Time period required after basic award.* After the basic award, a 3-year period of continuous service is always required for additional awards of the Good Conduct Medal. Service must always meet the requirements of paragraph (b) of this section. (See § 878.59.)

(E. O. 8809, June 28, 1941, 6 F. R. 3209; 3 CFR, 1943 Cum. Supp.; as amended by E. O. 9323, Mar. 31, 1943, 8 F. R. 4225, 3 CFR, 1943 Cum. Supp.; as amended by E. O. 10444, Apr. 10, 1953, 18 F. R. 2069)

§ 878.46 *American Defense Service Medal*—(a) *Description.* The American Defense Service Medal is a metal disk 1⅛ inches in diameter, bearing in front an armed figure symbolic of defense under the inscription "American Defense." The ribbon is basically yellow, with blue, white and red stripes right to left, and left to right symmetrically near the edges.

(b) *Requirements for award.* The American Defense Service Medal is awarded to any person who entered military service under orders to active duty for a period of 12 months or more between September 8, 1939 and December 7, 1941. (See § 878.59.)

(E. O. 8808, June 28, 1941, 6 F. R. 3209; 3 CFR, 1943 Cum. Supp.)

§ 878.47 *American Campaign Medal*—(a) *Description.* The American Campaign Medal is a metal disk 1¼ inches in diameter, bearing in front an offshore scene depicting a cruiser, an airplane, and a sinking submarine underneath the inscription "American Campaign." The ribbon is predominantly medium blue-lined white, black, red, and white from right to left and left to right within each edge. In the center are three equal stripes of white and red. The blue stripe is worn to the wearer's right.

(b) *Requirements for award.* The American Campaign Medal is awarded for service within the American Theater between December 7, 1941 and March 2, 1946, under any of the following conditions:

(1) Permanent assignment outside the continental United States.

(2) Permanent assignment for 30 days as an aircrew member of an airplane making frequent flights over ocean waters.

(3) Passenger status outside the continental United States (within the American Theater) for 30 consecutive or 60 nonconsecutive days.

(4) Combat for which a combat decoration was awarded or a certificate of participation was furnished by the commander of a unit of which the person was a member during participation in combat.

(5) An aggregate period of 1-year service within the continental limits of the United States.

(c) *"Antisubmarine" campaign.* A person assigned or attached to and present for duty with a unit which was accorded battle credit for the "Antisubmarine" campaign is entitled to wear one bronze service star on the ribbon bar. (See § 878.60.)

(E. O. 9265, Nov. 6, 1942; 7 F. R. 9106; 3 CFR, 1943 Cum. Supp.; as amended by E. O. 9706, March 15, 1946, 11 F. R. 2811; 3 CFR, 1946 Supp.)

§ 878.48 *Asiatic-Pacific Campaign Medal*—(a) *Description.* The Asiatic-Pacific Campaign Medal is a metal disk 1⅛ inches in diameter, depicting in front a tropical landing beneath the words "Asiatic-Pacific Campaign." The ribbon is basically yellow, with yellow, red, and white stripes near each end. In the center are three equal stripes of blue, white, and red. The blue stripe is worn to the wearer's right.

(b) *Requirements for award.* The Asiatic-Pacific Campaign Medal is awarded for service within the Asiatic-Pacific Theater between December 7, 1941 and March 2, 1946, under any of the following conditions:

(1) Permanent assignment.

(2) Passenger status or temporary duty for 30 consecutive or 60 nonconsecutive days.

(3) Combat for which a combat decoration was awarded or a certificate was furnished as prescribed in § 878.47 (b) (4). (See § 878.60).

(E. O. 9265, Nov. 6, 1942, 7 F. R. 9106; 3 CFR, 1943 Cum. Supp.; as amended by E. O. 9706, March 15, 1946, 11 F. R. 2811; 3 CFR, 1946 Supp.)

§ 878.49 *European - African - Middle Eastern Campaign Medal*—(a) *Description.* The European - African - Middle Eastern Campaign Medal is a metal disk 1⅛ inches in diameter, depicting a landing scene beneath the words "European-African-Middle Eastern Campaign." The ribbon is principally dark-green, edged with brown bands separated from the green by green, white, and red stripes on the left (wearer's right), and by white, black, and white stripes on the right (wearer's left). In the center are equal stripes of blue, white, and red. The blue stripe is worn to the wearer's right.

(b) *Requirements for award.* The European-African-Middle Eastern Campaign Medal is awarded for service within the European-African-Middle Eastern Theater between December 7, 1941 and November 8, 1945, under any of the following conditions:

(1) Permanent assignment.

(2) Passenger status or temporary duty for 30 consecutive or 60 nonconsecutive days.

(3) Combat for which a combat decoration was awarded or a certificate was furnished as prescribed in § 878.47 (b) (4). (See § 878.60).

(E. O. 9265, Nov. 6, 1942, 7 F. R. 9106; 3 CFR, 1943 Cum. Supp.; as amended by E. O. 9706, March 15, 1946, 11 F. R. 2811; 3 CFR, 1946 Supp.)

§ 878.50 *World War II Victory Medal*—(a) *Description.* The World War II Victory Medal is a metal disk 1⅛ inches in diameter, bearing in front the figure of liberation holding a broken sword in the dawn. The ribbon is predominantly red with wide rainbow borders.

(b) *Requirements for award.* The World War II Victory Medal is awarded for any period of service between December 7, 1941 and December 31, 1946.

(59 Stat. 461; 10 U. S. C. 1430c)

§ 878.51 *Army of Occupation Medal*—(a) *Description.* The Army of Occupation Medal is a metal disk 1¼ inches in diameter, bearing on the front of the disk a pictorial representation of the Remagen Bridge and on the reverse Mount Fujiyama and two Japanese junks. The ribbon is bordered with white bands with equal black and red stripes in the center. The black stripe is worn to the wearer's right.

(b) *Requirements for award.* The Army of Occupation Medal, established by War Department General Orders 32, 1946, is awarded for 30 days' consecutive service at a normal post of duty while assigned to United States occupation forces during the prescribed time limits in any of the following areas:

(1) Germany or Austria between May 9, 1945, and a terminal date to be announced later. Service between May 9, 1945, and November 8, 1945, is counted only if the European-African-Middle Eastern Campaign Medal was awarded for service prior to May 9, 1945.

(2) Italy between May 9, 1945 and September 15, 1947, in the compartment of Venezia Giulia E. Zara, Province of the Udine, or with a unit specially designated in Department of the Army General Orders 4, 1947. Service between May 9, 1945, and November 8, 1945, is counted only if the European-African-Middle Eastern Campaign Medal was awarded for service prior to May 9, 1945.

(3) Japan between September 3, 1945, and April 27, 1952, in the four main islands of Hokkaido, Honshu, Shikoku, and Kyushu, the surrounding smaller islands of the Japanese homeland, the Ryukyu Islands and the Bonin-Volcano Islands. Service between September 3, 1945 and March 2, 1946, will be counted only if the Asiatic-Pacific Campaign Medal was awarded for service prior to September 3, 1945. In addition, service which meets the requirements for the Korean Service Medal (see § 878.53) will not be counted in determining eligibility for this award.

(4) Korea between September 3, 1945 and June 29, 1949, inclusive. Service between September 3, 1945 and March 2, 1946, will be counted only if the Asiatic-Pacific Campaign Medal was awarded for service prior to September 3, 1945. (See § 878.59.)

(c) *Berlin airlift.* Service for 90 or more consecutive days between June 26, 1948 and September 30, 1949, while assigned or attached to a unit designated in general orders of the Department of the Air Force for participation in the Berlin airlift qualifies a person for award of the Army of Occupation Medal (Germany) with Berlin Airlift Device. (See § 878.62.)

§ 878.52 *Medal for Humane Action*—(a) *Description.* The Medal for Humane Action is a metal disk 1¼ inches in diameter, depicting a C–54 airplane within a border of wheat centering the coat of arms of Berlin. The ribbon is predominently blue with black edges, followed by white, red, and white stripes. The center bears three stripes, white, red, and white in the order named.

(b) *Requirements for award.* The Medal for Humane Action is awarded to personnel who were assigned or attached to and present for duty for 120 days between June 26, 1948 and September 30, 1949, with any of the units cited in general orders of the Department of the Air Force for participation in the Berlin airlift for direct support thereof. Geographical boundaries of the area of the Berlin airlift operation are as follows:

(1) Northern boundary: 54th parallel north latitude.

(2) Eastern boundary: 14th meridian east longitude.

(3) Southern boundary: 48th parallel north latitude.

(4) Western boundary: 5th meridian west longitude.

(c) *Award to members of foreign armed forces and civilians.* In addition to members of the Armed Forces of the United States, the Medal for Humane Action may be awarded to members of foreign armed forces and civilians upon individual recommendation, indicating meritorious participation in the Berlin airlift.

(d) *Award to persons whose lives were lost participating in Berlin airlift.* The medal may be awarded those persons whose lives were lost while participating in the Berlin airlift or as a direct result of participating therein, without regard to the length of such service; *Provided,* That all other requirements are met.

(Sec. 1, 63 Stat. 447; 10 U. S. C. 1430d)

§ 878.53 *Korean Service Medal*—(a) *Description.* The Korean Service Medal is a metal disk 1¼ inches in diameter (description to be announced later). The medal is suspended by a ring from a silk moire ribbon composed of white piping on the ends, a center of United Nations blue intersected by a white band.

(b) *Requirements for award.* The Korean Service Medal is awarded to persons assigned or attached to combat or service units, designated by the Commander, Far East Air Forces, in general orders for service within the Korean Theater or adjacent areas between June 27, 1950, and a terminal date to be announced later.

(c) *Definition of "Korean Theater."* The term "Korean Theater," as used in paragraph (b) of this section, is defined as those areas which encompass North or South Korea, Korean waters, and the air over North or South Korea or over Korean waters.

(d) *Conditions for award.* The Korean Service Medal is awarded under any of the following conditions:

(1) Participation in any engagement against the enemy in North or South Korean territory, in Korean waters, or in the air over North or South Korea or over Korean waters. A person will also be considered as having participated in an engagement if that person:

(i) Was a member of a designated combat or service unit in the Korean Theater.

(ii) Was a member of a service or combat unit designated by the Far East Air Forces as directly supporting operations in the Korean Theater.

(iii) Was a member of a designated headquarters of the Far East Air Forces who exerted a distinct and contributory effort to operations in the Korean Theater.

(2) The service prescribed must have been performed:

(i) While on permanent assignment, or

(ii) While on temporary duty as a member of a designated unit or headquarters for 30 consecutive or 60 nonconsecutive days, or

(iii) While in actual combat against the enemy and was awarded a combat decoration or furnished a certificate by the commander of a division, comparable or higher unit; commander of a ship, comparable or higher unit; or commander of an Air Force group, comparable or higher unit, that the person actually participated in combat.

(e) *Award of Bronze Service Stars.* Bronze Service Stars are awarded to members of designated combat or service units in combat or units assigned to the command of Far East Air Forces, or on temporary duty with Army Ground Forces under any of the following conditions:

(1) If the person was a member assigned or attached to and present for duty with a designated combat or service unit during the period which the unit participated in combat.

(2) If the person was under orders in the combat zone and in addition was awarded a combat decoration, or was furnished a certificate, by a commander of a division, comparable or higher unit, commander of a ship, comparable or higher unit; commander of an Air Force group, comparable or higher unit, or independent force stating that the person actually participated in combat or served at a normal post of duty (as contrasted to occupying the status of an inspector, observer, or visitor) or aboard a vessel other than in a passenger status. A certificate must be furnished by the home port commander of the vessel for actual service in the combat zone of the Korean Theater.

(3) If the person was an evadee or escapee in the combat zone or recovered from a prisoner-of-war status in the combat zone during the time limitations of the campaign. Prisoners of war will not be accorded credit for the time spent in confinement or while otherwise in restraint under enemy control. (See § 878.60).

(f) *Award of arrowhead.* An arrowhead is awarded to members of designated combat or service units in combat, units assigned to the command of Far East Air Forces or on temporary duty with Army Ground Forces, who participated in an airborne or amphibious assault within the territorial limits of Korea. (See § 878.61.)

(E. O. 10179, Nov. 8, 1950, 15 F. R. 7665, 3 CFR 1950 Supp.)

§ 878.54 *United Nations Service Medal*—(a) *Description.* The United Nations Service Metal is a metal disk 1¼ inches in diameter, bearing in front the emblem of the United Nations (a polar projection map of the world, taken from the North Pole, embraced in twin olive branches). On the reverse of the medal, within a rim, is the inscription "For Service in Defence of the Principles of the Charter of the United Nations." The medal is suspended from a silk ribbon two inches in length and 1.33 inches in width, consisting of 17 stripes,

nine of United Nations blue and eight of white, alternating, each stripe 0.08 inch in width. A bar 1.5 inches in length and 0.25 inch in width, bearing the word "Korea," constitutes a part of the suspension of the medal from the ribbon.

(b) *Requirements for award.* The United Nations Service Medal established by the United Nations General Assembly Resolution 483 (V), December 12, 1950, is awarded to members of the Armed Forces of the United States dispatched to Korea or adjacent areas of military operations specifically for service on behalf of the United Nations in the Korean Theater between June 27, 1950, and a terminal date to be announced later. Other personnel dispatched to Korea or adjacent areas as members of paramilitary and quasi-military units designated by the United States Government for service in support of the United Nations action in Korea and certified by the United Nations Commander-in-Chief as having directly supported military operations may be awarded the United Nations Service Medal. (The term "Korean Theater" as used herein is defined as those areas which encompass North and South Korea, Korean waters, and the air over North and South Korea, Korean waters.) To qualify for the United Nations Service Medal, the service must have been performed either:

(1) While serving with any designated combat or service unit while:

(i) On permanent assignment to such unit, or

(ii) Attached to such unit for a period of 30 consecutive or nonconsecutive days.

(2) While in active combat against the enemy under conditions other than those conditions prescribed in subparagraph (1) of this paragraph, and was awarded a combat decoration or furnished a certificate by the commander of a division, comparable or higher unit; commander of a ship, comparable or higher unit; or commander of an Air Force group, comparable or higher unit, that the person actually participated in combat.

(c) *Persons who will be awarded United Nations Service Medal.* Commanders having custody of individuals' official records will award the United Nations Service Medal to persons who meet the requirements specified in paragraph (b) of this section. In addition, persons whose records indicate award, or eligibility for, the Korean Service Medal will be awarded the United Nations Service Medal.

(d) *Persons ineligible for award of United Nations Service Medal.* Personnel of the United Nations, its specialized agencies, or of any government service other than as prescribed in paragraph (b) of this section, and International Red Cross personnel engaged for service under the United Nations Commander-in-Chief with any United Nations relief team in Korea will not be eligible for the award of the United Nations Service Medal.

§ 878.55 *Armed Forces Reserve Medal*—(a) *Description.* The Armed Forces Reserve Medal consists of a medal and ribbon. (Design of medal will be announced later.) The ribbon suspension is buff bordered with blue and buff stripes and the center section of buff is intersected by a blue line followed by blue and buff stripes.

(b) *Reserve components included.* The Armed Forces Reserve Medal may be awarded to members or former members of the Reserve components of the Armed Forces of the United States who complete or have completed a total of 10 years of honorable and satisfactory service as defined in Pub. Law 810, 80th Cong. (sec. 306, 62 Stat. 1089; 10 U. S. C. 1036e) not necessarily consecutive, provided that such service was performed within a period of 12 consecutive years, except as noted in paragraph (e) (2) of this section. For the purpose of determining eligibility for the award of the Armed Forces Reserve Medal, service as a member of a Reserve component will include those Reserve components enumerated as follows:

(1) The National Guard of the United States.

(2) The National Guard while in the service of the United States.

(3) The federally recognized National Guard prior to 1933.

(4) A federally recognized status in the National Guard.

(5) The Officers' Reserve Corps and the Enlisted Reserve Corps prior to enactment of Pub. Law 460, 80th Cong. (62 Stat. 87; 10 U. S. C. 361, 422; 32 U. S. C. 62, 143, 154; 5 U. S. C. 626k).

(6) The Organized Reserve Corps.

(7) The Army of the United States without component.

(8) The Naval Reserve and the Fleet Naval Reserve transferred thereto after completion of 16 or more years of active naval service.

(9) The Marine Corps Reserve and the Marine Corps Reserve Force, excluding those members of the Fleet Marine Corps Reserve transferred thereto after completion of 16 or more years of active naval service.

(10) The Limited Service Marine Corps Reserve.

(11) The Naval Militia who have conformed to the standards prescribed by the Secretary of the Navy.

(12) The National Naval Volunteers.

(13) The Air National Guard.

(14) The Air Force Reserve (officer or enlisted sections).

(15) The Air Force of the United States without component.

(16) The Coast Guard Reserve.

(c) *Service creditable.* Each year of active or inactive honorable service as a member of any of the Reserve components listed in paragraph (b) of this section may be credited toward award of the Armed Forces Reserve Medal until July 1, 1949. For service performed after July 1, 1949, members may be credited with all periods of active duty or periods during which they meet the minimum requirements of the training category to which assigned (see §§ 861.1 to 861.13 of this chapter) except that those persons in the Army of the United States or Air Force of the United States must compute time as follows:

(1) Active or inactive service prior to July 1, 1948, is creditable for those Army of the United States or Air Force of the United States officers appointed under the act of September 22, 1941 (55 Stat. 728; 10 U. S. C. 484 note). After July 1, 1948, only active duty under such Army of the United States or Air Force of the United States appointments will be creditable.

(2) Active or inactive service prior to July 1, 1949, will be creditable for those Army of the United States or Air Force of the United States officers appointed under section 127a, National Defense Act (sec. 51, 41 Stat. 785, as amended; 10 U. S. C. 513) or section 515 (e) of the Officer Personnel Act of 1947 (sec. 515 (e), 61 Stat. 907; 10 U. S. C. 506d (e)).

(3) For the purpose of computing eligibility for the Armed Forces Reserve Medal, all Army of the United States or Air Force of the United States appointments will be considered as having been made under the act of September 22, 1941 (55 Stat. 728; 10 U. S. C. 484 note) unless otherwise indicated on official records.

(d) *Service not creditable.* Service in the following sections at any time may not be credited:

(1) Inactive National Guard.

(2) Inactive Air National Guard.

(3) Nonfederally recognized status in National Guard or Air National Guard.

(4) Inactive Reserve Section or Honorary Reserve Section of the Officers' Reserve Corps.

(5) Inactive Section or Honorary Section of the Air Force Reserve.

(6) Honorary Retired List of the Naval and Marine Corps Reserve.

(7) Inactive list of Sandby Reserves.

(8) Retired Reserve.

(9) Women's Army Auxiliary Corps.

(e) *Regular service.* Service as a regular officer, warrant officer, or Regular enlisted person in the Armed Forces, including the Coast Guard and service for which the Naval Reserve Medal, Organized Marine Corps Reserve Medal, or the Marine Corps Reserve Ribbon has been or may be awarded, will not be credited toward award of the Armed Forces Reserve Medal, except:

(1) Service in a Reserve component which is concurrent, in whole or in part, with service in a Regular component of the Armed Forces will be included in computing the required 10 years of Reserve service, and

(2) Any period of time during which Reserve service is interrupted by service in a Regular component of the Armed Forces will be excluded in computing, but will not be considered a break in, the said period of 12 consecutive years.

(f) *Attendance at aviation cadet training schools considered Regular services.* For the purpose of §§ 878.41 to 878.73, periods of attendance at aviation cadet training schools (for those persons appointed as "aviation cadets") are considered Regular service.

(g) *Determining eligibility.* Eligibility for the Armed Forces Reserve Medal may be determined from data contained in items 18 and 28 of DA AGO Form 66, "Officer's, Warrant Officer's, and Flight Officer's Qualification Record"; officer's certificate of statement of service; AF Form 190, "USAF Reserve Personnel Record Card"; or a statement from the person concerned certifying that his service in a Reserve component meets the requirements of satisfactory Federal service as defined in Pub. Law 810, 80th Congress.

(h) *Hour-glass device.* One hour-glass device, with a Roman numeral "X" superimposed, may be worn on the suspension and service ribbon of the Armed Forces Reserve Medal to denote service for each 10-year period in addition to, and under the same conditions, as prescribed for the award of the basic medal.

(E. O. 10163, Sept. 25, 1950, 15 F. R. 64, 89; 3 CFR, 1950 Supp.; as amended by E. O. 10439, Mar. 19, 1953, 18 F. R. 1581)

§ 878.56 *Women's Army Corps Service Medal*—(a) *Description.* The Women's Army Corps Service Medal is a metal disk 1¼ inches in diameter, bearing in front the head of Pallas Athene in profile facing dexter, superimposed on a sheathed sword crossed with oak leaves and a palm branch within a circle composed of the words "Women's" in the upper half, and in the lower half "Army Corps." The ribbon is predominantly moss-tone green with gold borders.

(b) *Requirements for award.* The Women's Army Corps Service Medal is awarded to members of the Women's Army Corps for honorable service performed by them in the Women's Army Auxiliary Corps.

(E. O. 9365; July 30, 1943, 8 F. R. 10651, 3 CFR, 1943 Supp.)

§ 878.57 *National Defense Service Medal*—(a) *Description.* The National Defense Service Medal is bronze of a design to be announced later. The medal will be suspended by a ring from a silk moire ribbon of a design identical in color and proportions with the service ribbon. The service ribbon for this medal will be silk moire 1⅜ inches in width and ⅜ inches in length, attached to a bar which is equipped with a suitable attaching device. The design of this ribbon will consist of a red band (7/16 inch), a white stripe (1/32 inch), a blue stripe (1/32 inch), a white stripe (1/32 inch), a red stripe (1/32 inch), a yellow band (¼ inch), a red stripe (1/32 inch), a white stripe (1/32 inch), a blue stripe (1/32 inch), a white stripe (1/32 inch), and a red band (7/16 inch).

(b) *Requirements for award.* The National Defense Service Medal is awarded for any period (1 day or longer) of honorable active duty service on or after June 27, 1950, to a date to be announced later. Inactive Reserve personnel ordered to active duty for short periods of training under the Inactive Reserve training program will not be considered as being on active duty for the purpose of this award. For the purpose of determining the order of wearing of this medal, a person who meets the requirements is considered to have earned it on the first day of honorable active service on or after June 27, 1950. If, in exceptional instances, a person earns the National Defense Service Medal and the Korean Service Medal on the same day, the National Defense Service Medal will be worn immediately before the Korean Service Medal.

(E. O. 10448, April 22, 1953, 18 F. R. 2391)

§ 878.58 *Philippine service awards*—(a) *Philippine Defense Ribbon*—(1) *Description.* The Philippine Defense Ribbon, established by the Philippine Commonwealth Government, consists of a red ribbon divided by wide white bands and centering three white stars which form a triangle. The single star is worn uppermost.

(2) *Requirements for award.* The Philippine Defense Ribbon is awarded for combat service in defense of the Philippines from December 8, 1941 to June 15, 1942, as a member of the Bataan or Manila Bay forces or of a unit, ship, or airplane under enemy attack. A person assigned or stationed in Philippine waters or territories for at least 30 days during the cited period may also be awarded the ribbon. A person who fulfills both of the preceding requirements is entitled to wear one bronze service star on the ribbon.

(b) *Philippine Liberation Ribbon*—(1) *Description.* The Philippine Liberation Ribbon established by the Philippine Commonweath Government consists of a red ribbon with equal stripes of blue and white in the center. The blue stripe is worn to the wearer's right.

(2) *Requirements for award.* The Philippine Liberation Ribbon is awarded for participation in the liberation of the Philippines from October 17, 1944 to September 3, 1945. A person must have participated in the Leyte landings (October 17–20, 1944) or have engaged the enemy on Leyte or adjoining islands. A person assigned or stationed as described for at least 30 days during the period of the campaign may also be awarded the ribbon. Any one of the preceding requirements entitles a person to be awarded the ribbon and for each additional requirement met, one bronze service star worn on the ribbon may be awarded.

(c) *Philippine Independence Ribbon*—(1) *Description.* The Philippine Independence Ribbon, established by the Philippine Commonwealth Government, consists of a predominantly blue ribbon edged with yellow stripes and bearing red, white, and red stripes in the order named in the center.

(2) *Requirements for award.* The Philippine Independence Ribbon is awarded to all personnel who were present for duty in Philippine territories or waters on July 4, 1946, and to all persons awarded the Philippine Defense or the Philippine Liberation Ribbons.

§ 878.59 *Clasps.* (a) Clasps are used to:

(1) Denote additional awards of the same medal, for example, the Good Conduct Medal.

(2) Denote additional honors pertaining to the basic award, for example, the Foreign Service Clasp.

(3) Differentiate areas of service, for example, the "Germany" or "Japan" clasp to the Army of Occupation Medal.

(b) Kinds of clasps are:

(1) The Good Conduct Medal clasp which consists of a metal bar bearing a loop for each period of 3 years' exemplary service, as required for and after original award of the medal, and which will be:

(i) A bronze clasp with from two to five bronze loops for the second to fifth awards. (The second award of the Good Conduct Medal will be a bronze clasp with two bronze loops.)

(ii) A silver clasp with from one to five silver loops for the sixth to tenth awards.

(iii) A gold clasp with from one to five gold loops for the eleventh to fifteenth awards.

(2) Foreign service clasps which are awarded with the American Defense Service Medal and the Army of Occupation Medal (World War II). The American Defense Service Medal Clasp, which is attached to the suspension ribbon of the medal, reads "Foreign Service," and is awarded for service outside the continental United States, including Alaska, under the same requirement as prescribed for the American Defense Service Medal. Instead of the clasp that is worn on the suspension ribbon of the medal, a bronze service star is worn on the ribbon bar to denote award of the clasp.

(3) The Army of Occupation Metal clasps read "Germany" or "Japan," and are awarded to differentiate service in the respective Armies of Occupation. Service with the Armies of Occupation in Germany, Italy, or Austria is represented by the "Germany" clasp. Service with the Army of Occupation in "Japan" or "Korea" is represented by the "Japan" clasp. The clasps are worn on the suspension ribbon of the medal. Service stars or "clasps" are not worn on the ribbon bar of the Army of Occupation Medal.

§ 878.60 *Service stars.* Metal (silver or bronze) stars are worn on the suspension ribbons and ribbon bars of the American Campaign Medal, Asiatic-Pacific Campaign Medal, European-African-Middle Eastern Campaign Medal, and the Korean Service Medal to denote unit battle participation credit as announced in general orders. One silver star is worn in place of five bronze stars. Metal (bronze) stars are also worn on the Philippine Defense, Liberation, and Independence Ribbons to denote additional honors.

§ 878.61 *Arrowheads.* A bronze replica of an Indian arrowhead worn on the suspension ribbons and ribbon bars of the Asiatic-Pacific Campaign Medal, European-African-Middle Eastern Campaign Medal, and Korean Service Medal to denote a combat parachute jump, combat glider landing, or amphibious assault landing. The combat parachute jump or combat glider landing into enemy-held territory must have been made as an assigned or attached member of an organized force carrying out an assigned tactical mission. (An emergency combat parachute jump into enemy-held territory does not constitute eligibility for award of an arrowhead.) In addition, units entitled to this award must be designated in general orders. Only one bronze arrowhead will be worn on any suspension ribbon or ribbon bar regardless of the number of times a person becomes eligible for this award. When worn, the arrowhead will be worn point up in a vertical position to the wearer's right of all service stars.

§ 878.62 *Berlin airlift device.* A miniature C–54 airplane facsimile in gold-colored metal may be awarded with the Army of Occupation Medal (Germany) to denote participation in the Berlin airlift. Service for 90 or more consecutive days while assigned or attached to a unit designated in general orders of the department of the Air Force for participation in the Berlin airlift qualifies a person for this award. This device is worn on both the suspension ribbon and ribbon bar of the Army of Occupation Medal (Germany) with the nose pointed upward at a 30 degree angle toward the wearer's right shoulder.

§ 878.63 *Service devices*—(a) *Federal service stripes.* Federal service stripes are authorized for optional wear by enlisted personnel only. Each stripe represents 3 years of enlisted service in the Armed Forces of the United States.

(b) *Oversea chevrons.* Oversea chevrons are authorized for optional wear by all qualified personnel. Each chevron represents 6 months of oversea duty in a theater of operations during World War I.

NOTE: World War I wound chevron has been replaced by the Purple Heart decoration.

(c) *Oversea bars.* Oversea bars are authorized for optional wear by all qualified personnel. Each bar represents 6 months of duty outside the continental limits of the United States during World War II between December 7, 1941 and September 2, 1946, inclusive. Fractional parts of a 6 month period will not be accredited as another bar.

(d) *Other devices.* Devices, other than those devices described in paragraphs (a), (b) and (c) of this section, are awarded by the Army, Navy, Marine Corps and Coast Guard. Such devices are awarded in conformance with the regulations of the awarding authority and §§ 878.41 to 878.73 will not be construed to nullify them.

§ 878.64 *Lapel buttons.* The lapel buttons outlined in this section are authorized to be worn only with civilian clothes.

(a) *Good Conduct Medal, American Defense Service Medal, and Women's Army Corps Service Medal Lapel Buttons.* The lapel buttons authorized for these medals are enamel replicas of the ribbon bars.

(b) *World War II Honorable Service lapel button.* The World War II Honorable Service lapel button is of gold-colored metal, bearing an eagle on a ring around 13 stripes awarded for service between September 8, 1939 and December 31, 1946, both dates inclusive.

(c) *Air Force lapel button.* The Air Force lapel button consists of the winged Air Force star in gold- and silver-colored metal. All members of the Air Force on active duty and members of the Air Force Reserve, Air National Guard, and Air Force Reserve Officers' Training Corps are entitled to wear this lapel button.

§ 878.65 *Posthumous awards.* Next of kin are entitled to posthumous awards of deceased personnel. Next of kin is determined in the following order: Widow or widower, eldest son or daughter, father, mother, eldest brother or sister, eldest grandchild. The next of kin of an individual entitled to a service medal may make application to the Director of Military Personnel, Headquarters United States Air Force, Washington 25, D. C., Attention: Awards Branch, stating the name, rank, and serial number of the individual.

§ 878.66 *United States service awards.* Service medals, ribbons, and devices are also awarded by the United States Army, Navy, Marine Corps, and Coast Guard. Such awards are made in conformance with the regulations of the awarding authority and §§ 878.41 to 878.73 will not be construed to nullify them. Service medals awarded by agencies of the United States Government, other than those listed in this section, or by States and other jurisdictions subordinate to the Federal Government will not be worn on the uniform.

§ 878.67 *Foreign service awards.* Service awards tendered by foreign governments to an officer or airman may not be accepted or worn on the uniform. However, foreign service awards to a person who was, at the time the award was earned, a member of the armed forces of a friendly foreign power, may be worn on the Air Force uniform provided that prior approval is obtained from the Department of the Air Force. Requests for permission to wear such awards should be addressed to the Director of Military Personnel, Headquarters, USAF, Attention: Personnel Services Division, Washington 25, D. C., and will include any evidence of the award that the recipient may possess. This section does not apply to the Philippine service awards.

§ 878.68 *Method of award*—(a) *When an award is considered as being made to a person.* The award is construed as being made to a person when the appropriate entry is made in the person's records. This should be distinguished from presentation of the award which may be made later.

(b) *By whom made.* Awards of service medals, ribbons, and devices will be made by the commander having custody of the personnel records of members of the Air Force on active duty and members of the Reserve components, causing an appropriate entry to be made in a person's records upon receipt of general orders or other appropriate authority announcing the award, or upon determination that a person meets the requirements for an award.

(c) *Presentation at official ceremony.* Presentation of service awards at an official ceremony is not required, but may be arranged at the discretion of individual commanders.

§ 878.69 *Method of wearing*—(a) *Service medals and ribbons.* Service medals and ribbons are worn from the wearer's right to left and immediately above the pocket on the left breast in one or more lines.

(b) *United States service medals and ribbons.* United States service medals and ribbons are worn following all United States decorations in the following manner:

(1) The Good Conduct Medal is worn immediately following United States decorations.

(2) All other United States service awards follow in the order in which earned (not the date of entry in the records or date upon which the service award is established, but the date upon which the person becomes eligible for the award). For example, the National Defense Service Medal was not established until April 22, 1953, but all personnel upon active duty as of June 27, 1950, becomes entitled to the award as of June 27, 1950. Therefore, the National Defense Service Medal will be worn preceding the Korean Service Medal. The only exception to this rule is the Armed Forces Reserve Medal which is always worn following all other United States service awards.

(3) Philippine service ribbons are worn following United States service awards.

(c) *United Nations Service Medal.* The United Nations Service Medal is worn immediately following all foreign decorations, if any, otherwise, immediately following all United States service awards and Philippine service ribbons.

(d) *Foreign service awards.* Foreign service awards, as authorized, in § 878.67, are worn immediately following any foreign decorations or immediately following United States service medals and or United Nations Service Medal should the person concerned not have any foreign decorations. Foreign service medals are worn in the order earned or in the manner prescribed by the foreign nation awarding the medals. At least one United States decoration or service award must be worn at the same time that a foreign award is worn.

§ 878.70 *Supply and replacement.* Air Forces service medals, ribbon bars, lapel buttons, and other devices are supplied by requisition through normal supply channels. Replacements for medals and appurtenances lost or destroyed through no fault or neglect on the part of the person to whom awarded, will be replaced without charge to members of the Air Force on active duty and members of the Reserve components and to other qualified persons at cost price.

§ 878.71 *Exhibition.* Applications from public institutions for samples of service medals and appurtenances for exhibition purposes may be addressed to the Director of Military Personnel, Headquarters USAF, Washington 25, D. C., for approval by the Secretary of the Air Force. The cost of the medals and appurtenances, plus transportation, packing charges, and the engraving of each medal with the words "Display only" will be borne by the purchaser.

§ 878.72 *Manufacture, sale, and possession.* By law, the manufacture, sale, and possession or the pictorial representation, in regulation size, of the likeness of any Air Force decoration, medal or device, United States or foreign, is prohibited unless authorized by the Department of the Air Force.

[sec. 1, 62 Stat. 732; as amended; 18 U. S. C. 704]

§ 878.73 *Miscellaneous.* (a) Medals and ribbons for service differ from decorations in design and requirements for award. Service medals, in design, are usually circular with pictorial relief.

(b) Only one award of a specific United States service medal or Philippine service award will be made to the same person. Devices will be awarded to persons to denote additional awards in those instances specified in §§ 878.41 to 878.73.

(c) Service awards are not made to civilians or foreign persons, unless otherwise specified.

[SEAL] K. E. THIEBAUD,
Colonel, U. S. Air Force,
Air Adjutant General.

TITLE 15—COMMERCE AND FOREIGN TRADE

Subtitle A—Office of the Secretary of Commerce

PART 4—CHARGES FOR CERTIFICATIONS OR VALIDATIONS AND AFFIXING DEPARTMENT SEAL

Pursuant to the provisions of 56 Stat. 1067 (5 U. S. C. 606) and Bureau of the Budget Circular A–28, dated January 23, 1954, notice is hereby given of revised fees for certification or validation of documents with and without the Department of Commerce seal.

§ 4.1 *Charges for certifications or validations and affixing Department seal.* Effective April 1, 1954, and except when otherwise provided by statute, the charge for each certification or validation shall be 25 cents; and where the seal is affixed, the charge shall be 50 cents for each instance, without additional charge for certification or validation.

(56 Stat. 1067; 5 U. S. C. 606)

Insofar as the Administrative Procedure Act may be applicable: Because of the nature of this notice, I find, for good cause shown, that it would be impracticable and unnecessary, and no good reason would be served to give preliminary notice, engage in public rule-making procedure or postpone the effective date hereof.

[SEAL] ROBERT B. MURRAY, Jr.,
Acting Secretary of Commerce.

TITLE 50—WILDLIFE

Chapter I—Fish and Wildlife Service, Department of the Interior

PART 17—LIST OF AREAS

FEDERAL AID AREAS

EDITORIAL NOTE: For order affecting the tabulation in § 17.7, see Public Land Order 949 in the Appendix to Title 43, Chapter I, issue of April 2, 1954, 19 F. R. 1822. This order revokes Executive Order 8622 of December 27, 1940, which established the Squaw Creek Antelope Range and Wildlife Refuge in the State of Washington.

PROPOSED RULE MAKING

DEPARTMENT OF THE TREASURY

Internal Revenue Service

[26 CFR Parts 29, 39]

COMPENSATION OF MEMBERS OF THE ARMED FORCES AND DEFINITION OF DEPENDENT

NOTICE OF PROPOSED RULE MAKING

Notice is hereby given, pursuant to the Administrative Procedure Act, approved June 11, 1946, that the regulations set forth in tentative form below are proposed to be prescribed by the Commissioner of Internal Revenue, with the approval of the Secretary of the Treasury. Prior to the final adoption of such regulations, consideration will be given to any data, views, or arguments pertaining thereto which are submitted in writing, in duplicate, to the Commissioner of Internal Revenue, Washington 25, D. C., within the period of 30 days from the date of publication of this notice in the FEDERAL REGISTER. The proposed regulations are to be issued under the authority contained in sections 62 and 3791 of the Internal Revenue Code (53 Stat. 32, 467; 26 U. S. C. 62, 3791).

[SEAL] T. COLEMAN ANDREWS,
Commissioner of Internal Revenue.

In order to conform Regulations 111 (26 CFR Part 29) and 118 (26 CFR Part 39) to sections 1 and 3 of Public Law 213 (83d Cong.), approved August 7, 1953, relating to the extension of the applicable period of section 22 (b) (13) of the Internal Revenue Code and to the definition of dependent, such regulations are hereby amended as follows:

PARAGRAPH 1. There is inserted immediately preceding § 29.25–1 the following:

PUBLIC LAW 213, 83D CONGRESS
APPROVED AUGUST 7, 1953

• • • • • •

SEC. 3. (a) That the third sentence of section 25 (b) (3) of the Internal Revenue Code, relating to the definition of dependent, is amended to read as follows: "For the purposes of determining whether any of the foregoing relationships exist (1) a legally adopted child of a person or (2) a child for which petition for adoption was filed by a person in the appropriate court and denied because of mental incapacity of surviving natural parent to agree to such adoption, shall be considered a child of such person by blood."

(b) The provisions of subsection (a) shall be applicable to taxable years beginning after December 31, 1945.

PAR. 2. Section 29.25–3, as amended by Treasury Decision 5993, approved February 18, 1953, is further amended as follows:

a. By inserting after the eighth sentence of paragraph (b) the following: "See paragraph (d) (5) of this section."

b. By inserting at the end of paragraph (c) the following: "In addition, a child for which petition for adoption was filed by a person in the appropriate court and denied because of the mental incapacity of the surviving natural parent to agree to such adoption shall be considered a child of such person by blood. See paragraph (d) (5) of this section."

c. By deleting the sixth sentence of paragraph (d) (5) and by inserting in lieu thereof the following: "A legally adopted child of a person, or a child for which petition for adoption has been filed by a person in the appropriate court and denied because of the mental incapacity of the surviving natural parent to agree to such adoption, shall be considered to become a child of such person by blood as of the date on which the decree for adoption is issued, or the petition for adoption is denied because of the mental incapacity of the surviving natural parent to agree to such adoption. For the purposes of this section a decree of adoption includes an interlocutory decree of adoption, only if under the applicable State law the legal effect of such decree is to declare the child for all intents and purposes to be the child of the person so adopting. For example, during 1948 a calendar year taxpayer furnished the chief support of a child, who had less than $600 of gross income for that year. A decree of adoption with respect to that child was issued in December 1948. The taxpayer is entitled to an exemption on behalf of the child for the taxable year 1948, provided the other requirements of this paragraph, such as citizenship or residence of the dependent, are met. On the other hand, if the decree was issued in January 1949, no exemption with respect to the child would be allowable to the taxpayer for the taxable year 1948. Similarly, if the petition for adoption was denied in December 1948, because of the mental incapacity of the surviving natural parent to agree to such adoption, the taxpayer would be entitled to an exemption on behalf of the child for the taxable year 1948, provided the requirements of this paragraph are otherwise met. On the other hand, if such a petition was denied in January 1949, no exemption would be allowable to the taxpayer with respect to the child for the taxable year 1948."

PAR. 3. There is inserted immediately preceding § 39.22 (b) (13)–1 the following:

PUBLIC LAW 213, 83D CONGRESS
APPROVED AUGUST 7, 1953

• • • section 22 (b) (13) of the Internal Revenue Code (relating to exclusion from gross income of compensation of certain members of the Armed Forces) is hereby amended by striking out "January 1, 1954" wherever it appears therein and inserting in lieu thereof "January 1, 1955".

• • • • • •

PAR. 4. Section 39.22 (b) (13)–1 is amended as follows:

a. By striking from the heading and from the section the date "January 1,

1954" wherever it appears, and by inserting in lieu thereof "January 1, 1955".

b. By striking from the second sentence of paragraph (b) the parenthetical phrase "(including a year after 1953)" and by inserting in lieu thereof "(including a year after 1954)".

PAR. 5. There is inserted immediately preceding § 39.25–1 the following:

PUBLIC LAW 213, 83D CONGRESS
APPROVED AUGUST 7, 1953

* * * * *

SEC. 2. (a) That the third sentence of section 25 (b) (3) of the Internal Revenue Code, relating to the definition of dependent, is amended to read as follows: "For the purposes of determining whether any of the foregoing relationships exist (1) a legally adopted child of a person or (2) a child for which petition for adoption was filed by a person in the appropriate court and denied because of mental incapacity of surviving natural parent to agree to such adoption, shall be considered a child of such person by blood."

PAR. 6. Section 39.25–2 is amended as follows:

a. By inserting immediately preceding the first sentence of paragraph (e) the numeral "(1)".

b. By striking the sixth sentence of paragraph (e) (1), as so designated above, and by inserting in lieu thereof the following: "A legally adopted child of a person, or a child for which petition for adoption has been filed by a person in the appropriate court and denied because of the mental incapacity of the surviving natural parent to agree to such adoption, shall be considered to become a child of such person by blood as of the date on which the decree for adoption is issued, or the petition for adoption is denied because of the mental incapacity of the surviving natural parent to agree to such adoption. For the purposes of this section a decree of adoption includes an interlocutory decree of adoption, only if under the applicable State law the legal effect of such degree is to declare the child for all intents and purposes to be the child of the person so adopting. For example, during 1952 a calendar year taxpayer furnished the chief support of a child who had less than $600 of gross income for that year. A decree of adoption with respect to that child was issued in December 1952. The taxpayer is entitled to an exemption on behalf of the child for the taxable year 1952, provided the other requirements of this paragraph, such as citizenship or residence of the dependent, are met. On the other hand, if the decree was issued in January 1953, no exemption with respect to the child would be allowable to the taxpayer for the taxable year 1952. Similarly, if the petition for adoption was denied in December 1952, because of the mental incapacity of the surviving natural parent to agree to such adoption, the taxpayer would be entitled to an exemption on behalf of the child for the taxable year 1952, provided the requirements of this paragraph are otherwise met. On the other hand, if such a petition was denied in January 1953, no exemption would be allowable to the taxpayer with respect to the child for the taxable year 1952."

CANNED PEAS

FURTHER EXTENSION OF TIME FOR FILING COMMENTS WITH RESPECT TO U. S. STANDARDS FOR GRADES

Proposed revised United States Standards for Grades of Canned Peas were set forth in the notice which was published in the FEDERAL REGISTER of January 1, 1954 (19 F. R. 13).

In consideration of comments and suggestions received indicating the need for further study of the proposed changes, notice is hereby given of a further extension until February 1, 1955, of the period of time within which written data, views, and arguments may be submitted by interested parties for consideration in connection with the aforesaid proposed revision of the United States Standards for Grades of Canned Peas.

Dated: March 30, 1954.

TARIFFS AND SCHEDULES

FILING OF REDUCED RATE QUOTATIONS BY CARRIERS OF PROPERTY OR PERSONS AND CERTAIN PROCEDURAL MATTERS WITH RESPECT THERETO; EXTENSION OF DATE FOR FILING PROTESTS

MARCH 29, 1954.

Special rule or regulation governing filing of reduced rate quotations by carriers of property or persons under sections 6, 20 (1), 22, 217 (a), 217 (b), 220 (a), 306 (a), 306 (c), 313 (a), 405 (a), 405 (c), and 412 (a) of the Interstate Commerce Act, and certain procedural matters with respect thereto.

By notice of proposed rule-making, dated March 15, 1954 (published in the FEDERAL REGISTER as of March 24, 1954), which has been given the Ex Parte number and short title designated above, it was provided that protests against the adoption of the rule and requests for a public hearing as specified in the notice, shall be filed with the Commission within 30 days after the date of such publication in the FEDERAL REGISTER (April 23, 1954).

By joint letter dated March 25, 1954, Chairman E. V. Hill, Traffic Executive Association-Eastern Railroads, Chairman J. G. Kerr, Southern Freight Association, and Chairman H. C. Barron, Executive Committee-Western Traffic Association, request an extension of time to May 23, 1954, for filing such protests and requests to afford additional time for group meetings of the railroads concerned to consider the proposed rule and to give consideration to the matters involved.

Upon consideration of the request, the time for filing protests against the adoption of the proposed rule and for requests for a public hearing as specified in the notice is hereby extended to May 23, 1954.

[SEAL] GEORGE W. LAIRD,
Secretary.

FEDERAL COMMUNICATIONS COMMISSION

[47 CFR Part 3]

[Docket No. 10905]

TELEVISION BROADCAST STATIONS

NOTICE OF EXTENSION OF TIME FOR FILING COMMENTS WITH RESPECT TO TABLE OF ASSIGNMENTS

In the matter of amendment of § 3.606 *Table of assignments*, rules governing television broadcast stations, Docket No. 10905

1. On February 11, 1954, the Commission issued a notice of proposed rule making (FCC 54–184) in the above-entitled matter which specified that comments were to be filed on or before March 15, 1954. Mr. Ed Craney, on behalf of the Pacific Northwest Broadcasters, has requested an extension of time for filing comments until May 1, 1954. Mr. Craney states that investigations are being conducted concerning the suitability of sites for serving the general area and requests that this information be filed before the Commission makes a decision in this matter.

2. It is our view that no showing has been made that warrants an extension of time for filing comments beyond April 12, 1954. Accordingly, notice is hereby given that the time for filing comments in the above-entitled matter is extended to April 12, 1954, and the time for filing replies to these comments is extended to April 22, 1954.

Adopted: March 29, 1954.

Released: March 31, 1954.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
Secretary.

SECURITIES AND EXCHANGE COMMISSION

[17 CFR Parts 275, 279]

FORM OF APPLICATION FOR REGISTRATION AS INVESTMENT ADVISER

NOTICE OF PROPOSED RULE MAKING

Notice is hereby given that the Securities and Exchange Commission has under consideration a proposal to adopt Form ADV as the form of application for registration as investment adviser, as the form to amend such an application, and to amend §§ 275.203–1 and 275.204–1 (Rules R-203–1 and R-204–1), applicable thereto. The proposal also contemplates the rescission of Forms 1-R, 2-R, and 3-R (17 CFR 279.1, 279.2, and 279.3) now used in connection with investment adviser registration, and § 275.203–2 (Rule R-203–2). The action would be taken pursuant to the Investment Advisers Act of 1940, particularly sections 203 (c), and 211 (a) thereof.

The above proposals are being considered by the Commission in connection with its comprehensive review of its rules, regulations, forms, and procedures in order to eliminate duplication and to simplify its requirements wherever practicable without prejudice to the public interest or the protection of investors.

Under existing requirements the principal form of application for registration as an investment adviser is Form 1-R. This is a 20-page application requiring much information which the Commission no longer considers necessary although it may have served other administrative purposes at one time or another.

As will be seen from the copy of the proposed Form ADV [1] attached hereto it would be a 6-page form containing 15 items generally limited to information concerning the identity of the registrant, its principals, and other person exercising a controlling influence over it; the business and professional connections of all such persons for the past 10 years; specific information with respect to whether the registrant or any of the persons mentioned is subject to any disqualification under section 203 (d) of the act; and information concerning the general nature and scope of the investment adviser's business.

WAYS IN WHICH FORM ADV WOULD BE USED

Form ADV would be used for the following purposes:

1. *As an application for registration of an investment adviser.* For this purpose, category A on page 1 of the form would be checked. The instructions under category A provide that if (1) the investment adviser filing an application is a partnership succeeding to and continuing the business of another investment-adviser partnership registered when the application is filed and (2) the predecessor partnership has filed its application (or supplement) on Form ADV, then the registrant need furnish only such information as is necessary to bring the information previously filed by the predecessor up to date.

2. *To amend an application for registration.* When the form is used for this purpose category B would be checked. The instructions specifically state that when the form is used for this purpose only the corrected information should be furnished.

3. *As a supplement to an application for registration filed on any other form.* There are now approximately 1,100 registered investment advisers who have furnished the information required by Form 1-R. Under existing rules this information must be kept current by semiannual reports. It is felt that when a new simplified form is adopted, all investment advisers (those previously registered and those who become registered on the new form) should be subject to the same simplified requirements.

It appears that the most reasonable and practical way to accomplish this is to provide that all investment advisers whose application has been filed on any form other than Form ADV shall file, as a "supplement" to such application, the information required by Form ADV so that thereafter amendments need apply only to the information in Form ADV. This supplement would have to be filed when any information in the old application becomes inaccurate, but in any event not later than December 31, 1954. Once the investment adviser has filed Form ADV, he would have to file only such amendments as are necessary to keep current the limited information in Form ADV.

PROPOSED RULE REVISIONS

The proposal contemplates that the following rules would be adopted as "amendments" to the existing rules of the same number.

§ 275.203–1 *Application for registration of investment adviser.* (a) An application for registration of an investment adviser filed pursuant to section 203 (c) or 203 (f) of the act, shall be filed on Form ADV in accordance with the instructions contained therein.

(b) A Form ADV filed by an investment adviser partnership which is not registered when such form is filed and which succeeds to and continues the business of a predecessor partnership registered as an investment adviser shall be deemed to be an application for registration even though designated as an amendment if it is filed to reflect the changes in the partnership and to furnish required information concerning any new partners.

§ 275.204–1 *Supplement and amendments to applications*—(a) *Supplement.* Every investment adviser whose registration is effective on July 1, 1954, or whose application for registration is pending on that date, shall file a supplement on Form ADV not later than December 31, 1954: *Provided, however,* That if any information in the application for registration, as amended, is or becomes inaccurate for any reason prior to December 31, 1954, such supplement on Form ADV shall be filed when such information is or becomes inaccurate.

(b) *Amendment.* If the information contained in any application filed on Form ADV for registration of an investment adviser, or in the supplement filed on Form ADV required under paragraph (a) of this section, becomes inaccurate for any reason, the investment adviser shall promptly file an amendment on Form ADV correcting such information.

(c) *Report.* Every supplement and amendment filed by a registered investment adviser under this section shall constitute a "report" within the meaning of section 207 of the act.

The above rules will be understood from the preceding discussion. Some further explanation should be made with respect to § 275.203–1 (b) (Rule R-203–1 (b)) however. Sometimes it is difficult to determine under applicable local law whether the death, withdrawal or admission of a partner effects a dissolution of the old partnership, or sometimes a change of partners technically effects a dissolution but the firm inadvertently files an amendment to report the change when it should file a new application. Paragraph (b) of the section should eliminate the effect of such mistakes. Under the proposed rule, if the form is filed to reflect the change of partners and to furnish the information required concerning any new partners, the firm will have the same protection whether the form is designated as an amendment or an application.

The present § 275.203–2 (Rule R-203–2) would be rescinded, but § 275.203–3 (Rule R-203–3) which provides for withdrawal from registration would stand without modification.

The Commission invites comments and suggestions on these proposals from all interested persons. Comments and suggestions shpuld be submitted in writing to the Secretary, Securities and Exchange Commission, 425 Second Street NW., Washington 25, D. C., on or before May 10, 1954. Unless the person submitting any such comments or suggestions requests in writing that they be held confidential, they will be public records available for public inspection.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
Secretary.

MARCH 31, 1954.

[1] Filed as part of the original document.

[17 CFR Part 275]

CONSENT TO SERVICE OF PROCESS TO BE FURNISHED BY NON-RESIDENT INVESTMENT ADVISERS AND BY NON-RESIDENT GENERAL PARTNERS OF MANAGING AGENTS OF INVESTMENT ADVISERS

NOTICE OF PROPOSED RULE MAKING

Notice is hereby given that the Securities and Exchange Commission has under consideration a proposal to adopt a rule which would require each nonresident investment adviser registered or applying for registration and each nonresident general partner or "managing agent" of an unincorporated investment adviser registered or applying for registration to file a written irrevocable consent and power of attorney appointing the Commission as agent to receive process, pleadings and other papers in any civil suit or action, where the cause of action (1) accrues on or after the effective date of the rule, (2) arises out of any activity, in any place subject to the jurisdiction of the United States, occurring in connection with the conduct of business of an investment adviser and (3) is founded, directly or indirectly, upon the provisions of the Investment Advisers Act of 1940, the Securities Act of 1933, the Securities Exchange Act of 1934, the Trust Indenture Act of 1939, the Investment Company Act of 1940, or any rule or regulation under any of said acts.

The rule would provide that service shall be made on the Commission by delivering the requisite number of copies to the Secretary of the Commission or to such other person as the Commission may authorize to act in its behalf, and it would also provide that a copy shall be forwarded by the Commission promptly to the appropriate defendants at their last address of record filed with the Commission.

Applicable provisions of the various acts administered by the Commission authorize it to institute injunctive actions in cases involving violations of the respective acts, and violations of provisions of these acts may result in civil liabilities. The statutes contain broad venue provisions for suits or actions brought to enforce liabilities or duties created thereunder and the service of process provisions are also broad. As a practical matter, however, rights arising because of violations of these acts may prove unenforceable against non-resident investment advisers or non-resident partners who should be joined as parties where it is impossible to obtain service upon such persons. The proposed rule is intended to give full effect to the provisions of the acts mentioned and to preserve for and afford to the Commission and others the same opportunity to enforce rights or duties against such persons as they have in the case of resident investment advisers and resident partners of such firms.

The proposed rule would read as follows:

§ 275.— *Consent to service of process to be furnished by non-resident investment advisers and by non-resident general partners or managing agents of investment advisers.* (a) Each non-resident investment adviser registered or applying for registration pursuant to section 203 (c) of the Investment Advisers Act of 1940, each non-resident general partner of an investment adviser partnership which is registered or applying for registration, and each non-resident managing agent of any other unincorporated investment adviser which is registered or applying for registration, shall furnish to the Commission, in a form prescribed by or acceptable to it, a written irrevocable consent and power of attorney which (i) designates the Securities and Exchange Commission as an agent upon whom may be served any process, pleadings, or other papers in any civil suit or action brought in any appropriate court in any place subject to the jurisdiction of the United States, where the cause of action (i) accrues on or after the effective date of this section, (ii) arises out of any activity, in any place subject to the jurisdiction of the United States, occurring in connection with the conduct of business of an investment adviser, and (iii) is founded, directly or indirectly, upon the provisions of the Investment Advisers Act of 1940, the Securities Act of 1933, the Securities Exchange Act of 1934, the Trust Indenture Act of 1939, the Investment Company Act of 1940, or any rule or regulation under any of said Acts; and (2) stipulates and agrees that any such civil suit or action may be commenced by the service of process upon the Commission and the forwarding of a copy thereof as provided in paragraph (c) of this section, and that the service as aforesaid of any such process, pleadings, or other papers upon the Commission shall be taken and held in all courts to be as valid and binding as if due personal service thereof had been made.

(b) The required consent and power of attorney shall be furnished to the Commission within the following period of time:

(1) Each non-resident investment adviser registered at the time this section become effective, and each non-resident general partner or managing agent of an unincorporated investment adviser registered at the time this section becomes effective, shall furnish such consent and power of attorney within 60 after such date:

(2) Each investment adviser applying for registration after the effective date of this section shall furnish, at the time of filing such application, all the consents and powers of attorney required to be furnished by such investment adviser and by each general partner or managing agent thereof: *Provided, however,* That where an application for registration of an investment adviser is pending at the time this rule becomes effective such consents and powers of attorney shall be furnished within 30 days after this section becomes effective.

(3) Each investment adviser registered or applying for registration who or which becomes a non-resident investment adviser after the effective date of this section, and each general partner or managing agent, of an unincorporated investment adviser registered or applying for registration, who becomes a non-resident after the effective date of this section shall furnish such consent and power of attorney within 30 days thereafter.

(c) Service of any process, pleadings or other papers on the Commission under this section shall be made by delivering the requisite number of copies thereof to the Secretary of the Commission or to such other person as the Commission may authorize to act in its behalf. Whenever any process, pleadings or other papers as aforesaid are served upon the Commission, it shall promptly forward a copy thereof by registered mail to the appropriate defendants at their last address of record filed with the Commission. The Commission shall be furnished a sufficient number of copies for such purpose, and one copy for its file

(d) For purposes of this section the following definitions shall apply:

(1) The term "investment adviser" shall have the meaning set out in section 202 (a) (11) of the Investment Advisers Act of 1940.

(2) The term "managing agent" shall mean any person, including a trustee, who directs or manages or who participates in the directing or managing of the affairs of any unincorporated organization or association which is not a partnership.

(3) The term "non-resident investment adviser" shall mean (i) in the case of an individual, one who resides in or has his principal place of business in any place not subject to the jurisdiction of the United States; (ii) in the case of a corporation, one incorporated in or having its principal place of business in any place not subject to the jurisdiction of the United States; (iii) in the case of a partnership or other unincorporated organization or association, one having its principal place of business in any place not subject to the jurisdiction of the United States.

(4) A general partner or managing agent of an investment adviser shall be deemed to be a nonresident if he resides in any place not subject to the jurisdiction of the United States.

The rule would be adopted by the Commission pursuant to authority conferred upon it by the Investment Advisers Act of 1940, particularly section 211 (a) thereof, the Securities Exchange Act of 1934, particularly section 23 (a) thereof, the Securities Act of 1933, particularly section 19 (a) thereof, the Trust Indenture Act of 1939, particularly section 319 (a) thereof, and the Investment Company Act of 1940, particularly section 38 (a) thereof. If this rule is adopted, the forms for consent to service by nonresident advisers will be substantially the same as the forms prescribed for consent to service by nonresident brokers and dealers.

The Commission invites comments and suggestions on the proposed regulation from all interested persons. Comments and suggestions should be submitted in writing to the Secretary, Securities and Exchange Commission, 425 Second Street NW., Washington 25, D. C., on or before May 10, 1954. Unless the person submitting any such comments and suggestions requests in writing that they be held confidential, they will be public records available for public inspection.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
Secretary.

MARCH 31, 1954.

NOTICES

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

ALASKA

RESTORATION ORDER NO. 4, UNDER FEDERAL POWER ACT

MARCH 26, 1954.

Pursuant to the following-listed determination of the Federal Power Commission, and in accordance with section 2.23 (a) (4) of Order No. 427, approved by the Secretary of the Interior August 18, 1950 (15 F. R. 5641), it is ordered as follows:

Subject to valid existing rights, the lands in Alaska, hereinafter described, so far as they are withdrawn for power purposes, are hereby opened to disposition under the public land laws as provided below, subject to the provisions of section 24 of the Federal Power Act of June 10, 1920 (41 Stat. 1075; 16 U. S. C. 818) as amended, and subject to the stipulation that the United States, its permittees or licensees shall not be liable for any damages to improvements or structures placed thereon resulting from the construction, operation or maintenance of any power project works authorized by the United States.

Determinations No.	Dates and types of withdrawals	Type of restoration
A-[illegible] Fred A. Henton. A-[illegible] Chester D. Moore. A-[illegible] Harold W. Wilson et al.	Power Site Reserve No. 119 of Dec. 9th, 1929. Power Site Classification No. 409 of June 29, 1950.	Under the applicable public land laws.

Land Description, Seward Meridian, U. S. Survey No. 3037, U. S. Survey No. 2527, Lots 2 and 3, U. S. Survey No. 2523, Lot 2, "together with all other land not specifically described but which remains withdrawn for Project No. 119, or reserved in Power Site Classification No. 409 and as to those lands lying between mean low-water stage in Kenai Lake and an elevation 6 feet above said mean low-water stage."

This order shall not become effective until 10:00 a. m. on the 35th day after the date of this order. At the hour and date specified above the said lands shall, subject to valid existing rights and the provisions of existing withdrawals, become subject to application, petition, location, or selection as follows:

(a) *Ninety-one day period for preference-right filings.* For a period of 91 days, commencing at the hour and on the day specified above, the public lands affected by this notice shall be subject only to (1) application under the homestead (or where surveyed the Small Tract Act of June 1, 1938 (52 Stat. 609, 43 U. S. C. 268a) as amended), home or headquarters site under the act of May 26, 1934 (48 Stat. 809, 48 U. S. C. 461), by qualified veterans of World War II and other qualified persons entitled to preference under the act of September 27, 1944 (58 Stat. 747, 43 U. S. C. 279–284), as amended, subject to the requirements of applicable law, and (2) applications under any applicable public land law, based on prior existing valid settlement rights and preference rights conferred by existing laws or equitable claims subject to allowance and confirmation. Applications under subdivision (1) of this paragraph shall be subject to applications and claims of the classes described in subdivision (2) of this paragraph. All applications filed under the paragraph either at or before 10:00 a. m. on the 35th day after the date of this notice shall be treated as though filed simultaneously at that time. All applications filed under this paragraph after 10:00 a. m. on the said 35th day shall be considered in the order of filing.

(b) *Date for non-preference-right filings.* Commencing at 10:00 a. m. on the 126th day after the date of this notice, any lands remaining unappropriated shall become subject to such application, petition, location, selection, or other appropriation by the public generally as may be authorized by the public-land laws. All such applications filed either at or before 10:00 a. m. on the 126th day after the date of this notice, shall be treated as though filed simultaneously at the hour specified on such 126th day. All applications filed thereafter shall be considered in the order of filing.

A veteran shall accompany his application with a complete photostatic, or other copy (both sides), of his certificate of honorable discharge, or of an official document of his branch of the service which shows clearly his honorable discharge as defined in § 181.36 of Title 43 of the Code of Federal Regulations, or constitutes evidence of other facts upon which the claim for preference is based and which shows clearly the period of service. Other persons claiming credit for service of veterans must furnish like proof in support of their claims. Persons asserting preference rights, through settlement or otherwise, and those having equitable claims, shall accompany their applications by duly corroborated statement in support thereof, setting forth in detail all facts relevant to their claims.

Applications for these lands, which shall be filed in the Land Office at Anchorage, Alaska, shall be acted upon in accordance with the regulations contained in § 295.8 of Title 43 of the Code of Federal Regulations to the extent such regulations are applicable. Applications under the homestead and homesite laws shall be governed by the regulations contained in Parts 64, 65 and 166 of Title 43 of the Code of Federal Regulations.

Inquiries concerning the lands shall be addressed to the Manager, Land Office, Anchorage, Alaska.

LOWELL M. PUCKETT,
Regional Administrator.

DEPARTMENT OF COMMERCE

Federal Maritime Board

[Docket No. 754]

MEMBER LINES OF NORTH ATLANTIC CONTINENTAL FREIGHT CONFERENCE AND ISBRANDTSEN CO., INC.

NOTICE OF HEARING

In the matter of the statement of the member lines of the North Atlantic Continental Freight Conference filed under General Order 76.

At a session of the Federal Maritime Board, held at its office in Washington, D. C., on the 30th day of March A. D. 1954, a certain order was entered in the above entitled cause which reads as follows:

It appearing, that pursuant to § 236.3 of General Order 76 (17 F. R. 10175, Nov. 1, 1952) the members of the North Atlantic Continental Freight Conference on February 25, 1954, filed with the Federal Maritime Board a statement alleging that the Conference proposed the initiatipn in the trade from United States North Atlantic ports to ports in Belgium, Holland, and Germany of certain contract /non-contract rates to become effective April 1, 1954, and stating that the amount of the spread or differential was 10 percent below tariff commodity rates, and stating the reasons for the use of contract /non-contract rates in the particular trade involved, and the basis for the spread or differential between such rates, accompanied by a copy of the form of Merchants' Rate Agreement to be used in connection with the proposed contract rates; and

It further appearing, that a notice of the filing of such statement by the Conference was published in the FEDERAL REGISTER on March 3, 1954 (19 F. R. 1189), pursuant to § 236.6 of General Order 76; and

It further appearing, that Isbrandtsen Company, Inc. filed Comments with supporting affidavit alleging, among other things, that the Statement of the Conference does not comply with the requirements of General Order 76, and that the institution of the proposed contract/noncontract rates in said trade would cause Isbrandtsen Company, Inc. irreparable damage, and requesting a hearing on said Comments, and postponement of initiation of said contract, noncontract rates pending such hearing and pending completion of court review of the Report of the Board dated January 6, 1954, in Docket No. 724, and pending hearing and determination of the Board in Docket No. 725, and until after the filing by the Conference and approval by the Board under section 15 of the Shipping Act, 1916, as amended, of the proposed contract/noncontract rates; and

It further appearing, that the Department of Justice filed Objections and the Secretary of Agriculture and counsel for the Board filed Comments with respect to the proposed rates; and

The Board having heard oral argument from counsel for the Conference

and the various parties above mentioned with respect to the requests of Isbrandtsen and other parties that the Board direct the Conference not to initiate the proposed contract/noncontract rates on April 1, 1954, and the Board having considered the foregoing Statement, Comments, and all papers and documents relating thereto, and the argument of counsel for the several parties; and

It appearing, that there is doubt as to whether aspects of the contract, noncontract rates, other than the amount of the proposed spread or differential between said rates, may be unjustly discriminatory or otherwise in violation of the Shipping Act, 1916, as amended,

It is ordered, That the North Atlantic Continental Freight Conference hold its proposed contract/non-contract rates in abeyance until the Board's further direction and file assurance of compliance herewith with the Board not later than the close of business April 1, 1954; and

It is further ordered, That the requests of the Department of Justice and the Secretary of Agriculture and of Isbrandtsen Company, Inc. for hearing on such objections and comments be granted, and

It is further ordered, That such hearing be held together with the hearing set down in Docket No. 725.

Dated: March 31, 1954.

By order of the Federal Maritime Board.

[SEAL] GEO. A. VIEHMANN,
Assistant Secretary.

SECURITIES AND EXCHANGE COMMISSION

[File No. 70-3216]

MIDDLE SOUTH UTILITIES, INC., AND ARKANSAS POWER & LIGHT CO.

ORDER REGARDING PROPOSED SALE OF SECURITIES BY SUBSIDIARY TO PARENT HOLDING COMPANY

MARCH 30, 1954.

Middle South Utilities, Inc. ("Middle South"), a registered holding company, and its electric-utility subsidiary, Arkansas Power & Light Company ("Arkansas"), having filed with this Commission a joint application-declaration pursuant to the Public Utility Holding Company Act of 1935 ("act"), particularly sections 6 (b), 9 (a), 10 and 12 (f) thereof and Rules U-23 and U-43 thereunder with respect to proposed transactions, which are summarized as follows:

Arkansas has authorized 5,000,000 shares of Common Stock, of which 4,420,000 shares, having a par value of $12.50 per share, are outstanding. All of such outstanding shares are owned by Middle South. Arkansas proposes to issue and sell to Middle South, and Middle South proposes to acquire, an aggregate of 240,000 additional shares of Arkansas' said Common Stock, the purchase price to be the par value of such stock. The aggregate purchase price for such 240,000 shares of Common Stock will be $3,000,000 (the effect of such transaction being to increase the cash account of Arkansas by $3,000,000 and its common capital stock account by $3,000,000) and the cash so received by Arkansas will be employed by it primarily for the purpose of financing in part its business as a public utility, as indicated below.

Arkansas is now actively engaged in an extensive program for the acquisition and construction of new facilities and for the extension and improvement of its present facilities. The present and estimated future demands for service by Arkansas in its service area indicate that such program will require funds in excess of treasury funds available for the purpose. The $3,000,000 to be provided by the issuance and sale of said Common Stock will not provide all the funds needed to complete such program. Such additional funds as may be required will be raised through the sale of such other securities as may be appropriate, which will be the subject of further applications in connection with its financing program.

The Arkansas Public Service Commission has issued an order authorizing the issuance and delivery to Middle South of the 240,000 shares of Common Stock.

Middle South and Arkansas have requested that the Commission's order herein become effective forthwith upon issuance. No special or separate expenses are anticipated in connection with the proposed transactions excepting taxes and minor incidental expenses.

Due notice having been given of the filing of said joint application-declaration, and a hearing not having been requested of or ordered by the Commission; and the Commission finding that the applicable provisions of the act and rules promulgated thereunder are satisfied and that no adverse findings are necessary, and deeming it appropriate in the public interest and in the interest of investors and consumers that said application-declaration should be granted and be permitted to become effective forthwith:

It is ordered, Pursuant to Rule U-23 and the applicable provisions of the act, that said joint application-declaration be, and the same hereby is, granted and permitted to become effective forthwith, subject to the terms and conditions prescribed in Rule U-24.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
Secretary.

[F. R. Doc. 54-2411; Filed, Apr. 2, 1954; 8:46 a. m.]

[File No. 70-3224]

MARIETTA ELECTRIC CO. AND MONONGAHELA POWER CO.

NOTICE OF FILING OF APPLICATION-DECLARATION FOR ISSUE AND SALE OF COMMON STOCK BY SUBSIDIARY AND ACQUISITION THEREOF BY PARENT

MARCH 30, 1954.

Notice is hereby given that Monongahela Power Company ("Monongahela"), a public-utility subsidiary of West Penn Electric Company, a registered holding company, and The Marietta Electric Company ("Marietta"), a public-utility subsidiary of Monongahela, have filed with this Commission a joint application-declaration pursuant to the Public Utility Holding Company Act of 1935 ("act") and have designated sections 6, 7, 9 (a), 10 and 12 (f) thereof and Rules U-43 and U-50 (a) (4) of the rules and regulations promulgated thereunder as being applicable to proposed transactions which are summarized as follows:

Marietta proposes to issue and sell 4,500 shares of its authorized and unissued capital stock, par value $100 per share, and Monongahela proposes to acquire such shares for a cash consideration of $450,000, the aggregate par value thereof.

Monongahela now owns all of the outstanding capital stock of Marietta, consisting of 8,000 shares of capital stock, par value $100 per share. In addition, Marietta is indebted to Monongahela for open account advances in the amount of $200,000. The outstanding shares of capital stock of Marietta are pledged under the Indenture of Monongahela dated as of August 1, 1945, as supplemented, securing its First Mortgage Bonds. The additional shares of capital stock of Marietta proposed to be acquired by Monongahela will be pledged under said Indenture in accordance with the requirements thereof.

Marietta proposes to use the proceeds from the sale of such additional shares of capital stock to pay its indebtedness to Monongahela and for the construction, completion, extension or improvement of its electric facilities in Ohio.

It is stated that the sale of said stock by Marietta is subject to the jurisdiction of The Public Utilities Commission of Ohio and that the acquisition thereof by Monongahela is subject to the jurisdiction of the Public Service Commission of West Virginia. The estimated expenses involved in the proposed transactions will be nominal, consisting chiefly of United States Documentary Tax Stamps and miscellaneous expenses estimated in total at less than $900.

Applicants-declarants request that the Commission's order herein become effective upon issuance.

Notice is further given that any interested person may, not later than April 14, 1954, at 5:30 p. m., e. s. t., request the Commission in writing that a hearing be held on such matter, stating the reasons for such request, the nature of his interest and the issues of fact or law raised by said filing which he desires to controvert, or may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, 425 Second Street NW., Washington 25, D. C. At any time after April 14, 1954, such joint application-declaration as filed or as amended, may be granted, or permitted to become effective, as provided in Rule U-23 of the rules and regulations promulgated under the act or the Commission may exempt such transactions

as provided in Rules U-20 (a) and U-100 thereof.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
Secretary.

[F. R. Doc. 54-2408; Filed, Apr. 2, 1954; 8:45 a. m.]

[File No. 70-3225]

COLUMBIA GAS SYSTEM, INC., AND CENTRAL KENTUCKY NATURAL GAS CO.

NOTICE OF FILING OF APPLICATION-DECLARATION REGARDING ISSUANCE AND SALE OF COMMON STOCK AND INSTALLMENT NOTES BY SUBSIDIARY AND ACQUISITION THEREOF BY PARENT

MARCH 30, 1954.

Notice is hereby given that The Columbia Gas System, Inc. ("Columbia"), a registered holding company, and one of its wholly owned subsidiary companies, Central Kentucky Natural Gas Company ("Central Kentucky"), have filed a joint application-declaration pursuant to the Public Utility Holding Company Act of 1935 ("act"), designating sections 6 (b), 9 and 10 of the act and Rule U-50 (a) (3) as applicable to the proposed transactions which are summarized as follows:

Central Kentucky proposes to increase its authorized common stock, $25 par value, from 300,000 to 360,000 shares and to issue and sell to Columbia 37,861 shares of such stock at a price equivalent to the par value thereof.

Central Kentucky also proposes to issue and sell to Columbia $1,053,475 principal amount of __ percent Installment Promissory Notes at a price equivalent to the principal amount of such notes. The notes are to be registered and will be payable in 25 equal annual installments on February 15 of each of the years 1956 to 1980 inclusive. Interest on the unpaid principal mount of the notes is to be payable semi-annually on February 15 and August 15 at the rate of 4 percent per annum or such lower rate, being a multiple of ⅛ of 1 percent, as shall be not less than the "cost of money" to Columbia in respect of its next sale of Senior Debentures. It is Columbia's present intention to sell Senior Debentures later this year and during the interim period the proposed installment notes will carry interest at the rate of 4 percent per anum subject, however, to an adjustment in the rate following the sale of Senior Debentures.

It is anticipated that Central Kentucky will first issue and sell its common stock when and as funds are required by it up to a maximum amount of $946,525 and thereafter Central Kentucky will sell its installment notes to Columbia up to a maximum amount of $1,053,475. However, none of the common stock or installment notes will be sold or purchased subsequent to March 31, 1955.

According to the filing, the financing is for the purpose of supplying Central Kentucky with funds which are urgently needed in connection with its 1954 construction program involving estimated expenditures of $2,085,200 for transmission and distribution lines, compressor stations, and other facilities.

The estimated fees and expenses aggregate $2,650 of which $2,200 is attributable to the Federal original issue tax.

Central Kentucky has applied to the Public Service Commission of Kentucky for approval of the proposed issuance and sale of common stock and notes.

Notice is further given that any interested person may, not later than April 14, 1954, at 5:30 p. m., request the Commission in writing that a hearing be held on such matter, stating the reasons for such request, the nature of his interest and the issues of fact or law raised by said filing which he desires to controvert, or may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, 425 Second Street NW., Washington 25, D. C. At any time after April 14, 1954, said joint application-declaration, as filed or as amended, may be granted and permitted to become effective, as provided in Rule U-23 of the rules and regulations promulgated under the Act or the Commission may exempt such transactions as provided in Rules U-20 (a) and U-100 thereof.

By the Commission.

[File No. 70-3226]

WEST PENN POWER CO.

NOTICE OF FILING REGARDING ISSUE AND SALE OF FIRST MORTGAGE BONDS AT COMPETITIVE BIDDING

MARCH 30, 1954.

Notice is hereby given that West Penn Power Company, a registered holding company and a public-utility company and a subsidiary company of The West Penn Electric Company, also a registered holding company, has filed with this Commission an application pursuant to the Public Utility Holding Company Act of 1935 ("act"), designating the third sentence of section 6 (b) of the act, and Rule U-50 promulgated thereunder, as applicable to the proposed transactions, which are summarized as follows:

The Company proposes to issue and sell for cash after competitive bidding pursuant to Rule U-50, $12,000,000 principal amount of its First Mortgage Bonds, Series P.

The net proceeds from the sale of the Series P Bonds are to be used by the Company for the construction of property additions and improvements.

The Series P Bonds are to be issued under the Indenture dated March 1, 1916, as amended and supplemented, between the Company and The Chase National Bank of the City of New York, as Trustee, and an indenture supplemental thereto to be dated as of April 1, 1954; are to be dated as of March 1, 1916 (as required by the Indenture); and are to mature on April 1, 1984. The price to the Company for the bonds (which shall be not less than 100 percent nor more than 102¾ percent of the principal amount thereof) and the coupon rate (which shall be a multiple of ¼ percent will be determined by the competitive bidding.

The application states that the issue and sale of the bonds must be authorized by the Pennsylvania Public Utility Commission, the State commission of the State in which applicant is organized and doing business.

Notice is further given that any interested person may, not later than April 12, 1954, at 5:30 p. m., e. s. t., request the Commission in writing that a hearing be held on such matter, stating the reasons for such request, the nature of his interest and the issues of fact or law raised by said filing which he desires to controvert, or may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, 425 Second Street NW., Washington 25, D. C. At any time after April 12, 1954, such application, as filed or as amended, may be permitted to become effective, as provided in Rule U-23 of the rules and regulations promulgated under the act or the Commission may exempt such transactions as provided in Rules U-20 (a) and U-100 thereof.

By the Commission.

FEDERAL COMMUNICATIONS COMMISSION

[Docket Nos. 10800, 10801]

BEACHVIEW BROADCASTING CORP. AND PORTSMOUTH RADIO CORP.

ORDER DELETING ISSUE

In re applications of Beachview Broadcasting Corporation, Norfolk, Virginia, Docket No. 10800, File No. BPCT-1605; Portsmouth Radio Corporation, Portsmouth, Virginia, Docket No. 10801, File No. BPCT-1750; for construction permits for new commercial television broadcast stations.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 26th day of March 1954;

The Commission having under consideration a petition by Beachview Broadcasting Corporation filed December 24, 1953 seeking the deletion of an issue with respect to its technical qualifications, and a statement in support thereof filed on December 30, 1953 by the Chief of the Broadcast Bureau;

It appearing that in its order of December 9, 1953, designating the above-captioned applications for hearing, the Commission in Issue No. 6 therein proposed inquiry into whether the installation of the station proposed by Beachview would constitute a hazard to air navigation; and

It further appearing that in the instant petition Beachview Broadcasting Corporation seeks the deletion of the above-described issue and in support thereof has submitted a letter dated December 3, 1953 from the New York Regional Airspace Subcommittee of the Air Coordinating Committee to the effect that Beachview's proposed antenna will not constitute a hazard to air navigation and the Antenna Survey Branch of the Commission having been in agreement and the Commission having determined that the antenna as proposed by Beachview will not constitute a hazard to air navigation provided it is properly marked and lighted;

Accordingly, it is ordered, That the above-entitled petition by Beachview Broadcasting Corporation filed December 24, 1953 is granted: *And it is further ordered*, That Issue No. 6 of the Commission's order of December 9, 1953 in the above-entitled proceeding is deleted.

Released: March 30, 1954.

INTERSTATE COMMERCE COMMISSION

[4th Sec. Application 29077]

VARIOUS COMMODITIES FROM SOUTHERN TERRITORY TO SOUTHERN AND OFFICIAL TERRITORIES

APPLICATION FOR RELIEF

MARCH 31, 1954.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: R. E. Boyle, Jr., Agent, for carriers parties to schedules shown in exhibit A of the application, pursuant to fourth-section order No. 17220.

Commodities involved: Various commodities, carloads.

From: Points in southern territory.

To: Points in southern and official territories.

Grounds for relief: Competition with rail carriers and circuitous routes.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission.

FEDERAL REGISTER

VOLUME 19 NUMBER 66

Washington, Tuesday, April 6, 1954

TITLE 3—THE PRESIDENT

PROCLAMATION 3049

CANCER CONTROL MONTH, 1954

BY THE PRESIDENT OF THE UNITED STATES OF AMERICA

A PROCLAMATION

WHEREAS the disease of cancer takes the lives of nearly a quarter of a million of our citizens every year, many of whom are at the peak of their achievements; and

WHEREAS a democratic Nation which cherishes the life of the individual does not stand idly by in the face of such a challenge; and

WHEREAS the will of this Nation to conquer cancer has been well attested by the work of public and private agencies alike—work which must continue to enlist support and participation by all of us if this disease is to be controlled; and

WHEREAS the Congress, by a joint resolution approved March 28, 1938 (52 Stat. 148), authorized and requested the President to issue annually a proclamation setting apart the month of April of each year as Cancer Control Month:

NOW, THEREFORE, I, DWIGHT D. EISENHOWER, President of the United States of America, do hereby proclaim the month of April 1954 as Cancer Control Month; and I invite the Governors of the States, Territories, and possessions of the United States to issue similar proclamations. I also urge the medical profession, the press, the radio, television, and motion-picture industries, and all interested agencies and individuals, to unite during the appointed month in public dedication to a program for the control of cancer.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the Seal of the United States of America to be affixed.

DONE at the City of Washington this 31st day of March in the year of our Lord nineteen hundred and [SEAL] fifty-four, and of the Independence of the United States of America the one hundred and seventy-eighth.

DWIGHT D. EISENHOWER

By the President:

JOHN FOSTER DULLES,
Secretary of State.

TITLE 14—CIVIL AVIATION

Chapter I—Civil Aeronautics Board

[Reg. No. SR-403]

PART 4b—AIRPLANE AIRWORTHINESS; TRANSPORT CATEGORIES

PART 42—IRREGULAR AIR CARRIER AND OFF-ROUTE RULES

SPECIAL CIVIL AIR REGULATION; CERTIFICATION AND OPERATION OF CERTAIN AIRPLANES FOR DEPARTMENT OF INTERIOR IN TRUST TERRITORY OF PACIFIC ISLANDS

Adopted by the Civil Aeronautics Board at its office in Washington, D. C., on the 31st day of March 1954.

Special Civil Air Regulations SR-364 and SR-364A now permit Transocean Air Lines to operate PBY-5A airplanes in the Trust Territory of the Pacific Islands, pursuant to a contract with the Department of the Interior, at a maximum allowable weight of 30,000 pounds. This weight was permitted because of the unique operation being conducted, and the fact that all take-offs and landings are at sea level airports or seadromes and over routes which have few, if any, physical obstructions.

As a result of two and one-half years of continuous use and recurrent landings in salt water, the PBY's now require a major and extensive overhaul if they are to be continued in active service. In order to avoid the time and expense involved in such a program, the Department of the Interior has obtained three Grumman SA-16A airplanes from the

Air Force as replacements for the PBY's. SA–16A airplanes are of more modern design and construction than the PBY–5A's presently operated and appear to afford an over-all increase in the safety of this operation.

The Department of the Interior proposes that these airplanes be certificated in general in accordance with Part 4b and operated in accordance with Part 42 of the Civil Air Regulations. The Department has also stated that it is not practical to operate these airplanes at less than 29,000 pounds maximum allowable take-off weight and has requested the Board to waive certain provisions of the regulations to permit this. These airplanes were manufactured to military specifications without consideration of civil requirements, and strict compliance with the applicable regulations would prevent their use as desired. Therefore, as in the case of the PBY–5A's, it is necessary to waive certain portions of the certification and operation rules if the proposed use is to be approved. The armed services in operating these airplanes have achieved a satisfactory safety record at weights equal to and above the weight requested by the Department of the Interior. It is understood, however, that in order to comply as fully as practicable with the certification requirements of Part 4b, a number of modifications will be made to these airplanes.

In view of the foregoing and mindful that the factors which prompted the promulgation of Special Civil Air Regulations SR–364 and SR–364A continue to exist, the Board finds that it is in the public interest to grant the request of the Department of the Interior. This regulation provides that the airplanes be operated by Transocean Air Lines under contractual agreement with the Department of the Interior.

Since the use to which these airplanes is to be put is a matter relating to agency management and contract, public notice and procedure hereon are unnecessary. Since this regulation imposes no additional burden on any person, it may be made effective without prior notice.

In consideration of the foregoing, the Civil Aeronautics Board hereby makes and promulgates a Special Civil Air Regulation, effective immediately, to read as follows:

1. Contrary provisions of the Civil Air Regulations notwithstanding, the following provisions of Part 4b of the Civil Air Regulations are hereby waived to permit the certification thereunder of three Grumman SA–16A airplanes, owned or controlled by the Department of the Interior, for operation by Transocean Air Lines within the Trust Territory of the Pacific Islands and between these islands and the island of Guam.

a. Section 4b.120 (a) and (b) to the extent that the maximum certificated take-off weight with respect to performance cannot be met at weights of 29,000 pounds or less.

b. Section 4b.120 (c).

c. Sections 4b.115, 4b.116, 4b.117, 4b.122, 4b.123, 4b.124, 4b.324 (a), 4b.337 (a) (1), and (2), 4b.441 (b) (1), 4b.474 (c), 4b.484 (a) (2), 4b.485 (c), 4b.604 (d), (f), and (h), and 4b.622 (c) to the extent that the airplane cannot comply with the provisions of these sections: *Provided*, That the Military Flight Manual, placards, or similar means shall be provided which shall contain the appropriate procedures and warnings necessary to overcome or explain the deficiencies resulting from the waiver of these sections.

d. Sections 4b.226 (b), 4b.352 (b), 4b.356 (b), 4b.383 (b) (2), 4b.612 (d), and (f), and 4b.624 (b) to the extent that the airplane cannot comply with the provisions of these sections.

e. Section 4b.443 to the extent that it requires the oil tank to be located outside a fire zone unless it is constructed of fire-proof materials.

f. Sections 4b.740 through 4b.743: *Provided*, That the Military Flight Manual be used as supplemented by such limitations and procedural data as found necessary by the Administrator, or are required by this regulation.

2. The airworthiness certificate for each airplane certificated hereunder, shall bear the following legend: "This certificate is issued pursuant to Special Civil Air Regulation SR–403 and is valid only for operation by Transocean Air Lines under contract with the Department of the Interior within the Trust Territory of the Pacific Islands and between these islands and the island of Guam."

3. The operations referred to herein shall be conducted in accordance with Part 42 with the exception of those provisions which are inconsistent with the requirements of Part 4b hereby waived: *Provided*, That the Administrator shall establish operating limitations consistent with the standards established herein.

4. The air carrier operating certificate of Transocean Air Lines shall be amended to the extent necessary to permit the use of said Grumman SA–16A airplanes in such operations conducted pursuant to a contract between Transocean Air Lines and the Department of the Interior.

(Sec. 205, 52 Stat. 984; 49 U. S. C. 425. Interpret or apply secs. 601, 603, 604, 52 Stat. 1007, 1009, 1010; 49 U. S. C. 551, 553, 554; 62 Stat. 1216)

By the Civil Aeronautics Board.

[Civil Air Regs., Amdt. 40-5]

PART 40—SCHEDULED INTERSTATE AIR CARRIER CERTIFICATION AND OPERATION RULES

EXTENSION OF EFFECTIVE DATE OF REQUIREMENT FOR CHOP MARKS ON AIRPLANE EXTERIORS

Adopted by the Civil Aeronautics Board at its office in Washington, D. C., on the 31st day of March 1954.

Revised Part 40 was adopted by the Civil Aeronautics Board April 13, 1953, and is to become effective April 1, 1954. Section 40.178 (b) of this part requires that the exterior area of the fuselage of an airplane be marked to indicate the location of mechanisms of access and areas suitable for cutting to facilitate the escape and rescue of occupants in the event of an accident. Marks indicating areas suitable for cutting are commonly known as "chop marks".

In Civil Air Regulations Draft Release No. 53-26, dated November 17, 1953, it was proposed that § 40.178 (b) be amended by extending the effective date for its compliance therewith until March 1, 1954. The comment received in response to this draft release indicated general concurrence with this proposal. Since the effective date of revised Part 40 was subsequently extended to April 1, 1954, it became unnecesary to include this amendment in Civil Air Regulations Amendment 40-3, adopted on March 11, 1954.

During the period allotted for comment on Draft Release 53-26, however, a proposal was received for the elimination of this requirement on the grounds that airplane fuselages, particularly those of modern pressurized airplanes, are so strongly resistant to chopping or cutting by means of such devices as axes, as to render questionable the justification for this requirement. It was agreed to consider this proposal further in order to determine whether any additional modifications should be made to this section in the future. The Board is advised that certain air carriers misunderstood the result of this exchange of views, and believed that the requirement was to be postponed indefinitely. Accordingly, they made no effort to apply the markings required by this regulation. The Board is of the opinion that this assumption was unwarranted, since the Board cannot, consistent with proper rule-making procedures, commit itself in advance to any course of action, and moreover in this instance there was no more than an agreement to reconsider.

The Board intends that any "chop marks" appearing on airplane exteriors should be applied on the basis of a sound engineering analysis of the airplane structure involved, and that such marks reflect a valid determination that the areas so marked be truly suitable for cutting. In view of the lack of time available prior to the effective date of revised Part 40 it appears that air carriers who have not yet made such an engineering analysis will be unable to apply "chop marks" at the proper places on their airplanes. "Chop marks" applied on the basis of other than a proper analysis may mislead rescue crews to attempt to enter a cabin at a strong structural member. The Board considers that such "chop marks" would create a more hazardous condition than the complete absence of "chop marks". It appears advisable, therefore, to extend the effective date of that portion of § 40.178 (b) which relates to areas suitable for cutting, to allow all carriers to apply "chop marks" on the basis of a proper study. The portion of § 40.178 (b), however, on marking which indicates the location of mechanisms of access will become effective on April 1, 1954, in accordance with the current requirement.

Since this amendment is minor in nature and imposes no additional burden on any person, it may be made effective without prior notice.

In consideration of the foregoing, the Civil Aeronautics Board hereby amends Part 40 of the Civil Air Regulations (14 CFR Part 40, as amended), effective April 1, 1954:

By adding to the end of § 40.178 (b) the following: "*Provided*, That marking of areas suitable for cutting need not be applied prior to October 1, 1954."

(Sec. 205, 52 Stat. 984; 49 U. S. C. 425. Interpret or apply secs. 601, 604, 52 Stat. 1007, 1010, as amended; 49 U. S. C. 551, 554)

By the Civil Aeronautics Board.

[SEAL] M. C. MULLIGAN,
Secretary.

[Reg. No. SR-391c]

PART 42—IRREGULAR AIR CARRIER AND OFF-ROUTE RULES

SPECIAL CIVIL AIR REGULATION; EXTENSION OF DATE FOR APPLICATION OF TRANSPORT CATEGORY PERFORMANCE REQUIREMENTS TO C-46 TYPE AIRCRAFT

Adopted by the Civil Aeronautics Board at its office in Washington, D. C., on the 31st day of March 1954.

Special Civil Air Regulation SR-391 permits operators of C-46 type aircraft used in the carriage of passengers to operate at a maximum certificated takeoff weight of 44,300 pounds except for those airplanes having a certain type propeller which are allowed an additional 1,000 pounds. Special Civil Air Regulation SR-391 originally permitted such operation only until January 1, 1954.

For the past several years it has been anticipated that after December 31, 1953, all airplanes used in irregular passenger operation shall comply with the transport category requirements of Part 4a or Part 4b and with transport category operating limitations. This provision, which was identical to provisions in Parts 40 and 41 of the Civil Air Regulations, was intended to require nontransport category airplanes, principally the Douglas DC-3, the Lockheed L-18, and the Curtiss C-46, to comply with stricter requirements than those now in effect for passenger operations pursuant to Part 42. In the case of the C-46, these operations are further limited by Special Civil Air Regulation SR-391 which temporarily establishes a maximum certificated weight for this airplane of 44,300 pounds with an additional 1,000 pounds for those airplanes having certain type propellers.

In Special Civil Air Regulation SR-391B, adopted December 23, 1953, the date by which nontransport category airplanes used in passenger operations were required to comply with transport category requirements was extended to April 1, 1954. This extension was granted in order to permit certain interested persons to submit proposals for a modification of the current requirements for the C-46 in the transport category. Proposals have been made for modifying the C-46 to increase its performance and other airworthiness capabilities, and are being considered by the Board. This regulation, therefore, extends until July 1, 1954, the date by which the C-46 must comply with the transport category requirements to permit the consideration and evaluation of these proposals. Concurrently with the issuance of this regulation or shortly thereafter, these proposals will be issued as a notice of proposed rule making and circulated to the industry for comment. Because of the time required to perform tests on the C-46 and to present the proposals to the Board, it has not been possible to issue prior notice on the action to be taken in this matter.

For the reasons stated above, notice and public procedure hereon are impracticable. Since this regulation imposes no additional burden on any person, it may be made effective without prior notice.

In consideration of the foregoing, the Civil Aeronautics Board hereby amends Special Civil Air Regulation SR-391, effective April 1, 1954:

By amending paragraph 1 of Special Civil Air Regulation SR-391 by deleting the date "April 1, 1954" and inserting in lieu thereof the date "July 1, 1954".

(Sec. 205, 52 Stat. 984; 49 U. S. C. 425. Interpret or apply secs. 601, 604, 52 Stat. 1007, 1010, as amended; 49 U. S. C. 551, 554)

By the Civil Aeronautics Board.

[SEAL] M. C. MULLIGAN,
Secretary.

[F. R. Doc. 54-2481; Filed, Apr. 5, 1954; 8:51 a. m.]

[Civil Air Regs., Amdt. 42-22]

PART 42—IRREGULAR AIR CARRIER AND OFF-ROUTE RULES

EXTENSION OF DATE REQUIRING NONTRANSPORT CATEGORY AIRPLANES USED IN PASSENGER OPERATIONS TO BE CERTIFICATED IN TRANSPORT CATEGORY

Adopted by the Civil Aeronautics Board at its office in Washington, D. C., on the 31st day of March 1954.

Section 42.15 (c) of Part 42 of the Civil Air Regulations for several years stated that after December 31, 1953, all airplanes used in irregular air carrier passenger operation shall comply with the transport category requirements of Parts 4a or 4b and with transport category operating limitations. This provision, which until recently was identical to provisions in Parts 40 and 41, was intended to require nontransport category airplanes, principally the Douglas DC-3, the Lockheed L-18, and the Curtiss C-46, to comply with stricter requirements than those now in effect for passenger operations pursuant to Part 42. In the case of the C-46, these operations are further limited by Special Civil Air Regulation SR-391 which temporarily establishes a maximum certificated weight of 44,300 pounds, with an additional 1,000 pounds for those airplanes having certain type propellers.

In Civil Air Regulations Amendment 42-20, adopted December 23, 1953, the date by which nontransport category airplanes used in passenger operations conducted under this part were required to comply with transport category requirements was extended to April 1, 1954. This extension was granted in order to permit certain interested persons to submit proposals for a modification of the current requirements for certification of the C-46 in the transport category. By that time, however, Parts 40 and 41 had been amended to no longer require that all airplanes used after December 31, 1953, in passenger operations be certificated in the transport category, but only to require that this apply to airplanes certificated as a basic type after June 30, 1942. The effect of this was to permit the DC-3 and the L-18, both of which were certificated prior to June 30, 1942, to continue to operate under their present requirements. In making this change, it was stated that the safety record of the DC-3 and the L-18 clearly justified their continued use under present conditions in scheduled air carrier passenger operations.

The decision to postpone the effective date of the comparable requirement in Part 42 was motivated primarily by our concern with the C-46. This airplane type falls short of compliance with the transport category requirements to a greater degree than the DC-3 and the L-18 which can more than meet the transport category performance requirements at sea level at their currently certificated weights. The C-46, on the other hand, is unable to comply with these requirements at its certificated weight at sea level. In view of this and the action taken in Parts 40 and 41, there appears to be no reason for continuing in Part 42 any provision which would require airplanes certificated as a basic type prior to June 30, 1942, to comply with transport category requirements. This amendment, therefore, permits such airplanes to be used in irregular air carrier passenger operations under their present airworthiness certification status, thus conforming to the requirements in Parts 40 and 41.

It is still doubtful, however, whether the present performance capabilities and other airworthiness features of the C-46 justify its continuation in irregular air carrier passenger operations under the present requirements. Proposals have been made for modifying the C-46 to increase its performance and other airworthiness capabilities, and are being considered by the Board. This amendment, therefore, extends until July 1, 1954, the date by which nontransport category airplanes must comply with the transport category requirements, to permit the consideration and evaluation of these proposals. Concurrently with the issuance of this amendment or shortly therafter, these proposals will also be issued as a notice of proposed rule making and circulated to the industry for comment. Because of the time required to perform tests on the C-46 and to present the proposals to the Board, it has not been possible to issue prior notice on the action to be taken in this matter.

For the reasons stated above, notice and public procedure hereon are impracticable. Since this amendment imposes no additional burden on any person, it may be made effective without prior notice.

In consideration of the foregoing, the Civil Aeronautics Board hereby amends Part 42 of the Civil Air Regulations (14 CFR, Part 42, as amended) effective April 1, 1954:

1. By amending § 42.15 to read as follows:

§ 42.15 *Airplane certification requirements for large airplanes used in passenger operations*—(a) *Airplanes certificated on or before June 30, 1942.* Airplanes certificated as a basic type on or before June 30, 1942, shall either:

(1) Retain their present airworthiness certification status and meet the requirements of § 42.80, or

(2) Comply with either the performance requirements of §§ 4a.737-T through 4a.750-T of this subchapter or the performance requirements of §§ 4b.110 through 4b.125 of this subchapter and in addition shall meet the requirements of §§ 42.70 through 42.78: *Provided*, That should any type be so qualified all airplanes of any one operator of the same or related types shall be similarly qualified and operated.

(b) *Airplanes certificated after June 30, 1942.* Airplanes certificated as a basic type after June 30, 1942, shall be certificated as transport category airplanes and shall meet the requirements of § 42.70: *Provided*, That airplanes certificated as a basic type after June 30, 1942, and prior to July 1, 1951, which are not transport category airplanes, need not be so certificated prior to July 1, 1954, in which case such airplanes shall comply with paragraph (a) of this section.

(Sec. 205, 52 Stat. 984; 49 U. S. C. 425. Interpret or apply secs. 601, 604, 52 Stat. 1007, 1010, as amended; 49 U. S. C. 551, 554)

By the Civil Aeronautics Board.

[SEAL] M. C. MULLIGAN,
Secretary.

[F. R. Doc. 54-2484; Filed, Apr. 5, 1954; 8:52 a. m.]

Chapter II—Civil Aeronautics Administration, Department of Commerce

[Amdt. 74]

PART 608—DANGER AREAS

ALTERATION

The danger area alteration appearing hereinafter has been coordinated with the civil operators involved, the Army, the Navy, and the Air Force, through the Air Coordinating Committee, Airspace Subcommittee, and is adopted to become effective when indicated in order to promote safety of the flying public. Since a military function of the United States is involved, compliance with the notice, procedures, and effective date provisions of Section 4 of the Administrative Procedure Act is not required. Part 608 is amended as follows:

In § 608.41, a Fort Bragg, North Carolina, Operation TACAIR 54-7, temporary area is added to read:

Name and location (chart)	Description by geographical coordinates	Designated altitudes (mean sea level)	Time of designation	Using agency
FORT BRAGG: Operation TACAIR 54-7 (Charlotte Chart).	Starting at a point on the northern edge of Victor 3 at lat. 34° 15'30", long. 79°40'00", thence northerly along the meanderings of the Pee Dee River to its intersection with a railroad at lat. 35°12'00", long. 80°04'00", thence northerly and easterly along the meanderings of this railroad to the town of Gulf at lat. 35°34'00", long. 79°17'00", thence southerly along the meanderings of the railroad to Sanford, thence easterly along the railroad to the town of Maners, thence east along the railroad to the western edge of Amber 7 at lat. 35°25'00", long. 78°54'00", thence southerly along the western edge of Amber 7 and Victor 3 to the point of beginning, excluding Fort Bragg Danger Area D-115.	3,000 feet to 40,000 feet.	24 hours daily April 26, 1954, to May 8, 1954, inclusive.	Tactical Air Command, Langley AFB, Va.

(Sec. 205, 52 Stat. 984, as amended; 49 U. S. C. 425. Interprets or applies sec. 601, 52 Stat. 1007, as amended; 49 U. S. C. 551)

This amendment shall become effective on April 26, 1954.

[SEAL] F. B. LEE,
Administrator of Civil Aeronautics.

[F. R. Doc. 54-2433; Filed, Apr. 5, 1954; 8:45 a. m.]

[Amdt. 75]

PART 609—STANDARD INSTRUMENT APPROACH PROCEDURES

PROCEDURE ALTERATIONS

The standard instrument approach procedure alterations appearing hereinafter are adopted to become effective when indicated in order to promote safety of the flying public. Compliance with the notice, procedures, and effective date provisions of section 4 of the Administrative Procedure Act would be impracticable and contrary to the public interest, and therefore is not required.

Part 609 is amended as follows:

1. The low frequency range procedures prescribed in § 609.6 are amended to read in part:

LFR STANDARD INSTRUMENT APPROACH PROCEDURE

Bearings, headings, and courses are magnetic. Distances are in statute miles unless otherwise indicated. Elevations and altitudes are in feet, MSL. Ceilings are in feet above airport elevation. If an LFR instrument approach is conducted at the below named airport, it shall be in accordance with the following instrument approach procedure, unless an approach is conducted in accordance with a different procedure authorized by the Administrator for Civil Aeronautics for such airport. Initial approaches shall be made over specified routes. Minimum altitude(s) shall correspond with those established for en route operation in the particular area or as set forth below.

City and State; airport name, elevation; facility; class and identification; procedure No.; effective date	Initial approach to facility from—	Course and distance	Minimum altitude (ft.)	Procedure turn (—) side of final approach course (outbound and inbound); altitudes; limiting distances	Minimum altitude over facility on final approach course (ft.)	Course and distance, facility to airport	Ceiling and visibility minimums			If visual contact not established at authorized landing minimums after passing facility within distance specified, or if landing not accomplished

4. The ground controlled approach procedures prescribed in § 609.13 are amended to read in part:

GCA STANDARD INSTRUMENT APPROACH PROCEDURES

Bearings, headings and courses are magnetic. Distances are in statute miles unless otherwise indicated. Elevations and altitudes are in feet. MSL. Ceilings are in feet above airport elevation.

If an ASR instrument approach procedure is conducted at the below airport, it shall be in accordance with a different procedure authorized by the Administrator for that airport. Weather minimums shall correspond with those established for en route operation in the particular area or as set forth below. Positive identification must be established with the aircraft by radar before radar vectoring is commenced. Minimum altitude(s) shall correspond with authorized landing minimums; the instructions of the GCA controller are mandatory except when (A) visual reference with ground is established on final approach at or before descent to the authorized landing minimums, or (B) at pilot's discretion if it appears desirable to discontinue the approach.

City and State; airport name, elevation; effective date	Radar terminal area; maneuvering altitudes by sectors and limiting distances	Ceiling and visibility minimums				Except when the ground controller may direct otherwise prior to final approach, a missed approach procedure shall be executed as provided below when the communication on final approach is lost for more than 5 seconds (b) directed by ground controller, (c) visual reference is not established upon descent to the authorized landing minimums, or (d) landing is not accomplished.
		Runway No.	Condition	Precision approach (PAR)		Surveillance approach (ASR)

TITLE 6—AGRICULTURAL CREDIT

Chapter IV—Commodity Stabilization Service and Commodity Credit Corporation, Department of Agriculture

Subchapter B—Loans, Purchases, and Other Operations

PART 438—NAVAL STORES

SUBPART—1954 GUM NAVAL STORES PRICE SUPPORT LOAN PROGRAM

Statement with respect to the Gum Naval Stores Price Support Loan Program for the calendar year 1954, formulated by the Commodity Credit Corporation and the Commodity Stabilization Service (hereinafter referred to as "CCC" and "CSS").

Sec.
438.501 Administration.
438.502 Eligible producer.
438.503 Eligible naval stores.
438.504 Eligible turpentine.
438.505 Eligible rosin.
438.506 Eligible oleoresin.
438.507 Eligible metal drums.
438.508 Availability of loans.
438.509 Rate of loan to producers.
438.510 Storage provisions.
438.511 Maturity.
438.512 Redemption.
438.513 Rights of CCC upon maturity.
438.514 Disposition of proceeds upon liquidation.
438.515 Personal liability.

AUTHORITY: §§ 438.501 to 438.515 issued under sec. 4, 62 Stat. 1070; 15 U. S. C. 714b. Interpret or apply sec. 5, 62 Stat. 1072, sec. 301, 63 Stat. 1058; 15 U. S. C. 714c, 7 U. S. C. 1447.

§ 438.501 *Administration.* The Naval Stores Branch, Tobacco Division, CSS, will supervise the administration of the program. CCC will make a loan to the American Turpentine Farmers Association Cooperative, Valdosta, Georgia (hereinafter referred to as the "Association"), under a Loan Agreement which will enable the Association in turn to make loans to eligible producers on eligible naval stores, to supervise the maintenance of the collateral in storage, to perform related field administration functions, to arrange for redemptions, and to collaborate in the liquidation of unredeemed collateral. The CSS Commodity Office, Dallas, Texas, will perform accounting and auditing functions.

§ 438.502 *Eligible producer.* A producer will be eligible for loans if he (a) is a member of the Association under membership requirements approved by CCC (no producer who is otherwise eligible may be excluded from membership in the Association), (b) is a cooperator in the 1954 Naval Stores Conservation Program of the United States Department of Agriculture or otherwise follows good conservation practices, as determined by the Association, (c) has made satisfactory arrangements to pay any indebtedness to the United States Department of Agriculture or any agency thereof, as evidenced by the registers of indebtedness maintained by the Agricultural Stabilization and Conservation County Offices of the United States Department of Agriculture, and (d) has executed, and has not breached his obligations under, the Producer's Marketing Agreement (ATFA Form 1–1954), or any other similar agreement.

§ 438.503 *Eligible naval stores.* "Eligible naval stores" are eligible turpentine, eligible rosin and the turpentine and rosin content in eligible oleoresin.

§ 438.504 *Eligible turpentine.* "Eligible turpentine" is gum turpentine which (a) was produced from eligible oleoresin, (b) is free and clear from all liens and encumbrances, (c) has not been theretofore pledged for a loan under this program and in which the beneficial interest is and always has been in the producer, (d) is "waterwhite" in color, (e) is free from excess resin acids, as evidenced by a total acid number of not more than 0.50, and (f) conforms as to specific gravity to Federal Specifications TT-T-801, to wit: A maximum of 0.875 and a minimum of 0.860 taken at 60 degrees Fahrenheit.

§ 438.505 *Eligible rosin.* "Eligible rosin" is gum rosin which (a) was produced from eligible oleoresin, (b) grades "T" or better, (c) is free and clear from all liens and encumbrances, (d) has not been theretofore pledged for a loan under this program and in which the beneficial interest is and always has been in the producer, (e) is packed to the net weight approved by CCC, in eligible metal drums, (f) is transparent, (g) is free from visible foreign materials and contains no extraneous matter resulting from chemical or other treatment of the rosin, or of the oleoresin or the trees from which it came, and (h) conforms as to softening point to not less than Federal Specifications LLL–R–626, to wit: 158 degrees Fahrenheit (American Society for Testing Materials Methods No. E 28–51T). Rosin must be federally inspected and weighed or the weights checked prior to tender for loan.

§ 438.506 *Eligible oleoresin.* "Eligible oleoresin" is oleoresin (a) which was produced in 1954 in the United States by an eligible producer, (b) which is free and clear from all liens and encumbrances, (c) the turpentine or rosin content in which has not been theretofore pledged for a loan under this program and in which the beneficial interest is and always has been in the producer, and (d) which will yield turpentine of the prescribed quality, and rosin of the prescribed grades and quality. When a producer's eligible oleoresin was commingled with oleoresin produced by other producers in the processing operation, the turpentine and rosin tendered for loan by the producer as representing the processed equivalent of his eligible oleoresin will be deemed to be, if otherwise eligible, eligible turpentine and eligible rosin produced by such producer.

§ 438.507 *Eligible metal drums.* "Eligible metal drums" are drums conforming to the specifications for metal drums approved by CCC, obtainable from and on file in the office of the Association.

§ 438.508 *Availability of loans.* (a) Under the Loan Agreement, CCC will make a loan to the Association for the purpose of enabling the Association to make loans available, or to make loans, to eligible producers of eligible naval stores produced in 1954. The loan to the Association will be in an amount equal to (1) the amount of the loans made by the Association to producers, (2) the administrative and operating expenses, approved by CCC, incurred by the Association in connection with making loans available and the making of loans, and the handling and preservation of pledged naval stores, (3) the storage charges after naval stores are pledged, and (4) an indemnification charge to cover the assumption by CCC of the risk of loss on rosin and rosin content in oleoresin (the storage rate for turpentine includes insurance).

(b) Each producer desiring to obtain loans will execute a Producer's Marketing Agreement with the Association. Each loan will be secured by a pledge by the producer to the Association of eligible turpentine, eligible rosin, or unprocessed turpentine or rosin content in eligible oleoresin, and the Association, in turn, will pledge the same to CCC as security for the loan made by CCC to the Association. Loans on rosin will be made only on full drums thereof, and loans on the rosin content in oleoresin, only upon the equivalent of full drums thereof. No loans will be made later than December 31, 1954.

(c) Eligible naval stores will be deemed tendered for loan by the producer to the Association only when such naval stores have been (1) processed (except where unprocessed turpentine or rosin content in oleoresin is offered for loan), (2) placed in storage in the custody of an approved warehouseman who has entered into and is fully complying with a Warehouse Agreement (ATFA Form 2–1954), and (3) offered for loan on a Producer's Offer (ATFA Form 3A–1954) (the date of which, if subsequent to April 1, 1954, shall be not later than thirty (30) days from the date of delivery of eligible oleoresin for processing). If there are any liens or encumbrances on the naval stores offered for loan, proper waivers are required on a Lienholders' Waiver and Agreement (ATFA Form 3–1954).

§ 438.509 *Rate of loan to producers.* The Association will make loans to producers based on the rate of $130.33 per naval stores production unit, comprised of fifty (50) gallons of turpentine and fourteen hundred (1400) pounds of rosin; this rate will remain fixed throughout the loan period. Initially, the production unit rate of $130.33 will be allocated to the individual commodities to provide a loan rate for turpentine of fifty cents (50¢) per gallon of 7.2 pounds in bulk, and a loan rate of $7.52 for rosin of grades X through WG, and of $7.42 for grades N through I per hundred pounds net packed in eligible metal drums. CCC reserves the right to revise such allocation of loan values between turpentine and rosin during the loan period, within the fixed production unit loan rate. The amount which the Association will lend to any producer will be determined by applying the applicable loan rates in effect for turpentine and rosin on the date of the applicable Producer's Offer to the quantities thereof tendered for loan.

§ 438.510 *Storage provisions.* The producer will be required to place naval stores offered for loan in storage in the custody of an approved warehouseman who has entered into and is fully complying with a Warehouse Agreement with the Association. This Agreement will be assigned by the Association to CCC. All processing charges, including the cost of eligible metal drums for rosin, and all storage and other warehouse charges to the date of tender for loan will be borne by the producer. Storage charges accruing after the naval stores are pledged are payable by CCC, and comprise part of the loan by CCC to the Association.

§ 438.511 *Maturity.* The loan made by CCC to the Association and the loans made by the Association to producers will be due and payable upon demand, or on July 1, 1955, whichever is earlier.

§ 438.512 *Redemption.* (a) Subject to terms and conditions of the Producer's Marketing Agreement, the producer may redeem pledged naval stores, prior to maturity of the loan, upon application to the Association and payment of the redemption price. The producer's right to redeem may be exercised for him and in his behalf by the Association and the producer's exercise of the right of redemption is subject to the prior exercise thereof by the Association. Subject to the terms and conditions of the Loan Agreement, the Association may redeem naval stores pledged by the Association to CCC, upon application to CCC therefor prior to the maturity of the loan and payment of the redemption price.

(b) The redemption price will be the weighted average amount loaned by Commodity to the Association on pledged turpentine or rosin or the content thereof in oleoresin, including applicable expenses and charges, plus interest at the rate of three and one-half percent (3½ percent) per annum.

§ 438.513 *Rights of CCC upon maturity.* CCC will have the right at any time after maturity of the loan to sell, assign, transfer and deliver the pledged naval stores, or documents evidencing title thereto, at such time, in such manner, and upon such terms and conditions as CCC may determine.

§ 438.514 *Disposition of proceeds upon liquidation.* CCC will apply the net proceeds from the disposition of pledged naval stores (a) towards satisfaction of accrued interest, (b) towards satisfaction of the principal amount loaned, and (c) towards the satisfaction of any other indebtedness of the Association to CCC. In the event that any sum remains after application of these amounts, such sum will be returned to the Association by CCC for disposition by the Association to its producer-member participants, or for and in behalf of its producer-members, on an equitable basis as determined by the Association with the approval of CCC.

§ 438.515 *Personal liability.* The loans will be non-recourse, except that any fraudulent representation by the producer or the Association in the loan documents, or in obtaining a loan, will render him or it subject to criminal prosecution under applicable law, and personally liable for the amount by which the proceeds received upon the disposition of the pledged naval stores are less than the amount of indebtedness incurred by the Association with respect thereto.

Issued this 31st day of March 1954.

[SEAL] WALTER C. BERGER,
Acting Executive Vice President, Commodity Credit Corporation.

TITLE 26—INTERNAL REVENUE

Chapter I—Internal Revenue Service, Department of the Treasury

Subchapter C—Miscellaneous Excise Taxes

[T. D. 6068; Regs. 4, 5, 10]

PART 183—PRODUCTION OF DISTILLED SPIRITS

PART 184—PRODUCTION OF BRANDY

PART 185—WAREHOUSING OF DISTILLED SPIRITS

WEIGHING OF PACKAGES OF DISTILLED SPIRITS UPON RECEIPT AT INTERNAL REVENUE BONDED WAREHOUSES

In order to eliminate the requirement that storekeeper-gaugers weigh packages of distilled spirits at the time of their receipt after transfer in bond from a distillery not on the same or contiguous premises or from another warehouse when such consignor premises are operated by the consignee or an affiliate or subsidiary thereof in the immediate vicinity, or when such packages of spirits are transferred in conveyances sealed with Government cap seals, the following amendments to the regulations are hereby adopted:

PARAGRAPH 1. Wherever the term "supervisor" or "district supervisor" appears in the sections of the regulations revised by this Treasury decision, such term is hereby amended to read "Assistant Regional Commissioner, Alcohol and Tobacco Tax."

PAR. 2. Regulations 4 (26 CFR Part 183) are amended as follows:

(A) Section 183.561 is amended by:

(1) Striking the words "supervisory district" in the first sentence and inserting in lieu thereof the word "region".

(2) Inserting after the second sentence the following new sentence: "If the applicant desires to receive packages of spirits in sealed conveyances without weighing the packages at time of receipt he should indicate on part 1 of Form 236 that the packages are to be transferred in sealed conveyances by entering the phrase 'Government-sealed conveyance.'"

(B) There is inserted immediately following § 183.564 the following new section:

§ 183.564a *Sealed conveyances for packages.* Each conveyance used to transport packages of distilled spirits in bond, which is to be sealed in order that the weighing of spirits upon receipt at an internal revenue bonded warehouse will not be required, must be constructed in such a manner that all openings may be closed and secured by seals in order that access cannot be gained without showing evidence of tampering. Cap seals to be furnished by the Government will be used in sealing the conveyance and such seals will be affixed as soon as the vehicle is loaded. If the conveyance is not constructed in accordance with the provisions of this section, the storekeeper-gauger will notify the consignor proprietor that its use as a sealed conveyance cannot be authorized and, if distilled spirits are conveyed therein, that weighing of the packages at the consignee premises will be required. Under such circumstances, cap seals will not be applied to the conveyance.

(53 Stat. 375; 26 U. S. C. 3176)

(C) There is inserted after the first sentence in § 183.572 the following new sentence: "If the transfer is to be made by sealed conveyance, the storekeeper-gauger will note on Form 236 in the space provided therefor the serial numbers of the cap seals used."

(D) Section 183.574 is amended by:

(1) Striking the words "supervisory district" in the first sentence and inserting in lieu thereof the word "region".

(2) Inserting after the second sentence the following new sentence: "If the applicant desires to receive packages of spirits without weighing such packages at time of receipt he should indicate on part 1 of Form 236 that the packages are to be transferred in sealed conveyances by entering the phrase 'Government-sealed conveyance.'"

(E) There is inserted immediately following § 183.577 the following new section:

§ 183.577a *Sealed conveyance for packages.* If the packages of distilled spirits are to be transported in a sealed conveyance, in order that the weighing of the spirits upon receipt at an internal revenue bonded warehouse will not be required, such conveyance must be constructed and sealed as provided in § 183.564a.

(53 Stat. 375; 26 U. S. C. 3176)

(F) There is inserted immediately after the first sentence in § 183.580 the following new sentence: "If the transfer is to be made by sealed conveyance, the storekeeper-gauger will note on Form 236 in the space provided therefor the serial numbers of the cap seals used."

PAR. 3. Regulations 5 (26 CFR Part 184) are amended as follows:

(A) Section 184.601 is amended by:

(1) Striking the words "supervisory district" in the first sentence and inserting in lieu thereof the word "region".

(2) Inserting after the second sentence the following new sentence: "If the applicant desires to receive packages of brandy in sealed conveyances without weighing the packages at time of receipt he should indicate on part 1 of Form 236 that the packages are to be transferred in sealed conveyances by entering the phrase 'Government-sealed conveyance.'"

(B) There is inserted immediately following § 184.604 the following new section:

§ 184.604a *Sealed conveyances for packages.* Each conveyance used to transport packages of brandy in bond, which is to be sealed in order that the weighing of the brandy upon receipt at an internal revenue bonded warehouse will not be required, must be constructed in such a manner that all openings may be closed and secured by seals in order that access cannot be gained without showing evidence of tampering. Cap seals to be furnished by the Government will be used in sealing the conveyance and such seals will be affixed as soon as the vehicle is loaded. If the conveyance is not constructed in accordance with the provisions of this section, the storekeeper-gauger will notify the consignor proprietor that its use as a sealed conveyance cannot be authorized and, if distilled spirits are conveyed therein, that weighing of the packages at the consignee premises will be required. Under such circumstances, cap seals will not be applied to the conveyance.

(53 Stat. 375; 26 U. S. C. 3176)

(C) There is inserted after the first sentence in § 184.612 the following new sentence: "If the transfer is to be made by sealed conveyance, the storekeeper-gauger will note on Form 236 in the space provided therefor the serial numbers of the cap seals used."

(D) Section 184.614 is amended by:

(1) Striking the words "supervisory district" in the first sentence and inserting in lieu thereof the word "region."

(2) Inserting after the second sentence the following new sentence: "If the applicant desires to receive packages of brandy without weighing such packages at time of receipt he should indicate on part 1 of Form 236 that the packages are to be transferred in sealed conveyances by entering the phrase 'Government-sealed conveyance.'"

(E) There is inserted immediately following § 184.617 the following new section:

§ 184.617a *Sealed conveyance for packages.* If packages of brandy are to be transported in a sealed conveyance, in order that the weighing of the brandy upon receipt at an internal revenue bonded warehouse will not be required, such conveyance must be constructed and sealed as provided in § 184.604a.

(53 Stat. 375; 26 U. S. C. 3176)

(F) There is inserted immediately after the first sentence in § 184.620 the following new sentence: "If the transfer is to be made by sealed conveyance, the storekeeper-gauger will note on Form 236 in the space provided therefor the serial numbers of the cap seals used."

PAR. 4. Regulations 10 (26 CFR, Part 185) are amended as follows:

(A) Section 185.375 is amended by changing the period at the end of the first sentence to a colon and adding the following proviso: *"Provided,* That the weighing of packages will not be required (a) where spirits are transferred in bond, from any distillery or internal revenue bonded warehouse, in conveyances sealed with Government cap seals in accordance with the provisions of § 185.692 and the conveyances are received with such seals intact, or (b) where spirits are received from a distillery not on the same or contiguous premises, or from another warehouse, operated by the consignee or an affiliate or subsidiary of the consignee in the immediate vicinity so the transfer can be under observation by Government officers at all times; where packages are received without weighing the storekeeper-gauger will so indicate in the appropriate column on Form 1520 or 1619."

(B) Section 185.692 and headnote are amended to read:

§ 185.692 *Sealed conveyances for packages.* Each conveyance used to transport packages of distilled spirits in bond, which is to be sealed in order that the weighing of spirits upon receipt at an internal revenue bonded warehouse will not be required, must be constructed in such a manner that all openings may be closed and secured by seals in order that access cannot be gained without showing evidence of tampering. Cap seals to be furnished by the Government will be used in sealing the conveyance and such seals will be affixed as soon as the vehicle is loaded. If the conveyance is not constructed in accordance with the provisions of this section, the storekeeper-gauger will notify the consignor proprietor that its use as a sealed conveyance cannot be authorized and, if distilled spirits are conveyed therein, that weighing of the packages at the consignee premises will be required. Under such circumstances, cap seals will not be applied to the conveyance.

(C) Section 185.693 is amended by:

(1) Striking the words "supervisory district" in the first sentence and inserting in lieu thereof the word "region".

(2) Inserting after the second sentence the following new sentence: "If the applicant desires to receive packages of spirits in sealed conveyances without weighing the packages at time of receipt he should indicate on part 1 of Form 236 that the packages are to be transferred in sealed conveyances by entering the phrase 'Government-sealed conveyance.'"

(D) Section 185.706 is amended by striking the words "tank car" in the first sentence and inserting in lieu thereof "conveyance sealed with Government cap seals."

(E) Section 185.707 is amended by striking the words "tank car" in the two places they appear in the third sentence and inserting in lieu thereof in the first instance "conveyance sealed with Government cap seals," and in the second instance "conveyance."

(F) Section 185.708 is amended by:

(1) Striking the words "supervisory districts" in the first sentence and inserting in lieu thereof the word "regions."

(2) Inserting after the second sentence the following new sentence: "If the applicant desires to receive packages of spirits without weighing such packages at time of receipt he should indicate on part 1 of Form 236 that the packages are to be transferred in sealed conveyances by entering the phrase 'Government-sealed conveyance.'"

(G) Section 185.711 is amended by striking the words "tank car" in the first sentence and inserting in lieu thereof "conveyance sealed with Government cap seals."

(H) Section 185.712 is amended by:

(1) Striking the words "tank car" in the two places they appear in the third sentence and inserting in lieu thereof in the first instance "conveyance sealed with Government cap seals," and in the second instance "conveyance".

(2) Striking the word "district" where it appears in the fourth and fifth sentences and inserting in lieu thereof the word "region".

Because the changes made are of a liberalizing character, it is found that it is unnecessary to issue this Treasury decision with notice and public procedure thereon under section 4 (a) of the Administrative Procedure Act, approved June 11, 1946, or subject to the effective date limitations of section 4 (c) of said act.

This Treasury decision shall be effective upon the date of publication in the FEDERAL REGISTER.

(53 Stat. 375; 26 U. S. C. 3176)

[SEAL] O. GORDON DELK,
Acting Commissioner of Internal Revenue.

Approved: March 31, 1954.

M. B. FOLSOM,
Acting Secretary of the Treasury.

PART 192—FERMENTED MALT LIQUORS

FILLING CASES AND PREPARING FORMS 103 AND 139

On December 10, 1953, notice of proposed rule-making, regarding amendments to Regulations 18 (26 CFR Part 192), to provide for a more accurate determination of a brewer's tax liability by eliminating the present provisions for packaging an indiscriminate mixture of seven and eight ounce bottles or eleven and twelve ounce bottles of beer in one case, and to require that the daily statement of fermented malt liquor bottled be reported on Form 103 in lieu of Form 139 was published in the FEDERAL REGISTER (18 F. R. 8119). No comments having been received during the 30-day period prescribed in such notice, the amendments to Regulations 18 (26 CFR Part 192) set forth below are hereby adopted:

PARAGRAPH 1. Wherever the term "supervisor" or "district supervisor" appears in the sections of the regulations revised by this Treasury decision, such term is hereby amended to read "Assistant Regional Commissioner, Alcohol and Tobacco Tax."

PAR. 2. Section 192.281 is amended by changing the colon in the first sentence to a period and striking the proviso which begins "*Provided,* That due to conditions".

PAR. 3. Section 192.440 is amended as follows:

(A) By inserting in the first sentence, immediately after the words "removed from the brewery premises," the phrase "the quantity of fermented liquor bottled.".

(B) By striking the fifth sentence, which begins "The aggregates of quantities bottled."

PAR. 4. Section 192.441 is amended as follows:

(A) By striking from the second sentence the words "bottled and the aggregate quantity."

(B) By striking from the last sentence the words "bottled and entries as to quantities."

This Treasury decision shall be effective on the first day of the first month which begins not less than thirty days following the date of publication in the FEDERAL REGISTER.

(Sec. 161, 53 Stat. 375, 467; 5 U. S. C. 22, 26 U. S. C. 3176, 3791)

[SEAL] T. COLEMAN ANDREWS,
Commissioner of Internal Revenue.

Approved: March 31, 1954.

M. B. FOLSOM,
Acting Secretary of the Treasury.

TITLE 38—PENSIONS, BONUSES, AND VETERANS' RELIEF

Chapter I—Veterans' Administration

PART 3—VETERANS CLAIMS

PART 4—DEPENDENTS AND BENEFICIARIES CLAIMS

MISCELLANEOUS AMENDMENTS

1. In Part 3, paragraph (b) (6) and (7) of § 3.123 is amended to read as follows:

§ 3.123 *Initial determinations and adjudicative action under section 13, Public No. 141, 73d Congress, as amended by section 12, Public No. 866, 76th Congress, and under paragraph 4, Part VII, Veterans Regulation 1 (a), as amended (38 U. S. C. Ch. 12).* • • •

(b) • • •

(6) The claimant's willful misconduct or failure to follow instructions, when the proximate cause of the injury suffered in connection with training, hospitilization, medical or surgical treatment, or examination, will bar him from the receipt of compensation hereunder except in the case of incompetent claimants. In this connection, negligence of such character as to evidence disregard of consequences (gross negligence) may be willful misconduct in some factual situations.

(7) Compensation under paragraph 4, Part VII, Veterans Regulation 1 (a), as amended is not payable unless there is established a direct (proximate) causal connection between the injury or aggravation of an existing injury and some essential activity or function which is within the scope of the vocational rehabilitation course—the scope of the vocational rehabilitation course being not necessarily limited to activities or functions specifically designated by the Veterans' Administration in the individual case, since ordinarily it is not to be expected that each and every different function and act of a veteran pursuant to his course of training will be particularly specified in the outline of his course or training program. For example, a disability resulting from the use of an item of mechanical or other equipment is within the purview of the statute if training in its use is implicit within the prescribed program or course outline or if its use is implicit in the performance of some task or operation the veteran trainee must learn to perform, although such use may not be especially mentioned in the training program. In determining whether the element of direct or proximate causation is present, it remains necessary for a distinction to be made between an injury arising out of an act performed in pursuance of the course of training—that is, a required "learning activity"—and one arising out of an activity which is incident to, related to, or coexistent with the pursuit of the program of training. The rule is, therefore, that for a case to fall within the statute there must have been sustained an injury which, but for the performance of a "learning activity" in the prescribed course of training, would not have been sustained. Adjudications under this provision of law require a meticulous examination into all the circumstances including, as a matter of practical necessity, a consideration of the time and place of the incident producing the injury, in order that disabilities flowing from an injury which occurred as a result of the pursuit of the course of training—that is, "arose out of" such performance of training and not the result of the veteran's own willful misconduct—may be accorded the status contemplated by the law. All determinations will be based upon all present and available evidence which is pertinent to the question.

2. In Part 4, paragraph (f) of § 4.86 is amended to read as follows:

§ 4.86 *Public No. 2, 73d Congress (act of March 20, 1933), as amended; sections 28 and 31, Title III, Public No. 141, 73d Congress (act of March 28, 1934), as amended; Public No. 484, 73d Congress (act of June 28, 1934), as amended; and Public Law 301, 79th Congress (act of February 18, 1946).* • • •

(f) *Mother or father; death or cessation of dependency.* Pension or compensation to a dependent mother or father shall be discontinued as of the date of death, or, if no longer dependent, as of the day preceding the date dependency ceased to exist or the date of last payment, whichever is the later. Determination of continuance of dependency and discontinuance for nondependency or failure to file dependency evidence, see § 3.286 of this chapter.

(Sec. 5, 43 Stat. 608, as amended, sec. 2, 46 Stat. 1016, sec. 7, 48 Stat. 9; 38 U. S. C. 11a, 426, 707)

This regulation is effective April 6, 1954.

PART 21—VOCATIONAL REHABILITATION AND EDUCATION

SUBPART A—EDUCATIONAL BENEFITS

SPECIAL CONSIDERATION CONCERNING PURSUIT OF EDUCATION OR TRAINING AFTER STATUTORY DELIMITING DATE

In § 21.36, paragraph (a) (1) (iii) is amended and paragraph (a) (1) (iv) is deleted as follows:

§ 21.36 *Special considerations concerning the pursuit of education or training after the statutory delimiting date—* (a) *Change of course.* (1) • • •

(iii) As to an individual case however, although the veteran's application was received by the Veterans Administration after expiration of the applicable time limits specified in subdivision (i) or (ii) of this subparagraph, if the facts, the equities, and the demonstrated good faith on the part of the veteran justify such action, such time limits may be waived by the manager upon submission by the chief, vocational rehabilitation and education division of a comprehensive statement of the pertinent facts and circumstances upon which the waiver action is recommended, or may be waived by appellate decision pursuant to the appeal of the veteran: *Provided however,* That all other requirements of subdivision (i) or (ii) of this subparagraph, whichever is applicable, must be met.

(iv) [Deleted.]

(Sec. 2, 46 Stat. 1016, sec. 7, 48 Stat. 9, sec. 2, 57 Stat. 43, as amended, sec. 400, 58 Stat. 287, as amended; 38 U. S. C. 11a, 701, 707, ch. 12 note. Interpret or apply secs. 3, 4, 57 Stat. 43, as amended, secs. 300, 1500–1504, 1506, 1507, 58 Stat. 286, 300, as amended; 38 U. S. C. 693g, 697–697d, 697f, g, ch. 12 note)

This regulation is effective April 6, 1954.

[SEAL] H. V. STIRLING,
Deputy Administrator,

[F. R. Doc. 54-2474; Filed, Apr. 5, 1954; 8:50 a. m.]

TITLE 41—PUBLIC CONTRACTS

Chapter II—Division of Public Contracts, Department of Labor

PART 202—MINIMUM WAGE DETERMINATIONS

AMENDMENT TO THE DETERMINATION OF THE PREVAILING MINIMUM WAGE FOR THE WOOLEN AND WORSTED INDUSTRY

On January 30, 1954, notice was duly published in the FEDERAL REGISTER (19 F. R. 535), of a proposed amendment to the determination of the prevailing minimum wage for the Woolen and Worsted Industry (14 F. R. 1793), as revised (15 F. R. 4634). The notice provided a period of thirty days within which interested parties might submit exceptions to the proposed amendment. The time for filing such exceptions expired on March 1, 1954.

Counsel for the National Association of Wool Manufacturers and for certain woolen and worsted companies, has filed exceptions and objections to the proposed amendment, in the main similar to those previously filed and considered. The Textile Workers' Union of America, C. I. O., restated certain previous contentions.

I have carefully examined each exception and objection which has been filed, and being of the opinion that the record does not support any of them, each is overruled.

Upon consideration of the record and all matters presented in this proceeding, the proposed amendment hereby is adopted.

Accordingly, pursuant to the authority vested in me by the Walsh-Healey Public Contracts Act, the prevailing minimum wage determination for the Woolen and Worsted Industry contained in § 202.47 (41 Code of Federal Regulations, Part 202), is hereby amended as follows:

1. Paragraph (a) of § 202.47 is amended to renumber subparagraphs (6) and (7) as (7) and (8), respectively; to delete the word "and" before the word "(5)", and to add the words "and (6)" to the enumeration of clauses in renumbered subparagraph (8); and to add a new subparagraph (6) to read as follows:

(6) The manufacturing of pressed felt made entirely of wool or animal fiber (other than silk).

2. Paragraph (b) of § 202.47 is amended to read as follows:

(b) *Minimum wage.* (1) The minimum wage for persons employed in the manufacturing or furnishing of the products of the Broad-Woven Goods, Yarn, and Thread Branch of the Woolen and Worsted Industry and Pressed Felt under contracts subject to the Walsh-Healey Public Contracts Act shall be $1.20 an hour arrived at either on a time or piece rate basis. The Broad-Woven Goods, Yarn, and Thread Branch includes the manufacturing, processing (including all preparatory processing), dyeing or other finishing of any of the following items which are within the scope of the Woolen and Worsted Industry, as defined herein: Broad-Woven fabrics (fabrics over 12 inches in width), yarn, thread, blankets.

(2) The minimum wage for persons employed in the manufacturing or furnishing of the products of the Woolen and Worsted Industry, other than the products of the Broad-Woven Goods, Yarn, and Thread Branch of the Industry and Pressed Felt, under contracts subject to the Walsh-Healey Public Contracts Act shall be $1.05 an hour, arrived at either on a time or piece rate basis.

3. Paragraph (c) of § 202.47 is amended to read as follows:

(c) *Subminimum wages authorized.* (1) Learners and beginners may be employed subject to the following terms and conditions:

(i) In the performance of contracts for the products of the Broad-Woven Goods, Yarn and Thread Branch of the Woolen and Worsted Industry and for Pressed Felt, learners and beginners may be paid a subminimum rate of $1.05 an hour, unless experienced workers in the same plant are paid on a piece rate basis, in which case learners and beginners must be paid the same piece rates paid to experienced workers, and earnings based upon these piece rates if such earnings are in excess of $1.05 per hour. In the performance of contracts for products of the Woolen and Worsted Industry, other than the products of the Broad-Woven Goods, Yarn and Thread Branch of the Industry and Pressed Felt, learners and beginners may be paid a subminimum rate of 90 cents an hour unless experienced workers in the same plant are paid on a piece rate basis, in which case learners and beginners must be paid the same piece rates paid to experienced workers and earnings based upon these piece rates, if such earnings are in excess of 90 cents an hour;

(ii) The permitted length of the learning period for learners and beginners shall be 320 hours unless the learner or beginner has had previous experience in the Industry, in which case the number of hours of such experience must be deducted from the 320-hour learning period;

(iii) A learner or beginner for the purpose of this determination is a person who has had less than 320 hours' experience in the Industry.

(2) Handicapped workers may be employed at wages below the applicable minimum wages specified herein upon the same terms and conditions as are prescribed for the employment of handicapped workers by the regulations of the Administrator of the Wage and Hour Division of the Department of Labor (29 CFR, Parts 524 and 525), under section 14 of the Fair Labor Standards Act as amended.

The Administrator of the Public Contracts Division is authorized to issue certificates under the Public Contracts Act for the employment of handicapped workers not subject to the Fair Labor Standards Act or subject to different minimum rates of pay under the two acts, at appropriate rates of compensation and in accordance with the standards and procedures prescribed by the applicable regulations issued under the Fair Labor Standards Act.

4. Paragraph (e) of § 202.47 is amended to read as follows:

(e) This section, as amended, shall be effective and the minimum wages hereby provided shall apply to all contracts subject to the Public Contracts Act, bids for which are solicited, or negotiations otherwise commenced on or after May 7, 1954. With respect to prior contracts the minimum wages previously provided shall continue to apply.

(Sec. 4, 49 Stat. 2038; 41 U. S. C. 38. Interprets or applies sec. 1, 49 Stat. 2036; 41 U. S. C. 35)

Signed at Washington, D. C., this 1st day of April 1954.

JAMES P. MITCHELL,
Secretary of Labor.

TITLE 43—PUBLIC LANDS: INTERIOR

Chapter I—Bureau of Land Management, Department of the Interior

Appendix—Public Land Orders

[Public Land Order 950]

UTAH AND WYOMING

TRANSFERRING LANDS FROM ASHLEY TO WASATCH NATIONAL FOREST, FROM WASATCH TO ASHLEY NATIONAL FOREST, FROM WASATCH TO UINTA NATIONAL FOREST AND FROM UINTA TO ASHLEY NATIONAL FOREST

By virtue of the authority vested in the President by the act of June 4, 1897 (30 Stat. 34, 36; 16 U. S. C. 473), and pursuant to Executive Order No. 10355 of May 26, 1952, and upon the recommendation of the Secretary of Agriculture, it is ordered as follows:

The following-described lands within the exterior boundaries of the Ashley National Forest, Utah and Wyoming, are hereby transferred to the Wasatch National Forest, effective July 1, 1954:

Salt Lake Meridian

Tps. 1, 2 and 3 N., R. 13 E., partly unsurveyed, those parts now within the Ashley National Forest.
Tps. 1, 2 and 3 N., R. 14 E., partly unsurveyed.
Tps. 1 and 2 N., R. 15 E., unsurveyed.
T. 3 N., R. 15 E.,
Secs. 18, 19, 28 to 34, inclusive.
Tps. 1 and 2 N., R. 16 E., unsurveyed.
T. 3 N., R. 16 E.,
Secs. 25, 26, 33 to 36, inclusive.
Tps. 1 and 2 N., R. 17 E., partly unsurveyed, that part west of the divide between Sheep Creek and Buck Creek on the east and Burnt Fork and Lost Creek on the west.
T. 3 N., R. 17 E.,
Sec. 30, W½;
Sec. 31, W½.

Sixth Principal Meridian

Tps. 12 and 13 N., R. 114 and 115 W., those parts now within the Ashley National Forest.
T. 12 N., R. 116 W., that part now within the Ashley National Forest.

The following-described lands within the exterior boundaries of the Wasatch National Forest, Utah, are hereby transferred to the Ashley National Forest, effective July 1, 1954:

Uinta Special Meridian

T. 1 N., R. 6 W.,
Secs. 1 to 8, inclusive, 11 to 13, inclusive, 17 and 18.
T. 2 N., R. 6 W., that part now within the Wasatch National Forest.
Tps. 1, 2, 3 and 4 N., R. 7 W., those parts now within the Wasatch National Forest.
T. 1 N., R. 8 W., that part now within the Wasatch National Forest.
T. 2 N., R. 8 W.,
Secs. 1 and 12, and that part of the balance of the township south of the divide between the West Fork and South Fork of Rock Creek.
T. 3 N., R. 8 W.,
Secs. 1, 2 and 12, those parts east of the divide between Rock Creek and the east fork of North Fork of the Duchesne River;
Secs. 13, 24, 25 and 36.
T. 4 N., R. 8 W.,
Secs. 15, 22, 26, 27 and 35, those parts east of the divide between Rock Creek and the east fork of North Fork of the Duchesne River;
Secs. 13, 14, 23, 24, 25 and 36.
T. 1 N., R. 9 W., that part now within the Wasatch National Forest.
T. 2 N., R. 9 W.,
Secs. 1, 2, 11 to 14, inclusive, 19 to 29, inclusive, 32, 34 to 36, inclusive;
Secs. 3, 10 and 15, those parts east of the Duchesne River;
Sec. 33, that part now within the Wasatch National Forest.
T. 2 N., R. 10 W.,
Sec. 24, fractional.

The following-described lands within the exterior boundaries of the Wasatch National Forest, Utah, are hereby transferred to the Uinta National Forest, effective July 1, 1954:

Salt Lake Meridian

T. 3S., Rs. 2 and 3 E., unsurveyed, those parts south of the divide between Little Cottonwood and Big Cottonwood Creeks on the north and American Fork Canyon—Snake Creek on the south.
Tps. 4 and 5 S., Rs. 2 and 3 E., those parts now within the Wasatch National Forest.

The following-described lands within the exterior boundaries of the Uinta National Forest, are hereby transferred to the Ashley National Forest, effective July 1, 1954:

Uinta Special Meridian

T. 1 N., R. 9 W.,
Secs. 3, 4, 10, 11, 13, 14 and 15, those parts now within the Uinta National Forest;
Secs. 5 to 9, inclusive, those parts north and east of the divide between Rhodes Canyon and Wolf Creek.
T. 2 N., R. 9 W.,
Secs. 32 and 33, those parts now within the Uinta National Forest.
T. 6 S., R. 3 W., fractional.
Tps. 6 and 7 S., R. 4 W.
Tps. 6 and 7 S., R. 5 W.
Tps. 6 and 7 S., R. 6 W.
Tps. 6 and 7 S., R. 7 W.

T. 1 S., R. 8 W.,
Secs. 16 to 21, inclusive, and secs. 26 to 33, inclusive.
T. 5 S., R. 8 W.,
Secs. 5 to 18, inclusive, and secs. 17 and 18.
T. 6 S., R. 3 W.,
Secs. 1 to 4, inclusive, secs. 9 to 16, inclusive, and secs. 21 to 36, inclusive.
T. 7 S., R. 8 W., fractional.
T. 1 S., R. 9 W.,
Secs. 13 to 36, inclusive.
T. 4 S., R. 9 W.,
Secs. 25 to 36, inclusive.
T. 5 S., R. 9 W.,
Secs. 1 to 24, inclusive, and secs. 28 to 31, inclusive.
T. 6 S., R. 9 W.,
Secs. 6, 7, 18, 19 and 25 to 36, inclusive.
T. 7 S., R. 9 W., fractional.
T. 1 S., R. 10 W.,
Secs. 9 to 16, inclusive, secs. 22 to 27, inclusive, and secs. 35 and 36, those parts within Red Creek drainage.
T. 5 S., R. 10 W.,
Secs. 1 and 2, secs. 10 to 15, inclusive, secs. 21 to 27, inclusive, secs. 34 to 36, inclusive, and those parts of secs. 3, 4, 8, 9, 16, and 17 east of the divide between Willow Creek and Beaver Canyon.
Tps. 6 and 7 S., R. 10 W., fractional.

The exterior boundaries of the forests involved are hereby adjusted in accordance with the transfer made by this order, and any transferred land now having a national-forest status shall become a part of the forest to which it is transferred.

This order shall not be construed as giving a national-forest status to any lands which do not now have such status, or as changing the status of any lands which now have a national-forest status.

ORME LEWIS,
Assistant Secretary of the Interior.

MARCH 30, 1954.

TITLE 45—PUBLIC WELFARE

Chapter IV—Office of Vocational Rehabilitation, Department of Health, Education, and Welfare

PART 405—APPORTIONMENT OF THE APPROPRIATION FOR VOCATIONAL REHABILITATION FOR THE FISCAL YEAR 1954

STATE EXPENDITURES CHARGEABLE TO APPORTIONMENT FOR FISCAL YEAR 1954

Pursuant to the authority conferred by Title II of Public Law 170, 83d Congress, Part 405 of Title 45 C. F. R. is amended by deleting from § 405.3 thereof the phrase "Secs. 405.1 and 405.2" and substituting in lieu thereof the words "this part" and by adding the following new section:

§ 405.4 *State expenditures chargeable to the apportionment for the fiscal year 1954.* Disbursements made by the States for purposes provided for in the approved State Plan for vocational rehabilitation subsequent to June 30, 1954 will be considered as expenditures for the fiscal year 1954 for the purpose of earning such State's final apportionment if under State law and regulations such disbursements (treated as disbursements from State appropriated funds) would be properly chargeable as follows:

(a) In those States where the State fiscal year coincides with the Federal fiscal year to the fiscal year ending June 30, 1954; or

(b) In those States where appropriations are made on a biennial basis and expenditures are not charged or accountable to the separate years within the biennium, to the fiscal year ending June 30, 1954 if said date had been the end of a State biennium; or

(c) In States where the State fiscal year does not coincide with the Federal fiscal year, to the fiscal year ending June 30, 1954 if such fiscal period were substituted for the State fiscal year.

(67 Stat. 248)

Dated: March 31, 1954.

[SEAL] NELSON A. ROCKEFELLER,
Acting Secretary.

PROPOSED RULE MAKING

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

[7 CFR Part 52]

DEHYDRATED (LOW-MOISTURE) APPLES

UNITED STATES STANDARDS FOR GRADES

Correction

In Federal Register Document 54-2209, appearing at page 1669 of the issue for Saturday, March 27, 1954, the following changes are made:

1. In the third line of § 52.2342 (b) "approximately" should read "approximating".

2. In § 52.2347 (a) (2) "85 percent" should read "95 percent".

Agricultural Research Service

[7 CFR Part 321]

FOREIGN POTATOES

PROPOSED AMENDMENT OF REGULATIONS GOVERNING THE IMPORTATION OF POTATOES INTO THE UNITED STATES

Notice is hereby given under section 4 of the Administrative Procedure Act (5 U. S. C. 1003) that the Administrator of the Agricultural Research Service, pursuant to the authority conferred by sections 1, 5 and 9 of the Plant Quarantine Act of 1912, as amended (7 U. S. C. 154, 159, 162), is considering amending § 321.8 of the regulations governing the importation of potatoes into the United States (7 CFR 1952 Supp. 321.8) to read as follows:

§ 321.8 *Special provision for the importation of potatoes from Bermuda and the Dominion of Canada (except Newfoundland).* Potatoes may be imported from Bermuda and the Dominion of Canada (except Newfoundland) into the United States or any of its Territories or Districts, free of any restrictions whatsoever, until otherwise ordered, under the Plant Quarantine Act of August 20, 1912, as amended.

The purpose of this amendment is to eliminate from the potato import regulations the present special provision for the importation of potatoes from the States of Chiapas, Guanajuato, Jalisco, Queretaro, San Luis Potosi, Sonora, and Tamaulipas, Mexico, and the Northern Territory of Baja California (now known as the State of Baja California), Mexico. Few potatoes are imported into this country from Mexico. Several small lots, totaling less than 200 pounds, for home use by Border residents, are all the potatoes that have been imported from that country in the past four years.

The proposed elimination of the special import provision relating to Mexican potatoes is based on the finding of the golden nematode of potatoes, Heterodera rostochiensis Wr., in soil associated with potatoes apparently from widely scattered areas of Mexico.

In addition it has been reported by Dr. John S. Niederhauser of the Rockefeller Foundation that the potato wart, Synchytrium endobioticum, has been collected at three different locations in central Mexico. It is understood that there are no restrictions on the interstate movement of potatoes in Mexico.

All persons who desire to submit written data, views, or arguments in connection with this matter should file the same with the Chief of the Plant Quarantine Branch, Agricultural Research Service, United States Department of Agriculture, Washington 25, D. C., within 10 days after the date of the publication of this notice in the FEDERAL REGISTER.

(Secs. 1, 5, 9, 37 Stat. 315, as amended; 7 U. S. C. 154, 159, 162)

Done at Washington, D. C., this 31st day of March 1954.

[SEAL] M. R. CLARKSON,
Acting Administrator, Agricultural Research Service.

[F. R. Doc. 54-2487; Filed, Apr. 5, 1954; 8:52 a. m.]

DEPARTMENT OF LABOR

Office of the Secretary

[29 CFR Part 4]

CHILD LABOR REGULATIONS ORDERS AND STATEMENTS OF INTERPRETATION

OCCUPATIONS PARTICULARLY HAZARDOUS FOR EMPLOYMENT OF MINORS; OCCUPATIONS INVOLVED IN OPERATION OF POWER DRIVEN PAPER-PRODUCTS MACHINES (ORDER 12)

Notice of hearing on proposed finding and order relating to the employment of minors between 16 and 18 years of age in occupations involved in the operation of paper-products machines.

In accordance with the Procedure Governing Determinations of Hazardous-Occupations (29 CFR, Part 4, Subpart D), an investigation has been conducted for the purpose of ascertaining what occupations involved in the operation of power-driven paper-products machines are particularly hazardous for the employment of minors between 16 and 18 years of age or detrimental to their health or well-being and thus constitute oppressive child labor as defined in section 3 (e) of the Fair Labor Standards Act, as amended (52 Stat. 1060, as amended; 29 U. S. C. and Supp. 201 et seq.).

A report of the investigation, entitled "Occupational Hazards to Young Workers, Report No. 12, The Operation of Paper-Products Machines" has been submitted to the Secretary of Labor. The report concludes that certain occupations involved in the operation of power-driven paper products machines are particularly hazardous for the employment of minors between 16 and 18 years of age or detrimental to their health or well-being. Copies of this report will be made available to interested persons upon request to the Bureau of Labor Standards, United States Department of Labor, Washington 25, D. C.

On the basis of such conclusions the Secretary of Labor pursuant to the authority conferred by section 3 (l) of the Fair Labor Standards Act, as amended (52 Stat. 1060, as amended; 29 U. S. C. and Sup. 201 et seq.) and Reorganization Plan No. 2, effective July 16, 1946, adopted pursuant to the Reorganization Act of 1945 (59 Stat. 613), proposes to issue a finding and order in the form set forth below.

Accordingly, notice is hereby given of a public hearing to be held May 11, 1954, commencing at 10:00 a. m. in Room 1214, United States Department of Labor Building, 14th Street and Constitution Avenue, Northwest, Washington 25, D. C., before a presiding officer to be hereinafter designated, at which hearing interested parties may appear and be heard with respect to said proposed finding and order. All interested persons desiring to appear at the hearing are requested to notify the Secretary of Labor at least five days prior to the date fixed for the hearing. Any interested person who is unable to appear in person may file a written comment or brief with the Secretary of Labor not later than the day prior to the hearing in order that the same may be made a part of the record at the hearing.

Proposed finding and order. The finding and order which I propose to issue in this matter is as follows:

By virtue of the authority vested in me by section 3 (l) of the Fair Labor Standards Act, as amended (52 Stat. 1060, as amended; 29 U. S. C. and Sup. 201 et seq.) and Reorganization Plan No. 2 of 1946 adopted pursuant to the Reorganization Act of 1945 (59 Stat. 613) and in accordance with the Procedure Governing Determinations of Hazardous Occupations (29 CFR Part 4, Subpart D), an investigation having been conducted with respect to what occupations involved in the operation of paper-products machines are particularly hazardous for the employment of minors between 16 and 18 years of age or detrimental to their health or well-being and a report of said investigation having been submitted to me:

Now, therefore, I, James P. Mitchell, Secretary of Labor, after reviewing all the evidence and information with respect to the occupations involved, including the report of the investigation, do hereby find, declare and order:

§ 4.63 *Occupations involved in the operation of paper-products machines.*—(a) *Findings and declaration of fact.* The following occupations involved in the operation of power-driven paper-products machines are particularly hazardous for the employment of minors between 16 and 18 years of age or detrimental to their health or well-being.

(1) The occupation of operating or assisting to operate any of the following machines: Arm-type wire stitcher or stapler, circular or band saw, corner cutter or mitering machine, corrugating and single- or double-facing machine, envelope die-cutting press, guillotine paper cutter or shear, horizontal bar scorer, laminating or combining machine, sheeting machine, scrap-paper baler, or vertical slotter.

(2) The occupation of operating or assisting to operate any platen die-cutting press, platen printing press, or punch press which involves hand feeding of the machine.

(b) *Definitions.* (1) The term "operating or assisting to operate" shall mean all work which involves starting or stopping the machine, placing materials into or removing them from the machine, setting up or cleaning the machine, or any other work in connection with the operation of the machine.

(2) The term "paper-products machine" shall mean power-driven machines used in the remanufacture or conversion of paper or pulp into a finished product. The term is understood to apply to such machines whether they are used in establishments that manufacture converted paper or pulp products, or in any other type of manufacturing or nonmanufacturing establishment.

(c) This section shall not justify noncompliance with a Federal or State law or municipal ordinance establishing a higher standard than the standard established herein.

(d) This section, when issued, will be made effective 30 days after due publication in the FEDERAL REGISTER.

(Sec. 3 (l), 52 Stat. 1060, as amended; 29 U. S. C. 203)

Signed at Washington, D. C., this 30th day of March 1954.

JAMES P. MITCHELL,
Secretary of Labor.

[F. R. Doc. 54-2423; Filed, Apr. 5, 1954; 8:45 a. m.]

CIVIL AERONAUTICS BOARD

[14 CFR Part 40]

[Draft Release No. 54-8]

SCHEDULED INTERSTATE AIR CARRIER CERTIFICATION AND OPERATION RULES

NOTICE OF PROPOSED RULE-MAKING

MARCH 31, 1954.

By petition filed with the Board on March 29, 1954, the Air Transport Association of America (ATA) on behalf of 12 certificated air carriers, has requested the Board to amend Part 40 of the Civil Air Regulations in the manner more particularly set forth hereinafter. The above-mentioned petition requested a postponement of the April 1, 1954, effective date of the provisions in question for a period of 90 days and, should the Board not agree with the proposed amendments, an opportunity to present oral argument to the Board.

The provisions in question are §§ 40.261 (d), 40.263, 40.280 (b), and 40.307. These rules deal with (1) the need for a flight crew member in addition to the flight engineer who is familiar with the flight engineer duties to provide emergency coverage should the flight engineer become incapacitated; (2) the requirement that a certificated flight engineer be a member of the flight crew on certain airplane types; (3) the qualifications of a check airman who gives a flight engineer a flight check required by Part 40; and (4) the recent experience requirements and necessity for a flight check of a flight engineer. The ATA petition requests that the above-mentioned sections be amended (1) to delete the requirement that a crew member in addition to the flight engineer be sufficiently qualified to provide emergency coverage for that function; (2) to allow either a commercial pilot qualified in the type aircraft, in addition to the normal pilot complement, or a certificated flight engineer to satisfy the requirement for a flight engineer; (3) to allow a check pilot to give a flight engineer flight checks required by Part 40 without himself holding a flight engineer certificate; and (4) to allow 50 hours of experience within the preceding 12 months to satisfy the recent experience requirements for flight engineers and to dispense with the necessity for a flight check should such recent experience requirements not be met.

The petition states that the principal concern of the air carriers in filing the request is "related to the authority of the pilot-in-command over the flight engineer's position". In support of this

contention, reference is made therein to resolutions of the Air Line Pilots Association which interpret § 40.261 (d) of the new Part 40 of the Civil Air Regulations as being in derogation of the paramount authority of the pilot-in-command. The statement is also made that "the flight engineer organization has increasingly taken the position that the flight engineer's panel is wholly within their jurisdiction and not subject to the direction of the pilot". The conclusion is drawn by the petitioner that the sections cited create a serious safety hazard in the cockpit and that the safety of airline operations is being endangered by an unfavorable cockpit atmosphere.

Section 4 (d) of the Administrative Procedure Act requires the Board to accord to any interested person the right to petition for the issuance, amendment or repeal of a rule. In accordance therewith, § 301.40 et seq. of 14 CFR Part 301 set forth the Board's Procedural Regulations governing the request for issuance, waiver, reconsideration, amendment, or rescission of a Civil Air Regulation. The above-mentioned petition has been submitted thereunder.

The Board adopted Part 40 of the Civil Air Regulations, which comes into effect on April 1, 1954, after more than 5 years of consideration and discussion with all segments of the aviation industry. This Part was adopted in April, 1953, and initially was to become effective on October 1, 1953. The effective date was subsequently extended on two separate occasions and now stands at April 1, 1954, or almost one year after adoption by the Board. The Board, therefore, will not lightly grant further extensions of the effective date of this Part or any of the provisions thereof. A review of the ATA petition discloses no substantiating data for the statement that the provisions in question "create a safety hazard in the cockpit". Although the petition refers to a general jurisdictional dispute between pilots and flight engineers employed by Eastern Air Lines, which dispute was ostensibly based on the extent of the authority of the pilot-in-command, interpretation No. 1 of Part 40, adopted March 26, 1954, makes abundantly clear the paramount authority of the pilot-in-command. Indeed, the statements of the President of the Flight Engineers' Union attached to the ATA petition, belie the allegation that the Flight Engineers' Union has taken the position that "the flight engineers' panel is wholly within their jurisdiction and not subject to the direction of the pilot". The petition does not set forth any specific instance in which the relationship between the pilot-in-command and the flight engineer became so strained because of the above factors that an unsafe condition was actually created. Nor has the Board received independently any advice of any such incident. Therefore, in the absence of substantiating data, the Board finds no basis for the requested suspension and denies the petition to suspend the effective date of the sections in dispute.

However, in view of the seriousness and complexity of the matter, and as a means for exploring all possibilities of regulatory action which might further clarify the relationship between captain and crew, the Board believes that the petition of ATA should be circulated to the public in accordance with rule-making procedures to afford all interested parties an opportunity to present to the Board such relevant material as they may see fit. Accordingly, notice is hereby given that the Board will consider the promulgation of an amendment to Part 40 of the Civil Air Regulations (14 CFR Part 40) in the form set forth in the attached proposed rule, which is the proposal of the Air Transport Association of America, or such other and different rules as the comments on the issues raised by the petition justify.

Interested persons may participate in the proposed rule-making by submitting such written data, views, or arguments as they may desire. Communications should be submitted in duplicate to the Civil Aeronautics Board, Attention Bureau of Safety Regulation, Washington 25, D. C. All pertinent material contained in communications received on or before June 1, 1954, will be considered by the Board before taking action on the proposed rule. Should comments received indicate the necessity therefor, the Board will set this matter down for oral argument by interested parties.

(Sec. 205 (a); 52 Stat. 984; 49 U. S. C. 425 (a). Interpret or apply secs. 601–610; 52 Stat. 1007–1012, as amended; 49 U. S. C. 551–560)

By the Civil Aeronautics Board.

[SEAL] M. C. MULLIGAN, *Secretary.*

It is proposed to amend Part 40 of the Civil Air Regulations as follows:

1. Delete § 40.261 (d).

2. Amend § 40.263 to read as follows:

§ 40.263 *Flight engineer.* An airman holding a valid flight engineer certificate, or an airman additional to other requirements of this part holding a valid commercial pilot's license and qualified on the airplane to be used, shall be required on all airplanes certificated for more than 80,000 pounds maximum certificated take-off weight. Such airman shall also be required on all four-engine airplanes certificated for more than 30,000 pounds maximum certificated take-off weight where the Administrator finds that the design of the airplane used or the type of operation is such as to require such additional airman for the safe operation of the airplane.

3. Amend § 40.280 (b) to read as follows:

(b) Each air carrier shall be responsible for providing adequate ground and flight training facilities and properly qualified instructors. There also shall be provided a sufficient number of check airmen to conduct the flight checks required by this part. Such check airmen shall hold the same airman certificates and ratings as are required for the airman being checked: *Provided,* That a check pilot holding a rating on the airplane may flight check any member of the flight crew.

4. Amend § 40.307 to read as follows:

§ 40.307 *Flight engineer qualification for duty.* A flight engineer shall not be assigned to nor perform duties for which he is required to be certificated as a flight engineer unless, within the preceding 12-month period, he has had at least 50 hours of experience as a flight engineer on the type airplane on which he is to serve, or until the air carrier or an authorized representative of the Administrator has checked such flight engineer and determined that he is familiar with all essential current information and operating procedures relating to the type of airplane to which he is to be assigned and is competent with respect to such airplane.

SECURITIES AND EXCHANGE COMMISSION

[17 CFR Parts 270, 274]

REVISION OF ANNUAL AND QUARTERLY REPORTING FORMS AND RULES

NOTICE OF PROPOSED RULE MAKING

Notice is hereby given that the Securities and Exchange Commission has under consideration proposals to revise Forms N-30A-1 and N-30B-1[1] (17 CFR 274.101 and 274.106), which are the annual and quarterly reporting forms for registered management investment companies under section 30 of the Investment Company Act of 1940 and sections 13 and 15 (d) of the Securities Exchange Act of 1934. The Commission also has under consideration proposals to amend the related §§ 270.8b-2, 270.8b-23, 270.30a-3 and 270.30b1-2 (Rules N-8B-2, N-8B-23, N-30A-3, and N-30B1-2), to adopt a new § 270.8b-5 (Rule N-8B-5) and to rescind § 270.8c-1 (Rule N-8C-1). The Commission hereby extends to May 31, 1954, the time for filing an annual report on Form N-30A-1 for any fiscal year ended after November 30, 1953, and prior to February 1, 1954.

The revisions in the annual and quarterly reporting forms have been proposed in the light of the recent thorough revision of Form N-8B-1 (17 CFR 274.11), the registration form for management investment companies under section 8 of the Investment Company Act of 1940. The two reporting forms together are, in general, designed to keep up-to-date the information required by Form N-8B-1. Information, which it appears to the Commission, should be reported currently would be supplied in the quarterly report. The quarterly report would not, however, have to be filed automatically for each quarter as at present, but only if one of the events required to be reported occurs and has not been reported elsewhere. The revision of the reporting requirements corresponds to the correlation of the annual report form on Form 10-K (17 CFR 249.310) and the current report form on Form 8-K (17 CFR 249.308), the forms prescribed for general use under sections 13 and 15 (d) of the Securities Exchange Act of 1934.

As a part of the Commission's program to eliminate duplication wherever possible, the proposed Form N-30A-1 provides that many items of information can be omitted if a prospectus containing the same information has been filed with the Commission. This should be particularly helpful to open-end companies which usually file prospectuses at least annually. A similar provision is suggested with respect to information already reported in a proxy statement. In addition, it is proposed to amend the definition of "previously reported" so as to make it unnecessary to file a quarterly report to furnish information already given in a prospectus, a proxy statement, or a report, including a stockholders report, filed with the Commission. The provisions of § 270.8b-23 (Rule N-8B-23) would similarly be broadened so as to make it clear that information in a registration statement, a prospectus, a proxy statement, or a report, may be incorporated by reference. The provisions of this rule also permit incorporation by reference in an annual report of financial statements contained in a stockholders report if they substantially meet the requirements of the annual report form.

The proposed amendment to Rule N-8B-23 mentioned above, would make Rule N-8C-1 unnecessary, and it is, therefore, proposed to rescind that rule. The revision of the annual and quarterly reporting forms would make certain technical amendments in Rule N-30A-3 and N-30B1-2 necessary. The Commission also proposes to adopt N-8B-5 to provide specifically for the time of filing a registration statement under section 8 of the act. Separate instructions with respect to this matter were formerly contained in the registration forms.

Copies of the proposed revised Forms N-30A-1 and N-30B-1 may be obtained by any interested person upon request. The text of the proposed new Rule N-8B-5 and the proposed amended paragraphs of Rules N-8B-2, N-8B-23, N-30A-3 and N-30B1-2 are set forth below. It is proposed to rescind paragraph (d) of Rules N-30A-3 and N-30B1-2, which are no longer necessary.

§ 270.8b-2 *Definitions.* • • •

Previously filed or reported. The terms "previously filed" and "previously reported" mean previously filed with, or reported in, a registration statement filed under section 8 of the act or under the Securities Act of 1933, a report filed under section 30 of the act or section 13 or 15 (d) of the Securities Exchange Act of 1934, a definitive proxy statement filed under section 20 of the act or section 14 of the Securities Exchange Act of 1934, or a prospectus filed under the Securities Act of 1933; provided, that information contained in any such document shall be deemed to have been previously filed with, or reported to, an exchange only if such document is filed with such exchange.

§ 270.8b-5 *Time of filing Original Registration Statement.* An investment company shall file a registration statement with the Commission on the appropriate form within three months after the filing of notification of registration under section 8 (a) of the act, provided that if the fiscal year of the company ends within the three months period, its registration statement may be filed within three months after the end of such fiscal year.

§ 270.8b-23 *Incorporation by reference.* (a) Any registrant may incorporate by reference, in answer or partial answer to any item of a registration statement or report, any information contained elsewhere in the statement or report or any information contained in any other statement, report or prospectus filed with the Commission pursuant to any Act administered by it, provided that a copy of such other statement, report or prospectus is filed with each copy of the registration statement or report in which it is incorporated by reference. Matter contained in an exhibit, however, may be incorporated only to the extent permitted by § 270.8b-24 (Rule N-8B-24).

§ 270.30a-3 *Annual report for totally-held registered investment company subsidiary of registered investment company.* Notwithstanding the provisions of § 270.30a-2 (Rule N-30A-2), a registered management investment company for which Form N-30A-1 (17 CFR 274.101) is appropriate for annual reports and which is a totally-held subsidiary of a registered management investment company may file a statement in the form prescribed by paragraph (b) of this section in lieu of an annual report on Form N-30A-1 (17 CFR 274.101), if the following conditions are met:

(1) The fiscal year of the subsidiary ends as of the same date as the fiscal year of the parent;

(2) The information and exhibits required by Form N-30A-1 (17 CFR 274.101) with respect to the subsidiary are included in the annual report of the parent;

(3) Financial statements for the subsidiary for the period required by Form N-30A-1 (17 CFR 274.101) are included in the annual report of the parent, either on a consolidated or separate basis; and

(4) It is indicated on the facing page of the parent's annual report that such report is filed on behalf of itself and the subsidiary, naming the subsidiary.

§ 270.30b1-2 *Quarterly report for totally-held registered investment company subsidiary of registered investment company.* (a) Notwithstanding the provisions of § 270.30b1-1 (Rule N-30B1-1), a registered management investment company for which Form N-30B-1 (17 CFR 274.106) is appropriate for quarterly reports and which is a totally-held subsidiary of a registered management investment company may file a statement in the form prescribed by paragraph (b) of this section in lieu of a quarterly report on Form N-30B-1 (17 CFR 274.106), if the following conditions are met:

(1) The fiscal quarter of the subsidiary ends as of the same date as the fiscal quarter of the parent;

(2) The information and exhibits required by Form N-30B-1 (17 CFR 274.106) with respect to the subsidiary are included in the quarterly report of the parent; and

(3) It is indicated on the facing page of the parent's quarterly report that such report is filed on behalf of itself and the subsidiary, naming the subsidiary.

The above proposals are made pursuant to the provisions of sections 8, 30, and 38 (a) and (b) of the Investment Company Act of 1940, and sections 13, 15 (d) and 23 (a) of the Securities Exchange Act of 1934.

All interested persons are invited to submit data, views, and comments on these proposals, in writing, to the Secretary, Securities and Exchange Commission, 425 Second Street NW., Washington 25, D. C., on or before April 26, 1954. Unless the person submitting any such data, views or comments requests in writing that they be held confidential, they will be public records available for public inspection.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

MARCH 30, 1954.

NOTICES

DEPARTMENT OF JUSTICE

Immigration and Naturalization Service

ORGANIZATION STATEMENT

MISCELLANEOUS AMENDMENTS

Effective as of April 1, 1954, the following amendments to the Statement of Organization of the Immigration and Naturalization Service (17 F. R. 11613, December 19, 1952), as amended, are prescribed:

1. Subparagraph (1) of paragraph (a) of section 1.50 is amended so that when taken with the introductory material it will read as follows:

SEC. 1.50 *Places where, and methods whereby, information may be secured or submittals or requests made.* (a) Any person desiring information relative to a matter handled by the Immigration and Naturalization Service or any person desiring to make a submittal or request in connection with such a matter should communicate either orally or in writing with whichever of the following offices is most convenient for him:

(1) A district headquarters office of the Service. There are fifteen such of-

fices located in the cities shown in section 1.51.

2. Section 1.51 is amended by eliminating District No. 11, *Kansas City, Missouri*, and by amending Districts numbered 9, 12, 14, and 15, which, when taken with the introductory material, will read as follows:

SEC. 1.51 *Field districts.* The territory within which officials of the Immigration and Naturalization Service are located is divided into districts which are designated by numbers, have fixed headquarters, and are defined as follows:

• • • • •

9. *Chicago, Illinois.* Includes the States of Illinois, Missouri, Iowa, Kansas, and Nebraska; Isle Royale, Michigan; and the States of Wisconsin, Minnesota, North Dakota, and South Dakota; also jurisdiction over the United States immigration station located at Winnipeg, Manitoba, Canada. Menominee, Michigan, is included in District No. 9 solely with respect to the inspection of seamen.

• • • • •

12. *Seattle, Washington.* Includes the States of Idaho, Montana, Oregon, Wyoming, and Washington; and the Territory of Alaska; also jurisdiction over the United States immigration stations located at Sydney, Vancouver, and Victoria, British Columbia, Canada.

• • • • •

14. *San Antonio, Texas.* Includes that part of the State of Texas lying east and south of the counties of Terrell, Pecos, Upton, Midland, Howard, Mitchell, Nolan, Fisher, Stonewall, King, Cottle, and Childress; and the State of Oklahoma.

15. *El Paso, Texas.* Includes that part of the State of Texas lying west and north of the counties of Val Verde, Crockett, Reagan, Glasscock, Sterling, Coke, Taylor, Jones, Haskell, Knox, Foard, and Hardeman; the States of New Mexico and Colorado; and the State of Arizona except the counties of Yuma and Mojave.

Dated: March 30, 1954.

HERBERT BROWNELL, Jr.,
Attorney General.

Recommended: March 25, 1954.

ARGYLE R. MACKEY,
Commissioner of Immigration and Naturalization.

DEPARTMENT OF THE INTERIOR

Bureau of Indian Affairs

[Order 551, Amdt. 7]

CENTRAL OFFICE PERSONNEL AND AREA DIRECTORS

DELEGATION OF AUTHORITY WITH RESPECT TO CERTAIN FUNCTIONS

Order 551, as amended (16 F. R. 2939, 2940; 16 F. R. 5456, 5457; 16 F. R. 7467, 7468; 16 F. R. 8252, 17 F. R. 3516, 3517; 17 F. R. 7552; and 18 F. R. 7305), is further amended as hereinafter indicated.

1. Section 2 *Authority of Central Office Personnel* is amended to read as follows:

SEC. 2. *Authority of Central Office Personnel.* (a) The Associate Commissioner, Assistant Commissioners, and those persons authorized to act in their stead during their absence from their respective offices, may severally exercise any and all authority conferred upon the Commissioner of Indian Affairs by the Secretary of the Interior. These officials may, in specific individual cases, redelegate such authority to other employees of the Bureau.

(b) The Chief, Branch of Realty, may exercise the authority conferred upon the Commissioner, Bureau of Indian Affairs, by the Secretary of the Interior (1) in section 13 of his Order 2508, as amended, and (2) in the general regulations in Title 25, Chapter I, Subchapters Q, R, T, and W of the Code of Federal Regulations, insofar as the authority thereby conferred upon the Commissioner relates to action in individual [illegible].

2. Section 3 *Authority of Area Directors*, is amended as follows:

SEC. 3. *Authority of Area Directors.* (a) An Area Director may authorize any employee of his office to perform the functions of the Area Director in case of a vacancy in that office or in case of the absence or sickness of the Area Director. An employee acting under the authority of this subsection shall sign documents under the title "Acting Area Director."

(b) The Associate Area Director, Assistant Area Director, and the Area Administrative Officer under the general direction and supervision of the Area Director may, except for the execution of contracts under section 305 of this order, severally exercise all the power and authority of the Area Director.

(c) An Area Director may, by a written order, redelegate to his subordinates any authority delegated to him by this order subject, however, to the approval of such redelegation order by the Commissioner, Bureau of Indian Affairs, and its publication in the FEDERAL REGISTER.

(d) An Area Director may exercise the authority of the Commissioner as follows:

• • • • •

3. That part of section 305 *Construction contracts*, preceding paragraph (a), is amended to read as follows:

SEC. 305. *Construction contracts.* The execution of construction contracts where the amount involved does not exceed $10,000.

GLENN L. EMMONS,
Commissioner.

[F. R. Doc. 54-2453; Filed, Apr. 5, 1954; 8:48 a. m.]

[Gallup Area Office Redelegation Order 1]

GENERAL SUPERINTENDENTS OF NAVAJO AND UNITED PUEBLOS AGENCIES

DELEGATION OF AUTHORITY WITH RESPECT TO CERTAIN FUNCTIONS

SECTION 1. *Authority of the General Superintendents of the Navajo Agency and the United Pueblos Agency.* The General Superintendents of the Navajo Agency and the United Pueblos Agency may exercise the authority delegated to Area Directors pursuant to Order No. 551 of the Bureau of Indian Affairs, as amended (16 F. R. 2939, 2940; 16 F. R. 5456, 5457; 16 F. R. 7467, 7468; 16 F. R. 8252; 17 F. R. 3516, 3517; 17 F. R. 7552; and 18 F. R. 7305), except the authority to redelegate.

SEC. 2. *Termination of authority.* The authority delegated by this order shall terminate on June 30, 1954, unless sooner terminated by an Order of the Area Director published in the FEDERAL REGISTER.

SEC. 3. *Appeals.* Any action taken by General Superintendents pursuant to this order shall be subject to the right of appeal. An appeal may be taken from the decision of the General Superintendent to the Area Director, Gallup Area Office. All appeals must be filed in writing with the General Superintendent. An appeal filed with the General Superintendent shall be promptly transmitted by him with the record in the case to the Area Director, Gallup Area Office. Any action taken by the Area Director pursuant to this order shall be subject to the right of appeal to the Commissioner, Bureau of Indian Affairs, pursuant to section 1 of Order 551, as amended. Any action taken by the Commissioner of the Bureau of Indian Affairs on such an appeal is subject to the right of appeal to the Secretary of the Interior, pursuant to section 1 of Order 2508, as amended, of the Secretary of the Interior.

W. WADE HEAD.
Area Director.

Approved: April 1, 1954.

GLENN L. EMMONS,
Commissioner.

Bureau of Land Management

IOWA

NOTICE OF PROPOSED WITHDRAWAL AND RESERVATION OF LANDS

MARCH 31, 1954.

An application, number 1622226, for the withdrawal from all forms of appropriation under the public land laws, including the mining and mineral-leasing laws of the lands described below was filed on November 17, 1952, by the Office of the Chief of Engineers, Department of the Army. The purposes of the proposed withdrawal: For use as a river terminal.

For a period of 30 days from the date of publication of this notice, persons having cause to object to the proposed withdrawal may present their objections in writing to the Regional Administrator, Region VI, Bureau of Land Management, Department of the Interior at Washington 25, D. C. In case any objection is filed and the nature of the opposition is such as to warrant it, a public hearing will be held at a convenient time and place, which will be announced, where opponents to the order may state their views and where proponents of the order can explain its purpose.

The determination of the Secretary on the application will be published in the FEDERAL REGISTER, either in the form of a public land order or in the form of a Notice of Determination if the application is rejected. In either case, a separate notice will be sent to each interested party of record.

The lands involved in the application are:

Fifth Principal Meridian

T. 92 N., R. 2 W.,
Unnumbered lot containing 4.40 acres, in the NE¼ of the NE¼ of sec. 29, at north end of bayou.

H. S. PRICE,
Regional Administrator.

Office of the Secretary

[Order 2583, Amdt. 9]

BUREAU OF LAND MANAGEMENT

DELEGATION OF AUTHORITY IN CONNECTION WITH LANDS AND RESOURCES

MARCH 30, 1954.

Section 2.6, entitled *Enforcement and other actions in connection with certain public parks and other areas*, of Order No. 2583, as amended (15 F. R. 5643, 6997; 16 F. R. 6805; 17 F. R. 7513, 10486; 18 F. R. 161, 3446, 5715; 19 F. R. 1021), is revoked.

(Sec. 2, Reorganization Plan No. 3 of 1950; 5 U. S. C., 1952 ed., sec. 133z-15, note)

DOUGLAS MCKAY,
Secretary of the Interior.

[F. R. Doc. 54-2440; Filed, Apr. 5, 1954; 8:46 a. m.]

[Order 2640, Amdt. 7]

NATIONAL PARK SERVICE

DELEGATION OF AUTHORITY WITH RESPECT TO FUNCTIONS RELATING TO SURPLUS LAND

MARCH 30, 1954.

Order No. 2640, as amended (16 F. R. 5846, 11934; 17 F. R. 482, 964; 18 F. R. 2832, 6789), is further amended as follows:

1. Section 13 is amended to read as follows:

SEC. 13. *Functions relating to surplus land.* (a) The Director is authorized to determine, in accordance with subsection (h) of section 13 of the Surplus Property Act of 1944, as amended by the act of June 10, 1948 (62 Stat. 350; 50 U. S. C., 1946 ed., Supp. V, sec. 1622 (h)), whether surplus land is suitable and desirable for use as a public park, public recreational, area, or historic monument, for the benefit of the public, and to inform disposal agencies of such determinations.

(b) The Director is authorized to determine and enforce compliance with the provisions of any instrument of transfer and take other actions necessary, including the issuance of necessary documents, pursuant to the provision of section 203 (k) (2) of the Federal Property and Administrative Services Act of 1949 (40 U. S. C., Supp. V, sec 484 (k) (2)) with respect to property transferred pursuant to the Surplus Property Act of 1944, as amended and extended (50 U. S. C., 1946 ed., Supp. V, sec. 1622 (h)) to States, political subdivisions and instrumentalities thereof, and municipalities, for use as a public park, public recreational areas, or historic monument for the benefit of the public.

(Sec. 2, Reorganization Plan No. 3 of 1950, 5 U. S. C., 1952 ed., sec. 133z-15, note)

DOUGLAS MCKAY,
Secretary of the Interior.

Office of the Secretary

SPECIAL LIVESTOCK LOAN COMMITTEES

NOTICE OF APPOINTMENT TO COMMITTEES

Pursuant to the authority vested in the Secretary of Agriculture by section 2 (c) of the act of April 6, 1949 (63 Stat. 43), as amended by Public Law 115, 83d Congress, and pending the establishment of permanent Special Livestock Loan Committees, pursuant to said section 2 (c), it is hereby ordered:

1. State Farmers Home Administration Directors, Chairmen of State Agricultural Stabilization and Conservation Committees and Directors of Agricultural Extension, or such other persons in their stead as may be designated by the Secretary of Agriculture, are hereby appointed as Special Livestock Loan Committees to perform all committee functions authorized under the foregoing statute with respect to any applications originating anywhere in their respective States which may be presented to them.

2. County Farmers Home Administration Committees appointed pursuant to section 42 of the Bankhead-Jones Farm Tenant Act, as amended, for counties in areas heretofore or hereafter designated as major disaster areas pursuant to the act of September 30, 1950 (64 Stat. 1109), are hereby appointed temporarily as Special Livestock Loan Committees in their respective counties to perform all committee functions authorized under the said act of April 6, 1949, as amended, with respect to any applications originating in their respective counties which may be referred to them.

3. Before Special Livestock Loan Committees appointed hereunder shall exercise any function, State Farmers Home Administration Directors will certify to the Secretary of Agriculture that the committee members have a recognized knowledge of the livestock industry.

4. All committee functions heretofore exercised by County Farmers Home Administration Committees appointed as Special Livestock Loan Committees by the Secretary of Agriculture are hereby ratified and confirmed.

The effective date of this order is July 30, 1953, and reference herein to the Chairmen of the State Agricultural Stabilization and Conservation Committees shall include Chairmen of the State Production and Marketing Administration Committees.

Done at Washington, D. C., this 31st day of March 1954.

[SEAL] TRUE D. MORSE, *Acting Secretary.*

DEPARTMENT OF LABOR

Wage and Hour Division

LEARNER EMPLOYMENT CERTIFICATES

ISSUANCE TO VARIOUS INDUSTRIES

Notice is hereby given that pursuant to section 14 of the Fair Labor Standards Act of 1938, as amended (52 Stat. 1068, as amended; 29 U. S. C. and Sup. 214) and Part 522 of the regulations issued thereunder (29 CFR Part 522), special certificates authorizing the employment of learners at hourly wage rates lower than the minimum wage rates applicable under section 6 of the act have been issued to the firms listed below. The employment of learners under these certificates is limited to the terms and conditions therein contained and is subject to the provisions of Part 522. The effective and expiration dates, occupations, wage rates, number or proportion of learners, and learning period for certificates issued under the general learner regulations (§§ 522.1 to 522.14) are as indicated below; conditions provided in certificates issued under special industry regulations are as established in these regulations.

Single Pants, Shirts and Allied Garments, Women's Apparel, Sportswear and Other Odd Outerwear, Rainwear, Robes and Leather and Sheep-Lined Garments Divisions of the Apparel Industry Learner Regulations (29 CFR 522.160 to 522.168, as amended June 2, 1952, 17 F. R. 3818).

Bernstein Manufacturing Co., 208 Lake St., Salisbury, Md., effective 3-26-54 to 3-25-55; 10 learners for normal labor turnover purposes (learners are not authorized to be employed at subminimum wage rates in the production of skirts) (ladies' sportswear).

Blue Bell, Inc., Tishomingo, Miss., effective 3-30-54 to 3-29-55; 10 learners for normal labor turnover purposes (work pants).

Carthage Corp., Carthage, Miss., effective 3-29-54 to 3-28-55; 10 percent of the total number of factory production workers for normal labor turnover purposes (work pants, ladies' dungarees).

Crisfield Shirt & Pajama Co., Princess Anne, Md., effective 3-25-54 to 3-24-55; 10 percent of the total number of factory production workers for normal labor turnover purposes (boys' shirts).

Crisfield Shirt & Pajama Co., Crisfield, Md., effective 3-25-54 to 3-24-55; 10 percent of the total number of factory production workers for normal labor turnover purposes (boys' shirts).

Elder Manufacturing Co., Thirteenth and Lucas Avenue, St. Louis, Mo., effective 3-26-54 to 3-25-55; 10 percent of the total number of factory production workers for normal labor turnover purposes (boys' wearing apparel).

Elder Manufacturing Co., 7025 Pennsylvania Avenue, St. Louis, Mo., effective 3-26-54 to 3-25-55; 10 percent of the total number of factory production workers for normal labor turnover purposes (men's and boys' shirts).

Fuhrman-Levitt, Inc., 1486 Haddon Avenue, Camden, N. J., effective 3-26-54 to 3-25-55; 10 learners for normal labor turnover purposes (children's cotton dresses).

Grafton Manufacturing Co., Riverside Drive, Grafton, W. Va., effective 3-25-54 to 3-24-55; 10 percent of the total number of factory production workers for normal labor turnover purposes (ladies' blouses).

Harde Manufacturing Co., Inc., Waverly, Va., effective 3-26-54 to 9-25-54; 35 learners for expansion purposes (boys' jackets).

Hickory Flat Manufacturing Co., Hickory Flat, Miss., effective 4-10-54 to 4-9-55; 10 percent of the total number of factory production workers for normal labor turnover purposes (men's and boys' work shirts).

I. B. S. Manufacturing Co., New Albany, Miss., effective 4-10-54 to 4-9-55; 10 percent of the total number of factory production workers for normal labor turnover purposes (men's and boys' sport shirts).

J. A. Lamy Manufacturing Co., Sedalia, Mo., effective 4-10-54 to 4-9-55; 10 percent of the total number of factory production workers for normal labor turnover purposes (men's, boys' and women's waistband overalls).

Lee Manufacturing Co., Inc., 247 South Main Street, Pittston, Pa., effective 4-7-54 to 4-6-55; 10 percent of the total number of factory production workers for normal labor turnover purposes (ladies' and children's dresses).

Logan Manufacturing Co., North Main Street, Russellville, Ky., effective 4-4-54 to 4-3-55; 10 percent of the total number of factory production workers for normal labor turnover purposes (work pants).

M and S Co., Inc., 2607 DeSiard Street, Monroe, La., effective 4-1-54 to 3-31-55; 10 percent of the total number of factory production workers for normal labor turnover purposes (men's and boys' dress pants).

Movie Star of Poplarville, Inc., Poplarville, Miss., effective 3-25-54 to 3-24-55; 10 learners for normal labor turnover purposes (women's slips, petticoats and gowns).

Peerless Sportswear Manufacturing Co., 324 South Main Street, Wilkes-Barre, Pa., effective 3-29-54 to 3-28-55; 10 learners for normal labor turnover purposes (boys' pants).

Southern Textiles, Inc., Alamo, Tenn., effective 3-29-54 to 9-28-54; 10 learners for expansion purposes (foundation garments).

Top Mode Manufacturing Co., Warsaw, N. C., effective 4-15-54 to 4-14-55; 10 learners for normal labor turnover purposes (women's dresses).

Topkis Bros. Co., Corbin, Ky., effective 3-27-54 to 3-26-55; 10 percent of the total number of factory production workers for normal labor turnover purposes (men's and boys' sport shirts and jackets).

Vidalia Garment Co., Ltd., Vidalia, Ga., effective 4-11-54 to 4-10-55; 10 percent of the total number of factory production workers for normal labor turnover purposes (men's and boys' sport shirts).

Knitted Wear Industry Learner Regulations (29 CFR 522.68 to 522.79, as amended January 21, 1952, 16 F. R. 12866).

Union Underwear Co., Inc., Bowling Green, Ky., effective 4-15-54 to 4-14-55; 5 percent of the total number of factory production workers for normal labor turnover purposes (men's and boys' shorts and knit athletic undershirts).

Shoe Industry Learner Regulations (29 CFR 522.250 to 522.260, as amended March 17, 1952, 17 F. R. 1500).

Martinsburg Shoe Co., Inc., 107 Highland Street, Martinsburg, Pa., effective 3-29-54 to 9-28-54; 25 learners for expansion purposes.

The following special learner certificates were issued in Puerto Rico to the companies hereinafter named. The effective and expiration dates, the number of learners, the learner occupations, the length of the learning period and the learner wage rates are indicated, respectively.

Pride Products, Inc., 263 Carpenter Road, Hato Rey, P. R., effective 3-19-54 to 9-18-54; 10 learners. Machine stitching, 240 hours @ 39¢ an hour, 240 hours @ 44¢ an hour; Cutting (hand), 240 hours @ 39¢ an hour; Thumb cutting, 240 hours @ 39¢ an hour (fur lined or fur trimmed gloves).

Rico Glove Corp., Bo. Maton, Cayey, P. R., effective 3-22-54 to 9-21-55; 25 learners. Machine stitching woven and knitted fabric gloves, 240 hours @ 32¢ an hour, 240 @ 40¢ an hour (fabric gloves).

Each certificate has been issued upon the employer's representation that employment of learners at subminimum rates is necessary in order to prevent curtailment of opportunities for employment, and that experienced workers for the learner occupations are not available. The certificates may be cancelled in the manner provided in the regula-

tions and as indicated in the certificates. Any person aggrieved by the issuance of any of these certificates may seek a review or reconsideration thereof within fifteen days after publication of this notice in the FEDERAL REGISTER, pursuant to the provisions of Part 522.

Signed at Washington, D. C., this 29th day of March 1954.

MILTON BROOKE,
Authorized Representative of the Administrator.

SECURITIES AND EXCHANGE COMMISSION

[File No. 70-3214]

WEST TEXAS UTILITIES CO.

ORDER PERMITTING DECLARATION TO BECOME EFFECTIVE FOR ISSUANCE AND SALE BY SUBSIDIARY OF REGISTERED HOLDING COMPANY OF NEW PREFERRED STOCK SUBJECT TO EXCHANGE OFFER AND REDEMPTION OF OUTSTANDING PREFERRED STOCK

MARCH 31, 1954.

West Texas Utilities Company ("West Texas"), a public utility subsidiary of Central and South West Corporation, a registered holding company, having filed a declaration, and amendments thereto, pursuant to sections 6 (a), 7 and 12 (c) of the Public Utility Holding Company Act of 1935 ("act") and Rules U-42 and U-50 promulgated thereunder, with respect to the following proposed transactions:

West Texas at the present time has outstanding 47,370 shares of $6 Cumulative Preferred Stock ("Old Preferred Stock"), without par value, which is redeemable at $110 per share, plus accrued dividends.

West Texas proposes to (a) issue 60,000 shares of __ Percent Cumulative Preferred Stock ("New Preferred Stock"), of the par value of $100 per share; (b) to offer to the holders of the 47,370 shares of Old Preferred Stock the right to exchange their shares of Old Preferred Stock for shares of New Preferred Stock, on a share for share basis, with a cash adjustment for the difference between (i) the initial public offering price, plus accrued dividends, of the New Preferred Stock and (ii) the redemption price ($110 per share, plus accrued dividends to redemption date) of the Old Preferred Stock; and (c) to sell to underwriters all of the unexchanged shares of New Preferred Stock, together with the additional 12,630 shares of New Preferred Stock proposed to be issued. The exchange offer will be open for a period of from ten to twelve days.

West Texas proposes to redeem all unexchanged shares of Old Preferred Stock at their redemption price of $110 per share, plus accrued dividends to date of redemption, and to retire all shares of Old Preferred Stock acquired pursuant to such redemption or received through the exchange offer, together with 25,643 reacquired shares of said stock now held in the company's treasury.

West Texas will publicly invite, pursuant to Rule U-50, proposals which shall specify (a) the aggregate amount of compensation to be paid by the company to the bidders for their agreement (i) to purchase such number of shares of the New Preferred Stock as shall not be issuable pursuant to acceptances of the exchange offer, (ii) to purchase 12,630 additional shares of said stock, and (iii) to undertake the formation and management of a group of securities dealers to solicit acceptances of said exchange offer, (b) the dividend rate on the New Preferred Stock, and (c) the price per share to be paid to the company for the unexchanged shares and the additional stock (which price shall be not less than $102 nor more than $105 per share) and which will constitute the initial public offering price. The successful bidder will be required to pay soliciting dealers $0.75 per share in respect of each share of Old Preferred Stock deposited for exchange, provided that the maximum payment to be made in respect of a deposit of shares by any one stockholder shall be $150 and the minimum payment shall be $5. The company will reimburse the successful bidder for the aggregate amount so paid as compensation to soliciting dealers.

West Texas proposes, by appropriate amendment to its Charter, to authorize the shares of New Preferred Stock to be issued and to establish certain protective provisions for the holders of such stock.

West Texas represents that the proceeds, exclusive of accrued dividends, from the sale of the unexchanged shares of New Preferred Stock and the 12,630 additional shares of New Preferred Stock will be applied by the company, to the extent required, to the redemption and the retirement of the unexchanged shares of Old Preferred Stock and to the payment of the cash adjustments payable to stockholders who accept the exchange offer, and the remainder to reimburse the company for a part of the cost of acquisition of 25,643 shares of Old Preferred Stock heretofore reacquired or to pay a part of the cost of the company's construction program.

No state commission, or Federal commission other than this Commission, has jurisdiction over the proposed transactions.

West Texas requests that this Commission's order to be entered herein become effective forthwith upon its issuance.

Fees and expenses of the issuance and sale, other than the redemption premium of the Old Preferred Stock, duplicate dividends, cash adjustments on exchanges and underwriting discounts and commissions, are estimated as follows:

	Amount
Securities and Exchange Commission filing fee	$645
Federal original issue stamp tax	6,600
Printing of Registration Statement, Prospectus, bidding documents, exchange forms, stockholder letters, etc.	12,000
Preparation of stock certificates	900
Accountant's fees	1,500
Exchange Agent's fees	1,900
Transfer Agent's fees	1,650
Registrar fees	770
Fees of Middle West Service Company	6,500
Miscellaneous expenses, including traveling, telephone, etc.	2,535
Total (estimated)	$35,000

Fees of counsel for West Texas are covered by annual retainer agreements. The fee ($5,000) and disbursements (estimated at not more than $250) of Isham, Lincoln & Beale, counsel for the purchasers, are to be paid by the successful bidder. In addition, the company will reimburse the successful bidder for its expenses, estimated at $5,500, and for counsel fees payable to Isham, Lincoln & Beale, estimated at not more than $1,500, in connection with qualification or registration under state securities laws.

Due notice having been given of the filing of the declaration, as amended, and a hearing not having been requested of or ordered by the Commission; and the Commission finding that the applicable provisions of the act and rules promulgated thereunder are satisfied, that no adverse findings are necessary and, that the fees and expenses as estimated are not unreasonable; and the Commission deeming it appropriate in the public interest and the interest of investors and consumers that said declaration, as amended, be permitted to become effective forthwith:

It is ordered, Pursuant to Rule U-23 and the applicable provisions of the act, that said declaration, as amended, be and it hereby is permitted to become effective forthwith, subject to the terms and conditions prescribed in Rules U-24 and U-50.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
Secretary.

[Docket Nos. G-2119, G-2315]

NEW YORK STATE NATURAL GAS CORP.

ORDER PROVIDING FOR PROCEDURE

On March 24, 1954, the consolidated hearing in the above-entitled proceedings was recessed by the Presiding Examiner until April 5, 1954, at which time New York State Natural Gas Corporation (Applicant) is to present the balance of its direct case, to be followed by cross examination of Applicant's witnesses and, thereafter, the presentation of evidence by interveners and Commission staff.

The Presiding Examiner overruled the request made by Commission Staff Counsel that the hearing stand in recess until April 14, 1954, to permit the Commission Staff to complete its field investigation and to prepare for participation in conferences with Applicant and interveners concerning the possibilities of developing a settlement agreement for presentation to the Commission as a basis for disposition of these proceedings or in the alternative to limit the issues to be heard. Staff Counsel stressed the fact that April 14, 1954, is the earliest date that the Staff could be prepared to participate in conferences with the parties.

The Commission finds: It is appropriate in carrying out the provisions of the Natural Gas Act and good cause exists in the circumstances in these proceedings to provide the procedure to be followed herein as hereinafter ordered.

The Commission orders: The hearing in the above-entitled proceedings now scheduled to reconvene on April 5, 1954, shall be solely for the purpose of enabling New York State Natural to complete its direct case and the hearing shall then be recessed until April 14, 1954 at 10:00 a. m., e. s. t., in a hearing room of the Federal Power Commission, 441 G Street NW., Washington, D. C.

Adopted: March 31, 1954.

Issued: March 31, 1954.

By the Commission.

[SEAL] LEON M. FUQUAY,
Secretary.

[F. R. Doc. 54 2467; Filed, Apr. 5, 1954; 8:49 a. m.]

[Docket Nos. G-2344, G-2351]

EL PASO NATURAL GAS CO. AND NEVADA NATURAL GAS PIPE LINE CO.

NOTICE OF FINDINGS AND ORDERS

MARCH 31, 1954.

In the matters of El Paso Natural Gas Company, Docket No. G-2344; El Paso Natural Gas Company and Nevada Natural Gas Pipe Line Co., Docket No. G-2351.

Notice is hereby given that on March 26, 1954, the Federal Power Commission issued its orders adopted March 24, 1954, issuing certificates of public convenience and necessity in the above-entitled matters.

[SEAL] LEON M. FUQUAY,
Secretary.

[Docket No. G-2380]

EL PASO NATURAL GAS CO.

ORDER FIXING DATE OF HEARING

This proceeding is a proper one for disposition under the provisions of § 1.32 (b) (18 CFR 1.32 (b)) of the Commission's rules of practice and procedure, Applicant having requested that its application, filed March 1, 1954, pursuant to section 7 of the Natural Gas Act, for authorization to construct and operate certain facilities as described in said application, be heard under the shortened procedure provided by the aforesaid rule for noncontested proceedings, provided that no request to be heard, protest or petition is filed subsequent to the giving of due notice of the filing of the application including publication in the FEDERAL REGISTER on March 13, 1954 (19 F. R. 1426).

The Commission orders:

(A) Pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing be held on April 16, 1954, at 9:30 a. m., e. s. t., in the Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved and the issues presented by the application: *Provided, however*, That the Commission may, after a noncontested hearing, forthwith dispose of the proceedings pursuant to

the provisions of § 1.32 (b) of the Commission's rules of practice and procedure.

(B) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) (18 CFR 1.8 and 1.37 (f)) of the said rules of practice and procedure.

Adopted: March 30, 1954.

Issued: March 31, 1954.

By the Commission.

[SEAL] LEON M. FUQUAY, *Secretary.*

[Docket No. G-]

MONTANA-DAKOTA UTILITIES CO.

NOTICE OF APPLICATION

MARCH 30, 1954.

Take notice that Montana-Dakota Utilities Co. (Applicant), a Delaware corporation having its principal place of business in Minneapolis, Minnesota, filed, on March 23, 1954, an application for a certificate of public convenience and necessity, pursuant to section 7 of the Natural Gas Act, authorizing the construction and operation of approximately 56 miles of pipelines, ranging from $6^5/_8$ to $2^3/_8$-inch OD, extending from Applicant's 12-inch Cabin Creek-Bismarck line at a point near Gladstone, North Dakota, to the towns of Lefor, Regent, New England, and Mott, North Dakota, together with appurtenant facilities to extend natural gas service to Lefor, Regent, New England, and Mott.

Applicant estimates the cost of its proposed transmission facilities at $563,807 and proposes to finance their construction from working capital.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington, D. C., in accordance with the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) on or before the 19th day of April 1954. The application is on file with the Commission for public inspection.

[SEAL] LEON M. FUQUAY, *Secretary.*

INTERSTATE COMMERCE COMMISSION

[4th Sec. Application 29078]

MALT LIQUORS FROM WESTERN TRUNK-LINE TERRITORY TO THE SOUTH

APPLICATION FOR RELIEF

MARCH 31, 1954.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: W. J. Prueter, Agent, for carriers parties to schedule listed below.

Commodities involved: Malt liquors, carloads, also empty containers in reverse direction.

From: Points in western trunk-line territory.

To: Points in southern territory.

Grounds for relief: Rail competition, circuity, mark-t competition, to maintain grouping, and to apply over short-haul routes rate constructed on the basis of the short line distance formula.

Schedules filed containing proposed rates: W. J. Prueter, Agent, I. C. C. No. A 4031.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission.

[4th Sec. Application 29079]

LUMBER AND RELATED ARTICLES FROM MISSOURI AND KANSAS TO SOUTHERN TERRITORY

APPLICATION FOR RELIEF

APRIL 1, 1954.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: F. C. Kratzmeir, Agent, for carriers parties to schedule listed below.

Commodities involved: Lumber and related articles, carloads.

From: Points in Missouri and Kansas.

To: Points in southern territory.

Grounds for relief: Rail competition, circuity, to maintain grouping, and additional origins.

Schedules filed containing proposed rates: F. C. Kratzmeir, Agent, I. C. C. No. 3949, supp. 45.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission.

[4th Sec. Application 29080]

ILMENITE ORE FROM JACKSONVILLE, SOUTH JACKSONVILLE AND STARKE, FLA., TO BYESVILLE, OHIO

APPLICATION FOR RELIEF

APRIL 1, 1954.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: R. E. Boyle, Jr., Agent, for carriers parties to schedule listed below.

Commodities involved: Ilmenite ore and ilmenite ore concentrates, in carloads.

From: Jacksonville, South Jacksonville and Starke, Fla.

To: Byesville, Ohio.

Grounds for relief: Rail competition, circuity, and the short line distance formula and additional destination.

Schedules filed containing proposed rates: C. A. Spanninger, Agent, I. C. C. No. 1346, supp. 44.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission.

TITLE 7—AGRICULTURE

Chapter IX—Agricultural Marketing Service (Marketing Agreements and Orders), Department of Agriculture

[Navel Orange Reg. 27]

PART 914—NAVEL ORANGES GROWN IN ARIZONA AND DESIGNATED PART OF CALIFORNIA

LIMITATION OF HANDLING

§ 914.327 *Navel Orange Regulation 27*—(a) *Findings.* (1) Pursuant to the marketing agreement and Order No. 14 (18 F. R. 5638), regulating the handling of navel oranges grown in Arizona and designated part of California, effective September 22, 1953, under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and upon the basis of the recommendation and information submitted by the Navel Orange Administrative Committee, established under the said marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such navel oranges, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient; and this section relieves restriction on the handling of navel oranges grown in Arizona and designated part of California.

(b) *Order.* (1) Navel Orange Regulation 25 (§ 914.325; 19 F. R. 1639) is hereby terminated at 12:01 a. m., P. s. t., April 4, 1954.

(2) During the period beginning at 12:01 a. m., P. s. t., April 4, 1954, and ending at 12:01 a. m., P. s. t., May 2, 1954, no handler shall handle any navel oranges, grown in District 1, which are smaller than 2.20 inches in diameter, which shall be the largest measurement at a right angle to a straight line running from the stem to the blossom end of the fruit, except that a tolerance of 5 percent, by count, of oranges smaller than such minimum diameter shall be permitted in any type of container.

(3) During the period beginning at 12:01 a. m., P. s. t., April 4, 1954, and ending at 12:01 a. m., P. s. t., August 1, 1954, no handler shall handle any navel oranges, grown in District 2, which are smaller than 2.20 inches in diameter, which shall be the largest measurement at a right angle to a straight line running from the stem to the blossom end of the fruit, except that a tolerance of 5 percent, by count, of oranges smaller than such minimum diameter shall be permitted in any type of container.

(4) As used in this section, "handler," "handle," "District 1," and "District 2" shall have the same meaning as when used in said marketing agreement and order.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. and Sup. 608c)

Dated: April 2, 1954.

[SEAL] S. R. SMITH,
Director, Fruit and Vegetable Division, Agricultural Marketing Service.

TITLE 9—ANIMALS AND ANIMAL PRODUCTS

Chapter I—Agricultural Research Service, Department of Agriculture

Subchapter C—Interstate Transportation of Animals and Poultry

[B. A. I. Order 383 Revised, Amdt. 23]

PART 76—HOG CHOLERA, SWINE PLAGUE, AND OTHER COMMUNICABLE SWINE DISEASES

SUBPART B—VESICULAR EXANTHEMA

CHANGES IN AREAS QUARANTINED

Pursuant to the provisions of sections 1 and 3 of the act of March 3, 1905, as amended (21 U. S. C. 123, 125), sections 1 and 2 of the act of February 2, 1903, as amended (21 U. S. C. 111–113, 120), and section 7 of the act of May 29, 1884, as amended (21 U. S. C. 117), § 76.27 of the regulations restricting the interstate movement of swine and certain swine products because of vesicular exanthema (9 CFR, Part 76, Subpart B (18 F. R. 3636, 19 F. R. 1367), as amended) is hereby amended by changing subparagraphs (3), (7), (8), (10), (13), (14), (15), (17), and (18) of paragraph (b) relating to California; by changing subdivisions (ii), (viii), and (ix) of subparagraph (2), subdivisions (i) and (xii) of subparagraph (3), subdivision (iii) of subparagraph (4), subdivisions (vi), (ix), (x), (xxv), (xxxi), and (xxxii) of subparagraph (5), subdivisions (iii), (v), and (xi) of subparagraph (6), subdivisions (ii) and (ix) of subparagraph (7), subdivision (vii) of subparagraph (8), of paragraph (e) relating to Massachusetts; by adding new subdivisions (xv), (xvi), and (xvii) to subparagraph (2), subdivisions (vi), (vii), and (viii) to subparagraph (4), subdivisions (xxxiv), (xxxv), and (xxxvi) to subparagraph (5), subdivision (xx) to subparagraph (6), subdivision (xvi) to subparagraph (7), and subdivisions (xvi), (xvii), (xviii), and (xix) to subparagraph (8), of paragraph (e) relating to Massachusetts; by changing subparagraph (1) of paragraph (g) relating to New York; and by changing subdivision (ii) of subparagraph (2) of paragraph (i) relating to Rhode Island, to read as follows:

§ 76.27 *Notice and quarantine.* Notice is hereby given that swine in the following areas in the specified States are affected with vesicular exanthema. Such areas are hereby quarantined because of said disease.

• • • • •

(b) *California:* • • •

(3) That area lying north and east of the U. S. Reclamation Drainage Canal, south of the Sycamore County Road, and west of U. S. Highway 99W; that area consisting of Parcel 4, Lot 37 of Gibson Colony No. 1 lying along North Freshwater Creek off Freshwater Road; and that area lying southwest of State Highway No. 20, southeast of Wescott Road, and north of Power line, in Colusa County.

(viii) That part of the Town of Southwick lying north of State Route No. 57, southwest of West Springfield Road, and east of North Longyard Road.

(5) All of Middlesex County except the following:

• • • • •

(vi) That part of the Town of Burlington lying southwest of U. S. Route No. 3, southeast of Francis Wyman Road, and north of Bedford Street; that part of the Town of Burlington lying southeast of Dug Way, northeast of Winn Street, and northwest of Peach Orchard Road; that part of the Town of Burlington lying west of Middlesex Turnpike and north of Adams Street; and that part of the Town of Burlington lying north of Mill and Winn Streets, and east of Cambridge Road.

• • • • •

(ix) That part of the Town of Concord lying north of Main Street, southeast of Marlborough Road, and southwest of State Route No. 2; that part of the Town of Concord lying south of Laws Brook Road, north of the Boston and Maine Railroad, east of Old Stone Road, and west of Central Street; that part of the Town of Concord lying south of Lowell Road, north of Strawberry Hill Road, and west of the Concord River; and that part of the Town of Concord lying south of the Concord River, north of the Fitchburg Turnpike, and east of Sudbury Road.

(x) That part of the Town of Dracut lying east of Gumpas Avenue and west of Mammoth Road; that part of the Town of Dracut lying west and south of Lakeview Avenue from the Lowell town line to the Tyngsboro town line; that part of the Town of Dracut lying south of Marsh Hill Road, north and west of State Route No. 113, and east of State Route No. 38; that part of the Town of Dracut lying south and east of Cross Street to State Routes No. 38 and No. 113, and north and west of Hildreth Street to Pelham Brook; and that part of the Town of Dracut lying south of Colburn Avenue, east of Hildreth Street, north of State Route No. 110, and west of Bridge Street.

• • • • •

(xxv) That part of the Town of Tewksbury lying northwest of the Shawsheen River, northeast of State Route No. 38, and south of Salem Street; that part of the Town of Tewksbury lying south of East Street, north of North Street, east of State Route No. 38, and west of Maple Street; that part of the Town of Tewksbury lying north of the Shawsheen River and east of State Route No. 38; and that part of the Town of Tewksbury lying north of the Lowell Branch of the Boston and Maine Railroad, west of the Portland Branch of the Boston and Maine Railroad, and east of Sutton Brook.

• • • • •

(xxxi) That part of the Town of Wilmington lying north of Salem Street, northwest of State Route No. 62, west of Ballardvale Street, southwest of the Salem and Lowell Branch of the Boston and Maine Railroad, and east of the Portland Division of the Western Branch of the Boston and Maine Railroad; that part of the Town of Wilmington lying northeast of State Route No. 38, west of the Wilmington Branch of the Boston and Maine Railroad, and south of Salem Street; that part of the Town of Wilmington lying east of the Wilmington Branch of the Boston and Maine Railroad, west of the Portland Branch of the Boston and Maine Railroad, and north of Salem Road; that part of the Town of Wilmington lying east of Woburn Street, north of Concord Road, and south of Park Street; that part of the Town of Wilmington lying south of State Route No. 62; that part of the Town of Wilmington lying north of State Route No. 62 and west of State Route No. 38; and that part of the Town of Wilmington lying north of Salem Street, west of the Wilmington Branch of the Boston and Maine Railroad, and south of Sutton Brook.

(xxxii) That part of the City of Woburn lying south of Putnam Street, north of University Street, east of Middle Street, and west of Ohio Street; that part of the City of Woburn lying north of Russell Street and west of Cambridge Road; that part of the City of Woburn lying south of State Route No. 128, east of Mishawam Road, north of Clinton and Salem Streets, and west of the Western Division of the Portland Branch of the Boston and Maine Railroad; that part of the City of Woburn lying north of Mishawam Road and School Street, east of the Boston and Maine Railroad, south of Boutwell Road, and west of New Boston Street; and that part of the City of Woburn lying south of Lexington, Pleasant, Maine, and Salem Streets.

• • • • •

(xxxiv) The Town of Dunstable.

(xxxv) That part of the City of Lowell lying east of State Route No. 38 and south of the Merrimac River.

(xxxvi) The Town of Stoneham.

(6) All of Norfolk County except the following:

• • • • •

(iii) That part of the Town of Canton lying south of Randolph Street, east of York Street, north of Willow Street, and west of Old Randolph Street; that part of the Town of Canton lying south of Randolph and Washington Streets, east of Pleasant Street, and west of State Route No. 138; and that part of the Town of Canton lying southeast of Main Street, southwest of Wolomolopoag Street, and northwest of Furnace Street.

• • • • •

(v) That part of the Town of Dover lying south of Powisset Street, east of Walpole Street, and north of Hartford Street; and that part of the Town of Dover lying south of Springdale and Pegan Streets, and west of Centre Street.

• • • • •

(xi) That part of the Town of Randolph lying east of High Street, north of Chestnut Street, west of Overlook Road, and south of Canton Street; that part of the Town of Randolph lying south of Canton Street, north of the Braintree Twp. Algonquin Gas Line, and west of Irving Road; and that part of the Town of Randolph lying east of State Route No. 28.

• • • • •

(xx) That part of the Town of Braintree lying south of State Route No. 128.

(7) All of Plymouth County except the following:

• • • • •

(ii) That part of the Town of Bridgewater lying southwest of Winter Street, north of Auburn Street, and east of Beaver Street; that part of the City of Bridgewater lying north of Flagg Street, southwest of Conant Street, and southeast of Summer Street; that part of the Town of Bridgewater lying south of Flagg and Auburn Streets, north and west of the Taunton River, and east of State Route No. 28; that part of the Town of Bridgewater lying south of West Center Street, north of Maple Street, and west of Pleasant Street; and that part of the Town of Bridgewater lying south of Cedar Street, north of Pond Street, and east of Washington Street.

• • • • •

(ix) That part of the Town of Middleborough lying south of Smith Street, east of the New York, New Haven and Hartford Railroad, west of State Route No. 28, and north of Spruce Street; that part of the Town of Middleborough lying south of Plymouth Street, north of Centre Street, east of Vernon Street, and west of Pleasant Street; that part of the Town of Middleborough lying west of Pleasant Street, east of Vernon Street and the Poquoy River, north of Mill and Clay Streets, and south of Centre Street; that part of the Town of Middleborough lying north of River Street, and east of Auburn Street; and that part of the Town of Middleborough lying south of Plain Street, north of Precent Street, east of Plymouth Street, and west of Thompson Street.

• • • • •

(xvi) That part of the Town of Pembroke, lying southeast of Winter Street, northwest of Randall Street, and east of Elm and Spring Streets.

(8) All of Worcester County except the following:

• • • • •

(vii) That part of the Town of Harvard lying southeast of Old Mill Road, north of Pinhill Road, and west of Ayer Road; and that part of the Town of Harvard lying south of Mead and Stowe Roads, east of the East Bare Hill Road, north of Brown Road, and west of Stowe Road.

• • • • •

(xvi) That part of the Town of Berlin lying southwest of State Route No. 62, and north of Boylston Road.

(xvii) That part of the Town of Northbridge lying south of Mendon Road, east of Quaker Street, north of Mill Road, and west of the West River.

(xviii) That part of the Town of Westminster lying south of State Route No. 2, west of Princeton Road, north of State Route No. 140, and east of Depot Road.

(xix) That part of the City of Worcester lying east of State Route No. 110 and north of Mountain Street.

• • • • •

(g) *New York:* (1) The Town of Poland, and that part of the Town of Pomfret lying south of U. S. Route No. 5, west of Hall Road, and northeast of Van Buren Road, in Chautauqua County.

• • • • •

(i) *Rhode Island:* • • •

(2) All of Providence County except the following:

• • • • •

(ii) That part of the Town of Johnston lying east of Simmonsville Avenue, northwest of Scituate Avenue, and south of Simmonsville Lake; and that part of the Town of Johnston lying east of Old Pocasset Road, west of Atwood Avenue, north of Central Pike, and south of U. S. Route No. 6.

• • • • •

Effective date. The foregoing amendment shall become effective upon issuance.

The amendment includes within the areas in which vesicular exanthema has been found to exist and in which a quarantine has been established:

That part of the Town of Pomfret lying south of U. S. Route No 5, west of Hall Road, and northeast of Van Buren Road, in Chautauqua County, in New York.

That area lying southwest of State Highway No. 20, southeast of Wescott Road, and north of Power line, in Colusa County; Sec. 14, T. 4 N., R. 1 W., HU. B. & M., Sec. 16, T. 6 N., R. 1 E., HU. B. & M., Sec. 31, T. 2 N., R. 1 E., HU. B. & M., Sec. 20, T. 6 N., R. 1 E., HU. B. & M., and that part of the City of Eureka lying south of Huntoon Street, north of Harris Avenue, west of Harrison Avenue, and east of "S" Street, in Humboldt County; Sec. 15, T. 10 N., R. 7 W., M. D. B. & M., in Lake County; N. ½ Sec. 10, T. 23 N., R. 17 W., M. D. B. & M., Sec. 1, T. 22 N., R. 13 W., M. D. B. & M., Sec. 30, T. 13 N., R. 11 W., M. D. B. & M., S. ½ Sec. 29, T. 13 N., R. 11 W., M. D. B. & M., Secs. 17 and 20, T. 16 N., R. 11 W., M. D. B. & M., Sec. 31, T. 17 N., R. 12 W., M. D. B. & M., Sec. 25, T. 18 N., R. 18 W., M. D. B. & M., and Sec. 20, T. 19 N., R. 17 W., M. D. B. & M., in Mendocino County; Sec. 21, T. 12 N., R. 8 E., M. D. B. & M., and that area lying south of Colfax Iowa Hill Road, north of Bunch Ravine Road, west of the North Fork American River, and east of U. S. Highway No. 40, in Placer County; Sec. 32, T. 27 N., R. 10 E., M. D. B. & M., in Plumas County; NE ¼ and the N. ½ of SE. ¼ Sec. 20 of Pearson B. Reading Grant, T. 31 N., R. 5 W., M. D. B. & M., and SE. ¼ Sec. 12, T. 32 N., R. 5 W., M. D. B. & M., in Shasta County; that portion of Sec. 3, T. 27 N., R. 3 W., M. D. B. & M., that lies between the Sacramento River on the west and the Paynes Creek Road on the east, W. ½ of SE ¼ Sec. 2, T. 27 N., R. 4 W., M. D. B. & M., and Lot 50 of Los Molinos Subdivision 10, Sec. 8, T. 25 N., R. 2 W., M. D. B. & M., in Tehama County, California.

Hereafter, the restrictions pertaining to the interstate movement of swine, and carcasses, parts and offal of swine, from or through quarantined areas, contained in 9 CFR, Part 76, Subpart B, as amended (18 F. R. 3636, as amended), will apply to such areas.

The amendment also excludes certain areas in California, Massachusetts, and Rhode Island, from the areas in which vesicular exanthema has been found to exist and in which a quarantine has been established. Hereafter, the restrictions pertaining to the interstate movement of swine, and carcasses, parts and offal of swine, from or through quarantined areas, contained in 9 CFR, Part 76, Subpart B, as amended (18 F. R. 3636, as amended), will not apply to such areas. However, the restrictions pertaining to such movement from nonquarantined areas, contained in said Subpart B, as amended, will apply thereto.

The amendment imposes certain further restrictions necessary to prevent the spread of vesicular exanthema, a contagious, infectious, and communicable disease of swine, and relieves certain restrictions presently imposed. The amendment must be made effective immediately to accomplish its purpose in the public interest and to be of maximum

benefit to persons subject to the restrictions which are relieved. Accordingly, under section 4 of the Administrative Procedure Act (5 U. S. C. 1003), it is found upon good cause that notice and other public procedure with respect to the amendment are impracticable and contrary to the public interest, and good cause is found for making it effective less than 30 days after publication in the FEDERAL REGISTER.

(Secs. 7, 23 Stat. 32, as amended, secs. 1, 2, 32 Stat. 791-792, as amended, secs. 1, 3, 33 Stat. 1264 as amended, 1265 as amended, 21 U. S. C. 111, 117, 120, 123, 125)

Done at Washington, D. C., this 1st day of April 1954.

[SEAL] B. T. SHAW,
Administrator,
Agricultural Research Service.

TITLE 14—CIVIL AVIATION

Chapter I—Civil Aeronautics Board

[Supp. 2]

PART 18—MAINTENANCE, REPAIR, AND ALTERATION OF AIRFRAMES, POWERPLANTS, PROPELLERS, AND APPLIANCES

BOLTS, SCREWS, AND MISCELLANEOUS FASTENERS

Section 18.30–6 (d) (1) (ii) as published in 18 F. R. 7407 on November 21, 1953, is amended to standardize self-locking nut installations. This is a relaxation of former practice and permits the industry to use currently acceptable methods of installing self-locking nuts.

Section 18.30–6 (d) (1) (ii) is amended by changing the third sentence to read as follows: "After the nut has been tightened, round or chamfered end bolts, studs or screws should extend at least the full round or chamfer through the nut. Flat end bolts, studs or screws should extend at least $^1/_{32}$ inch through the nut."

(Sec. 205, 52 Stat. 984, as amended; 49 U. S. C. 425. Interprets or applies secs. 601, 605, 52 Stat. 1007, 1010, as amended; 49 U. S. C. 551, 555)

This supplement shall become effective April 1, 1954.

[SEAL] P. B. LEE,
Administrator of Civil Aeronautics.

TITLE 16—COMMERCIAL PRACTICES

Chapter I—Federal Trade Commission

[Docket 6086]

PART 3—DIGEST OF CEASE AND DESIST ORDERS

EMPIRE PRESS, INC., ET AL.

Subpart—*Using, selling, or supplying lottery devices:* § 3.2475 *Devices for lottery selling.* Selling or distributing in commerce, push cards, punchboards, or other lottery devices which are designed or intended to be used in the sale or distribution of merchandise to the public by means of a game of chance, gift enterprise, or lottery scheme; prohibited.

(Sec. 6, 38 Stat. 722; 15 U. S. C. 46. Interprets or applies sec. 5, 38 Stat. 719; 15 U. S. C. 45) [Cease and desist order, Empire Press, Inc., et al., Chicago, Ill., Docket 6086, March 12, 1954.]

In the Matter of Empire Press, Inc., a Corporation, and Sylvea Zimmerman, and Evelyn Zimmerman, Individually and as Officers of Said Corporation, and Joseph Zimmerman

This proceeding was heard by John Lewis, Hearing Examiner, upon the complaint of the Commission, respondents' answer, and hearings, at which testimony and other evidence in support of the allegations of said complaint were introduced before said examiner, theretofore duly designated by the Commission, and were duly recorded and filed in the office of the Commission. Respondents, although they received due notice of all hearings and appeared by counsel at the first of said hearings, made no appearance at subsequent hearings and waived the opportunity afforded them to offer evidence in opposition to the allegations of the complaint.

Thereafter the proceeding regularly came on for final consideration by said examiner on the complaint, the answer, testimony and other evidence, and proposed findings as to the facts and conclusion presented by counsel, oral argument not having been requested, and said examiner, having duly considered the record in the matter, and having found that the proceeding was in the interest of the public, made his initial decision comprising certain findings as to the facts, conclusion drawn therefrom, and order, including order to cease and desist and order of dismissal as to one of the respondents.

Thereafter, following cross-appeals by counsel supporting the complaint and respondents from said initial decision, the matter was disposed of by the "Decision of the Commission", dated March 12, 1954, which slightly modified the findings as to the facts in the initial decision, adopted as the findings and conclusion of the Commission, the findings as to the facts and conclusion in the initial decision as so modified, and issued its order to cease and desist in lieu of the order contained in the initial decision, as set forth in said "Decision of the Commission", as follows:

This matter came before the Commission upon cross-appeals by counsel supporting the complaint and respondents from an initial decision prohibiting respondents Empire Press, Inc., Sylvea Zimmerman and Joseph Zimmerman from:

Selling or distributing in commerce as "commerce" is defined in the Federal Trade Commission Act, push cards, punchboards, or other lottery devices which are *intended to be used or which, due to their design, are commonly and normally* used in the sale or distribution of merchandise to the public by means of a game of chance, gift enterprise, or lottery scheme. [Italics supplied]

The complaint was dismissed as to respondent Evelyn Zimmerman.

Both parties in their appeals object to the portion of the order in the initial decision which is italicized above. Both request the Commission to modify this order to conform to the order approved by the courts in United States Printing and Novelty Co., Inc., et al. v. Federal Trade Commission, 204 F. 2d 737 (C. A., D. C. 1953) and Hamilton Manufacturing Co. v. Federal Trade Commission, 194 F. 2d 346 (C. A., D. C. 1952). The change in the order desired by the parties would strike the above italicized words from the order and substitute for them the words "designed or intended to be." This modification would conform the order to those which are currently being issued by the Commission in similar cases and which have been approved by the courts. Such modification would be proper in all respects in this matter and should be granted. Either form of order would prohibit the sale of punch cards or punchboards labeled as merchandise boards or sold for use as merchandise boards.

Respondents' only other contention in their appeal is that they take exception to the finding in the initial decision to the effect that many of respondents' push cards and punchboards have a printed legend or instructions on their face which explain the manner in which they are to be used or may be used in the sale of specified articles of merchandise. Respondents contend that with the possible exception of a cigarette board there is no card or board in evidence which has a label explaining how it is to be used in the sale of specified articles of merchandise.

The record contains two labels for punchboards which explain how they are to be used in the sale of cigarettes. In addition, it contains two of respondents' catalogs which specifically advertise certain of their punchboards as "merchandise boards." Illustrations of certain of these boards show that their labels explain how they are to be used to sell merchandise although the type of merchandise to be sold is not specified. Thus strictly construed, the excepted to finding should be modified by striking from it the words "various specified articles of." This inconsequential modification in the findings, however, in no way changes the conclusion in this case that respondents' acts and practices as found are in violation of the Federal Trade Commission Act.

The Commission being of the opinion that the findings as to the facts and order in the initial decision should be modified as hereinabove indicated and that as so modified it is appropriate in all respects to dispose of this proceeding:

It is ordered, That the appeals of counsel supporting the complaint and of respondent are hereby granted to the extent hereinabove indicated.

It is further ordered, That the initial decision is hereby modified by striking from the first sentence of the second paragraph of Paragraph Two of the findings as to the facts the words "various specified articles of"; that as so modified the findings as to the facts and conclusion in the initial decision are hereby adopted as the findings and conclusion of the Commission; and that in lieu of the order contained in the initial decision the Commission issues the following as its order to cease and desist.

It is ordered, That respondents Empire Press, Inc., a corporation, and its officers and respondent Sylvea Zimmerman, individually and as an officer of said corporation, and Joseph Zimmerman, individually, and their respective agents, representatives, and employees, directly or through any corporate or other device, do forthwith cease and desist from:

Selling or distributing in commerce as "commerce" is defined in the Federal Trade Commission Act, push cards, punchboards, or other lottery devices which are designed or intended to be used in the sale or distribution of merchandise to the public by means of a game of chance, gift enterprise, or lottery scheme.

It is further ordered, That the complaint herein be, and it hereby is, dismissed as to respondent Evelyn Zimmerman.

It is further ordered, That the respondents shall, within sixty (60) days after service upon them of this order, file with the Commission a report in writing setting forth in detail the manner and form in which they have complied with the order to cease and desist.

Issued: March 12, 1954.

By the Commission.

[SEAL] ALEX. AKERMAN, Jr.,
Secretary.

[Docket 6089]

PART 3—DIGEST OF CEASE AND DESIST ORDERS

PERSONAL DRUG CO. AND LEO SAVITCH

Subpart—*Advertising falsely or misleadingly:* § 3.170 *Qualities or properties of product or service;* § 3.205 *Scientific or*

other relevant facts. In connection with the offering for sale, sale, or distribution of respondents' medicinal preparation designated "Quick-Kaps" or "D-Lay Capsules" or any preparation of substantially similar composition or possessing substantially similar properties, whether sold under the same names or under any other name, disseminating, etc., any advertisements by means of the United States mails, or in commerce, or by any means to induce, etc., directly or indirectly, the purchase in commerce of said preparations, which advertisements represent, directly or by implication: (a) That the use of said preparation will terminate pregnancy; (b) that said preparation is of any value in cases of delayed menstruation, unless such representations be expressly limited to those cases due to iron deficiency anemia and in which the use of said preparation is continued for a period of time not less than one month; and (c) that borderline anemia will cause delayed menstruation; prohibited.

(Sec. 6, 38 Stat. 722; 15 U. S. C. 46. Interprets or applies sec. 5, 38 Stat. 719; 15 U. S. C. 45) [Cease and desist order, Doris Savitch t. a. Personal Drug Co., et al., New York, N. Y., Docket 6089, March 24, 1954]

In the Matter of Doris Savitch, an Individual Trading as Personal Drug Co., and Leo Savitch, Individually and as Manager of Said Company

The Federal Trade Commission on March 31, 1953, issued a complaint charging Doris Savitch, an individual trading as Personal Drug Co., and Leo Savitch, individually and as manager of said company, with having violated the Federal Trade Commission Act by disseminating false advertisements of a drug preparation sold by them under the names "Quick-Kaps" and "D-Lay Capsules." Respondents filed an answer denying that their advertisements were false or misleading.

Pursuant to notice, hearings were held in Washington, D. C., on June 25, 1953, and in New York City on September 9, 1953, before William L. Pack, a hearing examiner, designated by the Commission to hear this proceeding. Full opportunity to be heard, to examine and cross-examine witnesses, and to introduce evidence bearing on the issues was afforded all parties. The testimony and other evidence were recorded and filed in the office of the Commission.

Filing of proposed findings and conclusions having been waived, the hearing examiner filed his initial decision on October 9, 1953, in which he concluded that respondents have not advertised their preparation as an abortifacient as alleged but have violated the Federal Trade Commission Act by falsely advertising that their preparation is effective in the treatment of delayed menstruation due to functional troubles other than iron deficiency anemia.

Thereafter, counsel supporting the complaint appealed to the Commission from this initial decision. This appeal was submitted to the Commission upon briefs of the parties, oral argument not having been requested.

Upon consideration of the entire record herein, the Commission, for the reasons stated in the written opinion of the Commission issued herewith, hereby grants the appeal of counsel supporting the complaint insofar as it takes exception to the conclusion in the initial decision that respondents have not falsely advertised their preparation as an abortifacient and insofar as it does not find that respondents falsely advertised that borderline anemia is a cause of delayed menstruation. In lieu of the initial decision the Commission issues its findings of fact,[1] conclusion [1] and order as follows:

It is ordered, That the respondents, Doris Savitch, individually, trading as Personal Drug Co., or trading under any other name, and Leo Savitch, as manager of her said business, their representatives, agents and employees, directly or through any corporate or other device, in connection with the offering for sale, sale or distribution of their medicinal preparation designated "Quick-Kaps" or "D-Lay Capsules" or any preparation of substantially similar composition or possessing substantially similar properties, whether sold under the same names or under any other name, do forthwith cease and desist from:

1. Disseminating or causing to be disseminated by means of the United States mails or by any means in commerce, as "commerce" is defined in the Federal Trade Commission Act, any advertisement which represents, directly or by implication:

(a) That the use of said preparation will terminate pregnancy;

(b) That said preparation is of any value in cases of delayed menstruation unless such representations be expressly limited to those cases due to iron deficiency anemia and in which the use of said preparation is continued for a period of time not less than one month;

(c) That borderline anemia will cause delayed menstruation.

2. Disseminating or causing to be disseminated any advertisement by any means for the purpose of inducing or which is likely to induce, directly or indirectly, the purchase in commerce, as "commerce" is defined in the Federal Trade Commission Act, of said preparation, which advertisement contains any representation prohibited in paragraph 1 hereof.

It is further ordered, That respondents shall, within sixty (60) days after service upon them of this order, file with the Commission a report in writing setting forth in detail the manner and form in which they have complied with the order to cease and desist.

Issued: March 24, 1954.

By the Commission.

[SEAL] ALEX. AKERMAN, Jr.,
Secretary.

TITLE 29—LABOR

Chapter V—Wage and Hour Division, Department of Labor

PART 779—RETAIL OR SERVICE ESTABLISHMENT AND RELATED EXEMPTIONS

LINEN SUPPLY SERVICES

Pursuant to authority under the Fair Labor Standards Act of 1938, as amended (52 Stat. 1060, as amended 29 U. S. C. 201 et seq.), § 779.24 (b) of Interpretative Bulletin, Part 779 (29 CFR Part 779) is hereby amended to read as follows:

(b) *Linen supply services.* A linen supply service will be regarded as an establishment engaged in the business of laundering, cleaning or repairing of clothing or fabrics which will qualify for the section 13 (a) (3) exemption, if it otherwise meets the statutory tests, even if the clothing or fabrics which it supplies to its customers are not owned by them, and even though it may not, itself, perform the laundering, cleaning or repairing operations.

(52 Stat. 1060, as amended; 29 U. S. C. 201–219)

This amendment shall become effective upon publication in the FEDERAL REGISTER.

Signed in Washington, D. C., this 31st day of March 1954.

WM. R. MCCOMB,
Administrator,
Wage and Hour Division.

TITLE 31—MONEY AND FINANCE: TREASURY

Chapter II—Fiscal Service, Department of the Treasury

Subchapter B—Bureau of the Public Debt

[1954 Dept. Cir. 941]

PART 337—SUPPLEMENTAL REGULATIONS GOVERNING FEDERAL HOUSING ADMINISTRATION DEBENTURES

APRIL 1, 1954.

Sec
337.0 Scope of regulations.
337.1 Transportation charges and risks.
337.2 Termination of transfers and denominational exchange transactions.
337.3 Presentation and surrender.
337.4 Assignments of matured or called debentures or debentures submitted for purchase.
337.5 Payment of final interest.
337.6 Address for further information.
337.7 General provisions.

AUTHORITY: §§ 337.0 to 337.7 issued under R. S. 161, sec. 303, 59 Stat. 601; 5 U. S. C. 22, 31 U. S. C. 868.

§ 337.0 *Scope of regulations.* The United States Treasury Department is the agent of the Federal Housing Administration for transactions in any debentures which have been or may be issued pursuant to the authority conferred by the National Housing Act (48 Stat. 1246), as amended; 12 U. S. C. 1701 et seq.), as amended from time to time, including Mutual Mortgage Insurance Fund Debentures, Housing Insurance Fund Debentures, War Housing Insurance Fund Debentures, Military Housing Insurance Fund Debentures, and National Defense Housing Insurance Fund Debentures. In accordance with the regulations adopted by the Federal Housing Commissioner and approved by the Secretary of the Treasury, such transactions are governed by the general regulations of the Treasury Department governing United States bonds and notes (Part 306[1] of this subchapter) so far as applicable. The following rules and regulations are prescribed to supplement such general regulations.

§ 337.1 *Transportation charges and risks.* Debentures presented for redemption at call or maturity, or for authorized prior purchase, must be delivered to a Federal Reserve Bank or Branch or to the Bureau of the Public Debt, Division of Loans and Currency, Washington 25, D. C., at the expense and risk of the holder. Debentures bearing restricted assignments may be forwarded by registered mail, but for the owner's protection debentures bearing unrestricted assignments should be forwarded by registered mail insured or by express prepaid.

§ 337.2 *Termination of transfers and denominational exchange transactions.* Debentures, which by their terms are subject to call, may be called for redemption, in whole or in part, at par and accrued interest, on any interest date on three months' notice. No transfers or denominational exchanges in debentures covered by a given call will be made on the books of the Treasury Department on or after the announcement of such call. However, this does not affect the right of a holder of such debenture to sell and assign it on or after the announcement of the call date.

§ 337.3 *Presentation and surrender—*(a) *For redemption.* To facilitate the redemption of called or maturing debentures, they may be presented and surrendered in the manner herein prescribed, in advance (but not more than one month in advance) of the call or maturity date, as the case may be. Early presentation by holders will insure prompt payment of principal and interest when due. The debentures must first be assigned by the registered payee or his assignee, or by his duly constituted representative, in the form and manner indicated in § 337.4, and should then be submitted to any Federal Reserve Bank or to the Bureau of the Public Debt, Division of Loans and Currency, Washington 25, D. C., accompanied by appropriate written advice. A form for this purpose will be printed on the reverse of the notice of call.

(b) *For purchase.* Debentures, the purchase of which has been authorized prior to call or maturity, may be assigned and immediately submitted as instructed in paragraph (a) of this section, accompanied by written instructions.

§ 337.4 *Assignments of matured or called debentures or debentures submitted for purchase.* (a) If the registered payee, or an assignee holding under proper assignment from the registered payee, desires that payment be made to himself, the debentures should be assigned by such payee or assignee, or on his behalf by a duly constituted representative, to "The Federal Housing Commissioner for redemption" or to "The Federal Housing Commissioner for purchase", according to whether the debentures are to be presented for redemption upon call, or at maturity, or for purchase prior to call if purchase is offered. If the owner desires for any reason that payment be made to another, without intermediate assignment, the debentures should be assigned to "The Federal Housing Commissioner for redemption (or, purchase) for the account of _____", inserting the name and address of the person to whom payment is to be made.

(b) An assignment in blank or other assignment having similar effect will be recognized, but in that event the debenture would be, in effect, payable to bearer, and payment will be made in accordance with the instructions received from the person surrendering the debenture for redemption or purchase. For the owner's protection, such assignments should be avoided unless the owner is willing to lose the protection afforded by registration.

(c) Upon call or at maturity a debenture registered in the name of or assigned to a corporation or unincorporated association will be paid on or after the call or maturity date, upon appropriate assignment for that purpose executed on such organization's behalf by a duly authorized officer thereof. An assignment so executed and duly witnessed in accordance with Treasury Department general bond regulations will ordinarily be accepted without proof of the officer's authority. In such cases payment will be made only by check drawn to the order of the corporation or unincorporated association. If debentures registered in the name of or assigned to a corporation or unincorporated association are presented upon call or at maturity and payment is to be made to some other person, or are presented for purchase prior to the call date if authorized, proof of the authority of the officer assigning on behalf of such organization will be required in accordance with the general regulations.

(d) All assignments must be made on the debentures themselves unless otherwise authorized by the Treasury Department.

§ 337.5 *Payment of final interest.* Final interest on any debenture, whether purchased prior to or redeemed on or after the call or the maturity date, will be paid with the principal in accordance with the assignments on the debentures surrendered. In all cases the check in payment of principal and final interest will be mailed to the address given in the Form of Advice accompanying the debentures surrendered.

§ 337.6 *Address for further information.* Any further information which may be desired regarding the redemption of called or matured debentures, or purchase if authorized, may be obtained from any Federal Reserve Bank or Branch or from the Bureau of the Public Debt, Division of Loans and Currency, Washington 25, D. C.

§ 337.7 *General provisions.* As fiscal agents of the United States, Federal Reserve Banks are authorized and requested to perform any necessary acts under this circular. The Secretary of the Treasury may at any time or from time to time prescribe supplemental and amendatory regulations governing the matters covered by this circular, which shall be communicated promptly to the registered owners of the debentures.

Compliance with the notice, public procedure, and effective date requirements of the Administrative Procedure Act (Pub. Law 404, 79th Cong.; 60 Stat. 237) is found to be unnecessary with respect to this circular, which supplements existing regulations without adversely affecting the rights of owners of the securities.

[SEAL] A. N. OVERBY,
Acting Secretary of the Treasury.

[F. R. Doc. 54-2568; Filed, Apr. 6, 1954; 8:53 a. m.]

TITLE 45—PUBLIC WELFARE

Chapter V—War Claims Commission

Subchapter C—Appeals and Hearings

PART 515—APPEALS

Extensive amendments, deletions, and revisions of Part 515 (Appeals) of the War Claims Commission's regulations require revision of that part in its entirety. The following supersedes any and all previous revisions or amendments.

SUBPART A—APPEALS, GENERAL INFORMATION

Sec
515.1 Basis for appeal.
515.2 Appeal form and time limitations.
515.3 Appeals calendar.
515.4 Consideration of appeals.
515.5 Appeal proceedings in general.
515.6 The Appeals Board.

SUBPART B—HEARINGS

515.15 Docketing and notification of hearing.
515.16 Pre-hearing conference.
515.17 Conduct of hearings.
515.18 Oral argument at close of hearing.
515.19 Proposed findings and conclusions.

SUBPART C—FINDINGS AND CONCLUSIONS

515.30 Appeals Board to render decisions on appeals.
515.31 Decision of the Commission.
515.32 Notice of decision.
515.33 Dismissal of appeals.

SUBPART D—REHEARING AND REARGUMENT

515.— Rehearing and reargument.

AUTHORITY: §§ 515.1 to 515.35 issued under sec. 2, 62 Stat. 1240; 50 U. S. C. app. 2001.

SUBPART A—APPEALS, GENERAL INFORMATION

§ 515.1 *Basis for appeal.* Any claimant whose claim is denied or is approved for less than the full allowable amount may appeal to the Commission from such determination.

§ 515.2 *Appeal form and time limitations.* (a) An appeal shall be in writing on WCC Form 1105. Any award authorized to be paid or disallowance made prior to May 1, 1954 may be appealed from at any time within six months from the date of the award check or disallowance letter informing the claimant of the original determination. Any award authorized to be paid or disallowance made on or after May 1, 1954 may be appealed from at any time within three months from the date of the award check or disallowance letter informing the claimant of the original determination.

(b) Upon failure to file an appeal within the appropriate period allowed in paragraph (a) of this section the claimant will be deemed to have waived his right to appeal and the decision of the Commission shall constitute a full and final disposition of the case.

(c) (1) All documents, briefs or other additional evidence relative to an appeal from the award or disallowance of a claim under sections 5 (a) through (e), 6 or 7 (a) of the act shall be filed with the Commission at the time of the filing of WCC Form 1105 or within 30 days thereafter except that if such documents, briefs or other additional evidence are requested by the Commission, they shall be filed within 60 days from the date of request therefor if the claimant is within the continental United States or within 90 days from the date of request therefor if the claimant is outside the continental United States. Failure on the part of the claimant to file such documents, briefs or other additional evidence within the time limits shall be grounds for dismissal of the appeal in accordance with § 515.33.

(2) All documents or other additional evidence relative to an appeal from the award or disallowance of a claim under section 7 (b) or (c) of the act shall be submitted prior to December 1, 1953: *Provided*, That the appellant may at any time prior to December 1, 1953, notify the Commission that all additional evidence has been submitted. Appellants under section 7 (b) or (c) shall file all briefs which they desire to file in connection with their appeals prior to January 31, 1954.

§ 515.3 *Appeals calendar.* Upon receipt in Appeals and Hearings Service of WCC Form 1105 from the Claims Service, the case shall be entered on the Appeals and Hearings Docket. Each appeal shall be assigned a docket number in the order of its receipt. This number shall govern the order in which appeals are considered.

§ 515.4 *Consideration of appeals.* (a) If the appellant has specified on WCC Form 1105 that he does not wish to make a personal appearance or to appear through a representative, his appeal, when reached on the appeals calendar, shall be considered by the Appeals Board in accordance with § 515.30 (b).

(b) If the appellant in executing WCC Form 1105 has requested a personal appearance the hearing date will be set in accordance with Subpart B of this part.

(c) A request for a personal appearance may be waived by the interested parties at any time and the case submitted to the Appeals Board in accordance with § 515.30 (b).

§ 515.5 *Appeal proceedings in general.* Appeal proceedings may consist of:

(a) A hearing before the Commissioners or their representatives when requested by the appellant or by the Commission. (See Subpart B of this part.)

(b) Findings and conclusions of the Commission upon a decision of the Appeals Board. (See Subpart C of this part.)

§ 515.6 *The Appeals Board.* (a) The Appeals Board shall consist of three members, one of whom shall be designated Chairman.

(b) The Appeals Board shall consider appeals within the War Claims Commission and shall render decisions on appeals. (See Subpart C of this part.)

SUBPART B—HEARINGS

§ 515.15 *Docketing and notification of hearing.* (a) If the appellant in executing WCC Form 1105 has requested a personal appearance, the appeal will be set for hearing at the earliest date permitted by the hearing docket. The appellant will be notified of the date set. If the appellant fails to appear, the case will be disposed of in the usual order. The appellant may request that the case be reset for a different date within 30 days of the date of notice of hearing if the appellant resides in the continental United States or 90 days if outside the continental United States. The appellant shall be limited to one such request.

(b) The Commission may, in its discretion, require a hearing in any proceeding and shall set the hearing at the earliest practicable date permitted by the hearing docket. The appellant will be notified of the date set. If the appellant fails to appear the appeal shall be dismissed in accordance with § 515.33. The appellant may request that the case be reset for a different date within 30 days of the notice of hearing if within the continental United States or 90 days if outside the continental United States. The appellant shall be limited to one such request.

§ 515.16 *Pre-hearing conference.* At the request of the appellant or by an order of the Appeals Board at any time prior to the hearing, a conference may be arranged between the appellant or his representative and the Appeals Board or its representative at a designated time and place to consider simplification of the issues and any other matter which would tend to expedite the disposition of the hearing.

§ 515.17 *Conduct of hearings.* (a) Unless otherwise ordered by the Commission, hearings on appeals shall be closed. The hearings shall be stenographically reported and the transcript shall be a part of the record.

(b) Hearings shall be held by the Commissioners or by the Appeals Board or by any combination of Commissioners and members of the Appeals Board as may be designated by the Commission in each instance. The Commission will specify the individual who is to serve as chairman of the hearing.

(c) The chairman of a hearing panel may administer oaths and examine witnesses. The chairman may, in accordance with Part 502, Subchapter A of the Commission's regulations in this chapter,

require by subpoena the attendance and testimony of witnesses, as well as the production of all necessary books, papers, documents, records, correspondence, and other evidence.

(d) The appellant shall have the burden of proof on all issues involved in the appeal proceeding.

(e) The appellant, his authorized representative, the Appeals Board or the appellate attorney shall have the right and power to call, examine and cross-examine witnesses and to introduce for the record documentary or other evidence.

(f) The rules of evidence prevailing in courts of law and equity shall not be controlling. Any testimony or other evidence having probative value shall be received. However, it shall be the policy to exclude irrelevant, incompetent, immaterial or unduly repetitious evidence.

(g) In the discretion of the chairman, the hearing or pre-hearing may be adjourned from day to day, postponed to a later date, or to a different place by announcement thereof at the hearing, or by reasonable notice to the interested parties.

§ 515.18 *Oral argument at close of hearing.* Any party shall be entitled upon request at the close of the hearing, to such time as may be fixed by the chairman for oral argument. Oral argument made with the consent of the chairman shall be included in the stenographic report of the hearing.

§ 515.19 *Proposed findings and conclusions.* At the close of the reception of evidence, or within a reasonable time thereafter, to be fixed by the chairman, any party may submit proposed findings and conclusions, together with a brief in support thereof. Such proposal shall be in writing and shall contain appropriate references to the record. Copies thereof shall be furnished to all parties. Reply briefs may be filed with the permission of and within a reasonable time to be fixed by the chairman.

SUBPART C—FINDINGS AND CONCLUSIONS

§ 515.30 *Appeals Board to render decisions on appeals.* (a) After a hearing upon an appeal has been held, the Appeals Board shall, as soon as practicable after receipt of the transcript of the hearing, consider all evidence presented by the appellant in connection with an appeal and shall render a decision on the appeal. (Subject to § 515.31.)

(b) If no hearing is requested upon the appeal, the Appeals Board shall consider all additional evidence and shall render a decision on the appeal. (Subject to § 515.31.)

§ 515.31 *Decision of the Commission.* The decision of the Appeals Board shall be the final action of the Commission, subject to the provisions of § 515.35: *However, provided,* That in the case of appeals arising under section 7 (b) or (c) of the act, or where it is determined by the Appeals Board that elements of Commission policy are involved, the decision shall be referred to the Commissioners and when approved by two Commissioners, shall become the final decision of the Commission.

§ 515.32 *Notice of decision.* Notice of the final decision of the Commission together with a copy thereof shall be furnished to all interested parties.

§ 515.33 *Dismissal of appeals.* (a) An appeal may be dismissed when on its face it is not allowable or when it appears to have been abandoned or when substantiating evidence has not been furnished in accordance with § 515.2.

(b) The decision dismissing an appeal shall be final. The provisions as to notice of finding in § 515.32 and as to rehearing and reargument in § 515.35 shall apply to decisions of the Commission in dismissing an appeal.

SUBPART D—REHEARING AND REARGUMENT

§ 515.35 *Rehearing and reargument.* Any party desiring a rehearing, reargument or any relief not specifically covered by this part, may file a petition with the Commission within ten (10) days if a resident within the continental United States or within sixty (60) days if outside the continental United States after notice of the decision, stating the relief sought and the reasons in support thereof. Evidence in support of the petition should be attached thereto. The Commission may deny or allow the petition in whole or in part, as it deems proper.

WHITNEY GILLILLAND,
Chairman,
War Claims Commission.

[F. R. Doc. 54-2569; Filed, Apr. 6, 1954; 8:53 a. m.]

TITLE 47—TELECOMMUNICATION

Chapter I—Federal Communications Commission

[Docket No. 10888]

PART 3—RADIO BROADCAST SERVICES

TABLE OF ASSIGNMENTS; TELEVISION BROADCAST STATIONS

In the matter of amendment of § 3.606 *Table of assignments,* rules governing Television Broadcast Stations; Docket No. 10888.

1. The Commission has under consideration its notice of proposed rule making issued on January 28, 1954 (FCC 54-116) and published in the FEDERAL REGISTER on February 3, 1954 (19 F. R. 624) proposing to assign Channel 3 to Rapid City, South Dakota, as requested by The Hills Broadcasting Company, in a petition filed on December 29, 1953.

2. The time for filing comments in this proceeding expired February 26, 1954. No comments have been filed opposing the proposed amendment. The Black Hills Broadcast Company, Rapid City, South Dakota, supported the proposed amendment and stated that it contemplated the filing of an application for a construction permit on Channel 3 in the event the proposed assignment should be made final. It appears that the proposed assignment is technically feasible, may be made without any other changes in the table, and would be in the public interest.

3. Authority for the adoption of the amendment is contained in sections 4 (i), 301, 303 (c), (d), (f), and (r), and 307 (b) of the Communications Act of 1934, as amended.

4. In view of the foregoing: *It is ordered,* That effective 30 days after publication in the FEDERAL REGISTER, the table of assignments contained in § 3.606 of the Commission's rules governing television broadcast stations is amended as follows:

City:	Channel No.
Rapid City, S. Dak.	3+, 7+, 15-

(Sec. 4, 48 Stat. 1066, as amended; 47 U. S. C. 154. Interprets or applies secs. 301, 303, 307, 48 Stat. 1081, 1082, as amended, 1084, 47 U. S. C. 301, 303, 307)

Adopted: April 1, 1954.

Released: April 2, 1954.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
Secretary.

PROPOSED RULE MAKING

DEPARTMENT OF THE TREASURY

Bureau of Accounts

[31 CFR Part 270]

ESTABLISHMENT OF FEES FOR COPYING, CERTIFYING AND SEARCH OF RECORDS

NOTICE OF PROPOSED RULE MAKING

1. Notice is hereby given pursuant to section 4 of the Administrative Procedure Act (60 Stat. 238, 5 U. S. C. 1003) that the Secretary of the Treasury is considering the establishment pursuant to the provisions of Title V of the Independent Offices Appropriation Act of 1952 (65 Stat. 290, 5 U. S. C. 140) and Bureau of the Budget Circular No. A-28 dated January 23, 1954, of a schedule of fees for the services of copying, certifying and search of records performed by the Bureau of Accounts.

2. It is proposed to add regulations to 31 CFR Part 270 to provide for the imposition and collection of fees for services performed by the Bureau of Accounts as set forth in paragraphs 3 to 6, inclusive, below.

3. For searching of documents covering mortgages, releases, assignments, claims, loans, deeds, etc., $2.00 per hour, with a minimum charge of $1.00. This item will be applicable primarily to copies of documents furnished by the Investments Branch in connection with requests for copies of claim assignments and for searching the War Finance Corporation's records for mortgage releases.

4. For furnishing special fiscal data that have not been published at the time of the request, $2.50 per hour, with a minimum charge of $1.00. This item will be applicable primarily to special repetitive reports requested at frequent intervals by publishers and compilers of economic data. Where individuals make occasional requests for published data or for unpublished data where the cost of compilation is not significant, no charge will be made.

5. For furnishing facsimile copies of documents by photostatic or similar processes:

Size	First copy of each page (one side)	Additional copies of same page
	Cents, each	*Cents, each*
Up to 9" x 12"	40	20
12" x 18"	40	30
18" x 24"	40	50

6. Certifications and validations of reports and documents, with Treasury seal $1.00, without Treasury seal 50 cents.

7. No charge would be made for services performed at the request of agencies of the Federal Government.

8. Comments on the proposed schedule of fees set forth above are invited and should be submitted in writing to the Commissioner of Accounts, Treasury Department, Washington 25, D. C., in time to be received prior to April 15, 1954. No hearing will be held to consider this matter.

[SEAL] A. N. OVERBY,
Acting Secretary of the Treasury.

APRIL 1, 1954.

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

[7 CFR Part 970]

[AO-255]

HANDLING OF IRISH POTATOES GROWN IN MAINE

NOTICE OF HEARING WITH RESPECT TO PROPOSED MARKETING AGREEMENT AND ORDER

Pursuant to the Agricultural Marketing Agreement Act of 1937, as amended (48 Stat. 31, as amended; 7 U. S. C. 601 et seq.), and in accordance with the applicable rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR 900.0 et seq.), notice is hereby given of a public hearing to be held at the Northeastland Hotel, Presque Isle, Maine, beginning at 9:30 a. m., e. s. t., April 27, 1954, with respect to a proposed marketing agreement and order authorizing regulation of the handling of Irish potatoes grown in the State of Maine. The proposed marketing agreement and order have not received the approval of the Secretary of Agriculture.

The public hearing is for the purpose of receiving evidence with respect to economic and marketing conditions which relate to the provisions of a marketing agreement and order hereinafter set forth, or appropriate modifications thereof.

Growers and shippers in the State of Maine as represented by the Aroostook County Farm Bureau, the Potato Industry Council, Inc., The Fort Fairfield Potato Growers Association, and the Young Farmers of Central Aroostook, requested a hearing on the following proposed marketing agreement and order authorizing regulation of the handling of potatoes in the proposed production area.

DEFINITIONS

§ 970.1 *Secretary.* "Secretary" means the Secretary of Agriculture of the United States or any officer or employee of the United States Department of Agriculture to whom authority has heretofore been delegated, or to whom authority may hereafter be delegated, to act in his stead.

§ 970.2 *Act.* "Act" means Public Act No. 10, 73d Congress, as amended and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended (48 Stat. 31, as amended; 7 U. S. C. 601 et seq.).

§ 970.3 *Person.* "Person" means an individual, partnership, corporation, association, or any other business unit.

§ 970.4 *Production area.* "Production area" means all territory included within the boundaries of the State of Maine.

§ 970.5 *Potatoes.* "Potatoes" means all varieties of Irish potatoes grown within the production area.

§ 970.6 *Handler.* "Handler" is synonymous with "shipper" and means any person (except a common or contract carrier of potatoes owned by another person) who ships potatoes or causes potatoes to be shipped.

§ 970.7 *Ship or handle.* "Ship" or "handle" means to sell or transport potatoes within the production area or between the production area and any point outside thereof.

§ 970.8 *Grading.* "Grading" means the sorting or separation of potatoes into grades and sizes for market purposes.

§ 970.9 *Grade and size.* "Grade" means any one of the officially established grades of potatoes and "size" means any one of the officially established sizes of potatoes, as defined and set forth in:

(a) The United States Standards for Potatoes issued by the United States Department of Agriculture (§§ 51.1540 to 51.1559 of this title) or amendments thereto, or modification thereof, or variations based thereon;

(b) United States Consumer Standards for Potatoes as issued by the United States Department of Agriculture on November 3, 1947, effective December 8, 1947 (§§ 51.1575 to 51.1587 of this title), or amendments thereto, or modifications thereof, or variations based thereon:

(c) State of Maine Standards for Potatoes issued by the State of Maine Commissioner of Agriculture, or amendments thereto, or modifications thereof, or variations based thereon;

§ 970.10 *Producer.* "Producer" means any person engaged in the production of potatoes for market.

§ 970.11 *Marketing committee.* "Marketing committee" means the Maine Potato Marketing Committee established pursuant to §§ 970.22 to 970.27, inclusive.

§ 970.12 *Administrative committee.* "Administrative committee" means the Maine Potato Administrative Committee established pursuant to §§ 970.22 to 970.27, inclusive.

§ 970.13 *Fiscal period.* "Fiscal period" means the period beginning and ending on the dates approved by the Secretary pursuant to recommendations by the administrative committee.

§ 970.14 *Varieties.* "Varieties" means and includes all classifications or subdivisions of Irish potatoes according to those definitive characteristics now or hereafter recognized by the United States Department of Agriculture.

§ 970.15 *Seed potatoes.* "Seed potatoes" means and includes all potatoes officially certified and tagged, marked or otherwise appropriately identified under the supervision of the official seed potato certifying agency of the State of Maine or other seed certification agencies which the Secretary may recognize.

§ 970.16 *Table stock potatoes.* "Table stock potatoes" means and includes all potatoes not included within the definition of "seed potatoes."

§ 970.17 *Pack.* "Pack" means a unit of potatoes contained in a bag, crate, or other type of container, and which falls within specific weight limits or within specific grade limits, or both, as recommended by the marketing committee and approved by the Secretary.

§ 970.18 *Export.* "Export" means shipment of potatoes beyond the boundaries of continental United States.

§ 970.19 *District.* "District" means each one of the geographical divisions of the production area initially established pursuant to § 970.28 or as reestablished pursuant to § 970.29.

COMMITTEES

§ 970.22 *Administrative agencies.* The agencies for administering the terms and provisions of this part shall be the marketing committee and the administrative committee, called, respectively, the Maine Potato Marketing Committee and the Maine Potato Administrative Committee. Such agencies shall be selected in accordance with the methods set forth in §§ 970.24 to 970.39, inclusive.

§ 970.23 *Committees' functions.* The marketing committee shall have sole responsibility and authority for recommending marketing regulations and such rules and regulations as may be incidental to the administration thereof. The administrative committee shall have authority for and be responsible for providing the staff and the services for carrying out its and the marketing committee's powers and duties.

§ 970.24 *Marketing Committee.* The Maine Potato Marketing Committee

shall consist of 20 members, of whom 15 shall be producers and 5 shall be handlers.

§ 970.25 *Administrative committee.* The Maine Potato Administrative Committee shall consist of not less than 3 members, and any larger number which the marketing committee may recommend and the Secretary approve. Alternates may be recommended by the marketing committee and approved by the Secretary.

§ 970.26 *Selection.* (a) Marketing committee members shall be selected on the basis of districts as established pursuant to § 970.28 or § 970.29. From each district, three producers shall be selected as marketing committee members and one producer shall be selected as marketing committee alternate. From each district, one handler shall be selected as member and one handler shall be selected as alternate.

(b) The members of the administrative committee and alternates shall be selected from among the marketing committee members or alternates.

§ 970.27 *Qualifications for agency membership.* Persons selected as marketing committee members or alternates to represent producers shall be individuals who are producers in the respective district for which selected, or officers or employees of a corporate producer in such district, and such persons shall be residents of the respective district for which selected. Persons selected as marketing committee members or alternates to represent handlers shall be individuals who are handlers in the district for which selected, or officers or employees of a corporate handler, and such persons shall be residents of the district for which selected.

§ 970.28 *Districts.* For the purpose of determining the basis for selecting marketing committee members, the following districts of the production area are hereby initially established:

District No. 1. The towns of Hamlin, Cyr, Township 17, Range 3, townships 16 and 17, Range 4, townships 14, 15, and 16, Range 5, all townships 14, ranges 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, and 16, and all area north thereof in Aroostook County, in the State of Maine.

District No. 2. The towns of Fort Fairfield, Caribou, Washburn, Wade, Perham, Woodland, Limestone, Caswell, Connor, New Sweden, Westmanland and Stockholm in Aroostook County, in the State of Maine.

District No. 3. The Town of Bridgewater, Township D, Range 2, all townships 9, ranges 3, 4, and 5, the town of Oxbow, all townships 9, ranges 7, 8, 9, 10, 11, 12, 13, 14 15, 16, 17, and 18, and all area north thereof, not included in Districts 1 and 2, in the State of Maine.

District No. 4. The towns of Orient, Haynesville, Glenwood, Township 2, Range 2, the towns of Silver Ridge, Benedicta, all townships 2, ranges 6, 7, 8 west of the east line of the State 9, 10, 11, 12, townships 2, 3, and 4, Range 13, townships 4 and 5, range 14, all townships 5, ranges 15, 16, 17, 18 19, and 20, and all area north thereof, not included in Districts 1, 2, and 3, in the State of Maine.

District No. 5. All the remaining counties, towns, and townships in the State of Maine not included in Districts 1, 2, 3, and 4.

§ 970.29 *Redistricting.* The marketing committee may recommend, and pursuant thereto, the Secretary may approve, the apportionment of members among districts, and the reestablishment of districts within the production area. In recommending any such changes, the marketing committee shall give consideration to: (a) Shifts in potato acreage within districts and within the production area during recent years; (b) the importance of new production in its relation to existing districts; (c) the equitable relationship of committee membership and districts; (d) economies to result for producers in promoting efficient administration due to redistricting or reestablishment of members within districts; and, (e) other relevant factors. No change in districting or in reestablishment of members within districts may become effective within less than 30 days prior to the date on which terms of office begin each year and no recommendations for such redistricting or reestablishment may be made within less than six months prior to such date.

§ 970.30 *Term of office.* (a) The terms of office shall begin as of July 1 and end as of June 30. The term of office of producer members of the marketing committee shall be for three years. The terms of office of the producer members of the initial committee shall be so determined by the Secretary that one third shall be for terms of one year, one third for terms of two years, and one third for terms of three years. The term of office of alternate producer members, and of handler members and alternates shall be for one year. No producer member and no handler member shall serve for more than three consecutive years. The term of office of members and alternates of the administrative committee shall be for one year.

(b) Committee members and alternates shall serve during the term of office for which they are selected and have qualified, or during that portion thereof beginning on the date on which they qualify during such term of office and continuing until the end thereof, and until their successors are selected and have qualified.

§ 970.31 *Nomination.* The Secretary may select the members of the marketing committee, and alternates, from nominations which may be made in the following manner:

(a) The administrative committee shall hold or cause to be held prior to May 1 of each year, after the effective date of this subpart, a meeting or meetings of producers in each district and a meeting or meetings of handlers in the production area;

(b) In arranging for such meetings the administrative committee may, if it deems desirable, utilize the services and facilities of existing organizations and agencies;

(c) At each such meeting at least two nominees shall be designated for each position as member and for each position as alternate member on the marketing committee and eligible voters at such meetings may ballot to indicate the ranking of their choice for each nominee;

(d) Nominations for marketing committee members and alternates, and nominations for administrative committee members and alternates, shall be supplied to the Secretary in such manner and form as he may prescribe, not later than June 1 and July 15, respectively, of each year;

(e) Only producers may participate in designating nominees for producer members and alternates on the marketing committee and only handlers may participate in designating nominees for handler members and alternates. Each person who is both a producer and a handler may vote either as a producer or as a handler and he may elect the group in which he votes. In the event a person is engaged in producing or in handling potatoes in more than one district, such person shall elect the district within which he may participate as aforesaid in designating nominees.

(f) Regardless of the number of districts in which a person produces or handles potatoes, each such person is entitled to cast only one vote on behalf of himself, his agents, subsidiaries, affiliates, and representatives in designating nominees for marketing committee members and alternates. An eligible voter's privilege of casting only one vote as aforesaid shall be construed to permit a voter to cast one vote for each position to be filled from the group in the respective district in which he elects to vote.

§ 970.32 *Failure to nominate.* If nominations are not made within the time and in the manner specified in § 970.31, the Secretary may, without regard to nominations, select the marketing committee and the administrative committee members and alternates, which selection shall be on the basis of the representation provided for in §§ 970.28 and 970.29.

§ 970.33 *Acceptance.* Any person selected as a marketing committee or as an administrative committee member or alternate shall qualify by filing a written acceptance with the Secretary within ten days after being notified of such selection.

§ 970.34 *Vacancies.* To fill marketing committee or administrative committee vacancies, the Secretary may select such members or alternates from unselected nominees on the current nominee list from the district involved, or from nominations made in the manner specified in § 970.31. If the names of nominees to fill any such vacancy are not made available to the Secretary within 30 days after such vacancy occurs, such vacancy may be filled without regard to nominations, which selection shall be made on the basis of the representation provided for in §§ 970.28 and 970.29.

§ 970.35 *Alternate members.* In the event any member of the marketing committee is unable to attend a meeting of the marketing committee, the alternate who was selected from the same district and from the same group as the absent member may act in the place and stead of the absent member. In the event of the death, removal, resignation, or disqualification of a member, a qualified alternate shall act for him until a successor of such member is selected and has qualified. In the event such alternate cannot attend, or there is no alternate available to act in the place and stead of an absent member, an absent member may designate, subject to the disapproval of the Secretary, a temporary substitute to attend such meeting. At such meeting, such temporary substitute may act in the place and stead of such member.

§ 970.36 *Procedure.* (a) A majority of the members of the marketing committee from each of at least four districts shall be necessary to constitute a quorum and a majority of concurring votes of the entire membership of such marketing committee will be required to pass any motion or approve any marketing committee action. A majority of the members of the administrative committee shall be necessary to constitute a quorum and a majority of concurring votes of the entire membership of such administrative committee will be required to pass any motion or approve any administrative committee action.

(b) Either the marketing committee or the administrative committee, or both, may provide for meeting by telephone, telegraph, or other means of communication and any vote cast at such a meeting shall be confirmed promptly in writing: *Provided*, That if any assembled meeting is held, all votes shall be cast in person.

§ 970.37 *Expenses and compensation.* Marketing committee and administrative committee members and alternates shall serve as such members and alternates without compensation, but they shall be reimbursed for expenses necessarily incurred by them in the performance of their duties and in the exercise of their powers under this part.

§ 970.38 *Powers.* The administrative agencies shall have the following powers:

(a) To administer the provisions of this part in accordance with its terms;

(b) To make rules and regulations to effectuate the terms and provisions of this part;

(c) To receive, investigate, and report to the Secretary complaints of violation of the provisions of this part; and

(d) To recommend to the Secretary amendments to this part.

§ 970.39 *Duties.* (a) It shall be the duty of the marketing committee: (1) To meet prior to the beginning of the marketing season each year, to organize, to select from among its membership a chairman and such other officers as may be necessary, and to adopt such rules and regulations for the conduct of its business as it may deem advisable;

(2) To nominate members and alternates for the administrative committee;

(3) To prepare a marketing policy;

(4) To recommend marketing regulations to the Secretary;

(5) To recommend rules and procedures for, and to make determinations in connection with, issuance of certificates of privilege or exemptions, or both; and

(6) To set up subcommittees, including a special public relations subcommittee for working with producers, handlers, and the general public in connection with specific regulations, rules, practices, administrative committee services, inspection, terminal marketing practices, transportation, and such other matters as are related to this marketing program.

(b) It shall be the duty of the administrative committee:

(1) To meet each year as soon as possible after selection, to organize, to select from among its membership a chairman and such other officers as may be necessary, and to adopt such rules and regulations for the conduct of its business at it may deem advisable.

(2) To act as intermediary between the Secretary and any producer or handler, and between the Secretary and the marketing committee;

(3) To furnish to the Secretary such available information as he may request;

(4) To appoint such employees, agents, and representatives as it may deem necessary and to determine the salaries and define the duties of each such person;

(5) To investigate from time to time and to assemble data on the growing, harvesting, shipping, and marketing conditions with respect to potatoes, as may be necessary for administration of this part;

(6) To keep minutes, books, and records which clearly reflect all of the acts and transactions of the administrative committee and of the marketing committee, and such minutes, books, and records shall be subject to examination at any time by the Secretary or his authorized agent or representative;

(7) To make available to producers and handlers marketing committee voting records on recommended regulations and on other matters of policy;

(8) At the beginning of each fiscal period to prepare a budget of its expenses and a proposed rate of assessment for such fiscal period, together with a report thereon;

(9) To cause the books of the administrative committee to be audited by a competent accountant at least once each year, and at such other time as such committee may deem necessary or as the Secretary may request. The report of such audit shall show the receipt and expenditure of funds collected pursuant to this part; a copy of each such report shall be furnished to the Secretary and a copy of each such report shall be made available at the principal office of such committee for inspection by producers and handlers;

(10) To investigate an applicant's claim for exemption, and

(11) To consult, cooperate, and exchange information with other marketing order committees and other individuals or agencies in connection with all proper activities and objectives of such committees under this part.

EXPENSES AND ASSESSMENTS

§ 970.43 *Expenses.* The administrative committee is authorized to incur such expenses as the Secretary may find are reasonable and likely to be incurred by the administrative agencies during each fiscal period for the maintenance and functioning of such agencies and for such purposes as the Secretary, pursuant to this subpart, determines to be appropriate. Handlers shall share expenses on the basis of each fiscal period. Each handler's share of such expense shall be proportionate to the ratio between the total quantity of potatoes shipped by him as the first applicant for inspection thereof during a fiscal period and the total quantity of potatoes shipped by all handlers as first applicants for inspection thereof during such fiscal period.

§ 970.44 *Budget.* (a) At the beginning of each fiscal period and as may be necessary thereafter, the administrative committee shall prepare an estimated budget of income and expenditures necessary for the administration of this part. The administrative committee may recommend to the Secretary a rate of assessment calculated to provide adequate funds to defray its proposed expenditures. The administrative committee shall present such budget to the Secretary with an accompanying report showing the basis for its calculations.

(b) Whenever the administrative committee finds that the rate of assessment for a fiscal period is not sufficient to provide revenue to defray expenses for such period, it may present an amended budget to the Secretary and recommend that the rate of assessment be changed to cover such expenses.

§ 970.45 *Assessments.* (a) The funds to cover such expenses shall be acquired by the levying of assesments upon handlers as provided in this subpart. Each handler who first applies for inspection of potatoes shall pay assessments to the administrative committee upon demand, which assessments shall be in payment of such handlers pro rata share of the agencies' expenses.

(b) Assessments shall be levied upon handlers at rates established by the Secretary. Such rates may be established upon the basis of the administrative committee's recomendations and other available information. Such rates may be applied equitably to each pack or unit.

(c) At any time during or subsequent to a given fiscal period the administrative committee may recommend the approval of an amended budget and an increase in the rate of assessment. Upon the basis of such recommendations or other available information the Secretary may approve an amended budget and increase the rate of assessment. Such increase shall be applicable to all potatoes which were regulated under this part and which were shipped by the first applicant for inspection thereof during such fiscal period.

§ 970.46 *Accounting.* (a) All funds received by the administrative committee pursuant to the provisions of this subpart shall be used solely for the purposes specified in this part.

(b) The Secretary may at any time require the administrative committee, its members and alternates, employees, agents, and all other persons to account for all receipts and disbursements, funds, property, or records for which they are responsible. Whenever any person ceases to be a member or alternate of either the administrative committee or the marketing committee he shall account for all

receipts, disbursements, funds, and property (including but not being limited to books and other records) pertaining to such committees' activities for which he is responsible, and shall execute such assignments and other instruments as may be necessary or appropriate to vest in such successor, agency, or person designated by the Secretary, the right to all of such property and funds and all claims vested in such person.

(c) The administrative committee may make recommendations to the Secretary for one or more of the members thereof, or any other person, to act as a trustee for holding records, funds, or any other property of the administrative agencies during periods when regulations are not in effect and, if the Secretary determines such action appropriate, he may direct that such person or persons shall act as trustee or trustees for the administrative committee or the marketing committee, or both.

§ 970.47 *Refunds.* At the end of each fiscal period or other representative period used by the administrative committee as a basis for seasonal accounting, monies arising from the excess of assessments over expenses shall be accounted for as follows:

(a) Each handler entitled to a proportionate refund of the excess assessments at the end of a fiscal period shall be credited with such refund against the operations of the following fiscal period unless he demands payment thereof, in which event such proportionate refund shall be paid to him, or

(b) The Secretary, upon recommendation of the administrative committee, may determine that it is appropriate for the maintenance and functioning of such administrative committee that some of the funds remaining at the end of a fiscal period which are in excess of the expenses necessary for operations during such period may be carried over into following periods as a reserve for possible liquidation. Upon approval by the Secretary, such reserve may be used upon termination of this part to liquidate the affairs of the administrative committee and of the marketing committee: *Provided*, That upon termination of this part any monies in the reserve for liquidation which are not required to defray the necessary expenses of liquidation shall to the extent practical be returned upon a pro rata basis to all persons from whom such funds were collected.

REGULATION

§ 970.50 *Marketing policy—(a) Preparation.* Prior to each marketing season the marketing committee shall consider and prepare a proposed policy for the marketing of potatoes. In developing its marketing policy the marketing committee shall investigate relevant supply and demand conditions for potatoes. In such investigations the marketing committee shall give appropriate consideration to the following:

(1) Market prices for potatoes, including prices by grade, size, and quality in different packs, or any other shipping unit;

(2) Supply of potatoes by grade, size, and quality in the production area and in other production areas;

(3) The trend and level of consumer income;

(4) Establishing and maintaining orderly marketing conditions for potatoes;

(5) Orderly marketing of potatoes as will be in the public interest, and

(6) Other relevant factors.

(b) *Reports.* (1) The administrative committee shall submit a report for the marketing committee to the Secretary setting forth the aforesaid marketing policy and the administrative committee shall notify producers and handlers of the contents of such report.

(2) In the event it becomes advisable to shift from such marketing policy because of changed supply and demand conditions, the marketing committee shall prepare a new marketing policy in accordance with the manner previously outlined. The administrative committee shall submit a report thereon for the marketing committee to the Secretary and notify producers and handlers of the contents of such report on the revised or amended marketing policy.

§ 970.51 *Recommendations for regulations.* The marketing committee shall recommend to the Secretary grade, size, and quality regulations, or volume regulations, or both, or amendments thereto, or modifications thereof, whenever it finds that such regulations, as provided in § 970.52 or § 970.53, or both, will tend to effectuate the declared policy of the act. The marketing committee also may recommend modification, suspension, or termination of any regulation, or amendments thereto, in order to facilitate shipments of potatoes for the purposes authorized in § 970.57. The marketing committee may also recommend termination or suspension of any regulation issued hereunder.

§ 970.52 *Issuance of grade, size, and quality regulations.* The Secretary shall limit the shipment of potatoes whenever he finds from the recommendations and information submitted by the marketing committee, or from other available information, that such regulation would tend to effectuate the declared policy of the act. Such limitation may:

(a) Regulate in any or all portions of the production area, the shipment of particular grades, sizes, or qualities of any or all varieties of table stock or of seed potatoes, or both, during any period; or

(b) Regulate the shipment of particular grades, sizes, or qualities of potatoes differently, for different varieties, for table stock or seed, for different portions of the production area, for different packs, or for any combination of the foregoing, during any period; or

(c) Regulate the shipment of potatoes by establishing, in terms of grades, sizes, or both, minimum standards of quality and maturity.

§ 970.53 *Volume regulations.* The Secretary shall limit the shipment of potatoes by establishing salable and surplus percentages whenever he finds from the recommendations and information submitted by the marketing committee, or from other available information, that such regulation would tend to effectuate the declared policy of the act. Such regulation may:

(a) Provide that not more than an established percentage of the potatoes grown in any or all portions of the production area may be shipped during any specified period or periods as table stock potatoes or seed potatoes, or both;

(b) Limit the total quantity of table stock potatoes, or of seed potatoes, or both, or of any grade, size, or quality thereof, which may be handled by any and all handlers in any or all portions of the production area during any specified period or periods, by requiring, or providing methods for requiring evidence satisfactory to the administrative committee that each handler shipping table stock potatoes or seed potatoes, or both, has diverted to approved outlets a volume of potatoes proportionate to the surplus percentage recommended by the marketing committee and approved by the Secretary;

(c) Determine, or provide methods for determining, the existence and extent of the surplus of potatoes, or of any grade, size, or quality thereof, in any or all portions of the production area during any season, or portion thereof, and provide for the control and disposition of such surplus, and for equalizing the burden of such surplus elimination or control among the producers and handlers thereof, and such provisions may include the following authorizations which are incidental to, and not inconsistent with the terms and conditions above specified, and necessary to effectuate the provisions of this part;

(d) Authorize the administrative committee, or any agency recommended by the administrative committee and selected by the Secretary, to administer the provisions of this part, which shall include any one or more of the following:

(i) Recommendations for assessments;

(ii) Collection of assessments;

(iii) Disbursement of funds and effecting control and disposition of such surplus;

(iv) To assist in negotiation of contracts for purchase and sale of surplus potatoes;

(v) To require reports by handlers on their sales and contributions to surplus;

(vi) To issue reports to the Secretary and to the industry on stocks of potatoes in the production area, shipments of table stock and seed, contributions to surplus, and on such other information which may be of value to the industry.

§ 970.57 *Modification, suspension, or termination.* Upon the basis of recommendations and information submitted by the marketing committee, or other available information, the Secretary shall modify, suspend, or terminate regulations issued pursuant to §§ 970.45, 970.52, 970.53, 970.57, 970.65, or any combination thereof, in order to facilitate shipments of potatoes for the following purposes whenever he finds that it will tend to effectuate the declared policy of the act:

(a) For grading or storage within the production area;

(b) For use as seed within the production area;

(c) For export;

(d) For distribution by the Federal Government;

(e) For manufacture or conversion into specified products;

(f) For charitable purposes;

(g) For livestock feed; and

(h) For other purposes which may be specified.

§ 970.58 *Minimum quantity regulation.* The marketing committee with the approval of the Secretary, may establish for any or all portions of the production area, minimum quantities below which shipments will be free from regulations issued pursuant to §§ 970.45, 970.52, 970.53, 970.57, 970.65, or any combination thereof.

§ 970.59 *Notification of regulation.* The Secretary shall notify the administrative committee of any regulations issued or of any modification, suspension, or termination thereof. The administrative committee shall give reasonable notice thereof to handlers.

§ 970.60 *Safeguards.* (a) The marketing committee, with the approval of the Secretary, may prescribe adequate safeguards to prevent shipments pursuant to §§ 970.57 or 970.58 from entering channels of trade for other than the specific purpose authorized therefor, and rules governing the issuance and the contents of Certificates of Privilege if such certificates are prescribed as safeguards by the marketing committee. Such safeguards may include requirements that:

(1) Handlers shall file applications with the administrative committee to ship potatoes pursuant to §§ 970.57 and 970.58.

(2) Handlers shall obtain inspection provided by § 970.65, or pay the pro rata share of expenses provided by § 970.45 or both, in connection with potato shipments effected under the provisions of § 970.57: *Provided*, That such inspection or payment of expenses may be required at different times than otherwise specified by the aforesaid sections; and

(3) Handlers shall obtain Certificates of Privilege from the administrative committee for shipments of potatoes effected or to be effected under the provisions of §§ 970.57 and 970.58.

(b) The administrative committee may rescind or deny Certificates of Privilege to any shipper if proof is obtained that potatoes shipped by him for the purposes stated in §§ 970.57 and 970.58 were handled contrary to the provisions of this subpart.

(c) The Secretary shall have the right to modify, change, alter, or rescind any safeguards prescribed and any certificates issued by the administrative committee pursuant to the provisions of this section.

(d) The administrative committee shall make reports to the Secretary, as requested, showing the number of applications for such certificates, the quantity of potatoes covered by such applications, the number of such applications denied and certificates granted, the quantity of potatoes shipped under duly issued certificates, and such other information as may be requested.

INSPECTION

§ 970.65 *Inspection and certification.* (a) During any period in which shipments of potatoes are regulated pursuant to §§ 970.45, 970.52, 970.53, or 970.57, or any combination thereof, no handler shall ship potatoes unless each such shipment is inspected by an authorized representative of the Federal-State Inspection Service, or such other inspection service as the Secretary shall designate, except when relieved from such requirements pursuant to §§ 970.57 or 970.58, or both.

(b) Regrading, resorting, or repacking any lot of potatoes shall invalidate any prior inspection certificates insofar as the requirements of this section are concerned. No handler shall ship potatoes after they have been regraded, resorted, repacked, or in any other way further prepared for market, unless each shipment of such potatoes is inspected by an authorized representative of the Federal-State Inspection Service, or such other inspection service as the Secretary shall designate.

(c) Insofar as the requirements of this section are concerned, the length of time for which an inspection certificate is valid may be established by the marketing committee with the approval of the Secretary.

(d) Each handler obtaining inspection as required in this section shall make arrangements with the inspection agency to forward promptly to the administrative committee a copy of each inspection certificate.

EXEMPTION

§ 970.70 *Policy.* (a) Any producer whose potatoes have been adversely affected by acts beyond his control or by acts beyond reasonable expectation and who, by reason of any regulation issued pursuant to § 970.52, is prevented from shipping during the season, or a specific portion thereof, as large a proportion of his potato crop as the average proportion shipped or to be shipped during comparable portions of the season by all producers in his immediate area of production, may apply to the administrative committee for exemptions from such regulations for the purpose of obtaining equitable treatment under such regulations.

(b) Any handler who has storage holdings of ungraded potatoes acquired during or immediately following the digging season that have been adversely affected by acts beyond the handler's control or by acts beyond reasonable expectation and who, by reason of any regulation issued pursuant to § 970.52, is prevented from shipping as large a proportion of his storage holdings of ungraded potatoes as the average proportion of ungraded storage holdings shipped by all handlers in said handler's immediate shipping area, may apply to the administrative committee for exemptions from such regulations for the purpose of obtaining equitable treatment under such regulations.

§ 970.71 *Rules and procedures.* The marketing committee may adopt, with approval of the Secretary, the rules and procedures for handling exemptions. Such rules and procedures should provide for handling applications for exemptions, for issuing certificates of exemption, for marketing committee determinations with respect to areas and averages (as required by § 970.70), and for such other procedures as may be necessary to accomplish policies with respect to exemptions.

§ 970.72 *Applications and issuance.* The administrative committee shall issue certificates of exemption to any qualified applicant who furnishes adequate evidence to such committee:

(a) That the grade, size, or quality of the applicant's potatoes have been adversely affected by acts beyond the applicant's control and by acts beyond reasonable expectation;

(b) That by reason of regulations issued pursuant to § 970.52, in case of an applicant who is a producer, he will be prevented from shipping as large a proportion of his production as the average proportion of production shipped by all producers in said applicant's immediate area of production during the season, or a specific portion thereof;

(c) That by reason of regulations issued pursuant to § 970.52, in case of an applicant who is a handler who has storage holdings of ungraded potatoes acquired during or immediately following the digging season, he will be prevented from shipping as large a proportion of such storage holdings as the average proportion of similar storage holdings shipped by all handlers in said applicant's immediate shipping area during the season;

(d) Each certificate shall permit the recipient thereof to ship the potatoes described thereon, and evidence of such certificates shall be made available to subsequent handlers thereof.

§ 970.73 *Investigation.* The administrative committee shall be permitted at any time to make a thorough investigation of any applicant's claim pertaining to exemptions.

§ 970.74 *Appeals.* If any applicant for exemption certificate is dissatisfied with the determination with respect to his application, said applicant may file an appeal with the administrative committee. Such an appeal must be taken promptly after the determination from which the appeal is taken. Any applicant filing an appeal shall furnish evidence satisfactory to such administrative committee for a determination on the appeal. The administrative committee shall thereupon reconsider the application, examine all available evidence, and make a final determination concerning the application. The administrative committee shall notify the appellant of the final determination, and shall furnish the Secretary with a copy of the appeal and a statement of considerations involved in making the final determination.

§ 970.75 *Records.* The administrative committee shall maintain a record of all applications submitted for exemption certificates, a record of all exemption certificates issued and denied, the quantity of potatoes covered by such exemption certificates, a record of the

amount of potatoes shipped under exemption certificates, a record of appeals for reconsideration of applications, and such other information as may be requested by the Secretary. Periodic reports on such records shall be compiled and issued by the administrative committee upon request of the Secretary.

MISCELLANEOUS PROVISIONS

§ 970.80 *Reports.* Upon the request of the administrative committee with the approval of the Secretary, every handler shall furnish to the administrative committee, in such manner and at such time as may be prescribed, such information as will enable the administrative committee to exercise its powers and perform its duties under this subpart. The Secretary shall have the right to modify, change, or rescind any requests for reports pursuant to this section.

§ 970.81 *Compliance.* Except as provided in this subpart, no handler shall ship potatoes, the shipment of which has been prohibited by the Secretary in accordance with provisions of this subpart, and no handler shall ship potatoes except in conformity to the provisions of this subpart.

§ 970.82 *Right of the Secretary.* The members of the marketing committee and of the administrative committee (including successors and alternates), and any agent or employee appointed or employed by such committees, shall be subject to removal or suspension by the Secretary at any time. Each and every order, regulation, decision, determination or other act of the marketing committee or of the administrative committee shall be subject to the continuing right of the Secretary to disapprove of the same at any time. Upon such disapproval the disapproved action of the said committees shall be deemed null and void, except as to acts done in reliance thereon or in compliance therewith prior to such disapproval by the Secretary.

§ 970.83 *Effective time.* The provisions of this subpart shall become effective at such time as the Secretary may declare and shall continue in force until terminated in one of the ways specified in this subpart.

§ 970.84 *Termination or suspension.* (a) The Secretary may, at any time, terminate the provisions of this subpart by giving at least one day's notice by means of a press release or in any other manner which he may determine.

(b) The Secretary may terminate or suspend the operation of any or all of the provisions of this subpart whenever he finds that such provisions do not tend to effectuate the declared policy of the act.

(c) The Secretary shall terminate the provisions of this subpart at the end of any fiscal period whenever he finds that such termination is favored by a majority of producers, who during the preceding marketing season, have been engaged in the production for market of potatoes: *Provided*, That such majority has, during such period produced for market more than fifty percent of the volume of such potatoes produced for market; but such termination shall be effective only if announced at least 30 days prior to the end of the then current fiscal period.

(d) The provisions of this subpart shall, in any event, terminate whenever the provisions of the act authorizing them cease to be in effect.

§ 970.85 *Proceedings after termination.* (a) Upon the termination of the provisions of this subpart, the members of the administrative committee then functioning shall continue as joint trustees, for the purpose of liquidating the affairs of the marketing committee and of the administrative committee, of all the funds and property then in the possession of or under control of such committees, including claims for any funds unpaid or property not delivered at the time of such termination. Action by said trusteeship shall require the concurrence of a majority of the said trustees.

(b) The said trustees shall continue in such capacity until discharged by the Secretary; shall, from time to time, account for all receipts and disbursements and deliver all property on hand, together with all books and records of the committees and of the trustees, to such person as the Secretary may direct; and shall upon request of the Secretary, execute such assignments or other instruments necessary or appropriate to vest in such person full title and right to all of the funds, property, and claims vested in the marketing committee or the administrative committee, or both, or the joint trustees pursuant to this subpart.

(c) Any person to whom funds, property, or claims, have been transferred or delivered by the marketing committee or the administrative committee or its members, pursuant to this section, shall be subject to the same obligations imposed upon the members of such committees and upon the said trustees.

§ 970.86 *Effect of termination or amendment.* Unless otherwise expressly provided by the Secretary, the termination of this subpart or any regulation issued pursuant to this subpart or the issuance of any amendments to either thereof, shall not (1) effect or waive any right, duty, obligation, or liability which shall have arisen or which may thereafter arise in connection with any provision of this subpart or any regulation issued under this subpart, or (2) release or extinguish any violation of this subpart or of any regulations issued under this subpart or (3) effect or impair any rights or remedies of the Secretary or of any other person with respect to any such violation.

§ 970.87 *Duration of immunities.* The benefits, privileges, and immunities conferred upon any person by virtue of this subpart shall cease upon the termination of this subpart, except with respect to acts done under and during the existence of this subpart.

§ 970.88 *Agents.* The Secretary may, by designation in writing, name any person, including any officer or employee of the Government, or name any bureau or division in the United States Department of Agriculture, to act as his agent or representative in connection with any of the provisions of this subpart.

§ 970.89 *Derogation.* Nothing contained in this subpart is, or shall be construed to be in derogation or in modification of the rights of the Secretary or of the United States to exercise any powers granted by the act or otherwise, or, in accordance with such powers, to act in the premises whenever such action is deemed advisable.

§ 970.90 *Personal liability.* No member or alternate of the marketing committee or of the administrative committee, nor any employee or agent thereof, shall be held personally responsible, either individually or jointly with others, in any way whatsoever, to any handler or to any other person for errors in judgment, mistakes, or other acts, either of commission or omission, as such member, alternate, employee, or agent except for acts of dishonesty.

§ 970.91 *Separability.* If any provision of this subpart is declared invalid, or the applicability thereof to any person, circumstances, or thing is held invalid, the validity of the remainder of this subpart, or the applicability thereof to any other person, circumstance, or thing shall not be affected thereby.

§ 970.92 *Amendments.* Amendments to this subpart may be proposed, from time to time, by the marketing committee or by the Secretary.

§ 970.93 *Counterparts.* This agreement may be executed in multiple counterparts and when one counterpart is signed by the Secretary all such counterparts shall constitute, when taken together, one and the same instrument as if all signatures were contained in one original.[1]

§ 970.94 *Additional parties.* After the effective date of this part, any handler who has not previously executed this agreement may become a party to this part if a counterpart hereof is executed by him and delivered to the Secretary. This agreement shall take effect as to such new contracting party at the time such counterpart is delivered to the Secretary, and the benefits, privileges, and immunities conferred by this agreement shall then be effective as to such new contracting party.[1]

§ 970.95 *Order with marketing agreement.* Each signatory handler favors and approves the issuance of an order, by the Secretary, regulating the handling of potatoes in the same manner as is provided for in this agreement; and each signatory handler hereby requests the Secretary to issue, pursuant to the act, such an order.[1]

Copies of this notice of hearing may be procured from the Hearing Clerk, United States Department of Agriculture, Room 1846, South Building, Washington 25, D. C., or may be there inspected.

Issued at Washington, D. C., this 2d day of April 1954.

[SEAL] ROY W. LENNARTSON,
Deputy Administrator.

[F. R. Doc. 54-2572; Filed, Apr 6, 1954, 8:54 a. m.]

FEDERAL COMMUNICATIONS COMMISSION

[47 CFR Part 2]

[Docket No. 10988]

FREQUENCY ALLOCATIONS

USE OF CERTAIN FREQUENCY BANDS BY RADIOPOSITIONING STATIONS

In the matter of amendment of Part 2 of the Commission's rules and regulations concerning the use of the frequency bands 10–14 kc, and 90–110 kc by radiopositioning stations; Docket No. 10988.

Notice is hereby given of proposed rulemaking in the above entitled matter.

The table of frequency allocations contained in Part 2 of the Commission's rules now show the band 10–14 kc allocated exclusively to the radionavigation service and the band 90–110 kc allocated to the fixed, maritime mobile and radionavigation services. The Atlantic City Table of Frequency Allocations specifies that the band 90–110 kc is available for the development of long distance radionavigation systems looking toward the adoption of one such system internationally. Developments in the field of radiolocation indicate that radionavigation techniques may also be employed for radiopositioning (such as radio surveying).

Accordingly, to permit the development of radiolocation equipment which may eventually be used for either radionavigation or radiopositioning it is proposed to amend § 2.104 (a) of the Commission's rules and regulations so that, frequencies in the bands 10–14 kc and 90–110 kc may be authorized for developmental use by radiopositioning stations on a secondary basis to the radionavigation service as shown below. Previously, a similar provision was made with reference to the 3000, 5000 and 9000 Mc Radionavigation bands through the addition of footnote NG 18.

The proposed amendments to the rules are issued under the authority of sections 303 (c), (f) and (r) of the Communications Act of 1934, as amended.

Any interested person who is of the opinion that the proposed amendment should not be adopted, or should not be adopted in the form set forth herein, may file with the Commission on or before May 3, 1954, written data, views or arguments setting forth his comments. Comments in support of the proposed amendment may also be filed on or before the same date. Comments in reply to the original comments may be filed within 15 days from the last day for filing said original data, views or arguments. No additional comments may be filed unless (1) specifically requested by the Commission or (2) good cause for the filing of such additional comments is established. The Commission will consider all such comments prior to taking final action in this matter, and if comments are submitted warranting oral argument, notice of the time and place of such oral argument will be given.

In accordance with the provisions of § 1.764 of the Commission's rules, an original and fourteen copies of all statements, briefs, or comments shall be furnished the Commission.

Adopted: March 31, 1954.

Released: April 1, 1954.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
Secretary.

In § 2.104 *Frequency allocations*, amend paragraph (a) (5) as follows:

In the bands 10–14 kc, 90–100 kc and 100–110 kc add footnote in Column 7 to read as follows: "Land radiopositioning stations and mobile radiopositioning stations may be authorized, on a developmental basis, to use frequencies in this band on the condition that harmful interference will not be caused to the radionavigation service."

[47 CFR Part 3]

[Docket No. 10936]

TELEVISION BROADCAST STATIONS

TABLE OF ASSIGNMENTS; NOTICE OF EXTENSION OF TIME FOR FILING REPLIES TO COMMENTS

In the matter of amendment of § 3.606 *Table of assignments*, rules governing television broadcast stations; Docket No. 10936.

1. On February 25, 1954, the Commission issued a notice of proposed rule making (FCC 54–260) in the above-entitled matter which specified that comments were to be filed on or before March 24, 1954. The time for filing replies to such comments was specified as 10 days from the last day for filing original comments. Mr. John H. Phipps has requested an extension of one week for filing a reply to comments filed in the proceeding. Mr. Phipps states that prior commitments require the attention of his counsel outside of Washington and that he has not had an opportunity to study the comments filed and prepare a reply thereto.

2. It is our view that an extension of one week for filing replies to comments in this proceeding is warranted. Accordingly, notice is hereby given that the time for filing replies to comments filed in the above-entitled matter is extended to April 12, 1954.

Adopted: March 31, 1954.

Released: April 1, 1954.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
Secretary.

[Docket No. 10989]

AFFILIATION AGREEMENTS; TERRITORIAL EXCLUSIVITY

NOTICE OF PROPOSED RULE MAKING

In the matter of amendment of § 3.658 (b) of the Commission's rules and regulations; Docket No. 10989.

1. The Commission has under consideration the revision of § 3.658 (b) of its Chain Broadcasting rules relating to the right of television broadcast stations to contract for territorial exclusivity with network organizations.

2. Under the present provisions of § 3.658 (b), a network affiliate which renders coverage to a substantial portion of the service area of a station located in another community may, if it has so contracted with the network, preclude the station in that other community from carrying particular network programs, even though the programs' sponsors and the network desired that they be broadcast by the latter station also.

3. The question before the Commission is whether § 3.658 (b) of its rules should be revised as follows:

(b) *Territorial exclusivity.* No license shall be granted to a television broadcast station having any contract, arrangement, or understanding, express or implied, with a network organization which prevents or hinders another broadcast station located in the same community[15a] from broadcasting the network's programs not taken by the former station, or which prevents or hinders another broadcast station located in a different community from broadcasting any program of the network organization. This regulation shall not be construed to prohibit any contract, arrangement, or understanding between a station and a network organization pursuant to which the station is granted the first call in its community upon the programs of the network organization.

4. It does not appear that adoption of this proposal would require any drastic revision of present network-affiliate relationships. In this connection, we note that two of the four major networks, in most instances, now grant their affiliates "first call" or "the right of first refusal" limited substantially in the manner specified by the proposed revision, while one does not appear to grant any "territorial exclusivity."

5. Authority for the adoption of the proposed amendment is contained in sections 1 and 303 (i) and (r) of the Communications Act of 1934, as amended.

6. Any interested party who is of the opinion that the proposed amendment should not be adopted or should not be adopted in the form set forth herein may file with the Commission on or before May 3, 1954, a written statement or brief setting forth his comments. Comments in support of the proposed amendment may also be filed on or before the same date. Comments or briefs in reply to the original comments may be filed within 10 days from the last day for filing said original comments or briefs. No additional comments may be filed unless (1) specifically requested by the Commission or (2) good cause for the filing of such additional comments is established. The Commission will con-

[15a] As employed in this paragraph, the term "community" is defined as the listed city to which the channel of the station is assigned in the Commission's Table of Assignments and all other cities not listed in the Table of Assignments located within 15 miles of the listed community.

sider all such comments that are submitted before taking action in this matter, and if any comments appear to warrant the holding of a hearing or oral argument, notice of the time and place of such hearing or oral argument will be given

7. In accordance with the provisions of § 1.764 of the Commission's rules and regulations, an original and 14 copies of all statements, briefs, or comments shall be furnished the Commission.

[47 CFR Parts 31, 34, 35]

[Docket No. 10985]

UNIFORM SYSTEM OF ACCOUNTS FOR CLASS A AND CLASS B TELEPHONE COMPANIES, RADIOTELEGRAPH CARRIERS, AND WIRE-TELEGRAPH AND OCEAN-CABLE CARRIERS

NOTICE OF PROPOSED RULE MAKING

In the matter of amendments of Part 31, Uniform System of Accounts for Class A and Class B Telephone Companies, Part 34, Uniform System of Accounts for Radiotelegraph Carriers, and Part 35, Uniform System of Accounts for Wire-Telegraph and Ocean-Cable Carriers, of the Commission's rules and regulations; Docket No. 10985.

1. Notice is hereby given of proposed rule making in the above-entitled matter.

2. It is proposed to amend the uniform systems of accounts for Class A and Class B telephone carriers, for radiotelegraph carriers, and for wire-telegraph and ocean-cable carriers (Parts 31, 34, and 35, respectively) with regard to accounting for employees pensions and certain other benefits, to become effective six months after publication in the FEDERAL REGISTER of the final order herein: *Provided, however*, That the carriers may, if they so desire, place these amendments, in whole or in part, into effect in less than six months after such publication or retroactively to January 1, 1954.

3. The proposed amendments set forth below provide for inclusion in the appropriate operating expense accounts of the entire cost of pensions whether paid on a current basis or provided for in advance through payments into trust funds irrevocably dedicated to that purpose, so long as such advance provisions meet certain conditions set forth in the texts of the accounts. The proposed amendments also provide for certain modifications and clarifications with respect to accounting for the cost of workmen's compensation and supplementary and special pensions.

4. The proposed amendments are issued under authority of sections 4 (i) and 220 of the Communications Act of 1934, as amended.

5. Any interested party who is of the opinion that the proposed amendments should not be adopted, or should not be adopted in the manner proposed herein, may file with the Commission on or before May 3, 1954, a statement or brief setting forth his comments. At the same time, persons favoring the amendments as proposed may file statements in support thereof. Comments or briefs in reply to the original comments or briefs may be filed within ten days of the last day for filing said original comments. No additional comments may be filed unless (1) specifically requested by the Commission, or (2) good cause for filing of such additional comments is established. The Commission will consider all such comments that are presented before taking action in the matter and, if any comments are submitted which appear to warrant the holding of oral argument, notice of the time and place of such oral argument will be given.

6. In accordance with the provisions of § 1.764 of the Commission's rules and regulations, an original and fourteen copies of all statements or briefs filed shall be furnished to the Commission.

Adopted: March 31, 1954.

Released: April 1, 1954.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
Secretary.

1. Immediately after the first sentence of paragraph (b) of §§ 31.672, 34.4435, and 35.4327, insert the following: "There may be included in this account reasonable amounts to provide for pension costs based on service rendered prior to the period for which the accruals are made. Such amounts may be spread over a reasonable period of years if inclusion in the current year seriously distorts the expenses of that year."

2. Delete paragraph (c) of §§ 31.672, 34.4435, and 35.4327 and substitute in lieu thereof the following:

(c) There shall be segregated in a separate subaccount any charges representing interest on the unfunded actuarial liability for the purpose of arresting the growth of such liability or any charges designed to dispose of, in a lump sum amount or over a reasonable period of years, such unfunded actuarial liability.

3. To the list of items following the main text of §§ 31.672, 34.4435 and 35.4327 add in alphabetical order the two items set forth below:

Cost of providing workmen's compensation.
Payments for supplementary or special pensions.

4. Delete in its entirety § 35.4323 *Workmen's compensation;* in Note D to § 35.4321, and in Note B to § 35.4325, delete "account 4323, 'Workmen's compensation'" and substitute in lieu thereof "account 4327, 'Relief and pensions'". Delete the reference in § 35.4311 to § 35.4323.

5. Revise § 35.2215 (b) to read as follows:

(b) This account shall also be credited with amounts that are charged to account 4327, "Relief and pensions", when under statutes to which the carrier is subject, self-insurance of risks for workmen's compensation for employees' liability is required or permitted.

6. Delete from Note B to § 35.2215 the words: "workmen's-compensation".

7. Delete from the first sentence of paragraph (a), § 34.4425 *Insurance* the following: "and the amount of insurance premiums paid in compliance with statutes requiring the carrier to provide for workmen's compensation or similar employee protection, except such costs as are includible in the clearing accounts."

[F. R. Doc. 54-2556; Filed, Apr. 6, 1954; 8:51 a. m.]

[47 CFR Parts 34, 35]

[Docket No. 10986]

UNIFORM SYSTEM OF ACCOUNTS FOR RADIOTELEGRAPH CARRIERS AND WIRE-TELEGRAPH AND OCEAN-CABLE CARRIERS

NOTICE OF PROPOSED RULE MAKING

In the matter of amendments of Parts 34, Uniform System of Accounts for Radiotelegraph Carriers, and 35, Uniform System of Accounts for Wire-Telegraph and Ocean-Cable Carriers of the Commission's rules and regulations; Docket No. 10986.

1. Notice is hereby given of proposed rule making in the above-entitled matter.

2. It is proposed to amend certain provisions of Parts 34 and 35 of the Commission's rules and regulations, relating to depreciation accounting, as set forth below, to become effective six months after publication in the FEDERAL REGISTER of the final order herein, with the provision that these amendments may be made effective immediately upon issuance of a final order herein.

3. It has been found on the basis of studies conducted by this Commission that with respect to most classes of plant the remaining-life principle of computing depreciation is less suitable than the total-life method. Accordingly, the proposed amendments are designed to require the use of the total-life depreciation method except:

(a) Where the Commission after investigation prescribes the remaining-life method of depreciation accounting or

(b) Where the carrier makes proper application to, and receives prior approval from, the Commission to use the remaining-life method of depreciation accounting.

(c) Carriers currently using the remaining-life method may continue to do so, unless specifically directed otherwise by the Commission.

4. The proposed amendments further eliminate the provision in paragraph (a) of § 35.04-3 of the rules, that the accrued depreciation included in the carrier's Allowance for Depreciation (Account 1515) shall at no time exceed the depreciation-allowance requirement. This provision has been found to be burdensome and impracticable of application and, accordingly, is proposed for deletion.

5. The proposed amendments are issued under authority of sections 4 (i) and 220 of the Communications Act of 1934, as amended.

6. Any interested party who is of the opinion that the proposed amendments should not be adopted, or should not be adopted in the manner proposed herein, may file with the Commission on or before May 3, 1954 a statement or brief setting forth his comments. Comments in support of the proposed amendment may also be filed on or before the same date. Comments or briefs in reply to the original comments may be filed within ten days of the last day for filing said original comments. No additional comments may be filed unless (1) specifically requested by the Commission or (2) good cause for the filing of such additional comments is established. The Commission will consider all such comments that are presented before taking action in the matter and, if any comments are submitted which appear to warrant the holding of oral argument, notice of time and place of such argument will be given.

7. In accordance with the provisions of § 1.764 of the Commission's rules and regulations, an original and fourteen copies of all statements and briefs filed shall be furnished to the Commission.

Adopted: March 31, 1954.

Released: April 1, 1954.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
Secretary.

1. Revise paragraph (c) of §§ 34.04-2 and 35.04-2 to read as follows:

(c) When, with respect to any class or subclass of plant, the rate of depreciation previously applied in the accounts is no longer applicable for any reason, the carrier shall take such steps as are required (see § 43.43 of this subchapter) to put into effect at the earliest practicable date such new depreciation rate (computed as provided in paragraph (a) of this section) as is then appropriate to give recognition to the currently estimated total service-life and net-salvage factors. The carrier, upon receiving prior approval from the Commission or, upon prescription by the Commission, shall apply such depreciation rate as will amortize the difference between the net book cost of a class or subclass of plant and its estimated net salvage value during the known or estimated remaining service life of that plant. However, any carrier which at the effective date of this rule, is applying the remaining-life method of depreciation accounting may continue to do so unless otherwise directed by the Commission.

2. Delete from paragraph (a) of § 35.04-3 the last sentence reading as follows: "The amount remaining in account 1515, with respect to any class or subclass of operated plant for which a separate specific percentage rate is computed, shall at no time be in excess of the depreciation-allowance requirement computed on the basis of the then applicable depreciation rate (see § 35.04-2) and the remaining life expectancy of such class or subclass of operated plant. (See also § 35.03-21.)"

3. Delete from paragraph (a) § 34.04-2 the last part of the first sentence reading as follows: "* * * or to the cost of that portion of such plant with respect to which the estimated service value has not been completely accounted for through the aggregate of prior current allowances for depreciation."

NOTICES

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

COLOCKUM GAME RANGE, WASHINGTON

NOTICE OF PROPOSED WITHDRAWAL AND RESERVATION OF LANDS

MARCH 29, 1954.

An application, serial number W-01109, for the withdrawal from all forms of appropriation under the public land laws, except none of the lands described below was filed on July 27, 1953, by United States Fish and Wildlife Service.

The purposes of the proposed withdrawal: Colockum Game Range, Washington.

For a period of 30 days from the date of publication of this notice, persons having cause to object to the proposed withdrawal may present their objections in writing to the Regional Administrator, Region I, Bureau of Land Management, Department of the Interior at Swan Island Station, Portland 18, Oregon. In case any objection is filed and the nature of the opposition is such as to warrant it, a public hearing will be held at a convenient time and place, which will be announced, where opponents to the order may state their views and where proponents of the order can explain its purpose.

The determination of the Secretary on the application will be published in the FEDERAL REGISTER, either in the form of a public land order or in the form of a notice of determination if the application is rejected. In either case, a separate notice will be sent to each interested party of record.

The lands involved in the application are:

WILLIAMETTE MERIDIAN

T. 20 N., R. 21 E.,
Sec. 2, Lots 1 to 12 inclusive;
Sec. 8, N½NE¼, W½SW¼, S½SE¼;
Sec. 10, W½NE¼, NW¼;
Sec. 12, N½, N½S½.
T. 20 N., R. 22 E.,
Sec. 6, All.
Sec. 8, NE¼SW¼;
Sec. 22, NE¼, N½NW¼, NW¼SW¼, NE¼SE¼, S½SE¼;
Sec. 26, NW¼, S½;
Sec. 32, SE¼NE¼, W½, N½SE¼, W½NE¼.
T. 21 N., R. 22 E.,
Sec. 32, W½W½, SE¼NW¼.

The areas described aggregate 3,695.16 acres.

J. G. FRIEDLY,
Acting Regional Administrator.

[F. R. Doc. 54-2528; Filed, Apr. 6, 1954; 8:45 a. m.]

SIERRA ANCHA EXPERIMENTAL FOREST

NOTICE OF PROPOSED WITHDRAWAL AND RESERVATION OF LANDS

MARCH 30, 1954.

An application, serial number AR-05563 (Amended), for the withdrawal from all forms of appropriation under the public land laws, including the mining and mineral leasing laws of the lands described below was filed on November 9, 1953, by the United States Department of Agriculture. The purposes of the proposed withdrawal: Sierra Ancha Experimental Forest within the Tonto National Forest.

For a period of thirty days from the date of publication of this notice, persons having cause to object to the proposed withdrawal may present their objections in writing to the Regional Administrator, Region 5, Bureau of Land Management, Department of the Interior at Post Office Box 1695, Albuquerque, New Mexico. In case any objection is filed and the nature of the opposition is such as to warrant it, a public hearing will be held at a convenient time and place, which will be announced, where opponents to the order may state their views and where proponents of the order can explain its purpose.

The determination of the Secretary on the application will be published in the FEDERAL REGISTER, either in the form of a public land order or in the form of a notice of determination if the application is rejected. In either case, a separate notice will be sent to each interested party of record.

The lands involved in the application are:

GILA AND SALT RIVER MERIDIAN

T. 5 N., R. 13 E.,
Sec. 1, S½N½N½, S½N½, S½;
Sec. 2, E½SE¼;
Sec. 11, NE¼, E½NW¼, S½;
Secs. 12 and 13;
Sec. 14, N½, N½SW¼, SE¼;
Sec. 23, NE¼;
Sec. 24;
Sec. 25, E½, E½NW¼;
Sec. 36, E½NE¼.
T. 5 N., R. 14 E.,
Sec. 3, lots 3, 4 S½NW¼, SW¼;
Secs. 4, 5, 6, 7, 8, 17, 18, 19 and 20;
Sec. 29, W½;
Sec. 30;
Sec. 31, lots 1, 2, NE¼, E½NW¼, NE¼SW¼, N½SE¼.
T. 6 N., R. 14 E.,
Sec. 31, lot 4, SE¼SW¼, S½SE¼;
Sec. 32, E½NE¼, S½SW¼, SE¼;
Sec. 33.
Sec. 34, W½NW¼, SW¼.

The areas described aggregate 13,150.47 acres.

E. R. SMITH,
Regional Administrator.

FEDERAL COMMUNICATIONS COMMISSION

[Docket No. 8777]

MACKAY RADIO AND TELEGRAPH CO.

ORDER CONTINUING HEARING

In the matter of Mackay Radio and Telegraph Company, applications for radiotelegraph circuits between the United States and Portugal, Surinam and The Netherlands; Docket No. 8777.

The Commission having under consideration a telegram filed by RCA Communications, Inc., on March 30, 1954, requesting postponement of hearing in the above-entitled proceeding for a period not exceeding 30 days, in view of litigation in the United States Court of Appeals for the second circuit, which requires immediate attention of counsel and has created a conflict with the hearing herein on April 5, 1954; also having under consideration telegrams filed on March 30, 1954, by The Western Union Telegraph Company, Mackay Radio and Telegraph Company, and Commercial Cable Company agreeing to such continuance;

It appearing that a continuance of two days may be granted without unduly delaying the hearing or disrupting the Examiner's hearing schedule, but that a longer postponement would cause a conflict with hearings in which the Examiner is assigned to preside in other important cases;

It further appearing that the Commission, in its memorandum opinion and order herein of March 31, 1954, indicated need for a final decision in this matter as quickly as possible;

It is ordered, This 31st day of March, 1954, that the hearing heretofore scheduled herein for April 5, 1954, is continued until 10:00 a. m., April 7, 1954.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
Secretary.

[F. R. Doc. 54-2558; Filed, Apr. 6, 1954; 8:51 a. m.]

[Docket No. 8777]

MACKAY RADIO AND TELEGRAPH CO.

MEMORANDUM OPINION AND ORDER AMENDING ISSUE

In the matter of Mackay Radio and Telegraph Company, applications for radiotelegraph circuits between the United States, Portugal, Surinam, and The Netherlands; Docket No. 8777

Preliminary statement. 1. On March 23, 1954, the Commercial Cable Company (Commercial), a respondent herein, filed a petition wherein it was requested that Commercial either be relieved from supplying certain cost data in response to the issues set forth in subparagraph (e) [1] of the first ordering paragraph of the Commission's order of March 1, 1954, herein (released March 3, 1954), setting further hearings in this matter to start on April 5, 1954, or that, in the alternative, the hearing herein be postponed for "at least thirty days in order that some formula may be devised, if possible, and data be prepared under such a formula." On March 24, 1954, The Western Union Telegraph Company (Western Union), a respondent herein, also filed a petition wherein it was requested that Western Union be granted relief from the requirement to respond to the issues set forth in the aforementioned subparagraph (e). On March 30, 1954, RCA Communications Inc. (RCAC), a respondent herein, filed a response to the aforementioned petitions of Commercial and Western Union wherein it opposed such petitions in so far as they contained requests for the relief from the requirements to respond to the issues set forth in subparagraph (e) but wherein no objection was made of a postponement not to exceed thirty days to provide time to devise an appropriate formula and to permit Commercial and Western Union to prepare the data required by the issues set forth in the aforementioned subparagraph (e).

The petitions. 2. In support of its petition Commercial alleges, among other things, that although both it and Western Union provide cable service to practically the entire world their cables, with minor exceptions, extend only to Canada, Eire, The Azores, The United Kingdom, France, Germany, and Holland; [2] that neither Commercial nor Western Union serve Portugal directly; that so far as Commercial is aware no reliable cost allocation studies have been made with respect to cable service and no acceptable formula has been devised on the basis of which such studies could be made. Commercial further alleges that it has discussed this matter with Western Union and that thus far neither company has been able to devise an acceptable formula for making the necessary studies; that any formula which might be devised would have to be tested and rewritten several times before any "fairly acceptable and uniform results could be reached;" that Commercial and the applicant herein, Mackay Radio and Telegraph Company Inc. (Mackay), operate a joint comptrollers department which is engaged in preparing the data in response to all of the issues set forth in the aforementioned Commission Order of March 1, 1954, on behalf of Mackay as well as all issues other than those set forth in subparagraph (e) on behalf of Commercial and is also engaged in several other matters. Commercial also points to the fact that neither it nor Western Union was named a party to the original proceeding although Western Union was an intervener in that proceeding and Commercial's operations were described by a witness for Mackay

3. In support of its petition Western Union alleges among other things that the uniform system of accounts "is not capable of yielding the requisite data" to comply with the issues set forth in subparagraph (e); that Western Union handles its traffic between Portugal and The Netherlands "over many alternate paths and jointly with traffic to and from other foreign countries" as is set forth more fully in its petition so that it is "not practicable to ascertain the amount of such traffic handled over each alternate route." Western Union therefore argues that since its cable operations "involve almost entirely costs which are common and joint to all traffic, it is impossible for the company to show directly the costs assignable to or from a particular country."

4. In view of all of the foregoing, Western Union alleges that to obtain the cost data necessary to respond properly to the issues raised by subparagraph (e) it would have to make allocations based on special studies of traffic loads, use of personnel, use of facilities, etc.; that such cost allocations would be arbitrary and time consuming and in its opinion meaningless and inconclusive. In support of its allegation that the making of an allocation would be time consuming, Western Union advises that an analysis and segregation which it previously made in response to a Commission request required the services of a major number of its cable system accounting personnel almost one full month to complete; that this study did not involve any of the allocations and separations required in order to respond to the issues set forth in subparagraph (e) and that therefore it is conservatively estimated that in order to respond to such issues even if performed in the most arbitrary fashion for the seven year period, would require the major number of * * * ocean cable department accounting personnel to devote a period of from six to nine months to the task."

The RCAC response. 5. In its response to the petitions of Commercial and Western Union, RCAC alleges among other things that economic issues are of primary importance in determining the public interest and that cost data are necessary for the resolution of such issues. RCAC contends that under the Commission's Order of March 1, 1954, the cable carriers as well as the radiotelegraph carriers who are named parties respondent in this proceeding are required to submit the cost data called for by the issues set forth in subparagraph (e); that Commercial's argument that it should not be required to submit cost data since it was not a respondent in the original proceeding is "unconvincing." RCAC argues instead that the designation of cable carriers as respondents in the Commission's Order of March 1, 1954, indicates the Commission's intention to obtain cost data from these carriers. RCAC also contends that economic injury to cable carriers as well as radio carriers from the operation of duplicate circuits cannot be ignored in reaching a decision on the Mackay applications and alleges that data from the cable carriers showing only their gross revenues would be insufficient. RCAC therefore contends that the Commission's Order properly requires cost data from all respondents including cable carriers.

6. In response to the contentions of Commercial and Western Union regarding the difficulty in devising an acceptable formula RCAC alleges that cost data have been submitted to the Commission on many occasions by radio carriers, telephone carriers, domestic telegraph carriers, as well as other common carriers; that these studies have been considered and relied upon by the Commission in numerous proceedings and that it is, therefore, apparent that valid cost studies can also be made for the "relatively less complicated cable operations." RCAC also alleges that it has been making the necessary cost studies to respond to the issues contained in subparagraph (e); and that certain complications involved in its studies do not exist in the case of other respondents, particularly the cable carriers, which provide only message service with Portugal and The Netherlands. RCAC therefore contends that Western Union, with the personnel at its disposal, should be able to complete its cost studies within a period of thirty days, the time within which according to RCAC, Commercial has indicated that it would be able to complete its studies, and that its estimate of six to nine months is unreasonable.

Discussion. 7. It is clear that our order of March 1, 1954, requires all parties respondent, including cable carriers which serve Portugal and The Netherlands, to submit the data required by the issues set forth in subparagraph (e). The question before us now, therefore, is whether we should modify the requirement in the light of the argument advanced by the petitioners, Commercial and Western Union.

8. As is set forth in the first appearing clause of our order of March 1, 1954, we determined to hold further hearings herein because we were of the opinion that the public interest would be served if the data of record were to be brought up to date so that we could have available current data to help us resolve the issues in this proceeding which involve "important decisions with respect to matters of both policy and fact, and since more than five years have elapsed from the time the record herein was closed." In this connection, we note, however, that none of the cable carriers submitted any cost data of the type now required by the issues in subparagraph (e), nor so far as we can determine was any request made that the cable carriers supply such data for the record. Such data was, however, supplied by RCAC which was then the only radiotelegraph carrier serving Portugal and The Netherlands directly.

9. Western Union originally intervened in the proceeding in order to oppose a grant of the Mackay applications. It would appear to us, therefore, that its interests in the proceeding are similar to those of RCAC and that it would not be inclined to exaggerate the difficulties involved in preparing the data at issue or to minimize the validity and reliability of any data which it might submit. We find, however, that Western Union's considered opinion, as set forth in its petition, is that the preparation of this data would require six to nine months of effort on the part of a major portion of its ocean cable accounting personnel, and even then the allocations would be performed "in the most arbitrary fashion." While we do not believe that a proper allocation of expenses is impossible in the case of the cable carriers, we are, nevertheless, aware that there may be numerous difficulties in the way of a proper study, all of which would require considerable time and effort.

10. It may be argued that since neither Mackay nor RCAC have raised any objections to preparing similar studies with respect to radiotelegraph operations in time for the hearing now scheduled for April 5, 1954, it should be possible for the cable carriers to prepare similar studies. We note, however, that in 1947, in connection with the preparation for another proceeding [3] a basic procedure was devised as a result of conferences between the Commission staff members and representatives of interested carriers, for assigning plant investment and operating revenue deductions to individual radio circuits. The procedures so devised were employed by RCAC in arriving at its last allocations which it submitted for the record in the proceeding. We are not aware, however, that similar plans or procedures have been devised for use by cable carriers.

11. We agree with RCAC that it is important that the Commission have available to it data with respect to the economic issues involved in order that it may arrive at a decision herein in the light of the Supreme Court's opinion. We must evaluate the relative importance of any data we require the parties to furnish in the light of its importance to a proper decision herein and in light of the time and effort required to furnish it. If we were of the opinion that the submission of cost data by the cable carriers was essential to a proper decision herein, we would, of course, deny the petitions of Commercial and Western Union in so far as they request that these companies be relieved of the requirement to respond to the issues set forth in subparagraph (e), and would instruct the staff to cooperate with the cable carriers to devise an appropriate basis for making the necessary studies. However, although we are of the opinion that cost allocation data for the cable carriers serving Portugal and The Netherlands are relevant hereto, we cannot conclude, for the reasons set forth below, that such data are indispensable to a proper decision herein.

12. We note first, that other issues herein require the submission of detailed and voluminous data with respect to the volume of message traffic and the types of non-message communication service, as well as the revenues resulting from each such service provided by each of the respondent cable carriers between the United States and Portugal and The Netherlands for each of the years from 1947 to 1953, inclusive. In addition, such other issues require the submission of similar data for each cable carrier respondent with respect to the total volume of message traffic and each type of non-message communication, as well as the revenues resulting therefrom on a world-wide basis for each of the years from 1947 to 1953. Finally, financial data are required for each of the respondent cable carriers, including an annual income statement and a year-end balance sheet for each of the years 1947 to 1953 inclusive. These data, together with data already in the record, will furnish the Commission with detailed information regarding the financial and

---

[1] This subparagraph provides as follows: "(e) To obtain data with respect to the costs properly attributable to and the net operating revenues resulting from message telegraph service and each type of non-message communication service provided by each respondent carrier between the United States, on the one hand, and Portugal and The Netherlands, on the other hand, for each of the years 1947 through 1953, inclusive;"

[2] Western Union also has cables between the United States and certain islands in the West Indies.

[3] Docket No. 7974 In the Matter of Radiotelegraph Service between the United States and foreign and overseas points and assignment of frequencies for such service.

economic situation with respect to Commercial and Western Union, for the period prior to the time that Mackay opened its circuits to Portugal and The Netherlands, and will show what has transpired since Mackay opened its circuits to these two points in 1951.

13. More than six years have elapsed since Mackay's applications were originally set for hearing in 1948. We are, therefore, of the opinion that we should reach an ultimate decision on these applications as quickly as possible. If we were to insist that the cable carriers, and particularly Western Union, furnish the data now required by the issues set forth in subparagraph (e), we are of the opinion that it would be improper for us to refuse to afford the cable carriers, which were named parties respondent on the Commission's own Motion, a reasonable time to meet the problems they indicate would confront them in preparing this information. As has been set forth above, Western Union is of the opinion that even the most arbitrary system of allocation would require a major number of its Cable Department accounting personnel to devote a period of from six to nine months to the task. We are not convinced that the public interest would be served by any postponement approximating this length of time to furnish the information at issue herein, particularly in view of the fact that we are of the opinion that these data are not essential to a proper decision herein.

Conclusion. 14. In view of all of the considerations set forth above, and in view of the fact that both Commercial, which is a proponent of Mackay's applications and Western Union, which originally intervened in this proceeding to oppose Mackay's applications, are agreed as to the difficulties involved in preparing cost allocation studies for cable carriers, we conclude that our order should be amended to relieve the cable carriers from submitting information in response to the issues now set forth in subparagraph (e).

15. *Accordingly, it is ordered*, This 31st day of March, 1954, that subparagraph (e) of the Commission's order herein dated March 1, 1954 (released March 3, 1954), is amended to read as follows:

(e) To obtain data with respect to the costs properly attributable to and the net operating revenues resulting from message telegraph service and each type of non-message communication service provided by each respondent carrier furnishing radiotelegraph service between the United States, on the one hand, and Portugal and The Netherlands, on the other hand, for each of the years 1947 through 1953, inclusive;

It is further ordered, That except in so far as granted herein, each of the requests contained in the aforementioned petitions of Commercial and Western Union and in the response of RCAC are denied.

Released: April 1, 1954.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
Secretary.

[F. R. Doc. 54-2559; Filed, Apr. 6, 1954; 8:52 a. m.]

[Docket Nos. 8917, 10906, 10990]

STATION WBBM-TV ET AL.

MEMORANDUM OPINION AND ORDER DESIGNATING PROCEEDING AND APPLICATIONS FOR HEARING

In the matters of Order to Show Cause Why the License of Station WBBM-TV should not be modified to Specify Channel 2, Chicago, Illinois, in lieu of Channel 4, Docket No. 10906; Application of Zenith Radio Corporation, Chicago, Illinois, for construction permit for a new television broadcast station, Docket No. 8917, File No. BPCT-322; Application of Columbia Broadcasting System, Inc., Chicago, Illinois, for renewal of license, Docket No. 10990, File No. BRCT-5.

1. The Commission has before it for consideration and designation for hearing the above-entitled proceedings and applications. The facts pertinent to such consideration are as follows: On March 21, 1951, the Commission adopted its Third Notice of Further Proposed Rule Making in Dockets 8736 et al., in which it proposed, among other things, to amend its Table of Assignments for television stations and to change the assignments of 31 existing stations, including that of Balaban & Katz Corporation, licensee of television Station WBKB,[1] Channel 4, Chicago, Illinois. Accordingly, paragraph 9 of the Third Notice directed these stations to show cause why their authorizations should not be modified. Specifically, WBKB was directed to show cause why its license should not be modified to specify Channel 2 in lieu of Channel 4 in the event Channel 4 was deleted from Chicago. At that time, and since February 12, 1948, there was pending before the Commission the application of Zenith Radio Corporation (Zenith) for Channel 2 in Chicago.

2. On April 14, 1952, the Commission issued its Sixth Report and Order in Dockets 8736 et al., in which it deleted Channel 4 from Chicago. On February 9, 1953, the Commission adopted a final decision in Dockets 10031 et al., renewing the license of WBKB and approving its transfer to Columbia Broadcasting System, Inc. (CBS). On the same day, the Commission adopted an order which provided that the license of WBKB be modified to provide for operation on Channel 2 in Chicago and that Zenith's application be dismissed. An appeal from the latter order was filed by Zenith on April 21, 1953. Zenith Radio Corporation v. Federal Communications Commission, No. 11772. On May 20, 1953, the United States Court of Appeals for the District of Columbia Circuit stayed the Commission order appealed from pending disposition of the appeal, but without prejudice to the issuance by the Commission of a special temporary authorization for operation on Channel 2 under certain specified conditions. Such an authorization was issued to CBS on June 22, 1953.

3. On January 21, 1954, the Court handed down a decision reversing the Commission's action of February 9, 1953, modifying the CBS license and dismissing the Zenith application. On February 10, 1954, the Commission adopted an order vacating that action. On February 10, 1954, pursuant to section 309 (b) of the Communications Act of 1934, as amended, the Commission wrote to Zenith and CBS advising that a comparative hearing was required which would involve a comparison between Zenith and CBS to determine which of the two should receive an authorization for regular operation on Channel 2 in Chicago that no element of the present operation of CBS under its special temporary authorization, including any expenditures which might have been made in connection with such operation on Channel 2 would be considered by the Commission in the hearing; and that the CBS application for renewal of license for Channel 4, Chicago would be included in the hearing. The letter to Zenith also advised it of the deficiencies which existed in its application, while the letter to CBS also directed it to file a statement with respect to its proposed operation on Channel 2. Both parties were afforded 30 days in which to reply.

4. Zenith filed a reply to the Commission's letter on March 10, 1954 and filed an amendment to its application on March 15, 1954. In its reply, Zenith urged that it is entitled to a comparative hearing with Balaban & Katz Corporation under the decision in Zenith Radio Corporation v. Federal Communications Commission, *supra;* that the course which the Commission was proposing disregarded the Court's opinion in holding a comparative hearing "between Zenith and Columbia, based on Zenith's application of May 29, 1952, for a permit to construct a television station on Channel 2—Chicago and on Columbia's application filed on September 1, 1953 for renewal of license to operate on Channel 4—Chicago"; and that the Commission should withdraw its letters of February 10, 1954 and proceed on the basis that no hearing may be held between Zenith and any other party than Balaban & Katz Corporation.[2]

5. CBS filed its reply and statement of proposed operation on March 12, 1954. In its reply, CBS expressed its opposition to the statement made by the Commission in its letter of February 10, 1954, that no element of the operation by CBS on Channel 2 under its special temporary authorization would be considered by the Commission at the proposed hearing. It was urged that only with respect to expenditures incurred by CBS in its operation on Channel 2 should no consideration be given at the proposed hearing. Finally, on March 18, 1954, CBS filed a letter opposing Zenith's claim to a hearing with Balaban & Katz Corporation and urging that the hearing be limited to Zenith and CBS.

6. The Commission has given careful consideration to Zenith's reply of March 10, 1954. We cannot agree with Zenith's analysis of the Court's opinion. In its decision the Court, having concluded that Zenith was entitled to a hearing on its Channel 2 application, went on to discuss the nature of that hearing. The Court held that at the time of the entry of the order under review, or at some unspecified earlier period, Zenith had been entitled to a comparative hearing with Balaban & Katz Corporation. However, the Court further stated that the renewal of Balaban & Katz's license and the assignment of that license to CBS had not been appealed from, and had become final. The fact of the transfer could not, the Court said, be ignored in any hearing which might be held between Zenith and Balaban & Katz Corporation. The Court further stated, in pertinent part:

> • • • Whatever is left to Station WBKB after the hearing concerning the license, whether that station is authorized to operate on Channel 2 or is left without any authorization at all, belongs to the Columbia Broadcasting System. The comparative hearing, therefore, between Zenith and Balaban & Katz must actually be a comparison between operation by Zenith and operation by the Columbia Broadcasting System.

Upon a careful review of the Court's decision and of Zenith's analysis of that decision as set forth in its letter, we believe that the totality of the Court's opinion clearly contemplates a comparative hearing between Zenith and CBS, which, as the Court recognized, had succeeded Balaban & Katz as licensee of Station WBKB (now WBBM-TV). Moreover, in view of the finality of the Commission's actions renewing Balaban & Katz's license on Channel 4 and transferring it to CBS, we do not understand that the past or present merits or demerits of Balaban & Katz as a licensee could properly be in issue. The Commission recognizes that some of the language in the Court's decision could possibly be construed in terms of a hearing in which Balaban & Katz might at least be named as the nominal applicant competing with Zenith on behalf of its transferee CBS. It is believed that in any such hearing, Balaban & Katz could play no actual role and, as set forth above, its qualifications would not be in issue. Under these circumstances, we believe it entirely consistent with the totality of the Court's decision as well as conducive to the orderly and expeditious hearing of the proceeding to name as parties the real rather than nominal persons involved.

7. With respect to Zenith's contention that the Commission has, in effect, proposed to hold a comparative hearing based on its application and the CBS renewal application for Channel 4, it should be pointed out that the letter to Zenith and that transmitted to CBS (a copy of which was sent to Zenith) stated that the proposed hearing "will involve a comparison between Zenith Radio Corporation and Columbia Broadcasting System, Inc., to determine which of the two should receive an authorization in the light of the public interest, convenience and necessity for regular operation on Channel 2, Chicago, Illinois." The letter to CBS also directed it to file a statement of its proposed operation on Channel 2, and stated that "In the event that no questions with respect to your qualifications are raised by the filing of your statement of proposed operation on Channel 2 and by your reply to this letter, a hearing will be scheduled, as indicated above, on the issues then obtaining." Thus, the Commission made it abundantly clear that the comparative hearing which it proposed to hold would be on the question whether the outstanding show cause order, originally directed to WBKB (now WBBM-TV) should be finalized or whether Zenith's application for a new station on Channel 2 should be granted. The hearing will be based on Zenith's application and the statement of proposed operation filed by CBS. However, the CBS renewal application for Channel 4 in Chicago must also be included in the hearing since the application for renewal of license of WBBM-TV remains undetermined and is actually mutually exclusive with Zenith's application. If Zenith is the successful applicant, the CBS authorization cannot be renewed. If, however, CBS is the successful applicant, its license will be renewed and modified in accordance with the show cause order.

8. As indicated above, in its reply of March 12, 1954, CBS expressed its opposition to the Commission's intention not to consider in the proposed hearing any element of the CBS operation on Channel 2. In its letters of February 10, 1954, to CBS and Zenith, the Commission stated as follows:

> It should be understood that no element of the present operation of Station WBBM-TV under its special temporary authority, including any expenditures which may have been made in connection with such operation on Channel 2, will be considered by the Commission in the forthcoming hearing. We believe this to be a necessary consequence of the Court's order of May 20, 1953, the special temporary authorization issued to Columbia on June 22, 1953, and the Court's Memorandum of July 3, 1953, denying a motion for a temporary restraining order against the Commission's order of June 22, 1953. In that Memorandum, the Court stated that it had been its intention in the May 20, 1953, order that the situation "remains pendente lite unaffected by the grant of the special temporary authorization, not only in form but in actual substance," and that if a comparative hearing should eventually be held, "it will be essential to the validity of subsequent proceedings that Zenith's rights not be affected by the events, orders, etc., occurring during the pendency of the appeal."

We believe that that statement accurately reflects the Court's directive with respect to consideration at the proposed hearing of CBS operations on Channel 2. Consideration of CBS's operation on on Channel 2 under its temporary authorization would mean that Zenith's rights would be substantially affected by events occurring during the course of the appeal. Since, under the Court's decision, Zenith was entitled to a hearing before the temporary operation on that channel had commenced, consideration of the subsequent operation on Channel 2 would be inconsistent with a fair hearing and could hardly be said to be in accordance with the Court's earlier memorandum.

9. Upon due consideration of the proceedings heretofore held herein and in Dockets 8736 et al., the above entitled applications and amendments filed thereto, the replies to the Commission's letters of February 10, 1954, and the decision of the United States Court of Appeals for the District of Columbia Circuit in Zenith Radio Corporation v. Federal Communications Commission (No. 11772), the Commission finds that simultaneous operation on Channel 2, Chicago, Illinois, by Zenith and CBS would result in mutually destructive interference; that under the terms of that decision and sections 303 (f), 309 (b), and 316 (a) of the Communications Act of 1934, as amended, a hearing is mandatory; that Zenith Radio Corporation and Columbia Broadcasting System, Inc. are legally, technically and financially qualified to construct, own and operate their proposed television broadcast stations on Channel 2, Chicago, Illinois; and that, pending a determination of the issues set forth below with respect to the proposed operations by Zenith and CBS on Channel 2, the Commission is unable to find that a grant of the renewal of the license of Station WBBM-TV, Channel 4, Chicago, Illinois, would serve the public interest, convenience and necessity. Accordingly, pursuant to the above-mentioned provisions of the Communications Act of 1934, as amended, the above-entitled proceeding and applications are designated for hearing in a consolidated proceeding to commence at 10:00 a. m. on the 30th day of April, 1954, in Washington, D. C., upon the following issue: To determine on a comparative basis which of the operations proposed herein by Zenith Radio Corporation and Columbia Broadcasting System, Inc. would better serve the public interest, convenience and necessity in the light of the record made with respect to the significant differences between their proposals as to:

(1) The background and experience of each of the above-named parties having a bearing on its ability to own and operate the proposed television station.

(2) The proposals of each of the above-named parties with respect to the management and operation of the proposed station.

(3) The programming service proposed by each of the above parties.

10. *It is further ordered*, That the issues in the above-entitled proceeding may be enlarged by the Examiner, on his own motion or on petition properly filed by a party to the proceeding and upon sufficient allegations of fact in support thereof, by the addition of the following issue: To determine whether the funds available to the parties herein will give reasonable assurance that their proposals will be effectuated.

Adopted: April 1, 1954.

Released: April 2, 1954.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
Secretary.

[F. R. Doc. 54-2560; Filed, Apr. 6, 1954; 8:52 a. m.]

[1] The call letters have since been changed to WBBM-TV.

[2] Zenith requested the Commission to reply to its letter by March 19, 1954. On said date the Commission advised Zenith by letter that this matter was one of several aspects of the case which would normally be disposed at the same time, and that there appeared to be no reason to deviate from the normal process and act on one special phase of the proceedings by March 19, 1954.

CARTHAGE BROADCASTING CO.

ORDER CONTINUING HEARING

In re application of Lloyd C. McKenney & John J. Daly d/b as Carthage Broadcasting Company, Fort Scott, Kansas, for construction permit; Docket No. 10945, File No. BP-8948.

The Commission having before it a petition filed March 31, 1954, by the applicant named above that the hearing herein now set for April 6, 1954, be continued and rescheduled for some date subsequent to April 9, 1954; and

It having been agreed by all parties in this proceeding at a prehearing conference held April 1, 1954, that the hearing might be rescheduled for April 15, 1954:

It is ordered, This 1st day of April 1954, that the Petition for Continuance is granted and the hearing herein now scheduled for April 6, 1954, is rescheduled for 10:00 a. m., Thursday, April 15, 1954, at Washington, D. C.

[Docket Nos. 10974-10976]

ECTOR COUNTY BROADCASTING CO. ET AL.

ORDER DESIGNATING APPLICATIONS FOR CONSOLIDATED HEARING ON STATED ISSUES

In re applications of Ben Nedow tr/as Ector County Broadcasting Company, Odessa, Texas, Docket No. 10974, File No. BPCT-799; C. L. Trigg, President, Odessa Television Company (a Joint Venture), Odessa, Texas, Docket No. 10975, File No. BPCT-1258; Clarence E. Wilson and Philip D. Jackson, d/b as the Odessa Television Company, Odessa, Texas, Docket No. 10976, File No. BPCT-1761; for construction permits for new television stations.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 31st day of March 1954;

The Commission having under consideration the above-entitled applications, each requesting a construction permit for a new television broadcast station to operate on Channel 7 in Odessa, Texas; and

It appearing that the above-entitled applications are mutually exclusive in that operation by more than one applicant would result in mutually destructive interference; and

It further appearing that pursuant to section 309 (b) of the Communications Act of 1934, as amended, the above-named applicants were advised by letters of the fact that their applications were mutually exclusive, of the necessity for a hearing and of all objections to their applications; and were given an opportunity to reply; and

It further appearing that upon due consideration of the above-named applications, the amendments filed thereto, and the replies to the above letters, the Commission finds that under section 309 (b) of the Communications Act of 1934, as amended, a hearing is mandatory; that C. L. Trigg, President, Odessa Television Company (a Joint Venture), and Clarence E. Wilson and Philip D. Jackson, d. b as The Odessa Television Company are legally, technically and financially qualified to construct, own and operate the proposed television broadcast stations; and that Ector County Broadcasting Company is legally and financially qualified to construct, own and operate the proposed television broadcast station and is technically so qualified except as to issue "1" above; and

It further appearing that the application of Ector County Broadcasting Company proposes an antenna location in the vicinity of the antenna of standard broadcast station KECK; that the installation and operation of the television antenna as proposed is possible and feasible without adversely affecting the ability of Station KECK to operate in accordance with the terms of its license, that appropriate proof thereof should be submitted after installation and operation of the proposed antenna; and that a grant, if made, of the application should be subject to the following condition:

Before construction of the television antenna proposed by Ector County Broadcasting Company is commenced, request shall be made to the Commission to determine the power of KECK by the indirect method. During the installation of the television antenna, the directional antenna of KECK shall be maintained as closely as possible to the values appearing on its license. Upon completion of the television installation, the KECK field intensity shall be measured at a minimum of three points on each radial and submitted to the Commission together with a tabulation of meter readings. The common point impedance of the KECK antenna system shall be remeasured and the results submitted to the Commission together with Forms 302 if any changes are noted

It is ordered, That pursuant to section 309 (b) of the Communications Act of 1934, as amended, the above-entitled applications are designated for hearing in a consolidated proceeding to commence at 10:00 a. m. on the 30th day of April, 1954, in Washington, D. C., upon the following issues:

1. To determine whether the installation and operation of the station proposed by Ben Nedow tr/as Ector County Broadcasting Company in the above-entitled application would constitute a hazard to air navigation.

2. To determine on a comparative basis which of the operations proposed in the above-entitled applications would best serve the public interest, convenience and necessity in the light of the record made with respect to the significant differences among the applications as to:

(a) The background and experience of each of the above-named applicants having a bearing on its ability to own and operate the proposed television station.

(b) The proposals of each of the above-named applicants with respect to the management and operation of the proposed station.

(c) The programming service proposed in each of the above-entitled applications.

It is further ordered, That the issues in the above-entitled proceeding may be enlarged by the Examiner, on his own motion or on petition properly filed by a party to the proceeding and upon sufficient allegations of fact in support thereof, by the addition of the following issue: To determine whether the funds available to the applicant will give reasonable assurance that the proposals set forth in the application will be effectuated.

Released: April 1, 1954.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
Secretary.

[Docket Nos. 10980, 10981]

KFJI BROADCASTERS AND KLAMATH FALLS TELEVISION, INC.

ORDER DESIGNATING APPLICATIONS FOR CONSOLIDATED HEARING ON STATED ISSUES

In re applications of KFJI Broadcasters, Klamath Falls, Oregon, Docket No. 10980, File No. BPCT-1299; Klamath Falls Television, Inc., Klamath Falls, Oregon, Docket No. 10981, File No. BPCT-1620; for construction permits for new television stations.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 31st day of March 1954.

The Commission having under consideration the above-entitled applications, each requesting a construction permit for a new television broadcast station to operate on Channel 2 in Klamath Falls, Oregon; and

It appearing that the above-entitled applications are mutually exclusive in that operation by more than one applicant would result in mutually destructive interference; and

It further appearing that pursuant to section 309 (b) of the Communications Act of 1934, as amended, the above-named applicants were advised by letters of the fact that their applications were mutually exclusive, of the necessity for a hearing and of all objections to their applications; and were given an opportunity to reply; and

It further appearing that upon due consideration of the above-entitled applications, the amendments filed thereto, and the replies to the above letters, the Commission finds that under section 309 (b) of the Communications Act of 1934, as amended, a hearing is mandatory; and that each of the above-named applicants is legally, financially and technically qualified to construct, own and operate a television broadcast station;

It is ordered, That pursuant to section 309 (b) of the Communications Act of 1934, as amended, the above-entitled applications are designated for hearing in a consolidated proceeding to commence at 10:00 a. m., on the 30th day of April, 1954 in Washington, D. C., upon the following issues:

1. To determine on a comparative basis which of the operations proposed in the above-entitled applications would better serve the public interest, convenience and necessity in the light of the record made with respect to the significant differences between the applications as to:

(a) The background and experience of each of the above-named applicants having a bearing on its ability to own and operate the proposed television station.

(b) The proposals of each of the above-named applicants with respect to the management and operation of the proposed station.

(c) The programming service proposed in each of the above-entitled applications.

It is further ordered, That the issues in the above-entitled proceeding may be enlarged by the Examiner, on his own motion or on petition properly filed by a party to the proceeding and upon sufficient allegations of fact in support thereof, by the addition of the following issue: To determine whether the funds available to the applicant will give reasonable assurance that the proposals set forth in the application will be effectuated.

Released: April 2, 1954.

FEDERAL POWER COMMISSION

[Docket Nos. G-996, G-1429, G-1526, G-1816, G-1817, G-1818, G-1916, G-1917, G-1918, G-1919, G-1920, G-1923, G-1924, G-1926, G-1927, G-2111, G-2121]

NORTHWEST NATURAL GAS CO. ET AL.

ORDER OMITTING INTERMEDIATE DECISION PROCEDURE AND FIXING DATES FOR FILING BRIEFS AND ORAL ARGUMENT

In the matters of Northwest Natural Gas Company, Docket Nos. G-996, G-1916, G-1917; Pacific Northwest Pipeline Corporation, Docket No. G-1429; Westcoast Transmission Company, Inc., Docket Nos. G-1526, G-1919, G-1920; Glacier Gas Company, Docket Nos. G-1816, G-1817, G-1818; Northern Natural Gas Company, Docket Nos. G-1918, G-1926, G-1927; Trans-Northwest Gas, Inc., Docket Nos. G-1923, G-1924, G-2111; Colorado Interstate Gas Company, Docket No. G-2121.

On December 2, 1953, Pacific Northwest Pipeline Corporation filed a motion to omit the intermediate decision procedure in this proceeding. On March 11, 1954, Westcoast Transmission Company, Inc., moved orally on the record that, pursuant to § 1.30 (c) of the Commission's rules of practice and procedure, the intermediate decision procedure be omitted. These motions were opposed by the intervening coal and labor interests. Both motions also requested that briefs be filed and oral argument be presented within specified times after completion of hearings. Staff counsel opposed the motions with respect to the times requested for filing briefs.

Nearly 200 days of hearings in this consolidated proceeding have been held, beginning June 16, 1952. Over 28,000 pages of testimony and over 600 exhibits, many of them voluminous, have been presented. The illness of the Examiner who presided initially over this proceeding has required that a second Examiner preside over the latter part of the hearings and renders infeasible the intermediate decision procedure.

Although the hearings have been unavoidably lengthy due to the various contentions of the applicants, the record amply demonstrates that prompt disposition of these matters is urgently required. Any delay in the disposition of the applications presented in this proceeding will affect not only the applicants but also the potential consumers in the area proposed to be served. Therefore, the public interest clearly requires omission of the intermediate decision procedure and that the times for briefs and oral argument be set as hereinafter ordered.

The Commission finds:

(1) The record in this proceeding demonstrates that due and timely execution of the Commission's functions imperatively and unavoidably requires that the intermediate decision procedure be omitted as hereinafter ordered and provided and that the Commission render the decision in this proceeding.

(2) It is appropriate and in the public interest to hear oral argument concerning the matters involved and the issues presented in this proceeding as hereinafter ordered and provided.

The Commission orders:

(A) The intermediate decision procedure be and is hereby omitted herein in accordance with the provisions of § 1.30 (18 CFR 1.30) of the Commission's rules of practice and procedure.

(B) Main briefs may be filed by the applicants herein on or before April 26, 1954; briefs by staff counsel and all other parties may be filed on or before May 11, 1954; and reply briefs by the applicants who have filed main briefs may be filed on or before May 26, 1954.

(C) Oral argument shall be had before the Commission on June 1, 1954, at 10:00 a. m., e. d. s. t., in the Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved and the issues presented in this proceeding.

(D) Those parties to this proceeding who intend to participate in the oral argument shall notify the Secretary of the Commission on or before May 20, 1954, of such intention and of the time required for presentation of their argument.

Adopted: March 31, 1954.

Issued: April 1, 1954.

By the Commission.

[SEAL] LEON M. FUQUAY,
Secretary.

[F. R. Doc. 54-2530; Filed, Apr. 6, 1954; 8:46 a. m.]

[Docket Nos. G-1142, G-1508, G-2019, G-2074, G-2210, G-2220, G-2378]

UNITED GAS PIPE LINE CO.

ORDER SUPPLEMENTING ORDER ISSUED MARCH 26, 1954, AFFIRMING CERTAIN RULINGS OF PRESIDING EXAMINER AND FIXING DATE FOR RECONVENING HEARING

By order issued March 26, 1954, the Commission affirmed two rulings of the

Presiding Examiner upon the record and fixed May 3, 1954, as the date for reconvening the hearing in these proceedings, all as more fully described in the aforesaid order.

Upon full consideration of the arguments and contentions of the parties set forth in the transcript of the testimony certified by the Examiner, we find that it is appropriate and desirable in the public interest and to carry out the provisions of the Natural Gas Act that (1) the data and information hereinafter specified shall be submitted by United as a part of its direct case, and (2) to provide for the conclusion of the hearing in these proceedings at the earliest practicable time the outline of procedure hereinafter set forth shall be followed.

The Commission orders:

(A) At the hearing to be reconvened on May 3, 1954, United Gas Pipe Line Company (United) shall present its full case on direct as to all dockets and without qualification.

(B) If as a part of its direct case United presents evidence with respect to its 1953 operations or 1953 operations adjusted to reflect known changes through July 31, 1954, as contended for on the record, under either circumstance or as to both if evidence on each is submitted, United shall show (1) actual 1953 revenues, expenses, rate base and other relevant costs by each of its operating districts with full explanation for each adjustment and justification therefor; (2) full and complete flow charts showing source of gas and disposition thereof based on actual 1953 sales or as adjusted; and (3) full and complete monthly billing data including monthly peak and billing demands by customers as well as volumes delivered to each customer on the coincidental peak day for the year 1953, or as adjusted, for direct sales and sales for resale.

(C) Upon the conclusion of United's direct case in support of all dockets, other parties, including staff counsel, shall conduct as much of their cross-examination as they are then prepared to undertake. Following such preliminary cross-examination, the hearing shall be further recessed to a date to be fixed by the Presiding Examiner.

(D) At the reconvened proceedings all parties shall conclude their cross-examination of United's witnesses. Immediately following such cross-examination all other parties shall then present testimony and evidence they may have to offer. Thereafter, the hearing may be recessed for two weeks to permit the parties to prepare for cross-examination, and, upon resumption, concluded without further recess.

Adopted: March 31, 1954.

Issued: April 1, 1954.

By the Commission.

TENNESSEE GAS TRANSMISSION CO. AND NORTHEASTERN GAS TRANSMISSION CO.

ORDER CONSOLIDATING PROCEEDINGS DENYING REQUESTS FOR SHORTENED PROCEDURE, AND FIXING DATE OF HEARING

Tennessee Gas Transmission Company (Tennessee) has requested that application for a certificate of public convenience and necessity to acquire and operate all the facilities of its wholly owned subsidiary, Northeastern Gas Transmission Company (Northeastern), be heard under the shortened procedure provided in § 1.32 (b) (18 CFR 1.32 (b)) of the Commission's rules of practice and procedure. The application was filed on January 14, 1954, pursuant to section 7 of the Natural Gas Act. Concurrently, Northeastern filed an application pursuant to section 7 (b) of the Natural Gas Act requesting permission and approval to abandon all of its facilities for which Tennessee seeks authority to acquire. Northeastern also requested that its application be heard under the shortened procedure provided in § 1.32 (b) (18 CFR 1.32 (b)) of the Commission's rules of practice and procedure.

Subsequent to the giving of due notice of the filing of the applications, including publication in the FEDERAL REGISTER on February 5, 1954 (19 F. R. 717), numerous protests and petitions to intervene have been filed by customers both of Tennessee and Northeastern. These proceedings are, therefore, not proper ones for disposition under the provisions of § 1.32 (b) of the Commission's rules of practice and procedure.

The Commission finds:

(1) Common questions of law and fact are involved in Docket Nos. G-2352 and G-2353.

(2) Good cause exists for fixing a date of hearing less than 15 days after publication of this order in the FEDERAL REGISTER.

The Commission orders:

(A) The proceedings involved in Docket Nos. G-2352 and G-2353 are consolidated for purposes of hearing and decision.

(B) The requests that these proceedings be disposed of under the provisions of § 1.32 (b) of the Commission's rules of practice and procedure are hereby denied.

(C) Pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing be held on April 12, 1954, at 10:00 a. m., e. s. t., in a hearing room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented in the proceedings consolidated in paragraph (A) hereof.

(D) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) (18 CFR 1.8 and 1.37 (f)) of the Commission's rules of practice and procedure.

Adopted: March 31, 1954.

Issued: April 1, 1954.

By the Commission.

[SEAL] LEON M. FUQUAY, *Secretary.*

[F. R. Doc. 54-2532; Filed, Apr. 6, 1954; 8:46 a. m.]

[Docket No. G-2359]

DOME GAS CO., INC.

ORDER FIXING DATE OF HEARING

This proceeding is a proper one for disposition under the provisions of § 1.32 (b) (18 CFR 1.32 (b)) of the Commission's rules of practice and procedure. Applicant having requested that its application, filed January 25, 1954, pursuant to section 7 (a) of the Natural Gas Act, for an order directing Texas Gas Transmission Corporation (Texas Gas), a Delaware corporation with its principal office at Owensboro, Kentucky, to sell and deliver natural-gas to Applicant at an existing point of connection as described in said application, be heard under the shortened procedure provided by the aforesaid rule for non-contested proceedings, and no request to be heard, protest or petition having been filed subsequent to the giving of due notice of the filing of the application, including publication in the FEDERAL REGISTER on February 4, 1954 (19 F. R. 665).

Texas Gas on February 23, 1954, filed an answer to the application referred to above, acknowledging an ability and willingness to make the sale and delivery of natural gas as requested.

The Commission orders:

(A) Pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing be held on April 26, 1954, at 9:45 a. m., e. d. s. t., in the Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by the application: *Provided, however,* That the Commission may, after a non-contested hearing, forthwith dispose of the proceedings pursuant to the provisions of § 1.32 (b) of the Commission's rules of practice and procedure.

(B) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) (18 CFR 1.8 and 1.37 (f)) of the said rules of practice and procedure.

Adopted: March 31, 1954.

Issued: April 1, 1954.

By the Commission.

[SEAL] LEON M. FUQUAY, *Secretary.*

[F. R. Doc. 54-2533; Filed, Apr. 6, 1954; 8:46 a. m.]

[Docket No. G-2364]

LONE STAR GAS CO.

ORDER FIXING DATE OF HEARING

This proceeding is a proper one for disposition under the provisions of § 1.32 (b) (18 CFR 1.32 (b)) of the Commission's rules of practice and procedure, Applicant having requested that its application, filed February 9, 1954, pursuant to section 7 of the Natural Gas Act, for (1) a certificate of public convenience and necessity authorizing the construction and operation of certain facilities, and (2) permission and approval to abandon other facilities, all as described in said application, be heard under the shortened procedure provided by the aforesaid rule for noncontested proceedings, no request to be heard, protest or petition having been filed subsequent to the giving of due notice of the filing of the application including publication in the FEDERAL REGISTER on February 20, 1954 (19 F. R. 1024),

Temporary authorization to construct and operate the facilities requested above was granted by the Commission on February 12, 1954.

The Commission orders:

(A) Pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing be held on May 12, 1954, at 9:30 a. m., e. d. s. t., in the Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by the application: *Provided, however,* That the Commission may, after a noncontested hearing, forthwith dispose of the proceedings pursuant to the provisions of § 1.32 (b) of the Commission's rules of practice and procedure.

(B) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) (18 CFR 1.8 and 1.37 (f)) of the said rules of practice and procedure.

Adopted: March 31, 1954.

Issued: April 1, 1954.

By the Commission.

SECURITIES AND EXCHANGE COMMISSION

[File No. 70-3212]

UNITED GAS CORP. AND UNION PRODUCING CO.

ORDER GRANTING ISSUANCE OF PROMISSORY NOTES OF SUBSIDIARY TO PARENT

MARCH 31, 1954.

United Gas Corporation ("United"), and its non-utility subsidiary, Union Producing Company ("Union"), all the securities of which are owned by United, both of which companies are subsidiaries of Electric Bond and Share Company, a registered holding company, have filed with this Commission a joint application-declaration pursuant to sections 6 (b), 9, 10 and 12 of the Public Utility Holding Company Act of 1935 ("act"), and Rule U-43 (a) promulgated thereunder, with respect to the following proposed transactions:

United proposes to lend to Union and the latter proposes to borrow from United, not to exceed an aggregate amount of $5,000,000 during a period following the date of the entry of the Commission's order herein to the end of 1954 in such installments and at such times as funds may be required and requested from United. The proceeds from the loan will be used by Union to increase its working capital.

The proposed loan will be evidenced by unsecured promissory notes issued by Union to United or order, from time to time, payable on or before six years from the date of issue of such notes, bearing interest at the rate of 5 percent per annum payable semi-annually on July 1 and January 1 of each year.

Union has presently issued and outstanding $17,000,000 principal amount of its promissory notes consisting of $7,000,000 principal amount of 3 percent Notes, $4,000,000 principal amount of 4 percent Notes, and $6,000,000 principal amount of 5 percent Notes, all such notes being payable on or before six (6) years from dates of issue. All of said notes are owned by United, and $14,000,000 principal amount of such notes are pledged with the Guaranty Trust Company of New York, the Corporate Trustee, under United's Mortgage and Deed of Trust, dated as of October 1, 1944, in favor of Guaranty Trust Company of New York and Henry A. Theis (Herbert E. Twyeffort, Successor Trustee), Trustees as supplemented. The additional promissory notes of Union to be acquired from time to time by United in connection with the transactions proposed herein, will, upon acquisition by United, be pledged with the Corporate Trustee under its Mortgage and Deed of Trust.

The application-declaration states that as a result of its accelerated leasing, developing and drilling program for the year 1954, it is presently estimated that Union will expend approximately $17,100,000 in connection with such program and increase its supply of casing and tubing by approximately $800,000; that it is estimated that the funds required for such program will be met to the extent of an aggregate of approximately $13,000,000 from retained earnings and from credits to depreciation, depletion and other reserves, and will be met to the extent of the remaining $5,000,000 by borrowings from United; and that the managements of the Companies feel it appropriate at this time to obtain authority for a loan in the aggregate not to exceed $5,000,000 to augment Union's working capital and enable it to carry out its leasing, development and drilling program as outlined above.

It is further stated that no legal fees will be incurred and that other expenses in connection with the foregoing transactions will be nominal.

It is requested that the Commission's order be made effective upon issuance.

Due notice having been given of the filing of the application-declaration, and a hearing not having been requested of or ordered by the Commission; and the Commission finding that the applicable provisions of the act and rules promulgated thereunder are satisfied, and that the application-declaration should be granted and permitted to become effective forthwith:

It is ordered, Pursuant to Rule U-23 and the applicable provisions of said act, that said application-declaration be, and the same hereby is, granted and permitted to become effective forthwith, subject to the terms and conditions prescribed in Rule U-24.

By the Commission.

INTERSTATE COMMERCE COMMISSION

[4th Sec. Application 29081]

SODA ASH AND CAUSTIC SODA FROM BATON ROUGE AND NORTH BATON ROUGE, LA., TO GULFPORT, MISS.

APPLICATION FOR RELIEF

APRIL 2, 1954.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-

haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: R. E. Boyle, Jr., Agent, for the Fernwood, Columbia & Gulf Railroad Company and the Illinois Central Railroad Company.

Commodities involved: Soda ash, carloads, and caustic soda, in solution, in tank-car loads.

From: Baton Rouge and North Baton Rouge, La.

To: Gulfport, Miss.

Grounds for relief: Competition with rail carriers, circuitous routes, and market competition.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission.

[4th Sec. Application 29082]

COKE FROM DETROIT AND WYANDOTTE, MICH., TO CEICO, OHIO

APPLICATION FOR RELIEF

APRIL 2, 1954.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: The New York Central Railroad Company.

Commodities involved: Coke, coke breeze, coke dust and coke screenings, carloads.

From: Detroit and Wyandotte, Mich.

To: Ceico, Ohio.

Grounds for relief: Competition with water, or water-rail carriers.

Schedules filed containing proposed rates: New York Central Railroad Company, I. C. C. No. 1108, supp. 56.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

[4th Sec. Application 29083]

CAUSTIC SODA FROM WHITEHALL-MONTAGUE, MICH., TO POINTS IN KANSAS AND MISSOURI

APPLICATION FOR RELIEF

APRIL 2, 1954.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: H. R. Hinsch, Alternate Agent, for carriers parties to schedule listed below.

Commodities involved: Soda, caustic, in solution, in tank-cars, carloads.

From: Whitehall-Montague, Mich.

To: Atchison and Leavenworth, Kans., Kansas City, Mo.-Kans., and St. Joseph, Mo.

Grounds for relief: Competition with rail carriers and market competition.

Schedules filed containing proposed rates: H. R. Hinsch, Alternate Agent, I. C. C. No. 4238, supp. 97.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. FERTILIZER SOLUTIONS FROM SOUTH POINT, OHIO TO SOUTHERN TERRITORY

APPLICATION FOR RELIEF

APRIL 2, 1954.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: R. E. Boyle, Jr., Agent, for carriers parties to schedule listed below.

Commodities involved: Nitrogen fertilizer solution, and fertilizer ammoniating solution, in tank-car loads.

From: South Point, Ohio.

To: Points in Kentucky, North Carolina, Tennessee, and Virginia and points grouped therewith.

Grounds for relief: Rail competition, circuity, competition with motor, motor-water carriers, to maintain grouping, and to apply rates constructed on the basis of the short-line distance formula.

Schedules filed containing proposed rates: C. A. Spaninger, Agent, I. C. C. No. 1221, supp. 53.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. MAISLIN TRANSPORT, INC., ET AL.

APPLICATIONS OF MOTOR CARRIERS OF PROPERTY

APRIL 2, 1954.

Protests to the granting of an application must be filed with the Commission within 30 days from the date of publication of this notice (49 CFR 1.240). Failure to seasonably file a protest will be construed as a waiver of opposition and participation in the proceeding unless an oral hearing is held. In addition to other requirements of Rule 40 of the general rules of practice of the Commission (49 CFR 1.40), protests shall include a request for a public hearing, if one is desired, and shall specify with particularity the facts, matters, and things relied upon, but shall not include issues or allegations phrased generally. Protests containing general allegations may be rejected. Requests for an oral hearing must be supported by an explanation as to why the evidence cannot be submitted in the form of affidavits. Any interested person, not a protestant, desiring to receive notice of the time and place of any hearing, prehearing conference, taking of depositions, or other proceedings shall notify the Commission by letter or telegram within 30 days from the date of publication of this notice.

APPLICATIONS FOR OPERATING AUTHORITY

No. MC 79007 Sub 1, Maislin Transport, Inc., 43 Clarkson Street, New York, N. Y. Applicant's attorney: William Biederman, 280 Broadway, New York 7, N. Y. For authority to operate as a common carrier over a regular route, transporting: General commodities, except those of unusual value, and except Class A and B explosives, livestock, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment, between the junction of New Jersey Highway 17 and U. S. Highway 46, and Binghamton, N. Y., from the junction of New Jersey Highway 17 and U. S. Highway 46, over U. S. Highway 46 to the junction of U. S. Highway 611 at the New Jersey-Pennsylvania State line, thence over U. S. Highway 611 to junction U. S. Highway 11, and thence over U. S. Highway 11 to Binghamton, N. Y., and return over the same route, serving no intermediate points, as an alternative route, in connection with the carrier's regular route operations between New York, N. Y., and Binghamton, N. Y., over U. S. Highway 1, New Jersey Highways 3 and 17, and New York Highway 17, which is a portion of the regular route operations between (1) New York, N. Y., and Watertown, N. Y., (2) New York, N. Y., and Utica, N. Y., and (3) New York, N. Y., and Buffalo, N. Y. Applicant is authorized to conduct operations in New York and New Jersey.

No. MC 114639, Howard R. Bartoo, Box 636, Anthony, Tex. For authority to operate as a common carrier, over irregular routes, transporting: Fertilizer, sand, gravel, cottonseed, cottonmeal, hay and vegetables, between points in El Paso County, Tex., on the one hand, and, on the other, points in Dona Ana County, N. Mex.

No. MC 114640, William Belzer, 3214 Everett Avenue, Everett, Wash. Applicant's attorney: Ray H. Culbertson, 15342 Lake Shore Boulevard, Seattle 55, Wash. For authority to operate as a common carrier, over irregular routes, transporting: Ground peat, from the United States-Canada International Boundary line near Blaine, Wash., to points in Whatcom, Skagit, Snohomish, King, Kitsap, Pierce, Thurston, Lewis, Cowlitz, Clark, Chelan, Kittitas, and Yakima Counties, Wash., and no transportation for compensation on return.

APPLICATIONS UNDER SECTIONS 5 AND 210A (B)

Except when circumstances require immediate action, an application for approval, under section 210a (b) of the act, of the temporary operation of motor carrier properties sought to be acquired in an application under section 5 (2) will not be disposed of sooner than 10 days from the date of publication of this notice. If a protest is received prior to action being taken, it will be considered.

No. MC-F-5483. Authority sought for purchase by Refrigerated Transport Co., Inc., 290 University Ave., SW., Atlanta, Ga., of a portion of the operating rights of Frozen Food Express, Inc., 318 Cadiz St., Dallas, Tex., and for acquisition by J. L. Lawhon, R. R. Lawhon, and Winton Teagle, Atlanta, Ga., of control of the operating rights through the purchase. Applicants' attorney: Allan Watkins, 214 Grant Building, Atlanta, Ga. Operating rights sought to be transferred: Frozen foods and fresh meats, as a common carrier, over irregular routes, between Memphis, Tenn., on the one hand, and, on the other, points in Iowa, Kansas, and Nebraska, restricted to the transportation of frozen foods from Topeka and Wichita, Kans., to Memphis, Tenn.; Frozen foods, and meats, meat products, and meat byproducts as defined by the Commission (except canned or packaged meats and canned or packaged meat products, other than canned hams, packaged hams, and packaged bacon), dairy products as defined by the Commission, salad dressing, yeast, and uncooked bakery goods, between Memphis, Tenn., on the one hand, and, on the other, points in Missouri, restricted against the transportation of the commodities specified above except fresh meats, between St. Louis, Mo., on the one hand, and, on the other, Memphis, Tenn. Vendee is authorized to operate in Georgia, Tennessee, North Carolina, South Carolina, Florida, Mississippi, Louisiana, Alabama, Kentucky, Indiana, Illinois, Michigan, Wisconsin, Minnesota, Iowa, Nebraska, Texas, Kansas, Arkansas, Missouri, Oklahoma, and Ohio. J. L. Lawhon is authorized to operate in Georgia, Florida, and Alabama, as a contract carrier. Application has been filed for temporary authority under Section 210a (b).

No. MC-F-5629. Authority sought for purchase by Refrigerated Transport Co., Inc., 290 University Avenue SW., Atlanta, Ga., of a portion of the operating rights of Frozen Food Express, Inc., 318 Cadiz Street, Dallas, Tex., and for acquisition by J. L. Lawhon, R. R. Lawhon, and Winton Teagle, Atlanta, Ga., of control of the operating rights through the purchase. Applicants' attorney: Allan Watkins, 214 Grant Building, Atlanta, Ga. Operating rights sought to be transferred: Frozen foods, and meats, meat products, and meat byproducts as defined by the Commission, (except canned or packaged meats and canned or packaged meat products, other than canned hams, packaged hams, and packaged bacon), as a common carrier, over irregular routes between points in Mississippi, on the one hand, and, on the other, points in Illinois and Mississippi; Fresh meats, from Memphis, Tenn., to points in Illinois. Vendee is authorized to operate in Georgia, Tennessee, North Carolina, South Carolina, Florida, Mississippi, Louisiana, Alabama, Kentucky, Indiana, Illinois, Michigan, Wisconsin, Minnesota, Iowa, Nebraska, Texas, Kansas, Arkansas, Missouri, Oklahoma, and Ohio. J. L. Lawhon is authorized to operate in Georgia, Florida, and Alabama, as a contract carrier. Application has been filed for temporary authority under Section 210a (b).

No. MC-F-5667. Contract Carriers, Inc., 2425 Walton Street, Anderson, Ind., seeks to control Ross Transit Company, Inc., 1045 South Park Avenue, Kokomo, Ind., and N. A. Waters and L. L. Waters, Chicago, Ill., seek to acquire control, through the transaction. Applicants' attorney: George O. Cowan, 512 Illinois Building, Indianapolis, Ind. Operating rights sought to be controlled: Wire, bale ties, nails, staples, steel fence and steel fence materials, pipe, sheet steel, steel ridge roll and fence rods, petroleum and petroleum products, in containers, sewer pipe and clay products, iron and steel articles, hides, tallow and grease, grain, livestock, flour, feeds, fertilizer, wire fence, and burlap bags, roofing and roofing materials, clay sewer pipe, drain tile, flue liners, chimney tops, wall coping, hollow building block, stovepipe fittings, agricultural implements and parts, as a contract carrier, over irregular routes,

from, to, and between points in Indiana, Kentucky, Missouri, Illinois, Ohio, Iowa, Michigan, Wisconsin and Tennessee. Contract Carriers, Inc., operates as a contract carrier in Indiana, Missouri, Ohio, Illinois, Michigan, Kentucky, Iowa, and Kansas. Application has been filed for temporary under section 210a (b).

No. MC–F–5668. Authority sought for purchase by Security Storage & Van Company, Inc., 533 City Park Avenue, New Orleans, La., of the operating rights of Ray Cox, doing business as Panhandle Transfer Co., 326 North Philadelphia Street, Amarillo, Tex., and for acquisition by Howard Wolchansky and Louise G. Wolchansky, New Orleans, La., of control of the operating rights through the purchase. Person to whom correspondence should be addressed: Howard Wolchansky, 533 City Park Avenue, New Orleans, La. Operating rights sought to be transferred: Household goods, as defined by the Commission, as a common carrier, over irregular routes, between points in Gray, Hutchinson, Hemphill, Carson, and Wheeler Counties, Tex., on the one hand, and, on the other, points in New Mexico; between points in Gray and Hutchinson Counties, Tex., on the one hand, and, on the other, points in Oklahoma and Kansas; between points in Hemphill, Carson, and Wheeler Counties, Tex., on the one hand, and, on the other, points in Oklahoma and Kansas. Vendee is authorized to operate in Texas, Mississippi, Alabama, Arkansas, Missouri, Illinois, Tennessee, Georgia, South Carolina, North Carolina, Virginia, Maryland, District of Columbia, New Jersey, New York, Louisiana, Texas, Oklahoma, Arizona, California, Oregon, and Washington. Application has not been filed for temporary authority under section 210a (b).

No. MC–F–5669. Authority sought for purchase by Newsom Truck Line, Inc., 4703 Chapman Street, Houston, Tex., of the operating rights of W. J. Record, E. A. Record and E. H. Record, doing business as Bill Record & Sons Trucking Co., 5501 Sapulpa Road, Tulsa, Okla., and for acquisition by R. B. Montgomery and D. C. Powell, Houston, Tex., of control of the operating rights through the purchase. Applicants' attorney: A. W. Jenkins, 714 Colcord Building, Oklahoma City, Okla. Operating rights sought to be transferred: Machinery equipment, materials and supplies used in, or in connection with, the discovery, development, production, refining, manufacture, processing, storage, transmission, and distribution of natural gas and petroleum and their products and by-products, and machinery, materials, equipment and supplies used in, or in connection with the construction, operation, repair, servicing, maintenance and dismantling of pipe lines, including the stringing and picking up thereof, over irregular routes, as a common carrier, between points in Kansas, Oklahoma, and Texas. Vendee is authorized to operate in Louisiana, Texas, Arkansas, New Mexico, Colorado, Utah, and Wyoming. Application has not been filed for temporary authority under section 210a (b).

By the Commission.

TITLE 46—SHIPPING

Chapter I—Coast Guard, Department of the Treasury

Subchapter N—Explosives or Other Dangerous Articles or Substances and Combustible Liquids on Board Vessels

[CGFR 54-3]

PART 146—TRANSPORTATION OR STOWAGE OF EXPLOSIVES OR OTHER DANGEROUS ARTICLES OR SUBSTANCES AND COMBUSTIBLE LIQUIDS ON BOARD VESSELS

SUBPART—DETAILED REGULATIONS GOVERNING THE TRANSPORTATION OF MILITARY EXPLOSIVES ON BOARD VESSELS [1]

The regulations governing the transportation of military explosives on board vessels are prescribed in lieu of the basic regulations governing commercial transportation of explosives by domestic and foreign vessels. Military explosives consist of all Interstate Commerce Commission's Classes A, B, and C explosives shipped by, for, or to the Department of the Army, the Navy, or the Air Force of the United States, or similar types of explosives shipped by, for, or to the government of any country whose defense is deemed vital to the defense of the United States. The regulations in this document do not apply to explosives which are shipped by, to, or for any private, commercial, or State organization or group.

The regulations governing the transportation of military explosives on board vessels were originally prescribed in order to facilitate the prosecution of World War II in the loading and transportation of military explosives and were published in 1943. The first revision was issued in August 1945. In July 1952 these regulations, with minor amendments, were continued in effect for the duration of the National Emergency proclaimed by the President on December 16, 1950 (Proc. 2914, 3 CFR 1950 Supp.), unless sooner canceled or suspended by proper authority.

In 1952 the Commandant, United States Coast Guard, called a conference to consider a revision of these regulations governing the transportation of military explosives, and representatives of the Army, the Navy, and civilian authorities concerned with the transportation of military explosives participated therein. At a series of meetings they considered the proposed second revision of the regulations governing transportation of military explosives on board vessels. The final meeting was held on October 7, 8, and 9, 1953, with authorized representatives from the Office of the Chief of Transportation and the Office of the Chief of Ordnance of the Department of the Army, Washington, D. C.; Headquarters, Chemical Corps Materiél Command, Baltimore, Maryland; Office of the Chief of Naval Operations, Military Sea Transportation Service, and Bureau of Ordnance of the Department of the Navy, Washington, D. C.; U. S. Navy Ammunition Depot Earle, Red Bank, New Jersey; Bureau of Explosives, New York, New York; and National Cargo Bureau, Inc., New York, New York. After this meeting a draft of the second revision, containing final changes determined necessary, was sent to the Government agencies and organizations represented at the conference for concurrence prior to final approval and publication. All parties concerned are in favor of this second revision of the regulations as set forth in this document.

The purpose of the regulations in this part is to provide requirements governing the transportation of military explosives as cargo on board all domestic and foreign vessels subject to the provisions of R. S. 4472, as amended (46 U. S. C. 170), which apply in lieu of the requirements governing commercial shipments of explosives.

The changes in the detailed regulations governing the transportation of military explosives are for the most part editorial in nature or relaxations found possible through experience and practice in the loading and handling of military explosives.

This second revision of the regulations governing military explosives changes the requirements as follows:

a. Rearranges material in order to have better continuity of subject matter and

FEDERAL REGISTER

Published daily, except Sundays, Mondays, and days following official Federal holidays, by the Federal Register Division, National Archives and Records Service, General Services Administration, pursuant to the authority contained in the Federal Register Act, approved July 26, 1935 (49 Stat. 500, as amended; 44 U. S. C., ch. 8B), under regulations prescribed by the Administrative Committee of the Federal Register, approved by the President. Distribution is made only by the Superintendent of Documents, Government Printing Office, Washington 25, D. C.

The regulatory material appearing herein is keyed to the Code of Federal Regulations, which is published, under 50 titles, pursuant to section 11 of the Federal Register Act, as amended August 5, 1953.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $1.50 per month or $15.00 per year, payable in advance. The charge for individual copies (minimum 15¢) varies in proportion to the size of the issue. Remit check or money order, made payable to the Superintendent of Documents, directly to the Government Printing Office, Washington 25, D. C.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER.

to provide a clearer presentation of subject matter.

b. Authorizes the use of improved types and methods of packaging various items of military explosives which will reduce the amount of dunnage required for ammunition stowage. This change will not increase the hazard but will reduce the cost of stowing certain classes of military explosives.

c. Revises and brings up to date the classification, handling, and stowage chart. This chart covers new items of military explosives, reclassifies certain items that have been modified in construction, and changes required markings to agree with markings and labeling requirements of the Interstate Commerce Commission, where practicable. The changes in this chart should reduce the number of man hours required to prepare a proper stowage plan for loading military explosives as cargo on board a vessel.

d. Clarifies the requirements regarding screening of smoke pipes and stacks.

e. Adds safety requirements regarding stowage of explosives adjacent to personal and household effects and mail.

The regulations designated 46 CFR 146.29–1 to 146.29–100, inclusive, were rearranged and renumbered in order to have a better continuity of subject matter and to allow for future expansion if necessary. The major new requirements are set forth in 46 CFR 146.29–25, 146.29–29, 146.29–55, 146.29–83, 146.29–99, and 146.29–100. The two tables below set forth a comparison of old section numbers with new section numbers and the new section numbers with the old section numbers:

146.29–97	146.29–50
146.29–99	146.29–75
146.29–100	146.29–100

It is hereby found that compliance with the notice of proposed rule making, public rule making procedure thereon, and effective date requirements of the Administrative Procedure Act and R. S. 4472, as amended (5 U. S. C. 1003; 46 U. S. C. 170), is impracticable and contrary to the public interest. The regulations governing the transportation of military explosives are the results of conferences between the various agencies of the Federal Government and organizations primarily concerned with the transportation of military explosives. The second revision as set forth in this document for the most part effects editorial changes or removes unnecessary restrictions. Any person who may feel aggrieved by the promulgation of the regulations set forth in this document may appeal to the Commandant, (CMC), United States Coast Guard, Washington 25, D. C., in writing within thirty days from the date of publication of this document in the FEDERAL REGISTER. The written appeal shall be presented in triplicate and shall include the section

number, text of regulation objected to, the reason or basis (if any) for the objection, the text of a proposed regulation recommended, and the name, business firm or organization (if any), and the address of the appellant.

By virtue of the authority vested in me as Commandant, United States Coast Guard, by Treasury Department Order No. 120, dated July 31, 1950 (15 F. R. 6521), to promulgate regulations in accordance with the statutes cited with the regulations below, the following amendments to the regulations are prescribed which shall become effective on and after May 15, 1954:

1. The center heading following § 146.28–22 "Subpart—Transportation of Military Explosives on Board Vessels During National Emergency or War" is changed to read "Subpart—Detailed Regulations Governing the Transportation of Military Explosives on Board Vessels."

2. Sections 146.29–1 to 146.29–100, inclusive, are amended to read as follows:

Sec.
146.29–1 Effective date.
146.29–3 Scope.
146.29–5 Regulations not applicable.
146.29–7 Port security regulations.
146.29–9 Import shipments
146.29–11 Definitions and abbreviations.
146.29–13 Permit for handling military explosives.
146.29–15 Authority to load, handle or discharge; facilities and use.
146.29–17 Prohibited explosives.
146.29–19 Explosives loading supervisory detail.
146.29–21 Personnel identification.
146.29–23 Ship's officer present.
146.29–25 Fires and fire protection.
146.29–27 Fire hose.
146.29–29 Smoking.
146.29–31 Liquor or drugs.
146.29–33 Cargo working gear and equipment.
146.29–35 Lights, tools and portable equipment.
146.29–37 Handling drafts of lumber.
146.29–39 Handling and slinging of explosives.
146.29–41 Weight per draft.
146.29–43 Requirement for the opening of hatches.
146.29–45 Loading or unloading military explosives and other cargo simultaneously.
146.29–47 Packing and marking.
146.29–49 Stowage on board barges.
146.29–51 Stowage on board vessels.
146.29–53 Stowage of military explosives in holds containing coal.
146.29–55 Stowage of military explosives in holds containing household or personal effects and/or mail as cargo.
146.29–57 "On deck" stowage.
146.29–59 Stowage adjacent to other dangerous articles.
146.29–61 Stowage with nondangerous cargo in the same hold.
146.29–63 Stowage and dunnaging of ammunition and containers of explosives in bulk.
146.29–65 Damaged or leaking containers of explosives.
146.29–67 Defective ammunition.
146.29–69 Recoopering damaged packages.
146.29–71 Constructing magazines.
146.29–73 Preparation of magazines, decks, hatches and holds for handling military explosives.
146.29–75 Location of magazines and ammunition stowage.
146.29–77 Allocation of stowage.
146.29–79 Types of stowage.
146.29–81 Magazine stowage A.
146.29–83 Ammunition stowage.
146.29–85 Chemical ammunition stowage.
146.29–87 Special stowage.
146.29–89 Portable magazine stowage.
146.29–91 Pyrotechnic stowage.
146.29–93 Stowage of blasting caps, detonators, primer detonators, etc.
146.29–95 Ventilation of magazines.
146.29–97 Statements of characteristic properties and hazards.
146.29–99 Explosives admixture chart.
146.29–100 Classification, handling and stowage chart.

AUTHORITY: §§ 146.29–1 to 146.29–100 issued under R. S. 4405, as amended, 4462, as amended, and 4472, as amended; 46 U. S. C. 375, 416, 170. Interpret or apply sec. 5, 55 Stat. 244, 245, as amended; 50 U. S. C. App. 1275; E. O. 10402, 17 F. R. 9917; 3 CFR, 1952 Supp.

§ 146.29–1 *Effective date.* The regulations in this subpart will become effective on and after May 15, 1954.

§ 146.29–3 *Scope.* (a) The provisions of the regulations contained in this subpart apply to the transportation of military explosives, as cargo, on board all vessels that are subject to the regulations in this part.

(b) Commercial shipments of explosives shall be tendered and transported in compliance with the applicable provisions of the regulations contained in the other subparts of this part.

(c) Where reference is made to other dangerous articles in this subpart, the regulations contained in §§ 146.02–1 to 146.27–100, inclusive, are applicable except as noted in § 146.29–5.

§ 146.29–5 *Regulations not applicable.* Sections 146.02–11, 146.02–21, 146.03–3, 146.06–9, 146.06–19, 146.09–1 to 146.09–6, inclusive, 146.10–6 (b), 46.20–15 to 146.–20–51, inclusive, 146.20–85, 146.20–87, 146.20–90, 146.20–100 to 146.20–300, inclusive, 146.23–10 (d), 146.23–25 (a), (b) and (c); 146.24–55, the entries "Chemical ammunition containing Class 'A' poisons, liquids or gases," "chemical ammunition containing Class 'B' poisons, liquids or gases," and "chemical ammunition containing Class 'C' liquids, gases or solids" appearing in §§ 146.25–100, 146.25–200, and 146.25–300; 146.27–5 to 146.27–20, inclusive, and 146.27–100 are hereby declared inapplicable to the transportation of military explosives.

§ 146.29–7 *Port security regulations.* The applicable provisions of 33 CFR Parts 6, and 121 to 126, inclusive, shall, unless specifically authorized to the contrary by any provision of this subpart, be complied with by vessels, masters, agents, or charterers thereof and by all persons engaged in handling, loading, stowing or unloading explosives.

§ 146.29–9 *Import shipments.* Import shipments of military explosives shall be made in accordance with the provisions of the regulations in this subpart.

§ 146.29–11 *Definitions and abbreviations.* For the purpose of the regulations in this subpart, military explosives are defined as follows:

(a) *Military explosives.* Military explosives consist of all Interstate Commerce Commission's Classes A, B, and C explosives shipped by, for, or to the Departments of the Army, Navy, or Air Force of the United States or similar types of explosives shipped by, for, or to the government of any country whose defense is deemed vital to the defense of the United States. These explosives are divided into two classes, as follows:

(1) *Ammunition.* Ammunition consists of all types of shells, projectiles, cartridges, grenades, bombs, mines, torpedoes, torpedo warheads, propellent powder charges, pyrotechnics, rockets, chemical, smoke or incendiary ammunition, or other "made up" explosive devices that are utilized by the armed forces in the prosecution of a war.

(2) *Explosives in bulk.* Explosives in bulk consist of any high explosives, black powder, and low explosives or smokeless powder in accordance with the definitions in §§ 146.20–1, 146.20–7, and 146.–20–9, when such substances are shipped in containers other than containers such as shells, bombs, grenades, mines, torpedoes, powder bags in individual containers, cartridges, fuzes, detonators, caps, primers, and similar "made up" ammunition devices.

(b) *Related terms*—(1) *Complete round.* A complete round of "cannon ammunition," "artillery ammunition" or "gun ammunition" includes ammunition used in cannon or gun of caliber .75 in. and above. It includes complete round with components. The complete round comprises all of the components necessary to fire the cannon or gun once. These components are, in general, the projectile (fuzed or unfuzed), the propellent charge and the primer. Depending upon both the type of propellent charge and the method of loading of components into the cannon, complete round of "cannon ammunition," "artillery ammunition" or "gun ammunition" are described as fixed, semi-fixed or separate loading ammunition.

(2) *Fixed ammunition.* Fixed ammunition describes "cannon ammunition," "artillery ammunition" or "gun ammunition" of the type comprising a cartridge case with primer, a propellent charge and a projectile (fuzed or unfuzed) all of these components being assembled as a unit for one firing.

(3) *Semi-fixed ammunition (Army).* Complete rounds composed of a projectile (fuzed) and a cartridge case with a primer and propellent charge which is in a cloth bag or bags of small size. The base of the projectile fits free in the neck of the cartridge case and may be readily detached from the cartridge case. The round is loaded into the cannon with the projectile assembled to the cartridge case and is handled similarly to fixed ammunition in loading. It may be packed with the projectile disassembled from the cartridge case containing the propellent. The projectile is usually assembled loosely in the cartridge case and is packed in the same individual container.

(4) *Semi-fixed ammunition (Navy).* Semi-fixed ammunition is ammunition in which the primer and the propellent charge are firmly secured in the cartridge case with the projectile separate from the cartridge case. The propellent charge is loaded loosely in the cartridge case, differing in this respect from that of the Army which is loaded in a bag. The end of the cartridge case is sealed with a prepared plug or disc which is fired with the powder and is usually shipped stowed in a metal tank. The projectile is shipped separate. The U. S. Army may refer to this ammunition as separate loading ammunition.

(5) *Separate loading ammunition.* Complete rounds in which the separate components—projectile, propellent charge and primer—are loaded into the cannon or gun separately are known as "separate loading ammunition." Although the propellent charge may be in one section, it is usually divided into parts with each part assembled in a bag packed in outside shipping containers which may be of wood, fiber or metal.

(6) *Definitions of other dangerous articles.* For definitions of:

(i) Inflammable liquids, see §§ 146.21–1 and 146.21–5.

(ii) Inflammable solids and oxidizing materials, see § 146.22–1.

(iii) Corrosive liquids, see § 146.23–1.

(iv) Compressed gases, see §§ 146.24–1 and 146.24–5.

(v) Poisons, Class A, see § 146.25–5; Class B, see § 146.25–10; Class C, see § 146.25–15; Class D, see § 146.25–20.

(vi) Combustible liquids, see § 146.26–1.

(vii) Hazardous articles, see § 146.27–1.

(7) *Cargo hold.* A cargo hold is a space allotted entirely to the carriage of cargo and is bounded by permanent steel bulkheads, decks and the shell of the vessel; the deck openings being provided with means of effectively closing the hold against the weather, and in the case of superimposed holds, effectively closing off each hold.

(8) *Tween deck hold.* A tween deck hold is a space located between the weather deck and the lower hold.

(9) *Hatch.* An opening in the weather deck and all decks below in the same vertical plane through which cargo, etc. is passed. This term is also used in the regulations in this subpart to designate the entire series of holds served through one weather deck hatch.

(10) *Compartment.* A compartment is any space formed by permanent steel bulkheads and the ship's side and decks. The limits of a compartment are determined by the integrity of the bulkheads, shell or decks forming its boundaries. Access openings fitted with doors, hatch covers (steel or wood) or bolted plates are accepted as preserving the integrity of deck, bulkhead or shell.

(11) *Shelter deck space.* A shelter deck space is a space available for cargo situated above the uppermost complete continuous deck (main deck) and the deck next above. Normally this space contains no permanent watertight transverse bulkheads except at its forward and aft extremities.

(12) *Adjacent hold; hold adjacent.* Any hold which has as one of its boundaries a permanent steel bulkhead that is common, either partially or in its entirety, to another hold shall be termed "adjacent hold" or hold "adjacent" to the focal hold. This shall not be construed as meaning a hold above or a hold below said hold nor shall it include a hold that is situated diagonally from said hold and has only a corner as a common boundary.

(13) *The hold above.* "The hold above" shall be a hold immediately above another hold having its deck, either partially or in its entirety, common to the overhead of the hold below.

(14) *Any hold above.* "Any hold above" shall mean any hold that is partially or entirely in the same vertical plane over another hold even though there may be a hold or holds intervening.

(15) *The hold below.* "The hold below" shall be a hold immediately below another hold having its overhead, either partially or in its entirety, common to the deck of the hold above.

(16) *Any hold below.* "Any hold below" shall mean any hold that is partially or entirely in the same vertical plane under another hold even though there may be a hold or holds intervening.

(17) *Cargo net.* A cargo net is a net made of fiber rope and used as a means of handling loose or package cargo to and from the hold of a vessel.

(18) *Tray.* A tray is any flat group of boards securely fastened to bearers in order to provide a level surface for the loading of cargo. Trays are given various names, those applied in some ports differing from those in other ports, according to (i) shape, (ii) method of securing to cargo handling gear, or (iii) use or lack of sideboards in conjunction with the tray.

(19) *Skipboard.* A skipboard is the term generally applied to a rectangular or square tray without sideboards.

(20) *Pieplate.* A pieplate is the term generally applied to a round, oval or hexagonal tray without sideboards.

(21) *Pallet.* A pallet is a tray so designed as to be picked up by a fork truck or similar cargo handling equipment. Pallets are not usually equipped with sideboards.

(22) *Palletized unit.* Individual packages or unpackaged items stowed in a compact mass upon a pallet or skids and banded together and to the pallet or skids by metal straps to form a unit consisting of pallet and packages.

(23) *Dunnage.* Lumber of not less than 1-inch commercial thickness laid over tank tops, decks or against bulkheads, frames, plating, ladders, etc., or used for filling up voids, or fitted around the cargo for the purpose of preventing damage during transportation.

(24) *Type "A" dunnage floor.* A type "A" dunnage floor shall be constructed of two layers of commercial 1-inch dunnage of widths not less than 4 inches fitted as close as possible, edge to edge, and butt to butt, the top course being laid crosswise to the lower course, or of a single layer of 2-inch lumber of widths not less than 6 inches fitted as close as possible edge to edge, and butt to butt.

(25) *Type "B" dunnage floor.* A type "B" dunnage floor shall be constructed of one layer of commercial 1-inch thick dunnage of widths not less than 4 inches fitted as close as possible, edge to edge, and butt to butt.

(26) *Partition bulkhead.* A partition bulkhead is a temporary bulkhead constructed of commercial 1-inch lumber of widths not less than 4 inches, secured alternately on both sides of the uprights and spaced not more than 6 inches apart. The uprights are at least 2" x 4" size, spaced not more than 30 inches apart.

(27) *Division bulkhead.* (i) When part of a compartment or hold is utilized for the stowage of military explosives, the remaining portion of such compartment or hold may be utilized for the stowage of general cargo provided a temporary wooden bulkhead is constructed in the compartment or hold to completely divide and protect the stowage of military explosives from the general cargo. The scantlings and construction of such bulkheads shall be as follows: For tween deck compartments or holds construction shall be of commercial 2-inch boarding, secured on 4" x 6" uprights spaced not to exceed 30 inches center to center. For lower holds construction shall be of commercial 2-inch boarding secured on 6" x 6" uprights, spaced not more than 24 inches center to center. Random widths of boarding may be used. The boarding shall be close fitted edge to edge and butt to butt to form a smooth surface facing the explosive stowage. Nails shall not protrude beyond the surface of the boarding.

(ii) See § 146.29–81 (e) for construction of a partition bulkhead within a Class "A" magazine measuring more than 40 feet in any direction.

(iii) When general cargo is to be stowed adjacent to the exterior of the Class "A" magazine see § 146.29–61 (b).

(28) *Shoring.* Shoring is a method of securing cargo against movement sidewise or downward. In this subpart it describes the use of timbers fitted vertically or at an angle to the side of the stowage. It may also describe the use of timber to support a stowage from moving downward.

(29) *Tomming.* Tomming is a method of securing cargo against displacement of movement upwardly. In this subpart it describes the use of timber fitted horizontally or at an angle to the top of the stowage.

(30) *Tween deck height.* (i) For the purpose of load calculations the height of a tween deck is ascertained by measuring the distance from the heel of the overhead deck beam to the heel of the underdeck beam. (The thickness of the plating forming the deck is not deducted from the height.)

(ii) For height of a tween-deck affected by the sheer of a deck measure as above at both the forward and after ends of the hold and divide the sum of these heights by two.

(c) *Abbreviations.*

AA ---------- Anti-aircraft.
AAC ---------- Anti-aircraft common.
AACom ------ Anti-aircraft common.
AC ---------- Aircraft cannon.
AC ---------- Hydrocyanic acid.
A. C. E. I. S. -- Aircraft emergency identification signals.
A. D. F. ------ Auxiliary detonating fuze.
AIC ---------- Ammunition identification code (Army).
ALN --------- Ammunition lot number.
Amm --------- Ammunition.
Ammo ------- Ammunition.
AMSO ------- Ammunition shipping order.
AP ---------- Armor-piercing.

APC ——— Armor-piercing capped.
APT ——— Armor-piercing tracer.
ASSEM ——— Assembled.
AT ——— Anti-tank.
Aux ——— Auxiliary.
Aux Det ——— Auxiliary detonating fuze.
BBC ——— Brombenzylcyanide (tear gas).
BC ——— Bursting charge.
BD ——— Base detonating.
BDF ——— Base detonating fuze.
BIF ——— Base ignition fuze.
BL and P ——— Blind loaded and plugged.
BL and T ——— Blind loaded and tracer.
B/L ——— Bill of lading.
BOSO ——— Bureau of Ordnance shipment order.
BP ——— Black powder.
BUORD ——— Bureau of Ordnance.
B. R CHG ——— Bursting charge.
CAL ——— Caliber.
CCIP ——— Case combination ignition primer.
CHG ——— Charge.
CG ——— Phosgene.
CK ——— Cyanogen chloride.
CL ——— Chlorine.
Cml-C ——— Chemical Corps.
CNS ——— Chloracetophenone solution (tear gas).
COM ——— Common.
CPI ——— Case percussion igniter.
CPP ——— Case percussion primer.
CT-TNT ——— Case TNT.
D ——— Explosive "D" (ammonium picrate).
DA ——— Diphenylchloroarsine.
DC ——— Depth charge.
DDR ——— Dummy drill.
DEMO ——— Demolition.
DM ——— Adamsite (sneeze gas).
DNT ——— Dinitrotoluene.
DP ——— Diphosgene.
EX ——— Experimental.
EXP ——— Expellant or explosive.
EXP "D" ——— Explosive "D".
F ——— Fuze.
FC ——— Full charge.
FFAR ——— Folding fin aircraft rocket.
FFFG ——— Fine fine fine grain (black powder).
FFG ——— Fine fine grain (black powder).
FG ——— Fine grain (black powder).
FNH ——— Flashless, nonhygroscopic.
FP ——— Flashless pellets.
FRAG ——— Fragmentation.
FM ——— FM smoke mix (titanium tetrachloride).
FS ——— FS smoke mix (sulfur trioxide).
GP ——— General purpose.
H ——— Mustard gas.
HBX ——— Desensitized torpex
HC ——— High capacity.
HC ——— Hexachlorethane mixture (smoke).
HE ——— High explosive.
HEAT ——— High explosive anti-tank.
HEI ——— High explosive incendiary.
HEIT ——— High explosive incendiary tracer.
HET ——— High explosive tracer.
HPAG ——— High performance air to ground (rocket).
HN ——— Nitrogen mustard gas.
HVAR ——— High velocity aircraft rocket.
I C ——— Interstate Commerce Commission.
ILLUM ——— Illuminating.
IM ——— Thickened gasoline.
IN ——— Inert.
INCFND ——— Incendiary.
L ——— Lewisite
LC ——— Light case.
LE ——— Low explosive.
L and F ——— Loaded and fused.
L and P ——— Loaded and plugged.
M ——— Model (Army).
Maj Cal ——— Major caliber.
MCBD ——— Major caliber base detonating.
MG ——— Magnesium.
MK ——— Mark.
MM ——— Millimeter.
MIN CAL ——— Minor caliber.
Mod ——— Modification.
MTF ——— Mechanical time fuze.
NC ——— Nitrocellulose.
NF ——— Nose fuze.
NH ——— Non-hygroscopic.
NP ——— Thickened gasoline.
O H ——— Overhauled.
ORD ——— Ordnance.
PD ——— Point detonating.
PDF ——— Point detonating fuze.
PENT ——— Pentolite.
PERC ——— Percussion.
PRAC ——— Practice.
PRI ——— Primer.
PROJ ——— Projectile.
PS ——— Chlorpicrin.
PT ——— Thickened fuel.
PWP ——— Plasticized white phosphorus.
RD ——— Round.
SA ——— Small arms.
SAP ——— Semi-armor piercing.
SCAR ——— Sub-caliber aircraft rocket.
SEIS ——— Ships' emergency identification signals.
SF ——— Semi-fixed.
SP ——— Smokeless powder.
SQ ——— Super quick.
T ——— Tentative model designation.
TET ——— Tetryl (trinitrophenylmethyl nitramine).
TF ——— Time fuze.
TH ——— Thermate or Thermite.
TNT ——— Trinitrotoluene.
TPX ——— Torpex.
VT ——— Variable time (Proximity) (VT).
w ——— with.
w/o ——— without.
WP ——— White phosphorous.

§ 146.29–13 *Permit for handling military explosives.* (a) Shipments of military explosives or military lethal chemicals shall not be laden on nor discharged from any vessel at any port or place in the United States, its territories or possessions (not including the Panama Canal Zone) until authorization has been obtained by the owner, agent, charterer, master, or person in charge of the vessel from the District Commander of the U. S. Coast Guard, Captain of the Port, or other officer designated by the District Commander.

(b) Before a permit is issued authorizing the loading or discharging of military explosives or military lethal chemicals in accordance with paragraph (a) of this section, the permittee shall file a written application for a permit authorizing the loading or discharging. When filed, the application for loading shall be accompanied by a preliminary manifest of all explosives or other dangerous articles comprising the cargo of the vessel together with a preliminary cargo stowage plan showing the proposed stowage of all such cargo. Changes in final stowage from that shown in the preliminary cargo stowage plan may be made upon approval of the issuing officer.

§ 146.29–15 *Authority to load, handle or discharge; facilities and use.* (a) Military explosives shall not be handled, stored, stowed, loaded on, or discharged from a vessel except at one of the following:

(1) Explosives anchorages; areas upon the navigable waters that are designated explosives anchorages under the applicable provisions Title 33 CFR Part 202 (Anchorage Regulations) within which a vessel may anchor or moor to handle, store, stow, load, or discharge explosives as cargo.

(2) Waterfront facilities approved by the Captain of the Port or District Commander as explosives loading piers to which a vessel may moor to handle, store, stow, load, or discharge military explosives as cargo.

(3) Waterfront facilities approved by the Captain of the Port or District Commander as ammunition loading piers to which a vessel may moor to handle, store, stow, load, or discharge ammunition as cargo except the following classes: II–A, IX–A, IX–B, IX–C, X, XI–A and XI–B.

(4) The Captain of the Port or District Commander may designate a temporary location for a specific loading of Class XI–A and Class XI–B ammunition.

(b) A vessel, subject to the regulations in this part, may load or discharge military explosives at any Army or Navy depot, arsenal, navy yard, port of embarkation or other facility under the direct control and operation of the Navy, or Army, provided a permit authorizing such loading has been granted by the Captain of the Port. (See §§ 146.29–19 and 146.29–21.)

(c) In an emergency arising by reason of military necessity or casualty, a vessel may upon authorization by a Captain of the Port, load or discharge military explosives in any location authorized by said Captain of the Port.

§ 146.29–17 *Prohibited explosives.* (a) Explosives prohibited by subsection 3 of R. S. 4472, as amended (46 U. S. C. 170) (fulminates or other detonating compounds in bulk in dry condition, or explosive compositions that ignite spontaneously or undergo marked decomposition when subjected for 48 consecutive hours to a temperature of 167 degrees Fahrenheit, or compositions containing an ammonium salt and a chlorate, or other like explosives) shall not be accepted by any vessel.

(b) A passenger vessel shall not accept any Class A or Class B military explosives for transportation as cargo.

§ 146.29–19 *Explosives loading supervisory detail.* (a) There may be assigned to every vessel, subject to the regulations in this part, loading, handling, or discharging military explosives at an explosives anchorage or waterfront facility as may be approved by the Captain of the Port or the District Commander for the loading or unloading of military explosives, a Coast Guard detail to supervise such loading, handling or discharging. The owners, agents, charterers, masters or persons in charge of the vessel and all persons engaged in the handling, loading and stowage of the military explosives shall obey all orders, oral or written, that are given by the person in charge of such assigned detail.

(b) A vessel, subject to the regulations in this part, loading, handling, or discharging military explosives at a Navy or Army depot, arsenal, navy yard, port of embarkation or other facility under the direct control and operation of the Navy or Army shall apply to the Captain of the Port for a permit for such loading, handling or discharging. A Coast Guard detail may be assigned to such a vessel unless the Commanding Officer of such Navy or Army facility declines the detail.

§ 146.29–21 *Personnel identification.* The provisions of this section shall apply to vessels loading, handling or discharging military explosives in accordance with the provisions of § 146.29–19 (a).

(a) No person shall enter upon a vessel loading, handling, or discharging military explosives unless such person first identifies himself to the satisfaction of the Coast Guard detail.

(b) Every person who is permitted to enter into a magazine or a hold or compartment of a vessel wherein military explosives are being handled or stowed shall provide the Coast Guard representative with his name and address and the name and address of the firm employing him, furnishing satisfactory identification to substantiate such information.

(c) A person who, for any reason, is requested to leave a vessel loading, handling or discharging military explosives by the person in charge of the Coast Guard detail shall immediately obey the request and not return until permission is granted.

§ 146.29–23 *Ship's officer present.* (a) During the entire operation involving the building of a magazine, the preparation of holds, and the actual handling and stowage of military explosives, it shall be the responsibility of the master of the vessel to assign a deck officer of the vessel who shall be in constant attendance. It shall be this officer's responsibility to see that the provisions of the regulations in this part, insofar as such provisions apply to the vessel, are complied with.

(b) It shall be this officer's further responsibility at the end of the work shift to see that all means of access to the partially loaded holds are closed off in such a manner as to provide the maximum safety and protection for the explosives stowed within the hold.

§ 146.29–25 *Fires and fire protection.* (a) No unnecessary fire shall be permitted on a dock, lighter, or vessel while loading, handling, or discharging military explosives.

(b) Every fire deemed necessary must be properly safeguarded and for the entire period of cargo transfer shall be in constant charge of a competent person assigned for that purpose by the master or by the person in charge of the vessel or by the person in charge of the dock.

(c) (1) Every vessel engaged in the handling and transfer of military explosives and equipped with means for power, heating, cooking, or lighting involving use of smoke pipes or stacks shall have such smoke pipes and/or stacks protected by spark screens. For the purpose of screening smoke pipes, vessels shall be divided into two categories. Large or ocean vessels shall have their main smoke pipes protected by screens of not larger than 2 x 2 mesh and small or inland vessels and small or auxiliary smoke pipes on large vessels by screens not larger than 4 x 4 mesh.

(2) Insofar as practicable, barges, lighters, towboats, and other types of vessels shall not come alongside a vessel handling, storing, stowing, loading, discharging or transporting military explosives opposite the area where hatches serving a hold containing explosives are open. (See § 146.29–73 (f).)

(3) This paragraph is not applicable to vessels transiting main channels contiguous to explosive loading facilities or anchorages.

(4) Vessels loading or unloading Class I ammunition at waterfront facilities not designated by the Captain of the Port as explosives loading piers do not require screening of smoke pipes and/or stacks.

(d) Welding or cutting operations involving the use of open flames or arc shall not be undertaken on a vessel having military explosives on board as cargo, except in case of an emergency affecting the security of a vessel, or for the purpose of welding pad eyes, angle bars or other devices to the deck for securing deck cargo. Such welding or cutting shall be done only on special permission of the Captain of the Port, and then only in the presence of an officer of the Coast Guard detail and in conformity with said officer's instructions.

(e) The cleaning of fireside of boilers shall not be undertaken on a vessel while at an explosives or ammunition loading facility or anchorage except upon express permission of the Captain of the Port.

(f) All tubes and uptakes of the vessel must be thoroughly swept or blown and reasonably free of soot prior to the arrival of the vessel at an explosives or ammunition loading facility or anchorage. A vessel at an explosives ammunition loading facility or anchorage shall not blow tubes or uptakes except upon permission of the Captain of the Port and then the operation shall be under the supervision of the master or person in charge of the vessel with a licensed engineer in attendance.

(g) Bunkering of a vessel shall not be done while the vessel is at an explosives loading or ammunition loading waterfront facility. When at an anchorage, an explosives laden vessel may engage in bunkering operations provided explosives are not being loaded, handled, or discharged, and all holds in which explosives are stowed are secured.

(h) A vessel at an explosives or ammunition loading facility or anchorage shall not transfer fuel oil between its own fuel oil storage tanks or from its storage tanks to the settling tank, except under the close supervision of a licensed engineer who shall be in constant attendance until the operation is completed.

(j) The transfer of lubricating oils and cleaning oils, either from containers on board the vessel or by pipeline or hose shall be prohibited at an explosives or ammunition loading facility. However, the transfer on board the vessel of gallery fuel oil may be authorized by the Captain of the Port when the galley stove is cold, or when the vessel is equipped with an overflow system which returns surplus fuel oil from the galley tanks back into the main storage tanks provided such transfer is under the supervision of the master or person in charge of the vessel with a licensed engineer in attendance.

(k) The fueling of powered lifeboats or units of the vessel's machinery shall not be done while the vessel is at an explosives or ammunition loading facility.

(l) Boiler room and engine room bilges must be clean and free of oil or unnecessary residue before the vessel proceeds to an explosives or ammunition loading facility or anchorage, and it is further required that the bilges be maintained in this condition during the entire time the vessel is moored at the explosives or ammunition loading facility or anchorage.

(m) On every vessel located at explosives loading facility or anchorage or ammunition loading facility no work shall be undertaken on the main propulsion machinery, auxiliaries or boilers that will render inoperative fire pumps, electric power or propulsion of the vessel without express authority of the Captain of the Port. When the repairs authorized make inoperative the main propulsion unit an auxiliary tug shall stand by.

(n) (1) Every self-propelled vessel having on board military explosives shall at all times maintain means of propulsion. When not under way, such a vessel shall have available on deck, fore and aft, hawsers capable of being used for emergency towing. The eye of such hawser shall be clear of the chock with messenger attached and ready to run and the ship's end shall be stopped off on the bitts to permit reasonable scope of hawser for towing. A heaving line made up and secured to the rail by rope yarn shall be bent to the eye of the hawser. Fire axes shall be kept conveniently at hand, fore and aft, to be used on the ship or passed to the dock for cutting mooring lines in case of an emergency.

(2) Nonself-propelled vessels having on board military explosives when moored or anchored shall have at least one tug for each facility or area at which they are moored or anchored.

§ 146.29–27 *Fire hose.* (a) During the handling, loading, or unloading of military explosives the vessel shall "run out" or otherwise make ready for quick use a minimum of two lines of hose on the weather deck, one fore and one aft. The fire hose valves controlling these lines shall remain "cracked open" (except in freezing weather) so casual observation may indicate that water is available.

(b) Additional fire lines shall be "run out" or otherwise made ready at each hold or compartment working or containing military explosives when the hatch serving the hold is open. These lines shall be of sufficient length to reach all portions of the hold or compartment.

§ 146.29–29 *Smoking.* (a) Smoking is prohibited on or near any vessel handling, loading or unloading military explosives at an explosives or ammunition loading pier. Smoking areas may be designated upon approval by the Captain of the Port provided such areas are located at a safe distance from the vessel. "No Smoking" warning signs shall be posted during operations of handling, loading or unloading such cargo. At least one such "No Smoking" sign shall be located on the pier at a reasonable

distance from the vessel when such handling, loading, or unloading is taking place at a pier.

(b) Smoking is prohibited on or near any vessel handling, loading, or unloading explosives at an explosives anchorage, except the Captain of the Port may, with the concurrence of the master or person in charge of the vessel, designate a compartment as a smoking area. This compartment will be fitted with installed electric lighting devices without open flame. "No Smoking" warning signs shall be posted conspicuously in other parts of the vessel during operations of handling, loading, or unloading.

§ 146.29–31 *Liquor or drugs.* No person who, in the judgment of the master, person in charge of the vessel, or the officer in charge of the Coast Guard detail, is considered as being under the influence of intoxicating liquor or of drugs shall be permitted on board a vessel while operations involving the handling, loading, unloading, or transportation of explosives are being carried on, except if the person under the influence of intoxicating liquor or drugs is a bona-fide member of the crew of the vessel involved, he may at the discretion of the Officer-in-Charge of the Coast Guard detail board the vessel: *Provided*, That the master or person in charge of the vessel will accept custody and full responsibility for said person: *And provided further*, That this person shall not be permitted to perform any work on the vessel while under the influence of intoxicating liquor or drugs.

§ 146.29–33 *Cargo working gear and equipment.* (a) Before military explosives are loaded or unloaded on or from a vessel the master or other person in charge of the vessel is required to ascertain by examination the adequacy, the condition and working order of all working equipment including slings, crates, baskets, boxes, chutes, mattresses and tackle.

(b) Any and all equipment, which in the judgment of the master or other person in charge of the vessel is not adequate or in safe working condition shall be rejected by him and he shall prohibit its use and shall take such precautions as he may deem necessary to be certain such rejected equipment is not used for the purpose of loading or unloading explosives. The master or other person in charge of the vessel shall keep watch of all equipment used during the transfer of explosives and if any part of the equipment shows any defect or is damaged in use, work shall be stopped and the damaged or defective equipment repaired or replaced before permitting the loading or unloading to continue.

(c) This inspection of cargo working equipment shall apply to the vessel's equipment and to stevedores' or other contractor's equipment.

(d) The Captain of the Port or his representative may prohibit the use of any cargo working gear or equipment, including stevedore equipment, which he deems unsafe.

§ 146.29–35 *Lights, tools and portable equipment.* (a) No artificial light except electric lights or electric lamps or flood lights shall be used while loading or unloading military explosives. Such light fixtures shall not be used unless protected against accidental breakage by metal guards. Portable electric lights shall be fitted with stout guards protecting the bulb. Wire of such lights shall be sound and show no evidence of liability to short circuit.

(b) Portable lights shall be so installed as to prevent any part of the light or its cable from coming in contact with the deck or the cargo. A hanging portable light shall not be suspended from its cord but shall be fitted with a gantline so installed that no strain is carried by the light cable. No portable light shall be taken into a hold or compartment in which the stowage of ammunition or explosives has been completed without prior approval by the Captain of the Port or his representative. A portable light that is permitted in a hold under these circumstances shall be so guarded and protected that neither the light nor the light cord shall be in bearing with any metal part of the vessel or with any of the ammunition or explosives, or the containers thereof.

(c) Flashlights of a non-spark type shall be provided by the vessel owner, agent or its master or other person in charge of the vessel, for personnel required to enter holds in which explosives are stowed.

(d) Members of the crew of the vessel and other persons permitted on board the vessel to aid and assist in loading, unloading or handling military explosives shall not be permitted to carry on their persons firearms, matches, flame producing devices, knives, bale hooks, metallic tools except as provided in paragraph (e) of this section or personal packages of any description, except the prohibition against knives shall not apply to the seaman's knife in possession of a member of the crew of the vessel, provided such crew member is not actually working the explosives or amunition. Lunch boxes, pails, thermos bottles, other food containers or personal packages of any description shall not be brought on board a vessel unless such items have been examined and passed by the Coast Guard detail. Food containers that are passed on board the vessel shall not be stored in the hold in which explosives are being worked nor shall their contents be eaten in such hold.

(e) The Captain of the Port may authorize the use of pinch bars of metal or wood, in "breaking out" or stowing unfuzed bombs, large caliber separate loading shells, and packages of ammunition shipped in heavy unit weight containers. He may also permit the use of saws and hammers that are actually powered by the hand or hand and arm, in the hold of a vessel when necessary in fitting dunnage or constructing a partition or a division bulkhead or installing protection required for the stowage of military explosives. No mechanically operated saws or hammers shall be permitted in a hold containing military explosives.

§ 146.29–37 *Handling drafts of lumber.* All lumber in excess of 3 feet in length shall be handled into or out of the holds of vessels loading, unloading or containing military explosives or ammunition by use of a double sling. Small pieces of lumber used in chocking and dunnaging shall be handled in trays with sideboards. Cargo nets may also be used provided they are lined with canvas or similar fabric. Dunnage shall not be lowered directly onto stowages of ammunition or explosives. Landing mats or timbers shall be laid to receive such drafts.

§ 146.29–39 *Handling and slinging of explosives.* (a) All military explosives or chemical warfare agents in bulk shall be handled carefully. Packages and other containers shall not be dropped dragged, tumbled, walked, slid over each other or over the deck or otherwise subjected to shock. They shall not be rolled unless rolling is specifically permitted by the provisions governing handling as set forth in § 146.29–100.

(b) In transferring military explosives between pier facilities and vessels or from vessel to vessel, or within the hold of a vessel the items may be handled by hand, power operated mechanical hoist or power operated conveyor approved by the Captain of the Port, power operated cargo lift truck, hand truck or nonpowered (gravity) roller conveyor (hand controlled); or unless specifically prohibited by the regulations in this subpart, a specification chute and mattress may be used. (Refer to §§ 146.09–11 and 146.09–12 for specifications of chute and mattress.)

(c) Military explosives shall be hoisted and lowered carefully onto a mattress or other shock absorbing material. The Captain of the Port may authorize omission of a mattress when its use is unnecessary due to use of pallets or other special gear except when Classes III, VI, VIII and IX–C are being handled, loaded or unloaded.

(d) The Captain of the Port may permit the use of gasoline-powered or diesel-powered cargo-handling vehicles or equipment on docks, wharves or piers for the handling of military explosives under such conditions as he may prescribe. Such type vehicles or equipment shall not be used within a hatch of a vessel having military explosives in any hold within said hatch. Electric or battery powered vehicles or equipment of explosion-proof or spark-proof type may be used to handle military explosives on docks, wharves, piers or in the holds of vessels under such conditions as the Captain of the Port may prescribed. All power-operated cargo-handling vehicles or equipment shall at all times be maintained in safe mechanical, electrical and operating condition. The use of cargo-handling vehicles or equipment may be suspended or prohibited by the Captain of the Port or his representative when he considers such use inimical to safety.

(e) When handling, loading or unloading by mechanical means, all military explosives shall be handled in the type equipment specified for the various classes of explosives in § 146.29–100. Military explosives shall be arranged on trays so that no portion of the military explosives or containers overhangs the tray. For trays provided with sideboards, military explosives or containers shall not extend above the sideboards to a height exceeding one-third of the vertical dimension of the item as stowed on the tray. Rope net slings with pieplates, pallet, skipboard or similar base shall be so loaded that when lifted a minimum displacement of items shall occur and the cargo net shall completely encompass the entire load except on its topside.

(f) The mesh of a cargo net shall be of such size as will prevent any item or container of military explosives in the draft from passing through the mesh under any possible circumstances.

(g) Drafts shall not be raised or stopped in lowering by sudden application of power or brake. Drafts shall not be unloaded by tripping or freeing one side of the net, tray, or pallet and tumbling the ammunition or explosives out of the gear. All drafts, beams, shackles, bridles, slings, hooks, etc. shall be hand freed before the winch takes control. Slings shall not be disengaged by hand unhooking and then dragged from under draft by means of winch. Handles or beckets on ammunition packages shall not be used for slinging purposes.

(h) Blasting caps, detonators, primer-detonators, fulminate of mercury and initiating or priming explosives as defined in the regulations in this part shall be considered as constituting a distinct class of dangerous explosives, and because of the hazard involved they shall be handled with extreme care.

(j) "Cant" or barrel hooks shall not be used for raising or lowering a barrel, drum, depth bomb, depth charge or other container of military explosives. Metal bale hooks shall not be used in handling packages of explosives.

(k) Combination woven rope and wire slings are not permitted for use in handling explosives. A sling that is formed by use of an open hook shall not be used in hoisting or lowering a draft of military explosives.

(l) Wire rope or wire rope assemblies including splices or fittings thereof, used in handling military explosives shall be kept bare to permit ready inspection of its safe working condition. Mechanical type endings may be used in lieu of hand splices provided such endings have a minimum breaking strength equal to the catalog strength of wire rope from which it is made.

(m) Bombs shall not be handled by attaching cargo gear to the lifting lug or suspension lugs.

§ 146.29–41 *Weight per draft.* The maximum permitted weight per draft of all classes of military explosives shall be as follows:

(a) *Class I.* (1) When handled by pallet, skipboard, or tray fitted with cargo net or sideboards shall not exceed 3,000 pounds plus 10 percent.

(2) Drafts consisting of one or more palletized units shall not exceed 4,000 pounds plus 10 percent.

(b) *Classes IIA, IIB, IIC, IID, IIE, IIF, IIG, IIH, IIJ, IVA, IVB, IXA, IXB.* (1) When handled by pallet, skipboard, tray, or pieplate fitted with cargo net or sideboards shall not exceed 2,400 pounds plus 10 percent.

(2) Drafts consisting of one or more palletized units shall not exceed 4,000 pounds plus 10 percent.

(c) *Classes III, VI.* (1) When handled by tray fitted with sideboards shall not exceed 2,400 pounds plus 10 percent.

(2) Drafts consisting of one or more palletized units shall not exceed 4,000 pounds plus 10 percent.

(d) *Classes V, VII.* (1) When handled by pallet, skipboard, tray or pieplate fitted with cargo net or sideboards shall not exceed 2,400 pounds plus 10 percent.

(2) Drafts consisting of one or more palletized units shall not exceed 4,000 pounds plus 10 percent.

(3) Single shells weighing in excess of 2,200 pounds must be loaded or unloaded one at a time.

(e) *Class VIII.* (1) When handled by tray fitted with sideboards shall not exceed 1,000 pounds plus 10 percent.

(2) Drafts consisting of one or more palletized units shall not exceed 2,400 pounds plus 10 percent.

(3) The maximum permitted weight for lift of a portable magazine containing Class VIII ammunition shall not exceed 2,400 pounds plus 10 percent.

(f) *Class IX–C.* (1) When handled by tray fitted with sideboards shall not exceed 1,000 pounds plus 10 percent.

(2) The maximum permitted weight for purpose of lift of a portable magazine containing IX–C explosives shall not exceed 2,400 pounds plus 10 percent.

(g) *Class X.* (1) When handled by pallet, skipboard, tray or pieplate fitted with cargo net or sideboards shall not exceed 2,400 pounds plus 10 percent.

(2) When handling bombs, more than one to a draft, by sling method or in palletized units, the draft shall not exceed 4,000 pounds plus 10 percent.

(3) Table of limiting loads applicable when handling bombs by sling method:

Weight of individual bomb or cluster:	*Maximum limits in units per one draft*
1 lb. to 250 lbs. plus 10% per unit	8
276 lbs. to 500 lbs. plus 10% per unit	6
551 lbs. to 1,000 lbs. plus 10% per unit	4
1,101 lbs. to 2,000 lbs. plus 10% per unit	2
Over 2,200 lbs.	1

(4) Single items or assembled units (other than palletized), designed to be handled as a unit, may be loaded regardless of weight provided the cargo handling gear is of a design capable of handling a working load at least 50 percent additional to the actual weight of the item or unit comprising the draft, and provided further the integrity of the cargo handling gear is unimpaired. (For example, in loading a 6-ton bomb, the working load of a single cargo boom and gear shall not be less than 9 tons.)

(h) *Classes XIA, XIB.* (1) When handled by trays, skipboards, pallets or pieplates fitted with cargo nets or sideboards shall not exceed 2,400 pounds plus 10 percent.

(2) Drafts consisting of one or more palletized units shall not exceed 4,000 pounds plus 10 percent.

(3) Single bombs or other unit containers weighing in excess of 2,200 pounds must be loaded or unloaded one at a time.

§ 146.29–43 *Requirement for the opening of hatches.*—(a) *Vessels at explosives loading piers or at ammunition loading piers.* (1) A weather deck hatch through which ammunition or explosives are being worked shall have sufficient hatch covers and hatch beams removed across the entire width of the hatch so that the resulting opening, measured parallel to the side of the vessel, is at least equal to twice the longest axis of the largest draft being loaded.

(2) Strongbacks or hatch beams left in place shall be firmly secured by hatch batten or other approved means.

(b) *Vessels at explosives anchorages.* A weather deck hatch through which ammunition or explosives are being worked shall have all hatch covers and all hatch beams removed unless otherwise authorized by the Captain of the Port.

(c) *Vessels at explosives anchorages having a magazine constructed in the square of a weather deck hatch.* Sufficient hatch covers and hatch beams shall be removed from the weather deck hatch to expose the entire magazine.

(d) *General requirements.* (1) During the working of ammunition and explosives to or from the deep holds, the tween-deck hatch openings shall at all times be equal to, if not greater than, the weather deck hatch openings.

(2) The use of open hooks in removing or replacing hatch beams or hatch strongbacks is prohibited. Closed hooks, shackles or T bars shall be used in this operation.

§ 146.29–45 *Loading or unloading military explosives and other cargo simultaneously.* (a) Military explosives shall not be loaded or unloaded in a hatch at the same time that other cargo is being worked in any of the holds serviced through said hatch.

(b) Military explosives shall not be loaded or unloaded from the same hatch from both sides of the ship simultaneously, unless the hatch is fitted with cargo handling gear located at both the forward and after ends of the hatch. A vessel so equipped may use both sets of cargo handling gear simultaneously from the same side of the vessel.

(c) When military explosives are stowed in a hold below one in which any cargo is being worked the tween-deck hatch dividing the two holds will have all of its covers securely in place.

(d) Military explosives may be loaded in a hold before or after other cargo, provided that all precautions are taken to assure full protection to the explosives against the hazard of articles being dropped from the cargo sling. When possible hatches should be partially covered to assure such protection.

§ 146.29–47 *Packing and marking.* Military explosives shall not be offered to vessels or accepted by vessels subject to the regulations in this part unless they are in proper condition for transportation and are packed, marked, labeled, described, certified and otherwise acceptable in accordance with the applicable provisions of the regulations in this part.

§ 146.29–49 *Stowage on board barges.* (a) Barges subject to the regulations in this part, engaged in the transfer of explosives between receiving points and delivery points within the harbors, bays, sounds, lakes, and rivers, including the explosives anchorages on the navigable waters, shall conform to the applicable provisions of §§ 146.10–1 to 146.10–50, inclusive. Ammunition or explosives in bulk, in combustible outside packages, stowed "On deck in open" shall after loading and during transportation be covered by tarpaulins securely lashed in place.

(b) Notwithstanding the requirements of this subpart relative to the stowage of detonators, blasting caps and fuzes, Class VIII, such articles may be stowed "On deck" on Class AA and Class AB barges with other ammunition or explosives in bulk stowed thereon, provided a sandbag barrier of at least 2 feet in thickness intervenes between the ammunition or explosives in bulk and the detonators, blasting caps or fuzes. When both are stowed "On deck" the height of this barrier shall be at least equal to the height of the stowage of the detonators, blasting caps or fuzes, or the ammunition or explosives in bulk, whichever is highest. The barrier shall either completely surround the detonators, blasting caps or fuzes or extend across the width of the barge. With this type of barrier no additional separation is required. For Class AC barges, the stowage of detonators, blasting caps or fuzes, Class VIII, shall, when no permanent steel bulkhead intervenes, be separated from the stowage of ammunition or explosives in bulk by a distance of 40 feet; with a permanent steel bulkhead intervening, detonators, blasting caps or fuzes shall be separated from the stowage of explosives in bulk by a distance of 25 feet and from the stowage of ammunition by a distance of 10 feet. If, under deck, a 2-foot sandbag barrier is utilized to intervene between the stowage of ammunition or explosives in bulk, it shall be considered as though a permanent steel bulkhead or deck intervenes. Notwithstanding the provisions of § 146.10–50, Class CA and Class CB barges may transport ammunition on deck.

§ 146.29–51 *Stowage on board vessels.* (a) All articles of cargo classified as military explosives by the regulations in this subpart shall be stowed on board a vessel in conformity with the provisions of the regulations in this subpart.

(b) Mixed stowage of ammunition or explosives in bulk with other ammunition or explosives, or other dangerous articles or substances, or combustible liquids or hazardous articles shall be in conformity with the provisions of the explosives admixture chart, § 146.29–99, the classification, handling and stowage chart, § 146.29–100 and other applicable specific provisions of this subpart.

(c) Specifications governing construction and location of magazines and lockers and the preparation of cargo compartments to be used in the stowage of military ammunition are detailed in §§ 146.29–71 to 146.29–95, inclusive.

§ 146.29–53 *Stowage of military explosives in holds containing coal.* Unless expressly authorized by the Commandant of the Coast Guard military explosives shall not be stowed in a hold containing coal as cargo nor in any hold above, below or adjacent to one containing coal.

§ 146.29–55 *Stowage of military explosives in holds containing household or personal effects and/or mail as cargo.* Unless expressly authorized by the Commandant of the Coast Guard military explosives shall not be stowed in a hold containing household or personal effects and/or mail as cargo nor in any hold above, below or adjacent to one containing any of these items. The foregoing does not apply on vessels having on board military explosives of the Class I category only.

§ 146.29–57 *"On deck" stowage.* (a) Articles classified as military explosives, the stowage of which is permitted "On deck" by the regulations in this subpart shall be properly secured. Such security may be obtained by using existing vessel's structures such as bulkwarks, hatch coamings, shelter deck and poop bulkheads, as part boundaries and effectively closing in the cargo by fitting angle bar closing means, secured by bolting to clips or other parts of the ship's structure. Lashing of deck stowage permitted, provided eye pads are fitted to carry such lashings. Guard rails shall not be used to secure such lashings.

(b) Bulky articles may be secured by lashing with individual wire rope lashing or other equally efficient means.

(c) Shoring of such bulky articles of cargo shall be in addition to the foregoing means of securing.

(d) Military explosives stowed "On deck" shall not be stowed within a distance of 20 feet of an incinerator, the topside terminus of an ash hoist or a coal or oil fire galley or bake shop. For vessels fitted with electrically operated galleys and bake shops, the military explosives stowed on deck may be stowed not closer than 10 feet of such galleys and bake shop provided no incinerator or topside terminus ash hoist is within a distance of 20 feet of such stowage.

§ 146.29–59 *Stowage adjacent to other dangerous articles.*—(a) *Flammable liquids.* (1) Military explosives shall not be stowed in the same hold, nor in any hold below, any hold above or a hold adjacent to one in which flammable liquids are stowed. Military vehicles including ducks, buffaloes, alligators and similar amphibious types of craft, referred to in this subpart as "vehicles" or "military vehicles", using a flammable liquid as fuel may be stowed in holds adjacent to a hold in which military explosives are stowed provided the fuel is confined to the vehicle's tank and is not in excess of approximately 75 percent of the capacity of the fuel tank.

(2) Military vehicles, landing craft and small boats using flammable liquid as fuel and having the fuel confined to the vehicle's or boat's tank and not in excess of approximately 75 percent of the capacity of said tank may be stowed "On deck" over a hold in which military explosives are stowed: *Provided*, That the weather deck is tight and the cargo hatch is fitted with a tight raised coaming and such stowage is accomplished by means of a crib and a platform so constructed as to provide a free space of at least 6 inches in height between the deck and the floor of the crib in such a manner as to allow flushing of any leakage that may occur: *And further provided*, That such stowage is not made over the square of the hatch.

(3) Flammable liquids as cargo shall not be stowed "On deck" immediately above a hold in which military explosives are stowed. The applicable provisions of §§ 146.21–1 to 146.21–100, inclusive, shall be observed in the stowage of flammable liquids "On deck".

(b) *Flammable solids or oxidizing materials.* (1) Military explosives shall not be stowed in the same hold nor in any hold above or below or a hold adjacent to one in which flammable solids or oxidizing materials are stowed except as specifically authorized by the provisions of § 146.29–100.

(2) Flammable solids or oxidizing materials may be stowed "On deck" over a hold in which military explosives are stowed: *Provided*, That the weather deck is tight and the cargo hatch is fitted with a tight raised coaming and such stowage is accomplished by means of a crib and platform so constructed as to provide a free space of at least 6 inches in height between the deck and the floor of the crib in such a manner as to allow flushing of any leakage that may occur: *And provided further*, That such stowage is not made over the square of the hatch.

(c) *Corrosive liquids.* (1) Military explosives shall not be stowed in the same hold nor in the hold below one in which corrosive liquids are stowed except as specifically authorized by the provisions of § 146.29–100. Corrosive liquids may be stowed "On deck" over a hold in which military explosives are stowed: *Provided*, That the weather deck is tight and the cargo hatch is fitted with a tight raised coaming and such stowage is accomplished by means of a crib and a platform so constructed as to provide a free space of at least 6 inches in height between the deck and the floor of the crib in such a manner as to allow flushing of any leakage that may occur: *And further provided*, That such stowage is not made over the square of the hatch.

(2) The substances listed below shall not be transported on board a vessel which is carrying in excess of 100 tons of ammunition or explosives:

Acid sludge
Bromine.
Chloracetyl chloride.
Dimethyl sulfate.
Hydrofluoric acid, anhydrous.
Nitrating (mixed) acid.
Nitric acid.
Phosphorous oxychloride.
Phosphorus tribromide.
Phosphorus trichloride.
Spent acid (sulfuric or mixed).
Sulfur chloride.

(d) *Military vehicles with electrolyte* Notwithstanding the provisions of §§ 146.23–1 to 146.23–100, electrolyte of not over 47 percent strength (39° Baumé) may be accepted for transportation and be stowed on board vessels carrying military explosives under the following conditions of packing:

(1) In glass or earthenware containers, not exceeding 160 ounces capacity (one imperial gallon) in fiberboard cartons of a size to permit cushioning with an incombustible, absorbent material of a sufficient amount to absorb the contents of the container in event of breakage. The outside container shall consist of a wooden box (ICC 15A, 16B or Army Specification) in which 1, 2, 3, or 4 fiberboard cartons may be packed. The outside containers shall carry the white (acid) label. No military ammunition shall be included within this package.

(2) Electrolyte packed in accordance with provisions set forth in subparagraph (1) of this paragraph may be stowed:

(i) "On deck in open" including deck areas over holds containing military explosives;

(ii) "Tween-deck" or "Under deck" in holds adjacent to or in any hold below a hold containing military explosives.

(3) Electrolyte, when packed in accordance with the provisions of subparagraph (1) of this paragraph, may be accepted for transportation when securely fastened within or on a military vehicle or other military equipment whether such vehicle or equipment is shipped crated, boxed, or without crating or boxing. Such military vehicle or military equipment, when shipped crated or boxed, may be accepted for transportation when the container of electrolyte is securely fastened on the inside of the shipping crate or box containing the vehicle or military equipment. When so shipped, the over-all crate or box shall carry the white (acid) label and shall be marked "This side up" and "Inside packages comply with prescribed specifications."

(4) Electrolyte packed in accordance with the provisions of subparagraph (1) of this paragraph when offered for transportation under the conditions set forth in subparagraph (3) of this paragraph, may be stowed as follows:

(i) "On deck in open", including deck areas over holds containing military explosives;

(ii) "Tween-deck" or "Under deck" in holds adjacent, any hold below or any hold above holds containing military explosives; or,

(iii) in the same hold containing Class I, IV–B, V, VII, or X, provided the stowage of military vehicles and the stowage of ammunition are separated by a division bulkhead or a 2-inch dunnage floor.

(5) Military vehicles (crated or uncrated) containing an electrolyte storage battery shall not be stowed in the same hold over military explosives stowed therein. Such vehicles may be stowed in the same hold under or alongside of military explosives stowed therein: *Provided*, That all the applicable provisions of this section are observed: *And provided further*, That the vehicles are processed, the fuel tank drained dry, the battery terminal leads disconnected, taped and protected against short circuit.

(6) Military vehicles or military equipment as used in this section includes naval vehicles or naval equipment.

(e) *Flammable compressed gases.* (1) Military explosives shall not be stowed in the same hold nor in any hold below, any hold above or a hold adjacent to one in which flammable compressed gases are stowed.

(2) Flammable compressed gases shall not be stowed "On deck" over a hold in which any Class II–A, II–B, II–C, II–D, II–E, II–G, V, VI, VII, VIII, IX–A, IX–B, IX–C, X, XI–A, or XI–B is stowed.

(3) Flammable compressed gases may be stowed "On deck" over a hold in which Class I, II–F, II–J, III, IV–A, or IV–B is stowed: *Provided*, That the weather deck is tight and the cargo hatch is fitted with a tight raised coaming, and such stowage is accomplished by means of skids at least 6 inches in height off the deck or a crib and platform so constructed as to provide a free space of at least 6 inches in height between the deck and the floor of the crib. Other applicable provisions of §§ 146.24–1 to 146.24–100, inclusive, shall be observed. Stowage may be over the square of the hatch.

(f) *Non-flammable compressed gases.* Ammunition of the following Classes I, II–G, IV–A, IV–B, V, and VII may be stowed in the same hold or compartment with non-flammable compressed gases provided the two stowages are separated by a type "A" dunnage floor or a division bulkhead. This mixed stowage is not permitted for the following non-flammable gases: Boron trifluoride, chlorine, oxygen and sulphur dioxide.

(g) *Poisons*—(1) *Class "A".* Classes I and II–F ammunition may be stowed in the same hold or compartment with Class "A" poisons provided the two stowages are separated by a type "A" dunnage floor or a division bulkhead.

(2) *Class "B".* Ammunition of the following classes, I, II–F, IV–A, IV–B, V, VII, XI–A, and XI–B may be stowed in the same hold or compartment with class "B" poisons: *Provided*, That the two stowages are separated by a type "A" dunnage floor or a division bulkhead.

(3) *Class "C" (tear gas).* Ammunition of the following Classes I, II–F, II–G, IV–A, IV–B, V, VII, XI–A, and XI–B may be stowed in the same hold or compartment with Class "C" poisons: *Provided*, That the two stowages are separated by a type "A" dunnage floor or a division bulkhead. Class II–B may also be stowed in the same hold with Class "C" poisons: *Provided*, That the two stowages are separated by a type "A" dunnage floor or a division bulkhead: *And provided further*, That the Class II–B ammunition is given top stowage.

(4) *Class "D" (radioactive material).* Military explosives shall not be stowed in the same hold in which Class "D" poisons are stowed.

(h) *Hazardous articles.* Military explosives shall not be stowed in the same hold or in the hold below, the hold above or a hold adjacent to one in which hazardous articles are stowed.

(i) *Combustible liquids.* (1) Military explosives shall not be stowed in the same hold nor in the hold below one in which combustible liquids are stowed.

(2) Combustible liquids may be stowed "On deck" over a hold in which military explosives are stowed: *Provided*, That the weather deck is tight and the cargo hatch is fitted with a tight raised coaming and such stowage is accomplished by means of a crib and a platform so constructed as to provide a free space of at least 6 inches in height between the deck and the floor of the crib in such a manner as to allow flushing of any leakage that may occur, *And provided further*, That such stowage is not made over the square of a hatch.

(k) *"On deck" stowage.* When containers of flammable liquids, flammable solids or oxidizing materials, corrosive liquids, compressed gases, poisons, combustible liquids or hazardous articles are stowed "On deck", such containers shall not be stowed within 12 inches of any steam pipe fitted on deck.

§ 146.29–61 *Stowage with nondangerous cargo in the same hold.* (a) Military explosives that are stowed in the same hold with nondangerous cargo shall be protected from damage likely to be caused by heavy nondangerous cargo. Shafting, steel bar, steel shapes, pipe, heavy machinery, military vehicles (uncrated), and similar types of cargo shall, when stowed in the same hold with military explosives be so isolated or dunnaged or secured as to prevent damage to military explosives or magazines containing said substances, or temporary bulkheads protecting explosive stowages, under any conditions likely to be encountered during the voyage.

(b) When nondangerous cargo is to be stowed adjacent to the exterior of a magaine, wooden cargo battens of not less than commercial 2" x 4" size spaced not more than 12 inches, center to center, shall be fitted horizontally to the uprights forming the frame of the magazine.

§ 146.29–63 *Stowage and dunnaging of ammunition and containers of explosives in bulk.* (a) Military explosives shall be so stowed and dunnaged as to prevent damage to the cargo or the vessel from shifting cargo caused by forces incident to the voyage of the vessel.

(b) Containers of military explosives marked, "This side up" or otherwise marked directing their stowage shall be so stowed.

(c) Kegs of black powder shall be stowed in an upright position, the bungs or other filling openings "up". Each tier shall be floored off.

(d) Metal containers of smokeless powder in bulk or metal tanks or other containers of propellant charges having closure means which protrude beyond the chime or the surface of the container shall be so dunnaged as to prevent damage occurring to such closures.

(e) The uppermost tier of military explosives shall be so secured, by tomming, bracing, top stowing with permissible cargo of sufficient unit weight and quantity or other effective means, that no displacement can occur either upwardly or laterally.

(f) Military explosives shall be so stowed that they or the containers are not liable to be pierced by the dunnaging or crushed by superimposed weight.

(g) Containers of military explosives shall not be "cant" stowed. They shall always be stowed in full bearing. Broken stowage may at the turn of the bilge, be dunnaged out with cordwood or otherwise so cribbed as to provide maximum bearing attainable for the container to

be stowed in the tier above. Broken stowage in other locations in the hold may be compensated for by cribbing out or by the insertion of sufficient dunnage to provide proper bearing for packages in the tier above.

(h) Fixed or semi-fixed ammunition in fiber containers, crated or uncrated, may be stowed on its base or on its side. Dunnaging shall be accomplished in such manner as to bear only upon the metal part of the container. No dunnage or weight shall bear directly upon the fiber portion of the container.

(j) Fuzed ammunition shall, when stowed within 8 feet of the ship's side, be stowed in a position with its long axis parallel thereto in the horizontal or vertical plane.

(k) Separate-loading shells, boxed, crated, unboxed, or uncrated may be stowed on their bases or on their sides except as otherwise provided for Army WP filled ammunition in the stowage requirements for Class II–D ammunition, § 146.29–100.

(l) When tween-deck holds of cargo vessels are utilized for the stowage of military explosives, the maximum permissible deck load for such tween decks shall not be in excess of 45 pounds per square foot of tween-deck space for each foot of tween-deck height, except where the deck and hatch structure of ships have been specially designed or reinforced for the carriage of heavy loads the Captain of the Port may permit loading in accordance with these schedules of increased intensity of loading when they are furnished by the master or operator.

§ 146.29–65 *Damaged or leaking containers of explosives.* (a) Any container of explosives or chemical warfare agents showing evidence of failure, leaking of a liquid ingredient or inability to retain its contents shall not be accepted for transportation, storage, or stowage on board any vessel.

(b) Any container of an explosive when offered for transportation, storage, or stowage, showing excessive dampness or which is moldy or shows outward signs of any oil stain or other indications that absorption of the liquid part of the explosive is not perfect, or that the amount of the liquid part of the explosive is greater than the absorbent can carry, shall not be accepted for transportation. The shipper must substantiate any claim that a stain is due to accidental contact with grease, oil, or similar substances. In case of doubt the container shall be refused.

§ 146.29–67 *Defective ammunition.* Ammunition found to be defective while being unloaded from a barge, freight car, or other vehicle, shall not be placed on board a vessel. If found to be defective while on board the vessel, it shall, if at all possible, be removed from the vessel to an isolated location as quickly as possible.

§ 146.29–69 *Recoopering damaged packages.* Defective packages shall not be recoopered in the hold of a vessel. Such packages shall not be recoopered elsewhere on board the vessel except upon conditions authorized by the Captain of the Port. Replacing bomb shipping bands, loose covers, nose plugs or strapping containers is not classed as recoopering.

§ 146.29–71 *Constructing magazines.* (a) All work in connection with the construction of a magazine, or other conditioning of holds, decks, or hatches shall be completed before the actual loading of military explosives is undertaken except as provided in § 146.29–35 (e). Magazine construction or other conditioning of a hold in which military explosives are not actually being loaded or which do not contain any military explosives is permitted.

(b) Sizes of material used for the construction of a magazine or other conditioning of holds, decks, or hatches, as set forth in the regulations in this subpart, are minimum. Increased sizes may be used, if desired. Nails shall not protrude beyond the surface of the lumber or other material authorized.

§ 146.29–73 *Preparation of magazines, decks, hatches and holds for handling military explosives.* (a) The floors of all magazines and holds shall be cleared of all rubbish and discarded dunnage and be swept broom clean before commencing to load any military explosives. Bilges shall be examined and any residue of previous cargo removed therefrom.

(b) All decks, gangways and hatches over or through which military explosives must be passed or handled in loading or unloading shall be freed of all loose material and shall be swept broom clean both before and after loading or unloading.

(c) The hatches or cargo ports opening into a compartment in which military explosives are stowed shall be kept closed at all times except during the operation of loading or unloading of the compartments or during periods of short stoppages such as lunch breaks or while shifting of barges or railway vehicles. During the period of such stoppages the hold shall be protected as prescribed by the Captain of the Port. When a hatch is closed wooden hatch covers shall be covered with tarpaulins.

(d) No debris of any description which creates a fire hazard or a hazardous condition for persons engaged in the explosives handling operation shall be permitted to stand on the weather deck of a vessel while military explosives are being worked.

(e) (1) Hatch beams and hatch covers shall, where possible, be stowed on the opposite side of the hatch from that over which the military explosives are being worked. If this is impossible, they may be stowed on the working side of the hatch.

(2) Hatch beams shall be stowed or secured in a manner that will prevent them from rolling, rocking, turning or sliding.

(3) Hatch covers shall be so stowed as to form as level a platform as possible.

(f) During the time a hatch is open and military explosives are being worked or stowed, the vessel's officer on duty supervising the handling of explosives shall warn the masters of other vessels coming alongside and the operator of any dock equipment (capable of producing sparks) to stay clear of the area adjacent to open hatches as far as practicable.

§ 146.29–75 *Location of magazines and ammunition stowage.* (a) A cool location being an important factor, magazines shall be built and military explosives stowed in an authorized location in accordance with the following factors in the order listed.

(1) A tween-deck hold, preferably a lower tween-deck.

(2) A lower hold.

(3) In the square of a hatch.

(4) A shelter deck in a location as far removed from uptakes or engine casing as possible.

(5) A forecastle, poop or permanent deck house provided the space is ventilated and does not contain any "In use" crew accommodations, nor vessel stores, and can be closed off from traffic while at sea.

(6) "On deck" stowage.

(7) Insulated spaces normally comprising refrigerator spaces may be used for the stowage of all classes of military explosives, except chemical ammunition; *Provided*, That all regulations relative to stowage of explosives with other dangerous articles of cargo are observed and the spaces may be ventilated sufficiently to provide a temperature consistent with the temperature of other holds of the vessel. When such spaces are fully ceiled, the entire compartment will be considered as a magazine, however, any pipes within the compartment shall be protected by horizontal cargo battens of a size not less than commercial 2" x 4", spaced not more than 12 inches apart, center to center and secured to 4" x 6" uprights spaced not more than 36 inches apart. Refrigerator spaces, the floors of which are lined with lead, shall not be used as a stowage for picric acid in bulk or ammonium picrate.

(b) When it is necessary to construct a magazine or to stow ammunition adjacent to the collision bulkhead, engine room, boiler room or coal bunker bulkheads, or the engine or boiler room uptakes or casings the following provisions shall be complied with.

(1) A tight wooden temporary bulkhead shall be constructed at least one foot off the permanent bulkheads, uptakes or casings with the smooth side facing the stowage of the explosives or ammunition.

(2) When the permanent bulkhead is smooth on the cargo side, construction shall be of commercial 2-inch boarding secured to uprights of 4" x 6" size spaced not more than 30 inches apart in the tween or shelter deck, or 6" x 6" size spaced not more than 24 inches apart in the lower hold. Uprights shall not be stepped directly onto a metal deck or overhead. A 2" x 6" bearer to carry the uprights shall be laid on the metal deck, and a 2" x 6" header shall be fitted against the underside of the overhead deck to receive the top of uprights. Top of uprights fitted against overhead deck beams may be wedged direct to the beam with 2" x 4" spacers fitted between. Suitable horizontal stringers shall be fitted between temporary and permanent bulkhead at the top and bottom, as well as intermediate stringers spaced a maximum of 5 feet. Uprights shall be securely fastened to horizontal stringers or horizontally braced at the top, bottom and center.

(3) When the permanent bulkhead stiffeners are on the cargo side, suitable uprights of not less than 2" x 4" may be installed against the permanent vertical stiffeners to give the required 12 inches off the bulkhead. If the permanent stiffners are over 30 inches apart, center to center, 2½-inch boarding shall be used. Uprights shall be stepped and braced as required by the provisions of subparagraph (1) of this paragraph. Bulkhead stiffeners that do not extend the full depth of the cargo space shall not be used for this purpose.

(4) Other methods of construction using steel or wooden uprights, bolted to plates or lugs welded to deck beams, decks, or tank tops may be used provided the strength is equivalent to that obtained by the foregoing methods of construction.

(c) Stowage provided for military explosives shall be dry and except for deep tanks well ventilated.

(d) Ammunition as cargo shall not be stowed within a distance of 10 feet of a vessel's radio shack, receiving or transmitting apparatus, radio antenna or antenna lead-in.

§ 146.29–77 *Allocation of stowage.* Military explosives that are tendered to a vessel for transportation as cargo shall be stowed on board the vessel utilizing the type of stowage authorized for the particular ammunition or explosives in bulk by the provisions of § 146.29–100.

§ 146.29–79 *Types of stowage.* The types of stowage prescribed for military explosives are described as follows:

(a) Magazine stowage A.
(b) Ammunition stowage.
(c) Chemical ammuntion stowage.
(d) Special stowage.
(e) Portable magazine stowage.
(f) Pyrotechnic stowage.
(g) Stowage of blasting caps, detonators, primer detonators, etc.

§ 146.29–81 *Magazine Stowage A.* The following shall be observed in the construction of a magazine required for "Magazine A" type of stowage:

(a) Magazines may be constructed of steel or wood.

(b) Magazines constructed of steel shall have the whole of the interior thoroughly protected by wood dunnage of a minimum thickness of ¾ inch. This lining may be installed during the progress of the stowage. Metal stanchions within the magazine shall be boxed with wood of a thickness of not less than ¾ inch. Bulkhead stiffeners or other structural members extending into the stowage spaces shall not be protected by dunnaging but shall be completely boarded over. When bare steel decks or tank tops are utilized to form the floor of a magazine, a wooden floor consisting of at least two layers of commercial 1-inch thick dunnaging shall be laid, the top course being laid crosswise to the lower course. When steel decks or tank tops are originally fitted with a wood flooring or are ceiled, it shall be necessary to fit one course of dunnage. All flooring formed by these methods shall be laid with commercial 1-inch lumber of widths not less than 4 inches, fitted as close as possible, edge to edge and butt to butt.

(c) Magazines constructed of wood shall have the bulkheads forming the sides and ends constructed of commercial 1-inch lumber or of ¾-inch tongue and groove sheathing, secured to uprights of at least a 3" x 4" size, spaced not more than 18 inches apart and secured at top, bottom and center with horizontal bracing. Uprights shall not be stepped directly onto a metal deck. A 2" x 4" bearer to carry the uprights shall be laid upon the metal deck. A 2" x 4" header shall be fitted against the underside of an overhead deck to receive the top of uprights. Top of uprights fitted against channel beams may be wedged directly to the beam with 2" x 4" spacers fitted between. Care shall be taken in securing upright framing that no nails penetrate to the interior of the magazine. When a magazine is constructed as a permanent compartment in the vessel, increased size and finish of lumber and other methods of fastening may be used provided such fastenings are recessed below the surface of the boarding to avoid projections within the interior of the magazine. All boardings shall be fitted and finished so as to form a smooth surface within the interior of the magazine. Construction shall be such as to separate all containers of explosives from contact with metal surfaces of the structure of the vessel. When a metal stanchion, post or other obstruction is located within the interior area of the magazine, such obstruction must be completely covered with wood of a thickness of at least ¾ inch secured in place with nails or screws. When screws are used for fastening, the screwheads shall be countersunk below the surface of the wood. The floor of the magazine shall conform to the provisions of paragraph (b) of this section. The door of the magazine shall be of substantial construction, fitted reasonably tight into its jamb. The door may be secured in place by the use of extension battens and wedges.

(d) A magazine constructed in accordance with the provisions of paragraphs (b) and (c) of this section, in which it is proposed to stow containers of explosives within 12 inches of the overdeck beams, or hatch coaming, shall have such deck beams and coaming sheathed with wood similar to that required for metal stanchions, posts or other obstructions by the provisions of paragraph (c) of this section.

(e) When a Class A magazine measures more than 40 feet in any direction, a partition bulkhead shall be fitted within the magazine as near half length as practicable, extending from the deck to at least the top of the stowage. Such partition bulkhead shall be constructed to the same scantlings as the sides of the magazine, except the boarding may be spaced not more than 6 inches apart alternately on both sides of the uprights. This bulkhead shall be constructed before loading commences and care shall be exercised that nail points do not protrude beyond the surface of the boarding.

§ 146.29–83 *Ammunition stowage.* Military explosives that are authorized to be given ammunition stowage by the provisions of § 146.29–100 shall be stowed in a location selected in accordance with the provisions of § 146.29–75. Dunnage shall be laid over metal decks or tank tops. Dunnaging shall be fitted to protect packages or articles or military explosives from damage. Nothing within this paragraph shall be construed as requiring the entire interior of the cargo compartment to be covered with dunnage.

§ 146.29–85 *Chemical ammunition stowage.* Chemical ammunition or chemical agents in bulk that are authorized to be given chemical ammunition stowage by the provisions of § 146.29–100 shall be stowed under the following conditions:

(a) Shall be afforded the same protection as required for ammunition stowage.

(b) Stowage shall preferably be in a deep tank or a lower hold.

(c) When stowed in a deep tank, pump suctions shall be effectively sealed off to prevent the escape of any leakage which may take place. Sealing off shall be accomplished by inserting a blank flange in way of the suction side of the bilge pump manifold.

(d) When stowed in a lower hold or other compartment, the hatch covers, ventilators and pump's suction shall be effectively sealed off to prevent the escape of any leakage which may take place. Sealing off the pump's suction shall be accomplished by inserting a blank flange in way of the suction side of the bilge pump manifold.

(e) When the quantity of chemical ammunition or chemical agents in bulk exceeds the capacity of deep tanks and lower holds, other holds may be used, preference being given to other lower holds or to a tween-deck hold directly over a lower hold in which such substances are stowed.

(f) Chemical ammunition or containers of chemical agents in bulk stowed in a tween-deck shall not be stowed within 8 feet of the side of the vessel.

(g) When the quantity of chemical ammunition to be stowed on board the vessel does not justify the use of a deep tank or lower hold, a suitable tween-deck space may be selected and the ammunition stowed in a portable magazine especially constructed to prevent any leakage from the ammunition escaping outside of the magazine. Such portable magazine shall be located at least 8 feet from the ship's side.

(h) Before entering a deep tank, lower hold or other compartment containing chemical ammunition the air inside the compartment must be tested by competent personnel to ascertain if leakage has taken place. If leakage has occurred, the operation of removing the ammunition or chemical agent shall be conducted by skilled personnel, preferably representatives of the appropriate Army Technical Service (Chemical Corps or Ordnance Corps) or Navy Department.

§ 146.29–87 *Special stowage.* Special stowage may be on deck protected from the elements, in a deck house, mast house, mast locker or in a vacant stateroom: *Provided,* That such a location conforms to the distance separation rule applicable to the item so stowed and adjacent military ammunition: *And provided further,* That the space is ventilated and does not contain any vessel stores or machinery or equipment used during the navigation of the vessel and can be closed off from traffic while at sea. Dunnage shall be fitted to protect packages from damage by contacting any metal parts of the ship.

§ 146.29–89 *Portable magazine stowage.* Military explosives authorized to be given portable magazine stowage by the provisions of § 146.29–100 shall be stowed under the following conditions:

(a) Shall be located in a hold or on deck in accordance with the provisions of § 146.29–100 for the particular class of military explosives stowed therein.

(b) Portable magazines shall be constructed watertight of wood, or of metal lined with wood ¾-inch minimum thickness, and shall be of a size not greater than 100 cu. ft.

(c) All inner surfaces of the magazine shall be smooth and free of nails, screws, or other projections.

(d) When constructed of wood the scantlings shall not be less than those required for a type "A" magazine in § 146.29–79, and a strong, close fitting hinged cover or door with an effective means of securing shall be provided.

(e) When constructed of metal, the minimum thickness of the metal shall be not less than ⅛-inch sheet, or formed material of equal strength.

(f) Ammunition or containers of ammunition or explosives in bulk when stowed in a portable magazine shall be so stowed and secured that no displacement can occur either upwardly or laterally.

(g) When stowed on deck the magazine shall be protected from the direct rays of the sun. Runners, bearers, skids, or other suitable means shall be provided to elevate it a minimum of 4 inches from the deck. Pad eyes, ring bolts, or other suitable means shall be provided for lashing the magazines and they shall be so lashed, chocked or braced as to prevent movement in any direction.

(h) Portable magazines shall carry the legend "Inflammable—Keep Lights and Fire Away", or "Flammable—Keep Lights and Fire Away."

§ 146.29–91 *Pyrotechnic stowage.* (a) Pyrotechnic ammunition shall be afforded ammunition stowage or special stowage in a location away from heat and so protected as to insure no moisture contacting the packages. This class of ammunition shall not be stowed in a hold or compartment with any other military explosives, except as permitted by the admixture chart (§ 146.29–99). Pyrotechnics shall not be overstowed with other cargo.

(b) For limited quantities of pyrotechnic ammunition an alternate stowage may be utilized consisting of stowing in metal lockers or portable magazines so located as to conform with the provisions of paragraph (a) of this section as regards other explosives, overstowage, heat, and moisture.

§ 146.29–93 *Stowage of blasting caps, detonators, primer detonators, etc.* Stowage of Classes III, VI and VIII type ammunition shall conform to the provisions of §§ 146.29–99 and 146.29–100, and to the following requirements:

(a) Class VIII ammunition, when stowed on board the same vessel with Classes II, IV, V, or VII military explosives, shall be separated as follows:

(1) With a permanent steel deck or bulkhead intervening, the separation shall not be less than 10 feet in any direction.

(2) Without a permanent steel deck or bulkhead intervening, the separation shall not be less than 25 feet in any direction.

(b) Class VIII ammunition, when stowed on board the same vessel with Classes IX, X, or XI military explosives, shall be separated as follows:

(1) With a permanent steel deck or bulkhead intervening, the separation shall be not less than 25 feet in any direction.

(2) Without a permanent steel deck or bulkhead intervening, the separation shall be not less than 40 feet in any direction.

(c) Class VIII ammunition shall not be stowed within 8 feet of the vessel's side.

(d) When Class VIII ammunition is stowed over tween-deck hatch covers, and military explosives are stowed in a hold below, a single layer of commercial 2-inch lumber is required over the tween-deck hatch cover to form the floor of the magazine. Under these conditions, wooden hatch covers may be considered an integral part of the permanent steel deck and the separation requirements of paragraphs (a) (1) and (b) (1) of this section shall apply.

(e) When Class III or VI ammunition is stowed with Class VIII ammunition the provisions governing the stowage and separations of Class VIII shall apply.

(f) When a portable magazine is used for detonator stowage, such magazine may be stowed in the square of a weather deck hatch.

(g) Upon approval by the Captain of the Port, a portable magazine containing Class VIII ammunition may be stowed in an isolated cabin or steel deck house secure from aircraft machine-gun fire and not subject to casual contact by persons on board the vessel.

§ 146.29–95 *Ventilation of magazines.* A magazine that is not fitted with ventilating ducts to the atmosphere shall be ventilated by omitting the top course of boarding on the sides of the magazine to provide a clear space at least 1 inch and not more than 6 inches below the lower flange or toe of the deck beam within the compartment or hold in which the magazine is constructed. Ventilators of systems feeding directly into a magazine or a hold in which military explosives are stowed shall be covered with a double layer of wire screen of not less than 8 x 8 mesh at the weather end of the cowl. This screen shall be attached securely in place in such a manner as to insure a positive closure.

§ 146.29–97 *Statements of characteristic properties and hazards.* (a) In § 146.29–100 there are statements in italics setting forth certain characteristics and hazards of the substances or articles listed therein. It is not intended, nor shall it be assumed, that these statements set forth all of the characteristic properties or hazards of the particular substance or article and such statements as are shown are informative only.

(b) For the purpose of the regulations in this subpart Army Class XII explosives are treated as follows:

(1) Ammonium nitrate is classified as an oxidizing material.

(2) Dinitrotoluene (DNT) is classified as a high explosive Class IX.

(3) Wet nitrocellulose wet with 20 percent of water is classified as a flammable solid.

(4) Wet nitrocellulose wet with 30 percent of alcohol or flammable solvent is classified as a flammable liquid.

§ 146.29–99 *Explosives admixture chart.* (a) A shaded block at an intersection of horizontal and vertical columns indicates that the particular class of military explosives shown by the heading of the horizontal column to the left must NOT be stowed in the same hold or compartment with the particular class of military explosives indicated by the heading of the vertical column at the top of the chart. For specific provisions of stowage, and items included in each class, refer to § 146.29–100.

(b) In the chart the letters refer to the following notes:

NOTE A: Class II–F may be stowed in the same lower hold or tween-deck hold with Classes II–C, II–E, II–G, and III provided the Class II–F ammunition is bottom stowed and provided further that no other class of explosive or ammunition is stowed in the hold or tank below.

NOTE B: Class II–F may be stowed in the same deep tank, lower hold or tween-deck hold with Classes IV–A, IV–B, V, and VII: *Provided,* That the Class II–F ammunition is bottom stowed: *And provided further,* That no other class of explosives or ammunition is stowed in the hold or tank below.

NOTE C: Propellant charges Class II–B for separate loading artillery shell filled with Class XI–A or XI–B chemical may be stowed together in the same hold or compartment: *Provided,* That the propellant charges are "top stowed", the two items being separated by a type "A" dunnage floor. When so stowed the propellant charges shall not be overstowed with any other cargo.

NOTE D: Class II–J TH incendiary filled ammunition shall be stowed only in a deep tank or lower hold, and in all cases bottom stowed, except that a limited quantity shipment not in excess of 500 lbs. net TH content may be stowed on deck in a special magazine constructed of material as set forth in § 146.29–81 (c) and provided such magazine has an outer insulation of sand at least 3 feet thick on the bottom and not less than 1 foot thick on each side. There shall be only one such stowage per vessel and that stowage shall not be over a hatch in which military explosives or other dangerous articles are stowed.

NOTE E: Class V (unfuzed and no fuzes packed in container) and Class VII (unfuzed and no fuzes packed in container) may be stowed with Class X.

Shall NOT be stowed together
May be stowed together
1 Check note for proper stowage

§ 146.29-100 *Classification, handling and stowage chart.*

Class	Description	I. C. C. marking	Hazard	Stowage	Handling
I Small-arms ammunition w/o explosive bullets, mechanical time fuze w/o booster, and like items.	Small-arms ammunition is fixed ammunition, blank ammunition, shotgun shells designed to be fired from a pistol, revolver, rifle, shotgun or similar weapon held by the hand, or by the hand and shoulder, or machine guns of caliber less than .75, or blank remover cartridges for pilot seat ejectors and canopy removing catapults, and consists of a metallic or paper cartridge case, a primer and a propelling charge, with or without bullet, shot, tear gas material, tracer components or incendiary compositions or mixtures, but not including bullets loaded with high explosives. (For small-arms ammunition with explosive bullets or projectiles see Class IV-B.) Other items of ammunition or component parts of ammunition having similar hazard characteristics to small-arms ammunition are also included in this class. Includes but is not limited to: Bouchon ignition fuze (Grenade ignition fuze). Cartridges Aircraft engine starter. Armor piercing. Armor piercing incendiary. Armor piercing incendiary, tracer. Ball Blank. Cartridge. Catapult, aircraft personnel. Gallery practice. Guard High pressure test. Ignition. Incendiary. Powder actuated tool, shipped separately. Remover, aircraft canopy. Rifle grenade. Slick marker (MK1). Subcaliber. Tear gas. Tracer. Catapult w/cartridge, Aircraft Personnel, M1. Chemical delay pencil. Cordeau detonant. Empty cartridge case, primed. Firing device w/o detonator. Grenades, empty primed Grenade projection adapter and similar inert devices when packed with blank small-arms cartridge. Igniter (MK 6). Igniter, torpedo Mechanical time fuze w/o booster. Powder actuated tool w/cartridge packed in the same outside box. Primacord. Primer, lock combination. Primer, lock electric. Primer, small-arms. Primers, percussion cap (such as used in small-arms ammunition). Remover w/cartridge, aircraft canopy, M1. Safety fuse. Shell, shotgun. Small-arms ammunition w/o explosive bullets. T cutter (MK2). NOTE: The U. S. Army and Navy definitions of small-arms is based on tactical considerations. The Coast Guard definition shall take precedence in all cases involving transportation, handling and stowage as cargo on board merchant vessels which are subject to the regulations in this part.	"Cannon primers". "Combination primers." "Cordeau detonant." "Empty cartridge case, primed." "Explosive rivets." "Grenades, empty, primed." "Percussion caps." "Percussion fuze." "Safety fuse." "Small-arms ammunition." "Small-arms ammunition, tear gas cartridge." "Small-arms primers." "Time fuze (mechanical w/o booster)."	The principal hazard in connection with the stowage of this class of ammunition is its involvement in fire from outside source. Under such conditions the presence of this type of ammunition will not contribute excessively to the fire. Fire may be controlled and extinguished by flooding or spraying with large amounts of water. Missiles from burning ammunition will not be projected with any considerable velocity. Fire fighting personnel should take normal precautions and not expose themselves unnecessarily.	Any compartment or hold ... May be stowed in any hold above, any hold below or a hold adjacent to one in which flammable liquids, flammable solids or oxidizing materials, flammable compressed gases, hazardous articles or combustible liquids are stowed. Provisions of § 146.29-59 (Stowage adjacent to other dangerous article) shall be complied with unless specifically exempted by the above paragraph. May be overstowed.	1. Observe marking on package to be certain that no small-arms ammunition with explosive bullets is included 2. Do not subject packages to rough handling 3. Maximum weight per draft shall not exceed 3,000 lbs. plus 1% 4. Drafts consisting of one or more palletised units shall not exceed 4,000 lbs. plus 10%. 5. Lifts of palletized units shall not be tiered except when using a sling so designed as to prevent the upper tier or tiers from shifting or falling from the draft.

Class	Description	I. C. C. marking	Hazard	Stowage	Handling
II-A Bulk propellants such as: Ballistite, Cordite, FNH, NH, and NC powders.	Smokeless powder for cannon in bulk. Rocket propellants in bulk... Includes but is not limited to: Ballistite (bulk) for any purpose in large grains, sheets, or masses. Cordite. FNH powder. NC powder. NH powder. SPCA powder. SPCG powder.	"Propellant explosives".	Loose powder may be ignited by spark, friction, or intense heat. Powder dust is especially hazardous Burns rapidly with excessive heat. Burning powder in ships hold may explode, producing structural damage and missiles. May become unsafe if subjected to high temperatures If involved in a fire, immediately apply water freely and in quantity.	*Ammunition stowage* Shall not be overstowed with any other kind of cargo except bomb fin assemblies, empty water fillable practice bombs and empty auxiliary gas tanks. When class I ammunition is stowed in the same hold or magazine with this Class the two stowages must be separated by a partition bulkhead or type "A" dunnage floor. For stowage adjacent to other dangerous articles see § 146.29-59. Shall not be loaded at an ammunition loading pier.	1. Handle by hand or mechanical means. 2. Do not drop, drag, tumble, walk or otherwise subject packages to shock. 3. Packages shall be handled in such a manner as to insure that no spark or friction will occur. 4. Observe packages or containers for evidence of sifting or inability to retain contents and reject any showing such signs. 5. In event a package is damaged and powder is spilled, immediately stop operations and sweep up any loose powder. 6. Remove damaged container and residue of powder to a safe location. 7. Gravity roller conveyor shall not be used unless authorized by the Captain of the Port in ports or facilities under his jurisdiction. At other ports or facilities authority for such use may be granted by the Officer in Charge. 8. Cargo handling stevedore gear may be trays, skipboards, pallets, or pie plates provided they are fitted with cargo nets or sideboards. Boxes or trays with fixed or removable sides are authorized. 9. Cargo nets w/o trays, skipboards, pallets, or pie plates are not permitted. 10 The maximum permitted weight per draft when handled by pallet, skipboard, tray, or pieplate fitted with cargo net or sideboards shall not exceed 2,400 lbs. plus 10%. 11 Drafts consisting of one or more palletized units shall not exceed 4,000 lbs. plus 10%. 12. Lifts of palletized units shall not be tiered except when using a sling so designed as to prevent the upper tier or tiers from shifting or falling from the draft.
II-B Smokeless powder propellants, "Made-up bag charges" in outside shipping containers.	Smokeless powder propellant charges (made up charges) in cloth powder bags with igniter attached and with or without its primer and packed in outside metal or fiberpack containers. Includes but is not limited to: Propellant charges for separate loading ammunition such as 4.5", 5"/50, 5"/51, 6"/47, 6"/50, 6"/53, 7", 8", 10", 12", 14", 15", 16", 155-mm, 240mm, 280mm Charge, propelling for rod, earth blast driven.	"Propellant explosives".	Loose powder may be ignited by spark, friction or intense heat. Powder dust is especially hazardous. Burns rapidly with excessive heat Burning powder in ship's hold may explode producing structural damage and missiles. May become unsafe if subjected to high temperatures. If involved in a fire, immediately apply water freely and in quantity.	*Ammunition stowage* Shall not be overstowed with any other kind of cargo except bomb fin assemblies, empty water fillable practice bombs and empty auxiliary gas tanks. When Class I ammunition is stowed in the same hold or magazine with this class the two stowages must be separated by a partition bulkhead or type "A" dunnage floor. Propellant charges, of this class, for separate loading artillery shell, filled with Class XI A or XI B chemical may be stowed together in the same hold or compartment provided the propellant charges are "top-stowed", the two items being separated by a type "A" dunnage floor. When so stowed the propellant charges shall not be overstowed with any other cargo For stowage adjacent to other dangerous articles see section 146 29-59.	1. Handle by hand or mechanical means. 2. Do not drop, drag, tumble, walk or otherwise subject packages to shock. 3. Packages shall be handled in such a manner as to insure that no spark or friction will occur. 4. Observe packages or containers for evidence of sifting or inability to retain contents and reject any showing such signs. 5. In event a package is damaged and powder is spilled, immediately stop operations and sweep up any loose powder. 6. Remove damaged container and residue of powder to a safe location. 7. Gravity roller conveyors shall not be used unless authorized by the Captain of the Port in ports or facilities under his jurisdiction. At other ports or facilities authority for such use may be granted by the Officer in Charge 8. Cargo handling stevedore gear may be trays, skipboards, pallets, or pieplates provided they are fitted with cargo nets or sideboards. Boxes or trays with fixed or removable sides are authorized. 9. Cargo nets w o trays, skipboards, pallets, or pieplates are not permitted. 10 The maximum permitted weight per draft when handled by pallet, skipboard, tray, or pieplate fitted with cargo net or sideboards shall not exceed 2,400 lbs plus 10%. 11 Drafts consisting of one or more palletized units shall not exceed 4,000 lbs. plus 10%. 12 Lifts of palletized units shall not be tiered except when using a sling so designed as to prevent the upper tier or tiers from shifting or falling from the draft.

Class	Description	I. C. C. marking	Hazard	Stowage	Handling
II-C					
Pyrotechnics (fireworks.)	Fireworks are all manufactured articles designed primarily for the purpose of producing visible or audible pyrotechnic effects by combustion or explosion. Includes but is not limited to: Bee-sump. Bomb, target identification. Bouy, electric, igniters. Depth charge markers, day. Firecrackers. Fire starter. Fireworks—bombs. Fireworks, shell. Flares of all types, such as Aircraft Airport Bombardment. Float Hand identification. High altitude parachute. Hooded (7"). Parachute. Parachute trip. Signal. Tow target. Trip Flash cartridge under 72 grains. Flash crackers. Flash reducer (non black powder) Flash sheets (ltd packing, ICC). Float lights. Fuse igniters. Fuse lighters. Igniters, M1 and M2. Illuminating grenades. Instantaneous fuse. Kit, 4.5" aircraft rocket. Metal powders (ltd. packing ICC) Pinwheels. Photographic flash powder (ltd. packing, ICC). Pull wire fuse lighter. Quick match. Railway fusee. Roman candles. Salutes. Signal flare of tracer incendiary composition. Signals: Aircraft float light. Caterpillar. Chameleon. Day, distress aircraft. Distress hand smoke. Double star. Drift, day (bronze powder, chaff). Drift, night (red phosphorous). Emergency identification, smoke, star, submarine. Ground, cluster. Ground, high burst ranging. Ground, parachute smoke. Ground, parachute star. Highway. Miniature practice bomb. Pepper. Pistol, rocket, Comet, shower, smoke, star. Single star. Submarine float. Slow match. Sprinklers. Spotter cartridges (less than 72 grains). Squibs of all kinds. Tear gas pot fuse. Torches. Torpedoes, including Cap, railway, toy, track. Toy caps. Very signal lights. Tracers. Smoke pots, w/o oil. NOTE: Photoflash bombs, see Class X. Flashlight powder in bulk see Class IX-A. Illuminating projectiles, see Class IV-B.	"Common fireworks". "Explosives, class C". "Fireworks". "Fuse lighters." "Safety squibs." "Special fireworks."	The principal hazard is initiation of fire. Some pyrotechnics may ignite spontaneously if exposed to moisture or high temperatures, but under these conditions most types tend to become less sensitive and more difficult to ignite. Aircraft flares and high burst ranging signals involved in a fire may explode. Most other types burn with intense heat and without serious explosion. If involved in a fire immediately apply water freely and in quantity. Steam or fog is also effective but less so than water. Fire fighting personnel should work from behind barriers and not expose themselves unnecessarily.	*Ammunition stowage, deep tank or between deck cargo* Shall be stowed away from heat and in a dry location, protected against moisture and separating the stowage. Shall not be overstowed with any other kind of cargo. May be stowed in the same deep tank, lower hold or between deck hold with Class II-F provided the Class II-F ammunition is bottom stowed and provided that no other class of explosives or ammunition is stowed in the hold that will present a hazard. May be stowed in the same deep tank or lower hold as Class II-J provided the II-J ammunition is bottom stowed. For stowage adjacent to other dangerous articles see § 146.29-50.	1. Handle by hand or mechanical means. 2. Do not drop, drag, tumble, walk or otherwise subject packages to shock. 3. Do not load during excessive rainy weather, unless complete protection against moisture coming in contact with the packages is provided. 4. Do not use chute in loading or unloading. 5. Cargo handling stevedore gear may be trays, skipboards, pallets, or pieplates provided they are fitted with cargo nets or sideboards. Boxes or trays with fixed or removable sides are authorized. 6. Cargo nets without trays, skipboards, pallets, or pieplates are not permitted. 7. Passengers or containers shall be stowed in the position indicated by their marking. 8. The maximum permitted weight per draft when handled by pallet, skipboard, tray, or pieplate fitted with cargo net or sideboards shall not exceed 2,400 lbs. plus 10%. 9. Drafts consisting of one or more palletized units shall not exceed 4,000 lbs. plus 10%. 10. Lifts of palletized units shall not be tiered except when using a sling so designed as to prevent the upper tier or tiers from shifting or falling from the draft.

Class	Description	I. C. C. marking	Hazard	Stowage	Handling
II-D					
Chemical ammunition, WP or PWP filled (solid).	All chemical ammunition, including fixed, semi-fixed and separate loading, filled with WP or PWP (white phosphorus) when assembled or packed with or w/o their ignition elements, bursting charges, fuzes or propellants. WP or PWP shipped in bulk in drums, barrels, or other authorized shipping containers shall be classed as a flammable solid. WP or PWP when shipped in authorized ICC specification containers or Chemical Corps specification containers of integrity equal to ICC containers containing projectiles, bombs, and rocket heads, w/o ignition elements, bursting charges or fuzes, may be handled and stowed either as a flammable solid or as chemical ammunition Class II-D. Includes but is not limited to: Bomb, smoke, aircraft, WP or PWP filled. British Calling Cards. Fire leaves. Grenades, hand, WP or PWP filled. Grenades, rifle, WP or PWP filled. Igniters, phosphorus filled. Projectiles (shells) WP or PWP filled packed w/ or w/o propellants. Rocket Heads, WP or PWP filled. Rockets, assembled w/motors, WP or PWP filled. NOTE: The U. S. Army and Navy, when shipping ammunition filled with white phosphorus mark such ammunition and the containers thereof with the word "smoke" and the symbol WP or PWP. The ammunition is also marked with one yellow band.	"Ammunition for cannon with explosive projectile." "Explosive projectile." "Explosive bomb." "Ammunition for cannon with smoke projectile." "Grenades, hand, smoke."	The principal characteristic of white phosphorus is that of spontaneously igniting upon exposure to air, burning with an intensely hot flame, and giving off large volumes of white smoke. The fumes are highly discomforting. Burning phosphorus gives off phosphorus oxide which is toxic upon sustained exposure thereto. Phosphorus is intensely poisonous when taken internally. It becomes liquid at 111 °F. Leakage which sometimes occurs, usually gives warning by smoke. Ammunition fitted with fuzes and boosters, if involved in a fire will usually explode with moderate violence thus tending to spread the fire rapidly. Apply water freely and in quantity to control spread of fire. Steam or fog is also effective but less so than water. It is necessary to keep the loose WP or PWP completely covered with water to prevent reignition. Organic material contaminated with WP or PWP such as dunnage in the holds of vessels, must be removed and disposed of by burning. Otherwise after drying out, these substances are likely to reignite. Rockets, WP filled, assembled with motor and involved in a fire will present an additional hazard due to the propulsive nature of the rocket. Loose phosphorus in contact with skin tissue will adhere causing painful burns and continue to consume skin tissue until removed. A solution of copper sulphate is effective in counteracting this action. Use rubber protective gloves, boots, aprons, and gas masks to provide effective protection.	*Ammunition stowage, chemical ammunition stowage, or deep tank stowage* It is important to stow in locations not subject to temperatures above 100 °F. When shipments of Army ammunition cannot be so stowed the following shall be complied with: WP or PWP filled rifle grenades or rockets shall be stowed nose down. All other WP or PWP filled items of ammunition shall be stowed in a nose up position. The position of the nose end of the item of ammunition is marked on the outside package or container. Drums or other authorized ICC or Chemical Corps specification containers filled with WP or PWP may be stowed in the same hold or compartment with chemical ammunition Class II-D. For stowage adjacent to other dangerous articles see § 146.29-50. When given chemical ammunition stowage, see § 146.29-85 for additional requirements.	1. Handle by hand or mechanical means. 2. Do not drop, drag, tumble, walk or otherwise subject packages to shock. 3. Do not use chute in loading or unloading. 4. Observe packages or projectiles (shells) for leakage and reject any showing such signs. 5. Packages or containers shall be stowed in the position indicated by their marking. 6. Cargo handling stevedore gear may be trays, skipboards, pallets, or pieplates provided they are fitted with cargo nets or sideboards. Boxes or trays with fixed or removable sides are authorized. 7. Cargo nets w/o trays, skipboards, pallets, or pieplates are not permitted. 8. The maximum permitted weight per draft when handled by pallet, skipboard, tray, or pieplate fitted with cargo net or sideboards shall not exceed 2,400 lbs. plus 10%. 9. Drafts consisting of one or more palletized units shall not exceed 4,000 lbs. plus 10%. 10. Lifts of palletized units shall not be tiered except when using a sling so designed as to prevent the upper tier or tiers from shifting or falling from the draft. 11. Wire rope slings are permitted when handling unboxed bombs or containers filled with WP or PWP. (See Table Limiting Loads, Class X.) 12. Drums of WP or PWP shall not be handled by attaching hooks to the chime of the drums.

Class	Description	I C C marking	Hazard	Stowage	Handling
II-E					
Chemical ammunition. HC fuzed (solid).	All chemical ammunition loading fixed, semi-fixed and separate loading fuzed with HC (Hexachlorethane-zinc) and pyrotechnic when assembled or packed with other explosive components, bursting charges, propelling charges or propellants. HC munitions shipped in drums, barrels or other authorized shipping containers shall be classified as a flammable solid. HC munitions when shipped in authorized ICC specification containers or Chemical Corps specification containers of integrity equal to ICC containers (including bombs and base ejection cartridges without propelling charges) may be handled and stowed either as an oxidizing material or as chemical ammunition, Class II-E. Includes but is not limited to: Bombs, smoke, HC filled. Bombs, floating smoke, HC filled. Bombs, smoke, identification, HC filled. Fuze, smoke, HC filled. Grenades, hand, HC filled. Grenades, signal, HC filled. Grenades, colored smoke, HC filled. Pots, smoke, HC filled. Shells, artillery, smoke, HC filled. Shells, mortar, smoke, HC filled. NOTE: The U. S. Army and Navy when shipping ammunition filled with HC smoke or colored smoke mixtures will segregate the HC smoke or colored smoke unit mark for identification with one yellow band.	"Ammunition, fuzed with explosive projectile." "Fuze, incendiary bomb." "Fuze, explosive projectile." "Grenade, hand, smoke."	HC (hexachloroethane-zinc) mixtures are relatively insensitive to ignition by friction, impact or electrostatic discharge. However, when ignited by the burning fuze of the projectile, the burning mixture will produce large volumes of dense smoke. Containers of HC may be ruptured by the explosive charge of the projectile. Water can be used freely to control a fire in HC. The use of Foam, CO_2 or dry chemicals is not necessary. Personnel handling fire in burning HC ammunition should wear respirators when stowed in the hold of a vessel, should avoid breathing dense smoke if not wearing respirator and should work in well ventilated spaces.	*Ammunition stowage, chemical ammunition stowage, or deep tank stowage* It is important to stow away from heat and temperature above 120° F. and from moisture. May be stowed in the same deep tank, lower hold or between deck hold with Class II-F ammunition provided the Class II-F ammunition is bottom stowed or provided further that no other type of explosives or ammunition is stowed in the hold or tank below. Dumps or other authorized HC or Chemical Corps storage facilities may be used for the storage of HC and Class II-F ammunition in the same hold or compartment provided a bulkhead separates the two types. For stowage adjacent to other dangerous articles, see § 146.29-50. When given chemical ammunition stowage, see § 146.29-85 for additional requirements.	1. Handle by hand or mechanical means. 2. Do not drop, drag, tumble, walk or otherwise subject packages to shock. 3. Do not use chute in loading or unloading. 4. Observe packages, containers or bombs for failure or inability to retain contents and reject any showing such signs. 5. Packages, or containers shall be stowed in the position indicated by their marking. 6. Cargo handling stevedore gear may be trays, skidboards, pallets, or pie plates provided they are fitted with nets or sideboards. Boxes or trays with fixed or removable sides are authorized. 7. Cargo nets w/o trays, skidboards, pallets, or pie plates are not permitted. 8. The maximum permitted weight per draft when handled by pallet, skidboard, tray or pie plate fitted with cargo net or sideboards shall not exceed 2,400 lbs. plus 10%. 9. Drafts consisting of one or more palletized units shall not exceed 4,000 lbs. plus 10%. 10. Lifts of palletized units shall not be tiered except when using a sling so designed as to prevent the upper tier or tiers from shifting or falling from the draft. 11. Wire rope slings are permitted when handling unboxed bombs or containers filled with HC. (See Table of Limiting Loads, Class X.) 12. Drums of HC shall not be handled by attaching hooks to the chime of the drums.
II-F					
Chemical ammunition. FS or FM smoke filled (liquid).	All chemical ammunition including fixed, semi-fixed and separate loading fixed with smoke FS or FM, or titanium tetrachloride or FM titanium tetrachloride when assembled or packed with or without bursting charges, fuzes or propellants. FS or FM shipped in drums, barrels, cylinders or other authorized containers shall be classified as a corrosive liquid. FS or FM when shipped in authorized ICC specification containers or Chemical Corps specification containers (integrity equal to ICC containers including bombs w/o fuzes, bursting charges or fuzes) may be handled and stowed either as corrosive liquid or as a chemical ammunition Class II-F. Includes but is not limited to: Grenades, frangible, smoke FS or FM filled. Grenades, smoke, FS or FM filled. Rockets, FS or FM filled. Shell, artillery, FS or FM filled. Shell, mortar, FS or FM filled. Spotting charges, FS filled. NOTE: The U. S. Army and Navy when shipping ammunition filled with FS or FM smoke mixtures with smoke unit and the containers thereof with the word "smoke" and the symbol FS or FM. The ammunition is also marked with one yellow band.	"Ammunition for cannon with smoke projectile." "Explosive projectile." "Grenade, hand, smoke."	FS (sulfur trioxide-in chlorsulfonic acid and FM (titanium tetrachloride) are toxic when fume readily when hot. They react violently with small amounts of water and form a dense white smoke upon release to the atmosphere. FS is highly corrosive both as a liquid and as a smoke. FM is corrosive in liquid form, but its smoke is very irritating. Leakage of FS or FM should be washed off immediately with large volumes of water. Personnel working in a confined space where high concentrations of FS or FM smoke exists should use respirator protective gloves, boots and goggles for effective protection.	*Ammunition stowage, chemical ammunition stowage, deep tank stowage* It is important to stow away from heat and temperature above 120° F. May be stowed in the same deep tank, lower hold or between deck hold with Class II-F, Class III and III-F ammunition. However, stowage is bottom stowed and provided further that no other type of explosives or ammunition is stowed in the hold or tank below. Dumps or other authorized HC or Chemical Corps specification magazines may be used for the storage of FS or FM ammunition in the same hold or compartment with Class II-F ammunition provided a bulkhead separates the two types. Shall not be stowed over other types of ammunition. For stowage with 10 other dangerous articles, see § 146.29-50. When given chemical ammunition stowage, see § 146.29-85 for additional requirements.	1. Handle by hand or mechanical means. 2. Do not drop, drag, tumble, walk or otherwise subject packages to shock. 3. Observe packages or projectiles (shells) for leakage and reject any showing such signs. 4. Containers or projectiles shall be stowed in the position indicated by their marking. 5. Cargo handling stevedore gear may be trays, skidboards, pallets, or pie plates provided they are fitted with nets or sideboards. Boxes or trays with fixed or removable sides are authorized. 6. Cargo nets w/o trays, skidboards, pallets, or pie plates are not permitted. 7. The maximum permitted weight per draft when handled by pallet, skidboard, tray or pie plate fitted with cargo nets or sideboards shall not exceed 2,400 lbs. plus 10%. 8. Drafts consisting of one or more palletized units shall not exceed 4,000 lbs. plus 10%. 9. Lifts of palletized units shall not be tiered except when using a sling so designed as to prevent the upper tier or tiers from shifting or falling from the draft. 10. Drums of FS or FM shall not be handled by attaching hooks to the chime of the drums.
II-G					
Chemical ammunition. Incendiary composition, IM, PT or NP filled (oil gel).	Chemical ammunition filled with IM, PT or NP (thickened fuels) when assembled or packed with or w/o ignition elements, bursting charges or fuzes. IM, PT or NP shipped in drums, barrels or other authorized shipping containers shall be classified as a flammable solid. IM, PT or NP when shipped in authorized ICC specification containers or Chemical Corps specification containers of integrity equal to ICC containers (including bombs w/o ignition elements, bursting charges or fuzes) may be handled and stowed either as a flammable solid or as chemical ammunition Class II-G. Includes but is not limited to: Bombs. Bombs, cluster incendiary. Frangible grenades. NOTE: The U. S. Army and Navy when shipping ammunition filled with incendiary compositions mark such ammunition or containers thereof with the Chemical Corps symbol of the filler and one purple band.	"Explosive bomb". "Grenade, hand." "Incendiary."	The principal hazard of IM, PT or NP filled items is involvement in a fire. They burn rapidly with intense heat. Extinguishment of fires is best accomplished by means of water fog. Foam or a foam steam (mechanical or chemical) is likewise effective. CO_2 should not be used unless the fire is small and in its incipient stage. In holds of a vessel large volumes of water are recommended as a cooling agent provided such may be employed without "floating off" burning gel. The vapors from heated napalm are toxic and rescue breathing apparatus should be worn while working in noticeable concentrations. Clusters of incendiary bombs in this category may contain a certain percentage of bombs having a high explosive charge capable of causing fragments which would be dangerous to fire fighting personnel. Incendiaries of this type may contain ignition components of WP adding an additional hazard.	*Ammunition stowage, chemical ammunition stowage, or deep tank stowage* Shall not be stowed within 10 feet of a heat bulkhead. May be stowed in the same deep tank, lower hold or between deck hold with Class II-F ammunition is bottom stowed in provided further that no other type of explosives or ammunition is stowed in the hold or tank below. May be stowed in a deep tank or lower hold with Class II-J incendiary ammunition provided the Class II-J is bottom stowed. For stowage adjacent to other dangerous articles, see § 146.-29-50. When given chemical ammunition stowage, see § 146.29-85 for additional requirements.	1. Handle by hand or mechanical means. 2. Do not drop, drag, tumble, walk or otherwise subject packages to shock. 3. Do not use chute in loading or unloading. 4. Observe packages, containers or bombs for failure or inability to retain contents and reject any showing such signs. 5. Packages, or containers shall be stowed in the position indicated by their marking. 6. Cargo handling stevedore gear may be trays, skidboards, pallets, or pie plates provided they are fitted with nets or sideboards. Boxes or trays with fixed or removable sides are authorized. 7. Cargo nets w/o trays, skidboards, pallets, or pie plates are not permitted. 8. The maximum permitted weight per draft when handled by pallet, skidboard, tray or pie plate fitted with cargo net or sideboards shall not exceed 2,400 lbs. plus 10%. 9. Drafts consisting of one or more palletized units shall not exceed 4,000 lbs. plus 10%. 10. Lifts of palletized units shall not be tiered except when using a sling so designed as to prevent the upper tier or tiers from shifting or falling from the draft. 11. Wire rope slings are permitted when handling unboxed bombs or containers filled with IM, PT or NP. (See Table of Limiting Loads, Class X.) 12. Drums of IM, PT, or NP shall not be handled by attaching hooks to the chime of the drums.
II-H					
Chemical ammunition. Water activated.	Chemical ammunition filled with sodium, calcium carbide, calcium phosphide, lithium hydride, with or w/o explosive components. Includes but is not limited to: Beacons, NEA. Can, false target. Depth charge markers, night. Grenades, sodium filled. Igniters, sodium filled. Pots, torpedo torch. Shell, false target.	There are no provisions in the current ICC regulations for the marking of this class of ammunition	On contact with moisture, metallic sodium or lithium hydride will liberate large quantities of hydrogen gas thus producing an explosive hazard. The reaction of metallic sodium with water is sufficiently violent to cause ignition of the liberated hydrogen. Fumes from burning sodium are caustic. On contact with moisture, calcium carbide or calcium phosphide will liberate phosphine and acetylene gases. The phosphine is toxic but extremely unstable, ignites spontaneously and at the same time ignites the acetylene gas. Fires involving these items cannot be extinguished by water, carbon dioxide or foam. Smothering with an inert substance such as dry sand or dry soda ash offers effective control. Jettisoning should not be accomplished in a port or roadstead as the floats will continue to burn until filler is consumed jeopardizing other vessels and piers.	*Special stowage* On deck in a portable magazine, in a deck house or other location readily accessible for jettisoning. Stowage shall be waterproof. Shall not be stowed with any other class of military explosives or any other dangerous articles.	1. Handle by hand or mechanical means. 2. Do not drop, drag, tumble, walk or otherwise subject packages to shock. 3. Do not use chute in loading or unloading. 4. Do not load during excessive rainy weather unless complete protection against moisture coming in contact with the package is provided. 5. Observe packages or containers for evidence of sifting or inability to retain contents and reject any showing such signs. 6. In event a package is damaged and powder is spilled, immediately stop operations and sweep up any loose powder. 7. Remove damaged container and residue of powder to a safe location. 8. Cargo handling stevedore gear may be trays, skidboards, pallets or pie plates provided they are fitted with cargo nets or sideboards. Boxes or trays with fixed or removable sides are authorized. 9. Cargo nets w/o trays, skidboards, pallets or pie plates are not permitted. 10. The maximum permitted weight per draft when handled by pallet, skidboard, tray or pie plate fitted with cargo net or sideboards shall not exceed 2,400 lbs. plus 10%. 11. Drafts consisting of one or more palletized units shall not exceed 4,000 lbs. plus 10%. 12. Lifts of palletized units shall not be tiered except when using a sling so designed as to prevent the upper tier or tiers from shifting or falling from the draft.

Class	Description	I C C marking	Hazard	Stowage	Handling
II-J					
Chemical ammunition. TH or incendiary composition filled souds.	All chemical ammunition filled with incendiary composition TH (thermate, thermite or thermate magnesium), with or w/o fuze or expelling element. Includes but is not limited to: Bombs, incendiary cluster. Grenades, thermate. Incendiary safe destroyers. Thermate burning charges. Thermate charges under water. Thermite igniters. Thermite units 10 lbs. NOTE: The U. S. Army and Navy when shipping ammunition filled with these incendiary compositions mark such ammunition or containers therewith the Chemical Corps symbol of the filler and with one purple band.	"Explosive bomb" "Grenade, hand incendiary."	The principal hazard of TH filled items is involvement in a fire. They burn rapidly with intense heat and usually form large quantities of molten iron. The presence of a small explosive charge in some TH items forms an additional hazard in case of a fire. Carbon dioxide and carbon tetrachloride extinguishers should not be used to combat fires involving TH because the reaction of carbon tetrachloride with molten metal produces toxic gases and that of carbon dioxide on magnesium may produce an explosion. In the hold of a vessel large volumes of water are recommended as an extinguishing agent. Fire fighters should work from behind barriers when possible.	*Deep tank stowage or ammunition stowage ship* Shall be stowed only in a deep tank or lower hold and in a cases bottom stowed. For stowage and segregation with other dangerous articles see § 146.29-61. A limited quantity shipment not in excess of 300 lbs. net TH content may be stowed on deck in a special magazine constructed of material as set forth in § 146.29-61 (c) and provided such magazine has an outer insulation of sand at least three feet thick on the bottom and not less than one foot thick on each side. There shall be only one such stowage per vessel and that stowage shall not be over a hatch or which military explosives or other dangerous articles are stowed.	1. Handle by hand or mechanical means. 2. Do not drop, drag, tumble, walk or otherwise subject packages to shock. 3. Do not use cleats in loading or unloading. 4. Observe packages or containers for existence of failure or inability to retain contents and reject any showing such signs. 5. Cargo handling stevedore gear may be trays, skipboards, pallets or pieplates provided they are fitted with cargo nets or sideboards. Boxes or trays with fixed or removable sides are authorized. 6. Cargo nets w/o trays, skipboards, pallets or pieplates are not permitted. 7. The maximum permitted weight per draft when handled by pallet, skipboard, tray or pieplate, fitted with cargo net or sideboards shall not exceed 1,800 lbs. plus 10%. 8. Drafts consisting of one or more palletized units shall not exceed 4,000 lbs. plus 10%. 9. Lifts of palletized units shall not be tiered except when using a sling so designed as to prevent the upper tier or tiers from shifting or falling from the draft. 10. Wire rope slings are permitted when handling unboxed bombs or containers filled with TH. (See table of Limiting Loads, Class X.)
III					
Fuzes, PD w/o boosters, fuzes, AT mine, non-chemical, w/o boosters, fuzes, bomb tail, w/o boosters; fuzes, tracer, primer detonators, primers, etc.	Point fuzes w/o boosters for projectiles and rockets; anti-tank mine fuzes (non-chemical) w/o booster, bomb tail fuzes w/o boosters, primer detonators, cannon primers other than lock primers, when packed in separate shipping containers. Includes but is not limited to: Case combination primer. Case electric primer. Case percussion ignition primer. Case percussion primer. Combination electric and percussion primer. Fuze, anti-tank, mine (non-chemical), w/o booster. Fuze, base percussion. Fuze, bomb tail, w/o booster. Fuze, PD w/o booster. Fuze, percussion. Fuze, M1 SQ w/o booster. Fuze, tracer. Fuze, T-SQ w/o booster. Igniter, Jato, such as M151. Magazine, extension primers. Percuss on primers other than lock. Primer detonators.	"Combination fuzes" "Combination primers." "Cannon primers." "Detonating fuzes." "Percussion fuzes." "Tracer fuzes."	The amount of explosives in single items of this class varies from 90 to 900 grains. It is likely they will explode progressively. Structural damage caused by the pressures generated would probably be limited to the immediate vicinity. Missiles are light and usually fall within 600 feet. These types of ammunition are loaded with explosives that are sensitive to shock and friction. Shock and fire are the principal hazards to this type of ammunition. If involved in a fire, fire fighting personnel should take normal precautions and not expose themselves unnecessarily. Fire may be controlled and extinguished by flooding or spraying with large amounts of water.	*Ammunition stowage, special stowage, or portable magazine which may be stowed in a hold or on deck* This class of ammunition shall not be overstowed with any other cargo or ammunition except Classes VI and VIII. May be stowed in the same lower hold or tween-deck hold with Class II F provided the Class II F is bottom stowed and provided further that no other class of military explosives is stowed in the hold or the deck directly below. For stowage adjacent to other dangerous articles see § 146.29-59.	1. Handle by hand or mechanical means. 2. Do not drop, drag, tumble, walk or otherwise subject packages to shock. 3. Conveyor or conveyors not authorized. 4. Do not use cleats in loading or unloading. 5. Trays with sideboards shall be used when loading by mechanical means. 6. Packages shall not be stacked on a tray to a height above its sideboards. 7. Trays shall not be stacked unnecessarily over open hatches or holds containing military explosives or other dangerous cargo. 8. Trays shall be hoisted and lowered carefully and lowered without jar or shock on a mattress or other shock absorbing material. 9. Packages shall be stowed in the position indicated by their markings. 10. The maximum permitted weight per draft when handled by tray with sideboards shall not exceed 2,400 lbs. plus 10%. 11. Drafts consisting of one or more palletized units shall not exceed 4,000 lbs. plus 10%. 12. Lifts of palletized units shall not be tiered except when using a sling so designed as to prevent the upper tiers from shifting or falling from the draft. 13. A portable magazine in which this class of ammunition is stowed and located on board a vessel as a unit load shall not exceed 4,000 lbs. plus 10%.

Class	Description	I C C marking	Hazard	Stowage	Handling
IV-A					
Fixed ammunition without explosive projectile (shell) and like items.	Fixed ammunition with solid projectile, blind loaded projectile, empty projectile or without projectile (the explosive components consisting of the primer and powder charges in a cartridge case; cartridge cases primed and containing powder charges, practice grenades, practice and target rockets. Includes but is not limited to: Ammunition for cannon: Blank. Blind loaded and plugged (BL & P). Blind loaded with tracer (BL & T). Empty projectile. Solid projectile. Without projectile. Ammunition, armor piercing, shot (w/o HE). Cartridges, blank, saluting. Cartridges, semifixed for Navy type guns .5", 38, 5", 51, 5", 54, 6", 47. Cartridges, semi-fixed 4.7" (Army w/o projectile). Charges: Catapult (other than aircraft personnel). "K" gun. Spotting (black powder) M1A1, M3, M4. Torpedo impulse. "Y" gun. Grenade, hand, practice. Rocket—target. Rocket motors (w/o rocket heads). Rocket, packed with but not assembled to inert rocket heads. Rocket, practice, assembled with inert head.	"Ammunition for cannon with empty projectile." "Ammunition for cannon with sand-loaded projectile." "Ammunition for cannon with solid projectile." "Ammunition for cannon w/o projectile."	The principal hazard associated with this class of ammunition is its involvement in a fire. Pressures which would cause serious structural damage are not usually generated. If involved in a fire, it is possible the fire may be controlled or extinguished by flooding or spraying with large amounts of water. Fire-fighting personnel should take appropriate precautions and not expose themselves.	*Ammunition stowage* Boxed and crated ammunition may be overstowed with nondangerous cargo and permitted explosives. Fixed ammunition may be overstowed with bomb fin assemblies, empty water-fillable practice bombs and empty auxiliary gas tanks. May be stowed in the same deep tank, lower hold or tween-deck hold with Class II F ammunition provided the Class II F is bottom stowed and provided further that no other class of military explosives is stowed in the hold or the tank below. May be stowed in the same deep tank or lower hold with Class II F ammunition provided the Class II J is bottom stowed. For stowage adjacent to other dangerous articles see § 146.29-59.	1. Handle by hand or mechanical means. 2. Do not drop, drag, tumble, walk or otherwise subject packages to shock. 3. Cargo handling stevedore gear may be trays, skipboards, pallets or pieplates provided they are fitted with cargo nets or sideboards. Boxes or trays with fixed or removable sides are authorized. 4. Cargo nets without trays, skipboards, pallets or pieplates are not authorized. 5. The maximum permitted weight per draft when handled by pallet, skipboard, tray or pieplate fitted with cargo net or sideboards shall not exceed 2,400 lbs. plus 10%. 6. Drafts consisting of one or more palletized units shall not exceed 4,000 lbs. plus 10%. 7. Lifts of palletized units shall not be tiered except when using a sling so designed as to prevent the upper tier or tiers from shifting or falling from the draft.
IV-B					
Fixed and semifixed ammunition with explosive loaded projectile or shell.	Fixed and semifixed ammunition, packed as complete rounds (including artillery, mortar and gun ammunition, grenades and rockets, when assembled with explosive projectile or bursting charge; Small-arms ammunition with explosive bullets or projectiles. Includes but is not limited to: Anti-personnel mine, M2 and M3. Artillery ammunition of calibers 0.75" to 5" inclusive, with explosive, illuminating or incendiary projectiles. Grenades, hand, defensive. Grenades, hand, defensive, TNT filled, fuzed or unfuzed. Grenades, hand, fragmentation. Grenades, rifle, AT. Grenades, rifle, HE filled. Gun ammunition of calibers 0.75" to 5" inclusive, with explosive, illuminating or incendiary projectiles. Mortar ammunition (explosive or illuminating). Rockets 2.36" A T (Bazookas). Rockets, with explosive or illuminating heads packed in the same container with, but not assembled to motors. Rockets, 3.5" HEAT. Rockets, 2.75" FFAR, not assembled to but packed with rocket heads (explosive). Small-arms ammunition with explosive bullets.	"Ammunition for cannon with explosive projectiles." "Ammunition for cannon with incendiary projectile." "Ammunition for small arms with explosive bullets." "Ammunition for small arms with explosive projectiles." "Hand grenades." "Rifle grenades." "Rocket ammunition with explosive projectiles." "Rocket ammunition with illuminating projectiles."	Articles in this class present a severe fire hazard and usually explode progressively, only a few boxes at a time, mass explosions of the total room is being of a very low order. Pressure which would cause serious structural damage is not usually generated. Most missiles would fall within 600 feet. If involved in a fire it is possible the fire may be controlled or extinguished by flooding or spraying with large amounts of water. Fire fighting personnel should take appropriate precautions and not expose themselves unnecessarily.	*Ammunition stowage* Boxed and crated ammunition may be overstowed with nondangerous cargo. Fixed ammunition may be overstowed with bomb fin assemblies, empty water fillable practice bombs and empty auxiliary gas tanks. May be stowed in the same deep tank, lower hold or tween-deck hold with Class II F ammunition provided the Class II F is bottom stowed and provided further that no other class of military explosives is stowed in the hold or tank below. May be stowed in the same deep tank or lower hold with Class II J ammunition provided the Class II J is bottom stowed. For stowage adjacent to other dangerous articles see § 146.29-59.	1. Handle by hand or mechanical means. 2. Do not drop, drag, tumble, walk or otherwise subject packages to shock. 3. Cargo handling stevedore gear may be trays, skipboards, pallets or pieplates, provided they are fitted with cargo nets or sideboards. Boxes or trays with fixed or removable sides are authorized. 4. Cargo nets without trays, skipboards, pallets or pieplates are not authorized. 5. The maximum permitted weight per draft when handled by pallet, skipboard, tray or pieplate fitted with cargo net or sideboards shall not exceed 2,400 lbs. plus 10%. 6. Drafts consisting of one or more palletized units shall not exceed 4,000 lbs. plus 10%. 7. Lifts of palletized units shall not be tiered except when using a sling so designed as to prevent the upper tier or tiers from shifting or falling from the draft.

Class	Description	I. C. C. marking	Hazard	Stowage	Handling
V					
Separate loading shells with H. E. explosive "D".	Separate loading shell of all calibers filled with explosive "D", fuzed or unfuzed, and shell filled with explosive "D", fuzed or unfuzed, not assembled to or packed with cartridge cases. Explosive "D" is used as a bursting charge for all projectiles which must withstand severe stresses and shocks before detonating, such as armor-piercing projectiles. Includes but is not limited to: Armor piercing shells. Deck piercing shells. NOTE: In general, Classes V and VII types of projectiles will be shipped in accordance with the following basic rules: Point fuzed shell with false ogives will be crated. Point fuzed shell without false ogives will have grommets and eyebolt lifting plugs. Base fuzed shell with relatively fragile parts such as false ogives, steel caps and windshields will be crated. Base fuzed shell without false ogives will not be crated but will have grommets.	"Explosive projectile"	If involved in a fire will very likely detonate as a result of exposure to heat. These shells usually explode one at a time and in projectile all cases with low order explosion. There is no sympathetic detonation mass explosion will not occur. Most missiles will fall within 1,500 feet.	*Ammunition stowage* This ammunition, boxed, unboxed, or palletized units thereof may be overstowed. Care must be taken not to damage rotating bands of shells that are not in containers. May be stowed in the same deep tank, lower hold or tween deck hold with Class II-F ammunition provided the Class II-F is bottom stowed and provided further that no other class of military explosives are used in the same hold below or in the tank below. Class V when palletized and no fuzes packed in cartons may be stowed with Class X. For stowage adjacent to other dangerous articles see § 146.29-59.	1. Handle by hand or mechanical means. 2. Do not drop, drag, tumble, walk or otherwise subject package to shock. 3. Do not use chute in loading or unloading. 4. Bare projectiles (shells) shall not be rolled except under hand control and on a level surface without appreciable incline. 5. Protect rotating bands from damage. Avoid injury to or removal of paint or grease from bourrelet. 6. When handling items packed in outside containers, cargo handling stevedore gear may be trays, skipboards, pallets, or pieplates, provided they are fitted with cargo nets or sideboards. Boxes or trays with removable sides are authorized. 7. Shell lunge or lifting stud and eye are authorized. Wire slings of a design approved by the Captain of the Port may be used. 8. Cargo nets without trays, skipboards, pallets, or pieplates are not permitted. 9. The maximum permitted weight per draft when handled by trays, skipboards, pallets, or pieplates fitted with cargo nets or sideboards shall not exceed 2,400 lbs. plus 10%. 10. Single shells weighing in excess of 2,201 lbs. must be loaded or unloaded one at a time. 11. Drafts consisting of one or more palletized units shall not exceed 4,000 lbs. plus 10%. 12. Lifts of palletized units shall not be tiered except when using a sling so designed as to prevent the upper tier or tiers from shifting or falling from the draft.
VI					
BD fuzes ..... Bomb fuzes with boosters. PD fuzes with boosters. Rocket fuzes with booster.	Base detonating fuzes (for all calibers) and PD fuzes with boosters (bomb and rocket fuzes with boosters, auxiliary booster assembled to or packed with the fuze, depth charge pistol with detonator and with or without booster assembled to or packed with pistol. (For boosters, auxiliary boosters, bursters, etc., having no initiating or priming elements and packed independently, see Class X.) Includes but is not limited to: Adapter booster, with detonator. Auxiliary booster, with detonator. Booster, with detonator. Fuze: Auxiliary detonating. Base detonating (for all calibers). Bomb nose. Bomb tail with booster. Hydrostatic bomb. Hydrostatic bomb tail. Point detonating with booster. Rocket. VT with or without booster. Depth charge pistol, with detonator and with or without booster. Mine firing mechanism, C-1.	"Detonating fuzes"	The amount of explosives in single items does not usually exceed one-half pound. It is likely they would explode progressively. Structural damage caused by the pressure generated would probably be limited to the immediate vicinity. Missiles are light and usually fail with low velocity. These types of ammunition are loaded with explosives that are sensitive to shock and heat. If involved in a fire, it is possible the fire may be controlled or extinguished by flooding or spraying with large amounts of water. Fire fighting personnel shall take appropriate precautions and not expose themselves unnecessarily.	*Ammunition stowage, special stowage or portable magazine, which may be stowed in a hold or on deck* This class of ammunition shall not be overstowed with any other cargo or military explosives except Classes III and VIII. For stowage adjacent to other dangerous articles see § 146.29-59.	1. Handle by hand or mechanical means. 2. Do not drop, drag, tumble, walk or otherwise subject package to shock. 3. Gravity roller conveyors not authorized. 4. Do not use chute in loading or unloading. 5. Trays with sideboards shall be used when loading by mechanical means. 6. Packages shall not be stacked on a tray to a height above its sideboards. 7. Trays shall not be swung unnecessarily over open hatches or holds containing military explosives or other dangerous articles. 8. Trays shall be hoisted and lowered carefully and deposited without undue shock on a mattress or other shock-absorbing material. 9. Packages shall be stowed in the position indicated by their markings. 10. The maximum permitted weight per draft when handled by trays with sideboards shall not exceed 2,400 lbs. plus 10%. 11. Drafts consisting of one or more palletized units shall not exceed 4,000 lbs. plus 10%. 12. Lifts of palletized units shall not be tiered except when using a sling so designed as to prevent the upper tier or tiers from shifting or falling from the draft. 13. A portable magazine in which this class of ammunition is stowed and hoisted on board a vessel as a unit load shall not exceed 4,400 lbs. plus 10%.
VII					
Separate loading shells with H. E. other than explosive "D".	Separate loading shell of all calibers, fuzed or unfuzed, except those loaded with explosive "D", and loaded shell except those loaded with explosive "D" fuzed or unfuzed, not assembled to or packed with cartridge cases; fuzed cluster fragmentation bomb, rocket heads fuzed or unfuzed, unless more than 200 lbs. gross weight, anti-tank mines, packed with fuzes in same container or box. Includes but is not limited to: Anti-tank mines packed with fuzes in same container or box. Cluster fragmentation bomb (with individual bombs fuzed but without cluster fuzed). High explosive anti-tank shell. High explosive shell. Rocket heads fuzed or unfuzed and under 200 lbs. not assembled to or shipped with rocket motors. Wafers of fragmentation bombs (with individual bombs fuzed). NOTE: In general, Classes V and VII types of projectiles will be shipped in accordance with the following basic rules: Point fuzed shell with false ogives will be crated. Point fuzed shell without false ogives will have grommets and eyebolt lifting plugs. Base fuzed shell with relatively fragile parts such as false ogives, steel caps, and windshields will be crated. Base fuzed shells without false ogives will not be crated but will have grommets to protect rotating bands.	"Explosive bomb"... "Explosive mine." "Explosive projectile."	The principal hazard in transportation will be involvement in fire from sources other than the ammunition itself. Shells or bombs in this class may explode progressively but very rarely en masse. Most missiles will fall within 1,500 feet and detonation will result in severe structural damage increasing in severity and range in relation to the amount of high explosives involved.	*Ammunition stowage* This ammunition, boxed, unboxed, or palletized units thereof, may be overstowed. Care must be taken not to damage rotating bands of unboxed shells. This class of ammunition when unfuzed and no fuzes packed in container may be stowed with Class X. For stowage adjacent to other dangerous articles see § 146.29-59.	1. Handle by hand or mechanical means. 2. Do not drop, drag, tumble, walk or otherwise subject packages to shock. 3. Do not use chute in loading or unloading. 4. Bare projectiles (shells) shall not be rolled except under hand control and on a level surface without appreciable incline. 5. Protect rotating bands from damage. Avoid injury to or removal of paint or grease from bourrelet. 6. When handling items packed in outside containers, cargo handling stevedore gear may be trays, skipboards, pallets, or pieplates, provided they are fitted with cargo nets or sideboards. Boxes or trays with removable sides are authorized. 7. Shell lunge or lifting stud and eye are authorized. Wire slings of a design approved by the Captain of the Port may be used. 8. Cargo nets without trays, skipboards, pallets, or pieplates are not permitted. 9. The maximum permitted weight per draft when handled by trays, skipboards, pallets, or pieplates fitted with cargo nets or sideboards shall not exceed 2,400 lbs. plus 10%. 10. Single shells weighing in excess of 2,201 lbs. must be loaded or unloaded one at a time. 11. Drafts consisting of one or more palletized units shall not exceed 4,000 lbs. plus 10%. 12. Lifts of palletized units shall not be tiered except when using a sling so designed as to prevent the upper tier or tiers from shifting or falling from the draft.
VIII					
AT mine fuzes (chemical), etc. Blasting caps. Detonators.	Blasting caps of all types, detonators, grenade fuzes, detonating type fuzes, antitank mine fuzes. Includes but is not limited to: Blasting caps. Blasting caps with safety fuze. Destructor AN-M1 and AN-M3. Detonating grenade fuzes. Detonators, all types. Detonators, torpedo. Electric blasting caps. Fuzes, AT mine (chemical). Percussion elements (Army). Priming assembly for demolition outfit MK IV4.	"Blasting caps" "Blasting caps with safety fuze." "Detonating fuzes."	The two primary hazards in the transportation of these articles are fire and explosive detonation in fire. A collateral hazard is the effect of the detonating of these articles upon other explosives or ammunition stowed in proximity to such articles. All of this class ammunition in a unit stow may explode at one time, but as the total amount of explosives involved is limited structural damage would not tend to be great. Light missiles having limited range would be formed.	*Ammunition stowage, special stowage or portable magazine, which may be stowed in a hold or on deck* The location of magazines is restricted to a hold or compartment in which no other explosives or ammunition (except Classes I, III, and VI) are stowed. Shall not be stored within 8 feet of the vessel's side. This class of ammunition shall not be overstowed with any other cargo. For detail of stowage see § 146.29-03. For stowage with other dangerous articles see § 146.29-59.	Ammunition of Class VIII constitutes a distinct class of ammunition when not assembled in projectiles, bombs, or other ammunition. These types of ammunition are loaded with explosives that are sensitive to shock. The handling and stowage provisions of these regulations give consideration to the probable effect accidental detonation of these devices may have upon other ammunition or explosives stowed within the vessel. 1. Handle by hand or mechanical means. 2. Do not drop, drag, tumble, walk or otherwise subject package to shock. 3. Gravity roller conveyors are not authorized. 4. Do not use chute in loading or unloading. 5. Trays with sideboards shall be used when loading by mechanical means. 6. Packages shall not be stacked on a tray to a height above its sideboards. 7. Trays shall not be swung unnecessarily over open hatches or holds containing military explosives or other dangerous articles. 8. Trays shall be hoisted and lowered carefully and deposited without undue shock on a mattress or other shock absorbing material. 9. Packages shall be stowed in the position indicated by their markings. 10. The maximum permitted weight per draft when handled by tray with sideboards shall not exceed 1,000 lbs. plus 10%. 11. Drafts consisting of one or more palletized units shall not exceed 2,400 lbs. plus 10%. 12. Lifts of palletized units shall not be tiered except when using a sling so designed as to prevent the upper tier or tiers from shifting or falling from the draft. 13. A portable magazine in which this class of ammunition is stowed and hoisted on board a vessel as a unit load shall not exceed 2,400 lbs. plus 10%.

Class	Description	I. C. C. marking	Hazard	Stowage	Handling
IX-A					
Explosives in bulk such as: Black powder. Smokeless powder for small arms, etc.	Black powder in bulk, ballistite (for small-arms), smokeless powder for small arms, black blasting powder, flash powder and powder having similar hazard characteristics to those named. Includes but is not limited to Ballistite for small arms. Black fuse powder. Black pellet powder. Black powder. Black powder and magnesium mixtures. Black rifle powder. Black shell powder. Bull's eye powder #2. Cannon powder. Charges, Lee gun. Charges, shotgun. F. C. black fire powder. Empty powder bags with black powder igniters. FF black powder. Unglazed black powder. FFFG black powder. Flash cartridges over 72 grains. Flash powder sheets inner unit over 2 ounces. Flash reducer (black powder with potassium sulfate). Fresh stocks in bulk. Fresh short powder in bulk. High velocity #5. Igniter pads. IMR #1855. IMR #4064. IMR #4895. Lea Blasting explosives. Pistol powder #5. Rifle powder. Smoke pull charge. Smokeless powder for small arms. Sodium nitrate black powder. Spherical or granular black powder. Sporting powder. Sporting black powder. Black blasting powder.	"Black powder". "Black explosives". "Low explosives". "Propellant explosives".	Group IX-A explosives consist of a group having relatively similar hazard characteristics which in current grades of loose form are ignitable by an open flame, spark or friction. They burn with explosive violence and under even slight confinement are likely to explode en masse. They are very readily ignited by a hot missile. Powder dust is especially hazardous.	*Magazine stowage "A"* When Class I ammunition is stowed in the same hold or magazine with this class the two shall be separated by a partition bulkhead or type "A" dunnage floor. Shall not be overstowed with any other kind of cargo. For stowage with other dangerous articles see § 146.29-59. Shall not be loaded at an ammunition loading pier.	1. Handle by hand or mechanical means. 2. Do not drop, drag, tumble, walk or otherwise subject packages to shock. 3. Do not use chute in loading or unloading. 4. Packages shall be handled in such a manner as to insure that no spark or friction will occur. 5. Observe packages or containers for evidence of sifting or inability to retain contents and reject any showing such signs. 6. In event a package is damaged and powder is spilled, immediately stop operations and sweep up loose powder. 7. Remove damaged container and residue of powder to a safe location. 8. Gravity roller conveyors not authorized. 9. Packages or containers shall be stowed in the position indicated by their markings. 10. Cargo handling stevedore gear may be trays, skipboards, pallets, or preplates provided they are fitted with cargo nets or sideboards. Boxes or trays with fixed or removable sides are authorized. 11. Cargo nets without trays, skipboards, pallets, or preplates are not permitted. 12. The maximum permitted weight per draft when handled by pallet, skipboard, tray, or preplate fitted with cargo nets or sideboards shall not exceed 2,400 lbs. plus 10%. 13. Drafts consisting of one or more palletized units shall not exceed 4,000 lbs. plus 10%. 14. Lifts of palletized units shall not be tiered except when using a sling so designed as to prevent the upper tier or tiers from shifting or falling from the draft.
IX-B					
High explosives such as: Demolition blocks, etc. Dynamite. TNT.	High explosives in bulk, forms of high explosive such as shaped charges for demolition or other purposes, and powder in bulk, possessing other characteristics of being likely to detonate en masse. Includes but is not limited to Amatex. Amatol Ammonite Ammonium perate. Ammonol Anchor charges. Aqueous slurries. A. S. A. powder. Atlas powders. Basis of ammonium nitrate. Butanol. Beehive charges. Blasting gelatin. British bellite. C. E. pellet. Chain demolition. Chlorate explosives, dry. Chlorate propellants. Clams, M3. Composition "A," etc. Composition "B," "B2," etc. Composition "C," "C2," etc. Cratering charges. Cyclonite, RDX. Cyclotol Demolition blocks. Depth bomb explosives. Dinitrotoluene. (DNT) Dynamite. Ednatol Explosive "D." (Ammonium picrate) Explosive gelatin. Gas plastic Gelatin dynamite. Gelignite General wade. Grenite Gunsatton. HBX Hideite Hayrick charges. Hercomite. Heogen. Lumpet. Minol Nitrocellulose, dry. Nitrocellulose, dry. Nitrostarch, dry. Nitrurea Nobel's ammonal (704B). Nobel's explosives (808). PFP, 1, 2 and 3. Pentolite Picratex, dry. Picric acid, dry or wet. Plastic explosives. PTX, 1 and 2. RDX Reddy Fox Scarbost demolition blocks. Shaped charges. Sharite Shrike demolition explosive charges. Supplementary charges. Tetryl Tetrytol. TNT. TNX. Torpex. Tridite Trilite Trimonite Trinitraniline Trinitrobenzene. Trinitrocresol Trinitrophenylmethylnitramine Trinitroresorcinal. Trinitrotal. Trinitrotoluene. Trinitroxylene. Trinitroxylol. Triton blocks Trojan powder Urea nitrate, dry or wet.	"High explosives".	High explosives in bulk and demolition blocks have relatively similar hazard characteristics. They may be considered stable in stowage. Can be ignited by spark or friction and detonated by shock. When ignited will burn vigorously. Bulk shipments in amounts likely to be found on board vessels would, if ignited, be very likely to detonate.	*Ammunition stowage* Shall not be stowed in the same hold or compartment with other permitted ammunition, or explosives, unless the two are separated by a partition bulkhead or a Type "A" dunnage floor. Shall not be overstowed with any other kind of cargo. For stowage adjacent to other dangerous articles see § 146.29-59. Shall not be loaded at an ammunition loading pier.	1. Handle by hand or mechanical means. 2. Do not drop, drag, tumble, walk or otherwise subject packages to shock. 3. Do not use chute in loading or unloading. 4. Packages shall be handled in such a manner as to insure that no spark or friction will occur. 5. Observe packages or containers for evidence of sifting or inability to retain contents and reject any showing such signs. 6. In event a package is damaged and powder is spilled, immediately stop operations and sweep up loose powder. 7. Remove damaged containers and residue of powder to a safe location. 8. Gravity roller conveyors not authorized. 9. Packages or containers shall be stowed in the position indicated by their markings. 10. Cargo handling stevedore gear may be trays, skipboards, pallets, or preplates provided they are fitted with cargo nets or sideboards. Boxes or trays with fixed or removable sides are authorized. 11. Cargo nets without trays, skipboards, pallets, or preplates are not permitted. 12. The maximum permitted weight per draft when handled by pallet, skipboard, tray, or preplate fitted with cargo nets or sideboards shall not exceed 2,400 lbs. plus 10%. 13. Drafts consisting of one or more palletized units shall not exceed 4,000 lbs. plus 10%. 14. Lifts of palletized units shall not be tiered except when using a sling so designed as to prevent the upper tier or tiers from shifting or falling from the draft.
IX-C					
Initiating and priming explosives in bulk.	Initiating and priming explosives when shipped in bulk. Includes but is not limited to Glazed nitrophenol (DDNP, DINOL). Guanyl nitrosamino-guanidilene-hydrazine. Guanyl nitrosamino-guanyl-tetrazene. Lead azide Lead styphnate Lead trinitroresorcinate. Mercury fulminate. Nitro mannite. Nitrosoguanidine. Pentaerythrite tetranitrate. PETN. Tetrazene. NOTE: Bulk priming or initiating explosives in dry condition are not permitted to be transported on board vessels.	"Initiating explosive".	Bulk initiating and priming explosives constitute a distinct class of explosives. They are extremely sensitive to shock. The only permitted packing for transportation in bulk consists of a soft proof cotton duck, rubber or rubberized cloth bag in a metal barrel or drum or wooden barrel or keg and wet with 20 to 40% of water or water alcohol mixture. Mercury fulminate and lead azide also have 3" of sawdust saturated with water between the bag and the outer container.	*Magazine stowage "A", special stowage or portable magazine stowage* Shall not be stowed in the same magazine with other ammunition or explosives. When tiering containers of explosives of this class in a magazine, have each tier floored off with a type "A" dunnage floor. The location of a magazine is restricted to a hold or compartment in which no other military ammunition (except Class IX) is stowed. Shall not be stowed within 8 feet of vessel's side. This class of ammunition shall not be overstowed with any other cargo. For stowage adjacent to other dangerous articles see § 146.29-59. Shall not be loaded at an ammunition loading pier.	1. Handle by hand or mechanical means. 2. Do not drop, drag, tumble, walk or otherwise subject packages to shock. 3. Do not use chute in loading or unloading. 4. Do not roll barrels on their bases. 5. Gravity roller conveyor not authorized. 6. Barrels or drums contain 20 to 40% water or water alcohol mixture. 7. Observe barrels, drums or containers for evidence of leakage or inability to retain contents and reject any showing such signs. 8. In event a container is damaged immediately stop operations and carefully remove damaged container to a safe location. 9. Drums and kegs shall be stowed on end with bungs up. Containers shall be stowed in the position indicated by their markings. 10. Trays with sideboards shall be used when handling by mechanical means. 11. Containers shall not be stacked on a tray to a height above its sideboards. 12. The maximum permitted weight per draft when handled by tray fitted with sideboards shall not exceed 1,000 lbs. plus 10%. 13. Trays shall be hoisted and lowered carefully and deposited without undue shock on a mattress or other shock absorbing material.

Class	Description	I. C. C. marking	Hazard	Stowage	Handling
X					
Explosive bombs, mines, torpedoes, etc.	Bombs, bomblet clusters, mines, depth charges, warheads (all unfuzed), rocket heads fuzed (unexploded) and without motors (inerts or inerts or more gross weight), projector charges (unfuzed and without motors (inerts or more gross weight), projector charges (unfuzed and without motors (inerts or more gross weight), projector charges (unfuzed and without motors (

Class	Description	Hazard	Stowage	Handling	I. C. C. marking
XI-B	Chemical ammunition filled with non-lethal gases such as Chloropicrin (PS), Diphenylchloroarsine (DA), Diphenylaminechloroarsine (DM), Diphenylcyanoarsine (DC), Ethyldichloroarsine (ED), Methyldichloroarsine (MD), Phenyldichloroarsine (PD), Trichloromethyl chloroformate (Diphosgene), Ethyl bromoacetate (SK), Benzyl bromide (CA), Xylyl bromide (CAM), Chloroacetophenone solution (CNB or CNS), Hydrocyanic acid (AC), Cyanogen chloride (CK), Arsine (SA), Cyanogen bromide (BC), Stannic chloride (QM), Sulfuryl chloride (SC), Sulfur trioxide (FS), Titanium tetrachloride (FM), Sulfur trioxide chlorosulfonic acid solution (FS), Silicon tetrachloride (FI), when shipped loaded with or without their ignition elements, burster charges or propelling charges.	Fire and intolerable vapors in the instant of use of some types, irritant vapors of that of smokeless powder. The vapors are rarely lethal as concentrations for below the lethal range are intolerable. Gas mask provides complete protection.	*Chemical ammunition stowage, special stowage, or portable magazine* It is important to store in locations not subject to temperatures above 120° F. Stowage shall be accessible from cargo hatch or other access routes to the hold or compartment. Drums of other authorized ICC or Chemical Corps specification containers filled with Class 8 poisons gas may be stowed in the same hold or compartment with Class XI B. For stowage adjacent to other dangerous articles see § 146.25(j). May be loaded at temporary location authorized by the Captain of the Port for the specific loading. When given chemical ammunition stowage, see § 146.25 for additional requirements.	When possible avoid the amount of such ammunition or containers of these chemical substances warrants, the loading and stowage of chemical ammunition on decks of all ships for such should be supervised by representatives of the appropriate Army Technical Service Chemical or Ordnance Corps or Navy Department. 1. Handle by hand or mechanical means. 2. Do not drop, slide, tumble, walk on or otherwise subject to shocks. 3. Do not use hooks in loading or unloading. 4. Shall not be rolled except under hand control and on a level surface without appreciable incline. 5. Each gas shall be stowed so as to prevent any movement. Dunnage shall be used to prevent movement. Separators shall be stowed in the same manner indicated by the markings. When not so marked, boxes shall be stowed on the most stable side and arranged to shift in a manner that the gaps between boxes are minimized. 6. Not more than 4 tiers high. 7. No hooks used shall be magnetic steel. 8. Insurance shall be applied to the ends and tops of the boxes before treating is applied. 9. Cargo handling slings or gear may be used with cargo nets or pallets. Boxes or crates with reticulated sides or bottoms, pallets, or portables provided they are fitted with cargo nets or sideboards. 10. Cargo nets without tray, skidboards, pallets, or plates are not permitted when handling unpacked items or containers filled with this class of material. 11. Wire rope slings are permitted when handling maximum gross weight per draft when handled by trays, skidboards, pallets, or pallet plates fitted with cargo nets or sideboards shall not exceed 2,400 lbs. plus tare. 12. Single bombs or other unit containers weighing in excess of 2,200 lbs. must be loaded or unloaded one at a time. 13. Trailer consisting of one or more palletized units shall not exceed 4,000 lbs. plus tare. 14. Pallets of palletized units shall not be stored in cargo when using a sling or device to prevent the upper tier or tiers from shifting or falling from the draft.	"Ammunition for non-lethal gases with gas projective bomb." "Explosive projectile." "Explosive hand grenade." "Gas projectile." "Gas grenade."

Dated: April 2, 1954.

TITLE 5—ADMINISTRATIVE PERSONNEL

Chapter III—Foreign and Territorial Compensation

Subchapter B—The Secretary of State

[Dept. Reg. 108.217]

PART 325—ADDITIONAL COMPENSATION IN FOREIGN AREAS

DESIGNATION OF DIFFERENTIAL POSTS

Section 325.11 *Designation of differential posts* is amended as follows, effective on the dates indicated:

1. Effective as of the beginning of the first pay period following April 10, 1954, paragraph (a) is amended by the deletion of the following posts:

Eleuthera Island, British West Indies.
Grand Bahama Island, British West Indies.
Grand Turk Island, British West Indies.
Leeward Islands, British West Indies.
Legaspi, Philippines.
Mayaguana Island, British West Indies.
San Salvador Island, British West Indies.
Tuguegarao, Philippines.

2. Effective as of the beginning of the first pay period following April 10, 1954, paragraph (b) is amended by the deletion of the following posts:

Philippines, all posts except Angeles, Baguio City, Bayombong, Cavite (including Sangley Point), Davao, Legaspi, Manila and Tuguegarao.

3. Effective as of the beginning of the first pay period following April 10, 1954, paragraph (c) is amended by the deletion of the following post:

Narsarssuak, Greenland.

4. Effective as of the beginning of the first pay period following January 17, 1953, paragraph (a) is amended by the addition of the following post:

Run Jungle, Australia.

5. Effective as of the beginning of the first pay period following December 19, 1953, paragraph (b) is amended by the addition of the following post:

Jenane Krater, Morocco.

6. Effective as of the beginning of the first pay period following February 27, 1954, paragraph (b) is amended by the addition of the following post:

Saidia, Morocco.

7. Effective as of the beginning of the first pay period following April 10, 1954, paragraph (b) is amended by the addition of the following posts:

Narsarssuak, Greenland.
Philippines, all posts except Angeles, Baguio City, Bayombong, Cavite (including Sangley Point), Davao and Manila.

Sec. 102, Part I, E. O. 10000, 13 F. R. 5453; 3 CFR, 1948 Supp.)

Effective: April 12, 1954.

For the Secretary of State.

EDWARD T. WAILES,
Assistant Secretary.

MARCH 29, 1954.

TITLE 7—AGRICULTURE

Chapter III—Agricultural Research Service, Department of Agriculture

[P. Q. 481]

PART 301—DOMESTIC QUARANTINE NOTICES

SUBPART—HAWAIIAN FRUITS AND VEGETABLES

ADMINISTRATIVE INSTRUCTIONS PRESCRIBING METHOD OF VAPOR-HEAT TREATMENT OF CERTAIN FRUITS AND VEGETABLES FROM HAWAII

Pursuant to the authority conferred on him by § 301.13–4 (b) of the regulations supplemental to Hawaiian Fruit and Vegetable Quarantine No. 13 (Notice of Quarantine No. 13, 7 CFR and Supp. 301.13) under section 8 of the Plant Quarantine Act of 1912 (7 U. S. C. 161), the Chief of the Plant Quarantine Branch hereby issues administrative instructions to appear as § 301.13–4c in Title 7, Code of Federal Regulations, as follows:

§ 301.13–4c *Administrative instructions prescribing method of vapor-heat treatment of certain fruits and vegetables from Hawaii.* Approved vapor-heat treatment, in accordance with the following procedure, is hereby designated as an administratively approved procedure that meets the requirements for the certification, in accordance with § 301.13–4 (b), of papayas, bell peppers, eggplants, pineapples (other than smooth Cayenne), Italian squash, and tomatoes for domestic movement from Hawaii:

(a) *Approved vapor-heat method of treatment.* (1) In the approved vapor-heat treatment the fruit and vegetables are heated by saturated vapor at 110° F. which in condensing on the fruit and vegetables gives up its latent heat. This latent heat is essential in assuring mortality of eggs and larvae of the oriental fruit fly, the Mediterranean fruit fly and the melon fly, and in raising the temperature of the fruit and vegetables evenly and quickly so as to prevent damage to the treated products. In applying the treatment the saturated vapor is accompanied by a fine water mist and air admixture. The fruit and vegetables are cooled immediately after treatment and no wax or paraffin, either dry or in solution, may be used until after the treatment has been completed. Vapor-heat treatments are approved only if the vapor conditions within the heat treating room, the manner of stacking the boxes containing the fruit and vegetables in the room, and all other conditions affecting the efficacy of the treatment are satisfactory to the supervising inspector, to assure mortality of eggs and larvae of the oriental fruit fly, the Mediterranean fruit fly, and the melon fly.

(2) In applying this treatment, in accordance with these principles, the temperature of the fruit and vegetables shall be raised to 110° F., at the approximate center of the fruit, within a period designated by the inspector, and shall be held at that level during the following 8¾ hours.

(3) This treatment must be conducted in a heat-treating room approved by the Plant Quarantine Branch and must be conducted under the supervision of an inspector of that Branch, who at all times shall have access to the fruit and vegetables while they are undergoing treatment.

(4) The Branch will approve only those rooms which are properly constructed and adequately equipped to handle and treat the fruit or vegetables, at locations acceptable to the inspector in areas where required supervision can be furnished. Hereafter no treating plant will be approved until it is equipped with a self-recording temperature and humidity indicator acceptable to the inspector.

(b) *Subsequent handling.* All handling in Hawaii subsequent to treatment of fruits and vegetables intended for shipment elsewhere in the United States must be carried out to meet requirements of and under the supervision of the inspector.

(c) *Costs.* All costs of treatment and prescribed post-treatment safeguards, other than the services of the supervising inspector during regularly assigned hours of duty and at the usual place of duty, shall, as required by § 301.13–4 (b), be borne by the owner of the fruits or vegetables, or his representative.

(d) *Department not responsible for damage.* In the tests and experiments so far conducted, fruits and vegetables (other than eggplants) have not been injured and the results following treatment have been successful. It is however, emphasized that inexactness and carelessness in using the approved method of treatment may result in injury to the fruit and vegetables treated. In approving this treatment the United States Department of Agriculture does not accept responsibility for fruit or vegetable injury.

(e) *Conditioning.* (1) The treatment set forth in paragraph (a) of this section is in addition to any other procedure or practice that may be found to be desirable to condition or otherwise handle fruit or vegetables that may be offered for treatment.

(2) Eggplants require conditioning before they will tolerate the approved vapor-heat treatment. Even when conditioned, darkening of their seeds usually occurs. In tests of eggplant tolerance to vapor-heat treatment, 6 to 8 hours conditioning at 110° F. and approximately 40 percent relative humidity before the prescribed 8¾-hour holding period has been found effective. This conditioning procedure or any other that the shipper has developed and found satisfactory may be used for eggplants at the shipper's risk.

(Secs. 1, 3, 33 Stat. 1269, 1270, sec. 9, 37 Stat. 318; 7 U. S. C. 141, 143, 162. Interprets or applies sec. 8, 37 Stat. 318, as amended; 7 U. S. C. 161)

The purpose of these instructions is to prescribe a method of vapor-heat treatment that meets the requirements for the certification of papayas, bell peppers, eggplants, pineapples (other than smooth Cayenne), Italian squash, and tomatoes for domestic movement from Hawaii. The Chief of the Bureau of Entomology and Plant Quarantine had previously authorized such treatment as an administratively approved procedure meeting the certification requirements for papayas, bell peppers, pineapples, Italian squash, and tomatoes. These instructions add eggplants to the commodities that may be so treated and certified for domestic movement. Heretofore such movement has been prohibited. The instructions therefore relieve a restriction previously imposed. In order to be of maximum benefit to eggplant shippers, the newly authorized procedure should be made available as soon as possible. Therefore, pursuant to section 4 of the Administrative Procedure Act (5 U. S. C. 1003), it is found upon good cause that notice and public procedure on the foregoing administrative instructions are unnecessary, impracticable, and contrary to the public interest, and since these instructions relieve restrictions they may properly be made effective under said section 4 less than thirty days after publication in the FEDERAL REGISTER.

These administrative instructions shall be effective April 8, 1954.

Done at Washington, D. C., this 29th day of March 1954.

[SEAL] E. P. REAGAN,
Chief,
Plant Quarantine Branch.

[F. R. Doc. 54–2620; Filed, Apr. 7, 1954; 8:53 a. m.]

[P. Q. 609]

PART 319—FOREIGN QUARANTINE NOTICES

SUBPART—FRUITS AND VEGETABLES

ADMINISTRATIVE INSTRUCTIONS PRESCRIBING METHOD OF FUMIGATION OF MANILA MANGOES FROM MEXICO

Pursuant to the authority conferred on him by § 319.56–2 of the regulations supplemental to the Fruit and Vegetable Quarantine (Notice of Quarantine No. 56, 7 CFR and Supp. 319.56) under section 5 of the Plant Quarantine Act of 1912 (7 U. S. C. 159), the Chief of the Plant Quarantine Branch hereby issues administrative instructions to appear as § 319.56–2j in Title 7, Code of Federal Regulations, as follows:

§ 319.56–2j *Administrative instructions prescribing method of fumigation*

of Manila mangoes from Mexico. Approved fumigation with ethylene dibromide at normal atmospheric pressure, in accordance with the following procedure, is hereby prescribed as a condition of entry under permit for all shipments of Manila mangoes from Mexico.

(a) *Approved fumigation.* (1) The approved fumigation shall consist of fumigation with ethylene dibromide at normal atmospheric pressure, in a fumigation chamber which has been approved for that purpose by the Plant Quarantine Branch. Such chambers must be equipped with a gas-tight glass window to permit a view inside the chamber while fumigation is in progress. The Plant Quarantine Branch will approve only those fumigation plants that are properly constructed and adequately equipped to handle and treat Manila mangoes at locations acceptable to the inspector, in areas where required supervision can be furnished. The dosage shall be applied at the rate of 1 pound of ethylene dibromide per 1,000 cubic feet of space for 2 hours at a minimum temperature of 77° F. Cubic feet of space shall include the load. The 2-hour period of exposure shall begin when all of the fumigant has been introduced into the chamber. The required temperature applies to both air and fruit. The ethylene dibromide must be applied in the liquid state and volatilized within the sealed fumigation chamber by direct contact with a highly heated metal surface over an electric hot plate or other suitable heating medium. The gas shall be circulated within the chamber continuously for the 2-hour period by an electric fan or blower.

(2) Manila mangoes to be fumigated must be placed in open field boxes or slatted containers that will cause no interference with the movement of the gas throughout the load. When loaded in the fumigation chamber the boxes or containers shall be separated by at least 2 inches on all sides by wooden strips or other means. The chamber shall not be loaded to more than one-third capacity.

(b) *Supervision of fumigation.* (1) Inspectors of the Plant Quarantine Branch will supervise the fumigation of Manila mangoes and will prescribe such safeguards as may be necessary for the handling, packing, and transportation of the fruit from the time it leaves the treating plant until it reaches the United States port of entry. The final release of the fruit for entry into the United States will be conditioned upon compliance with the prescribed safeguards.

(2) Supervision of fumigation at places in Mexico contiguous to ports of entry where inspectors are regularly stationed will be furnished without cost to the owner of the fruit, or his representative during regularly assigned hours of duty.

(c) *Costs.* All costs of constructing, equipping, maintaining and operating fumigation plants and facilities, and carrying out precautions prescribed for post-treatment safeguards shall be borne by the owner of the fruit or his representative.

(d) *Approval of fumigation plants.* Approval of fumigation plants in the interior of Mexico or at places removed from ports of entry where inspectors are regularly stationed will be contingent upon compliance with the provisions of paragraph (a) (1) of this section and upon the availability of qualified personnel for assignment to supervise the treatment and post-treatment handling of Manila mangoes. Those in interest must make advance arrangements for approval of the fumigation plant and for supervision, and furnish the Chief of the Plant Quarantine Branch with acceptable assurances that they will provide, without cost to the United States Department of Agriculture, all salaries, transportation, per diem, and other incidental expenses for the supervising inspectors, including the payment to the inspectors of additional compensation for their services in excess of 40 hours weekly, according to the rates established for the payment of inspectors of the Plant Quarantine Branch.

(e) *Department not responsible for damage.* While the prescribed treatment is judged from experimental tests to be safe for use with Manila mangoes, the Department assumes no responsibility for any damage sustained through or in the course of treatment, or because of post-treatment safeguards.

(Sec. 3, 33 Stat. 1270, sec. 9, 37 Stat. 316; 7 U. S. C. 143, 162. Interprets or applies sec. 5, 37 Stat. 316; 7 U. S. C. 159)

The purpose of these instructions is to authorize the importation from Mexico under permit of Manila mangoes that have been given an approved fumigation treatment. Heretofore the only method of treatment for such fruit was by means of a vapor-heat treatment. The newly authorized procedure provides an alternative treatment that may be applied in a much shorter time with less expensive equipment. The new treatment therefore is a relieving of restrictions previously imposed. In order to be of maximum benefit to Manila mango importers, the newly authorized precedure should be made available as soon as possible. Therefore, pursuant to section 4 of the Administrative Procedure Act (5 U. S. C. 1003) it is found upon good cause that notice and public procedure on the foregoing administrative instructions are unnecessary, impracticable, and contrary to the public interest, and since these instructions relieve restrictions they may be made effective under said section 4 less than thirty days after publication in the FEDERAL REGISTER.

These administrative instructions shall be effective April 8, 1954.

Done at Washington, D. C., this 29th day of March 1954.

[SEAL] C. P. REAGAN,
Chief, Plant Quarantine Branch.

[F. R. Doc. 54-2621; Filed, Apr. 7, 1954; 8:53 a. m.]

TITLE 7—AGRICULTURE

Chapter VIII—Commodity Stabilization Service (Sugar), Department of Agriculture

Subchapter B—Sugar Requirements and Quotas

[Sugar Reg. 814.11]

PART 814—ALLOTMENT OF SUGAR QUOTAS

PUERTO RICO, 1954

Basis and purpose. This allotment order is issued under section 205 (a) of the Sugar Act of 1948, as amended (hereinafter called the "act"), for the purpose of allotting the 1954 sugar quota for Puerto Rico for consumption in the continental United States (including raw sugar transferred for further processing and shipment within the direct-consumption portion of such quota) and the 1954 sugar quota for local consumption in Puerto Rico among persons who process Puerto Rican sugarcane into sugar (1) to be brought into the continental United States and (2) to be marketed for local consumption in Puerto Rico. The basis of the order is more fully explained below.

The sugar quota for Puerto Rico for consumption in the continental United States is referred to herein as "mainland quota" and allotments thereof are referred to as "mainland allotments." The sugar quota for consumption in Puerto Rico and allotments thereof are referred to as "local quota" and "local allotments," respectively.

Omission of recommended decision and effective date. The record of the hearing regarding allotment of the 1954 sugar quotas for Puerto Rico shows that production of sugar from the 1953–54 crop, together with stocks in the hands of allottees on January 1, 1954, will exceed by about 150,000 tons the sum of the local and mainland quotas established by the Secretary of Agriculture (R. 6). Some of the allotments made by this order could be exceeded by the marketing of the 1953 carryover plus a comparatively small quantity of new crop sugar. Since this proceeding was instituted for the purpose of issuing allotments to prevent disorderly marketing of sugar and to afford all interested persons an equitable opportunity to market, it is hereby found that due and timely execution of the functions imposed upon the Secretary under the act imperatively and unavoidably requires omission of a recommended decision in this proceeding. It is hereby further found that compliance with the 30-day effective date requirement of the Administrative Procedure Act (60 Stat. 237), is impracticable and contrary to the public interest and, consequently, this order shall be effective when published in the FEDERAL REGISTER.

Preliminary statement. Section 205 (a) of the act requires the Secretary to allot a quota whenever he finds that the allotment is necessary (1) to assure an orderly and adequate flow of sugar or liquid sugar in the channels of interstate or foreign commerce, (2) to prevent the disorderly marketing of sugar or liquid sugar, (3) to maintain a continuous and stable supply of sugar or liquid sugar, or (4) to afford all interested persons equitable opportunities to market sugar within the quota for the area. Section 205 (a) also requires that such allotment be made after such hearing and upon such notice as the Secretary may by regulation prescribe.

Pursuant to the applicable rules of practice and procedure (7 CFR 801.1 et seq.), a preliminary finding was made that allotment of the quotas is necessary and a notice was issued on February 1, 1954 (19 F. R. 654) of a public hearing to be held at Santurce, Puerto Rico, in the Conference Room, Caribbean Area Office, ASC, Segarra Building, on February 24, 1954, at 10:00 a. m., for the purpose of receiving evidence to enable the Secretary to make a fair, efficient and equitable distribution of the 1954 mainland quota (including raw sugar transferred for further processing and shipment within the direct-consumption portion of the quota) and the 1954 local quota among persons who process Puerto Rican sugarcane into sugar (1) to be brought into the continental United States and (2) to be marketed for local consumption in Puerto Rico.

The hearing was held at the place and time specified in the notice.

Summary of testimony. With respect to the necessity for allotment of the 1954 mainland and local quotas, the government witness testified that the supply of sugar in prospect in 1954 exceeds the combined quotas sufficiently to result in disorderly marketing and that interested persons would not be afforded equitable opportunities to market sugar unless the quotas are allotted (R. 6). This testimony on the necessity for allotments was not controverted by any witness.

With respect to the manner in which the allotment should be made, the government witness proposed that the mainland and local quotas be allotted on the basis of percentages determined as follows (R. 8):

(1) Processings from proportionate shares cane to be measured by the percentage distribution among the allottees of production of sugar from 1953–54 crop sugarcane, weighted 60 percent.

(2) Past marketings to be measured by the percentage distribution among the allottees of average mainland and local marketings (including refined sugar marketed in the Virgin Islands) for the five years 1949–53, weighted 10 percent.

(3) Ability to market to be measured by the percentage distribution among the allottees of the sum of production of sugar from 1953–54 crop sugarcane and sugar which was in inventory on January 1, 1954, weighted 30 percent.

The method of calculation of allotments from the percentages derived from the above weighting of the factors was proposed to be as follows (R. 11–13):

(1) The combined mainland and local allotments for each allottee would be determined by applying the weighted percentages of the three factors as stated above to the total quantity of sugar to be allotted.

(2) To determine the local allotments, the average percentage which the local marketings of each allottee (including shipments to the Virgin Islands) were of its total mainland and local marketings in the years 1952 and 1953 would be multiplied by its combined allotment and the resulting quantities would be adjusted pro rata so that their sum would equal the local quota.

(3) To determine the mainland allotments the local allotments computed under (2) above would be subtracted from the combined allotments computed under (1), above.

The government witness proposed that the provisions of the allotment order dealing with participation in allotments by producers of sugarcane, restrictions on marketings, exchange of allotments and specific charges against allotments, should be substantially the same as in the 1953 order except for changes in dates and citations, and the addition of language to clarify that sugar from previous crops of cane held by producers who do not receive sugar in settlement for 1953–54 crop cane from that processor shall be charged to the allotments of the processor who processed such sugar (R. 13–14).

Representatives of 16 of the allottees testified at the hearing and 3 of these and 1 other allottee submitted briefs. A representative of some producers of sugarcane who settle in sugar also testified.

Testimony of 9 of the allottees supported the government proposal (R. 14, 15, 16, 29, 31, 39, 41). The testimony and briefs of the 6 other allottees and of the producers of sugarcane proposed that the factors, measured as proposed by the government witness should be weighted 80 percent to "processings • • • from proportionate shares," 10 percent to "past marketings" and 10 percent to "ability to market," and argued that these weightings are necessary to make allotments fair and equitable to allottees who sold non-quota sugar at discounted prices in previous years, thereby increasing the current "processings from • • • proportionate shares" for all allottees (R. 16, 35, 41, 44; Briefs of Antonio Roig Sucs. S. en C., Central Mercedita, Inc., Land Authority of Puerto Rico, South Porto Rico Sugar Company of Puerto Rico). Two witnesses proposed the measurment of ability to market by each processor's largest marketings in any of the years 1948 through 1953 as somewhat preferable to that proposed by the government witness (R. 42, 48; Briefs of Antonio Roig Sucs. S. en C., South Porto Rico Sugar Company).

One witness proposed that local allotments should be made only to allottees who are refiners or are closely affiliated with refiners because local demand is now almost wholly for refined sugar (R. 29).

All allottees stipulated for the record at the hearing (R. 51–65) or subsequently in writing as follows:

(1) The initial allotment of the 1954 sugar quotas for Puerto Rico shall be based on the data on processings from proportionate share cane, past marketings and January 1, 1954 carryover included in the record of the hearing. Without further hearing and without change in the initial allotment formula, the order shall be revised on the basis of (1) "processings from proportionate shares" equal to the production from 1954-crop sugarcane by each allottee as shown by the records of the Agricultural Stabilization and Conservation Caribbean Area Office; and (2) the quantity of carryover sugar of each allottee on hand on January 1, 1954, whether in Puerto Rico, afloat, or in bond in continental United States, based on the final outturn weights and polarization of such sugar.

(2) Sugar shipped to the Virgin Islands in past years shall be regarded as sugar marketed for local consumption in Puerto Rico.

(3) Sugar shipped to the Virgin Islands in 1954 shall be regarded as local allotment sugar and charged to the local allotment of the allottee concerned.

(4) To give effect to any change in the 1954 sugar quotas for Puerto Rico made after the issuance of the initial allotment order, such order shall be revised without further hearing, using the same allotment formula as was used in the initial order. This does not apply to changes in the local quota.

(5) If any allottee voluntarily notifies the Department in writing that it will be unable to fill its 1954 allotment, an amount of sugar equal to such deficit shall be allotted, without further hearing and without change in the original allotment formula, to other allottees able to supply the additional sugar.

(6) Each allottee waives its (his) right to object to the validity of the 1954 allotment order by reason of any action taken by the Secretary of Agriculture in conformity with the provisions of this stipulation.

Basis of allotment. Section 205 (a) of the act reads in pertinent part as follows:

• • • Allotments shall be made in such manner and in such amounts as to provide a fair, efficient, and equitable distribution of such quota or proration thereof, by taking into consideration the processing of sugar or liquid sugar from sugar beets or sugarcane to which proportionate shares, determined pursuant to the provisions of subsection (b) of section 302, pertained; the past marketings or importations of each such person and the ability of such person to market or import that portion of such quota or proration thereof allotted to him • • •

All three factors specified in the foregoing provision of law have been considered and each is given a percental weighting by the formula on which this allotment of the 1954 quotas for Puerto Rico is based. Under this formula the factors are measured and weighted as follows: Processings from sugarcane to which proportionate shares pertained, measured by such processings from the 1953–54 crop proportionate shares cane, 70 percent weight; past marketings, measured by average mainland and local marketings during the years 1949 to 1953, inclusive, 10 percent weight; ability to market, measured by the sum of processings from 1953–54 sugarcane and the quantity of 1952–53 crop sugar carried over into 1954 by such allottee, 20 percent weight.

To determine combined mainland and local allotments the weightings indicated were applied to the percentages for each allottee of the sum for all allottees of the measures for each factor. The sum of such weighted percentages for each allottee was then multiplied by 1,180,000 short tons, raw value, the sum of the 1954 mainland and local quotas for Puerto Rico. The "proportionate shares" certified to and claimed by each allottee as

of January 27, 1954, will be used as estimates of production of sugar from 1953–54 crop sugarcane until actual data are available.

Local allotments are determined by applying to each "combined mainland and local allotment" the percentage that the allottee's local marketings were of its total marketings in the calendar years 1952 and 1953 and by adjusting the resulting quantities so that the total of such allotments will equal the local quota. The mainland allotment for each processor is determined by subtracting such local allotment from the combined allotment.

The conflict in testimony and argument shown in the hearing record centered upon the tendency of allotments to readjust inventories of sugar among the allottees. The government proposed 30 percent weight to "ability to market" measured in part by inventories. A substantial group of allottees contended that 10 percent weight to that factor would be more equitable and there was less support for an alternative measure of "ability" that would give no weight at all to inventories. The treatment and weighting of the "ability" factor in a manner which will permit a gradual readjustment of inventories among processors appears appropriate and the method of allotment adopted involves a rate of readjustment about midway between the extremes proposed.

The initial allotments established by this order are based largely upon incomplete certification to the allottees of the quantities of sugar that may be produced from 1953–54 crop sugarcane to which proportionate shares pertained, for which actual production data are to be substituted later. Therefore, in order to prevent any allottee from marketing sugar in excess of the allotment established on the basis of the completed data, only 80 percent of the allotments may be filled until such time as the order may be revised on the basis of completed data.

Paragraphs (b), Producers Marketings Under Allotments; (c), Restrictions on Marketings; (d), Exchange of Allotments and (e) Specific Charges Against Allotments, in the order are a continuation of provisions which operated satisfactorily in 1953 except that language has been added to paragraph (b) to formalize a practice which has prevailed as a result of the application of paragraph (a) to marketings occurring prior to the effective date of allotments. The added wording is as follows: Further, a person who, as a producer, has sugar received from a processor in settlement for sugarcane of crops prior to that of 1953–54 shall be permitted to market such sugar within that processor's mainland allotment.

These provisions have provided a satisfactory basis of operations in 1953 and nothing appears in the hearing record that would provide a basis for any other procedure.

Findings and conclusions. On the basis of the record of the hearing and the stipulations of the interested parties, I hereby find and conclude that:

(1) For the calendar year 1954 Puerto Rican processors will have available for marketing on the mainland and in Puerto Rico an amount of sugar which exceeds the combined mainland and local quotas by approximately 150,000 short tons.

(2) The allotment of the 1954 mainland quota for Puerto Rico (including raw sugar transferred for further processing to be brought in within the direct-consumption portion of the quota) and the 1954 local quota for Puerto Rico is necessary to prevent disorderly marketing of such sugar and to afford all interested persons equitable opportunities to market such sugar in the continental United States and in Puerto Rico.

(3) To assure a fair, efficient and equitable distribution of the mainland and local quotas for Puerto Rico for 1954 the three statutory standards should be weighted as follows: "Processings * * * from * * * proportionate shares," 70 percent; "past marketings," 10 percent; and "ability to market," 20 percent.

(4) Actual "processings * * * from * * * proportionate shares," for the 1953–54 crop by each allottee constitutes a fair and equitable measure of such processings and in the initial order the sum of all proportionate shares certified to and claimed by each allottee as of January 27, 1954, should be used as suitable estimates thereof.

(5) A fair and equitable measure of past marketings for each processor is its average mainland and local marketings during the years 1949 to 1953, inclusive.

(6) The sum of processings of sugar from 1953–54 crop sugarcane plus the quantity of sugar carried into 1954 constitutes a fair and equitable measure of the ability of each processor to market sugar during 1954. In the initial order the estimate of processings indicated in paragraph (4), above, shall be used.

(7) The percentages that local marketings were of combined mainland and local marketings for each processor during the years 1952 to 1953, inclusive, are representative for the purpose of dividing the combined 1954 allotment for each processor into a mainland allotment and a local allotment.

(8) The quantities of sugar referred to in paragraphs (4), (5), (6) and (7), above, are as set forth in the following table:

[Short tons, raw value]

Processor	(1) Processings	(2) Average marketings	(3) Ability to market	(4) Local marketings 1952–53 as percent of total marketings

South Porto Rico Sugar Co. of Puerto Rico	99,808	99,761	106,854	17.256
Total	1,267,682	1,126,953	1,406,724	

(9) The combined local and mainland quotas should be allotted on the basis of the weightings of the factors specified in paragraph (3) above and the measures of those factors listed for each allottee in paragraph (8) above; and the combined allotments so established should be divided into local and mainland allotments on the basis of the percentages listed in paragraph (8) above.

(10) Any producer who receives sugar in payment for sugarcane (a) should be permitted to market, within the allotment of the processor who processed his sugarcane, a quantity of sugar equal to the same percentage of the producer's 1953–54 crop sugar that the sum of the processor's mainland and local allotments is of the total of 1953–54 crop proportionate shares certified to be processed by such processor, and (b) such permitted quantity should be within the mainland allotment unless the producer requests local allotment. Further, a person who, as a producer, has sugar received from a processor in settlement for sugarcane of crops prior to that of 1953–54 shall be permitted to market such sugar within that processor's mainland allotment.

(11) In order to prevent any allottee from marketing a quantity of sugar in excess of the allotments established therefor on the basis of final data relating to carryover and certifications of proportionate shares under this order marketings shall be limited to 80 percent of the allotments.

(12) An efficient distribution of the quotas requires exchanges between allottees of quantities of mainland allotment for like quantities of local allotment, subject to the approval of an officer of the Department designated in the order.

(13) Upon availability of data on processings of 1953–54 crop sugarcane the allotments shall be revised to substitute such processings by each processor for "certified proportionate shares" in the measures of the factors described in (4) and (6), above.

(14) Allotments established in the foregoing manner and in the amounts set forth in the order provide a fair, efficient, and equitable distribution of the quotas, as required by section 205 (a) of the act.

Order. Pursuant to the authority vested in the Secretary of Agriculture by section 205 (a) of the act, it is hereby ordered:

§ 814.9 *Allotment of 1954 sugar quotas for Puerto Rico*—(a) *Allotments.* The 1954 sugar quota for Puerto Rico for consumption in the continental United States (including raw sugar to be further processed and marketed within the direct-consumption portion of such quota) and the 1954 sugar quota for local consumption in Puerto Rico, are hereby allotted, to the extent shown herein, to the following processors in amounts which appear in columns (1) and (3) opposite their respective names:

All other persons				
Total	1,080,000	864,000	100,000	80,000

(b) *Producers' marketings under allotments.* Each processor shall reserve a share of its mainland allotment for the marketings of each producer with whom settlement for sugarcane is made in sugar equal to the same percentage of the producer's 1953–54 crop sugar that the sum of the processor's mainland and local allotments is of the processor's total production of 1953–54 crop sugar: *Provided,* That upon written request to the processor within 30 days of the effective date of this order, the producer's share shall be divided between local and mainland allotments as the sum of the processor's allotments is divided between mainland and local allotments. Further, a person who, as a producer, has sugar received from a processor in settlement for sugarcane of crops prior to that of 1953–54 shall be permitted to market such sugar within that processor's mainland allotment.

(c) *Restrictions on marketing.* (1) During the calendar year 1954 each processor named in paragraph (a) of this section, together with the producers with whom it shares its allotments under paragraph (b) of this section, is hereby prohibited from bringing into the continental United States for consumption therein, or marketing to a local refiner or any other person for that purpose, and from marketing for local consumption in Puerto Rico, any sugar in excess of the applicable quantities established in columns (2) and (4) of the table in paragraph (a) of this section.

(2) During the calendar year 1954 all persons who acquire raw sugar for further processing and resale as direct-consumption sugar are hereby prohibited from marketing sugar for local consumption in Puerto Rico in excess of the sum of (i) the quantity of sugar acquired for such purpose under the limitations specified in § 814.9, as amended (18 F. R. 2493, 5053, 7510), and held in inventory on December 31, 1953, and (ii) the quantity of sugar acquired for such purpose within the limits specified in this section.

(d) *Exchange of allotments.* The allotments established in paragraph (a) of this section, or producers' shares thereof established under paragraph (b) of this section, shall not be exchanged without the approval of the Chief of the Quota and Allotment Branch, Sugar Division, Commodity Stabilization Service of the Department.

(e) *Specific charges against allotments.* Sugar produced in Puerto Rico which is brought into the continental United States for consumption therein or marketed for local consumption in Puerto Rico during 1954 shall be charged to the applicable allotment of the processor who processed such sugar.

(Sec. 403, 61 Stat. 932; 7 U. S. C. Sup., 1153. Interprets or applies sec. 205, 61 Stat. 926; 7 U. S. C. Sup., 1115)

Done at Washington, D. C., this 5th day of April 1954. Witness my hand and the seal of the Department of Agriculture.

[Sugar Reg. 814.12]

PART 814—ALLOTMENT OF SUGAR QUOTAS

DIRECT CONSUMPTION PORTION FOR PUERTO RICO, 1954

Basis and purpose. This allotment order is issued under section 205 (a) of the Sugar Act of 1948, as amended (herein called "act"), for the purpose of allotting the portion of the 1954 sugar quota for Puerto Rico which may be filled by direct-consumption sugar among persons who market such sugar for consumption in the continental United States. The basis and purpose of the order are more fully explained below.

Omission of recommended decision and effective date. The record of the hearing regarding the subject of this order shows that the capacity of Puerto Rican refineries to produce direct-consumption sugar far exceeds the sum of 126,033 short tons, raw value, of such sugar which may be marketed in the continental United States under the act and the quantity of sugar needed for local consumption in Puerto Rico (R. 67). The proceeding to which this order relates was instituted for the purpose of allotting the direct-consumption portion of the quota to prevent disorderly marketing and to afford each interested person an equitable opportunity to market direct-consumption sugar in the continental United States (R. 68). Some of the allotments made by this order are small and delay in the issuance of the order might result in some persons marketing more than their fair share of the direct-consumption portion of the quota. Therefore, it is imperative that this order become effective at the earliest possible date in order fully to effectuate the purposes of section 205 (a) of the act. Accordingly, it is hereby found that due and timely execution of the functions imposed upon the Secretary under the act imperatively and unavoidably requires the omission of a recommended decision in this proceeding. It is hereby further found that compliance with the 30-day effective date requirement of the Administrative Procedure Act (60 Stat. 237) is impracticable and contrary to the public interest and, consequently, this order shall be effective when published in the FEDERAL REGISTER.

Preliminary statement. Section 207 (b) of the act provides that not more than 126,033 short tons, raw value, of the sugar quota for Puerto Rico for any calendar year may be filled by direct-consumption sugar.

Under the provisions of section 205 (a) of the act, the Secretary is required to allot a quota or proration thereof whenever he finds that allotment is necessary (1) to assure an orderly and adequate

flow of sugar or liquid sugar in the channels of interstate or foreign commerce, (2) to prevent the disorderly marketing of sugar or liquid sugar, (3) to maintain a continuous and stable supply of sugar or liquid sugar, or (4) to afford all interested persons an equitable opportunity to market sugar or liquid sugar within the quota for the area. Section 205 (a) also provides that such allotment shall be made after such hearing and upon such notice as the Secretary may by regulation prescribe.

Pursuant to the applicable rules of practice and procedure (7 CFR 801.1 et seq.) a preliminary finding was made that allotment of the direct-consumption portion of the quota is necessary and a notice was issued on January 29, 1954 (19 F. R. 654) of a public hearing to be held in Santurce, Puerto Rico, on February 24, 1954, for the purpose of receiving evidence to enable the Secretary to make a fair, efficient and equitable distribution of the direct-consumption portion of the 1954 sugar quota for Puerto Rico.

The hearing was held at the time and place specified in the notice.

Summary of evidence. With respect to the necessity for making allotments, the government witness stated that in the notice of this hearing the Secretary made a preliminary finding that allotment of the direct-consumption portion of the 1954 sugar quota for Puerto Rico is necessary. That finding was based on the fact that the capacity to produce refined sugar in Puerto Rico far exceeds the sum of 126,033 and 100,000 short tons, raw value, which are the maximum quantities of Puerto Rican direct-consumption sugar that may be marketed within the mainland and local quotas. Thirty-six weeks' continuous operation for each of the prospective allottees at its highest biweekly rate for 1953 would result in the production of over 350,000 short tons, raw value, of refined and turbinado sugars. If a suitable market for the sugar were available, the government witness stated, the period of operation could be extended and some of the allottees probably could push their rate of production beyond that demonstrated in 1953 (R. 68). Thus, to prevent disorderly marketing of sugar and to afford each interested person an equitable opportunity to market sugar within the area's quota, as required by section 205 (a) of the act, allotment of the direct-consumption portion of the 1954 sugar quota for Puerto Rico was found to be necessary. This testimony on the necessity for allotments in 1954 was not controverted by any witness.

The government witness presented a proposed method of allotment and estimated individual allotments thereunder. The proposed method of allotment consisted of equal weightings of (1) past marketings as measured by marketings of sugar for direct consumption in the continental United States in the years 1949 through 1953 (R. 70) and (2) ability to market as measured by the highest marketings in any of the years 1935 through 1953 for each allottee (R. 70). This method was applied to 125,500 short tons, raw value, of the quota and the balance of 533 tons would be set aside as an unallotted reserve for the marketing of raw sugar for direct consumption (R. 70). In order to limit effectively the quantity brought into the continental United States by any refiner in Puerto Rico to no more than the allotment of the quota available to him, the witness proposed that a paragraph on Restrictions on Marketings should be included in the order the same, in substance, as that appearing in Sugar Regulation 814.10 (R. 72).

Representatives of four of the five allottees testified at the hearing and all expressed approval of the government proposal (R. 78, 80, 81, 82). One stated a preference for omitting 1935 and one for omitting all years prior to 1945 from the years considered in measuring "ability" (R. 81, 82). A representative of another allottee stated that years prior to 1941 should be included in measuring ability to market (R. 78).

Basis of allotment. Section 205 (a) of the act reads in pertinent part as follows:

> • • • Allotments shall be made in such manner and in such amounts as to provide a fair, efficient, and equitable distribution of such quota or proration thereof, by taking into consideration the processings of sugar or liquid sugar from sugar beets or sugarcane to which proportionate shares, determined pursuant to the provisions of subsection (b) of section 302, pertained; the past marketings or importations of each such person; and the ability of such person to market or import that portion of such quota or proration thereof allotted to him • • •

In the allotments for the years 1948 through 1953 no percentile weight was given to "processings of sugar or liquid sugar from • • • sugarcane to which proportionate shares • • • pertained" because the allottees accounting for over 95 percent of the marketings of Puerto Rican direct-consumption sugar in the continental United States do not themselves process sugar from sugarcane. This situation continues to prevail and no percentile weight is given this factor in 1954 (R. 68).

The factor of past marketings is measured by marketings of direct-consumption sugar in the continental United States in the years 1949 through 1953. These years represent experience under marketing conditions, including allotments, similar to those which may be expected in 1954 and take into account long-run changes as well. The inclusion of earlier years would not afford as representative a measure of past marketings as the years used. The present action merely adds the most recent year to and drops the most remote year from the series used in allotting the quota for the preceding year. Use of the most recent data provides for progression in the basis data and the period of five years provides adequate stability to offset short-run factors affecting data for a single year.

In five preceding allotments the factor "ability to market" was measured by the largest marketings for each allottee in any year beginning with 1935, expressed as a percentage of the sum of such largest marketings for all allottees. As in prior years, actual performance as reflected in shipments of direct-consumption sugar to the continental United States is considered the most practical measure of ability to market and marketings during a single year is deemed an adequate measure if a year is selected for each refiner which will properly reflect relative abilities. Accordingly, the period was extended back to 1935 in order that a year could be selected for such refiner in which its operations were at or near the highest level in its history. A comparison with present plant capacity show no impairment in the ability of any of the allottees to produce direct-consumption sugar. Therefore, performance in the years selected is considered a reasonable measure of "ability," and this measure is used in determining the allotments established herein.

Since there have been no apparent developments which would indicate the desirability of a change in the formula used for 1953 allotments, equal weighting of the two factors, "past marketings" and "ability," is again used for 1954 allotments. Accordingly, the portion of the 1954 sugar quota for Puerto Rico that may be brought into the continental United States as direct-consumption sugar is allotted by (1) setting aside 533 short tons, raw value, as a reserve for entries of raw sugar for direct consumption and (2) distributing the balance of 125,500 short tons, raw value, among the five allottees on the basis of equal weight to the percentage distribution of the total marketings of all allottees in the five years 1949 through 1953 and the percentage distribution of the sum of the largest marketing of each of the allottees in any calendar year since 1935.

During the calendar years 1950 through 1953 totals of 875, 289, 429 and 533 short tons, respectively, of Puerto Rican raw sugar were marketed for direct consumption in the continental United States. It is not practicable to allot such a small quantity among 24 prospective allottees. Such an allotment would disrupt customary trade practices and interfere with the efficient distribution of such sugar. The 533 short tons set aside as a reserve for the marketings of such sugar is approximately equal to the average actual marketings of Puerto Rican raw sugar for direct consumption in 1950 through 1953.

Findings and conclusions. On the basis of the record of the hearing, I hereby find and conclude that:

(1) The potential capacity of Puerto Rican refiners to produce direct-consumption sugar during the calendar year 1954 exceeds 350,000 short tons and this quantity is far greater than the total quantity of such sugar which may be marketed within the 1954 sugar quotas for Puerto Rico.

(2) The allotment of the direct-consumption portion of the 1954 sugar quota for Puerto Rico is necessary to prevent disorderly marketing of such sugar and to afford each interested person an equitable opportunity to market such sugar in the continental United States.

(3) Assignment of a percentile weight to the "proportionate shares" factor in the final allotment formula would not result in fair, efficient and equitable allotment.

(4) The best measure of the "past marketings" factor for each allottee is its percentage of the average marketings of direct-consumption sugar of all allottees in the continental United States during the years 1949 through 1953.

(5) The best measure of the "ability to market" factor for each allottee is its percentage of the sum of the largest quantities of direct-consumption sugar of all allottees marketed in the continental United States during any calendar year during the period 1935–53, inclusive, and the ability so measured is within the present plant capacity of each refiner.

(6) The quantities of sugar marketed referred to in paragraphs (4) and (5) above are as follows:

[Short tons, raw value]

Allottee	Average 1949–53	Highest year 1935–53
Arturo Lluberas, estate of, y Sobrinos (San Francisco)	554	2,500
Central Aguirre Sugar Co., a trust	8,378	10,640
Central Roig Refining Co	20,301	28,605
Porto Rican American Sugar Refinery, Inc	78,599	116,611
Western Sugar Refining Co	19,761	29,988
Total	124,653	188,494

(7) A small part of the direct-consumption portion of the mainland quota is normally marketed in the continental United States as raw sugar for direct consumption. Five hundred and thirty-three short tons, raw value, should be reserved for this purpose in 1954.

(8) Allotments totaling 125,500 short tons, raw value, should be established by giving fifty percent weight to past marketings, measured as provided in paragraph (4) above, and fifty percent weight to ability to market, measured as provided in paragraph (5) above.

(9) Allotments established in the foregoing manner and in the amounts set forth in the order provide a fair, efficient, and equitable distribution of the direct-consumption portion of the mainland quota, as required by section 205 (a) of the act.

Order. Pursuant to the authority vested in the Secretary of Agriculture by section 205 (a) of the act, it is hereby ordered:

§ 814.12 *Allotment of the direct-consumption portion of 1954 sugar quota for Puerto Rico*—(a) *Allotments.* The direct-consumption portion of the 1954 sugar quota for Puerto Rico, amounting to 126,033 short tons, raw value, is hereby allotted as follows:

Allottee	Direct-consumption allotment (short tons, raw value)
Arturo Lluberas, estate of, y Sobrinos	1,141
Central Aguirre Sugar Co., a trust	6,249
Central Roig Refining Co	19,805
Porto Rican American Sugar Refinery, Inc	78,377
Western Sugar Refining Co	19,928
All other persons (raw sugar only)	533
Total	126,033

(b) *Restrictions on marketings.* (1) During the calendar year 1954, each allottee named in paragraph (a) of this section is hereby prohibited from bringing into the continental United States, for consumption therein, any direct-consumption sugar from Puerto Rico in excess of the smaller of (i) the allotment therefor established in paragraph (a) of this section, or (ii) the quantity transferred to such allottee and charged against a 1954 mainland allotment under § 814.11.

(2) During the calendar year 1954, all persons other than the allottees specified in paragraph (a) of this section are hereby prohibited from bringing into the continental United States, for consumption therein, any direct-consumption sugar from Puerto Rico except (i) that acquired from an allottee within the quantity established in this section, and (ii) or within the quantity established in this section for "all other persons".

(Sec. 403, 61 Stat. 932; 7 U. S. C. Sup. 1153. Interprets or applies sec. 205, 61 Stat. 926; 7 U. S. C. Sup. 1115)

TITLE 9—ANIMALS AND ANIMAL PRODUCTS

Chapter I—Agricultural Research Service, Department of Agriculture

Subchapter C—Interstate Transportation of Animals and Poultry

[B. A. I. Order 384, Amdt. 5]

PART 79—SCRAPIE IN SHEEP

CHANGES IN AREAS QUARANTINED

Pursuant to the provisions of sections 1 and 3 of the act of March 3, 1905, as amended (21 U. S. C. 123, 125), sections 1 and 2 of the act of February 2, 1903, as amended (21 U. S. C. 111–113, 120), and section 7 of the act of May 29, 1884, as amended (21 U. S. C. 117), § 79.2, as amended, Part 79, Title 9, Code of Federal Regulations, containing a notice of the existence in certain areas of the disease of sheep known as scrapie and establishing a quarantine because of such disease, is hereby further amended to read as follows:

§ 79.2 *Notice and quarantine.* Notice is hereby given that the contagious, infectious, and communicable disease of sheep known as scrapie exists in the following areas in the specified States. Such areas are hereby quarantined because of said disease.

(a) *Connecticut:* That part of the Town of Salisbury, in Litchfield County, lying south of Farnam Road; north of Welles Hill Road, west of Old Asylum Road, and east of U. S. Route No. 44 and State Route No. 41.

(b) *New York:* (1) That part of the Town of Alden, in Erie County, lying east of the Milligrove-West Alden Road, south of North Road, west of the Alden-Chittenden Road, and north of Main Street and U. S. Route No. 20.

(2) That part of the Towns of Bergen and Byron, in Genesee County, lying west of County Route No. 31, south of County Route No. 13, east of Tripp Road and of a line extending south from Tripp Road to the New York Central Railroad, and north of the New York Central Railroad.

(c) *Ohio:* (1) That part of Eden Township, in Licking County, lying west of County Road No. 217, north of County Roads No. 217 and No. 210, and east of County Road No. 209.

(2) That part of Buckskin Township, in Ross County, lying south of State Route No. 28, west of Lyndon-South Salem Road, north of Frogtown Road, and east of Coyner Road and Moon Road.

(3) That part of Turtle Creek Township, in Shelby County, lying south of County Road No. 47, west of County Road No. 49, north of State Route No. 47, and east of County Road No. 85.

(4) That part of Elk and Swan Townships, in Vinton County, lying south of John Lowry Road, west of State Route No. 75, north of Locust Grove Road, and east of George Thomas Road.

Effective date. This amendment shall become effective upon issuance. It includes within the areas in which scrapie has been found to exist, and in which a quarantine has been established:

That part of the Town of Salisbury, in Litchfield County, lying south of Farnam Road, north of Welles Hill Road, west of Old Asylum Road, and east of U. S. Route No. 44 and State Route No. 41, in Connecticut.

That part of the Towns of Bergen and Byron, in Genesee County, lying west of County Route No. 31, south of County Route No. 13, east of Tripp Road and of a line extending south from Tripp Road to the New York Central Railroad, and north of the New York Central Railroad, in New York.

Hereafter, all of the restrictions of the quarantine and regulations in 9 CFR, 1952 Supp., Part 79, as amended, apply with respect to shipments of sheep from these areas.

The amendment imposes further restrictions necessary to prevent the spread of scrapie, a communicable disease of sheep, and must be made effective immediately to accomplish its purpose in the public interest. Accordingly, under section 4 of the Administrative Procedure Act (5 U. S. C. 1003), it is found upon good cause that notice and other public procedure with respect to the amendment are impracticable and contrary to the public interest and good cause is found for making the amendment effective less than 30 days after publication in the FEDERAL REGISTER.

(Secs. 4, 5, 23 Stat. 32, as amended, sec. 2, 32 Stat. 792, as amended, secs. 1, 3, 33 Stat. 1264, as amended; 21 U. S. C. 111, 120, 123, 125. Interprets or applies sec. 7, 23 Stat. 32, as amended; 21 U. S. C. 117)

Done at Washington, D. C., this 2d day of April 1954.

[SEAL] M. R. CLARKSON,
Acting Administrator,
Agricultural Research Service.

TITLE 14—CIVIL AVIATION

Chapter II—Civil Aeronautics Administration, Department of Commerce

[Amdt. 2]

PART 620—SECURITY CONTROL OF AIR TRAFFIC

REDESIGNATION OF ADIZ BOUNDARIES AND EXCEPTIONS FOR CERTAIN FLIGHTS ENTERING UNITED STATES FROM CANADA

Part 620 is hereby amended for the purpose of redesignating the boundaries of several existing Domestic, Coastal, and International Boundary ADIZ's. Portions of the Canadian (International) Boundary ADIZ are deleted, and entry is permitted below 4,000 feet into the Traverse City and Bangor ADIZ's from those portions of Canada not served by the revised Canadian (International) Boundary ADIZ. Since a military function of the United States is involved, compliance with notices, procedures, and effective date provisions of section 4 of Administrative Procedure Act is not required.

1. Section 620.13 is amended as follows:

§ 620.13 *Authorized exceptions*—(a) *Altitudes excepted*—(1) *Continental United States.* The provisions of this part are not applicable to aircraft operated at altitudes less than 4,000 feet above the immediate terrain when such aircraft are (i) operated within a domestic ADIZ, located within the Continental United States, (ii) entering a domestic ADIZ from within the Continental United States, or (iii) entering a domestic ADIZ within the Continental United States from Canada without crossing the Canadian (International) Boundary ADIZ.

* * * * *

2. Section 620.21 is amended as follows:

§ 620.21 *Domestic ADIZ's*—(a) *Seattle (Domestic) ADIZ.* The area bounded by a line 49°00′ N., 115°00′ W.; 46°30′ N., 115°00 W.; 42°00′ N., 120°00′ W.; due west to 42°00′ N., 124°38′10″ W.; 43°00′ N., 124°40′ W.; 46°15′ N., 124°30′ W.; 48°00′ N., 125°15′ W.; 48°29′38″ N., 124°43′35″ W.; easterly along the U. S.-Canadian International Boundary to 49°00′ N., 115°00′ W. (point of beginning).

(b) *San Francisco (Domestic) ADIZ.* The area bounded by a line 42°00′ N., 120°00′ W.; 39°00′ N., 120°00′ W.; 37°40′ N., 118°00′ W.; 35°00′ N., 121°16′45″ W.; 38°50′ N., 124°00′ W.; 40°00′ N., 124°35′ W.; 42°00′ N., 124°38′10″ W.; due east to 42°00′ N., 120°00′ W. (point of beginning).

(c) *Los Angeles (Domestic) ADIZ.* The area bounded by a line 37°40′ N., 118°00′ W.; 35°00′ N., 114°30′ W.; due east to 35°00′ N., 113°30′ W.; 32°05′30″ N., 113°30′ W.; westerly along the U. S.-Mexican International Boundary to 32°32′03″ N., 117°07′25″ W.; 32°30′ N., 117°20′ W.; 32°30′ N., 117°45′ W.; 33°15′ N., 118°30′ W.; 34°00′ N., 120°30′ W.; 35°00′ N., 121°16′45″ W.; 37°40′ N., 118°00′ W. (point of beginning).

* * * * *

(e) *Knoxville (Domestic) ADIZ.* The area bounded by a line 38°11′ N., 81°58′ W.; 35°37′ N., 81°01′ W.; 35°09′ N., 82°57′ W.; 34°31′ N., 82°53′ W.; 34°15′ N., 83°23′ W.; due west to 34°15′ N., 84°38′ W.; 35°07′ N., 85°06′ W.; 36°08′ N., 86°30′ W.; 36°25′ N., 86°30′ W.; 36°52′ N., 86°10′ W.; 37°40′ N., 85°30′ W.; 37°50′20″ N., 84°45′40″ W.; 38°11′ N., 81°58′ W. (point of beginning).

* * * * *

(g) *Great Falls (Domestic) ADIZ.* The area bounded by a line 49°00′ N., 104°00′ W.; 46°00′ N., 104°00′ W.; due west to 46°00′ N., 110°39′ W.; 46°18′ N., 110°55′ W.; 46°41′ N., 111°54′ W.; 46°43′ N.; 113°09′ W.; 47°20′N.; 115°00′ W.; 49°00′ N.; 115°00′ W. due east along the U. S.-Canada International Boundary to 49°00′ N.; 104°00′ W. (point of beginning).

(h) *Minneapolis (Domestic) ADIZ.* The area bounded by a line 49°00′ N., 104°00′ W., easterly along the U. S.-Canadian International Boundary to 48°03′ N., 90°00′ W.; 44°00′ N., 90°00′ W.; 46°00′ N., 94°00′ W.; due west to 46°00′ N., 104°00′ W.; 49°00′ N., 104°00′ W. (point of beginning).

* * * * *

3. Section 620.22 is amended as follows:

§ 620.22 *Coastal ADIZ's*—(a) *Atlantic (Coastal) ADIZ.* The area bounded by a line 44°30′ N., 66°45′ W.; 40°00′ N., 64°00′ W.; 32°00′ N., 74°00′ W.; 33°30′ N., 78°00′ W.; 35°10′ N., 75°10′ W.; 36°10′ N., 75°10′ W.; 37°00′ N., 75°30′ W.; 39°30′ N., 73°45′ W.; 40°15′ N., 73°15′ W.; 41°15′ N., 69°30′ W.; 42°00′ N., 69°30′ W.; 42°40′ N., 70°10′ W.; 43°10′ N., 70°00′ W.; 44°30′ N., 67°07′ W.; 44°30′ N., 66°45′ W. (point of beginning).

* * * * *

4. Section 620.23 is amended as follows:

§ 620.23 *International Boundary ADIZ's*—(a) *Canadian (International) Boundary ADIZ.* A line from 44°30′ N., 66°45′ W.; 44°30′ N., 67°07′ W.; 44°46′ 36″ N., 66°54′11″ W.; westerly along the U. S.-Canada International Boundary to 46°00′ N., 70°18′14″ W. and from 46°00′ N., 83°26′05″ W. westerly along the U. S.-Canada International Boundary to 48°29′38″ N., 124°43′35″ W.

(b) *Mexican (International) Boundary ADIZ.* A line from 32°05′30″ N., 113°30′ W. westerly along the U. S.-Mexico International Boundary to 32°32′03″ N., 117°07′25″ W. to 32°30′ N., 117°20′ W.

(Sec. 205, 52 Stat. 984, as amended; 49 U. S. C. 425. Interpret or apply secs. 1201–1204, 64 Stat. 825; 49 U. S. C. Sup. 701–704)

This amendment shall become effective May 1, 1954.

[SEAL] F. B. LEE,
Administrator of Civil Aeronautics.

TITLE 18—CONSERVATION OF POWER

Chapter I—Federal Power Commission

[Docket No. R-135; Order No. 170]

PART 20—AUTHORIZATION OF THE ISSUANCE OF SECURITIES BY LICENSEES AND COMPANIES SUBJECT TO SECTIONS 19 AND 20 OF THE FEDERAL POWER ACT

PART 34—APPLICATION FOR AUTHORIZATION OF THE ISSUANCE OF SECURITIES OR THE ASSUMPTION OF LIABILITIES

APPLICABILITY

In the matter of amendment of §§ 20.1 and 34.1 of the Commission's general rules and regulations; Docket No. R-135, Order No. 170.

By this order, the Federal Power Commission is (1) amending § 20.1 (18 CFR 20.1), of its general rules and regulations (rules), by substituting therefor two new sections, to be designated as §§ 20.1 and 20.2, incorporating certain changes which were shown, by the Commission's experience under the present § 20.1, to be necessary for the exercise of the regulatory powers over the issuance of securities, conferred upon the Commission by sections 19 and 20 of Part I of the Federal Power Act (act), in a manner consistent with the exercise of those regulatory powers concerning similar matters conferred upon it by section 204 of Part II of the act; and (2) amending § 34.1 (18 CFR 34.1), of the rules by incorporating therein those minor language changes which consistency dictates to be necessary as a consequence of the changes referred to in (1) above.

The present rule in requiring prior Commission approval of a security issuance by a licensee of the Commission which is a public service company or other company coming within the provisions of sections 19 or 20 of the act except where,

(1) Within the purview of section 19 of the act, "a State in which such licensee or other company included within the provisions of this section [19], is operating in the public service shall have provided a commission or other agency for the regulation and control of the amount and character of securities to be issued by such licensee or company," or

(2) Within the purview of section 20 of the act, "the power or any part thereof generated by such licensee shall enter into interstate commerce and the States concerned agree, through their properly constituted authorities, on the amount or character of securities proposed for issuance,"

it appears, may work inconsistent results, under Parts I and II of the act, in those situations wherein the issuer, of the security thus required to be approved, would be without the scope of any similar requirement under the regulation contemplated by section 204 of the act.

Within the discretion implicit within the provisions of sections 19 and 20 of the act, it was the Commission's intention in adopting the existing rule that security regulation under those provisions be exercised consistently with that under section 204 of the act, insofar as possible.

Accordingly, the Commission by this amendment of § 20.1 of its rules is making plain its intention that prior Commission approval of any security issuance within the provisions of sections 19 or 20 of the act shall not be required if issued by a person organized and operating in a State under the laws of which its security issues are regulated by a State Commission or by anyone enumerated in subsection 201 (f) of the act, in the absence of a special proceeding to provide such regulation.

The Commission finds:

(1) Adoption and promulgation of the respective amendments to the rules as hereinafter ordered and provided are necessary and appropriate for carrying out the provisions of the Federal Power Act.

(2) From the circumstances as set forth in the recital above, it appears that good cause exists and it is unnecessary in the public interest that notice and public proceedings be had prior to the adoption of such amendments.

The Commission, acting pursuant to authority granted by the Federal Power Act, particularly section 3 (16) (41 Stat. 1063, 49 Stat. 838, 16 U. S. C. 796), sections 19 and 20 (41 Stat. 1073; 16 U. S. C. 812, 813), 204 and 309 (49 Stat. 850; 16 U. S. C. 824c, 825h), and subject to the provisions of section 4 of the Administrative Procedure Act (60 Stat. 238, 5 U. S. C. 1003), orders:

(A) Effective as of the date of issuance of this order, § 20.1 (18 CFR 20.1), of the rules be and the same is hereby amended by substituting therefor two new sections, to be designated as §§ 20.1 and 20.2, reading as follows:

§ 20.1 *Applicability*—(a) *Without special proceeding for regulation.* Every security issue within the scope of the jurisdiction conferred upon the Commission by sections 19 and 20 of the Federal Power Act shall be subject to the provisions of § 20.2, except a security issue by a person organized and operating in a State under the laws of which its security issues are regulated by a State commission, or by any one described in subsection 201 (f). No other security issue within the scope of sections 19 and 20 shall be subject to § 20.2 except as provided in paragraph (b) of this section.

(b) *Reservation of possibility of regulation in other cases.* Not later than 10 days prior to any proposed security issuance which is within the scope of section 19 or section 20 of the act, but excepted by paragraph (a) of this section, any person or state entitled to do so under section 19 or section 20, may file a complaint or request in accordance with the applicable rules of the Commission, or the Commisison upon its own motion may by order initiate a proceeding, raising the question whether issuance of such security should be subjected by Commission order to the provisions of § 20.2. After notice of such filing or order, and until such request or complaint is denied or dismissed or the proceeding initiated by such order is terminated without subjecting the issuance of the security to the provisions of § 20.2, the security in question shall not be issued except it be issued subject to and in compliance with § 20.2.

§ 20.2 *Regulation of issuance of securities.* The licensee or other person issuing or proposing to issue any security subjected to this section by or pursuant to § 20.1, shall be subject to and shall comply with the same requirements as the Commission would administer to it if it were a public utility issuing the security within the meaning and subject to the requirements of section 204 of the act and Part 34 of this subchapter.

(B) Effective as of the date of issuance of this order, § 34.1 (18 CFR 34.1) of the rules be and the same is hereby amended through incorporation of the underlined portions hereinafter set forth to read as follows:

§ 34.1 *Applicability.* The requirements of this part will apply to licensees and others seeking authority under sections 19 and 20 of the Federal Power Act (41 Stat. 1073; 16 U. S. C. 812, 813) in accordance with Part 20 of this subchapter and to public utilities seeking authority under section 204 of the Federal Power Act (49 Stat. 850; 16 U. S. C. 824c).

(C) The Secretary of the Commission shall cause prompt publication of this order to be made in the FEDERAL REGISTER.

(Sec. 4, 48 Stat. 1066, as amended; 47 U. S. C. 154)

Adopted: March 31, 1954.

Issued: April 2, 1954.

By the Commission.

[SEAL] LEON M. FUQUAY,
Secretary.

[F. R. Doc. 54-2601; Filed, Apr. 7, 1954; 8:50 a. m.]

TITLE 21—FOOD AND DRUGS

Chapter I—Food and Drug Administration, Department of Health, Education, and Welfare

PART 3—STATEMENTS OF GENERAL POLICY OR INTERPRETATION

LABELING OF IMPORTED CRABMEAT

Pursuant to section 3 of the Administrative Procedure Act (60 Stat. 237, 238), the following statement of policy is issued:

§ 3.34 *Labeling of imported crabmeat.* (a) For many years canned crabmeat has been imported into the United States from Japan. Such imports have consisted primarily of a product designated as "King crabmeat." There have been limited importations of articles designated as "Korean crabmeat" and "Snow crabmeat." Two closely allied species of crab have been packed in Japan for export to the United States, under the designation "King crabmeat." These species are Paralithodes camtschatica (taraba-gani) and Paralithodes platypus (abura-gani). A third species of crab, Paralithodes brevipes, has been labeled either as "King crabmeat" or "Hanasaki crabmeat" when intended for export to the United States. The Department of Health, Education, and Welfare considers the term "King crabmeat" as an acceptable common name for the product prepared from any one of the three species Paralithodes camtschatica, Paralithodes platypus, and Paralithodes brevipes. The Department also considers the name "Hanasaki crabmeat" as an alternative common name for the product prepared from Paralithodes brevipes.

(b) Prior to World War II, there was a limited pack of crabmeat from the species Erimacrus isenbeckii at canneries located on the coast of Korea, but only a small quantity of this product was imported into the United States. To distinguish the product from the various species of Paralithodes and to connote its geographic origin, the article was designated by the name "Korean crab." For the past several years there has been a limited amount of the species Erimacrus isenbeckii packed in Japan or on Japanese factory ships operating in the Bering Sea. This species of crab is generally known in Japan as "Kegani." This product, packed in Japan, when offered for entry into the United States has been designated by a variety of names, including "Korean crabmeat," "Snow crabmeat," "Eliza crabmeat," "Kegani crabmeat," and "Zuwai crabmeat," with resulting confusion to importers and consumers. The term "Korean crab" is no longer applicable to the product as an indication of its geographic origin. The long absence of the product from the domestic market, until its recent reintroduction under a variety of names, has largely eliminated consumer recognition of the identity of the product under the name "Korean crabmeat." The Department therefore considers the designation "Korean variety crabmeat" or, alternatively, "Kegani crabmeat" as suitable common names for the product packed from the species Erimacrus isenbeckii.

(c) There has also been a limited pack of Chionoectes opilio (zuwai-gani) offered for entry into the United States. This product has for many years been designated by the name "Snow crabmeat." The Department regards the designation "Snow crabmeat" as the common or usual name for the product when distributed in the United States.

(d) Section 403 (i) (1) of the Federal Food, Drug, and Cosmetic Act requires that the label of a food for which there is no definition and standard of identity shall bear the common or usual name of the food, if any there be. No definition and standard of identity has been established for crabmeat under the act. The Department of Health, Education, and Welfare regards the label designations for canned crabmeat prepared from the various species of crab as stated in paragraphs (a), (b), and (c) of this section as satisfactory compliance with section 403 (i) (1), of the act.

(Sec. 701, 52 Stat. 1055; 21 U. S. C. 371. Interprets or applies sec. 403, 52 Stat. 1048; 21 U. S. C. 343)

Dated: April 2, 1954.

[SEAL] OVETA CULP HOBBY, *Secretary.*

[F. R. Doc. 54-2608; Filed, Apr. 7, 1954; 8:51 a. m.]

PART 146—GENERAL REGULATIONS FOR THE CERTIFICATION OF ANTIBIOTIC AND ANTIBIOTIC-CONTAINING DRUGS

PART 146a—CERTIFICATION OF PENICILLIN AND PENICILLIN-CONTAINING DRUGS

PART 146b—CERTIFICATION OF STREPTOMYCIN (OR DIHYDROSTREPTOMYCIN) AND STREPTOMYCIN- OR DIHYDROSTREPTOMYCIN-CONTAINING DRUGS

PART 146e—CERTIFICATION OF BACITRACIN AND BACITRACIN-CONTAINING DRUGS

MISCELLANEOUS AMENDMENTS

By virtue of the authority vested in the Secretary by the provisions of the Federal Food, Drug, and Cosmetic Act (sec. 507, 59 Stat. 463, as amended by 61 Stat. 11, 63 Stat. 409, 67 Stat. 389; sec. 701, 52 Stat. 1055; 21 U. S. C. 357, 371; 67 Stat. 18), the regulations for certification of batches of antibiotic and antibiotic-containing drugs (21 CFR, Parts 146, 146a, 146b, 146e; 18 F. R. 2335, 7673; 19 F. R. 672, 674, 1171, 1421) are amended as indicated below:

1. In § 146.25 *Penicillin for use in animal feed* • • •, change the citation reference "§ 146a.62", in the introduction to the section and in paragraph (b) to read "§ 146.26".

2. In § 146a.66 *l-Ephenamine penicillin G for aqueous injection,* subparagraph (1) (iii) of paragraph (c) *Labeling* is amended by changing the colon after the word "certified" to a comma and by changing the remainder of subdivision (iii) to read as follows: "except that the blank may be filled in with the date which is 24 months after the month in which the batch was certified if the person who requests certification has submitted to the Commissioner results of tests and assays showing that after having been stored for such period of time such drug as prepared by him complies with the standards prescribed by paragraph (a) of this section: *Provided, however,* That such expiration date may be omitted from the immediate container if such immediate container is packaged in an individual wrapper or container;"

3. In § 146b.111 *Streptomycin-kaolin-pectin-aluminum hydroxide gel powder veterinary* • • •, subparagraph (1) (iv) of paragraph (c) *Labeling* is amended by changing the colon after the word "certified" to a comma and adding the following clause: "except that the blank may be filled in with the date which is 24 months after the month in which the batch was certified if the person who requests certification has submitted to the Commissioner results of tests and assays showing that after having been stored for such period of time such drug as prepared by him complies with the standards prescribed by paragraph (a) of this section: *Provided, however,* That such expiration date may be omitted from the immediate container if such immediate container is packaged in an individual wrapper or container."

4a. Section 146e.411 (a) (2) is amended to read:

§ 146e.411 *Bacitracin-neomycin ointment.* (a) • • •

(2) It may contain hydrocortisone or a suitable ester of hydrocortisone.

b. Section 146e.411 (a) (3) is amended by adding the following new sentence at the end thereof: "If it contains hydrocortisone or an ester of hydrocortisone and it is intended for use by humans, its outside wrapper or container shall bear the statement 'Caution: Federal law prohibits dispensing without prescription'."

(Sec. 701, 52 Stat. 1055; 21 U. S. C. 371)

Notice and public procedure are not necessary prerequisites to the promulgation of this order, and I so find, since it was drawn in collaboration with interested members of the affected industry and since it would be against public interest to delay providing for the amendments set forth above.

This order shall become effective upon publication in the FEDERAL REGISTER, since both the public and the affected industry will benefit by the earliest effective date, and I so find.

Dated: April 2, 1954.

[SEAL] OVETA CULP HOBBY, *Secretary.*

TITLE 32—NATIONAL DEFENSE

Chapter VII—Department of the Air Force

Subchapter F—Reserve Forces

PART 861—OFFICERS' RESERVE

SHORT AND SPECIAL TOURS OF ACTIVE DUTY

Section 861.1155 is revised to read as follows:

§ 861.1155 *Place of duty.* All reservists ordered to short or special tours of active duty will perform the duty at the place to which assigned, unless otherwise ordered. Reservists not on active duty who are assigned to activities located within the zone of interior will not be ordered to short tours of active duty for training at places located outside the continental limits of the United States; nor will they be ordered to duty within the zone of interior and then placed on temporary duty outside the United States.

AUTHORITY: §§ 886.1 to 886.21 issued under R. S. 161, sec. 202, 61 Stat. 500, as amended; 5 U. S. C. 22, 171a.

DERIVATION: AFR 35-62.

GENERAL PROVISIONS

§ 886.1 *Purpose.* The regulations contained in this part prescribe the standard, criteria, and administrative procedures for the discharge of military personnel from the Air Force and the rejection of applicants for appointment or enlistment in the Air Force, when retention in or acceptance into the Air Force is not clearly consistent with the interests of national security. The regulations in this part do not preclude trial by courts-martial when such action is considered appropriate by commanders exercising court-martial jurisdiction, nor do they preclude separation under other applicable regulations on grounds other than security. Further, the regulations in this part should not be used in those cases in which security is not the primary reason for initiation of discharge action (see § 886.5 (f)).

§ 886.2 *Policy.* (a) The Air Force will assume that the acceptance or retention of any officer or airman is clearly consistent with the interests of national security unless information to the contrary is received. However, because of the vital role of the Air Force in national defense, when information which raises the question of security is received, action will be taken to determine whether acceptance or retention of any individual is clearly consistent with the interests of national security.

(b) A person who has been discharged under this part, or whose records reflect that he was separated from the Air Force under other authority prior to final determination after action has been initiated under this part, will not be

appointed or enlisted in the Air Force without the specific approval of the Secretary of the Air Force. Action will be considered to have been initiated as of the date that the Deputy Chief of Staff, Personnel, approves such recommendation of the Military Personnel Security Committee.

§ 886.3 *Reporting information.* (a) Every person in the Air Force will report to his commander information of any sort which may come to his attention which indicates that retention of any member of the military service is not clearly consistent with the interests of the national security. Reports concerning personnel of the Air Force Reserve not on active duty will be referred to the Commander, Air Reserve Records Center (ConAC), 3800 York Street, Denver 5, Colorado. Reports concerning personnel in active military service with the Air Force will be forwarded through channels to the commander of the person who has an inspector general or wing inspector assigned. If the status of the personnel concerned is unknown or if other reasons so indicate, the report will be forwarded through channels to The Inspector General, Headquarters USAF, Attention: Director of Special Investigations, Washington 25, D. C.

(b) Investigations by activities of the Air Force establishment will develop all relevant facts in favor of, as well as against, an investigated person, with special emphasis being given to that information which supports or refutes an allegation stemming from the "criteria" hereinafter described. Whenever possible, information will be so presented that its use is not precluded in the interests of national security and, sufficient information will be reported about informants whose identities are not disclosed to permit adequate evaluation of the information furnished by them.

STANDARD AND CRITERIA

§ 886.4 *Standard.* The basic standard for discharge of military personnel and the rejection of persons for military service will be: That based on all the available information, retention in or acceptance into the Air Force is not clearly consistent with the interests of national security.

§ 886.5 *Criteria for application of standard*—(a) *National security.* As used herein, the term "national security" relates to the protection and preservation of the military, economic, and productive strength of the United States, including the security of the Government in domestic and foreign affairs, against or from espionage, sabotage, and subversion, and any and all other illegal acts designed to destroy or weaken the United States.

(b) *Sensitive and nonsensitive positions.* An officer or warrant officer of the Air Force holds a sensitive position by virtue of his commission or appointment and, therefore, in a case involving an officer or warrant officer his duties and responsibilities in his present assignment will not be considered. Likewise, airmen whose qualifications would normally require that they have access to classified information, their duties and responsibilities in their present assignments need not be considered. On the other hand, airmen whose grade or education and training do not qualify them for assignment to duties which require access to classified information, may be assigned to nonsensitive positions provided that such assignment will not endanger the national security. Nothing herein will serve to preclude the use of assignment to nonsensitive positions as a security measure; however, indefinite assignment to such positions will be made only upon the approval by Headquarters USAF of the recommendation of a board of officers. Upon receipt of a completed investigation, commanders must initiate one of the actions prescribed in § 886.7 on persons assigned to nonsensitive positions for security reasons.

(c) *Factors to be considered in making security determination.* In making the security determination, consideration must be given to loyalty, habits, activities, attitudes, associations, trustworthiness, and discretion, and their bearing on the question, of whether, because of access to Government installations, information and material by virtue of being in the military service, an individual might, either intentionally or inadvertently, disclose classified information to unauthorized persons or otherwise act against the security interests of the United States.

(d) *Grounds for initiation of action.* The following or similar reasons warrant initiation of action:

(1) Commission of any act of sabotage, espionage, treason or sedition, or attempts thereat or preparation therefor, or conspiring with, or aiding or abetting another to commit or attempt to commit any act of sabotage, espionage, treason, or sedition.

(2) Establishing or continuing a sympathetic association with a saboteur, spy, traitor, seditionist, anarchist, or revolutionist, or with an espionage or other secret agent or representative of a foreign nation, or any representative of a foreign nation whose interests may be inimical to the interests of the United States, or with any person who advocates the use of force or violence to overthrow the Government of the United States or the alteration of the form of Government of the United States by unconstitutional means.

(3) Advocacy of use of force or violence to overthrow the Government of the United States, or of the alteration of the form of Government of the United States by unconstitutional means.

(4) Membership in, or affiliation or sympathetic association with, any foreign or domestic organization, association, movement, group, or combination of persons which is totalitarian, Fascist, Communist, or subversive, or which has adopted, or shows, a policy of advocating or approving the commission of acts of force or violance to deny other persons their rights, under the Constitution of the United States, or which seeks to alter the form of Government of the United States by unconstitutional means.

(5) Willful violation or disregard of security regulations.

(6) Intentional unauthorized disclosure to any person of classified information, or of other information disclosure of which is prohibited by law.

(7) Performing or attempting to perform his duties, or otherwise acting, so as to serve the interests of another government in preference to the interests of the United States.

(8) Refusal by the individual, upon the ground of constitutional privilege against self-incrimination, to testify before a congressional committee regarding charges of his alleged disloyalty or other misconduct.

(9) Participation in the activities of an organization established as a front for an organization referred to in subparagraph (4) of this paragraph, when his personal views were sympathetic to the subversive purposes of such organization.

(10) Participation in the activities of an organization with knowledge that it had been infiltrated by members of subversive groups under circumstances indicating that the individual was a part of or sympathetic to the infiltrating element or sympathetic to its purposes.

(11) Participation in the activities of an organization referred to in subparagraph (4) of this paragraph in a capacity where he should reasonably have had knowledge of the subversive aims or purposes of the organization.

(12) Sympathetic association with a member or members of an organization referred to in subparagraph (4) of this paragraph. (Ordinarily, this will not include chance or occasional meetings, or contacts limited to normal business or official relations.)

(13) Currently maintaining a close continuing association with a person who has engaged in activities or associations of the type referred to in subparagraphs (1) through (11) of this paragraph. A close continuing association may be considered to exist if the individual lives at the same premises as, frequently visits, or frequently communicates with such person.

(14) Close continuing association of the type described in subparagraph (13) of this paragraph, even though later separated by distance, if the circumstances indicate that renewal of the association is probable.

(15) Any facts which furnish reason to believe that the individual may be subjected to coercion, influence, or pressure which may cause him to act contrary to the best interests of the national security. Among matters which should be considered in this category would be the presence of a spouse, parent, brother, sister, or offspring in a nation, a satellite thereof, or an occupied area thereof, whose interests might be inimical to the United States.

(16) Any deliberate misrepresentations, falsifications, or omission of material facts.

(17) Any criminal, infamous, dishonest, immoral, or notoriously disgraceful conduct, habitual use of intoxicants to excess, drug addiction, or sexual perversion.

(18) An adjudication of insanity, or treatment for serious mental or neuro-

logical disorder without satisfactory evidence of cure.

(19) All other behavior, activities, or associations which tend to show that the individual is not reliable or trustworthy.

(e) *Application of criteria.* The activities and associations listed in paragraph (d) of this section are of varying degrees of seriousness. Therefore, the ultimate determination of whether acceptance or retention in the Air Force is clearly consistent with the interests of national security must be an over-all common sense one based on all available information.

(f) *Discharge under appropriate regulations.* Persons who fall within the criteria prescribed in paragraphs (d) (16) through (19) of this section, are examples of persons whose retention may not be clearly consistent with the interests of national security. However, action under this part will not be initiated unless action under other regulations has been determined to be inappropriate.

(g) *Proscribed organizations.* A list of organizations designated by the Attorney General is set forth in Air Force Regulation 124–5. Membership in, affiliation with, or sympathetic association with one of those organizations is simply one piece of information which will be considered in arriving at a conclusion as to the action which is to be taken in a particular case.

NOTE: The list of organizations designated by the Attorney General as coming within the purview of E. O. 10450, April 27, 1953, also appear at 18 F. R. 2714, 4240, 6364; and 19 F. R. 655.

§ 886.6 *Type of discharge.* Personnel whose discharge is ordered under this Part ordinarily will be discharged under honorable conditions; however, unless otherwise prescribed by law, personnel may be discharged under other than honorable conditions upon approval of the recommendation of a board of officers. Entry in item 8, DD Form 214, "Report of Separation From the Armed Forces of the United States" will be "AFR 35–62."

PROCESSING OF CASES

§ 886.7 *Action by commander.* (a) Action may be initiated as a result of information received during routine investigation for clearance or as a result of information received as outlined in § 886.3.

(b) A commander receiving a report as outlined in § 886.3 will refer this report to his inspector general or wing inspector who will, in turn, forward a request for investigation to the appropriate district commander, Office of Special Investigations.

(c) During an investigation or upon its completion, the commander will take such interim action as may be considered necessary to preserve the security of his command, including measures designed to deny the investigated person access to classified information. If an investigation is pending, the commander will consult with the nearest representative of the investigative agency prior to effecting a change in duty assignment or clearance status in order to determine whether such action will prejudice the investigation.

(d) Within 10 days following receipt of the results of the investigation requested, or other completed investigation, the commander will initiate action as prescribed in subparagraphs (1) and (2) of this paragraph. A recommendation for "no action" may be made only after receipt of the completed investigation. Further, the commander will include a statement that trial by court-martial or action under other regulations has been considered and is not considered appropriate.

(1) If the commander determines that retention of the individual is clearly consistent with the interests of national security as defined in § 886.5 (a), he will recommend that the case be closed and will forward copies of the reports of investigations and all other information considered with his recommendation through command channels to The Inspector General, Headquarters USAF, Attention: Director of Special Investigations, Washington 25, D. C. The commander will retain copies of all information pertinent to the case in a special file, pending receipt of instructions from the Director of Military Personnel, Headquarters USAF, concerning that file. The commander will provide the appropriate district commander, Office of Special Investigations, with an information copy of the action taken.

(2) If the commander determines that action should be initiated, he will forward his recommendations and reasons therefor, together with copies of the reports of investigations and all other information considered through command channels to The Inspector General, Headquarters USAF, Attention: Director of Special Investigations, Washington 25, D. C. Copies of all information pertinent to the case will be retained in a special file. Unless the following material is already in the file, the commander will include in the file a copy of all security investigative data forms such as DD Form 98, "Loyalty Certificate," and WD AGO Form 643A or DD Form 398, "Statement of Personal History," which the individual has completed, and other similar documents and information which are available to him. If a statement of personal history is not available, the individual will be requested to complete a DD Form 398. If the individual is an airman, the commander will also include a copy of DA AGO Form 20, "Soldier's Qualification Card." The commander will provide the appropriate district commander, Office of Special Investigations, with an information copy of the action taken. Commanders will take necessary action to assure that personnel upon whom action is recommended are not reassigned from the major air command or placed on duty outside the continental United States pending final action under this part, unless otherwise specifically authorized by the Director of Military Personnel, Headquarters USAF.

§ 886.8 *Action by Headquarters USAF.* (a) All cases arising under this part will be reviewed by the Military Personnel Security Committee. Action will be initiated to discharge only after such review and upon the approval of the Deputy Chief of Staff, Personnel.

(b) If the person is not serving in active military service and is a civilian employee of the Air Force establishment, the Director of Special Investigations will forward the case with his recommendation to the Executive Secretary, Central Security Board, for review under Part 889 of this chapter (19 F. R. 1503) When a decision is made under Part 889 of this chapter, a copy of this decision, together with the complete record in the case, will be forwarded to the Director of Military Personnel for consideration by the Military Personnel Security Committee. Actions hereinafter prescribed will then be taken.

(c) If the person does not come within the purview of paragraph (b) of this section, the Director of Special Investigations will forward the case to the Deputy Chief of Staff, Personnel, for consideration by the Military Personnel Security Committee together with a recommendation, and a summary of essential facts upon which the recommendation is based, so presented as to provide clearly a basis for the preparation of specific reasons if, in the opinion of the Military Personnel Security Committee, issuance of a statement of reasons appears warranted.

(d) Whenever the Committee considers it appropriate, a written interrogatory will be prepared and forwarded to the Office of Special Investigations for transmittal to the person or for personal interrogation of the person. The person will be informed that his answers will be considered in determining the action to be taken, and that he is not required to give any answers which might incriminate him.

(e) The Committee may return the case to the Director of Military Personnel with a request for further investigation.

(f) The Committee will make one of the following recommendations and/or such other recommendations as it considers appropriate to the Deputy Chief of Staff, Personnel, stating its reasons for each recommendation:

(1) That the case be submitted to the officer exercising general court-martial jurisdiction for consideration of trial by court-martial.

(2) That action be initiated to discharge under this part. (The Committee will prepare a proposed statement of reasons.)

(3) That the case be considered under Air Force Regulation (appropriate regulation) before being considered further under this part.

(4) That no action be initiated inasmuch as the individual's retention is clearly consistent with the interests of national security.

(g) The Deputy Chief of Staff, Personnel, will instruct the Director of Military Personnel to take one of the actions mentioned in paragraph (f) of this section, or such other action as he considers proper.

(h) In the event consideration of trial by court-martial is directed, the Director of Military Personnel will forward the case to the officer exercising general court-martial jurisdiction. If the officer exercising general court-martial jurisdiction thereafter determines that trial is not appropriate, he will return all papers in the case to the Director of Military Personnel.

(i) If institution of discharge procedures is directed, the Director of Military Personnel will take one of the following actions, as appropriate:

(1) In the case of a Regular commissioned officer with 3 or more years' continuous active commissioned service subsequent to his acceptance of a current Regular commission, the file, including the "statement of reasons" by the Committee, as approved, will be processed under current regulations governing removal from the active list.

(2) In the case of any other Regular officer, or warrant officer, non-Regular commissioned or warrant officer, or airman, the file will be referred to the commander of the major air command concerned for transmission to the appropriate subordinate commander.

(j) Upon approval by the Deputy Chief of Staff, Personnel, of the "no action" recommendation, the Director of Military Personnel will notify the commander concerned of the decision of Headquarters USAF and direct that all information pertinent to the case be removed from the individual field personnel records and the special file, and that a copy of the letter directing those actions be placed in the respondent's field personnel records. Further, the commander will notify the appropriate district office, Office of Special Investigations, of this action.

§ 886.9 *Notice of proposed termination and statement of reasons.* (a) When a case is referred to a subordinate commander under § 886.8 (i) (2), the Director of Military Personnel will prepare in letter form and forward with the file a "Notice of Proposed Termination of Appointment or Enlistment." The subordinate commander will have the notice delivered to the respondent in person, if practicable, and will obtain a signed receipt therefor. If personal delivery is not practicable, the notice will be sent to the respondent by registered mail, with return receipt "addressee only" requested.

(b) The notice will include the "statement of reasons" of the Committee as approved by the Deputy Chief of Staff, Personnel. The "statement of reasons" will be in sufficient detail to enable the individual to prepare his defense and will be as complete as, in the opinion of the Committee, security considerations permit.

(c) The notice will refer specifically to the regulations contained in this part, and a copy of it (AFR 35–62) will be attached. The notice will also refer specifically to § 886.6 relating to the types of discharges which may be given.

(d) The notice will inform the respondent that:

(1) He may request retirement or transfer to the Retired Reserve, if eligible, or, if an officer, he may tender his resignation, or if an airman, he may request discharge, in lieu of further proceedings under this part.

(2) He may answer the statement of reasons in writing within 30 days of his receipt of the notice, and submit, in connection with his answer, such statements, affidavits, or other documentary evidence to justify his retention as he may desire.

(3) He may request a hearing before a hearing board.

(4) He may present evidence, appear in person with or without counsel, or be represented by counsel before the hearing board.

(i) Military counsel will be provided at Government expense.

(ii) Military counsel of his choice will be provided, if, in the opinion of the commander concerned, such person is reasonably available.

(iii) Civilian counsel may be retained at no expense to the Government.

(iv) The board will assist him in procuring witnesses who are reasonably available.

(v) Ordinarily, he may cross-examine witnesses (see § 886.12 (b)).

(vi) He may challenge, for cause only, members of the board.

(vii) He will not be entitled to reimbursement for expenses incurred incident to the appearance or assistance of civilian witnesses or counsel.

(viii) If not in active military service, he will not be entitled to any expenses (including travel) incurred incident to his appearance.

(5) He will acknowledge receipt by indorsement within 5 days and that his indorsement will include:

(i) Date and time notice is received.

(ii) Whether he intends to resign or request discharge in lieu of further proceedings.

(iii) Whether he intends to request retirement, if eligible.

(iv) Whether he intends to answer charges in writing or submit documentary evidence.

(v) Whether he desires to appear before a hearing board, with or without counsel, or be represented by counsel.

(vi) A statement that he has withdrawn the inclosures marked "Respondent."

(e) The notice will advise the respondent that if his reply has not been received within 45 days of his receipt of the notice, his case will be considered on the complete file and without further reference to or representation from him. Further, in such event, his signature on a receipt will constitute his statement in writing that he does not desire to appear or be represented before the board.

(f) If the respondent is an airman, the notice will advise him that all commissions or appointments in the Air Force held by him will also be terminated if he is discharged as a result of this action.

(g) If the respondent is entitled to enlistment as a Regular airman or appointment as a Regular warrant officer in the Air Force, either as a selectee or vacatee, the notice will advise him that such enlistment or appointment may be effected only upon the express approval of the Secretary of the Air Force if he is discharged as a result of this action.

§ 886.10 *Hearing boards.* (a) The commanders of major air commands will appoint and convene hearing boards required under this part. The order will recite the fact that the board is appointed by authority of the Secretary of the Air Force. Prior to convening hearing boards, commanders of major air commands will thoroughly brief board members of their responsibility to carry out the policies announced in this part. In the interest of uniformity, insofar as practical, membership of the board should be stable. Composition of the board for consideration of any particular case will consist of not less than three officers, one of whom will be a Judge Advocate.

(1) All voting members will be serving in the grade of major or above and will be senior to the respondent in both permanent and temporary grade, except that if utilization of a field grade Judge Advocate is impracticable because of exigencies of the service, such member need only be senior in permanent and temporary grade to respondent.

(2) If the respondent is a female, a female officer will be appointed to serve in an advisory, nonvoting capacity.

(3) If the respondent is a member of a Reserve component, a majority of the board members will be Reserve officers.

(b) A standing board in which the numerical strength far exceeds the required membership will not be appointed. Where one or more standing boards are desired for referral of appropriate cases, such boards will be appointed individually with board membership as stated in paragraph (a) of this section, and in addition thereto, three alternate members.

(c) The commander concerned will designate a recorder without vote for the board. The recorder will execute the orders of the board and will supervise the preparation and maintenance of the verbatim record of proceedings.

§ 886.11 *Preparatory action by hearing boards.* (a) On receipt of the file from the commander, the members of the hearing board will review the file in order that they may be informed in advance of those areas in the case which will require exploration and explanation at the hearing. Every possible effort will be made to avoid forming any opinion on the eventual determination of the case until the hearing is concluded and the record complete.

(b) If a hearing is requested, the board will set a time and place for such hearing, giving proper consideration to the convenience of the respondent and the time needed to prepare his defense. Notice of the time and place for such hearing will be delivered or sent to the respondent in the same manner as the "Notice of Proposed Termination of Appointment or Enlistment," and written receipt obtained. The date of the hearing should normally be set at least 5 days after the date upon which the notice may be expected to reach the respondent. The notice will further advise the respondent that:

(1) He may request reasonable postponement of the hearing to obtain evidence and prepare his case.

(2) If he fails without reasonable excuse to appear at the time and place set

for the hearing, the board will consider the case on the complete file.

(c) If the respondent does not resign, apply for retirement, or elect discharge and does not request a hearing, the board will nevertheless give the respondent notice as provided in paragraph (b) of this section, of the time and place at which the board plans to consider the case. The notice will state that, despite his failure to request a hearing, he may appear with his counsel or other representatives and present evidence, and that his presence will greatly assist the board in its determination.

(d) If, after receipt of notification (see § 886.9), the respondent's reply is not received within 45 days or he fails to appear at the time and place set for the hearing, after inability to locate the respondent by reasonable efforts, or upon refusal by the respondent to accept delivery of registered mail, the board will consider the case upon the complete file in the respondent's absence. Dispatch of the registered mail notification and inquiries of local civil authorities or other persons who might reasonably be expected to assist in locating the respondent, will be considered to be reasonable efforts. When such action is taken a complete detailed report of the efforts made to locate the respondent, together with the registered mailing envelope (clearly marked "Return receipt requested—deliver to addressee only") or the signed return receipt will be forwarded with the board proceedings.

(e) When the respondent requests the assistance of the board in obtaining the attendance of witnesses, or when, in the opinion of the board, the testimony of persons not confidential informants might be helpful, the board may invite these witnesses or persons to appear and testify may endeavor to take their depositions, or may ask them to answer written interrogatories or to submit written statements. Hearing boards are not authorized to offer to pay the expenses of such witnesses. The refusal of such witnesses to cooperate with the board will be taken into consideration in determining the probative value of any information attributed to them in the file.

§ 886.12 *Hearings.* (a) Hearings will be conducted in such a way as to prevent unauthorized disclosure of classified information or compromise of investigative sources or methods. Disclosure will not be made which may compromise the identity of confidential informants. Classified information in the file will not be disclosed to the respondent or his counsel or person not requiring such information in the performance of official duties. As far as security considerations permit, however, the board's questions should cover all grounds for proposed discharge and should be designed to give respondent the fullest possible opportunity to explain or rebut all the information considered.

(b) The respondent and his counsel will be allowed to be present at all open sessions of the board. In exceptional circumstances, the board may take the testimony of a witness in executive session, but the fact that respondent had no opportunity to cross-examine will be considered in weighing such testimony. Witnesses will ordinarily be excluded from the hearing room except when testifying. Persons other than those having an official capacity in the case will not be permitted to be present during any of the proceedings.

(c) A verbatim transcript of the hearing will be made by a qualified reporter. At least four copies will be made, and one copy will be furnished to the respondent without cost to him. Any portion of the respondent's copy disclosing classified information will be deleted. A notation will be made on all copies retained by the Air Force of those portions which were deleted from the respondent's copy.

(d) Strict rules of evidence will not be followed, but reasonable bounds of relevancy, competency, and materiality will be maintained.

(e) The hearing will be called to order by the senior member of the board. He will state in substance that the board is not a court of law and strict rules of evidence and court procedure are not followed, that the hearing is an administrative inquiry to provide the respondent with an opportunity to be heard and to permit the board to inquire fully into the matters related to the case, and that the respondent can assist the board in arriving at a fair and just determination in the case by giving full and frank answers to all questions the board may have and by confining his presentation to matters related to the case.

(f) The recorder will then read the "Notice of Proposed Termination of Appointment or Enlistment," and the "Statement of Reasons." The order of further proceedings will lie in the discretion of the board, except that the respondent will have the right to make opening and closing statement either in person or by counsel. Ordinarily, the board will first present the unclassified information available to it, and the respondent will then be permitted to call such witnesses and introduce such evidence as he may consider appropriate. If the respondent does not have counsel, the board will assist him in making an orderly and complete presentation of his case.

(g) The respondent and each witness appearing before the board will be advised as follows:

> You may refuse to answer any question, make any statement, or produce any evidence before the board which may tend to incriminate you or which may tend to degrade you and is not material to the issue.

(h) All witnesses appearing before the board will be administered the following oath by the senior member:

> Do you solemnly swear (or affirm) that the testimony you are about to give in this case shall be the truth, the whole truth, and nothing but the truth, so help you God? (If affirmation is used, "So help you God" will be omitted.)

(i) The president of the board will advise the respondent that an announcement of the determination will not be made in his case except by the Secretary of the Air Force and that the findings and recommendations to be made by that board are not a final determination in the case, that the proceedings will be reviewed by the Air Force Personnel Board which board will recommend action considered appropriate to the Secretary of the Air Force, and that final decision in all cases rests with the Secretary of the Air Force. Therefore, the respondent will be encouraged to take advantage of the opportunity afforded him to submit additional brief, argument or information subsequent to his receipt of the corrected copy of the transcript of the hearing (see § 886.13 (h)).

(j) As soon as practicable, a transcript of the hearing will be provided the respondent for his review and comments. Within 5 days after the receipt of this copy of the transcript, the respondent or his counsel may file with the board such suggested corrections as he may desire and any such suggestions will become a permanent part of the file. The board will accept or reject such suggestions and notify the respondent or his counsel of its actions thereon. Corrections will be allowed solely for the purpose of conforming the transcript to the actual testimony. Marginal notes will be used in explanation of corrections made.

§ 886.13 *Findings and recommendations.* (a) As soon as practicable after the close of the hearing, the hearing board and the recorder will meet in executive session for the purpose of arriving at its findings and recommendations. The board will consider the complete file, including the original file, the transcript of testimony at the hearing, any brief submitted by the respondent and any other relevant information.

(b) The board will take into consideration the fact that the respondent may have been handicapped in his defense by the nondisclosure to him of classified information or by the lack of opportunity to cross-examine persons constituting sources of such information, and will weigh information carefully in the light of its recency, relative seriousness, attendant circumstances, whether it was given under oath, whether it is relevant, whether the person has had an opportunity to rebut it, and whether there is similar or supporting information.

(c) The board's findings and recommendations will be signed by all concurring members. Dissenting opinions will be filed.

(d) The findings will include a determination with respect to each of the statements set forth in the "Statement of Reasons" and an analysis of information and a detailed statement of reasoning upon which each finding is based. Even though the board determines that each of the statements is true, it need not necessarily find the respondent should be discharged.

(e) The findings will also include a separate finding in the following form with respect to security:

> The board finds on all the information that the respondent's retention in the Air Force (is) (is not) clearly consistent with the interests of national security.

(f) If the board finds favorably to the respondent, it will recommend retention.

(g) If the board finds unfavorably to the respondent, it will recommend that:

(1) If an officer, he be discharged from all commissions and appointments held by him in the Air Force, and, if the respondent is entitled to enlist as a Regular airman or appointment as a Regular warrant officer in the Air Force, either as a selectee or vacatee, that he not be enlisted or appointed, as appropriate.

(2) If an airman, he be discharged from his enlistment, and also that the respondent be discharged from all commissions or appointments in the Air Force held by him.

(3) A discharge under honorable conditions be given, or, if in the opinion of the board it is so warranted, that a discharge under other than honorable conditions be given.

(4) In the case of an airman, consideration be given to assignment to a nonsensitive position as prescribed in § 886.5.

(h) The board will deliver or send to the respondent, in the same manner as the "Notice of Proposed Termination of Appointment or Enlistment," a copy of the final transcript of the hearing together with a letter:

(1) Directing him to withdraw the enclosed copy of the hearing and to acknowledge receipt of the letter within 48 hours by indorsement thereon.

(2) Informing him that he may submit to the Director of Military Personnel, Headquarters USAF, Washington 25, D. C., within 20 days of receipt of the letter, any brief, argument, or further information he may desire to have brought before the Air Force Personnel Board, and, that failure to receive additional information within 30 days of his date of receipt of the final transcript of the proceedings will cause his case to be considered without further representation from or for him.

(3) Informing him that he will not appear in person or be represented before the Air Force Personnel Board unless so requested by the board.

(i) The original and one duplicate of the report of proceedings of the board is required by Headquarters USAF. Copies of the transcript referred to the respondent or counsel will not contain classified information and will not be designated as classified information. The report will be forwarded to the convening authority for his action and will then be forwarded through channels to the Director of Military Personnel, Headquarters USAF. The report will include a statement signed by the respondent which will include the following:

(1) A statement that the respondent has read and understands §§ 886.12 (j) and 886.13 (h) (including the subparagraphs thereof).

(2) Date of receipt of copy of the hearing.

§ 886.14 *Review.* (a) The Director of Military Personnel will forward all cases to the Air Force Personnel Board for review. The board may return the case with a request that additional information be obtained. The respondent will not be heard during this review unless his presence is desired by the board.

(b) The recommendation of the Air Force Personnel Board will be transmitted to the Secretary of the Air Force for review and final decision. Appropriate action will be taken in accordance therewith by the Director of Military Personnel.

§ 886.15 *Affect of favorable decision.* A final decision favorable to the individual ordinarily will not be reconsidered within the Air Force except upon the discovery of additional information. The records of such proceedings, together with the contents of any special file theretofore maintained on the respondent, will be forwarded, after the completion of the proceedings, to the Deputy Chief of Staff, Personnel and will not thereafter be available for examination without his permission. Nothing herein contained will relieve commanders of their responsibility for the security of their commands, nor deprive them of their authority over assignments and the extent of access to classified information.

REJECTION FOR MILITARY SERVICE

§ 886.16 *Rejection for military service.* In no case will any person who admits, or whose available records show, that he has at any time engaged in any of the activities listed in § 886.5 be appointed or enlisted in the Air Force without the specific approval of the Secretary of the Air Force.

§ 886.17 *Loyalty certificate.* The following persons will be required to read §§ 886.5 and 886.6 and requested to execute DD Form 98 "Loyalty Certificate," at the following times:

(a) Each applicant for appointment or enlistment, before his appointment or enlistment.

(b) Each member of a component of the Armed Forces voluntarily entering into active military service with the Air Force, immediately before such entry.

(c) Each inductee, member of a component of the Armed Forces entering into active military service with the Air Force other than voluntarily, and other nonvolunteers, at the earliest practicable time subsequent to their entry on active duty.

§ 886.18 *Applicants for appointment.* The completed certificate, DD Form 98, including a consolidated list of organizations designated by the Attorney General, will be attached as an inclosure to the application for appointment. If, after instruction, an applicant fails to execute the certificate in its entirety or indicates, in its execution, that there is any reason to believe that his appointment is not clearly consistent with the interests of national security, his appointment will be withheld and the applicant and allied papers will be forwarded to Director of Personnel Procurement and Training, Headquarters USAF, Attention: Personnel Procurement Division, Washington 25, D. C., for appropriate action and decision.

§ 886.19 *Applicants for enlistment.* When the person acknowledges that he is or has been a member of an organization designated by the Attorney General, the completed DD Form 98, DD Form 398, and any other pertinent data will be forwarded to Director of Personnel Procurement and Training, Headquarters USAF, Attention: Personnel Procurement Division, Washington 25, D. C., for determination on whether he should be enlisted.

§ 886.20 *Members of components of the Armed Forces.* (a) If a member of a component of the Armed Forces voluntarily entering into active military service with the Air Force acknowledges that he is or has been a member of an organization designated by the Attorney General, or if he refuses to sign a loyalty certificate, the procedures prescribed by §§ 886.7 to 886.15 will be followed.

(b) Action concerning a member of a component of the Armed Forces entering into active military service other than voluntarily will be as prescribed in § 886.21.

§ 886.21 *Inductees and other nonvolunteers.* Any inductee or other nonvolunteer who refuses to execute a loyalty certificate or makes any falsification or misrepresentation in executing a loyalty certificate or statement of personal history, or acknowledges that he is or has been a member of an Attorney General cited organization, will be retained in service pending investigation. The procedures prescribed by §§ 886.7 to 886.15 will be followed.

[SEAL] K. E. THIEBAUD,
Colonel, U. S. Air Force,
Air Adjutant General.

PROPOSED RULE MAKING

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

[7 CFR Part 924]

[Docket No. AO 225-A5]

HANDLING OF MILK IN THE DETROIT, MICH., MARKETING AREA

NOTICE OF HEARING ON PROPOSED AMENDMENTS TO TENTATIVE MARKETING AGREEMENT, AND TO ORDER, AS AMENDED

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), notice is hereby given of a public hearing to be held at the Park-Shelton Hotel, Woodward and Kirby Streets, Detroit, Michigan, beginning at 10:00 a. m., e. s. t., April 20, 1954, for the purpose of receiving evidence with respect to proposed amendments hereinafter set forth or appropriate modification thereof, to the tentative marketing agreement as heretofore approved by the Secretary of Agriculture and to the order, as amend-

ed, regulating the handling of milk in the Detroit, Michigan, marketing area (7 CFR 924.0 et seq.). The amendments proposed have not received the approval of the Secretary of Agriculture.

Amendments to the order, as amended, for the Detroit, Michigan, marketing area have been proposed as follows:

By the Michigan Milk Producers' Association:

1. It is proposed to amend § 924.6 (b) of Federal Milk Marketing Order No. 24 to read as follows:

(b) A person who operates a plant other than one described in paragraph (a) of this section (1) which is approved by the Department of Health of the City of Detroit, Ann Arbor, Pontiac or Port Huron for the handling of milk for consumption as Class I milk in the marketing area (2) from which not less than fifty (50) percent of the milk received at such plant in the months of September, October, November and December from dairy farms is moved to a plant described in paragraph (a) of this section and such fifty (50) percent is not in excess of the Class I requirements of the receiving plant after first allocating to such requirements all milk received at such plant from producers or cooperative associations (other than the plant making such qualifying shipments). For the purpose of this paragraph Class I requirements shall mean 115 percent of Class I utilization and all plants operated by one handler, or from which milk is moved to plants operated by one handler, or from which milk is moved to plants as described in paragraph (a) of this section by one cooperative shall be considered as a unit.

2. Make such other changes as are necessary to make the order conform with any amendments thereto that may result from the hearing.

Copies of this notice of hearing and of the order as now in effect may be obtained from the Market Administrator, 5701 Second Boulevard, Detroit 2, Michigan, or from the Hearing Clerk, Room 1353, South Building, United States Department of Agriculture, Washington 25, D. C., or may be there inspected.

Issued at Washington, D. C., this 5th day of April 1954.

ROY W. LENNARTSON,
Deputy Administrator.

Agricultural Research Service

[9 CFR Parts 71, 78, 80]

BRUCELLOSIS AND PARATUBERCULOSIS

INTERSTATE MOVEMENT OF ANIMALS

Notice is hereby given in accordance with section 4 of the Administrative Procedure Act (5 U. S. C. 1003) that, pursuant to the provisions of sections 6, 7, and 13 of the act of May 29, 1884, as amended (21 U. S. C. 114a-1, 115, 117), sections 1 and 2 of the act of February 2, 1903, as amended (21 U. S. C. 111-113, 120), and section 3 of the act of March 3, 1905, as amended (21 U. S. C. 125), it is proposed to amend Subchapter C, Chapter I, Title 9, Code of Federal Regulations, in the following respects:

1. Section 71.3 of Part 71 would be amended to read as follows:

§ 71.3 *Interstate movement of diseased animals generally prohibited.* Animals affected with splenetic fever, scabies, dourine, hog cholera, swine plague, vesicular exanthema, tuberculosis, brucellosis, scrapie, paratuberculosis, glanders, lip-and-leg ulceration, anthrax or other contagious, infectious, or communicable disease of livestock, or which are tick infested, shall not be moved interstate: *Provided, however,* That domestic animals which have reacted to a test recognized by the Secretary of Agriculture for brucellosis or paratuberculosis, which are not affected with any other disease referred to in this section and are not tick infested, may be moved interstate in accordance with the provisions of Subpart B of Part 78 of this subchapter in the case of brucellosis reactors and with the provisions of Part 80 of this subchapter in the case of paratuberculosis reactors, and that cattle which have reacted to the tuberculin test, which are not affected with any other disease referred to above and are not tick infested, may be moved interstate in accordance with the provisions of § 77.8 of this subchapter. Before offering cattle or other livestock for interstate transportation, transporting them interstate, or introducing them into any stockyards or upon routes of traffic for interstate transportation, all persons or corporations are required to exercise reasonable diligence to ascertain that such animals are not affected with any contagious, infectious, or communicable disease, and have not been exposed to the contagion or infection of any such disease by contact with other animals so diseased or by location in pens, cars, or other vehicles, or upon premises that have contained animals so diseased.

2. Part 78 would be amended to read as follows:

PART 78—BRUCELLOSIS IN DOMESTIC ANIMALS

SUBPART A—GENERAL PROVISIONS

§ 78.1 *Definitions.* As used in this part, the following terms shall have the meanings set forth in this section except as otherwise clearly indicated.

(a) *Brucellosis.* The infectious and communicable disease of domestic animals commonly known as Bang's disease, abortion disease, contagious abortion, and brucellosis.

(b) *State.* Any State, Territory, or the District of Columbia.

(c) *Interstate.* From one State to any other State.

(d) *Person.* Any person, company, or corporation.

(e) *Moved.* Transported, shipped, delivered or received for transportation, driven on foot or caused to be driven on foot, by any person.

(f) *Certified brucellosis-free herd.* A herd of cattle officially declared by the Animal Disease Eradication Branch, Agricultural Research Service, United States Department of Agriculture, and a State as free from brucellosis and such declaration being evidenced by a currently effective certificate issued jointly by such Branch and State.

(g) *Modified certified brucellosis-free area.* A State or a political subdivision, or portion thereof, in which the percentage of cattle affected with brucellosis has been determined by the Chief of the Animal Disease Eradication Branch, Agricultural Research Service, United States Department of Agriculture, not to exceed one percent and the percentage of herds in which brucellosis is present has been determined by such Chief not to exceed five percent.

(h) *Official vaccinate.* A bovine animal of a dairy breed vaccinated for brucellosis when 6 to 8 months of age, or of a beef breed vaccinated for brucellosis when 6 to 12 months of age, under the supervision of a Federal or State livestock sanitary official with a vaccine approved by the Animal Disease Eradication Branch, Agricultural Research Service, United States Department of Agriculture; permanently identified as such a vaccinate; and reported at the time of vaccination to the appropriate State and Federal agency cooperating in the eradication of brucellosis.

(i) *Public stockyard.* A stockyard where trading in livestock is carried on; where yarding, feeding, and watering facilities are provided by the stockyard, transportation, or similar company; and where Federal inspection is maintained for the inspection of livestock for communicable diseases.

(j) *Federal inspector.* An inspector of the Livestock Regulatory Programs, Agricultural Research Service, United States Department of Agriculture, responsible for the performance of the function involved.

(k) *State inspector.* An inspector regularly employed in livestock sanitary work of a State or a political subdivision thereof; whose entire salary is paid by such State or political subdivision; and who is authorized by such State or political subdivision to perform the function involved.

(l) *Accredited veterinarian.* A veterinarian approved by the United States Department of Agriculture to perform the function involved.

§ 78.2 *Notice relating to existence of brucellosis.* On June 5, 1952, the Secretary of Agriculture issued a notice that the contagion of brucellosis exists in domestic animals in each State of the United States and in the Territories of Puerto Rico, Alaska, and Hawaii (17 F. R. 5260).

§ 78.3 *Certificates pertaining to movement of animals.* (a) Whenever the regulations in this part require a certificate in connection with the movement of animals and the animals are moved by a transportation agency issuing waybills or other forms of billing covering the movement, the certificate shall be delivered to such transportation agency by the shipper at the time the animals are delivered for shipment; shall become the property of the transportation agency; shall be attached to the billing by the transportation agency; shall accompany such billing to the destination of the animals; and shall be filed with such billing for future reference.

(b) Whenever the regulations in this part require a certificate in connection with the movement of animals and the animals are moved by a transportation agency not issuing waybills or other forms of billing, or moved by any other means, the certificate shall accompany the animals to their destination and be delivered to the consignee, or, in case the consignor and the consignee are the same person, to the first person purchasing during or after such movement, or to the person to whom the animals are delivered.

SUBPART B—DOMESTIC ANIMALS AFFECTED WITH BRUCELLOSIS

§ 78.4 *General restriction.* Domestic animals affected with brucellosis may not be moved interstate except in compliance with the regulations in this subpart.

§ 78.5 *Movement of brucellosis reactors.* Domestic animals which have reacted to a test recognized by the Secretary of Agriculture for brucellosis may be moved interstate under this subpart for immediate slaughter direct to a slaughtering establishment operating under the provisions of the Meat Inspection Act of March 4, 1907 (34 Stat. 1260; 21 U. S. C. 71 et seq.), or to a public stockyard for sale to such a slaughtering establishment, in accordance with the following requirements:

(a) Cattle which have reacted to such a test shall be marked for identification by branding the letter "B" on the left jaw in letters not less than 2 nor more than 3 inches high, and attaching to the left ear a metal tag bearing a serial number and the inscription "U. S. B. A. I. Reacted", or "U. S. Reacted", or a similar State reactor tag. Such a metal tag, affixed to the left ear, shall be sufficient identification for reactors other than cattle.

(b) The reactors shall be accompanied to destination, in accordance with § 78.3, by a certificate issued by a Federal or State inspector or an accredited veterinarian showing: (1) That the animals have reacted to a test recognized by the Secretary of Agriculture for brucellosis; (2) the reactor tag number of each animal and the name of the owner of such animal when it was tested for brucellosis; (3) that the animals may be moved interstate; (4) the destination to which they are to be moved; and (5) the purpose for which they are to be moved.

§ 78.6 *Reshipment of purebred brucellosis reactors.* Purebred animals which have been moved interstate for breeding purposes, and which, subsequent to such movement, have reacted to a test recognized by the Secretary of Agriculture for brucellosis, may be reshipped interstate under this Subpart for purposes other than immediate slaughter in accordance with the requirements set forth in paragraphs (a) and (b) of § 78.5 and with the following additional requirements:

(a) The reactors shall be returned to the point of origin, consigned to the original owner.

(b) Test charts for the original test and any subsequent retest, showing that such tests were properly conducted, shall be submitted for examination to the person who issues the certificate required by § 78.5 (b).

(c) The reactors shall not be shipped to any State without specific provision by the appropriate livestock sanitary official thereof for the segregation or quarantine of such reactors until their death by slaughter or from natural causes.

(d) The reactors, after return to the point of origin, shall not again be moved interstate except for immediate slaughter in accordance with the provisions of § 78.5.

§ 78.7 *Marking of records.* Each transportation agency moving brucellosis reactors in the course of their interstate movement shall plainly write or stamp upon the face of each waybill, conductor's manifest, switch order, vehicle interchange record, and similar record, which it prepares in connection with such movement, the words "Brucellosis Reactors" and a statement to the effect that the railroad car, boat, truck, or other vehicle, in which the animals are transported is to be cleaned and disinfected.

§ 78.8 *Cleaning and disinfecting vehicles.* (a) Each railroad car, boat, truck, or other vehicle, in which brucellosis reactors are transported interstate shall be cleaned and disinfected in accordance with the provisions of §§ 71.4, 71.7, 71.9, 71.10, and 71.11 of this subchapter: *Provided, however,* That such vehicles may be cleaned and disinfected under the supervision of a Federal or State inspector or an accredited veterinarian.

(b) Each railroad car, boat, truck, or other vehicle, from which brucellosis reactors moved interstate are transferred en route to destination, shall be cleaned and disinfected, by the transportation agency delivering the vehicle to such point of transfer, under the supervision of a Federal or State inspector or an accredited veterinarian, immediately after unloading of the animals and before being moved from such point of transfer, in accordance with the provisions of §§ 71.9 through 71.11 of this subchapter: *Provided, however,* That if such supervision or proper cleaning and disinfecting facilities are not available at such point of transfer, the transportation agency may seal, bill, and forward the vehicle to a point at which such supervision and facilities are available and there clean and disinfect the vehicle.

§ 78.9 *Segregation of brucellosis reactors en route interstate.* Brucellosis reactors shall not be moved interstate in a railroad car, boat, truck, or other vehicle, containing healthy animals susceptible to brucellosis unless all of the animals are for immediate slaughter, or unless the reactors are kept separate from the other animals by a partition securely affixed to the sides of the vehicle.

SUBPART C—RESTRICTIONS ON MOVEMENT OF CATTLE BECAUSE OF BRUCELLOSIS

§ 78.10 *General restriction.* Cattle may not be moved interstate except as provided in the regulations in this subpart.

§ 78.11 *Movement of brucellosis reactor cattle.* Cattle which have reacted to a test recognized by the Secretary of Agriculture for brucellosis may be moved interstate in accordance with the regulations in Subpart B of this part.

§ 78.12 *Movement of other cattle.* (a) Cattle may be moved interstate under this subpart for any purpose if accompanied by a certificate issued by a Federal or State inspector or an accredited veterinarian showing that the cattle have been subjected to a test recognized by the Secretary of Agriculture for brucellosis under the supervision of a Federal or State livestock sanitary official within 30 days prior to the date of movement and found negative, and showing the identification tag, tattoo, or registration number of each animal.

(b) Cattle of the following classes, not known to be affected with brucellosis, may be moved interstate under this subpart if accompanied by a certificate issued by a Federal or State inspector or an accredited veterinarian showing the specific class in which the cattle fall. The provisions of paragraph (a) of this section shall not be applicable to such movements.

(1) Steers and spayed heifers.

(2) Calves of the beef type under 8 months of age moved interstate for feeding purposes only, and all other calves under 6 months of age.

(3) Bulls and female cattle of the beef type moved interstate for feeding purposes only to a State which has laws, rules, or regulations, which provide for the segregation or quarantine of such cattle brought into the State, under a permit from such State of destination.

(4) Cattle originating in certified brucellosis-free herds.

(5) Cattle originating in modified certified brucellosis-free areas.

(6) Cattle identified as official vaccinates and under 30 months of age on the date of movement interstate.

(7) Cattle identified as official vaccinates and over 30 months of age but under 36 months of age at the time of movement interstate, which do not disclose a reaction to a test for brucellosis exceeding incomplete agglutination in a dilution of 1:100.

(c) Cattle, not known to be affected with brucellosis, may be moved interstate directly to a slaughtering establishment operating under the provisions of the Meat Inspection Act of March 4, 1907 (34 Stat. 1260; 21 U. S. C. 71 et seq.), or to a slaughtering establishment operating under State meat inspection, or to a slaughtering establishment designated by the proper State livestock sanitary official of the State of destination, for immediate slaughter, or may be moved interstate to a public stockyard, without restriction under this part.

3. A new Part 80 would be added to read as follows:

PART 80—PARATUBERCULOSIS IN DOMESTIC ANIMALS

§ 80.1 *Definitions.* As used in this part, the following terms shall have the

meanings set forth in this section except as otherwise clearly indicated.

(a) *Paratuberculosis.* The infectious and communicable disease of domestic animals commonly known as Johne's disease and paratuberculosis.

(b) *State.* Any State, Territory, or the District of Columbia.

(c) *Interstate.* From one State to any other State.

(d) *Person.* Any person, company, or corporation.

(e) *Moved.* Transported, shipped, delivered or received for transportation, driven on foot or caused to be driven on foot, by any person.

(f) *Public stockyard.* A stockyard where trading in livestock is carried on; where yarding, feeding, and watering facilities are provided by the stockyard, transportation, or similar company; and where Federal inspection is maintained for the inspection of livestock for communicable diseases.

(g) *Federal inspector.* An inspector of the Livestock Regulatory Programs, Agricultural Research Service, United States Department of Agriculture, responsible for the performance of the function involved.

(h) *State inspector.* An inspector regularly employed in livestock sanitary work of a State or a political subdivision thereof; whose entire salary is paid by such State or political subdivision; and who is authorized by such State or political subdivision to perform the function involved.

(i) *Accredited veterinarian.* A veterinarian approved by the United States Department of Agriculture to perform the function involved.

§ 80.2 *Notice relating to existence of paratuberculosis.* On June 5, 1952, the Secretary of Agriculture issued a notice that the contagion of paratuberculosis exists in domestic animals in the Territory of Puerto Rico and in each State of the United States except Arizona, Maine, New Hampshire, Rhode Island, Utah, and Wyoming (17 F. R. 5260).

§ 80.3 *General restriction.* Domestic animals affected with paratuberculosis may not be moved interstate except in compliance with the regulations in this part.

§ 80.4 *Movement of paratuberculosis reactors.* Domestic animals which have reacted to a test recognized by the Secretary of Agriculture for paratuberculosis may be moved interstate under this part for immediate slaughter direct to a slaughtering establishment operating under the provisions of the Meat Inspection Act of March 4, 1907 (34 Stat. 1260; 21 U. S. C. 71 et seq.), or to a public stockyard for sale to such a slaughtering establishment, in accordance with the following requirements:

(a) Cattle which have reacted to such a test shall be marked for identification by branding the letter "T" on the left jaw in letters not less than 2 nor more than 3 inches high, and attaching to the left ear a metal tag bearing a serial number and the inscription "U. S. B. A. I. Reacted", "U. S. Reacted", or a similar State reactor tag. Such a metal tag, affixed to the left ear, shall be sufficient identification for reactors other than cattle.

(b) The reactors shall be accompanied to destination, in accordance with § 80.9, by a certificate issued by a Federal or State inspector or an accredited veterinarian showing: (1) That the animals have reacted to a test recognized by the Secretary of Agriculture for paratuberculosis; (2) the reactor tag number of each animal and the name of the owner of such animal when it was tested for paratuberculosis; (3) that the animals may be moved interstate; (4) the destination to which they are to be moved; and (5) the purpose for which they are to be moved.

§ 80.5 *Reshipment of purebred paratuberculosis reactors.* Purebred animals which have been moved interstate for breeding purposes, and which, subsequent to such movement, have reacted to a test recognized by the Secretary of Agriculture for paratuberculosis, may be reshipped interstate under this part for purposes other than immediate slaughter in accordance with the requirements set forth in paragraphs (a) and (b) of § 80.4 and with the following additional requirements:

(a) The reactors shall be returned to the point of origin, consigned to the original owner.

(b) Test charts for the original test and any subsequent retest, showing that such tests were properly conducted, shall be submitted for examination to the person who issues the certificate required by § 80.4 (b).

(c) The reactors shall not be shipped to any State without specific provision by the appropriate livestock sanitary official thereof for the segregation or quarantine of such reactors until their death by slaughter or from natural causes.

(d) The reactors, after return to the point of origin, shall not again be moved interstate except for immediate slaughter in accordance with the provisions of § 80.4.

§ 80.6 *Marking of records.* Each transportation agency moving paratuberculosis reactors in the course of their interstate movement shall plainly write or stamp upon the face of each waybill, conductor's manifest, switch order, vehicle interchange record, and similar record, which it prepares in connection with such movement, the words "Paratuberculosis Reactors" and a statement to the effect that the railroad car, boat, truck, or other vehicle, in which the animals are transported is to be cleaned and disinfected.

§ 80.7 *Cleaning and disinfecting vehicles.* (a) Each railroad car, boat, truck, or other vehicle, in which paratuberculosis reactors are transported interstate shall be cleaned and disinfected in accordance with the provisions of §§ 71.4, 71.7, 71.9, 71.10, and 71.11 of this subchapter: *Provided, however,* That such vehicles may be cleaned and disinfected under the supervision of a Federal or State inspector or an accredited veterinarian.

(b) Each railroad car, boat, truck, or other vehicle, from which paratuberculosis reactors moved interstate are transferred en route to destination, shall be cleaned and disinfected, by the transportation agency delivering the vehicle to such point of transfer, under the supervision of a Federal or State inspector or an accredited veterinarian, immediately after unloading of the animals and before being moved from such point of transfer, in accordance with the provisions of §§ 71.9 through 71.11 of this subchapter: *Provided, however,* That if such supervision or proper cleaning and disinfecting facilities are not available at such point of transfer, the transportation agency may seal, bill, and forward the vehicle to a point at which such supervision and facilities are available and there clean and disinfect the vehicle.

§ 80.8 *Segregation of paratuberculosis reactor en route interstate.* Paratuberculosis reactors shall not be moved interstate in a railroad car, boat, truck, or other vehicle, containing healthy animals susceptible to paratuberculosis unless all of the animals are for immediate slaughter, or unless the reactors are kept separate from the other animals by a partition securely affixed to the sides of the vehicle.

§ 80.9 *Certificates pertaining to movement of animals.* (a) Whenever the regulations in this part require a certificate in connection with the movement of animals and the animals are moved by a transportation agency issuing waybills or other forms of billing covering the movement, the certificate shall be delivered to such transportation agency by the shipper at the time the animals are delivered for shipment; shall become the property of the transportation agency; shall be attached to the billing by the transportation agency; shall accompany such billing to the destination of the animals; and shall be filed with such billing for future reference.

(b) Whenever the regulations in this part require a certificate in connection with the movement of animals and the animals are moved by a transportation agency not issuing waybills or other forms of billing, or moved by any other means, the certificate shall accompany the animals to their destination and be delivered to the consignee, or, in case the consignor and consignee are the same person, to the first person purchasing during or after such movement, or to the person to whom the animals are delivered.

Any person who wishes to submit written data, views, or arguments concerning the proposed amendments may do so by filing them with the Chief, Animal Disease Eradication Branch, Agricultural Research Service, United States Department of Agriculture, Washington, D. C., within 30 days after publication hereof in the FEDERAL REGISTER.

Done at Washington, D. C., this 2d day of April 1954.

[SEAL] M. R. CLARKSON,
Acting Administrator,
Agricultural Research Service.

[F. R. Doc. 54-2635; Filed, Apr. 7, 1954; 8:55 a. m.]

Commodity Stabilization Service

[7 CFR Part 814]

DOMESTIC BEET SUGAR AREA

NOTICE OF RECOMMENDED DECISION AND OPPORTUNITY TO FILE WRITTEN EXCEPTIONS WITH RESPECT TO THE ALLOTMENT OF 1954 SUGAR QUOTA

Pursuant to the provisions of the Sugar Act of 1948, as amended (7 U. S. C. 1100 et seq., hereinafter referred to as the "act"), and the applicable rules of practice and procedure (7 CFR 801.1 et seq.), notice is hereby given of the filing with the Hearing Clerk of the recommended decision of the Administrator, Commodity Stabilization Service, United States Department of Agriculture, with respect to a proposed order of the Secretary of Agriculture for the allotment of the 1954 sugar quota for the domestic beet sugar area. Interested persons may file written exceptions to this recommended decision and proposed order, together with supporting reasons therefor, with the Hearing Clerk, United States Department of Agriculture, Washington 25, D. C., within 10 days after the date of filing of the recommended decision with the Hearing Clerk, which date shall be the date of publication of this notice in the FEDERAL REGISTER. The date of filing of written exceptions with the Hearing Clerk by mail shall be the postmark date of submission of such exceptions.

Preliminary statement. Section 205 (a) of the act requires the Secretary to allot a quota whenever he finds that the allotment is necessary, among other things to (1) prevent disorderly marketing of sugar or liquid sugar and (2) afford all interested persons an equitable opportunity to market sugar or liquid sugar. Section 205 (a) also requires that such allotment be made after such hearing and upon such notice as the Secretary may prescribe.

Pursuant to the applicable rules of practice and procedure, a preliminary finding was made that allotment of the quota is necessary and a notice was issued on December 8, 1953 (18 F. R. 8175), of a public hearing to be held at Chicago, Illinois, on January 18, 1954, for the purpose of receiving evidence to enable the Secretary of Agriculture to make a fair, efficient, and equitable distribution of the 1954 sugar quota for the domestic beet sugar area, and also for the purpose of receiving evidence upon which the Secretary may affirm modify or change his preliminary finding that allotment of the quota is necessary.

The hearing was held at the place and time specified in the notice.

Summary of testimony and arguments. With respect to the necessity for allotment of the 1954 sugar quota for the domestic beet sugar area, the government witness testified that about 1,536,000 short tons, raw value, of beet sugar was produced from 1953-crop beets before the end of the calendar year, that additional processings in 1954 are estimated to bring the total for the crop to about 1,876,000 tons, and that price trends and acreage allotment prospects for other crops provide pressure for expanded plantings of beets in 1954. The marketing of available 1953-crop sugar in 1954, amounting to about 1,442,000 tons, will permit the marketing of only about 358,000 tons of 1954-crop sugar during 1954. This quantity was exceeded by the new-crop marketings in 1950 and 1953 by 31 and 22 percent, respectively. Prices for sugar prevailing during the last two months of 1953 in areas where much of the beet sugar was marketed indicate that some disorderly marketing has already taken place as a result of the size of the 1953-crop and 1954-crop prospects. Thus, it seems clear that allotment of the beet sugar quota for 1954 is necessary (R. 27). Testimony of other witnesses generally supported the testimony of the government witness in this respect. However, the National Sugar Manufacturing Company argued in its brief (Brief 3, 4) that allotment of the quota was not necessary.

With respect to the manner in which the allotments should be made, the government witness proposed that the factors to be considered in allotting the 1954 sugar quota for the domestic beet sugar area be measured as follows: (1) "processings of sugar or liquid sugar from sugar beets * * * to which proportionate shares * * * pertained" by production of sugar by each processor from 1953-crop sugar beets; (2) past marketings by average marketings for each of the processors for the calendar years 1949–53, inclusive; and (3) ability to market by the sum of each processor's (i) effective inventory on January 1, 1954, and (ii) the highest new-crop marketings in any of the calendar years 1949 through 1952. Each measure would be converted to a percentage distribution of the total of that measure for all processors, and the factors so measured would be weighted 20, 40 and 40 percent, respectively (R. 40, 45). The allotments for the individual processors would then be computed by applying the sum of the weighted percentages for each processor to the statutory quota (R. 45).

The government witness testified that the data for the years 1948–53, inclusive, for use in measuring the three statutory factors, were derived from information submitted by the processors (R. 34; Ex. 5). The summary of the data derived from such information was introduced into evidence by the government witness (R. 34, 38; Ex. 6).

The government witness testified concerning an agreement entered into between the National Sugar Manufacturing Company and the Holly Sugar Corporation, involving molasses produced by the National Sugar Manufacturing Company and sugar processed by the Holly Sugar Corporation (R. 215). Such testimony also revealed that those companies had disputed whether the agreement was one for an exchange of molasses for sugar or a tolling agreement; and that thereafter a decision was made by the government, prior to the hearing, and based upon the information before it, that such agreement constituted an agreement to exchange molasses for sugar. The figures submitted in the record by the government witness were based on such decision, where applicable.[1]

With respect to the adequacy of the measure and weighting proposed for the factor processings from proportionate shares the government witness stated that the crop year completed in the quota year affords the most current measure of processings which includes the production of sugar from a full crop for each processor. Over 80 percent of the sugar to be marketed in 1954 will be 1953-crop sugar and for most processors no other sugar will be available for marketing during the first three-quarters of the year (R. 41).

With respect to the adequacy of the measure and weighting proposed for the factor past marketings, the government witness stated that marketings of beet sugar during the years 1949–53 include the record crop of 1950 and initial marketings from the second largest crop on record in 1953, as well as three mediocre crops of 1949, 1951, and 1952 and the effective inventory remaining on January 1, 1949, from the very small crop of 1948. This period of years was, therefore, deemed long enough to provide sufficient variety of performance so that the average of marketings in these years should provide a representative measure of past marketings for each processor. Generally speaking, production and marketings from year to year tend to be relatively stable for the large multiplant companies and highly variable for single plant companies. Heavy weighting to the average marketings for the years proposed are deemed to provide a desirable degree of stability for all companies (R. 41, 42).

With respect to the adequacy of the measure and weighting proposed for the factor ability to market the government witness stated that the highest new-crop marketings in any of the calendar years 1949–52, inclusive, appear to be a fair measure of ability to market new-crop sugar in 1954 and when combined with January 1, 1954, effective inventory such measure is a fair and equitable measure of each processor's ability to market sugar within the portion of the 1954 quota allotted to him (R. 43).

The government witness stated that provision should be made for substituting in a revision of the allotment order final figures for the items for all processors whose data now in the record prove to be estimates (R. 39).

The substitution of final data as proposed by the government witness, and the revision of the allotment order for the purpose of allotting deficits in area quotas and individual allotments were agreed to by 18 of the 19 processors in a stipulation set forth in the records as follows:

(1) Without further hearing and without change in the initial allotment method, the allotment order shall be revised as soon as

[1] While the briefs of the National Sugar Manufacturing Company and the Holly Sugar Corporation pertaining to the agreement between those companies have been reviewed, they did not afford a basis for changing the decision that such agreement was one for the exchange of molasses for sugar.

practicable after the data are available, substituting therein the final 1953 marketings, 1953-crop production, and January 1, 1954, inventories of each processor.

(2) Without further hearing, and without change in the initial allotment method, the allotment order shall be revised for the purpose of allotting any additional quota resulting from the proration of area deficits or any deficits in the allotment for any allottee under the order.

(3) Each allottee waives his right to object to the validity of the 1954 allotment order by reason of any action taken by the Secretary of Agriculture in accordance with the provisions of this stipulation (R. 238–243).

The government witness stated that while any estimated data are included in the basis for the allotments, either somewhat less than the quota must be allotted or the use of the allotments must be restricted until the order is revised, using actual data. The error in these estimates is believed small enough to justify allotments totaling 90 percent of the quota (R. 39). There was no objection to the proposal that effective allotments be limited to 90 percent of the quota until final data are substituted for all estimated data.

Representatives of 11 of the 19 processors signified approval of the government proposal (R. 53, 73, 75, 81, 83, 86, 89, 172, 182, 208).

Franklin County Sugar Company proposed that processings from proportionate shares be measured by 1953-crop production and weighted 10 percent; that past marketings be measured by the average of the 3 highest years' marketings, 1941–53, and weighted 80 percent; and that ability to market be measured by effective inventory January 1, 1954, and weighted 10 percent (R. 62–64).

Layton Sugar Company proposed that processings from proportionate shares be measured by each processor's best year of production during the past three years and weighted 10 percent; that past marketings be measured by each processor's best three years during the period 1948–52 and weighted 80 percent; and if the factor, ability to market is measured as proposed by the government witness, that it be weighted 10 percent (Brief 5–10).

The National Sugar Manufacturing Company proposed that processings from proportionate shares be measured by the 1944–53 average production of sugar and weighted 30 percent; that past marketings be measured by the average annual marketings for the period 1944–53 or 1948–52 and weighted 30 percent; and that ability to market be measured by each processor's proportion of the total allotments in 1941 and weighted 40 percent (Brief, 10, 11, 14, 40).

Great Western Sugar Company proposed that processings from proportionate shares be given substantial weight and be measured by the average production of sugar from beets of the last two, three or four crop years; that past marketings be measured by the average annual marketings during the last two, three or four consecutive calendar years and given less weight than processings; and that ability to market need not be given any weight, as such, since this factor is adequately measured by the factors processings and past marketings (R. 142, 160; Brief 26).

Menominee Sugar Company proposed that the years 1940, 1941, 1946, 1947, and 1950 be used for historical purposes in establishing an allotment for Menominee and that it would raise no objection to other processors selecting their best years of production (R. 80).

The representative of Union Sugar Division of Consolidated Grocers Corporation stated that if there was to be any change from the government proposal processings from proportionate shares should be weighted 40 percent and a period not longer than the average of the last three crop years might be used. He further indicated that weighting of the factor past marketings could be reduced to 20 percent and that perhaps a weight of more than 40 percent should be assigned to the factor ability to market (R. 209–211).

The government proposal was criticised in the following respects. The representative of the Great Western Sugar Company testified and argued in its brief that the use of production from one crop was an improper measure of processings from proportionate shares because it does not measure trends and is an inaccurate measure of past relationships (R. 160; Brief 21). This witness questioned the propriety of including in the measure of processings from proportionate shares, 1953-crop beets harvested in 1954 (R. 152–158). National Sugar Manufacturing Company (Brief 5–7) pointed out that processings from 1953-crop beets was lower than average for National Sugar Manufacturing Company, Franklin County Sugar Company, Lake Shore Sugar Company, Garden City Company and Superior Sugar Refining Company due to bad weather, labor shortages and competition from other crops, and thus concluded that production from 1953-crop beets alone would be an improper measure of processings from proportionate shares. Layton Sugar Company also argued in its brief that production from 1953-crop beets alone did not indicate a trend of processings from proportionate shares for single-plant companies (Brief 5). The Garden City Company testified that none of the years subsequent to 1947 were representative for that company because of prices for competing crops and weather and pest problems (R. 67–69).

With respect to the measure of past marketings as proposed by the government witness, the representative of the National Sugar Manufacturing Company objected to the inclusion of 1953 marketings because of the influence of "constructive deliveries" in that year (R. 84). That company also argued in its brief that the exclusion of 1948 marketings had the effect of improving the "relative industry positions" of certain companies (Brief 10–11). The Layton Sugar Company in its brief protested against measuring past marketings by the average of annual marketings for the successive years 1949–1953, inclusive, because of unfortunate production experience during some of those years (Brief 6–7).

With respect to the measure proposed by the government witness for the factor ability to market, the representative of the Great Western Sugar Company stated that the volume of new-crop marketings by individual processors in past years was the result of a combination of conditions prevailing at the time and is in no way a measure of ability to market either in 1954 or at any other time (R. 163). The representative of the Great Western Sugar Company also testified that the inclusion of "highest new-crop marketings" in the years 1948–52, in the measure of ability to market was particularly prejudicial to that processor, since it had on hand on January 1, 1949, over 500,000 bags of 1947-crop sugar (R. 160–161). It was also argued in the Great Western Sugar Company brief that the factor ability to market should be used only to ascertain whether allottees have the ability to market an allotment determined on the basis of the factors, processings from proportionate shares and past marketings (Brief 24).

Three other processors, Layton Sugar Company (Brief 10), Franklin County Sugar Company (Brief 2) and Menominee Sugar Company (Brief 1), objected to the inclusion of new-crop marketing in measuring the factor ability to market because processors have varying periods within which they can market "new-crop" sugar. The National Sugar Manufacturing Company objected in its brief to the inclusion of "January 1, 1954, effective inventory" in the measure of ability to market, first because it would have the effect of placing additional emphasis on 1953-crop processings and secondly because it would include an estimated quantity of sugar to be processed from beets not yet harvested and which may never be harvested or processed (Brief 10, 12).

The representatives of the Holly Sugar Company (R. 192) and Union Sugar Division (R. 210) testified in support of the government proposal to measure ability to market by January 1, 1954, effective inventories and the highest new-crop marketing during the period 1949–52. The Spreckels Sugar Company in its brief stated that the measure of ability to market as proposed by the government witness recognizes the practical necessity and normality of differences between companies as to size of January 1 effective inventories and new-crop marketings, since normally those companies having low January 1 effective inventories have high new-crop marketings, and conversely, companies having high new-crop marketings have low January 1 effective inventories (Brief 5–9).

Extensive testimony was introduced into the record by interested parties to the effect that the government proposal did not make adequate provision for small single-unit companies that had suffered hardship during recent years from crop failures and other causes (R. 60, 72, 76, 79, 85, 88, 100, 106, 169, 196, 208). The representatives of Franklin County Sugar Company (R. 59) and the Great Western Sugar Company (R. 169, 170) proposed that special provision be made for such hardship cases and in order to give effect to such proposals, a stipulation was introduced into the record which would permit such an arbitrary allocation (R. 234, 235). Fourteen of the nineteen processors represented at the hearing agreed to the stipulation.

Special consideration also was requested on behalf of the Menominee Sugar Company and the Superior Sugar Refining Company because of losses resulting from sugar beets freezing in the ground in 1951 (R. 78, 87, 96, 117).

Basis of allotment. Section 205 (a) of the act reads in pertinent part as follows:

> • • • Allotments shall be made in such manner and in such amounts as to provide a fair, efficient, and equitable distribution of such quota or proration thereof, by taking into consideration the processing of sugar or liquid sugar from sugar beets or sugarcane to which proportionate shares, determined pursuant to the provisions of subsection (b) of section 302, pertained; the past marketings or importations of each such person and the ability of such person to market or import that portion of such quota or proration thereof allotted to him • • •

All three factors specified in the foregoing provision of law have been considered and each is given a percentile weighting by the formula on which this allotment of the 1954 quota for the domestic sugar beet area is based. Under this formula the factors are measured and weighted as follows: The factor processings from proportionate shares is measured by the larger of (1) each processor's production of beet sugar from 1953-crop beets, or (2) each processor's average production of sugar from 1950, 1951, and 1952-crop beets. The factor past marketings is measured by each processor's annual average marketings of sugar during the calendar years 1949 through 1953. The factor ability to market is measured by the total sugar processed from 1953-crop beets by each processor and available for marketing in 1954 (the January 1, 1954, "effective inventory") plus the largest marketings of sugar for each processor in any one of the years 1949 through 1952 of sugar processed from beets planted in the year in which the sugar was marketed ("new-crop sugar"). The measures of each of the three factors are converted to a percentage distribution of the total of that measure for all processors, and the factors so measured are weighted 20, 50, and 30 percent, respectively. The allotments for the individual processors would then be computed by applying the sum of the weighted percentages for each processor to the statutory quota.

The basis for the allotment as set forth above differs from that proposed by the government witness at the hearing in the following respects: The factor processings from proportionate shares is measured by the larger of (a) each processor's production of sugar from 1953-crop beets or (b) the annual average production of sugar from 1950, 1951, and 1952-crop beets for each processor, instead of by production of sugar from 1953-crop beets alone. The three factors processings from proportionate shares, past marketings and ability to market are given percentile weights of 20, 50 and 30, respectively, instead of 20, 40, 40, respectively.

Testimony at the hearing developed that production from 1953-crop beets alone would not be a proper measure of the processing factor because some processors in 1953, through crop disaster or for other causes, suffered from relatively small crops even though the output of the industry was at a near record level. Such testimony indicated that processings from proportionate shares should be measured over a period of more than one year. On the other hand, as was indicated by testimony at the hearing 1953-crop beet processings, in large measure, have created the situation which necessitates allotment of the beet sugar area quota for 1954, and the sugar from the 1953-crop beets constitutes the major portion of the sugar which will be subject to allotments. It was, therefore, deemed fair and equitable to give effect to both of these considerations by selecting as the measure of processings from proportionate shares for each processor the larger of (1) production of beet sugar from 1953-crop beets or (2) the average of sugar production from 1950, 1951, and 1952-crop beets.

Because the factor past marketings when measured by an average of marketings over the period 1949–53 tends to equalize the good years with the bad, more weight has been assigned to this factor. A corresponding reduction has been made in the weight assigned to the ability to market factor. The result of the changes in weighting is to give past marketings a weighting equal to the combined weights assigned to the other two factors, and thereby provide a balance between the factor allied entirely to the past and the two factors which tend to reflect the sugar actually to be marketed under the allotments. The weights assigned, when applied to the measures adopted, result in allotments higher than those proposed by the government at the hearing for the smaller companies faced with special problems, while minimizing differences from the government proposal for other processors.

The allotments established by this order are based on estimated data on 1953 marketings, 1953-crop production, and January 1, 1954, effective inventories for each processor for which final data are to be substituted later. Therefore, the quantity of sugar which may be marketed within each allotment is limited to 90 percent of such allotment.

Findings and conclusions. On the basis of the record of the hearing, I hereby find and conclude that:

(1) Approximately 1,442,000 short tons, raw value, of sugar produced from beets planted in 1953 will be marketed in 1954. Such marketings will permit the marketing of only about 358,000 tons of beet sugar in 1954 to be produced from beets planted in 1954. This quantity was exceeded by the new-crop marketings in 1950 and 1953 by 31 and 22 percent, respectively. Price trends and acreage allotment prospects for other crops provide pressure for the expansion in plantings of beets in 1954 as compared to plantings in 1953.

(2) In 1953, with production of new-crop sugar smaller than in prospect for 1954, disorderly marketing of beet sugar was in evidence in the last quarter of the year.

(3) The production and marketing situation described in (1) and (2) above make necessary the allotment of the domestic beet sugar quota for 1954 to assure an orderly flow of such sugar in the channels of interstate commerce, to prevent disorderly marketing of sugar, and to afford all interested persons equitable opportunities to market sugar within the quota.

(4) To assure a fair, efficient and equitable distribution of the domestic beet sugar area quota for 1954 the three factors specified in section 205 (a) of the act should be measured and weighted as follows:

(i) The factor processings from proportionate shares should be measured by the larger of (a) each processor's production of beet sugar from 1953-crop beets, or (b) the average production of sugar from 1950, 1951 and 1952-crop beets for each processor.

(ii) The factor past marketings should be measured by each processor's annual average marketings of sugar during the calendar years 1949 through 1953.

(iii) The factor ability to market should be measured by the total sugar processed from 1953-crop beets by each processor and available for marketing in 1954 (the January 1, 1954, "effective inventory") plus the largest marketings of sugar for each processor in any of the years 1949 through 1952 of sugar processed from beets planted in the year in which the sugar was marketed ("new-crop sugar").

(iv) The measures of each of the three factors as set forth in (v), below, expressed for each processor as a percentage of the total of that measure for all processors should be weighted as follows: processings from proportionate shares, 20 percent; past marketings, 50 percent; and ability to market, 30 percent.

(v) The measures of the three factors computed as provided in (i), (ii) and (iii), above, are the quantities of sugar set forth below:

[100-pound bags, beet sugar]

Processor	Processings from proportionate shares (1)	Past marketings (2)	Ability to market (3)
Amalgamated Sugar Co., The	4,637,543	3,960,915	4,289,904
American Crystal Sugar Co	4,745,370	3,978,841	5,159,164
Buckeye Sugar Co., The	120,561	118,460	121,336
Franklin County Sugar Co	166,333	180,632	184,581
Garden City Co., The	107,966	103,433	99,855
Great Lakes Sugar Co	413,472	495,552	385,569
Great Western Sugar Co	8,626,289	7,926,104	8,720,730
Gunnison Sugar, Inc	219,900	243,387	178,771
Holly Sugar Corp	5,452,145	4,615,666	5,765,836
Lake Shore Sugar Co	147,420	150,245	160,164
Layton Sugar Co	108,977	117,255	88,096
Menominee Sugar Co	96,771	101,974	106,734
Michigan Sugar Co	1,296,140	1,242,167	1,085,638
Monitor Sugar Division of Robert Gage Coal Co	404,040	369,640	378,976
National Sugar Manufacturing Co., The	170,027	178,859	133,945
Spreckels Sugar Co	3,828,841	3,232,104	4,015,436
Superior Sugar Refining Co	137,139	149,809	120,826
Union Sugar Division of Consolidated Grocers Corp	1,513,521	1,119,349	1,585,410
Utah-Idaho Sugar Co	3,354,154	2,641,810	3,136,142
All other persons	-	-	-
Total	35,523,007	30,308,209	35,745,471

(5) To prevent any allottee from marketing a quantity of sugar in excess of revised allotments based on final data relating to 1953 marketings, 1953-crop production and January 1, 1954, effective inventories for each processor, marketings under this order should be limited to 90 percent of each allotment established by this order.

(6) The quota for the domestic beet sugar area of 1,800,000 short tons, raw value, is equivalent to 33,644,860 one-hundred pound bags of beet sugar.

(7) The allotment order should be revised as soon as practicable after the data are available, substituting therein the final 1953 marketings, 1953-crop production and January 1, 1954, inventories of each processor.

(8) The allotment order should be revised for the purpose of alloting any additional quota resulting from the proration of area deficits or any deficit in the allotment for any allottee under the order.

(9) Allotments established in the foregoing manner and in the amounts set forth in the order provide a fair, efficient and equitable distribution of the quota as required by section 205 (a) of the act.

Order. Pursuant to the authority vested in the Secretary of Agriculture by section 205 (a) of the act, it is hereby ordered:

§ 814.30 *Allotment of the 1954 sugar quota for the Domestic Beet Sugar Area*—(a) *Allotments.* The 1954 sugar quota for the domestic beet sugar area is hereby allotted to the following processors in amounts which appear in column (1) opposite their respective names:

Processors	Allotments: Total: Short tons, raw value (1)	Allotments: Total: 100-pound bags, beet sugar (2)	Allotments: 90 percent (3)
Amalgamated Sugar Co., The	227,142	4,245,645	3,821,081
American Crystal Sugar Co	241,884	4,521,196	4,069,076
Buckeye Sugar Co., The	6,488	121,458	109,312

DEPARTMENT OF LABOR

Wage and Hour Division

[29 CFR Part 695]

HOMEWORKERS IN INDUSTRIES IN THE VIRGIN ISLANDS

PIECE RATES

Notice is hereby given that, pursuant to authority provided in section 6 (a) (2) of the Fair Labor Standards Act of 1938, as amended, the Administrator of the Wage and Hour Division, United States Department of Labor, proposes to amend the regulations contained in this part, relating to homeworkers in industries in the Virgin Islands, in the following manner:

1. Amend § 695.12 by adding to piece rate Schedules A and B the following items:

SCHEDULE A

Single hemstitiching of linen towels, four threads in a bundle, thread drawing included: Piece rate (based on hourly rate of 20 cents) 13 cents per dozen inches.[1]

SCHEDULE B

Hand-weaving of straw table mats, 11" x 17", from ¼" strips, including the operations of stripping, weaving the body of the mat, weaving braid ½" to ¾" wide, and sewing the braid to the mat (Stock #58): Piece rate (based on hourly rate of 15 cents) 30 cents per mat.[1]

Prior to the final adoption of the above proposed amendments consideration will be given to any data, views or arguments pertaining thereto, which are submitted in writing to the Administrator of the Wage and Hour Division, United States Department of Labor, Washington 25, D. C., or to the Territorial Director of the Wage and Hour Division, United States Department of Labor, P. O. Box 906, Santurce, Puerto Rico, within 15 days from publication of this notice in the FEDERAL REGISTER.

Signed at Washington, D. C., this 2d day of April 1954.

WM. R. McCOMB,
Administrator,
Wage and Hour Division.

Bureau of Land Management

ALASKA

SHORESPACE RESTORATION ORDER NO. 509

MARCH 12, 1954.

By virtue of the authority contained in the act of June 5, 1920 (41 Stat. 1059; 48 U. S. C. 372), and pursuant to section 2.22 (a) (3), of Order No. 1, Bureau of Land Management, Region VII, approved by the Acting Secretary of the Interior August 20, 1951 (16 F. R. 8625), it is ordered as follows:

Subject to valid existing rights, the provisions of existing withdrawals, the requirements of applicable law, and the 91-day preference right filing period for veterans, and other qualified persons entitled to preference under the act of September 27, 1944 (58 Stat. 747; 43 U. S. C. 279-284), as amended, the 80-rod shorespace reserve created under the act of May 14, 1898 (30 Stat. 409), as amended by the act of March 3, 1903 (32 Stat. 1028; 48 U. S. C. 371), is hereby revoked as to the following described lands, effective at 10:00 a. m. on the 21st day after the date of this order.

ANCHORAGE LAND DISTRICT

A tract of land situated on Jamestown Bay, Alaska, more particularly described as follows:

Beginning at Corner No. 4, MC, U. S. Survey 1947; thence, north 25.66 chains to Corner No. 3, U. S. Survey 1947; thence, westerly 21 chains to Corner No. 4, Tract B, U. S. Survey 407; thence, S. 25° 07' W. 4.5 chains to Corner 6, U. S. Survey 1258; thence, S. 42° 00' E. 27.35 chains to Corner No. 7, U. S. Survey 1258; thence, S. 30° 00' E. 10.21 chains to Corner No. 8, MC, U. S. Survey 1258; thence, easterly along the meander line of Jamestown Bay a distance of 19.6 chains to the point of beginning, but exclusive of U. S. Surveys 2997, 2355, and 2729, the remaining area containing approximately 734 acres.

A tract of land situated on the Kvichak River, Alaska, more particularly described as follows:

Beginning at Corner No. 2, MC, U. S. Survey 2444; thence, northeasterly along the right limit of the Kvichak River 80 chains; thence, northwesterly 20 chains; thence, southwesterly parallel to the river 80 chains; thence, southeasterly 20 chains to the point of beginning, but exclusive of U. S. Surveys 2444, 914, and 1537, the remaining area containing approximately 129.29 acres.

A tract of land situated on Mirror Lake, Alaska, more particularly described as follows:

Beginning at a point on the east shore of Mirror Lake 20 chains southerly from Corner No. 4, U. S. Survey 2736; thence, southerly, westerly and northerly along the line of mean high water of Mirror Lake approximately 36 chains to Corner No. 5, U. S. Survey 2736; thence, west 20 chains; thence, southerly, easterly and northerly parallel to the shore of Mirror Lake approximately 84 chains; thence, west 20 chains to the point of beginning, containing approximately 120 acres.

SEWARD MERIDIAN

T. 13 N., R. 3 W.
Section 5: NW¼, N½NW¼, Lots 2, 3, and 4.
Section 6: Lot 1.
Containing approximately 217.76 acres.

U. S. Survey 2321: Lot L. Containing approximately 3.64 acres.

U. S. Survey 2321: Lot S. Containing approximately 3.71 acres.

U. S. Survey 2321: Lot T. Containing approximately 4.74 acres.

A tract of land situated on Lena Cove, Alaska, identified as Lot A, U. S. Survey 3056, containing approximately 0.66 acres (Petition for Small Tract Classification of Harold R. Brown, Anchorage 022047).

A tract of land situated on Thimbleberry Bay, Alaska, identified as U. S. Survey 2571, containing approximately 9 acres (Petition for Shorespace Restoration of Robert O. Brown, Anchorage 026048).

FRED J. WEILER,
Chief,
Division of Land Planning.

ALASKA

NOTICE OF CORRECTION OF SHORESPACE RESTORATION ORDER NO. 509

MARCH 17, 1954.

Alaska Shorespace Restoration Order No. 509 of March 12, 1954, is hereby corrected as follows:

That land description concerning T. 13 N., R. 3 W., Section 5, Seward Meridian, is corrected so that this description now reads as follows:

SEWARD MERIDIAN

T. 13 N., R. 3 W.
Section 5: NW¼NE¼, N½NW¼, Lots 2, 3 and 4.
Section 6: Lot 1.

Containing approximately 217.76 acres.

FRED J. WEILER,
Chief,

ALASKA

PUBLIC SALE ACT CLASSIFICATION NO. 13

MARCH 31, 1954.

Pursuant to the authority delegated to me under section 2.21 of Order No. 1, Bureau of Land Management, Region VII, approved by the Acting Secretary of the Interior August 20, 1951 (16 F. R. 8625, 8627), Alaska Public Sale Classification No. 13 of December 29, 1953, is hereby amended as follows:

The classification for industrial and commercial purposes only, which was applied to the lands in Tract F, U. S. Survey 3292, is revised to include classification for housing purposes for Lot 78.

FRED J. WEILER,
Chief,
Division of Land Planning.

[Misc. 5-12]

ARIZONA

ORDER PROVIDING FOR OPENING OF PUBLIC LANDS

MARCH 31, 1954.

In exchanges of lands made under the provisions of section 8 of the act of June 28, 1934 (48 Stat. 1269), as amended, June 26 1936 (49 Stat. 1976, 43 U. S. C. sec. 315g), the following described lands have been reconveyed to the United States:

GILA AND SALT RIVER MERIDIAN

T. 2 N., R. 1 W.,
Sec. 13, SW¼SE¼;
Sec. 24, NW¼NE¼.
T. 1 N., R. 9 W.,
Sec. 34, W½.
T. 18 N., R. 13 W.,
Sec. 33
T. 13 N., R. 17 W.,
Sec. 23;
Sec. 27;
Sec. 33, S½SE¼;
Sec. 35, NW¼.
T. 17 N., R. 20 W.,
Sec. 21;
Sec. 23;
Sec. 25;
Sec. 27;
Sec. 33;
Sec 35.
T. 23 N., R. 21 W.,
Sec. 23, W½.
T. 3 S., R. 1. W.,
Sec. 27, SW¼, E½NW¼, SW¼NW¼.
T. 1 S., R. 9 W.,
Sec. 20, W½.

The lands in T. 2 N., R. 1 W., T. 1 N., R. 9 W., T. 3 S., R. 1 W., and T. 1 S., R. 9 W. are in areas where interest has been shown in development of lands for agricultural purposes. The remaining lands are in rough and mountainous areas and it is unlikely that they will be classified for homestead, desert land or small tract use. Any application filed on lands described in this order will be considered on its merits.

This order shall not otherwise become effective to change the status of such lands until 10:00 a. m. on the 35th day after the date of this order. At that time the said lands shall, subject to valid existing rights and the provisions of existing withdrawals, become subject to application, petition, location, and selection as follows:

(a) *Ninety-one day period for preference-right filings.* For a period of 91 days, commencing at the hour and on the day specified above, the public lands affected by this order shall be subject only to (1) application under the homestead or the desert-land laws or the Small Tract Act of June 1, 1938, 52 Stat. 609 (43 U. S. C. 682a), as amended, by qualified veterans of World War II and other qualified persons entitled to preference under the act of September 27, 1944, 58 Stat. 747 (43 U. S. C. 279-284), as amended, subject to the requirements of applicable law, and (2) application under any applicable public-land law, based on prior existing valid settlement rights and preference rights conferred by existing laws or equitable claims subject to allowance and confirmation. Applications under subdivision (1) of this paragraph shall be subject to applications and claims of the classes described in subdivision (2) of this paragraph. All applications filed under this paragraph either at or before 10:00 a. m. on the 35th day after the date of this order shall be treated as though filed simultaneously at that time. All applications filed under this paragraph after 10:00 a. m. on the said 35th day shall be considered in the order of filing.

(b) *Date for non-preference-right filings.* Commencing at 10:00 a. m. on the 126th day after the date of this order, any lands remaining unappropriated shall become subject to such application, petition, location, selection, or other appropriation by the public generally as may be authorized by the public-land laws. All such applications filed either at or before 10:00 a. m. on the 126th day after the date of this order, shall be treated as though filed simultaneously at the hour specified on such 126th day. All applications filed thereafter shall be considered in the order of filing.

A veteran shall accompany his application with a complete photostatic, or other copy (both sides), of his certificate of honorable discharge, or of an official document of his branch of the service which shows clearly his honorable discharge as defined in § 181.36 of Title 43 of the Code of Federal Regulations, or constitutes evidence of other facts upon which the claim for preference is based and which shows clearly the period of service. Other persons claiming credit for service of veterans must furnish like proof in support of their claims. Persons asserting preference rights, through settlement or otherwise, and those having equitable claims, shall accompany their applications by duly corroborated statements in support thereof, setting forth in detail all facts relevant to their claims.

Applications for these lands, which shall be filed in the Land and Survey Office, Phoenix, Arizona, shall be acted upon in accordance with the regulations contained in § 295.8 of Title 43 of the Code of Federal Regulations and Part 296 of that title, to the extent that such regulations are applicable. Applications under the homestead laws shall be governed by the regulations contained in Parts 166 to 170, inclusive, of Title 43 of the Code of Federal Regulations, and applications under the desert-land laws and the said Small Tract Act of June 1, 1938, shall be governed by the regulations contained in Parts 232 and 257, respectively, of that title.

Inquiries concerning these lands shall be addressed to the Manager, Land and Survey Office, Phoenix, Arizona.

E. R. SMITH,
Regional Administrator.

IDAHO

NOTICE OF PROPOSED WITHDRAWAL AND RESERVATION OF LANDS

MARCH 31, 1954.

An application, serial number Idaho 04736, for the withdrawal from all forms of appropriation under the public land laws, except none of the lands described below was filed on December 1, 1953, by University of Idaho, College of Agriculture.

The purposes of the proposed withdrawal: Biological research and related purposes.

For a period of 30 days from the date of publication of this notice, persons having cause to object to the proposed withdrawal may present their objections in writing to the Regional Administrator, Region I, Bureau of Land Management, Department of the Interior at Swan Island Station, Portland 18, Oregon. In case any objection is filed and the nature of the opposition is such as to warrant it, a public hearing will be held at a convenient time and place, which will be announced, where opponents to the order may state their views and where proponents of the order can explain its purpose.

The determination of the Secretary on the application will be published in the FEDERAL REGISTER, either in the form of a public land order or in the form of a notice of determination if the application is rejected. In either case, a separate notice will be sent to each interested party of record.

The lands involved in the application are:

BOISE MERIDIAN

T. 11 S., R. 15 E.,
Sec. 23, NW¼.

The area described aggregates 160 acres.

The land described is enclosed and is known as the Berger Plot and has been used many years as an experimental plot by the University of Idaho in conjunction with the Bureau of Plant Industry, United States Department of Agriculture. The maintenance of this plot for biological research and experimental purposes is considered to be in the public interest.

JAMES F. DOYLE,
Acting Regional Administrator.

[F. R. Doc. 54-2583; Filed, Apr. 7, 1954; 8:46 a. m.]

UTAH

NOTICE OF PROPOSED WITHDRAWAL AND RESERVATION OF LANDS

An application, serial number Utah 011705, for the withdrawal from prospecting, location, entry, or purchase under the mining laws of the lands described below was filed on February 24, 1954, by the Atomic Energy Commission.

The purposes of the proposed withdrawal: For use by Atomic Energy Commission.

For a period of 30 days from the date of publication of this notice, persons having cause to object to the proposed withdrawal may present their objections in writing to the Regional Administrator, Region IV, Bureau of Land Management, Department of the Interior at Salt Lake City, Utah, P. O. Box 659. In case any objection is filed and the nature of the opposition is such as to warrant it, a public hearing will be held at a convenient time and place, which will be announced, where opponents to the order may state their views and where proponents of the order can explain its purpose.

The determination of the Secretary on the application will be published in the FEDERAL REGISTER, either in the form of a public land order or in the form of a notice of determination if the application is rejected. In either case, a separate notice will be sent to each interested party of record.

The lands involved in the application are:

SALT LAKE MERIDIAN

T. 22 S., R. 10 E.,
Secs. 23, 24, 25, 26, 34, 35, and 36.
T. 22 S., R. 11 E.,
Sec. 19.
Sec. 20, S½.
Secs. 29, 30.
Sec. 31, W½.
T. 23 S., R. 10 E.,
Secs. 1, 2, 3, 4, 9, 10, and 11.
Sec. 12, N½SE¼, N½, SW¼, SW¼SE¼.
Sec. 13, W½.
Secs. 14, 15, and 16.
Sec. 21, N½.
Secs. 22 and 23.
Sec. 24, NW¼.
T. 23 S., R. 11 E.,
Secs. 6 and 7.

RALPH J. MITCHELL,
Acting Regional Administrator.

[F. R. Doc. 54-2586; Filed, Apr. 7, 1954; 8:47 a. m.]

WYOMING

CLASSIFICATION ORDER NO. 56, WYOMING NO. 5, AMENDED

APRIL 1, 1954.

1. On June 15, 1944, the vacant public lands in the following described area in the Cheyenne, Wyoming Land District, were classified as chiefly valuable for development under the Five-Acre Tract Act of June 1, 1938 (52 Stat. 609; 43 U. S. C. 682a) and opened for leasing under that act as home and business sites, except certain tracts which may be found necessary for community use:

SIXTH PRINCIPAL MERIDIAN

T. 35 N., R. 65 W.,
Sec. 3: NW¼SE¼, S½SE¼, 120 acres (subject to rights of way for Ohio Oil Company pipeline, Cheyenne 043163 and Wyoming State Highway Cheyenne 063848).

2. Pursuant to the authority delegated to me by the Director, Bureau of Land Management, by Order No. 427, dated August 16, 1950 (15 F. R. 5639), I hereby amend the classification order of June 15, 1944 to provide for the classification of the following described lands for lease and sale for the same purposes set forth in the original classification order:

T. 35 N., R. 65 W., 6th P. M.,
Sec. 3: SW¼SE¼ and Lots 39 and 40 in the SE¼SE¼, and that portion of Lot 42 within the SE¼SE¼.

and I hereby rescind Small Tract Classification Order No. 56, Wyoming No. 5 as to the following described land:

T. 35 N., R. 65 W., 6th P. M.,
Sec. 3: NW¼SE¼, SE¼SE¼ except for Lots 39 and 40, and that portion of Lot 42 within the SE¼SE¼.

3. There are 61 lots in this amended classification order that are hereby classified for lease and sale. The lots range in size from 0.076 acre to 4.047 acres. They are located in the central portion of Niobrara County, Wyoming, approximately 48 miles northwest of Lusk, Wyoming, the county seat. Access is by oiled surfaced State Secondary Highway No. 129. The area classified for lease and sale covers substantially all of the land on which the unincorporated town of Lance Creek is situated. A small settlement immediately south of the subject land is called "Gateway".

4. Present lessees are required to construct upon the leased lands, to the satisfaction of the officer of the Bureau of Land Management authorized to sign the lease, improvements which in the circumstances are presentable, substantial and appropriate for the use for which the lease is issued. More detailed specifications as to the improvement requirements will be made part of the terms of all leases issued or renewed after the date of this order. Present lessees who have complied with the terms of their lease may file applications to purchase the lots under lease to them with the Manager, Cheyenne Land and Survey Office, Cheyenne, Wyoming.

5. Lessees or their successors in interest shall comply with all Federal, State, County, and municipal laws and ordinances, especially those governing health and sanitation and failure to do so may be cause for cancellation of the lease in the discretion of the authorized officer of the Bureau of Land Management. All new leases will be issued for a period of three years and will contain an option to purchase clause which will provide for the purchase of lots at the appraised value as follows:

Lots 4 and 18, $100.
Lots 3, 43 and 59, $75.
Lots 1, 23, 30, 31 and 52, $50.
Lots 2, 16, 17, 27, 53 and 54, $30.
Lots 13, 15, 26, 35, 36, 37, 50, 51, 56, 60 and 61, $25.
Lots 5, 6, 11, 22, 25, 29, 32, 48, 49, 55, 57 and 58, $20.
Lots 7, 8, 9, 10, 12, 14, 21, 24, 28, 33, 39, 42 and 46, $15.
Lots 19, 20, 34, 38, 40, 41, 44, 45 and 47, $10.

6. The leases will be made subject to rights of way for roads and public utilities as follows:

15 feet wide along the entire west boundary of Lot 9.
15 feet wide along the entire south boundary and 15 feet wide along the entire west boundary of Lot 10.
15 feet wide along the entire north boundary of Lots 11, 13 and 17.
15 feet wide along the entire south boundary of Lots 16 and 54.
30 feet wide along the entire east boundary of Lots 25 and 27.
30 feet wide along the entire south boundary of Lot 29 and also a strip 30 feet wide along the east boundary of Lot 29 beginning at the southeast corner of the tract extending north a distance of 100 feet.
30 feet wide along the north boundary of Lots 30, 38, 47, 50, 51, 52 and 59.
30 feet wide along the north boundary of Lot 33 where this lot adjoins Lot 27.
40 feet wide along the entire north boundary of Lot 35.
30 feet wide along the south boundary of Lot 44 where this lot adjoins Lot 49.
30 feet wide along the south boundary of Lot 46 where this lot adjoins Lot 23.
30 feet wide along the east boundary of Lot 49 where this lot adjoins Lots 39 and 40.
15 feet wide along the east boundary of Lot 55 where this lot adjoins Lots 9 and 10, and also a strip 40 feet wide along the east boundary of Lot 55 where this lot adjoins Lot 11.
30 feet wide along the east boundary of Lot 56 where this lot adjoins Lot 17, and also a strip 30 feet wide along the entire south boundary of Lot 56.
30 feet wide along the west boundary of Lot 57, commencing at the northwest corner of the lot and extending southward for a distance of 83 feet.
30 feet wide along the north boundary of Lot 60 where this lot adjoins Lot 51.

7. All mineral rights will be reserved to the Federal Government, and the lease and sale of the lots will be made subject to all rights of way of record in addition to those shown in Paragraph 6 above.

8. All inquiries relating to these lands should be addressed to the Manager, Land and Survey Office, Cheyenne, Wyoming.

W. B. WALLACE,
Regional Administrator.

Bureau of Reclamation

[Public Announcement 19]

COLUMBIA BASIN PROJECT, WASHINGTON

SALE OF FULL-TIME FARM UNITS

MARCH 18, 1954.

Columbia Basin Project, Washington, South-Columbia Basin Irrigation District; public announcement of the sale of full-time farm units.

LANDS COVERED

SECTION 1. *Offer of farm units for sale.* It is hereby announced that certain farm units in the South-Columbia Basin Irrigation District, Columbia Basin Project, Washington, will be sold to qualified applicants in accordance with the provisions of this announcement. Applications to purchase farm units may be submitted beginning at 2 p. m., April 5, 1954. In order to permit the continued orderly development and settlement of project lands, this public announcement is issued irrespective of there being pending applications for exchange pursuant to the act of August 13, 1953 (67 Stat. 566), and regulations for the administration thereof.

a. *Farm units presently owned.* The farm units which are presently owned by the United States, and hereby offered for sale, are described as follows:

Irrigation block No.	Farm unit No.	Total acreage	Tentative irrigable acreage				Nonirrigable	Price
			Total	Class 1	Class 2	Class 3

b. *Additional farm units.* It is expected that, through the operation of its land acquisition program the United States may, within twelve (12) months following the date of this announcement, own additional farm units in the South-Columbia Basin Irrigation District which are scheduled to receive water before the close of the 1955 irrigation season. Such farm units may be offered for sale under the provisions of this announcement.

The official plats of these irrigation blocks are on file in the office of the County Auditor of Franklin County at Pasco, Washington, and copies are on file in the offices of the Bureau of Reclamation at Ephrata, Washington, and Boise, Idaho.

SEC. 2. *Limit of acreage which may be purchased.* The lands covered by this announcement have been divided into farm units. Each of the farm units represents the acreage which, in the opinion of the Regional Director, Region I, Bureau of Reclamation, will support an average-size family at a suitable level of living. The law provides that with certain minor exceptions not more than one farm unit in the entire project may be held by any one owner or family. A family is defined as comprising husband or wife, or both, together with their children under 18 years of age, or all of such children if both parents are dead.

PREFERENCE OF APPLICANTS

SEC. 3. *Nature of preference.* Except for a prior preference given applicants for exchange under the provisions of the act of August 13, 1953 (67 Stat. 566), preference right to purchase the farm units described above will be given to veterans (and in some cases to their husbands or wives or guardians of minor children) who submit applications during a 45-day period beginning at 2 p. m., April 5, 1954, and ending at 2 p. m., May 20, 1954, and who, at the time of making application, are in one of the following five classes:

a. Persons, including those under 21 years of age, who have served in the Army, Navy, Marine Corps, Air Force, or Coast Guard of the United States for a period of at least ninety (90) days at any time between September 16, 1940, and July 3, 1952, inclusive, and have been honorably discharged.

b. Persons, including those under 21 years of age, who have served in the Army, Navy, Marine Corps, Air Force, or Coast Guard of the United States during the period prescribed in subsection a. of this section regardless of length of service, and who have been discharged on account of wounds received or disability incurred during such period in the line of duty, or subsequent to a regular discharge, have been furnished hospitalization or awarded compensation by the Government on account of such wounds or disability.

c. The spouse of any person in either of the first two classes listed in this section, if the spouse has the consent of such person to exercise his or her preference right. (See subsection 7. c. of this announcement regarding the provision that a married woman must be head of a family.)

d. The surviving spouse of any person in either of the first two classes listed in this section, or in the case of the death or marriage of such spouse, the minor child or children of such person by guardian duly appointed and qualified and who furnishes to the examining board acceptable evidence of such appointment and qualification.

e. The surviving spouse of any person whose death has resulted from wounds received or disability incurred in the line of duty while serving in the Army, Navy, Marine Corps, Air Force, or Coast Guard during the period described in subsection a. of this section, or in the case of death or marriage of such spouse, the minor child or children of such person by a guardian duly appointed and qualified and who furnishes to the examining board acceptable evidence of such appointment and qualification.

SEC. 4. *Definition of honorable discharge.* An honorable discharge means:

a. Separation from the service by means of an honorable discharge or by the acceptance of resignation or a discharge under honorable conditions.

b. Release from active duty under honorable conditions to an inactive status, whether or not in a reserve component or retirement.

Any person who obtains an honorable discharge as herein defined shall be entitled to veterans preference even though such person thereafter resumes active military duty.

QUALIFICATIONS REQUIRED OF PURCHASERS

SEC. 5. *Examining board.* An examining board of three members has been appointed by the Regional Director, Region I, Bureau of Reclamation, to determine the qualifications and fitness of applicants to undertake the purchase, development, and operation of a farm on the Columbia Basin Project. The board will make careful investigations to verify the statements and representations made by applicants. Any false statements may constitute grounds for rejection of an application, and cancellation of the applicant's right to purchase a farm unit.

SEC. 6. *Minimum qualifications.* Certain minimum qualifications have been established which are considered necessary for the successful development of farm units. Applicants must meet these qualifications in order to be eligible for the purchase of farm units. Failure to meet them in any single respect will be sufficient cause for rejection of an application. No added credit will be given for qualifications in excess of the required minimum. The minimum qualifications are as follows:

a. *Character and industry.* An applicant must be possessed of honesty, temperate habits, thrift, industry, seriousness of purpose, record of good moral conduct, and a bona fide intent to engage in farming as an occupation.

b. *Farm experience.* Except as otherwise provided in this subsection, an applicant must have had a minimum of two years (24 months) of full-time farm experience, which shall consist of participation in actual farming operations, after attaining the age of 15 years. Time spent in agricultural courses in an accredited agricultural college or time spent in work closely associated with farming, such as teaching vocational agriculture, agricultural extension work, or field work in the production or marketing of farm products, which, in the opinion of the board will be of value to an applicant in operating a farm, may be substituted for full-time farm experience. Such substitution shall be on the basis of one year (academic year of at least nine months) of agricultural college courses or one year (twelve months) of work closely associated with farming for six months of full-time farm experience. Not more than one year of full-time farm experience of this type will be allowed. A farm youth who actually resided and worked on a farm after attaining the age of 15 and while attending school may credit such experience as full-time experience.

Applicants who have acquired their experience on an irrigated farm will not be given preference over those whose experience was acquired on a nonirrigated farm, but all applicants must have had farm experience of such nature as in the judgment of the examining board will qualify the applicant to undertake the development and operation of an irrigated farm by modern methods.

c. *Health.* An applicant must be in such physical condition as will enable him to engage in normal farm labor.

d. *Capital.* An applicant must possess assets worth at least $4,500 in excess of liabilities. Assets must consist of cash, property readily convertible into cash or property such as livestock, farm machinery and equipment, which, in the opinion of the board, will be useful in the development and operation of a new, irrigated farm. In considering the practical value of property which will be useful in the development of a farm, the board will not value household goods at more than $500 or a passenger car at more than $500. Assets not useful in the development of a farm will be considered if the applicant furnishes, at the Board's request, evidence of the value of the property and proof of its conversion into useful form before execution of a purchase contract.

SEC. 7. *Other qualifications required.* Each applicant (except guardian) must meet the following requirements:

a. Be a citizen of the United States or have declared an intention to become a citizen of the United States.

b. Not own outright, or control under a contract to purchase, more than ten acres of crop land or a total of 160 acres of land at the time of execution of a purchase contract for a farm unit.

c. If a married woman, or a person under 21 years of age who is not eligible for veterans preference, be the head of a family. The head of a family is ordinarily the husband, but a wife or a minor child who is obliged to assume major responsibility for the support of a family may be the head of a family.

WHERE AND HOW TO SUBMIT AN APPLICATION

SEC. 8. *Filing application blanks.* Any person desiring to purchase a farm unit offered for sale by this announcement must fill out the attached application blank and file it with the Land Settlement Branch, Bureau of Reclamation, Ephrata, Washington, in person or by mail. Additional application blanks may be obtained from the office of the Bureau of Reclamation at Ephrata, Washington; Post Office Box 937, Boise, Idaho; or Washington, D. C. No advantage will accrue to an applicant who presents an application in person. Each application submitted, including the evidence of qualification to be submitted following the public drawing, will become a part of the records of the Bureau of Reclamation and cannot be returned to the applicant.

SELECTION OF QUALIFIED APPLICANTS

SEC. 9. *Priority of applications.* All applications except those received from qualified exchange applicants prior to 2 p. m., May 20, 1954, which shall be given prior preference, will be classified for priority purposes as follows:

a. *First Priority Group.* All complete applications filed prior to 2 p. m., May 20, 1954, by applicants who claim veterans preference. All such applications will be treated as simultaneously filed.

b. *Second Priority Group.* All complete applications filed prior to 2 p. m., May 20, 1954, by applicants who do not claim veterans preference. All such applications will be treated as simultaneously filed.

c. *Third Group.* All complete applications filed after 2 p. m., May 20, 1954. Such applications will be considered in the order in which they are filed if any farm units are available for sale to applicants within this group.

SEC. 10. *Public drawing.* After the priority classification, the board will conduct a public drawing of the names of the applicants in the First Priority Group as defined in subsection 9. a. of this announcement. Applicants need not be present at the drawing to participate therein. The names of a sufficient number of applicants (not less than four times the number of farm units to be offered for sale) shall be drawn and numbered consecutively in the order drawn for the purpose of establishing the order in which the applications drawn will be examined by the board to determine whether the applicants meet the minimum qualifications prescribed in this announcement, and to establish the priority of qualified applicants for the selection of farm units. After such drawing, the Board shall notify each applicant of his respective standing as a result of the drawing.

SEC. 11. *Submission of evidence of qualification.* After the drawing, a sufficient number of applicants, in the order of their priority as established by the drawing, will be supplied with forms on which to submit evidence of qualification, showing that they meet the qualifications set forth in sections 6 and 7 of this announcement and, in case veterans preference is claimed, establishing proof of such preference, as set forth in section 3 of this announcement. Full and accurate answers must be made to all questions. The completed form must be mailed or delivered to the Land Settlement Branch, Bureau of Reclamation, Ephrata, Washington, within 20 days of the date the form is mailed to the last address furnished by the applicant. Failure of an applicant to furnish all of the information requested or to see that information is furnished by his references within the time period specified will subject his application to rejection.

SEC. 12. *Examination and interview.* After the information outlined in section 11 of this announcement has been received or the time for submitting such statements has expired, the Board shall examine in the order drawn a sufficient number of applications together with the evidence of qualification submitted to determine the applicants who will be permitted to purchase farm units. This examination will determine the sufficiency, authenticity, and reliability of the information and evidence submitted by the applicants.

If the applicant fails to supply any of the information required or the Board finds that the applicant's qualifications do not meet the requirements prescribed in this announcement, the applicant shall be disqualified and shall be notified by the Board, by registered mail, of such disqualification and the reasons therefor and of the right to appeal to the Regional Director, Region 1, Bureau of Reclamation. All appeals must be received in the office of the Land Settlement Branch, Bureau of Reclamation, Ephrata, Washington, within 15 days of the applicant's receipt of such notice or, in any event, within 30 days from the date when the notice is mailed to the last address furnished by the applicant. The Land Settlement Branch will promptly forward the appeal to the Regional Director.

If the examination indicates that an applicant is qualified, the applicant may be required to appear for a personal interview with the Board for the purpose of: (a) Affording the Board any additional information it may desire relative to his qualifications; (b) affording the applicant any information desired relative to conditions in the area and the problems and obligations relative to development of a farm unit; and (c) affording the applicant an opportunity to examine the farm units.

If an applicant fails to appear before the Board for a personal interview on the date requested, he will thereby forfeit his priority position as determined by the drawing.

If the Board finds that an applicant's qualifications fulfill the requirements prescribed in this announcement, such applicant shall be notified, in person or by registered mail, that he is a qualified applicant and shall be given an opportunity to select one of the farm units available then for purchase. Such notice will require the applicant to make a field examination of the farm units available to him and in which he is interested, to select a farm unit, and to notify the Board of such selection within the time specified in the notice.

SELECTION OF FARM UNITS

SEC. 13. *Order of selection.* The applicants who have been notified of their qualification for the purchase of a farm unit will successively exercise the right to select a farm unit in accordance with the priority established by the drawing. If a farm unit becomes available through failure of a qualified applicant to exercise his right of selection or failure to complete his purchase, it will be offered to the next qualified applicant who has not made a selection at the time the unit is again available. An applicant who is considered to be disqualified as a result of the personal interview will be permitted to exercise his right to select, notwithstanding his disqualification, unless he voluntarily surrenders this right in writing. If, on appeal, the action of the Board in disqualifying an applicant as a result of the personal interview is reversed by the Regional Director, the applicant's selection shall be effective, but if such action of the Board is upheld by the Regional Director, the farm unit selected by this applicant will become available for selection by qualified applicants who have not exercised their right to select.

If any of the farm units listed in this announcement remain unselected after all qualified applicants whose names were selected in the drawing have had an opportunity to select a farm unit, and if additional applicants remain in the First Priority Group, the Board will follow the same procedure outlined in section 10 of this announcement in the selection of additional applicants from this group.

If any of the farm units remain unselected after all qualified applicants in the First Priority Group have had an opportunity to select a farm unit, the Board will follow the same procedure to select applicants from the Second Priority Group, and they will be permitted to exercise their right to select a farm unit in the manner prescribed for the qualified applicants from the First Priority Group.

Any farm units remaining unselected after all qualified applicants in the Second Priority Group have had an opportunity to select a farm unit will be offered to applicants in the Third Group in the order in which their applications were filed, subject to the determination of the Board, made in accordance with the procedure prescribed herein, that such applicants meet the minimum qualifications prescribed in this announcement.

If any farm units offered by or under this announcement remain unsold for a period of two years following the date of this announcement, the Project Manager, Columbia Basin Project, Bureau of Reclamation, may sell, lease or otherwise dispose of such units to qualified applicants without regard to the provisions of section 10 of this announcement.

SEC. 14. *Failure to select.* If any applicant refuses to select a farm unit or

fails to do so within the time specified by the Board, such applicant shall forfeit his position in his priority group and his name shall be placed last in that group.

PURCHASE OF SELECTED UNIT

SEC. 15. *Execution of purchase contract.* When a farm unit is selected by an applicant as provided in section 13 of this announcement, the Project Manager will promptly give the applicant a written notice confirming the availability to him of the unit selected and will furnish the necessary purchase contract, together with instructions concerning its execution and return. In that notice the Project Manager will also inform the applicant of the amount of the irrigation charges assessed by the South-Columbia Basin Irrigation District or, if such charges have not been assessed, of an estimate of the amount of the charges for the first year of the development period, to be deposited with the Project Manager.

If the purchase is made subsequent to April 1 of any year following the first year of the development period, a deposit will be required to cover the payment of water charges for the next full irrigation season following the purchase.

SEC. 16. *Terms of sale.* Contracts for the sale of farm units pursuant to this announcement will contain, among others, the following principal provisions:

a. *Down payment.* An initial or down payment of not less than 20 percent of the purchase price of the lands being purchased from the United States will be required. Larger proportions, or the entire amount of the price, may be paid initially at the purchaser's option.

b. *Schedule for payment of balance; interest rate.* If only a portion of the purchase price is paid initially, the remainder will be payable within a period of 20 years following the date of the contract. No payments on the principal, except the down payment, will be required during the first three years and the Project Manager may postpone such payments for as long as the first five years of the contract. Interest on the unpaid balance at the rate of three percent per annum, however, will be payable annually. When payments on the principal are resumed, they will be payable each year. The schedule of principal payments, which will be established by the Project Manager, will provide for relatively small payments during the first years and larger payments during the later years of the contract period. Payment of any or all installments, or any portion thereof, may be made before their due dates at the purchaser's option.

c. *Development requirements.* In order that the irrigable area of the entire farm unit shall be developed with reasonable dispatch, each purchaser will be required, as a minimum, to clear, level, irrigate, and plant to crops by the end of each of the calendar years indicated below, and to maintain in crops thereafter, the following percentages of irrigable land as tentatively or finally classified:

Size of farm unit in irrigable acres	Percentage of land classified as tentatively or finally irrigable to be developed by the end of the calendar year indicated (Each year's requirement must be completed and ready for beneficial use by the end of the calendar year. Water will begin with the next calendar year.)			
	2d year	3d year	4th year	5th year
10 to 40	75			
41 to 60	50	75		
61 to 80	25	[illegible]	75	
81 to 100	25	[illegible]	[illegible]	[illegible]
101 to 160	25	50	50	75

d. *Residence requirements.* A major objective of the settlement program for the Columbia Basin Project is to assist and encourage the permanent settlement of farm families. In keeping with this objective, each purchaser will be required to do the following with respect to residence: (1) Within one year from the date of his contract, or within one year from the date that water is available to the irrigation block in which the farm unit is located, whichever is later, to initiate residence by actually moving onto the unit, such residence to be maintained by living thereon for not less than 12 months within an 18-month period following the initial date of residence, and (2) before receiving title to the unit under the purchase contract, to establish a permanent and habitable dwelling on the unit. The time for compliance with the initiation of residence may be extended by the Project Manager for periods of as long as six months, upon his determination that an extension is necessary to avoid undue hardship to the purchaser and that it will not be detrimental to the orderly development of the irrigation block. The latest permissible date for initiating residence, however, will not be extended for more than one year in addition to the one-year period specified above. In extraordinary situations, the requirements under (1) and (2) above may be waived entirely upon the determination by the Regional Director, after recommendation by the Project Manager, that such waiver will be in the interest of orderly development of the block. Any such waiver, however, shall be conditioned on the requirement that the purchaser reside close enough to his unit to permit him to develop it through his own efforts.

e. *Speculation and landholding limitations.* Purchase contracts and deeds covering farm units offered by this announcement will include provisions governing (1) maximum permissible sizes of holdings of irrigable land; (2) continued conformance of land to the area and boundaries of the farm unit plat for the block; (3) prices at which land can be resold during a period of five years following the date on which water is made available to the irrigation block; (4) disposal of land should it become excess at any time; and (5) limitations as to total area that may be operated on the project whether as lessee or as owner or both.

f. *Copies of contract form.* The terms listed above, and all other standard contract provisions, are contained in the purchase contract form, copies of which may be obtained by writing to the Bureau of Reclamation, Ephrata, Washington.

IRRIGATION CHARGES

SEC. 17. *Water rental charges.* In Irrigation Blocks 12 and 15 during the irrigation season of 1954, and in Irrigation Blocks 13 and 16 during the irrigation season of 1955, while some construction activities will be continuing and the system is being tested, it is expected that water will be furnished on a temporary rental basis to those desiring it. The terms of payment, which will be at a fixed rate per acre-foot of water used, will be announced by the Regional Director before the beginning of the irrigation season.

SEC. 18. *Development period charges.* Pursuant to the provisions of the repayment contract of October 9, 1945, between the United States and the South-Columbia Basin Irrigation District in the Columbia Basin Project, the Secretary of the Interior will announce a development period of ten years during which time payment of construction charge installments will not be required. This period probably will commence with the calendar year 1955 for Irrigation Blocks 12 and 15, and 1956 for Irrigation Blocks 13 and 16. During the development period, water rental charges will average an estimated $5.50 per year for each irrigable acre as tentatively or finally classified. This figure is preliminary and subject to change because all the data needed to fix the charges are not available nor can they be obtained now. In any event, there will be a minimum charge per farm unit each year whether or not water is used. A notice establishing the details of the plan to be followed and announcing charges and governing provisions for the first year of the development period will be issued prior to January 1 of that year, by the Regional Director, who has the responsibility for fixing charges.

The present plans of the Regional Director are (a) to vary the minimum charge according to the anticipated relative repayment ability of the various land classes; (b) to provide for a small minimum charge for the first year and to increase it each year thereafter so that the charge for the tenth year will be approximately equal to the combined construction and operation and maintenance charge for the following year; and (c) to charge for water in excess of the amount furnished for the minimum charge on an acre-foot basis. The minimum charge will entitle each user to a quantity of water to be specified by the Regional Director, varying with the water requirement classification of the land and the size of the farm unit.

In addition to the water rental charges, the Irrigation District will levy an additional charge to cover administrative costs and probable delinquencies in collections.

SEC. 19. *Construction period repayment charges—a. Operation and maintenance charges.* After the development period has ended, water users will pay a charge for operation and maintenance of the project irrigation system

which will be uniform for the irrigation blocks throughout the project. These charges may or may not be graduated among land classes. Assessment procedure will be left for the Irrigation District Board of Directors to determine, but, in any case, there will be an annual minimum charge per acre. In order to encourage careful use of water, this annual minimum charge will entitle the water used to one-half acre-foot of water per acre less than the amount of water normally required. The normal requirements for the various classes of land will be determined and announced as provided in the repayment contract with the South-Columbia Basin Irrigation District. Water in excess of the quantity covered by the minimum charge will be paid for on an acre-foot basis in accordance with an ascending, graduated scale.

b. *Construction charges.* The contract between the United States and the South-Columbia Basin Irrigation District requires the payment of construction charges for the project irrigation system during the forty years following the development period. The average construction charge per irrigable acre for the entire project will be $2.12 per year. Thus, the total construction charge payment will average $85 per irrigable acre, but that amount was predicated on an estimated total direct irrigation cost of not to exceed $280,782,180 as indicated by Article 6 of the repayment contract, an amount that it now appears is likely to be exceeded. The contract further provides that construction charges shall be graduated according to the relative repayment ability of the land; consequently, the charge per irrigable acre will be larger for the better lands than for the poorer lands. This allocation of construction charges by classes of land will be made as soon as practicable.

F. E. WORMSER,
Assistant Secretary of the Interior.

DEPARTMENT OF COMMERCE

Office of the Secretary

[Case 162]

OSCAR BRUNONI

APPEALS BOARD DECISION

In the matter of: Oscar Brunoni, Bahnhofstrasse 14, Zurich, Switzerland; Case No. 162, Appeals Board Docket No. FC-20.

This appeal arises from an enforcement action by the Office of International Trade (now Bureau of Foreign Commerce, referred to herein as O. I. T.) against A. Ripley and Co., J. W. Krugel, and Oscar Brunoni. It appears that Krugel is the sole proprietor of Ripley and Co., and any reference herein to either Ripley or Krugel may be considered as including both.

The matter was initiated by a charging letter dated January 2, 1953, alleging that in December 1948, Ripley entered into negotiations with Fansteel Metallurgical Corporation (hereafter referred to as Fansteel) of North Chicago, Illinois, for the purchase of approximately $20,000 worth of tantalum wire and sheet to be shipped to London where Ripley was located. Ripley sent an order for the tantalum in June 1949 but when it found that it was unable to obtain a British import license informed Fansteel in July 1949 that Brunoni of Zurich, Switzerland, had been retained to open a letter of credit covering the order. The charging letter further averred that Ripley and Brunoni represented and caused to be represented directly and indirectly to Fansteel that Brunoni was the consignee and purchaser and Switzerland the country of ultimate destination; that in reliance on these representations, communicated to O. I. T. by Fansteel in a license application, O. I. T., on August 22, 1949, issued its license; that shipment was made on March 4, 1950, to Brunoni, notify Furness Shipping and Agent Co., Antwerp, Belgium; that the tantalum was subsequently transshipped to Russia by Ripley and Brunoni; that the respondents knew or had reason to know that the country of ultimate destination would be Russia, and respondents intended upon its arrival in Antwerp to divert the tantalum to Russia, which fact respondents failed to disclose to Fansteel or O. I. T.

The charging letter, as to Brunoni, states that he knowingly caused various representations to be made to, and concealed material facts from, O. I. T. through an applicant for a United States license, in order to induce the issuance of the license and to effect the exportation of commodities from the United States in violation of 15 CFR, § 381.1 (b) (1) and (2) and that in addition he diverted the tantalum in violation of § 381.1 (b) (3) (i). The privileges of the respondents with reference to exports were suspended upon the issuance of the charging letter.

Respondents Krugel and Ripley entered no defense to the charging letter nor did they appear at the hearing before the Compliance Commissioner or take an appeal. The respondent Brunoni filed an answer and supplemental answer through his Swiss counsel, Dr. Herold, and joined issue on the allegations made in the charging letter. Brunoni did not appear in person at the hearing. The Compliance Commissioner found the charges sustained and on the basis of his report of August 21, 1953, an order was entered September 10, 1953, by the Assistant Director for Export Supply revoking licenses and denying export privileges to Brunoni for a period of 18 months from the date of the order and to Krugel and Ripley for the period until June 30, 1956.

An appeal was taken only on behalf of Brunoni, through local counsel who filed a brief and appeared before the Appeals Board and argued the matter.

Because there were no witnesses before the Compliance Commissioner, the matter was heard solely on various items of correspondence, together with the answer and supplemental answer of Brunoni's Swiss counsel, Dr. Herold. In setting forth the facts, therefore, it has been necessary for the Board to set out in greater detail than usual the correspondence between the parties involved in this matter, as this is the only evidence from which the facts in this case may be reconstructed.

Statement of facts. The facts in this matter have been gathered from various documents and letters obtained from O. I. T. and from Brunoni. In addition, the Board has considered the statement and supplemental statement filed on behalf of Brunoni by Dr. Herold, and the brief of counsel on behalf of Brunoni on appeal.

In December 1948, Ripley (in London) wrote Fansteel (in North Chicago, Illinois) that it was in the market for tantalum strip. Fansteel answered Ripley with certain quotations and suggested that Ripley contact Fansteel's representative in England, Captain C. A. Barry of London. In further correspondence, Ripley told Fansteel that it had made application for an import license (for England). There was also correspondence between Fansteel and Captain Barry, who had been brought into the matter by Ripley, pursuant to Fansteel's suggestion to Ripley. In January 1949, Fansteel sent Ripley pro-forma invoices for Ripley's original proposed order, which invoices showed a discount of 30 percent. Ripley then requested Fansteel to send invoices showing the amounts without the 30 percent discount, and Fansteel did so. Ripley then asked for quotations on additional amounts of tantalum and also mentioned that it was negotiating with the English authorities for an import license. On June 9, 1949, Ripley sent a formal order for over $19,000 to Fansteel and in letter of that date Ripley stated that in view of "present currency difficulties" they have authoried their Swiss representatives to "finalize this order with you" and payment will be effected from Zurich; that a new set of invoices should be sent to the Limor, S. A., at Zurich, and that the invoices sent to Limor should show a discount of only 5 percent and the balance of the discount (25 percent) should not be referred to but should be put to Ripley's credit with Fansteel.

Fansteel then made an application to O. I. T. for export license, dated July 5, 1949, showing Limor of Zurich as purchaser and consignee, and Switzerland as country of ultimate destination. An export license was issued on the basis of this application. Fansteel also sent invoices showing a discount of 5 percent to Limor. On July 12, 1949, Limor wrote Fansteel acknowledging receipt of the invoices and advising that they would inform Fansteel when a letter of credit would be opened.

On July 23, 1949, Ripley wrote Fansteel that they felt "unable to place this order with the Limor, S. A." and were making new arrangements. On July 28, 1949, Brunoni wrote Fansteel that per instructions from Ripley, he was preparing a letter of credit and that he would send Fansteel definite instructions later. On this same date, there was executed by Krugel and Brunoni an agency contract whereby Brunoni as agent agreed with Krugel as principal that the agent was to act as a representative and to invoice

industrial products in the steel and machinery field; that Krugel was to pay 1 percent commission; that Krugel gave Brunoni an exclusive agency for the activities mentioned; that the contract was firm until June 30, 1950, and that thereafter either party could give six month's notice. The agency agreement is dated at Zurich. Also, on July 28, Krugel sent Fansteel a letter advising Fansteel that Ripley has entrusted Brunoni "to transact the business in question." On August 3 Fansteel wrote Brunoni acknowledging Brunoni's letter of July 28. Copies of this letter were sent to Barry and Ripley. The evidence discloses that the copies sent to Barry and Ripley contained a postscript which did not appear on the original letter to Brunoni. The postscript states that the above letter was Fansteel's answer to Brunoni but that Fansteel must have immediate clarification of the name and address to which the merchandise was to be shipped because Fansteel had applied for an export license in the name of Limor and would have to amend the application. On August 5 Barry wrote Fansteel that Krugel had just returned from Switzerland where he had been negotiating the dollar payment for "his tantalum order" and that this would now be made by Brunoni. On August 9 Barry again wrote Fansteel about several matters and in one part of it under the heading "Brunoni", Barry mentions that with regard to Fansteel's letter of August 3 to Brunoni, "and your subparagraph to me" the export license should now be in the name of Brunoni, Zurich. (The subparagraph mentioned by Barry is evidently the postscript to Fansteel's letter of August 3 mentioned above.)

On August 16, 1949, Fansteel returned the original export license in the name of Limor to O. I. T. In its accompanying letter, Fansteel mentioned that it had been informed by Limor (sic) that the consignee for this shipment will be Brunoni and that Fansteel is accordingly attaching its application showing Brunoni, Zurich, as the consignee. A new export license was accordingly issued by O. I. T. to Fansteel showing Brunoni as ultimate consignee and Switzerland as country of ultimate destination. (There is no explanation as to why Fansteel mentioned that it had been informed by Limor that Brunoni would be the consignee in view of the fact that this information appears to have come to Fansteel in the letter of August 9 from Captain Barry, its representative.)

On August 29, 1949, Brunoni admits that he learned for the first time, under a letter of credit established in his favor with the Union Bank of Switzerland, that the real consignee of the merchandise was Promsyrioimport, evidently a Russian procurement agency, and that Russia was the country of ultimate destination. As noted later, there is some question whether Brunoni had learned of this fact earlier (see letter of October 28, 1949, from Brunoni to Ripley). At any rate, there is no question but that from at least August 29, 1949, Brunoni knew that the tantalum was not destined for Switzerland but that its ultimate destination was Russia. It is also to be noted that on July 28, 1949, Krugel wrote Brunoni confirming that Brunoni's account for the transaction relative to the agency agreement of the same date has been opened with a bank in Zurich.

There is a gap between the correspondence to date and the next letter of September 6, 1949, which Brunoni wrote to Ripley. This gap is filled by the first statement of Dr. Herold, Brunoni's Swiss attorney, who in his answer of January 23, 1953, states that Brunoni had noticed in the letter of credit that the goods were destined for Russia; that he had never carried out any merchandise transactions; that he is an expert in the fields of insurance and ocean shipping, and therefore he inquired informally with Danzas and Co. (evidently a Swiss shipping and forwarding firm) in order to find out about the regulations and possibilities of shipments to Russia; and that at Danzas his attention was called to the meaning of export licenses when dealing with the United States. Evidently shortly after Brunoni's visit to Danzas he wrote a letter of September 6, 1949, to Ripley. In this letter he states that customers have no possibility of redirecting the goods after arrival in Zurich; that he has consulted with his forwarders who explained that inasmuch as the destination of the merchandise must appear on the license, there may be two "cases" (probably meaning alternatives): (1) If the declared destination is Switzerland and it is known that the goods have come in transit to Switzerland for reforwarding to another country, the Swiss forwarders will not accept Brunoni's order for reforwarding; (2) If the destination other than Switzerland is properly declared, the forwarders will take care of the reforwarding, but they point out that, in such case, it is not necessary that the goods come first to Switzerland. The letter continues by stating that the Swiss forwarders have their reasons for declining reforwarding on the basis of documents issued in the United States indicating Switzerland as destination and that "I must state that I am in no better position than the Swiss forwarders." The letter also states that it should be possible to ship the goods direct to destination without passage through Switzerland and if such is the case, there will be no difficulty to confirm the order and open the letter of credit, and that, naturally, it would be necessary to indicate to suppliers (the sellers) the actual port of destination; should this prove impossible, then Brunoni leaves it to Ripley to study whether Ripley could operate through Antwerp in which case the bill of lading would call for Antwerp as destination, and the reforwarding would take place from Antwerp to final destination.

On September 20, 1949, Fansteel wrote Ripley asking what effect the devaluation of the pound sterling would have on his order. Ripley's reply to this was a request to have his discount increased to 50 percent. This almost resulted in cancellation of the entire transaction as Fansteel refused to raise the discount. However, on October 20 Ripley confirmed the order at a discount of 30 percent and asked whether Fansteel had been able to secure the export license before the letter of credit is opened by "our customers Messrs. O. Brunoni." Meanwhile, on October 15 Ripley wrote Brunoni in response to a cable of Brunoni's stating that the credit could not be opened until certain documents were furnished. Ripley's letter mentioned something about a "Delegation" in London to be contacted regarding this information. Evidently the Delegation referred to was a Russian Purchasing Commission in London, and Ripley was getting the information about the shipment from this Delegation. On October 18 Ripley again wrote Brunoni stating that they had been in conference with the "London agency" of the clients and requesting a copy of the letter of credit so that the text of the letter could be examined.

On October 24, 1949, Brunoni wrote Ripley, answering the letters of the 15th and 18th, enclosing a copy of the Bank's advice on the letter of credit, and called attention to the fact that the wording "B Lading to read on one port of USSR" is contradictory to the export licenses reading "For Switzerland". The letter continues to state that if the credit could be arranged to match with the export licenses, then shipment of the goods to Zurich should be technically possible; however, there would be a question of the Bank's agreeing to the transfer of credit when it is known that the final destination is another one than "S" (Switzerland); that it should be made clear if the goods are sent to Zurich they have to be taken over by "your friends" and reforwarding must be left to them. On October 25 Fansteel wrote Ripley stating that it has the export license and that Captain Barry (who had been there) indicated that Ripley was anxious to know about the license.

On October 28, 1949, Brunoni wrote Ripley stating that he has received from the bank a confirmation of modification of the letter of credit to the effect that in case shipment is made "free car Zurich", certain documents would have to be submitted including a railroad bill of lading made out to the address of Promsyrioimport, Moscow, showing shipment from Zurich to a Russian frontier station. This letter continues by stating that Brunoni's confirmation of August 3d (not in the record) indicated payment was to be effected by a certain type of letter of credit negotiable against certain documents, one of which was an invoice and six copies to Promsyrioimport; that the credit has been opened in Brunoni's favor on August 29 against certain documents including a full set of bill of lading showing shipping of the goods to one port of USSR at the disposal of Promsyrioimport. The letter continues by stating that if the shippers are able to issue a bill of lading showing shipment to a port of USSR, "our customers" would have a direct shipment not needing any intervention, however "you wrote me that the export license would be on my name which excludes the possibility for the shippers of issuing Bs/L as above". The letter then states that as Brunoni has written, he cannot attend to reforwarding; directly nor indirectly, and that according to the conversations at Zurich, he was supposed to intervene just for the transfer of the credit and to have nothing to do with reforwarding; that he understands that the bankers will not be able to transfer the credit for cargo going to Zurich for an export license in Brunoni's name, but for another destination, but that he can see one possibility, that the goods be shipped to a continental port, for instance, Antwerp, on a bill of lading issued to order, which means that the customers would take charge of the cargo on arrival at the continental port and make arrangements themselves for reforwarding.

On November 2, 1949, Furness Shipping Company wrote Brunoni that Ripley of London had written to Furness regarding certain merchandise which Brunoni is to receive from the USA for the USSR; that Furness confirms that it is the shipping agents at Antwerp of the "interested organizations", and can accept shipments f. o. b. Antwerp.

On December 23 Brunoni wrote Fansteel enclosing his itemized order for tantalum and advising that he has opened a credit through a Swiss bank with the National City Bank in New York against certain documents including bill of lading showing shipment to Antwerp to the order of Brunoni, notify Furness; to ship the goods by first class vessel direct to Antwerp and as soon as shipment is made to cable Brunoni the name of the vessel and expected arrival at Antwerp in order that he may advise Furness in advance. On December 29 Fansteel answered Brunoni thanking him for his letter and order. On the same date, Fansteel wrote Ripley enclosing a copy of its letter stating that the invoice to Brunoni will show 5 percent discount and that the balance of 25 percent will be credited to Ripley.

On February 13, 1950, Brunoni cabled Fansteel requesting the prospective date of shipment and Fansteel answered to the effect that it would leave North Chicago approximately February 21. On February 11 Ripley wrote Fansteel requesting expedition of the shipment. On February 25 Brunoni again cabled Fansteel requesting shipping advice. At this point, there was some delay because of a requirement for certain insurance documents not previously mentioned and on March 4 Brunoni cabled Fansteel to the effect that the matter had been arranged. On March 10 Fansteel cabled Brunoni that the material had sailed on the S. S. Steenstroete on March 4. On March 11 Brunoni wrote Furness advising them of this shipment and referring to the cargo mentioned to Furness by Ripley for Promsyrioimport and requesting a receipt in duplicate showing that the cargo has been received by Furness for the account and order of Promsyrioimport.

On March 13 Furness acknowledged Brunoni's letter and asked Brunoni to furnish a letter of indemnity which Furness would use to take the goods prior to receipt of the original bill of lading. On March 14 Brunoni wired Furness suggesting that Furness give the letter of indemnity for the account of Promsyrioimport who is holding the bills of lading. On March 27, Brunoni wrote Ripley enclosing the receipt of Furness. On March 29, Brunoni wrote Ripley that he feels it his duty to inform Ripley that owing to certain changes in his organization, Brunoni would not be able to handle similar transactions in the future. On April 3 Ripley answered Brunoni stating that they regretted his decision and that Mr. Krugel would see him when visiting Zurich.

It appears from information acquired by O. I. T., and not contradicted, that the tantalum in question arrived in Antwerp about March 14, 1950, and was then transshipped via a Soviet boat on March 22 to some part of Russia.

Comments and decision. At the outset, it might be well to consider certain legal contentions raised by Brunoni's counsel at the Appeals Board hearing. The enforcement regulations of O. I. T., in force at the time that these transactions occurred, contain certain provisions with reference to violations, misrepresentations and persons liable. Section 381.1 (a) provides that violations are subject to certain criminal sanctions and to administrative action of suspension or denial of licensing privileges. Paragraph (b) *Misrepresentations* is divided into four subparagraphs:

Subparagraph (1) *General provisions*, states that all representations made by any licensee or any other person for the purpose of effecting or causing to be effected an exportation of any commodity from the United States shall be deemed to constitute representations made in respect of matters related to the jurisdiction of O. I. T., and that it shall be unlawful under the regulations for any person knowingly to make any false representation or to falsify or conceal any material fact for such purpose.

Subparagraph (2) *Persons liable*, states that every person, whether or not in the United States, and whether or not the purchaser or consignee, who shall make any representation to O. I. T. for such purpose, shall be subject to the regulations.

Subparagraph (3) *Types of misrepresentation*, states that without limitation of the foregoing, no such person shall (i) falsely state the country of ultimate destination intended, or divert commodities in violation of any export control document to any other country; (ii) Falsely describe the true ultimate consignee or purchaser, (iii) submit any order for purchase with the intention not to abide by such order, (iv) falsely state the end use.

The charging letter states that Brunoni knowingly made false representations to and concealed material facts from O. I. T. in violation of subparagraphs (1) and (2) above-described, and in addition, knowingly diverted the tantalum in violation of subparagraph (3) (i). Counsel has made the contention that because subparagraph (2) does not expressly use the term "conceal", Brunoni, who was not situated in the United States, cannot be held for concealment. Counsel also apparently contends that subparagraphs (1) and (2) are not in and of themselves violations but that specific types of misrepresentation under subparagraph (3) are the violation portions. However, it appears from an examination of the regulations that subparagraph (1) is an independent description of violations; that subparagraph (2) merely calls attention to the parties who are liable for the acts mentioned in subparagraph (1) and need not necessarily repeat every element in subparagraph (1); and that subparagraph (3) which expressly states that it is "without limitation of the foregoing" is largely explanatory and descriptive of the various types of misrepresentation already mentioned in subparagraph (1). It is true that subparagraph (3) (i) contains, in addition to misrepresentations, the term "divert". However, the charging letter expressly mentions this subsection and also specifies the acts charged against Brunoni. Brunoni, in any event, is in no position to claim surprise, inasmuch as he, through his attorneys, has joined issue on all the charges, and has specifically answered them. The Board, in view of the fact that Brunoni did not appear before the Compliance Commissioner, has been extremely careful in examining the regulations and record to make sure that Brunoni has had an opportunity to understand and to answer the charges made. It is the Board's opinion that the regulations mentioned are complete, that the charging letter specifically acquainted Brunoni with the alleged violations, and that Brunoni has specifically joined issue with and answered the charges. Accordingly, the Board proceeds to consider whether the charges and the report of the Compliance Commissioner are sustained by the record.

Laying aside the various detailed statements as to the facts made in the report of the Compliance Commissioner, it appears to the Board that the broad question in this case is the extent, if any, of participation by Brunoni in a procedure which resulted in a diversion and transshipment to Russia of goods apparently destined for Switzerland. Brunoni claims that he was to be nothing more than a "straw man" and was merely to intervene for the purpose of switching invoices to enable Krugel to get dollars in Switzerland. The record, however, discloses that his role was more active and beyond that of a mere formal intermediary.

In the first place, Brunoni learned of the ultimate Russian consignee (Promsyrioimport) no later than August 29, 1949, when he picked up the letter of credit. His credibility in stating that this was the first he knew of a Russian consignee is somewhat shaken by his letter of October 28, 1949, to Ripley. In this letter, Brunoni stated that his confirmation of August 3 (which is not in the record) indicated that payment was to be made against certain documents, one of which mentioned Promsyrioimport. This would seem to indicate that Brunoni had learned about Promsyrioimport as early as August 3, if not before.

Brunoni also contends that he knew nothing about any export license being in his name or mentioning Switzerland as a destination. The evidence discloses, however, that Brunoni had gone to Danzas and had acquired some information

with respect to export licenses which caused him to believe that the goods could not come into Switzerland and be reforwarded from there. It would appear that the inability to reforward was based on the fact that an export license was issued or would be issued indicating Switzerland as the country of ultimate destination. On September 6, 1949, Brunoni wrote Ripley that the goods cannot be redirected after arrival in Zurich, and mentions two "cases". The first case is that if the declared destination is Switzerland, and it is known that the goods are to be reforwarded, Swiss forwarders will not accept Brunoni's order. The second case is that if a destination other than Switzerland is declared, reforwarding may be had, but that in such case, it would not be necessary that the goods come to Switzerland at all. This information Brunoni states is the result of his consultation with his forwarders. In this same letter, Brunoni makes the suggestion, or rather a hint, that Ripley could operate through Antwerp and the bill of lading call for Antwerp as destination.

On October 24, 1949, Brunoni again wrote Ripley and called attention to the fact that certain wording in the bank's advice, to the effect that the bill of lading was to read for a port of USSR, "is contradictory to the export licenses reading 'For Switzerland'." This letter also mentions doubt whether the bank would agree to the transfer of credit when it is known that the final destination is another one than "S" (an abbreviation for Switzerland). It is impossible to read this letter in any other context than that Brunoni was aware of the fact that there was extant an export license mentioning Switzerland as the country of ultimate destination.

Again, in his letter of October 28, 1949, to Ripley, Brunoni specifies at length the complete mechanism for the transshipment of the goods to Russia via Antwerp. After pointing out the impossibility or impracticability of having the goods come to Zurich and then be transshipped, he makes a direct suggestion that the goods be shipped to a continental port, "for instance, Antwerp". Also, in this letter, in pointing out why the goods should not first come to Switzerland, Brunoni states to Ripley "You wrote me that the export license would be on my name which excludes the possibility for the shippers of issuing Bs/L as above" (to Russia). And, on December 23, Brunoni wrote Fansteel enclosing his order for the tantalum.

It appears, therefore, that during the entire time in which Brunoni had a chance either to expedite or to frustrate the shipment in question, or to withdraw from the transaction, he was aware of the fact that an export license had been issued in his name, with Switzerland as the designated country of ultimate destination. A contention is made in his briefs that he feared he would be in violation of the Swiss Commercial Espionage Law if, after he discovered the existence of Promsyrioimport and the other facts in the matter, he disclosed them to anybody. Counsel for Brunoni also claims that it was not incumbent on Brunoni to disclose to Fansteel or to the United States Government his knowledge of the fact that the goods were really destined for Russia and that the real purchaser was Promsyrioimport. Counsel has cited a number of criminal cases in which defendants were acquitted on charges of having concealed matters from the Government or having participated in a conspiracy. These cases principally involve landlords whose premises were used for the manufacture of illegal liquor during the prohibition days. However, such cases may be distinguished from the matter involved herein. In the first place, this is an administrative proceeding to ascertain the reliability of a person to engage in export control matters. Secondly, the cases cited do not involve a situation wherein the United States Government acted or refrained from acting upon the representations or concealment of facts by a party who is getting the benefit of the Government action. In this case, the Government was induced to take an affirmative action, i. e., to issue and keep in force an export license because of certain representations on the one hand and concealment of material facts on the other. In such case, there is a much greater duty on a party to disclose all material facts than in a case where his concealment does not lead to any action on the part of the Government. (See, e. g., U. S. v. Leviton, 193 F. 2d 848; DeBon v. U. S., 175 F. 2d 439; Todorow v. U. S., 173 F. 2d 439.)

There has been no direct evidence before the Board as to the applicability and scope of the Swiss law. There is nothing to indicate that Brunoni could not have withdrawn from the transaction. He does claim that had he withdrawn from the transaction, he would have been liable for damages under his agency agreement with Krugel, but the evidence, taken most favorably for Brunoni, would indicate that Krugel was making certain misrepresentations and involving Brunoni in them. The Board is not aware of any law, continental or otherwise, which would make an agent liable for withdrawing under such circumstances. It also appears that Brunoni unilaterally withdrew from the agency agreement immediately after the transaction involved in this matter, before the agency agreement had terminated.

The Board is of the opinion that the allegations in the charging letter and the report of the Compliance Commissioner are substantially sustained by the evidence before it.

The Board, however, takes cognizance of the fact that the suspension of Krugel and Ripley runs to June 30, 1956, which is approximately a period of 42 months from the date of the charging letter (January 2, 1953), while the suspension of Brunoni runs for a period of about 26 months from the date of the charging letter. The Board feels that the relative lengths of these two suspensions does not correspond to the relative degree of culpability of the parties. The actions of Krugel and Ripley indicate a much greater degree of culpability than those of Brunoni who was brought into the picture by Krugel only after Krugel's negotiations with Fansteel had been long under way.

The Board is also aware of the handicap sustained by counsel for Brunoni on appeal in that said counsel has come into the case for the sole purpose of appeal and was not in the case on the hearing before the Compliance Commissioner.

After due consideration of all the evidence in this case, plus the fact that Brunoni has already been under suspension for approximately 15 months, the Board feels sufficient justice would be done if the appellant's suspension were to terminate as of the date of this order.

Now, therefore, it is ordered that

(1) The provisions of the Order Revoking Licenses and Denying Export Privileges, dated September 10, 1953, be and they are hereby modified as to appellant Oscar Brunoni, by amending the period of suspension set forth in paragraph (2) of the ordering portion of said order so that said period of suspension will terminate April 2, 1954.

(2) As so modified, said order is in all respects sustained, and the appeal of appellant be and it is hereby denied.

FREDERIC W. OLMSTEAD,
Chairman, Appeals Board.

APRIL 2, 1954.

CIVIL AERONAUTICS BOARD

[Docket No. 6548]

PAN AMERICAN WORLD AIRWAYS, INC.

NOTICE OF HEARING

In the matter of the application of Pan American World Airways, Inc., for amendment of its United States-Europe-Middle East-India certificate and its Approved Service Plan so as to authorize service to Damascus, Syria, between Beirut, Lebanon, and Baghdad, Iraq, on segments 1 and 3.

Notice is hereby given, pursuant to the Civil Aeronautics Act of 1938, as amended, particularly sections 402, 409 and 1001 of the said act, that a public hearing in the above-entitled proceeding is assigned to be held on April 19, 1954, at 10:00 a. m., e. s. t., in Room E-210, Temporary Building No. 5, Sixteenth Street and Constitution Avenue NW., Washington, D. C., before Examiner Curtis C. Henderson.

Without limiting the scope of the issues presented by the application particular attention will be directed to the following questions:

1. Does the public convenience and necessity require the amendment of the certificate of public convenience and necessity held by Pan American World Airways, Inc., and its Approved Service Plan thereunder so as to authorize service to Damascus, Syria?

2. Is Pan American World Airways, Inc., a citizen of the United States as defined by section 1 (13) of the Civil Aeronautics Act of 1938, as amended?

3. Is Pan American World Airways, Inc., fit, willing, and able to provide the air transportation as proposed in the aforementioned application?

Notice is further given that any person desiring to be heard in the proceeding must file with the Board on or before April 19, 1954, a statement setting forth the issues of fact or law raised by said application which he desires to controvert.

For further details of the issues involved in this proceeding interested persons are referred to the application on file with the Civil Aeronautics Board.

Dated at Washington, D. C., April 5, 1954.

[SEAL] FRANCIS W. BROWN,
Chief Examiner.

[F. R. Doc. 54-2634; Filed, Apr. 7, 1954; 8:55 a. m.]

FEDERAL COMMUNICATIONS COMMISSION

[Docket Nos. 8694, 8730, 8840]

WESTINGHOUSE BROADCASTING CO., INC., ET AL.

ORDER DESIGNATING APPLICATIONS FOR CONSOLIDATED HEARING ON STATED ISSUES

In re applications of Westinghouse Broadcasting Company, Inc., Pittsburgh, Pennsylvania, Docket No. 8694, File No. BPCT-221; WWSW, Inc., Pittsburgh, Pennsylvania, Docket No. 8730, File No. BPCT-254; Pittsburgh Radio Supply House, Inc., Pittsburgh, Pennsylvania, Docket No. 8840, File No. BPCT-345; for construction permits for new television stations.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 31st day of March 1954;

The Commission having under consideration the above-entitled applications, each requesting a construction permit for a new television broadcast station to operate on Channel 11 in Pittsburgh, Pennsylvania; and

It appearing that the above-entitled applications are mutually exclusive in that operation by more than one applicant would result in mutually destructive interference; and

It further appearing that pursuant to section 309 (b) of the Communications Act of 1934, as amended, the above-named applicants were advised by letters of the fact that their applications were mutually exclusive, of the necessity for a hearing and of all objections to their applications; and were given an opportunity to reply; and

It further appearing that upon due consideration of the above-entitled applications, the amendments filed thereto, and the replies to the above letters, the Commission finds that under section 309 (b) of the Communications Act of 1934, as amended, a hearing is mandatory; and that each of the above-named applicants is legally, financially and technically qualified to construct, own and operate a television broadcast station; and

It further appearing that Pittsburgh Radio Supply House, Inc., proposes an antenna site in the immediate vicinity of standard broadcast stations WWSW and KQU; that the proposed construction may have effects upon the operation of these stations; and that a grant of the application of Pittsburgh Radio Supply House, Inc., if made, will be subject to the following condition:

The construction authorized shall not adversely affect the ability of standard broadcast stations WWSW and KQU to operate in accordance with the terms of their licenses, particularly with respect to their antenna systems, and that sufficient field intensity measurements of WWSW and KQU shall be made before and after such construction to prove that no material effect thereon has resulted.

It is ordered, That pursuant to section 309 (b) of the Communications Act of 1934, as amended, the above-entitled applications are designated for hearing in a consolidated proceeding to commence at 10:00 a. m. on the 30th day of April 1954 in Washington, D. C., upon the following issues:

1. To determine on a comparative basis which of the operations proposed in the above-entitled applications would best serve the public interest, convenience and necessity in the light of the record made with respect to the significant differences among the applications as to:

(a) The background and experience of each of the above-named applicants having a bearing on its ability to own and operate the proposed television station.

(b) The proposals of each of the above-named applicants with respect to the management and operation of the proposed station.

(c) The programming service proposed in each of the above-entitled applications.

It is further ordered, That the issues in the above-entitled proceeding may be enlarged by the Examiner, on his own motion or on petition properly filed by a party to the proceeding and upon sufficient allegations of fact in support thereof, by the addition of the following issue: To determine whether the funds available to the applicant will give reasonable assurance that the proposals set forth in the application will be effectuated.

Released: April 5, 1954.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
Secretary.

[F. R. Doc. 54-2639; Filed, Apr. 7, 1954; 9:10 a. m.]

[Docket Nos. 10083, 10697, 10698]

WINNEBAGO BROADCASTING CO. ET AL.

ORDER ENLARGING ISSUES

In re applications of Vincent S. Barker and Howard H. Monk d/b as Winnebago Broadcasting Company, Rockford, Illinois, Docket No. 10083, File No. BP-8281; Esther Blodgett, Harvard, Illinois, Docket No. 10697, File No. BP-8579; Evanston Broadcasting Company (WNMP), Evanston, Illinois, Docket No. 10698, File No. BP-8861; for construction permits.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 1st day of April 1954;

The Commission having under consideration a Petition to Enlarge and to Amend Issues filed by Esther Blodgett on January 25, 1954, no oppositions having been filed thereto;

It appearing that the above-entitled applications were designated for hearing in a consolidated proceeding by an order dated September 23, 1953, and that one issue, inter alia, in said order requires a determination as to which applicant, on a comparative basis, would best serve the public interest, convenience and necessity; and

It further appearing that in the instant petition Esther Blodgett requests (1) that the Commission enlarge the hearing issues to determine which of the above-entitled applicants would provide the more fair, efficient and equitable distribution of radio service, in the light of section 307 (b) of the Communications Act of 1934 as amended, (2) that the Commission amend the issues to delete subparagraphs (a), (b), and (c) of Issue 5, and (3) that the Commission waive the requirements of § 1.389 of its rules and consider her petition on its merits; and

It further appearing that careful consideration of the instant petition and the above-entitled applications discloses that each of the applicants proposes to serve a community separate and distinct from the community proposed to be served by either of the other applicants; that in accordance with present Commission policy and practice, an appropriate issue should be included to permit consideration of the statutory requirement contained in section 307 (b) of the Communications Act of 1934, as amended; and

It further appearing that section 307 (b) of the act is only one of many factors to be considered in this proceeding; that petitioner has not advanced any valid reasons for the deletion of subparagraphs (a), (b) and (c) of Issue 5 of the order of designation of September 23, 1953; and that the Commission believes orderly procedure dictates that all outstanding issues be dealt with in a single proceeding even though any one of the issues may be determinative of the proceeding without reference to other matters.

Accordingly, it is ordered, That the instant petition filed on January 25, 1954, by Esther Blodgett be granted to the extent (1) that the requirements of § 1.389 of the Commission's rules are waived, and (2) that the issues in the above-entitled proceeding be enlarged to include the following issue;

To determine, in the light of section 307 (b) of the Communications Act of 1934 as amended which of the above-entitled applications would provide the more fair, efficient and equitable distribution of radio service;

And that in all other respects, said petition is denied.

Released: April 2, 1954.

ALTMAN PLASTIC CO.

ORDER CONTINUING HEARING

In the matter of Cease and Desist Order to be directed to Harold Altman and Sol Altman, tr/as Altman Plastic Company, 464 Liberty Avenue, Brooklyn 7, New York; Docket No. 10939

The Commission having under consideration a Motion for Continuance filed on March 30, 1954, by counsel for the Chief of the Commission's Field Engineering and Monitoring Bureau, requesting that the hearing in the above-entitled proceeding, scheduled for April 7, 1954, at New York, New York, be continued to a date to be set by further order; and

It appearing that no opposition to said Motion has been filed, that the parties have consented to a waiver of § 1.745 of the Commission's rules in order that said Motion may be acted on without being on file for a period of 4 days, and that good cause for the granting thereof has been shown;

It is ordered, This 1st day of April 1954, that the Motion for Continuance is granted, and that the hearing in the above-entitled proceeding, now scheduled for April 7, 1954, is continued until a later date to be designated by a further order of the Hearing Examiner.

Released: April 2, 1954.

[Docket Nos. 10977-10979]

INDEPENDENT BROADCASTING CO. ET AL.

ORDER DESIGNATING APPLICATIONS FOR CONSOLIDATED HEARING ON STATED ISSUES

In re applications of Independent Broadcasting Company, Minneapolis, Minnesota, Docket No. 10977, File No. BPCT-366; Family Broadcasting Corporation, Minneapolis, Minnesota, Docket No. 10978, File No. BPCT-795; Twin Cities Broadcasting Corporation, Minneapolis, Minnesota, Docket No. 10979, File No. BPCT-1652; for construction permits for new television stations.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 31st day of March 1954;

The Commission having under consideration the above-entitled applications, each requesting a construction permit for a new television broadcast station to operate on Channel 9 in Minneapolis, Minnesota; and

It appearing that the above-entitled applications are mutually exclusive in that operation by more than one applicant would result in mutually destructive interference; and

It further appearing that pursuant to section 309 (b) of the Communications Act of 1934, as amended, the above-named applicants were advised by letters of the fact that their applications were mutually exclusive, of the necessity for a hearing and of all objections to their applications; and were given an opportunity to reply; and

It further appearing that upon due consideration of the above-entitled applications, the amendments filed thereto, and the replies to the above letters, the Commission finds that under section 309 (b) of the Communications Act of 1934, as amended, a hearing is mandatory; that Independent Broadcasting Company is legally and financially qualified to construct, own and operate the proposed television broadcast station and is technically so qualified except as to issue "1" below; that Twin Cities Broadcasting Corporation is legally, financially and technically qualified to construct, own and operate the proposed television broadcast station; and that Family Broadcasting Corporation is legally, technically and financially qualified to construct, own and operate the proposed television broadcast station;

It is ordered, That pursuant to section 309 (b) of the Communications Act of 1934, as amended, the above-entitled applications are designated for hearing in a consolidated proceeding to commence at 10:00 a. m. on the 30th day of April 1954 in Washington, D. C., upon the following issues:

1. To determine the correct geographical coordinates of the antenna system and site proposed by Independent Broadcasting Company.

2. To determine on a comparative basis which of the operations proposed in the above-entitled applications would best serve the public interest, convenience and necessity in the light of the record made with respect to the significant differences among the applications as to:

(a) The background and experience of each of the above-named applicants having a bearing on its ability to own and operate the proposed television station.

(b) The proposals of each of the above-named applicants with respect to the management and operation of the proposed station.

(c) The programming service proposed in each of the above-entitled applications.

It is further ordered, That the issues in the above-entitled proceeding may be enlarged by the Examiner, on his own motion or on petition properly filed by a party to the proceeding and upon sufficient allegations of fact in support thereof, by the addition of the following issue: To determine whether the funds available to the applicant will give reasonable assurance that the proposals set forth in the application will be effectuated.

Released: April 5, 1954.

OWENSBORO ON THE AIR, INC., AND OWENSBORO PUBLISHING CO.

ORDER DESIGNATING APPLICATIONS FOR CONSOLIDATED HEARING ON STATED ISSUES

In re applications of Owensboro on the Air, Inc., Hatfield, Indiana, Docket No. 10982, File No. BPCT-1787; Owensboro Publishing Company, Hatfield, Indiana, Docket No. 10983, File No. BPCT-1790; for construction permits for new television stations.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 31st day of March 1954;

The Commission having under consideration the above-entitled applications, each requesting a construction permit for a new television broadcast station to operate on Channel 9 in Hatfield, Indiana; and

It appearing that the above-entitled applications are mutually exclusive in that operation by more than one applicant would result in mutually destructive interference; and

It further appearing that pursuant to section 309 (b) of the Communications Act of 1934, as amended, the above-named applicants were advised by letters of the fact that their applications were mutually exclusive, of the necessity for a hearing and of all objections to their applications; and were given an opportunity to reply; and

It further appearing that upon due consideration of the above-entitled applications, the amendments filed thereto, and the replies to the above letters, the Commission finds that under section 309 (b) of the Communications Act of 1934, as amended, a hearing is mandatory; and that each of the above-named applicants is legally, financially and technically qualified to construct, own and operate a television broadcast station;

It is ordered, That pursuant to section 309 (b) of the Communications Act of 1934, as amended, the above-entitled applications are designated for hearing in a consolidated proceeding to commence at 10:00 a. m. on the 30th day of April 1954 in Washington, D. C., upon the following issues:

1. To determine on a comparative basis which of the operations proposed in the above-entitled applications would better serve the public interest, convenience and necessity in the light of the record made with respect to the significant differences between the applications as to:

(a) The background and experience of each of the above-named applicants having a bearing on its ability to own and operate the proposed television station.

(b) The proposals of each of the above-named applicants with respect to the management and operation of the proposed station.

(c) The programming service proposed in each of the above-entitled applications.

It is further ordered, That the issues in the above-entitled proceeding may be enlarged by the Examiner, on his own motion or on petition properly filed by a party to the proceeding and upon sufficient allegations of fact in support thereof, by the addition of the following issue: To determine whether the funds available to the applicant will give reasonable assurance that the proposals set forth in the application will be effectuated.

Released: April 5, 1954.

[Docket No. 10987]

ATLAS TOWING CO.

ORDER DESIGNATING APPLICATION FOR HEARING ON STATED ISSUES

In the matter of Atlas Towing Company, Parkersburg, West Virginia, application for construction permit for a new limited Class II-B coast station to be located at Parkersburg, West Virginia (File No. 8806-F1-P-I); Docket No. 10987.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 31st day of March 1954;

The Commission, having under consideration an application filed by Atlas Towing Company, Parkersburg, West Virginia, for construction permit for a new limited Class II-B coast station to be located at Parkersburg, West Virginia;

It appearing that pursuant to section 309 (b) of the Communications Act of 1934, as amended, the above-named applicant was advised by a letter dated January 28, 1954, that the Commission was unable to determine that a grant of the above-entitled application would serve the public interest, convenience or necessity in view of questions concerning the feasibility of use of frequencies above 30 Mc and the feasibility of use of existing public communication facilities serving the Mississippi River System;

It further appearing that although the Commission finds the above-named applicant is legally, technically and financially qualified to construct, own and operate a coast station such as proposed, consideration of the applicant's reply dated February 23, 1954, to the Commission's letter has not resolved the questions raised and the Commission is unable to find that the public interest, convenience or necessity would be served by a grant of the application;

It is ordered, Pursuant to section 309 (b) of the Communications Act of 1934, as amended, that said application is designated for hearing upon the following issues:

1. To determine whether or not satisfactory ship-shore telephone service can be obtained through use of one or more public coast stations serving inland waters of the United States, including public coast stations at Pittsburgh, Pennsylvania, and Louisville, Kentucky.

2. To determine whether all or any portion of the desired ship-shore telephone service can be satisfactorily obtained on one or more available frequencies above 30 Mc.

3. To determine in the light of the evidence adduced under the above issues, whether grant of the above-entitled application would serve the public interest, convenience and necessity.

It is further ordered, That the Atlas Towing Company is hereby afforded an opportunity to obtain a hearing on the foregoing issues by filing a written appearance, in triplicate, within twenty days of the mailing of the Order designating the application for hearing. If the applicant fails to file such a written statement within the date specified, and has not filed prior to the expiration of that date a petition to dismiss without prejudice, his application shall be dismissed with prejudice for failure to prosecute, in accordance with § 1.387 of the Commission's rules.

It is further ordered, That Radiomarine Corporation of America, licensee of station WCM, Pittsburgh, Pennsylvania and Warner & Tamble Radio Service, Inc., licensee of station WFN, Louisville, Kentucky are named parties respondent to this proceeding, provided that within twenty days of the mailing of this order each of them shall file with the Commission a written appearance in triplicate;

It is further ordered, That the hearing herein shall be held at the offices of the Commission at Washington, D. C., beginning at 10:00 a. m. on the 17th day of May 1954.

Released: April 5, 1954.

FEDERAL POWER COMMISSION

[Docket Nos. E-6555, E-6556]

PENNSYLVANIA WATER & POWER CO. AND PENNSYLVANIA POWER & LIGHT CO.

NOTICE OF APPLICATIONS

MARCH 31, 1954.

Take notice that on March 31, 1954, applications were filed with the Federal Power Commission, pursuant to section 203 of the Federal Power Act, by Pennsylvania Power & Light Company (hereinafter called P. P. & L.) and Pennsylvania Water & Power Company (hereinafter called Penn Water), seeking orders authorizing the sale by Penn Water and the acquisition by P. P. & L. of a section of a 220-kv. transmission line, more fully described below. Penn Water is a corporation organized under the laws of the Commonwealth of Pennsylvania and doing business in the States of Pennsylvania and Maryland, with its principal business office in Baltimore, Maryland. P. P. & L. is a corporation organized under the laws of the Commonwealth of Pennsylvania and doing business in said state with its principal business office in Allentown, Pennsylvania. Penn Water proposes to sell and P. P. & L. proposes to purchase a section of a transmission line and appurtenant facilities, including a small parcel of land, owned by Penn Water consisting of 6.28 miles of a 220-kv., 3-phase, 60-cycle steel tower transmission line which connects the Maner Substation of Penn Water, near Safe Harbor, Pennsylvania, with the Hummelstown Substation of P. P. & L., at Hummelstown, Pennsylvania. The consideration for the transfer of the property is $299,871 as of December 31, 1953, subject to certain adjustments at the date of final settlement; all as more fully appears in the application on file with the Commission.

Any person desiring to be heard, or to make any protest with reference to said applications, should on or before the 22d day of April 1954, file with the Federal Power Commission, Washington 25, D. C., a petition or protest in accordance with the Commission's rules of practice and procedure. The applications are on file with the Commission for public inspection.

[SEAL] LEON M. FUQUAY,
Secretary.

[Docket No. E-6557]

MONTANA POWER CO.

NOTICE OF APPLICATION

APRIL 1, 1954.

Take notice that on March 31, 1954, an application was filed with the Federal Power Commission, pursuant to section 204 of the Federal Power Act, by The Montana Power Company (hereinafter referred to as Applicant), for an order authorizing the issuance of $6,000,000 principal amount of First Mortgage Bonds, __ percent Series due 1984; 60,000 shares of $_____ Preferred Stock, Cumulative, No Par Value; and $18,000,000 principal amount of __ percent Sinking Fund Debentures due 1979. The Applicant is a corporation organized under the laws of the State of New Jersey and doing business in the States of Montana, Idaho and Wyoming, with its principal business office at Butte, Montana. Applicant proposes to issue the aforementioned securities by competitive bidding. The purpose for which the proposed securities are to be issued by Applicant is to obtain funds and to apply the proceeds therefrom in connection with Applicant's construction program as well as for the purpose of redeeming at 104.72 percent of the principal amount thereof $18,000,000 principal amount of 4¾ percent Sinking Fund Debentures due 1978; all as more fully appears in the application on file with the Commission.

Any person desiring to be heard, or to make any protest with reference to said application should, on or before the 22d day of April 1954, file with the Federal

Power Commission, Washington 25, D. C., a petition or protest in accordance with the Commission's rules of practice and procedure. The application is on file with the Commission for public inspection.

[Docket No. G 2370]

EL PASO NATURAL GAS CO.

ORDER FIXING DATE OF HEARING

This proceeding is a proper one for disposition under the provisions of § 1.32 (b) (18 CFR 1.32 (b)) of the Commission's rules of practice and procedure, Applicant having requested that its application, filed February 16, 1954, pursuant to section 7 of the Natural Gas Act, for authorization to construct and operate certain facilities as described in said application, heard under the shortened procedure provided by the aforesaid rule for noncontested proceedings: *Provided*, That no request to be heard, protest or petition is filed subsequent to the giving of due notice of the filing of the application including publication in the FEDERAL REGISTER on March 11, 1954 (19 F. R. 1374).

The Commission orders:

(A) Pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing be held on April 15, 1954, at 9:30 a. m., e. s. t., in the Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved and the issues presented by the application: *Provided, however*, That the Commission may, after a noncontested hearing, forthwith dispose of the proceedings pursuant to the provisions of § 1.32 (b) of the Commission's rules of practice and procedure.

(B) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) (18 CFR 1.8 and 1.37 (f)) of the said rules of practice and procedure.

Adopted: April 2, 1954.

Issued: April 2, 1954.

By the Commission.

[SEAL] LEON M. FUQUAY, *Secretary.*

[Docket No. G-2372]

EL PASO NATURAL GAS CO.

ORDER FIXING DATE OF HEARING

This proceeding is a proper one for disposition under the provisions of § 1.32 (b) [18 CFR 1.32 (b)] of the Commission's rules of practice and procedure, Applicant having requested that its application, filed February 17, 1954, pursuant to section 7 of the Natural Gas Act, for authorization to construct and operate certain facilities as described in said application, be heard under the shortened procedure provided by the aforesaid rule for non-contested proceedings, and no request to be heard, protest or petition having been filed subsequent to the giving of due notice of the filing of the application including publication in the FEDERAL REGISTER on March 11, 1954 (19 F. R. 1375).

The Commission orders:

(A) Pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing be held on April 15, 1954, at 9:45 a. m., e. s. t., in the Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved and the issues presented by the application: *Provided, however*, That the Commission may, after a noncontested hearing, forthwith dispose of the proceedings pursuant to the provisions of § 1.32 (b) of the Commission's rules of practice and procedure.

(B) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) (18 CFR 1.8 and 1.37 (f)) of the said rules of practice and procedure.

Adopted: April 2, 1954.

Issued: April 2, 1954.

[Docket No. G-2384]

EL PASO NATURAL GAS CO.

NOTICE OF APPLICATION

APRIL 2, 1954.

Take notice that on March 8, 1954, El Paso Natural Gas Company (Applicant), a Delaware corporation having its principal place of business at El Paso, Texas, filed an application for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, authorizing the construction and operation of certain natural-gas facilities as hereinafter described.

The facilities which Applicant proposes to construct and operate are as follows:

(1) Construct and place in operation a 10¾-inch O. D. pipe line approximately 19.8 miles in length, extending from the downstream side of the Warren Petroleum Company Saunders Plant, located in Lea County, New Mexico, in a northerly and eastwardly direction to a point of connection with Applicant's existing 30-inch Permian-San Juan Crossover Line in Lea County.

(2) Construct and place in operation a compressor station of 330 horsepower, together with the necessary appurtenances for the operation of same, to be located immediately adjacent to the Warren Petroleum Company Saunders Plant.

(3) Construct and place in operation a standard orifice meter measuring station to be known as the Saunders Purchase Meter Station, said station to be located immediately downstream of the Warren Petroleum Company's plant

The proposed facilities will be operated in conjunction with the operation of Applicant's existing facilities, all for the purpose of purchasing and acquiring approximately 15,000,000 cubic feet of natural gas per day from the Warren Petroleum Corporation.

The total estimated cost of the proposed facilities is $693,695, which Applicant proposes to finance out of his current working funds.

The Applicant requests that its application be heard under the shortened procedure pursuant to § 1.32 (b) of the Commission's rules of practice and procedure.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before the 22d day of April 1954. The application is on file with the Commission for public inspection.

[SEAL] LEON M. FUQUAY, *Secretary.*

[F. R. Doc. 54-2595; Filed, Apr. 7, 1954; 8:49 a. m.]

[Docket Nos. G-2386, G-2387, G-2388, G-2395]

CITY OF SUMMERVILLE, GA., ET AL.

NOTICE OF APPLICATIONS

APRIL 2, 1954.

In the matters of City of Summerville, Georgia, Docket No. G-2386; City of LaFayette, Georgia, Docket No. G-2387; City of Trion, Georgia, Docket No. G-2388; City of Dalton, Georgia, Docket No. G-2395.

Take notice that on March 8, 1954, the City of Summerville, Georgia, the City of LaFayette, Georgia, and the City of Trion, Georgia, all municipal corporations organized and existing under the laws of the State of Georgia, filed applications pursuant to section 7 (a) of the Natural Gas Act for orders directing Southern Natural Gas Company (Southern Natural) to establish physical connection of its transmission facilities with the facilities proposed to be constructed by the applicants and to sell natural gas to them.

The City of Summerville, the City of LaFayette, and the City of Trion each propose to construct a municipal system for the distribution of natural gas to its ultimate consumers within its own corporate limits and surrounding territory. The municipalities propose to cooperate in the construction and operation of a supply main to connect with the transmission main of Southern Natural.

The peak-day requirements of the City of Summerville from Southern Natural for the third year of operation are estimated at 1,416 Mcf, and annual requirements for the third year are estimated at 236,067 Mcf.

The City of LaFayette estimates its peak-day requirements from Southern Natural for the third year of operation at 1,053 Mcf, and estimates annual requirements for the third year at 180,837 Mcf.

The City of Trion estimates its peak-day requirements from Southern Natural for the third year of operation at 248 Mcf, and estimated annual requirements for the third year at 26,388 Mcf.

The City of Dalton, a municipal corporation organized and existing under the law of the State of Georgia, also filed, on March 22, 1954, an application pursuant to section 7 (a) of the Natural Gas Act for an order directing Southern Natural to establish physical connection of its transmission facilities with the facilities proposed to be constructed by the City of Dalton and to sell natural gas to it. The City of Dalton proposes to construct approximately 39 miles of 8-inch O. D. pipeline from a point of interconnection with Southern Natural's Rome-Calhoun transmission line to its proposed distribution system within the corporate limits of Dalton and the surrounding territory. The peak-day requirements of the City of Dalton from Southern Natural for the third year of operation are estimated at 5,348 Mcf and annual requirements for the third year are estimated at 1,383,278 Mcf. Total estimated cost of construction by the City of Dalton is $2,940,000 to be financed by the issuance of natural gas revenue anticipation certificates.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with § 1.8 or § 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10), on or before the 22d day of April 1954. The applications are on file with the Commission for public inspection.

[SEAL] LEON M. FUQUAY, *Secretary.*

[F. R. Doc. 54-2596; Filed, Apr. 7, 1954; 8:49 a. m.]

[Docket No. G-2391]

UNITED GAS PIPE LINE CO.

NOTICE OF APPLICATION

APRIL 2, 1954.

Take notice that on March 16, 1954, United Gas Pipe Line Company (United), a Delaware corporation having its principal place of business at Shreveport, Louisiana, filed an application pursuant to the provisions of section 7 (b) of the Natural Gas Act for permission and approval to abandon and remove pipe connections attaching a 2,200 H. P. transmission compressor station located in the Carthage Gas Field, Panola County, Texas, to its main transmission system.

United states that production from the Carthage Gas Fields is declining, and that to enable it to continue to obtain the quantities of gas available from its remaining reserves in the field it is necessary to reduce operating pressures in its gathering system in such field, and also to install new field compressor facilities to enable gas to continue to be delivered into its main transmission system at pressures of approximately 1,000 pounds. United accordingly proposes to remove the pipes connecting the transmission compressor station with its main system and use the station as part of proposed new field compressor facilities, alleging that the station is no longer needed as a part of its transmission system. Cost of such removal will be defrayed from current working funds.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before the 22d day of April 1954. The application is on file with the Commission and available for public inspection.

[Docket No. G-2393]

TRUNKLINE GAS CO.

NOTICE OF APPLICATION

APRIL 2, 1954.

Take notice that on March 18, 1954, Trunkline Gas Company (Trunkline), a Delaware corporation having its principal office at Houston, Texas, filed an application pursuant to the applicable provisions of section 7 of the Natural Gas Act for a certificate of public convenience and necessity authorizing the sale and delivery of natural gas to the City of Fairfield (Fairfield), Illinois, in a total volume up to 1,995 Mcf per day.

Trunkline states that in Docket No. G-1613 it was directed to establish physical connection of its system with the facilities of Fairfield, and to sell Fairfield up to 1,200 Mcf per day; that it is now selling such volume to Fairfield, and that Fairfield needs the additional volume of 795 Mcf per day to enable it to meet increasing market requirements. No new facilities will be required.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before the 22d day of April 1954. The application is on file with the Commission and available for public inspection.

[Project No. 2106]

PACIFIC GAS AND ELECTRIC CO.

NOTICE OF APPLICATION FOR LICENSE

APRIL 1, 1954.

Public notice is hereby given that Pacific Gas and Electric Company, of San Francisco, California, has filed application under the Federal Power Act (16 U. S. C. 791a–825r) for license for proposed Project No. 2106 to be located on the McCloud and Pit Rivers and their tributaries in the region of McCloud and Redding, California, and affecting lands of the United States in Shasta National Forest. The proposed project, to be known as "McCloud-Pit Project," would consist of eight dams varying in height from 10 to 225 feet above streambed; three reservoirs having a total gross capacity of about 172,700 acre-feet and an effective capacity of about 149,000 acre-feet; about 93,200 feet of tunnel; two powerhouses consisting of the "McCloud Powerhouse," on McCloud River, to house one 44,000 horsepower vertical turbine direct-connected to one 36,000 kva generator, and the "McCloud-Pit Powerhouse," on Pit River, to house two 107,000 horsepower turbines each direct-connected to one 86,500 kva generator, and one 70,000 horsepower turbine direct-connected to a 57,000 kva generator; one 110 kv single-circuit transmission line, about 15 miles long, from the McCloud Powerhouse to McCloud-Pit Powerhouse, and two 220 kv single-circuit transmission lines, each about five miles long from the McCloud-Pit Powerhouse to Applicant's interconnected transmission system; substations and switchyards; and miscellaneous hydraulic, mechanical, and electrical facilities and structures. The proposed McCloud-Pit Project will be developed initially to a capacity of 214,000 horsepower by the construction of McCloud Diversion Dam and Reservoir, McCloud Tunnel Hawk-

ins Creek Diversion, Iron Canyon Dam and Reservoir, Iron Canyon Tunnel, and McCloud-Pit Powerhouse. It will be developed to its total capacity of 328,000 horsepower by the additional construction of Upper McCloud Diversion Dam, Upper McCloud Tunnel, Elk Creek Diversion Dam, Elk Creek Tunnel, Squaw Valley Dam and Reservoir, Squaw Valley Tunnel, McCloud Powerhouse, and a second penstock and a third unit at the McCloud-Pit Powerhouse.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure of the Commission (18 CFR 1.8 or 1.10) on or before May 19, 1954. The application is on file with the Commission for public inspection.

[SEAL] LEON M. FUQUAY, *Secretary.*

SECURITIES AND EXCHANGE COMMISSION

[File No. 70-3189]

UNITED CORP.

NOTICE OF FILING OF APPLICATION FOR AMENDMENT OF ORDER

APRIL 2, 1954.

Notice is hereby given that The United Corporation ("United"), a registered holding company, has filed an application for an amendment of the Commission's order of May 2, 1952, granting an application filed pursuant to section 9 (c) (3) of the Public Utility Holding Company Act of 1935 ("act") for an exemption from section 9 (a) of the act with respect to a program for the investment of funds up to $24,500,000.

The proposed amendment would impose the following restrictions on the investment by United of any of its funds in lieu of the conditions presently applicable to its investment program until United shall have secured an order under section 5 (d) of the act declaring that it has ceased to be a holding company:

1. That United shall not acquire more than 4.9 percent of the voting securities (or securities convertible into voting securities) of any public utility company or of any holding company exempt as such from the provisions of the Public Utility Holding Company Act, or of any registered holding company or its subsidiaries, the system of which has been integrated and simplified as determined by order of the Commission under section 11 of the act, but shall not acquire any voting securities (or securities convertible into voting securities) of any registered holding company or any subsidiary of such registered holding company not in compliance with section 11 of the act, and shall not acquire any voting securities of any public utility company or holding company which is or has been a statutory subsidiary of United (except that United may acquire voting securities of any such prior statutory subsidiary in accordance with the exemption afforded by Rule U-40 (a) (3) under the act, provided such acquisition does not bring United's holdings of the voting securities of such company above the 4.9 per cent level).

2. That all other acquisitions of securities by United shall be subject to such limitations and restrictions as have been placed upon registered investment companies by the Investment Company Act of 1940, and the rules and regulations thereunder.

3. That United file with the Commission quarterly reports prescribed by section 30 (b) (1) of the Investment Company Act of 1940 and Rule N-30B1-1 promulgated thereunder.

4. That United transmit to its stockholders, at least semi-annually, reports prescribed by section 30 (d) of the Investment Company Act of 1940 and Rule N-30D-1 promulgated thereunder.

In addition, United has submitted formal statements of investment and fundamental policy pursuant to sections 8 (b) (1) and (2) of the Investment Company Act of 1940, which it proposes to follow pending the issuance of an order of the Commission under section 5 (d) of the act, and also a proposal to conform with the requirements of certain designated sections of the 1940 act to the extent that such conformity is not inconsistent with the requirements of the 1935 act.

United requests that the Commission's order to be entered herein become effective forthwith upon its issuance.

Notice is further given that any interested person may, not later than April 16, 1954, at 5:30 p. m., e. s. t., request the Commission in writing that a hearing be held on such matter, stating the reasons for such request, the nature of his interest and the issues of fact or law raised by said application which he desires to controvert, or may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, 425 Second Street NW., Washington 25, D. C. At any time after April 16, 1954, said application, as filed or as amended, may be granted, or the Commission may take such other action as it deems necessary or appropriate.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

CENTRAL POWER AND LIGHT CO.

ORDER PERMITTING DECLARATION TO BECOME EFFECTIVE REGARDING ISSUE AND SALE OF NEW BONDS BY SUBSIDIARY OF REGISTERED HOLDING COMPANY AND PARTIAL REDEMPTION OF OUTSTANDING BONDS

APRIL 2, 1954.

Central Power and Light Company ("Central"), a public-utility subsidiary of Central and South West Corporation, a registered holding company, has filed with this Commission a declaration, and an amendment thereto, pursuant to sections 6 (a), 7 and 12 (c) of the Public Utility Holding Company Act of 1935 ("act") and Rules U-42 and U-50 promulgated thereunder, with respect to the following proposed transactions.

Central proposes (a) to issue and sell, pursuant to the competitive bidding requirements of Rule U-50, $18,000,000 in principal amount of its First Mortgage Bonds ("New Bonds") Series F, -- percent, to be dated April 1, 1954, and to mature April 1, 1984, and (b) to redeem in May, 1954, at 105.68 percent of principal and accrued interest to the redemption date, the $8,000,000 in principal amount of its presently outstanding First Mortgage Bonds, Series E, 4¼ percent, due May 1, 1983.

The New Bonds will be issued under and secured by an Indenture of Mortgage, dated November 1, 1943, between Central and The First National Bank of Chicago and Robert L. Grinnell, as Trustees, as amended by indentures supplemental thereto (the last supplemental indenture being dated May 1, 1953) and to be further amended by a proposed Supplemental Indenture to be dated April 1, 1954, between Central and the Trustees under said Indenture. The interest rate and the price to be paid Central for the New Bonds will be determined by the bidding, except that the invitation for bids will specify that the price (exclusive of accrued interest) to be paid the company shall not be less than 100 percent nor more than 102.75 percent of the principal amount thereof.

Central represents that the net proceeds (exclusive of accrued interest) to be received from the issuance and sale of the New Bonds will be used as follows: (a) approximately $10,000,000 will be applied toward the payment of the cost of Central's construction program, estimated in the amount of $48,000,000 for the years 1954–1955, and (b) approximately $8,000,000, together with other company funds to the extent required will be used to redeem as aforesaid Central's presently outstanding First Mortgage Bonds, Series E, which redemption will require approximately $8,454,400, exclusive of accrued interest.

No State commission, and no Federal commission other than this Commission, has jurisdiction over the proposed transactions.

Fees and expenses of the issuance and sale, other than underwriter's commission or compensation, are estimated as follows:

Securities and Exchange Commission filing fee	$1,872
Federal original issuance stamp tax	19,800
Printing of registration statement, prospectus, bidding documents, supplemental indenture, etc.	7,000
Preparation of bond pieces	3,600
Trustee's fees:	
Redemption of Series E bonds	2,600
Authentication of Series F bonds	8,450
Accountant's fees	1,500
Fees for recording of supplemental indenture	1,000
Fee of Middle West Service Co.	7,000
Miscellaneous expenses, including traveling, telephone, etc.	1,678
Total estimated expenses	54,500

Counsel fees of Stevenson, Dendtler, Bailey & McCabe, counsel for Central are covered by annual retainer or salary agreements. The fees ($8,000) and disbursements (estimated at not more than $250) of Isham, Lincoln & Beale, counsel for the purchasers, are to be paid by the successful bidders. In addition, the company will reimburse the successful bidders for all fees and expenses payable to Isham, Lincoln & Beale in an amount not exceeding $2,500 which is the estimated aggregate of expenditures in connection with the qualification or registration of said bonds under state securities laws.

Central requests that this Commission's order to be issued herein become effective forthwith upon its issuance.

Due notice having been given of the filing of the declaration, and a hearing not having been requested of or ordered by the Commission; and the Commission having examined the filing and finding that the applicable provisions of the act and the rules promulgated thereunder are satisfied and that no adverse findings are necessary, and that the fees and expenses as estimated are not unreasonable; and the Commission deeming it in the public interest and the interest of investors and consumers that said declaration, as amended, be permitted to become effective forthwith:

It is ordered, Pursuant to Rule U-23 and the applicable provisions of the act, that said declaration, as amended, be and it hereby is permitted to become effective forthwith, subject to the terms and conditions prescribed in Rules U-24 and U-50.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[File No. 70-3221]

NORTHERN STATES POWER CO.

ORDER REGARDING ISSUANCE AND SALE OF COMMON AND PREFERRED STOCK BY REGISTERED HOLDING COMPANY AND ISSUANCE AND SALE OF COMMON STOCK OF SUBSIDIARY TO PARENT

APRIL 2, 1954.

In the matter of Northern States Power Company (A Minnesota Corporation), and Northern States Power Company (A Wisconsin Corporation) File No. 70-3221.

Northern States Power Company, a Minnesota Corporation ("Minnesota"), a registered holding company and a public-utility company, and its public-utility subsidiary, Northern States Power Company, a Wisconsin Corporation ("Wisconsin"), having filed with this Commission an application-declaration, as amended, pursuant to sections 6, 7, 9, and 10 of the Public Utility Holding Company Act of 1935 ("act") and Rules U-23, U-24, U-43, and U-50 promulgated thereunder, regarding certain proposed transactions which are summarized as follows:

Minnesota proposes to issue and sell 1,219,856 additional shares of its common stock of the par value of $5 per share and 150,000 shares of a new series of its cumulative preferred stock of the par value of $100 per share (such class being hereinafter referred to as the "Preferred Stock").

Wisconsin proposes to issue and sell, and Minnesota proposes to purchase and acquire, during the balance of the year 1954, an aggregate of not to exceed 40,000 shares of the par value of $100 per share of the common stock of Wisconsin at $100 per share.
